A word from our COO

Dear Customer,

At B&H, our commitment is to you, our customer. We offer the widest array of products of any photo, video, and pro audio retailer in the world, ensure their availability, and price them competitively. Even in these difficult economic times, we remain devoted to serving you with expertise, knowledge, and the understanding it takes to help you make informed decisions.

With our reputation for honesty and outstanding customer service, I know you'll find the B&H experience to be a truly pleasant and rewarding one. Even though we have kept the bar high for more than thirty years, our attitude is never complacent. That means that we're constantly working to find new ways to offer you the best in products, valuable expertise, and personal attention.

In addition to browsing this catalog, we invite you to visit our SuperStore, as well as our Web site at bhphotovideo.com, and learn about products and technology in greater depth. Our sales staff of seasoned, knowledgeable industry professionals is here to help you accomplish your shopping goals.

Thank you for your patronage. We look forward to serving you time and again.

Sincerely,

Jacob Moskowitz

SAGEMAX
PROTECTION PLAN

SAGEMAX offers customers extended product protection beyond the manufacturer's warranty, up to five years from date of original purchase. The SAGEMAX warranty not only covers defects in materials and workmanship, but also failures from normal wear and tear, damage from power surges as well as mechanical or electrical breakdowns. In addition, portable electronic products and computers are protected from incidental damage caused by mishaps.

Government, Education & Corporate Sales

For all Government, Education, and Corporate sales, our dedicated Account Executive manages your account with personal service to ease and expedite the procurement process. B&H's seasoned professional staff is available to you via your Account Executive, who will answer your questions and support any special or unique requests.

ICD-SX700D: includes Dragon NaturallySpeaking® v10 R.E., voice to print software *(SOICDSX700D)* **168.95**

SONY

ICD-MX20 • ICD-MX20DR9

With the option of using the built-in 32MB flash memory, or utilizing Memory Stick Duo or Pro Duo media cards, the ICD-MX20 provides virtually unlimited capacity. This is especially important if you're at a long conference, and don't have time to download your files to a computer. Just put in a new Memory Stick Pro Duo media card, and keep recording. Each card can hold over 300 personalized folders, which makes organizing your audio a simple process. Otherwise the same, the ICD-MX20DR9 comes bundled with Dragon® NaturallySpeaking® Preferred Voice to Print Software to easily convert your audio files to text.

- Hybrid 32MB Flash/Memory Stick PRO Duo Slot allows you to record dictation on built-in memory or high capacity (up to 512MB) Memory Stick cards.
- High-speed USB 2.0 download to PC
- Dictation correction function lets you correct your notes
- Listen to the recording level by using headphones while the unit is recording and adjust accordingly.
- STLP mode lets you record up to 2¼ hours (on 32MB flash memory) while maintaining 2-channel recording.
- VOR (voice operated recording) –starts and stops recording automatically. Plus, you won't miss a single syllable thanks to the digital buffer.
- Organize over 300 message folders on a Memory Stick by type, such as Sales Letters, Customer Service Replies, Memos, Action Items, Personal, etc.
- Built-in stereo and directional microphones eliminate the need for an external microphone for convenience and ease of use. (Still offers an external mic input).

ICD-MX20 *(B&H# SOICDMX20)*..... **194.95**

ICD-MX20DR9 *(B&H# SOICDMX20DR9)*..... **236.79**

ICD-BM1B

Featuring up to 46 hours recording time with supplied 128MB Memory Stick media, the ICD-BM1B is ideal for professionals, students or anyone on the go. Organize and edit recordings in 340 folders, then use the supplied digital voice editor software to send audible e-mails with an attached file. Comes equipped with a built-in speaker, hold button, date display, battery level indicator, alarm and digital clock. Seeing data and listening to audio is easy with the large LCD display for showing recording data and 350mW speaker output.

- Slide switch allows for one-button operation of all major functions
- High-speed USB 2.0 download to PC
- Digital pitch control
- Selectable microphone sensitivity
- Compatible with Dragon NaturallySpeaking software
- Overwrite (correction) function and voice operated recording

ICD-BM1B *(B&H# SOICDBM1B)* **299.00**

PHILIPS

ARCHOS

ARCHOS 5 Internet Tablet

Enjoy continuous and instant access to the internet, media and TV—plus t he ANDROID operating system. In perpetual evolution with the continuous arrival of new applications, you can personalize the ARCHOS 5 Internet Tablet by downloading the applications you want from the AppsLib store. There is also a selection of pre-installed applications.

Built-in 802.11 b/g/n lets you surf the Web on the go without having to zoom in and out—web pages are displayed in full width just like on a PC (with Wi-Fi or the 3.5G mobile phone) and stay in contact by using the full integrated Email and contacts applications. Play HD videos and view photos on the incredibly sharp 5" touchscreen. Watch Digital TV or record it directly or set up a scheduled recording with the optional DVR Station—and watch anytime and anywhere you want— or watch on a large-screen HDTV via the the optional HDMI Mini Dock.

- Quick and responsive Internet browsing just like on your laptop. No more endless waiting for the page to be loaded.
- Access nearly 1,000 Web TV channels, over 10,000 Web radio stations and 100,000 podcasts in less than 3 clicks.
- High-resolution (800 pixels wide) 5" screen delivers the finest image available on a portable device.
- Able to handle widest range of video formats even at HD 720p resolution (H.264 HD, MPEG-4 HD, WMV HD6).
- Customize it by putting your favorite applications in the extended screen and moving them to the window of your choice simply by dragging it with your finger.
- Browse through photos with a simple flick of the finger or play a slideshow of your last vacation, with transition and music effects.
- Use your in portrait or landscape mode by simply tilting the device thanks to the accelerometer.
- Download your entire CD collection and create playlists without using a PC. Album artwork covers bring your music to life.
- Transfer files quickly and easily via the USB 2.0 connection to a PC (can be used as a portable hard drive).
- Built-in GPS with voice assistance, Points Of Interest, multiple-route calculations, car, pedestrian and adventure mode based on the latest maps from Tele Atlas™ with 3 landmarks in 3D.

Archos 5: Available in flash memory configurations (with a micro SD/SDHC card slot to increase the capacity) or in a hard drive version.

Archos Clipper

A coin-sized MP3 player, the Archos Clipper comes with a convenient clip that makes it easy to take with you to the gym, running between lessons or commuting to the office. Weighing less than 0.5 ounces, its so small and light you'll hardly notice it.

- 2GB of storage capacity—enough for 1000 songs or 60 hours of music and podcasts
- Navigate through your music with the skip feature or add surprises with shuffle playback
- Up to 11 hours of music with internal rechargeable battery

Archos Clipper *(B&H# ARC2B)*.....**29.99**

COBY **MP610 • MP705 • MP836** Video & MP3 Players

Featuring an ultra-slim design and easy-to-use controls, the MP610 puts your entire media library in the palm of your hand. Listen to music, view photos and watch video on the vivid 1.8" LCD screen. Integrated flash memory, USB 2.0 Hi-speed file transfer, and up to 4GB of storage make it quick and easy to take digital entertainment wherever you go. FM radio also included. The super-slim 8GB MP705 steps up with a 2" full-color LCD screen with elegant touchpad interface and plays digital music from most online stores and subscription services. Available in 8GB or 16GB, the ultra-sleek MP836 steps-up with cutting-edge touchscreen controls on a large 3" widescreen (480 x 272) LCD for a great viewing experience. An integrated microSD card slot allows for quick and easy memory upgrades

COWON

O2 Portable Multimedia Player

Compact for maximum portability but packed with features, the O2 comes with T-DMB receiver, electronic dictionary, and can playback DivX, XviD, MPEG4, WM9, H .264 video files and WMA, MP3, AC3, AAC, FLAC, OGG audio files. It features a 4.3" touch-screen display, SD cards slot, and comes with 16GB or 32GB of storage capacity.

- Davinci chipset handles various codecs so you can spend more time enjoying your media instead of decoding it.
- With 10-band EQ, BBE (refines sound quality), Mach3Bass (provides deeper, tighter more musically accurate bass), MP Enhance (restores and enhances the harmonics lost through compression), and 3D surround (provides three-dimensional surround sound effect), Cowon's JetEffect brings compressed music to life.
- Share your favorite JPEG, GIF, PNG, TIF, BMP, and even RAW images on the go.
- Besides watching videos on the vibrant 4.3" screen, it has a composite output for connection to a TV.
- Text viewer lets you view nearly any text file, and you can add support for pdf, Microsoft Word, PowerPoint and Excel files. Adjust font size, character spacing, color and properties to your preference.
- Rechargeable battery can power the O2 for up to 18 hours of audio or 8 hours of video playback.
- Take notes with the note pad feature or take voice memos with the built-in microphone

S9 Portable Multimedia Player

With its stylish, titanium/black face and curved-back ergonomic design, ease-of-use, and comfortable grip, the Cowon S9 is quite the eye-catcher, and the perfect way to enjoy your favorite movies, TV shows, photos, and music on the go. Features incredible audio quality, JetEffect Music Enhancement, vibrant 3.3" AMOLED wide touchscreen display, intuitive user interface, Bluetooth capability, voice recorder with built-in mic, FM radio/recorder, and much more.

- The thinnest display available, the 3.3" scratch-proof, tempered AMOLED (Active-Matrix Organic Light Emitting Diode) screen with 480 x 272 resolution is viewable from virtually any angle and looks great in the dark or in direct sunlight. AMOLED has a super fast response, leaving no ghost images when playing sports and movies. Has a 10,000:1 contrast ratio.
- Supports AVI, WMV, MP3, WMA, FLAC, OGG, WAV video and audio file formats and Xvid, SP/ASP, WMV9, SP/MP, MPEG1 Layer 1/2/3, WMA, FLAC, OGG Vorbis, OGG and FLAC video & audio codecs.
- BBE+ sound effect technology takes audio to the next level, taking your breath away.
- JetEffect 2.0 audio technology with improved EQ filter, Mach3Bass, 3D Surround and MP Enhance audio processing.
- FM radio with 24 user-presets, record live radio for later listening. Plus, never miss a precious moment with voice and line-in recording.
- Play 55 hours of audio or 11 hours of video on a single charge

D2+ 16GB Portable Media Player

The compact, ultra-stylish D2+ features a 2.5" QVGA (320 x 240) LCD touchscreen that is perfect for viewing movies and photos wherever you are. It also has a built-in FM tuner, and supports MP3, WMA, OGG WAV, APE and FLAC audio codecs. Built in microphone lets you record memos or lectures on the fly. You can also record from external sources with the line-in jack. Internal Li-poly rechargeable battery handles up to 52-hours of continuous audio playback battery life, or 10-hours of video. Recharging is as simple as hooking up to the USB connector, or via the wall jack.

- Memory expansion slot for SD/SDHC or MMC cards
- Superb sound quality with BBE+ Sound Enhancements
- Supports MP3, WMA, Ogg, WAV, FLAC, APE files
- Supports Xvid, WMV9 movie files
- Voice recording, and line-in recording
- FM radio and FM radio recording
- Extra utilities like calculator, notepad, and a Flash game player
- Compatible with Mac and PC computers

SONY

NWZ-W202B

Shed the wires with this ingenious Walkman. With the remarkable design of the compact NWZ-W202B —2GB of memory built directly into the high-grade Sony headphones—you never have to worry about dangling wires again. New "Zappin" function with jog dial operation lets you find songs easily by scanning through your tunes and playing a portion of the main melody and letting you choose to skip or play it. Includes a handy dock, perfect for charging and loading your music.

- Superior sound with 13.5mm EX headphones
- Runs 12 hours on a fully charged battery (takes just 30 minutes to fully charge), or get 90 minutes of playing time in Quick-Charge mode—only 3 minutes to charge!
- Sony's Unique Spiral form headphones fit comfortably behind the neck.
- Supplied "Content Transfer" lets you easily transfer non-DRM music files by "drag and drop" from online music services.

NWZ-W202 *(B&H# SONWZW202B)*: Black with holder and charging stand.....**66.59**

NWZ-E340 Video MP3 Player

- Slim, compact design–1.8 x 3.5 x 0.4" (WxHxD), and user-friendly interface makes it easy to enjoy your favorite music, photos or videos wherever you go.
- Listen to up to 30 hours of music and watch up to 4 hours of video before having to recharge the battery
- 2" QVGA (320 x 240) high-brightness screen color LCD
- Manage music, pictures, and video files via drag-n–drop on your compatible PC.
- Supports high-quality video formats (AVC (H.264/AVC), MPEG-4, and WMV), as well as a variety of audio codecs (MP3, WMA, AAC-LC (.mp4), and L-PCM (.wav)
- Clear Bass reproduces clear bass sound quality without distortion; Clear Stereo prevents audio signal leaking from one channel to another; Dynamic Normalizer balances the volume level between songs.
- Built-in FM tuner; includes headphones and USB cable

X-Series Walkman Video MP3 Players

With a stunning 3" wide OLED touch-screen display, digital noise cancellation and wireless connectivity, the X-Series takes portability to the next level. Equipped with built-in Wi-Fi, you can connect to the internet and access your favorite websites. You can also subscribe and receive podcasts directly.

S-Master digital amplifier and Digital Sound Enhancement Engine (DSEE) fill in the high tones that are lost during file compression, enhance bass and minimize distortion. A unique digital noise canceling (DNC) software engine blocks ambient noise, while providing a high-quality audio experience. Travelers can turn on the noise canceling feature and get peace and quiet even without listening to music. As an added bonus, they come with 100 free music downloads from Sony Music.

- 3" OLED display delivers a picture with extremely high contrast, exceptional color reproduction and a rapid response time.
- A wide 180° viewing angle gives consistent tone and stable contrast, as well as a wide range of color reproduction and a high contrast ratio.
- Utilizes both touch panel operation and a hybrid button system to improve upon the navigation experience.
- Supports multiple high-quality video formats including AVC (H.264/AVC), MPEG-4 and WMV giving you more freedom to download the kinds of video that you want.
- Included 13.5mm EX headphones deliver premium noise cancellation, along with balanced and rich sound.
- Long-lasting battery lets you listen to music for up to 33 hours or watch 9 hours of video before you need to recharge.

SAMSUNG

U5 2GB MP3 Player

Small and lightweight, the built-in USB makes downloading files easy and 2 GB gives you enough space for 500 songs. Want more music? Has built-in FM tuner.

- Simply slide out the USB and you're ready to connect to a PC or audio system without the hassles of wires.
- FM and voice recording, perfect for future listening and capturing personal notes, lectures, and meetings.
- Measures just 4 x 2.6 x 1.5" (H x W x D) and weighs under 2 oz.

Available in Blue *(SAU52BL)*, Red *(SAU52R)*, White *(SAU52W)* and Black *(SAU52B)* **39.00**

S3 4GB Portable Media Player

Listen to your favorite tunes or watch crystal-clear videos on the 1.8" LCD display. Available in five cool colors, the YP-S3 plays audio, video and displays still pictures, and text. It also comes with 4GB of memory and DNSe sound engine for a superior surround sound experience.

- Touch sensitive LED control pad lights up when in use and dims after inactivity.
- FM tuner/recorder scans entire FM range in 60 seconds; places available stations into presets.
- Also offers five games, a world clock and an alarm

Available in Black *(SAS34B)*, Red *(SAS34R)*, Blue *(SAS34BL)*, Green *(SAS34G)* and White *(SAS34W)* **79.00**

Q2 16GB MP3 Player

Light-up touch-pad controls let you intuitively navigate through the menus on the 2.4" LCD. 16GB internal flash memory lets you store up to 4,000 songs. It is also an FM tuner, photo and text viewer, voice recorder and more. Enjoy up to 50 hours of audio playback and up to 4 hours of video on a single battery charge.

- 2.4" LCD display shows video, images and text files as well as a mood interpretation of your music.
- DNSe engine brings compressed MP3 files back to life by reproducing the stereo sound your music was originally recorded in.
- Connect to either a Mac (UMS) or Windows (MTP) system, and choose between jukebox or drag-and-drop transfer modes.
- Supports MP3, Flac, OGG, WMA audio, MPEG4 and WMV video

In Black *(SAQ216B)*, Blue *(SAQ216BL)* & White *(SAQ216W)* **119.00**

P3 Widescreen Portable Multimedia Player

Just 0.39" thin, the P3 squeezes a 3" scratch resistant full 16:9 LCD touchscreen, video (also supports DIVX) and audio player, photo album, FM radio/recorder, voice recorder, and a portable storage drive in one compact device. Can also be paired with a Bluetooth enabled phone using the mic to answer calls through the player.

- With true haptic feedback, the P3 reacts with a variety of physical sensations to every gesture for a more intimate experience.
- Music Hot Touch Key to instantly access favorite music features and selections without needing to cycle through multiple menus.
- Samsung's DNSe 3.0 sound enhancement technology ensures listeners experience the most natural, full-bodied sound possible.
- Zoom, rotate or create a slide show with your photos. For text, you can scroll, adjust font size, or let it do the reading for you.

iPod shuffle The World's Smallest Digital Music Player

The new iPod shuffle is so small, it doesn't have room for a screen, controls or even buttons. To create the world's smallest music player (1.8" tall x 0.3" thin), Apple moved the controls to the earbud cord. This makes the new iPod shuffle dramatically smaller and easier to use, with the controls located where you can access them quickly. And even though it is smaller than a "AA" battery, it packs 2GB or 4GB of memory to hold 500 or 1000 songs.

- With the press of a button, the VoiceOver feature tells you what song is playing and who's performing it. It can even tell you the names of your playlists, giving you a new way to navigate your music.
- The shuffle switch has three positions. Flip it to the left, and your music shuffles for a "whatever happens, happens" flow. Flip it to the middle, and your songs play in order. Or flip to the right to turn it off.
- The stainless steel iPod shuffle clip attaches securely to your shirt, jacket, workout gear, or even your backpack.
- An optional anodized aluminum case — available in silver or black — makes iPod shuffle a wardrobe essential.

Jam along with your iPod! JamDock is the cleanest way to integrate your iPod into your practice or live music setup. You can connect and mix in nearly any instrument including electronic drums and send your mix to the stereo outputs and headphone output. JamDock is the first dock for iPod that was designed specifically for musicians. Nearly every musician has an iPod, but until JamDock, there has never been an easy and clean way to integrate your iPod into your practice or stage setup.
JamDock enables you to mix your iPod and your instrument and practice with headphones, amp, or PA system. You can also use your iPod to play backing tracks live. JamDock has two 1/4" inputs that work with both line-level sources and high-impedance guitars and basses. The inputs sum to mono when there is only one side present, so you'll hear your guitar on both sides of your headphones. A pair of 1/4" outputs feed your amplifier or PA system, and a 1/4" stereo output feeds your headphones.

iRecord Personal Media Recorder

The iRecordis a portable media recorder for portable USB storage devices, iPods and PSPs. Just connect the video source to the composite or S-Video connections, plug in the USB device and hit record and the media will be recorded to your device. The iRecord's H.264/AVC and AAC encoding give 3 hours of A/V recording time on just 1GB of storage space.

- Records directly to audio and video iPod, PSP and any USB 2.0 mass storage device
- Records from any analog video source including DVD player, TV, TiVo, VCR, or any cable/satellite set-top box
- Supports NTSC, PAL, and SECAM video standards
- Encodes high-quality H.264 video with AAC audio at 320 x 240
- Encodes music using MP3 encoding standard; supports both Windows and Macintosh iPods
- USB card readers let you use many removable storage devices with iRecord (SD, MMC, Memory Stick, CompactFlash etc.)

myvu
personal media viewer

Crystal Works Personal Media Viewer

The Myvu Crystal Works turns any space into your own personal movie theater. Connect the Crystal to your compatible iPhone or iPod to watch videos or play games. With this personal media viewer you can free yourself up from confining LCD screens without disturbing others, no matter where you are. Just connect your player via the appropriate cable and enjoy all your video media.
Comfortable and lightweight discrete pair of viewing glasses deliver 640 x 480 VGA video that has a 22.5° diagonal field of view with a 4:3 aspect ratio (standard view). When you want to change the volume, contrast or brightness, the handheld pendant control is easy to operate. The stereo earphones feature excellent audio quality with noise reduction for an all-encompassing experience. The Crystal runs off a rechargeable internal lithium polymer battery that features up to 4 hours of battery life per charge. Works with your iPhone 3G and original iPhone, as well as the iPod Classic, Touch and Nano.

Crystal Works *(B&H# MYCIPB)* **299.95**

ezGear
ezVision X4 Video Glasses

ezVision x4 offers you a 64" virtual screen that fit like a pair of glasses. Now you can watch TV in privacy. Whether you are on a plane or you're a night owl and don't want to disturb your partner, the ezVision allows you to watch in complete privacy. Ultra lightweight with built in earphones you can enjoy movies, music videos, cartoons, and podcasts.

- Simulates a 64" TV screen with a 4:3 aspect ratio when viewed at a distance of 8.5'.
- Runs up to 5 hours on a Lithium Ion rechargeable battery pack
- The battery pack is just 1/2" thick and includes your power switch and volume control.
- Built-in quality earphones with an integrated earphone holder and a coiled cable to keep the wires neat.
- ezVision Video Glasses are completely compatible with your iPod. For iPod video, a small adapter cable is all you need. For the new iPod Touch, iPod Classic, or iPod nano, you need and iPod Composite A/V Cable to connect to the ezVision.

ezVision x4 *(B&H# EZX4VG)*: Includes 2 customizable nose pieces, rechargeable battery, A/C charger, RCA and iPod video cables **349.00**

ZEISS
Cinemizer Plus Head Mounted Video and 3D-video Eyewear

The Cinemizer combines high-resolution LCD screens with individual diopter focus adjustment (-3.5 to +3.5D). This means even if the user wears glasses the screen image can be focussed for crystal-clear viewing. The resulting image is optically tuned to appear as virtual 45-inch screen, as viewed from six feet away.

- Ability to override the built in headphones and plug in third party models. This means that users that have high-end audio equipment can use them with the Cinemizer plus.
- 3D mode enables stereoscopic viewing of 3D content. Content that is produced in side-by-side 3D format can be displayed from any video source, then the views are split for left and right screens. The resulting experience is a rich and immersive 3D image.
- The Cinemizer is "Made for iPod" which means it is designed specifically to work with all iPods that have video. The Cinemizer also works with both the original and the 3G iPhone.

Cinemizer Plus *(B&H# ZECPVGB)* **449.00**

iPhone 3G/3G S Accessories

Zacuto Zgrip iPhone PRO

The Zgrip iPhone PRO is an effective solution for capturing smooth and stable professional quality video with your iPhone 3GS. The system's space-age design resembles a robotic arm that holds your iPhone securely with its adjustable, quick release handgrip. The grip fully articulates and features levers that allow for minute adjustments to help you get exactly the shot you want from any angle.
To use the Zgrip, simply place your iPhone into the cradle, snap the cradle onto the grip, and begin shooting. Capture previously unattainable smooth and steady video. Includes lifetime warranty.

BOSE SoundDock® Series II
Digital Music System

Enjoy music from your iPhone or iPod in rich, room-filling sound. Proprietary acoustic design delivers a unique combination of small size and powerful performance. Infrared remote controls basic functions of the iPhone or iPod and the system from almost anywhere in the room. Charges the iPhone or iPod while docked.

Gloss Black *(B&H# BOSDIIB)*.....**299.00**
Silver *(B&H# BOSDIIS)*.....**299.00**

BOSE SoundDock® Portable
Portable Digital Music System

Waveguide acoustic technology and powerful neodymium speakers produce rich sound and allow for a thin profile. Reproduces audio with higher quality and more efficiency than most other battery-powered speaker systems. Lithium-ion battery allows the system to play at higher volumes and for a longer time between charges than most other systems.

Black *(B&H# BOSDBL)*.....**399.00**
White *(B&H# BOSDWH)*.....**399.00**

BOSE SoundDock®10
Digital Music System

- The best performing SoundDock for your iPod or iPhone
- Play content from your iPod or iPhone on a TV through the video output.
- Charge the iPod or iPhone while you listen.
- Remote operates iPod or iPhone functions and playlist navigation.
- Enjoy music from a Bluetooth phone with optional Bluetooth dock

Silver *(B&H# BOSD10S)*.....**599.95**

ALTEC LANSING M402SR Moondance Glow
Stereo/Alarm Clock for iPod

Compatible with all docking iPods, the Moondance Glow can wake you, entertain or relax you, all at the touch of a button. Mood lighting function lets you choose your color and intensity, then splash it on the wall; or turn it off.

- Dual alarms wake you with your favorite tune, FM radio station or standard alarm.
- Amber LCD with dimmer light displays song and FM data feeds

M402SR *(B&H# ALM402SR)*.....**119.95**

ALTEC LANSING iMT702 inMotion MAX
Portable Digital Music System for iPhone and iPod with FM Radio

Proprietary ESS technology, XdB bass-enhancement and twin precision-matched speakers produce lush sound from an iPhone/iPod, or the built-in FM radio. Surprisingly large stereophonic range fills any size room with rich, realistic, distortion-free audio. Automatically pauses music when a call comes in and is fullly immune to SM and Wi-Fi signals.

iMT702 inMotion MAX *(B&H# ALIMT702)*.....**139.95**

ALTEC LANSING M302 Moondance Home
Music/Alarm Clock for iPod

Crystal clear sound in a space-saving design wakes you up to iPod, radio or alarm with progressive alert volume. Use onboard controls for the sleep timer, dual alarms, snooze, radio tuning or enjoy the convenience of the full-function remote.

- Charges your iPod
- Large LCD display with dimmer light
- FM radio w/digital tuning and wire antenna for superior reception

M302 Moondance Home *(B&H# ALM302)*.....**79.95**

ALTEC LANSING inMotion T612
Speaker for iPhone or iPod

DMP-B15 Portable Blu-ray Disc Player

The DMP-B15 is designed to provide the ultimate high definition Blu-ray experience for those on the go. It features a high quality 8.9" WSVGA LCD screen and includes the unique VIERA CAST™ internet accessibility and BD Live functionality. The DMP-B15 provides all the technology found in its stand alone brethren, the DMP-BD60, DMP-BD80 and the VHS-Blu-ray dual player DMP-BD70V. Image quality is of the highest level, thanks to PHL Reference Chroma Processor Plus technology developed in collaboration with Panasonic Hollywood Laboratory.

DMP-B15 *(B&H# PADMPB15)* **799.00**

DMP-BD60 • DMP-BD80 • DMP-BD70V Blu-ray Disc Players

Panasonic's DMP-BD60, DMP-BD80 and DMP-BD70V Blu-ray Disc players feature Full-HD Playback and an HD Audio Decoder bringing movies in all their original quality right into your living room. They are also equipped with a enhanced networking functions and host of conveniences. The DMP-BD80 steps-up with 7.1 channel analog output to produce true 7.1 surround sound, offering users a home theater environment that rivals the movie theater. The DMP-BD80 also includes a playback information window that can be used to display detailed image information while a movie is playing. The DMP-BD70V is the world's first dual deck VHS-Blu-ray player, offering multi-format playback of VHS, CD, DVD and 1080p high definition Blu-ray Discs.

- Each employs the PHL Reference Chroma Processor Plus to reproduce clear, vivid colors that are faithful to the original film.
- High definition audio decoder (Dolby Digital Plus, Dolby TrueHD, and DTS-HD Master Audio Essential) takes advantage of Blu-ray's exceptionally high quality 7.1 channel surround sound.
- VIERA Link allows users to operate audio/video components, via HDMI, with one remote.
- An internet enabled technology, VIERA CAST lets users access the web without an external box or a PC, providing access to Amazon's VOD extensive library of streamed titles, YouTube, Google's Picasa Web Album, Bloomberg and a weather channel.
- They include an SD Memory card slot and USB slot, making it easy to view and share both digital still images and HD video recorded with an HD camcorder in the AVCHD format.
- They up-convert content recorded in the 480i/p or 720p format to 1080p. They also provide 1080/24p output, thereby reproducing cinema images from a Blu-ray Disc and DVD in their original 24p form with no need for conversion.
- 96kHz surround re-master function enhances the sound quality of CDs and other sources, and even improves the quality of the multi-channel audio data on Blu-ray Discs and DVDs.

Pioneer

BDP-120 Blu-ray Disc Player

The BDP-120 provides 1080p resolution and x.v.Color for unrivaled picture quality. Couple that with true 24fps playback and equally impressive sound transmitted through built-in high-definition Dolby True-HD and DTS-HD Master Audio decoders and you're sure to experience what the director intended.

- Quick Start Mode virtually eliminates power-on time, giving you much quicker access to all of your movie titles.
- Play high definition DVD discs recorded by digital video cameras in AVCHD format.
- Skip scenes (30 sec.) or play back (10 sec.) a dialog you missed, by the push of a button
- Included 1GB flash drive and USB expandability offer the full benefits of downloading additional content off the internet along with all the other endless options available through BD-Live.
- Enjoy special disc contents in Picture-in-Picture form, and also download additional content from the web, such as the director's interview and languages not contained on the disc.

BDP-120 *(B&H# PIBDP120)* **199.95**

BDP-320 Blu-ray Disc Player

For even more spectaculare picture quality, the BDP-320 incorporates state-of-the-art technology such as Advanced Picture Control Suite supported by 48-bit Deep Color, triple high-definition NR and the latest generation PureCinema Progressive Scan.

- Advanced HD GUIs for easy navigation
- USB input for BD-Live Contents Storage
- Supports 48-bit Deep Color, offering high definition images with superb color detail.
- Picture Control Suite offers 13 different video adjustments
- With 2-channel HDMI PQLS (Precision Quartz Lock System), CD audio transmits without jitters to compatible Pioneer receiver.
- Triple High-Definiton NR (Noise Reduction):
  - Component Frame NR lowers Gaussian noise without blurring the picture
  - Block NR reduces block noise (mosaic like artifacts)
  - Mosquito NR reduces fluttery noise around the edges of objects
- 7.1-channel analog audio outputs for compatibility with non-HDMI equipped receivers and preamps.

BDP-320 *(B&H# PIBDP320)* **299.95**

SONY

BDP-S360 • BDP-N460 • BDP-S560 Blu-ray Disc Players

Slim with a gloss black finish, Sony's Blu-ray disc players deliver full HD 1080p and 24p True Cinema output, offer deep color output and x.v. color support (HDMI 1.3), decode the latest audio codecs, upscale standard DVD to 1080p, and are BD-Live capable. For added convenience, they also feature a Quick Start mode and easy to navigate xross media bar based menus system.

- Incorporates Sony's Precision Cinema HD Upscale technology to convert standard definition DVDs to near HD quality.
- Support 7.1 channel Dolby TrueHD and Dolby Digital Plus, DTS-HD High Resolution Audio, and DTS-HD Master Audio ecoding as well as bit-stream output via HDMI.
- Sony's Precision Drive supports stabilization of the playback of bent or scratched Blu-ray Discs and DVDs.
- Support Deep Color video output and AVCHD discs encoded with x.v.Color technology. They are also compatible with an array of video formats.

BDP-N460 Only:

Instantly stream thousands of movies, videos, music and more from over 25 leading content providers. Simply connect the BDP-N460 to your existing internet connection and you can quickly and easily enjoy the convenience of instant streaming of online entertainment from over 25 different providers, including Netflix, Amazon Video-on-Demand, Slacker and YouTube, all using a simple and easy to navigate interface.

BDP-S560 Only:

- Offering built-in Wi-Fi (802.11n), the BDP-S560 can download and stream BD-Live content including additional scenes, short subjects, trailers, interactive games, and more. Compatible with most wireless routers, the BDP-S560 also supports Wi-Fi Protected Setup, and is Digital Living Network Alliance (DLNA) ready, allowing it to connect to other DLNA compliant devices to share digital photos.
- Offers a front USB port for viewing photos from a USB flash drive or directly from a digital camera.

Blu-ray Disc Players

BD-P3600

BD-P4600

The entry-level BD-P1600, high-performance BD-P3600 and wall-mountable BD-P4600 all feature top-notch video playback, comprehensive audio decoding, and unprecedented networking capabilities for an immersive, theater-like experience. BD Live™ (Profile 2.0) and Bonus View (Profile 1.1) support allows access streaming services, such as Netflix and Pandora.They offer Full HD 1080p playback with DVD upscaling, and total HD soundtrack support, as well as CD playback, with support for JPEG photos. The BD-P3600 and BD-P4600 also play DivX videos.

- Crisp upconversion of standard DVDs through the HDMI 1.3 connection.
- They decode the latest high-resolution digital multichannel audio soundtracks, including Dolby Digital Plus, Dolby TrueHD and DTS-HD MA. The BD-P3600 can also output any of the soundtracks as a bitstream through its 7.1-Channel analog audio outputs, or as an uncompressed PCM signal, for users who want the best cinematic sound with an older A/V receiver.
- Stylish and décor-friendly, the BD-P3600 and BD-P4600 feature Samsung's Touch of Color design and touch sensitive controls.

- Connect the supplied 802.11b/g/n Wi-Fi dongle (optional on the BD-P1600) to one of their two USB 2.0 ports or RJ-45 port, and they can instantly stream more than 12,000 movies and TV episodes from Netflix and Pandora music services (subscriptions required). The BD-P3600 and BD-P4600 also include 1GB internal flash memory, so they can access the latest BD Live™ and Bonus View Blu-ray features out of the box, leaving the USB 2.0 ports for wireless networking and memory expansion duties when needed.

Pioneer

VSX-519V • VSX-819H • VSX-919AH • VSX-1019AH Home Theater Receivers

Pioneer's A/V receivers enhance compressed audio and lower-quality music files to ensure a dynamic surround listening experience. High definition fans will appreciate dynamic picture and sound reproduction capabilities including HDMI repeaters that provide full video format capabilities such as Deep Color, x.v Color that deliver a wider gamut of hues and shades as well as Lip Sync function for synchronized audio and video playback.

VSX-519V-K (110w x 5 channels):

- iPhone and iPod certified for enhanced compatibility, it features two HDMI inputs, front mini input for portable audio players and dual zone audio output.
- Incorporates Advanced Sound Retriever (ASR) to greatly enhance sound reproduction of portable MP3 players by restoring the critical audio data that is often removed from a compressed audio file. When played back on a home theater system, audiences gain robust music that is near CD quality.
- Utilizes Auto Level Control (ALC) to equalize inconsistent volume levels that can fluctuate across digital audio tracks (i.e. MP3 and iPod), input sources and even TV channels and commercials to cause disruptive entertainment, By restoring the gap in recorded and playback volume without diminishing audio quality, ALC ensures consistent listening from all entertainment.

VSX-519V-K *(B&H# PIVSX519VK)*.....**Call or Log-on**

VSX-819V-HK (110w x 5 channels) Step-Up Features:

- Controllable via iPod or iPhone, the VSX-819H steps-up with three HDMI inputs and a multi-format front panel USB port that can handle an array of MP3 music files. Users can seamlessly navigate and choose personalized playlists using just the receiver's remote control and a dedicated OSD.
- Supports Dolby TrueHD and DTS-HD high resolution audio formats from Blu-ray Disc feature films.
- MCACC (Multi-Channel Acoustic Calibration) takes inventory of a room's speakers then digitally optimizes each one to balance out any room-induced acoustic inaccuracies. Listeners gain extremely accurate, robust sound that reaches the ear at precisely the right time, sound level and equalization.

VSX-819V-HK *(B&H# PIVSX819HK)*.....**Call or Log-on**

VSX-919AH-K • VSX-1019AH-K (110w x 7 channels) with PHAT II Power Step-Up Features:

- Proprietary Hybrid Amplifier Technology II (P.H.A.T.) ensures powerful, high quality, multi-channel sound performance at greater efficiency levels.
- The VSX-919 transcends music selection capabilities and add a touch of style to the traditional mobile device experience with full-color artwork from a selected song or album that can be displayed on a connected HDTV.
- When connected to a Blu-ray player via HDMI, the VSX-919AH uses proprietary PQLS (Precision Quartz Lock System) technology to sync the player and receiver.
- It has ASR-multi to restore compressed multichannel legacy audio, including Dolby Digital and DTS 5.1 often found on DVD movies and satellite or cable television programming. Also features ALC3e-multi, which delivers multi-channel digital audio quality even in low volume listening.

VSX-1019AH-K Only:

- Enjoy 2nd zone full-color OSD for Sirius as well as iPod album artwork
- Four HDMI inputs and Faroudja 1080p video scaler

ONKYO

TX-SR307 5.1-Channel A/V Surround Home Theater Receiver

The TX-SR307 brings high levels of performance and connectivity to the entry level. It can receive up to three 1080p video sources via HDMI (eg. Blu-ray disc, HD broadcasts) and send pristine video to an HD display. For audio, a suite of Audyssey technologies work to match the sound output to your listening space. A front-panel input is available for iPod or other MP3 players, while onboard Music Optimizer technology enhances those compressed audio files. For even more versatility, four gaming modes (Rock, Sports, Action, or Role Playing Game) allow you to customize the audio to your chosen game type.

- DTS, DTS Neo:6 5.1, DTS 96/24, Dolby Digital, Dolby Pro Logic II
- HDTV (720p/1080i) component video switching (2-in/1-out)
- Theater-dimensional Virtual Surround Function
- Double Bass Function
- 3 Digital Inputs (2 Optical and 1 Coaxial)
- Speaker A/B Drive and Subwoofer Pre out
- Audyssey 2EQ corrects room acoustic problems and calibrates speakers. Audyssey Dynamic Volume lets you set the volume level that you want and keep it there, without having to constantly adjust it. Audyssey Dynamic EQ continuously adjusts frequency response and surround levels to produce the ideal balance for a given volume level.

TX-SR307: Available in Black *(B&H# ONTXSR307B)* or Silver *(B&H# ONTXSR307S)* ..... **Call or Log-on**

TX-SR507 5.1-Channel A/V Surround Home Theater Receiver

The TX-SR507 steps up with four HDMI 1.3a inputs which enables you to enjoy pristine Dolby TrueHD and DTS-HD MA, as well as secondary audio on Blu-ray Disc via DTS-HD Express. HDMI 1.3a also enables CEC (Consumer Electronics Control) and offers greater bandwidth to deal with higher resolutions, 36-bit Deep Color, and high frame rates. The TX-SR507 also handles Dolby Digital Plus designed to accompany high-definition video delivered via disc media, broadcasts, and online content, and DTS-HD High Resolution Audio which offers a greater bit rate, a higher sampling rate, and more channels than the core DTS technology.

- Proprietary universal port lets you connect Onkyo's HD Radio Tuner or Dock for the iPod.
- HDTV-capable HDMI video switching
- Playback of different audio sources in two different zones

TX-SR5507: Available in Black *(B&H# ONTXSR507B)* ..... **Call or Log-on**

HT-RC160 • TX-SR607 7.2-Channel A/V Surround Home Theater Receivers

The HT-RC160 steps-up with five HDMI 1.3a inputs plus HDMI video upscaling (to 1080i) and Faroudja DCDi Edge™ technology to match the resolution of today's high-definition displays. It also offers Dolby Pro Logic IIz for a spacious new audio dimension. Delivering a convincing surround-sound experience from any movie or music source—even a stereo one, Pro Logic IIz enables you to incorporate two "front height" speakers into your surround-sound set-up as an alternative to the two surround back speakers. Otherwise identical, the TX-SR607 steps up with six HDMI 1.3a inputs and is SIRIUS™ Satellite Radio ready (has a Sirius input on the rear—only a subscription is required).

HT-RC160: Available in Black *(B&H# ONHTRC160)* ..... **Call/Log-on**
TX-SR607: Available in Black *(B&H# ONTXSR607B)* ..... **Call/Log-on**

TX-SR707 • HT-RC180 7.2-Channel A/V Surround Home Theater Receivers

The TX-SR707 steps-up from the TX-SR607 with THX Select2 certification — that means it meets the world's most demanding standards for audio quality and performance, and must play at reference volume levels with minimal distortion. It also features THX Loudness Plus, a volume control technology that compensates for the tonal and spatial shifts that occur when the volume level is lowered. The TX-SR707 also employs two TI DSP chips to handle the advanced processing needs of Dolby TrueHD, DTS-HD Master Audio, Audyssey MultEQ XT, and post-processing.

Otherwise the same, the HT-RC180 brings PC audio and streaming internet radio into your home entertainment set-up with DNLA 1.5 compatibility. Now you're just one click away from high-quality, customizable music programming. MP3, WMA, WMA Lossless, FLAC, WAV, Ogg Vorbis, AAC, and LPCM audio files can be played back through your main system with unprecedented power and fidelity. The HT-RC180 brings to life a wide array of internet radio sources, such as Pandora, Rhapsody, SIRIUS Internet Radio, and vTuner.

TX-NR1007 • TX-NR3007 9.2-Channel A/V Surround Home Theater Receivers

Stepping up, the 9.2-Channel TX-NR1007 offers a myriad of surround-sound speaker possibilities. Use Audyssey DSX or Dolby Pro Logic IIz to create an expanded, more immersive 9-channel soundstage for games and movies. Alternatively, you can supplement one of several different 7.2-channel set-ups in your main room with 2-channel sound in a second room. It also employs three TI DSP chips and is equipped with ISF video calibration enabling you to adjust the brightness, hue, contrast, saturation, and gamma levels on all video inputs.

The powerhouse TX-NR3007 steps-up from the TX-NR1007 with advanced video processing and 1080p upscaling with HQV Reon-VX— the most sophisticated video-processing chip available for home theater. It also features independent power supplies for the audio and video sections, as well as for the rest of the system. Furthermore, the TX-NR3007's power amp block and pre-amp are perfectly isolated.

ONKYO

SKS-HT540

7.1-Channel Home Theater System

The missing piece to the home theater puzzle. The SKS-HT540 is the perfect addition to your DVD player and home theater receiver. It provides all the speakers you need to enter the all-enveloping world of surround sound. Magnetically-shielded, the 2-way, 130W bass reflex front and center (dual 5" OMF woofers and 1" balanced dome floating tweeter), and surround speakers (3½" cone woofer and 3/4" ceramic tweeter) provide the soundstage. The earth-shaking 230W powered subwoofer provides the impact. The speakers feature braced wood cabinets for sonic clarity, and color-coded terminals for simple hook-up.

SKS-HT540 *(B&H# ONSKSHT540)*.....**Call or Log-on**

HT-S3200

5.1-Channel 660W Home Theater System

The HT-S3200 5.1-channel receiver/speaker package offers break-through technology than ever before at the entry level. With HDMI pass-thru for high-definition video, it is a convenient solution that allows you to enjoy Blu-ray Disc, DVD, broadcast, and gaming sources. You can partner this package with whichever display suits your budget and achieve truly performance-driven home theater. Enjoy the benefits of tailored audio performance via a full suite of Audssey technologies, including Audyssey EQ, Audyssey Dynamic EQ, and Audyssey Dynamic Volume. You can even integrate an iPod or MP3 player via a front-panel input, or take advantage of Onkyo's DSP modes for gaming: Rock, Sports, Action, or Role Playing Game (RPG).

HT-S3200 *(B&H# ONHTS3200)*: Black.....**Call or Log-on**

HT-S5200

7.1-Channel 780W Home Theater System

The HT-S5200 delivers reassuringly hefty amounts of power (130w per channel at 6 ohms) and all-round performance. Similar features as the HT-S3200, it adds another HDMI, coax digital, and A/V inputs, has a front panel video input for camcorders, and a dedicated port that connects the iPod via the Dock for the iPod and DSP modes specifically designed for gaming.

HT-S5200 *(B&H# ONHTS5200B)*: Black.....**Call or Log-on**

HT-S6200

7.1-Channel 960W Home Theater System

Stepping up, the HT-S6200's receiver's four HDMI 1.3a inputs handle 1080p video as well as DolbyTrueHD and DTS-HD Master Audio™—two lossless decoding formats carried by Blu-ray Disc (BD) that enable delivery of a bit-for-bit soundtrack identical to the studio master track. Another BD-related technology is DTS-HD Express, which provides access to secondary audio features. The receiver also handles two "lossy" audio formats: Dolby® Digital Plus, which is designed to accompany high- definition video; and DTS-HD High Resolution Audio™, which offers a greater bit rate, a higher sampling rate, and more channels than the core. Compatibility with Dolby Pro Logic IIz gives you the option of incorporating front height channels into your home theater set-up. A proprietary Universal Port allows single-cable connection of the included Dock for the iPod or an optional Onkyo DAB+ Radio tuner.

HT-S6200 *(B&H# ONHTS6200)*: Black.....**Call or Log-on**

HT-S9100THX

THX® Integrated System Plus™ Certified 7.1-Channel Home Theater System

The HT-S9100THX is the first THX I/S Plus Certified system to handle full high-definition processing of 1080p video and the master quality of Dolby® TrueHD and DTS-HD Master Audio™. Whatever input you choose—whether gaming, movies, broadcasts, or music—the HT-S9100THX draws on a reservoir of precise amplification power to create a breathtaking home entertainment experience. With video upscaling, revolutionary audio equalization and acoustic treatment technologies, and integrated control with leading display brands, the HT-S9100THX is a fail-safe solution for most home environments.

IN-WALL & IN-CEILING SPEAKERS

More than any other component, speakers define the sound of an audio system. In-wall and in-ceiling speakers have made tremendous strides in recent years to the point of competing with their cabinet-style counterparts. Thus, many are turning to in-wall/ceiling solutions to maximize their living space. Extremely popular with interior designers and decorators, they offer a clean, minimalist look and near-invisible presence, thanks to their camouflage grilles. When installing your next system, you may want to consider the excellent products listed below for a heard-but-not-seen experience in a home that truly emanates music.

AudioSource®

Contractor Series

In-Ceiling Speakers

Each includes carbon-filled polypropylene woofer and elastomer deposited silk tweeter, robust mounting clamps and paintable grill and frame.

AC5C: 100 watts, 5¼" woofer, 19mm pivoting silk tweeter. *(AUAC5C)*: Pair **49.95**

JBL

SOUNDPOINT SERIES

JBL's SoundPoint in-wall and in-ceiling speakers deliver room-filling sound, yet are extremely compact with shallow mounting depths. They feature unique swivel-mount titanium laminate tweeter for crystal highs, and a rubber surround aluminum woofer for hgh power handling and tight, deep bass. They include a cutting template and integrated dog-ear brackets for retrofit applications. And with rough-in frames available for new construction, installation is just as easy.

JBL ES SERIES

ES Series loudspeakers feature distinctive styling – tapered enclosures, a unified center section, and a front baffle that curves into the top surface – that blends classic and contemporary design elements. They accurately reproduce even the most dynamic digital sources with precise fidelity using a unique grille design to disperse the sound accurately. Result: dynamic, full-spectrum movie sound with crisp, clear dialogue and all the subtleties of the original.

All models except the subwoofers are magnetically shielded, and include five-way binding posts to facilitate use with any type of speaker cable. The ES20, ES30, ES80 and ES90 also have dual sets of terminals for bi-wiring or bi-amping, if desired. The ES10 compact bookshelf monitor can be mounted on a wall, and is supplied with built-in wall-mount brackets to facilitate its use in a wide variety of custom-installation, designer and architectural applications. The ES25C center channel speaker may be placed on top of or below a TV set or on a shelf, and the ES80 and ES90 floorstanding towers have an elegantly proportioned, slim profile that enables them to fit in any home entertainment system. The 10" 250W ES150P and 12" 300W ES250P subwoofers include a full complement of inputs and controls to achieve optimum low-frequency response in any installation.

Infinity TSS 3-in-1

Three Channel, Single-Enclosure Loudspeaker

The TSS 3-in-1 will instantly and dramatically upgrade the sound of any television connected to an A/V receiver. As part of a complete home theater system, it will deliver the left, right and center channels with all the finesse of the three separate speakers it replaces, delivering crisp dialogue and spacious imaging.

Available in charcoal, the TSS 3-in-1 can be wall-mounted using its included swivel-wall-mount bracket, making it ideal for placement above or below flat-panel displays, or above a TV set or entertainment center furniture. Also includes a support cradle that enables it to be placed on a shelf.

- Rigid extruded-aluminum enclosure reduces unwanted resonances.
- Room-friendly acoustical waveguides for more accurate high-frequency response across a wider listening area
- Dual 3½" MMD woofers and 3/4" MMD tweeter for each (left, center & right) channel.
- Can be combined with Total Solutions surround speakers and a powered subwoofer to create a complete home theater loudspeak.

polkaudio SurroundBar 360°

Home Theater System

A complete digital home theater audio system, the SurroundBar 360° DVD Theater includes a single, attractive multi-channel speaker that measures 44½ x 4⅞ x 4⅛" (WDH) and a separate, compact console that contains an integrated DVD/CD player, SDA® signal-processing amplifier, AM/FM radio, universal remote control and a host of digital, analog, USB, and video inputs.

Add a new dimension to movies, music, TV. Connect it to any video game, satellite/cable TV box, MP3 player or other external source and experience ear-opening surround sound with just one speaker. Rediscover your favorite video games, or play DVDs, CDs, MP3 and JPEG and Kodak photo discs.

- DVD player with integrated Farouja DCDi2 upconversion with HDMI 1080i output turns any composite or S-Video signal into high-definition 480p, 720p, and 1080i video
- Magnetically-shielded, the SurroundBar 360° speaker easily mounts above or below your TV. Or use the included cradle on a TV stand, a shelf or for set-top placement.
- Polk's proprietary SDA (Stereo Dimension Array) technology combines signal processing and acoustical geometry to create 360° surround from the SurroundBar 360's eight drivers.
- Patented Power Port Bass Venting System ensures that the SurroundBar 360 supplies clean, low distortion bass without the clutter of an external subwoofer.
- USB input makes it easy to attach digital photo sources and MP3 players
- Accomodates, DTS Digital Surround and Dolby Digital DVDs, as well as MPEG2, MPG, CD, CD-R/RW, DVD+R/RW, MP3 at resolutions up to 384kbps VBR (Variable Bit Rate).

SurroundBar 360° *(B&H# POSB360)*.....**899.00**

polkaudio PSW111

8" Down-Firing 150-watt Subwoofer

Ideal match for the SurroundBar 360°, you can put the PSW111 practically anywhere and you won't believe the punch such a small subwoofer packs.

- LFE, line and speaker level inputs, and speaker level inputs allow easy connection to any system.
- Intelligent amplifier puts out gobs of power, but uses very little power at low volumes or standby mode.
- State-of-the-art Klippel Distortion Analyzer to help optimize the woofer's motor structure, voice coil alignment and suspension bringing you the best possible performance even at extreme listening levels.

PSW111 *(B&H# POPSW111B)*.....**299.95**

Velodyne Impact Series

Low Distortion Subwoofer

Affordable high-output, low distortion subwoofers, they feature beautiful cabinets with black gloss lacquer trim to fit in any decor, while their deep, defined bass brings movies and music to life. They include MDP amplifiers with more dynamic headroom for high impact, 2" copper-wound voice coils and an adjustable, high quality crossover system to perfectly match the subwoofer with the main speakers in the room. The Impact-10 and 12 feature a down firing port for high output and low distortion. The Impact-Mini, with a 6.5" forward-firing driving and 8" down-firing passive, produces amazing bass from a tiny cabinet. They include 3-year (electronics), 5-year (drivers) warranty.

Impact Mini *(B&H# VEIMINI)*: 300W dynamic, 180w RMS amplifier.....**399.00**

3•2•1® *GS* SERIES III / 3•2•1® *GSX* SERIES III
DVD Home Entertainment Systems

Experience enhanced home theater sound from almost anything you watch—with greater simplicity than traditional five-speaker surround systems. The 3·2·1 *GS* and *GSX* Series III DVD home entertainment systems deliver cinematic 2.1-channel sound with just two Gemstone® speakers and a hideaway Acoustimass module. The systems include an elegant media center featuring a progressive scan DVD/CD player with 1080p video upscaling, HDMI output and AM/FM tuner.

- Patented Gemstone speaker arrays with TrueSpace digital processing circuitry transform home entertainment into a dramatic sound experience. Easily blending into any home, the systems deliver crisp, clear dialogue and dramatic sound effects—but with less complexity, fewer speakers and no wires running to the back of the room. Setup is easy (just three wires and a power cord), while a step-by-step instructional DVD walks you through the process.
- A programmable, easy-to-use universal remote control lets you command your TV and most other devices along with your DVD system.
- The 3·2·1 *GSX* III system also offers you the ability to easily digitally store and organize up to 200 hours of music from your CD collection. No computer is needed. Just put in a CD, press one button and music is stored in the elegant media center. In addition, it incorporates the same uMusic®+ intelligent playback system as in the award-winning Lifestyle® 38 and 48 DVD systems. The uMusic+ system actually listens to your musical choices and learns your preferences, then makes selections based on what you like. No more searching for CDs or deciding which tracks to listen to. Whatever your mood, the uMusic+ system delivers just the songs you want to hear.

CineMate® Series II • CineMate® *GS* Series II Home Theater Systems

The CineMate® Series II speaker system provides high-quality home theater sound to get more from your HDTV. Just two compact speakers and a hideaway Acoustimass® module deliver sweeping cinematic sound that puts you in the middle of your movies, games and sports. Proprietary TrueSpace® technology enables immersive performance—without immersing you in equipment. Eliminates much of the wiring of traditional 5-speaker systems. Just connect the system to your TV and control basic functions with a simple four-button remote. The CineMate® *GS* Series II steps up with premium Gemstone® speakers and improved digital acoustic performance.

- Acoustimass module works with the small speakers to deliver the full range of sound. Produces low frequencies for all channels with no audible distortion. When the module is tucked behind a curtain or chair, sound seems to come directly from the two arrays.
- Interface module houses two LED indicators and connectors for audio input, and receives IR commands for the speaker system. Connects directly to your TV while providing status information (on/off) for your speaker system.

BOSE®

LIFESTYLE® V20 • LIFESTYLE® V30

Home Theater Systems

The Lifestyle® V20 and V30 home theater system offer HD compatibility for your DVD player and other components. They consist of an elegantly designed media center with a separate display module, four Direct/Reflecting (V20) or Jewel Cube® (V30) speaker arrays, a horizontal center-channel speaker and the Acoustimass module.

The media center includes an AM/FM tuner and 4 A/V inputs (including component, composite, S-Video and and two HDMI). The media center and component connections are hidden from view because it has no controls or display of its own. It is controlled by the supplied universal radio frequency remote. Only the elegant display panel remains as the visual interface for your system. The display shows system messages, program details, current source and selected options.

For added convenience the ADAPTiQ® audio calibration system provides greater freedom of speaker placement. It analyzes the way your room's dimensions and other variables affect sound, then automatically adjusts the sound of your Lifestyle® surround sound system to the acoustics of your room.

And for greater versatility, the Bose® link whole-home audio technology lets you connect compatible Bose products to your Lifestyle® home entertainment system for listening in as many as 14 additional rooms—even outdoors.

LIFESTYLE® 28 SERIES III SPEAKERS

DVD Home Entertainment System

No matter what you want to hear—or where you want to hear it—the Lifestyle® 28 Series III system makes it all possible with performance, elegance and simplicity. The system is designed so all the elements—media center, five speakers and Acoustimass® module—work in harmony, enhancing performance and ease of operation. Sound is customized to your room with the innovative ADAPTiQ® audio calibration system. The stylish media center features a progressive scan DVD/CD player and AM/FM tuner. The system includes Direct/Reflecting® cube speaker arrays that fill your room with spacious surround sound. Add the optional VS-2 video enhancer with 1080p upscaling and HDMI connectivity to simplify integration with other video sources.

- ADAPTiQ® audio calibration system analyzes the way your room's dimensions and other variables affect sound, then automatically adjusts the sound of the system to the acoustics of your room.
- Acoustimass bass module works in concert with the small speakers to deliver a fuller range of theater sound and effects. The patented Bose design produces low frequencies for all channels with no audible distortion.
- With the optional VS-2 video enhancer, 1080p video upscaling ensures your movies and sports use the highest resolution capabilities of your display.
- Bose® link whole-home audio technology lets you connect and listen in as many as 14 additional rooms—even outdoors.
- Control integration enables the supplied remote to control most functions on your TV, DVR, cable box or satellite receiver.

DAV-HDX285 BRAVIA Theater Systems

Make your movies come alive with the sleedk DAV-HDX285 BRAVIA theater system. It combines a 5 DVD/CD changer, 1000 watts of home theater power, and includes an iPod dock, Digital Media Port and DMPort Booster. The system is also S-AIR ready and can stream audio to additional rooms or add wireless rear speakers capability with the purchase of additional S-AIR speaker devices.
- System optimizes speaker placement in just 30 seconds with Digital Cinema Auto Calibration.
- iPod cradle enables music and video to be played from a connected device through the home theater via a Digital Media Port.
- DMPort Booster technology enhances the sound quality of all audio and video passing through the cradle accessory.
- Movie/music mode automatically detects what is being listened to and optimizes audio accordingly.
- Can upscale standard DVDs to 1080p high-definition quality via an HDMI cable when connected to an HDTV set.
- BRAVIA Sync lets you connect products with HDMI and use one button from one remote to switch right input and begin playing.
- For convenience, it includes an "Easy Set-up" disc that provides step-by-step instructions on how to set-up the main unit, wire speaker cables and calibrate all system speakers.

DAV-HDX589W *(B&H# SODAVHDX589W)* **326.95**

HT-SS360 Home Theater Systems

Designed to complement high-definition televisions and Blu-ray Disc players, the 5.1-channel HT-SS360 system combines powerful, high-quality sound with simple connectivity. It features a component A/V receiver with three HDMI inputs (one out) and 1000 watts (RMS) of power. Through these HDMI connections, it supports full HD1080/24p and 60p video, as well as LCPM 8-channel uncompressed audio. To help simplify set up and use, the system utilizes Digital Cinema Auto Calibration and BRAVIA Sync.
- System's center console has a sleek black gloss exterior, which matches Sony's BDP-S360 and BDP-S560 Blu-ray Disc players.
- DMPort Booster technology enhances the sound quality of all audio and video passing through this connection by adding previously removed information to compressed music files.
- Digital Media Port allows for easy connection to portable music players like iPod and iPhone.
- One-button control with BRAVIA Sync lets you maintain the proper settings for each component, so you can focus on the entertainment.

HT-SS360 *(B&H# SOHTSS360)* **264.95**

HT-CT500 Sound Bar

The HT-CT500 packs a powerful home theater into two pieces — a sound bar and subwoofer— connected by a single wire. The 3.1-channel theater system features 400 watts (RMS) of total power and a fully functional A/V receiver built into the subwoofer. It has ample connections with three full HD 1080p HDMI inputs (one out), two component inputs and several audio inputs.
Slim speaker design matches Sony'sBRAVIA W5100 and XBR9 HDTVs. (A bracket is provided for attachment to the TV.) It is also S-AIR ready. Additionally, the system has an icon-based menu that can be blended over 1080p sources (connected via HDMI), allowing for simple navigation through all connected devices.
- Supports full 1080/60p and 24p video, and Deep Color and x.v.Color.
- Digital Media Port allows external audio sources to be connected.
- Analog upconversion to HDMI so you only need one HDMI cable to connect to the TV.
- Uses Faroudjas' DCDi Cinema chip to up-scale all video to near HD quality and up-convert analog audio/video signals to HDMI.
- Icon based GUI, plus on-screen navigation and control gives you additional versatility when using digital media port.

HT-CT500 *(B&H# SOHTCT500)* **439.95**

SONY

BDV-E300 • BDV-E500W

5.1-Channel Blu-ray Disc Home Theater Systems

The BDV-E300 and BDV-E500W BD home theater systems deliver full HD 1080/60p and 24p True Cinema™ output, decode the latest advanced audio codecs, and are BD-Live capable with your broadband internet connection and purchase of external memory.
The BDV-E500W features integrated S-AIR wireless audio capabilities. Sony's S-AIR technology transmits audio up to 164 feet from the main system to wireless rear speakers for simple surround sound or up to 10 individual S-AIR AirStation audio devices throughout the home. The BDV-E300 model is S-AIR ready so users can add optional modules, also sold separately.

- They support the latest advanced audio codecs including 7.1 channel Dolby TrueHD and Dolby Digital Plus, DTS-HD High Resolution Audio, and DTS-HD Master Audio decoding as well as bit-stream.
- Both systems include Sony's Digital Media Port, which adds control and connectivity options for music playback through various accessories, including a cradle for iPod players which is packaged with each system, or an optional Network Walkman™ cradle, a PC client device, and a Bluetooth adapter (each sold separately).
- They include an easy set-up DVD with step-by-step instruction on initial set up process, eliminating any confusion during the set up process. Plus, BRAVIA Sync technology simplifies every day operation with one-button command of compatible home theater components through HDMI.
- They feature Sony's Xross Media Bar (XMB) graphic user interface for easy menu navigation, Precision Drive technology and Precision Cinema Upscaling technology.
- USB port allows users to add their external flash memory for BD-Live features.

HD Theater 500

5.1-Channel High-Definition Home Theater Speaker System

With high-end components, 600W of total power, exceptional surround sound reproduction, Micro Tractrix Horn and IMG woofer technologies, phase control switch, built-in potentiometer and crossover control this 5.1-channel system offers unsurpassed clarity. Stylish design with high-gloss piano black finish is sure to complement the newest flat-screen Plasma and LCD TVs in your home theater set-up.

- Each satellite speaker employs 2.5" high-output mid-range IMG driver, and a 0.75"" horn-loaded aluminum tweeter with Micro Tractrix Horn technology to deliver genuine lifelike sound.
- The 100W satellite speakers feature a frequency response of 35Hz - 20KHz, sealed enclosure, and a durable ABS plastic construction. The dynamic range is so well balanced and matched that the center, front and rear channels blend seamlessly and effortlessly into a surreal home theater experience.
- A powerful 100W subwoofer offers a high power output with high efficiency while maintaining a low distortion signal and tight control of the driver. Line-level inputs (RCA) and speaker-level inputs (spring-clip), ensure the subwoofer is compatible with virtually any home theater receiver.
- Customize a precise low-frequency response to your particular room with a built-in potentiometer, and a variable low-pass crossover control (60 - 200Hz).
- The Phase Switch determines whether the subwoofer speaker's piston-like action moves in and out with the main speakers. Proper phase adjustment depends on several variables such as room size, subwoofer placement and listener position. Adjust the phase switch (0 - 180°) to maximize bass output at the listening position.
- Sleek contour, finished in a decorative high-gloss piano black to complement any room's decor, the satellites can be wall mounted (vertically or horizontally), or placed on your home theater floor/console. In addition, the center-channel speaker includes a table top cradle base.

SAMSUNG

HT-BD8200 Blu-ray Home Theater Sound Bar

The HT-BD8200 is the first home theater sound bar equipped with a Blu-ray player and wireless subwoofer, which delivers a streamlined, HD surround sound solution built to expand the prowess of any home theater. It features a fully integrated Blu-ray player with Full HD 1080p playback and virtual 5.1-channel surround sound for a lifelike audio presence.

- A self-contained, wall-mountable home theater sound bar, the HT-BD8200 is designed to fit in with today's contemporary décor and lifestyle. It is only 2.6 inches deep and accented with Samsung's Touch of Color™ (ToC™) design, for a classy, yet cutting-edge look.
- The included wireless subwoofer provides a superior blend of effective audio performance and interior design flexibility just about anywhere in the home.
- Also equipped with Samsung's "Smart Volume" technology for volume level adjustments on-the-fly for superb listening levels without the need to continually pick up the remote.
- Offers seamless playback of video, photos, or music from media players,mobile phones, and digital cameras, using either the built-in USB port or Bluetooth™ wireless connectivity. Multimedia disc playback and an included iPod dock add even more versatility to the system's cachet.
- Equipped with wireless networking (802.11n and optional USB dongle, the HT-BD8200 is compatible with BD-Live (Profile 2.0) and can access Netflix for instant streaming video or Pandora music.

HT-BD8200 *(B&H# SAHTBD8200T)* ..... **Call or Log-on**

HT-BD7200 2.1 Blu-ray Home Theater System

The HT-BD7200 is ideal for those seeking sophisticated décor, superior performance, and comfort in a home theater solution. Compact design fits even the smallest rooms, making it more practical than deploying a full-sized multi-speaker home theater system. But don't be deceived by its diminutive appearance. The system pumps out 400W of power and simulated 5.1-channel surround sound using just two speakers.

- Improved amplifier engine minimizes amplifier and power supply noise enhancing audio fidelity.
- Speaker unit itself is constructed from kelp, a natural material providing more audio clarity compared with conventional paper cone units.
- Equipped with wireless networking via an optional 802.11 b/g/n USB dongle for additional convenience, and a speedy boot up time that is 2x faster than the industry standard.
- Dressed in Samsung's latest ToC treatment, providing a luxurious charcoal grey coating to the black bezel of the system.

HT-BD7200 *(B&H# SAHTBD7200T)* ..... **Call or Log-on**

HT-BD1250T 5.1 Blu-ray Home Theater System

The HT-BD1250 offers an affordable opportunity to discover the crisp picture and powerful audio performance brought by Blu-ray without compromising space. Boasting 1,000 watts of output and 5.1-Channel sound, the HT-BD1250 produces rich, life-like audio and is capable of decoding high-definition formats including, Dolby Digital Plus, Dolby TrueHD and DTS-HD Master Audio. Similar to the HT-BD7200, the speaker cones are constructed using sea kelp rather than the traditional, chemically-treated paper pulp, for natural and improved sound reproduction. It is also WiFi ready and features the same amplifier technology as the HT-BD7200.

HT-BD1250T *(B&H# SAHTBD1250T)* ..... **Call or Log-on**

Panasonic

VIERA X1 (720p)
Plasma HDTV

Representing a line of 720p plasma HDTVs, the VIERA X1 series offers stunning picture performance with a native contrast ratio of 30,000:1, an Infinite Black panel, and a new Anti-Reflective filter. a 600Hz Sub-field Drive delivers razor-sharp motion focus, providing clear, vivid images when viewing action movies or watching sports events such as tennis, baseball or football games. Extending their versaility, the VIERA Image Viewer (SD card reader) lets you display photos on a large HDTV screen with family and friends in full-HD (1920 x 1080). For convenience, VIERA Link provides control of all compatible A/V home entertainment components (Panasonic DVD recorder, Blu-ray Disc player, home theater sound system and HD camcorder) using only the TV's remote control and helpful on-screen menus. Utilizing HDMI-CEC (Consumer Electronics Control) VIERA Link even permits operation of a network camera, ideal for monitoring of a home/nursery.

TC-P50X1 *(B&H# PATCP50X1)*: 50" Plasma TV **889.95**

VIERA S1 (1080p)
Plasma HDTV

Stepping up from the X1 series, the VIERA S1 series features Panasonic's new NeoPDP design, meaning they are the world's thinnest plasma (only 1/3" inch thick) and feature the world's highest moving resolution of 1080 lines, resulting in precise reproduction of full HD programs at any speed without loss of detail and elimination of traditional HDTV motion blur. The S1 series are also THX certified for strict performance standards for such items as black levels, resolution, contrast, scaling, motion conversion, de-interlacing and color gamut. THX certification begins during the initial product design phase and has three primary goals – to drive quality in manufacturing, optimize image quality and signal processing, and to help simplify the consumer's buying decisions.

TC-P65S1 *(B&H# PATCP65S1)*: 65" Plasma TV **3199.95**

VIERA G10 (1080p)
Plasma HDTV

Stepping up from the S1 series, the VIERA G10 series offers the innovative internet-enabled VIERA Cast feature. VIERA Cast is a web menu that's built into the television, letting you enjoy great online entertainment like YouTube videos and your digital photos on Picasa Web Albums, all with just a click of a button— no PCs or external are required. Quick keyword input (like a cell phone) helps retrieve favorite content faster and easier.
You can also get instant weather updates from a weather channel as well as the latest financial information from Bloomberg TV, and now users have access to HD movie rental via Amazon Video-on-Demand, a streaming video service with more than 40,000 titles. Best of all, the VIERA Cast menu will self-update as soon as great new online content becomes available.

VIERA S1 (1080p)
LCD HDTV

The 32- and 37" VIERA S1 monitors feature 1080p resolution, Motion Focus technology; IPS Alpha Panel with 178% viewing angle; the VIERA Image Viewer function; VIERA Link; 15,000:1 native contrast ratio; PC Input, 3 HDMI inputs and Game mode.

TC-L32S1 *(B&H# PATCL32S1)*
32" LCD HDTV **699.95**

TC-L37S1 *(B&H# PATCL37S1)*
37" LCD HDTV **764.95**

VIERA x1 (720p)
LCD HDTV

Available in three sizes, the 720p VIERA X1 LCD HDTVs feature a fully-integrated iPod entertainment kit—a specially designed external Universal Dock for iPod which allows users to enjoy iPod-based music, videos and photos on a larger screen for a more impactful viewing experience. And unlike most other iPod connectivity options, the VIERA X1 and Panasonic's VIERA Link technology provide special interface capabilities that let users manage content playback through intuitive on-screen display using only the VIERA's remote control.

- When the iPod is docked, simply select the "VIERA Tools" button on the remote control to pull up the iPod icon. Once the iPod icon is selected, users can select from a drop down menu displaying their music, videos or podcast options. The VIERA on-screen music menu mimics the iPod, allowing users to select a song from an artist, album or playlist. Similarly, the video and podcast features provide a list of available videos or podcasts.
- They offer 12,000:1 contrast ratio, three HDMI inputs which can be controlled by the VIERA Link button on the remote control, an SD Memory Card slot, PC input and Game Mode.

TC-L26X1 *(B&H# PATCL26X1)*: 26" LCD HDTV with iPod Kit **454.95**

TC-L37X1 *(B&H# PATCL37X1)*: 37" LCD HDTV with iPod Kit **624.95**

VIERA G1 (720p/1080p)
LCD HDTV

Panasonic's top-of-the-line LCDs, the 32" TC-L32G1 (720p) and 37" TC-L37G1 (1080p) feature 20:000:1 contrast ratio and 120Hz Motion Picture Pro technology to ensure crisp, focused images for sports, dramatic action, and all other fast-moving scenes.

- IPS Alpha Panel delivers a 178° wide viewing angle with bright, clear images when viewed from most any location in the room. Wherever you're sitting, you've got the best seat in the house.
- VIERA Image Viewer provides users with an easy way to view and share their digital photos via the TV's built-in SD card reader.
- Other features include VIERA Link, PC input, Game mode, 3 HDMI inputs, and a swivel base and narrow bezel design.

TC-L32G1 *(B&H# PATCL32G1)*: 32" LCD HDTV **539.95**
TC-L37G1 *(B&H# PATCL37G1)*: 32" LCD HDTV **799.95**

SHARP AQUOS

LC-SB27UT • LC-DV27UT

Widescreen LCD TVs

Featuring space-saving design and a host of conveniences, the LC-SB27UT and LC-DV27UT are small, widescreen LCD TVs designed to fit just about anywhere.

They employ a high-performance TFT LCD panel with Spectral Contrast Engine D (Dark), providing a high dynamic contrast ratio for deep blacks and vibrant colors in dark or bright scenes. They feature a fast pixel response time of 5ms and include ATSC/NTSC tuners to receive off-air broadcasts as well as a QAM tuner for digital cable programming.

They include an HDMI and an HD component input for simple, versatile set-up with high-definition compatibility, while a PC input allows them to function as a computer monitor.

Otherwise the same, the LC-DV27UT series adds a built-in progressive scan DVD player. The side-mounted player loads the disc, displaying content in its true 16:9 aspect ratio with 1366 x 768 resolution for a clear and detailed image.

LC-22SB27UT *(SHLC22SB27UT)*: 22" **299.95**

E77U Series

HDTV AQUOS LCD TVs

Available in 40, 46, 52 and 65", the E77U series employs a 10-bit ASV Superlucent panel and 10-bit processing engine allowing them to achieve maximum expression of the Full-HD 1080p picture, and Deep Color compatibility. The Superlucent panel applies an ultra-smooth finish that minimizes gloss while intensifying panel brightness and contrast. The result is a dramatically bright and crisp picture with reduced haze and reflectivity.

The ultimate high definition television, the E77U Series feature Sharp's Fine Motion Enhanced technology for 120Hz Frame Rate Conversion and a fast pixel response time of 4ms, ensuring viewers never miss a detail of high-definition, fast-action imagery.

- Elegant black cabinet blends into to a soft champagne gold hue that accents the bottom of the frame, befitting both modern and traditional design schemes.
- Spectral Contrast Engine XD (Extreme Dark) provides a high dynamic contrast ratio, enabling deep blacks and vibrant colors
- Special dejudder feature eliminates background motion artifacts on Blu-ray movies for smooth reproduction of film content.
- Wide 176° viewing angles enables color reproduction to appear bright and vivid from virtually anywhere in a room.
- All offer two HD component (1080p compatible) video inputs, and all have four or five HDMI 1.3 terminals with Deep Color and 24p input capability for high-quality Blu-ray video processing.
- True high-definition TVs, they house a built-in ATSC and QAM tuner for access to DTV channels.
- They incorporate an RS-232C input for custom installations and a PC input so the TV serves a dual purpose as a PC monitor.
- Included table stand has swivel capability for viewing angle convenience, and can be removed for wall-mounting applications.

LC-40E67UN

40-inch DTV AQUOS LCD TV

The LC-40E67UN is the same as the LC40-E77UN except it doesn't offer 120Hz Frame Rate Conversion. ASV Superlucent panel technology provides Full HD 1080p picture. Includes two HD component (1080p compatible) video inputs, as well as 4 HDMI 1.3 terminals with Deep Color and 24p input capability. Elegant black cabinet blends into to a subtle copper hue. *(SHLC40E67UN)* **754.95**

LC-32LE700UN • LC-40E700UN • LC-46LE700UN • LC-52LE700UN

32-52" AQUOS LED LCD TVs

Providing the ultimate in picture quality and value, these TVs combine award-winning AQUOS LCD technology with a Full- Array LED backlight system to deliver unprecedented image quality and energy-efficient performance. The proprietary AQUOS LED System incorporates Sharp's UltraBrilliant LED backlight technology that illuminates the TV to extremely high brightness and contrast levels. The system includes a full array of LEDs evenly dispersed behind the diffuser, resulting in more uniform colors and brightness across the entire screen, as well as improved color purity for the smoothest picture possible. Additionally, Sharp's proprietary next-generation Full HD 1080p X-Gen LCD panel with 10-bit processing, designed with advanced pixel control to minimize light leakage, produces extremely deep black levels. The X-Gen panel also provides a wider aperture to allow more light to pass through the panel, resulting in higher peak brightness. The panel provides Spectral Contrast Engine MC for an extremely high Dynamic Contrast Ratio of more than 2,000,000:1 for crisp picture quality and vibrant colors, as well as a special dejudder feature (on the LC-52LE700UN and LC-46LE700UN) that results in the smooth reproduction of film content.

- Fine Motion Enhanced technology for 120Hz Frame Rate Conversion and a fast pixel response time of 4ms, ensures viewers never miss a detail.
- Array of connection options, including four HDMI™ (v1.3 with Deep Color) and two component video inputs, all of which are 1080p compatible, accepting signals from Blu-ray Disc™ players and advanced gaming devices.
- Built-in ATSC, QAM and NTSC tuner
- RS-232C input for custom installations and a PC input so they can serve as a PC monitor.
- They include Sharp's AQUOS Net capability, a service that gives users instant access to customized Web-based content as well as real-time customer support.
- Sharp's AQUOS LINK™ allows users to seamlessly control compatible, HDMI-connected products using a single remote control.
- All except the 32" have a USB photo/music player for high-resolution digital photo viewing and MP3 music enjoyment on the TV.
- For flexible room placement, they offer 176° viewing angles, enabling the color reproduction to appear bright and vivid from virtually anywhere in a room.

SAMSUNG

Series 6 • Series 7 1080p CCFL-backlit LCD HDTVs

Pushing the envelope in technology and design innovation, Samsung's next-generation Series 6 (120Hz) and Series 7 (240Hz) feature CCFL backlighting and improved Ultra Clear panel, a polarizer that reflects room light to produce deeper, darker black tones and bolder colors.
Both Series also feature Samsung's adaptive contrast picture setting, called "Natural" mode, which combines the brightness advantage of LCD displays and the cinema-like viewing experience of plasma displays. The result is a new level of video richness perfect for viewing films.

- 120Hz (Series 6) or 240Hz (Series 7) refresh rate works together with Samsung's proprietary Auto Motion Plus™ 120Hz or 240Hz frame interpolation technology, to eliminate motion blur and judder. Furthermore, their advanced panels have a fast pixel response time to produce razor sharp images even with fast-paced motion in action scenes.
- Aesthetically pleasing, they incorporate Samsung's ToC™ (Touch of Color) design with a luxuriously coated translucent surface over the chassis. On the Series 6, a two-tone gradation of transparent ruby color yields a much softer, glassier look for the deeper and wider curve at the bottom of the bezel.
- They feature Samsung's Internet@TV – Content Service. Powered by Yahoo! Widget Engine, users can access widget-based content from a wide array of Yahoo! Internet sources including Flickr, News, Weather and Finance. With a click of the remote, these widgets are easily accessed via a bar-style graphic user interface which sits on the bottom of the screen.
- For added flexibility, they support 802.11a/b/g/n wireless networking capabilities via a wireless USB dongle, and they DLNA-compliant, allowing viewers to easily enjoy their PC-based music, video, and pictures from any room in their home.

Series 7 Step-up Features

- Exclusive Wide Color Enhancer 3 technology maps source colors to the panel's color space. This results in exceptionally vibrant, yet natural-looking images faithful to the director's original intent.
- In addition to ToC™ design, the Series 7 also sports a transparent bar that runs across its bottom bezel. The bar clearly divides the TV from the speaker compartment which houses a pair of down-firing speakers. It further serves to highlight the glass-like quality of the set's frame while giving the illusion that the display floats in mid-air. With a stand constructed using transparent reinforced glass, this stunning look is heightened even more.

Series 6 • Series 8 Ultra-Thin 1080p Plasma HDTVs

Combining full HD 1080p resolution, increased energy efficiency, breath-taking design, and networking options with the latest audio-visual technologies, Samsung's Series 6 and Series 8 plasmas set the standard of excellence. Measuring just over an inch in depth, the Series 8 are the world's slimmest 1080p resolution plasma sets to feature built-in ATSC tuners. Despite their slim design, they harness the latest display technology to produce unmatched picture performance and deliver the ultimate in HDTV viewing experience:

- Extremely high dynamic contrast ratio along with Ultra FilterBright technology, which uses arrays of black-coated color enhancement film to minimize glare and maximize contrast.
- Ultra Filter Bright Plus reduces the luminance in black levels by 50% over previous models for one of the darkest blacks ever seen on an HDTV.
- Exclusive Wide Color Enhancer 3 maps HD or SD signals to the panel's native color space, which covers 110% of the HD specification, helping the set portray hues in lifelike brilliance.

Sophisticated Multimedia and Networking Functions

- They are equipped to bring the best of the Web to the television. Powered by the innovative Yahoo! Widget Engine, Samsung's Internet@TV – Content Service enables users to access internet based multimedia content from their favorite Internet sources . They'll not only be able to take care of everyday tasks like tracking stocks and staying on top of headline news, but users can also browse videos, share photos and interact with friends. The suite of services ranges from a host of Yahoo! properties (Flickr, News, Weather and Finance) to third-party content from well-known names including USA Today, YouTube and eBay.
- They are wireless DLNA-compliant, allowing users to enjoy their entire library of media content that may exist in various locations around the house without the hassle of extra cabling.
- Users can also connect storage and mobile devices to the USB 2.0 port to play a variety of multimedia files via USB 2.0 Movie. An expanded list of supported codecs, which also include 3GPP, MKV, WMV9 and DivX, gives users even more freedom to easily access and share nearly all forms of digital content.

Series 6: Specially-designed, semi-transparent rose black hue lends a seductive hint of color to the TV's glass-like frame. Each of the HDTV's gracefully curved edges is transparent, creating the illusion of a display floating in mid-air. Further enhancing the design, the sets are also supported by a clear, reinforced glass stand giving it a "barely there" appearance.

LED HDTVs

Samsung's cutting-edge LED HDTVs use LEDs as their primary light source, rather than traditional Cold Cathode Fluorescent Lamps (CCFL). Benefits of using LEDs include ultra-high contrast ratios, slim depths that allow for more artful designs, plus increased energy savings. In addition, there are a variety of state-of-the-art networking features. They feature high dynamic contrast ratios producing darker blacks that appear endlessly deep to the eye. Whites also remain crisp and bright with vivid colors. The Ultra Clear Panel further allows the preservation of every detail even in brightly-lit, imperfect viewing conditions. And with an adaptive "Natural" mode, they combine the brightness advantage of LCD displays with the cinema-like viewing experience of plasma displays by automatically optimizing picture settings.

SONY

V-Series • S-Series • L-Series

Sony's V-Series feature Sony's BRAVIA Engine™ 2 and Motionflow™ 120Hz technology for improved sharpness and detail in fast-moving images. Additionally, they offer four HDMI inputs (seven total HD inputs), BRAVIA Sync™ for simplified control of compatible devices, and a USB input for viewing digital images or listening to digital music stored on a compatible USB mass storage device. They also include Sony's LightSensor® technology and dynamic backlight control to help save energy and reduce the TV's overall carbon footprint.

The S-Series also feature 1920 x 1080 progressive video resolution along with the BRAVIA Engine 2, resulting in outstanding full HD picture quality. Each model offers three HDMI inputs, as well as single PC, component, composite and S-video inputs. They also employ Sony's LightSensor® technology and dynamic backlight control.

Available in 26- and 32-inches, the versatile BRAVIA L-series are designed for the bedroom, kitchen or office. Connectivity includes three HDMI inputs, along with single PC, component, composite and S-video inputs.

The V-, S-, and L-series models are compatible with Sony's BRAVIA Link modules, including the BRAVIA Wireless Link, BRAVIA Input Link, and BRAVIA DVD Link.

VE5-SERIES

The BRAVIA VE5-series offers ubstantial power savings thanks to a zero-watt standby power switch, along with motion and light sensors that minimize energy usage without compromising performance. They also incorporate Sony's exclusive micro-tubular Hot Cathode Fluorescent Lamp (HCFL). The technology helps reduce power consumption by almost 40% compared to Sony's other LCD HDTV models.

- Many times people become busy and forget to turn the television off when they leave the room. Sony's Presence Sensor feature solves the issue by automatically turning off the picture when no one is present in the vicinity after a user-set timeframe. When the sensor detects motion, the TV turns it self back on instantly.
- They offer a zero-watt standby Energy Saving Switch. When not in use, the standby switch can also be manually turned off, cutting power to nearly zero watts. Simply flip the switch back on and the TV is fully operational.
- Light sensor will automatically adjust the backlight depending on ambient room light. The setting saves energy and improves image contrast by lowering the backlight when it is set unnecessarily high in dimmer room light.
- Compatible with Sony's BRAVIA Link modules including the BRAVIA Wireless Link, BRAVIA Input Link and BRAVIA DVD Link.
- They also feature BRAVIA Engine™ 2, BRAVIA Sync, 24p True Cinema, 4 HDMI inputs, Single PC, component, composite and S-video inputs, Favorites menu

W-Series

The W-Series steps-up with networking capability to deliver the same interactive functionality as the top-of-the-line BRAVIA Z and XBR9 series. An economical HDTV option, the W-Series feature full HD 1920 x 1080 progressive (1080p) resolution, Motionflow™ 120Hz technology for improved sharpness and detail in fast-moving images, and Sony's BRAVIA Engine 3, which delivers a crystal clear picture even if the content isn't perfect.

- Ethernet connection allows direct access Sony to BRAVIA Internet Video content using an existing broadband connection. The service offers one of the largest selections of free and premium movies, TV shows, sports, music and more from an array of partners like Amazon Video On Demand, YouTube, Yahoo!, Sony Pictures, Sony Music and many others.
- BRAVIA Internet Widgets, provided by the Yahoo! Widget Engine, expand and personalize the experience by allowing you to interact with your favorite Internet content like Yahoo News, Video, Finance, and Flickr while watching TV shows. Track your favorite sports team, check your stocks, and share photos with friends and family as you watch television.
- Digital Living Network Alliance (DLNA®) compliant, enables easy access to digital photos, music and video stored on a PC or other DLNA server using the XMB® interface and the TV's remote control.
- USB input for displaying digital photos or playing digital video and audio files from compatible USB storage devices.
- 24p True Cinema, XrossMediaBar (XMB) with enhanced 3D favorites menu, Internet powered TV Guide Onscreen, BRAVIA Sync and BRAVIA Link compatibility, and 4 HDMI inputs

Z-SERIES • XBR9 SERIES

The Z-Series and XBR9 Series are Sony's full HD 1920 x 1080 progressive (1080p) televisions, but also include Motionflow™ 240Hz technology, which delivers exceptionally crisp and detailed images with natural motion. The Motionflow algorithm goes beyond traditional 120Hz technology by quadrupling the frame rate of conventional LCD TVs and interpolating three new frames. They also offer a host of inputs including PC, component, composite and S-Video.

The XBR9 Series steps up with a wide color gamut cold cathode fluorescent light (WCG-CCFL) backlight that provides a broader color palette. The result is on-screen images with more vibrant, "life-like" colors.

JVC

LT-19A200 • LT-19D200 • LT-32A200 • LT-32D200

19- and 32-inch HD 720p LCD TVs

Sleek and compact with an all glossy black cosmetic, these TVs are ideal for a kid's room, the office or even a dorm room. They offer high brightness, a wide 170°/160° viewing angle and a flicker-free high resolution picture. An ATSC/digital cable input makes connecting to an HD signal a breeze. The ATSC tuner allows you to receive over-the-air digital terrestrial broadcasts with an antenna. The Clear QAM tuner allows you to receive unscrambled digital cable signals. They feature HDMI and component inputs, optical digital audio output, high contrast ratio, fast 5 msec response time, 5 preset listening modes (Personal/Standard/Movie/Music/News), 7 selectable video aspect modes, 5 picture modes including sports, movie and game and a sleep timer mode. They also include a remote control. For added convenience, the 19-inch models (LT-19A200 and LT-19D200) have a 15-pin PC-input so you can use them as a computer monitor. The 19- and 32-inch D200 models are the same as their respective counterparts, plus the adds the convenience of a built-in DVD player, so you can watch your movies and/or listen to your music without external hookups.

TeleDock LCD Televisions

2nd Generation LCD TVs with Integrated iPod Dock

Available in 32-, 42- and 46-inch sizes, JVC's P-Series TeleDock LCD TVs are full HD (1920 x 1080) displays with digital noise reduction, dynamic backlight and 1080 24p/30p output. They include a flip-down iPod dock at the base of the set, providing a direct connection for playback through the TV. Video files, music files and photos stored on an iPod can be played and shown on the TV. The docked iPod can be controlled from the TV's remote, which includes a circular keypad with a control scheme that mimics the iPod's control wheel. In addition, the iPod charges while docked whether the TV's power is on or off. They feature a gloss black finish including the base and blue (P300) or white (P500) light "diffuser" front illumination. The diffuser distributes the light across the bottom panel of the sets. The illumination is dimmable and defeatable in the menu.

- Each includes a universal remote with direct input access, a side-mounted USB photo viewer, and ATSC/QAM tuning.
- Sound system delivers 10 watts per channel to a pair of JVC's exclusive oblique cone speakers.
- Connections include three HDMI inputs, two component inputs, two S-video inputs, PC input (D-sub) and an analog video output.

iPod Dock Features:

- Comprehensive iPod-like menu allows selection of music or video playback and also supports music search. During video playback, low resolution files, such as internet videos, can be displayed in a small screen mode. Higher resolution video can be shown in nine aspect modes at full screen.
- During music playback, song title, artist, album and genre are all displayed on the TV screen. During video playback, pushing the Display button will display on-screen the video title.
- With a PC connected, iTunes can be displayed on the TV and synched with the docked iPod.
- When a connected PC is powered up, the PC will automatically power-up the television
- Music stored on the iPod can be played through the TV while watching TV programming, and the TV program or other video source can be changed while the music is playing; in addition, the sound can be swapped between the iPod and the TV program sound.
- With music playing from the iPod, photos stored on the iPod or photos stored on an external device connected to the set's USB port can be viewed on the TV.

AV600 Series (720p) LCD HDTV

These small HDTVs pack a powerful punch. Available in 19- and 22-inch, these sets are offered in a high-gloss black cosmetic design, and are a great choice for consumers looking to replace old analog sets. They feature DynaLight™ dynamic backlight control for deeper black levels and two HDMI digital inputs for simple high quality connection to cable/satellite boxes, DVD players and more. 10-bit video processor and CineSpeed Display enhances action sequences, sports or video games with a wide viewing angle for a good seat anywhere in the room.They also include a PC input for use as a computer monitor or gaming TV, and unlike other smaller TVs they also feature Gaming Mode to shorten the signal to screen time for faster game controller response.

- Three user-selectable color temperature settings allow viewers to adjust white balance to achieve the best television picture possible in any viewing environment, or they can simply adjust the picture to suit their personal tastes.
- Cinespeed™ LCD panel has 8ms or less response speed necessary for cleaner high-action home theater images. A wide viewing angle ensures that you'll have the best seat in the house.
- Hidden thin-line speakers provide realistic sound with enhanced dynamic range.
- Conveniences include sleep timer, Auto Aspect Control, Gaming Mode, Channel Browser, Channel Labeling, Input Labeling
- Include two HDMI and two HD component video inputs, one front and one rear A/V input and rear S-Video input. There is also a PC input, analog audio out (Variable) and digital optical output.

RV525 Series (1080p) LCD HDTV

The RV525 Series step you up to 1080p Full HD. With twice the pixel resolution of 720p HD models, Full HD creates the pinnacle in picture quality. They have 3 HDMI digital inputs with REGZA-LINK® (HDMI CEC) and a high-resolution (S-XGA, 15 pin, D-sub) PC Input. They also add QSound® for enhanced audio quality.

- QSound® is a 3D sound processing algorithm that creates 3D audio effects from multiple monophonic sources and sums the outputs to two channels for presentation over regular stereo speakers.
- Lip-Sync Latency activates an audio/video display timing adjustment function that allows HDMI source devices to accurately perform synchronization automatically.

REGZA Line

The REGZA line is powered by Toshibas PixelPure 5G 14-Bit internal digital video processing, the heart of the REGZA engine. All REGZA models also include Resolution+ super resolution technology, the soul of the REGZA engine, to upconvert and enhance 480i/480p and even 720p signals to create increased detail so everything will feel like HD.

The REGZA XV645 series (40", 46", 52") include ClearFrame 120Hz technology for clear fast motion video, as well as AutoView, which automatically sets picture settings based on the incoming video signal and ambient room light. They include three HDMI digital inputs with enhanced REGZA-LINK (HDMI-CEC) and a high-res PC input. They feature Toshiba's Bottom Deep Lagoon design with invisible speakers. Inspired by nature, this design provides a three dimensional feeling to a clean, flat design.

40XV645U *(B&H# TO40XV645U)*: 40" **854.95**
46XV645U *(B&H# TO46XV645U)*: 46" **1115.95**
52XV645U *(B&H# TO52XV645U)*: 52" **1429.95**

The REGZA ZV650 Series (42", 47", 55") steps-up with ClearScan 240, which combines a 120Hz frame rate with new Backlight Scanning Technology to create a 240Hz effect for an all new level of picture clarity with fast motion video. For improved sound, the ZV650 series also adds Dolby Volume, which eliminates annoying, inconsistent volume levels from commercials or when changing channels. Connectivity is also taken to an all new level with four HDMI digital inputs that have enhanced REGZA-LINK (HDMI-CEC), and InstaPort™ for faster HDMI switching. To allow playback of downloaded content, they also have a USB Port allowing users to view their JPEG pictures, MPEG-1/2 or DivX® videos and listen to MP3 audio. An SD card slot allows easy viewing of JPEG digital pictures by simply taking the memory card from the camera and placing it in the TV.

42ZV650U *(B&H# TO42ZV650U)*: 40" ..... **Call or Log-on**
47ZV650U *(B&H# TO47ZV650U)*: 47" ..... **Call or Log-on**
55ZV650U *(B&H# TO55ZV650U)*: 55" ..... **Call or Log-on**

The state-of-the-art REGZA SV670 Series (46", 55") add FocaLight LED Backlight with Local Dimming. Unlike simple edge LED, FocaLight offers a full LED matrix for enhanced brightness uniformity. Even more important is the local dimming, which creates significantly higher dynamic contrast, as blacks are blacker without reducing the peak white brightness. The ultimate in cosmetic design, this series features Toshibas Deep Lagoon process behind the new Infinity Flush Front. Inspired by an infinity pool, this design uses a solid sheet of anti-reflective glass across the entire front of the TV.

VR1
TV Volume Regulator

Easily connects between your TV and satellite receiver, cable box, or DVD player and stops loud commercials and annoying TV volume changes. Connect and forget - works automatically. Great for hearing impaired — raises volume level of hard to hear programs. *(TEVR1)* **26.99**

L-30S 2.4 GHz Wireless Audio/Video Transmitter and Receiver System

Imagine having your A/V components (satellite receiver, DVR, DVD player or a camcorder) in one room and the ability to watch them in another room, even multiple rooms, without running wires. Or being able to listen to your computer's MP3 collection on a pair of powered speakers in another room? Terk's Leapfrog LF-30S is a wireless transmitter/receiver system that does just that. It also gives you the ability to control the A/V source from the other room, so you can actually change the channels on your satellite receiver from the second TV's location. With the purchase of additional receivers, you can use it with multiple TV's throughout your home. *(TELF30S)* **74.95**

Logitech

Harmony H510

Advanced Universal Remote

Say goodbye to your TV, DVD, cable, and stereo remotes. The Harmony H510 can control 5 components from any brands with an extensive infrared database that supports over 225,000 devices from 5,000+ brands. And it's constantly updated with new components and fine-tuned settings, so it will never be out-of-date.

- One button press turns on the right devices in the right order. Powers on your TV, DVD player, and stereo receiver; sets all your inputs; and even, for example, starts your movie.
- Connect the remote to your computer via the included USB cable, and the online set-up Wizard guides you through the entire setup.
- Interactive LCD with Help function makes it simple for everyone. It even asks questions to make sure you're watching and listening to the entertainment you want, exactly as you want it.

Harmony H510 *(B&H# HAH510)* ..... **Call or Log-on**

Harmony 700

Rechargeable Remote with One-Click Control

The Harmony H700 remote can simplify your home entertainment by replacing up to 6 remotes. It features a color screen, rechargeable batteries and one-click control of your favorite activities.

The H700 offers one-button control, so you can simply select what you want to do instead of going through a complex series of button presses. The color LCD screen gives you at-a-glance access to your entertainment options.

The H700 comes with rechargeable AA batteries that can go several weeks between charges. When it's time, just connect the remote to the power adaptor and plug it in to recharge.

Setting up the remote is a snap. You'll never need to punch a code. Instead, you connect Logitech's newest remote to your PC or Mac and download the software. From Betamax to Blu-Ray – you can be sure the Harmony 700 remote can control virtually any IR home-electronic device.

Harmony H700 *(B&H# HAH700)* ..... **Call or Log-on**

Harmony One

Advanced Universal Remote

Reduce the clutter and complexity of your living room and simplify your home entertainment with the Harmony One. Replacing up to 15 remotes, it control components from any brands with an extensive infrared database that supports over 225,000 devices from 5,000+ brands. And its constantly updated with new components and fine-tuned settings, so it will never be out-of-date.

- Full-color touch screen provides easy, one-touch access to any entertainment activity—such as watching a DVD, watching TV, listening to music, and more.
- One simple press of the touch screen and Harmony One controls the rest, including turning on the right components in the right order and setting the correct inputs.
- Fits comfortably in your hand, while its rechargeable design (rechargeable lithium-ion battery pack with charging base) means you can stop worrying about replacing batteries.
- Sculpted, backlighted buttons in logical zones, so you can find the right channel—even in the dark.
- Step-by-step guide tailors the device to perfectly match your home entertainment system

Harmony One *(B&H# HAHARMONY1)* ..... **Call or Log-on**

Logitech

Harmony H1100

The perfect complement to a sophisticated living room, the Harmony 1100 puts a brilliant, 3.5", full-color touch screen in your hands. Replacing up to 15 remotes, you'll be able to turn on everything you need with just one touch. And you can customize the controls to get the commands you want, when you want. It's like no remote you've ever used before.

- Palm-sized and rectangular shaped, it's easy to hold whether you're switching channels or turning up the volume.
- Large 3.5" color touch screen lets you see icons and commands, even in the dark. You'll have the commands you want, when you want them. And you'll be able to access all the functions of your devices. Help is even available right on the screen.
- Connect the remote to your computer and you're guided through every step for easy setup. If you hit a snag, live customer support is ready to help.
- With the optional Harmony RF Extender, you can control devices behind closed doors, even those you can't see.
- No complicated lists of what to turn on or which button to select. Select what you want to do—such as "Watch TV"—and the remote does the rest.
- Rechargeable design (rechargeable lithium-ion battery pack with charging base) means you don't have to worry about batteries.
- Supports 225,000+ devices from 5,000 brands, so you know it will work with what you have today and what you'll add tomorrow.

Harmony RF Wireless Extender

Compatible with the Harmony H900 and H1100 remotes, the Harmony RF Wireless Extender offers the ability to control out-of-sight components within an incredible 100' range, even from different rooms throughout your home. This compact, fully addressable extender features four dedicated IR ports, intelligent Z-Wave RF technology, computer setup, and the ability to control up to 8 components within line-of-sight of the included IR emitters. *(B&H# HAWRFE2)* ..... **Call or Log-on**

PHILIPS

Pronto TSU9200 Home Control Panel

Ergonomically designed, the Pronto TSU9200 offers a familiar remote control look-and-feel with an interface that is a snap to program. Designed for ease of navigation with just the right balance of hard buttons and on-screen interfacing, the TSU9200 displays essential actions like 'Watch a DVD' and channel icons right on the LCD screen.

Fully compatible with all IR devices, the TSU9200 features white backlighting, laser-engraved tactile buttons to prevent wear, and a subtle minimalist docking station/battery charger. Ideal for users who like to keep it simple, the TSU9200 integrates everything from home entertainment systems to PC-based digital music libraries.

- Attractive and easy-to-read color LCD display with backlighting
- Ergonomic design for single-handed operation
- Rotary cursor control for fast menu navigation
- User interface matching your personal taste and preferences
- Activities to control multiple devices with one button press
- The perfect key layout for optimal home theater control
- Control hidden equipment and devices in other rooms
- Compatible with Media Center Edition, WMP10-11, iTunes 6-7

Pronto TSU9200 *(B&H# PHTSU9200)* ..... **Call or Log-on**

Pronto TSU9300 Home Control Panel

The Pronto TSU9300 features a high-resolution flush-mounted 2.8" color touch screen. The superb contrast allows easy reading, while the slim and stylish design makes it easy to operate with only one hand. With its bright touch screen, white back-lit buttons and stylish design, the TSU9300 is a perfect fit for any advanced home system. It is also Wi-Fi based and offers an out-of-the-box integration with several audio servers such as Escient, Imerge and Windows Media Center Edition computers, as well as the Lutron RadioRa lighting systems.

- Control panel with its intuitive rotary wheel is the ideal solution to manage even the largest music and movie collection.
- User interface matching your personal taste and preferences
- Control multiple devices with a single touch
- Control hidden equipment and devices in other rooms
- Music server control with intuitive rotary cursor
- Pre-configured lighting control (Lutron RadioRa)
- Access digital files from any Windows MCE PC

Pronto TSU9300 *(PHTSU9300)* .. **Call or Log-on**

Pronto TSU9400 Home Control Panel

Ultra-thin with a stunning 3.5" QVGA color touch screen ideal for graphics, a rotary wheel for easy multimedia scrolling and conveniently placed buttons, the Pronto TSU9400 is a hybrid of full functionality and designer looks. It blends into practically any modern interior with its geometric aluminum and black gloss finishing. The backlit buttons and Pronto logo emit a soft white glow giving it an ultra-cool finishing touch when placed in its matching docking station to recharge.

To create the ultimate in customization, the TSU9400 comes with the updated ProntoEdit Professional software. It features the exclusive ProntoScript programming functionality, which enables two-way real-time interaction and the creation of a dynamic user interface. The TSU9400 can receive feedback from RS-232- or IP-controlled devices in real-time, providing an advanced two-way functionality beyond controlling home entertainment and automation systems.

Pronto TSU9400 *(B&H# PHTSU9400)* ..... **Call or Log-on**

PHILIPS

Pronto TSU9600 Home Control Panel

Sensational design and a breathtaking color display give the Pronto TSU9600 instant ppeal. The smooth top and flush display is backed by an ergonomic 'soft feel' grip with a stylish metallic finish. Its docking station/recharger emits a subtle white glow and when charging a red indicator that reflects on the tabletop.

For complete customized convenience, it incorporates ProntoEdit Professional, featuring embedded software modules, enabling out-of-the-box control for Escient FireBall audio and video servers, the Imerge SoundServer S3000 and other XiVA supported music severs (Elan, SpeakerCraft, Xantech, Niles and Revox) as well as Lutron RadioRa lighting systems. For those who would like to integrate a computer, the TSU9600 can access digital files from any Windows MCE (Media Center Edition) computer. ProntoEdit Professional also supports operations in Microsoft Vista.

In order to truly customize the Pronto control solution to the end-user's wishes, installers and programmers can integrate 2-way feedback using the pioneering ProntoScript feature. ProntoScript, a JavaScript-based tool, is embedded in the ProntoEdit Professional software. It enables installers to create a dynamic 2-way user interface for system control over RS232 or IP with full graphical flexibility.

- 3.7" VGA screen with superb contrast and vivid colors
- Ergonomic design with optimized button layout for both one- and two-handed control
- Built-in stylus for accurate control
- Best-in-class IR learning and sending performance
- Out-of-the-box control of Escient and Lutron
- Built-in system diagnostics save time if a problem occurs
- User interface matching your personal taste and preferences
- Control multiple devices with a single touch
- Control hidden equipment and devices in other rooms
- Music server control with intuitive rotary cursor
- Pre-configured lighting control (Lutron RadioRa) includes a full on-screen user interface for controlling lighting scenes, moods and individual dimmers. With on-screen feedback from lighting throughout the house, the end user knows if the light is actually on or off.

Pronto TSU9600 *(B&H# PHTSU9600)* ..... **Call or Log-on**

Pronto TSU9800 Home Control Panel

The Pronto TSU9800 offers all the advantages of the TSU9600… and more. With a razor-sharp, full-size 6.4" VGA display, two extra buttons and an optical rotary wheel. Some consumers will appreciate the readability of the larger screen while others prefer the possibility of displaying more icons or menu options on one single screen.

Fixed mounting on a wall or table top is now also possible, in just a few easy steps. With an optional accessory, the control panel can be mounted onto any wall. This is the ideal solution for ensuring that the control panel won't be lost or stolen, whether in a hotel, boardroom or at home. The docking station provides more than just a solid base, however. A connector at the back of the unit also makes it possible to enjoy the speed and reliability of a fast Ethernet connection. The clutter of power and network cables is completely hidden from view so that the Pronto TSU9800 always looks clean and sleek.

AR Acoustic Research

Modular Wireless Speaker Conversion Systems

Now you can convert any speaker system to wireless, delivering CD-quality sound without the interference problems that plague most wireless systems. Say goodbye to weak speakers, under-powered amps and massive signal distortion. With intelligent error correction, advanced antennas and powerful 60-watt digital amps these systems convert the users' existing speaker system to create a high-fidelity surround sound environment that brings home cinema to life.

- True point-to-multipoint technology allows users to place each receiver exactly where they want to regardless of potential wireless interfering electronics like cordless phones, 802.11 computer networks and microwave ovens that normally effect wireless performance.
- Diversity antennas help overcome problems with multi-path fading (signals bouncing off walls, people, etc).
- Transmission of 6 full bandwidth 16 bit CD-quality audio channels eliminates audible noise and distortion.
- The system is expandable, with each channel having the ability to add up to 6 speakers. That means you could actually run 36 speakers off a 5.1 system…speakers literally all over your house.

The Modular Wireless Speaker Conversion line includes four models: a 5.1 system for 5 speakers and a sub, a 2.0 system for two speakers, and individual sub and speaker modules that allow additional speakers to be added to any system.

ARW5.1: 5 receivers each with 6 speaker inputs, plus one subwoofer receiver and a system transmitter for the receivers. It converts any surround sound system to a wireless system for all speakers. AC power is the only wired connection. *(ACARW51)* **439.95**

ARW20: Two speaker system features a transmitter with 5-channel speaker-level input and subwoofer line-level input and two 60-watt amplified receivers. *(ACARW20)* **179.95**

ARWR2: Single speaker add-on features one 2.4GHz modular wireless receiver pack with 60W amplified receiver. *(ACARWR2)* **89.95**

ARWS3: Single sub add-on features a wireless receiver pack for one subwoofer line-level receiver. *(ACARWS3)* **69.95**

Universal Remote Control

RF-10

The RF-10 is a universal and learning remote that sends IR and RF commands to all home theater A/V equipment. This allows the RF-10 to operate "out-of-sight" A/V components through walls, doors and cabinets when connected to the optional MRF-100 RF receiver.

- Replaces up to 8 different remote controls. Macro programming enables users to take advantage of one-touch operation.
- Punch through operation for control of frequently used functions
- Automate your system with 10 one touch macro buttons, each with up to 50 commands
- Includes thousands of built-in pre-programmed codes
- SimpleSound provides total volume control over all components in your system, even those without built-in volume control, such as TiVo, DVD & VCR.
- Retains programming without batteries up to 10 years

RF-10 *(B&H# UNRF10)* ..... **Call or Log-on**

RF-20

Step-up features from the RF-10

- Replaces up to 10 remote controls
- Create custom text labels on the expanded LCD screen
- 5-way thumbpad for operation of menu-driven devices
- Instantly access up to 40 favorite channels with one button press
- 432 macro buttons, each with up to 190 commands

RF-20 *(B&H# UNRF20)* ..... **Call or Log-on**

MRF-100B PowerBlaster

An RF receiver, the MRF-100B RF provides an affordable and innovative "whole-house" solution to home theater operation. Converts RF signals from an RF-10 or RF-20 remote to IR commands and sends them to out-of-sight components via built-in front blasters, indoors or outdoors, up to 100' without pointing.

- Hide and operate A/V equipment from a room other than where A/V equipment is located. Control out-of-sight A/V components through doors, walls, cabinets and floors
- Adjust audio system volume or selection while outdoors
- Control out-of-sight A/V components through doors, walls, cabinets and floors

MRF-100B *(B&H# UNMRF100B)* **59.95**

Digital R50

Controlling up to 18 components, the Digital R50 features a self-explanatory Setup Wizard right on the large color LCD screen for quick and easy configuration—no Internet or PC required.

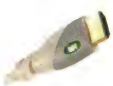

- Thousands of built-in control codes for your components.
- Learns functions and commands from other remotes
- Instantly access up to 48 favorite channels with one button press
- 1500 macro buttons, each with up to 255 commands
- Friendly features include smart volume control, "Sofa Mode", etc.

DIGITAL LIVING

There's no doubt we live in the digital era. Music, photography, video — it is all digital, and it is at our fingertips. Digital technology has transformed the way we work, play and communicate. From the pictures we take with our digital cameras, to the music we listen to on our digital music players, and all the information stored on our computers, PDAs, and mobile phones, everything is based on some type of digital file format.

Whether we are traveling by train, plane, automobile, or boat; while studying, jogging, working out—and even swimming—we obviously want our videos, music, movies, TV programs, and podcasts with us. The industry overall has made great progress toward developing innovative products and services that are helping make digital living a reality for consumers.

Authorized Reseller

APPLE TV

Wireless Media Extender for iTunes

- Elegant and compact, Apple TV lets you view content from your iTunes library on your TV. It integrates an AirPort Extreme Wi-Fi to sync an iTunes library with its internal 160GB hard drive.
- Connect to any widescreen HDTV with component or HDMI input capabilities.
- Analog stereo and digital optical connection for connection to a surround sound receiver
- Includes Apple TV remote

APTV160GB **229.00**

MEDIAGATE

MG-800HD Wireless HD Media Player

The compact MG-800D connects to your HDTV via HDMI allowing you to watch 1080p HD video files, listen to music, or view photos that are stored on your PC. Files are streamed via built-in 802.11n Wi-Fi. You'll also be able to install an internal 3.5" SATA hard drive, allowing you to store media locally, and to utilize the integrated BitTorrent client to download media from the Internet. Compatible with DLNA and UPnP standards.

MEHDMCE **249.95**

iomega ScreenPlay HD

Portable External Hard Drive for Multimedia Content Delivery to Home Theater Systems

A media player that connects directly to your TV allowing you to play back digitally encoded movies and music without the hassle of hooking a computer up to your home theater. The player features a 500GB or 1TB hard drive for media storage. It connects to a PC via USB 2.0. The player supports component and composite video outputs for home theater connectivity. Remote control included for navigation and playback control. Supports most file formats including AVI, DivX, XviD, MPEG, MP3, and JPEG.

Western Digital My DVR Expander

Instantly add up to 60 hours of high-definition TV or up to 300 hours of standard-definition TV to your DISH Network ViP Series HD DVR. You'll have plenty of room to save your programs longer and never miss your favorite shows. Just plug it in to the external USB port on your DVR and start recording even more TV shows, sporting events and movies. (Requires port activation. Fees may apply.)

No-fan passive cooling system makes it quiet enough for use in living rooms and bedrooms.

My DVR Expander 500GB *(WEWDG1S5000V)* **91.95**

LaCie LaCinema Rugged

Multimedia Hard Drives

Created for LaCie by world-famous industrial designer Neil Poulton, the LaCinema Rugged goes beyond ordinary multimedia hard disks with its sophisticated all-terrain design. It is actually a media player that connects directly to your TV via HDMI, SCART or composite video. Featuring a rugged portable design, it allows you to play back digitally encoded movies and music without the hassle of hooking your computer up to your home theater. It even features HDMI upscaling so you can enjoy your video and photos in full HD resolution. It has a unique varnished, scratch-protected aluminum shell and shock-resistant rubber sleeve for extra protection wherever you go. By connecting it to your computer via USB, you can store your multimedia files, then access them later through any television.

addlogix InternetVue 2020

Wireless PC2TV Display Adapter

Watch any PC content on your TV. This compact device lets you wirelessly stream videos or photos to TV, projector or video display with composite or component inputs. It features built-in 802.11b/g Wi-Fi and a wired Ethernet 10/100Mbps port, allowing you to use it with computers that lack Wi-Fi capability.

#ADIV2020 ..... **189.95**

D-Link DSM-520

Wireless HD Media Player

- Wirelessly stream digital content from your PC or from any storage device
- HDMI connector for up to 1080i video resolution
- Wireless 802.11g or wired Ethernet connectivity
- Supports HDMI, component, S-Video, and composite video outputs
- Coax digital, optical digital, and composite analog audio outputs
- One-touch preset keys for instant access to your favorite music
- Intuitive animated TV interface; Setup wizard for easy configuration
- Enjoy hundreds of free and premium Internet video channels with Active-TV-Online

#DLDSM520 ..... **214.95**

sling MEDIA SlingLink TURBO

HomePlug Turbo Transmitter and Receiver

Designed for use with the Slingbox Internet TV broadcaster. It allows you to transmit Ethernet data over your home's electrical wires. A great solution for Slingbox users, since a home theater is rarely in the same room as an Internet router. Includes a one-port box to connect to an Internet router and a one-port box that connects to a SlingBox. Also available with a 4-port box that connects to a SlingBox and other Ethernet-capable home theater components.

- Transmit data over your home's electrical wiring allows you to set up a network without having to run Ethernet cabling between rooms.

SlingLink TURBO Transmitter and 1-Port Receiver *(#SLT1PT)* **64.95**
SlingLink TURBO Transmitter and 4-Port Receiver *(#SLT4PT)* **119.95**

sling MEDIA Slingbox Solo

Internet TV Broadcaster

- Watch your HDTV anywhere on your laptop or mobile phone with no monthly fees
- Watch and control a high-definition or standard definition A/V device, such as a DVR, cable set top box, satellite receiver, or DVD player
- Full set of pass-through connections for easy integration with virtually any A/V device
- On screen remote control • Supports over 5,000 A/V devices

#SLSBSOLO **178.00**

sling MEDIA Slingbox PRO-HD

Internet TV Broadcaster High Definition Streamer

The Slingbox PRO-HD allows you to watch live TV streamed from your home cable or satellite connection via the Internet. Connect up to 4 home theatre sources, and even includes an internal digital tuner for cable or off-air TV signals.
Paying for expensive cable or satellite packages for sports or movies? —you'll love being able to watch when traveling for business. Daily commuters can also catch up on the morning news live on their laptop or phone during the morning train ride.

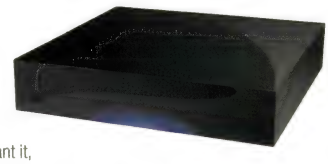

- Streams live television over the web and allows you to view it anywhere with Internet access.
- Can handle up to 3 video sources. It has 2 SD and 2 HD analog inputs. Also features a TV tuner.
- No hidden subscription fees that other services may charge. Once you own the hardware you can start watching TV over the Internet without having to worry about a hidden charge.

#SLSBPHD **298.00**

LaCie

LaCinema Black PLAY • LaCinema Black RECORD

High Definition Media Player and High Definition Media Center

With the LaCinema Black PLAY and LaCinema Black RECORD, you can view all your music, photos, and movies, right on your TV. They come with high-capacities built in, plus a USB port lets you increase capacity, turning your TV into your own personal media center, with near limitless storage.
Create photo slideshows, play your music when you want it, or view HD movies any time: the possibilities are endless. A built-in UPnP client player ensures that you can connect to a networked computer, and you'll be able to load, watch, and enjoy all of your photos, music, and movies—regardless of where they're located. Their multi-use design helps them go beyond normal multimedia hard disks. Transfer and watch your home movies in HD by connecting a camcorder. With 1080i upscaling, you can watch your home movies in flawless definition, ensuring that your memories will last a lifetime.
Otherwise the same, the LaCinema Black RECORD allows you to easily pause or rewind live TV, or record your favorite shows to watch later. With its time shift capabilities, you can even record the beginning of a show after you've started watching it.

LaCinema Black RECORD 1TB *(LALCBR1TB)* **444.95**

MVIX Ultio (MX-800HD) 1080p High Definition Media Center

A hard-disk based set-top media player capable of HD playback with video output as high as 1080p, the Ultio (MX-800HD) brings your digital entertainment into your living room with spectacular picture quality and crystal clear sound clarity of digital audio. Ultio is internet-ready and pre-equipped with a network port (and an optional Wireless-N capability). It sports a samba server and a UPnP implementation, allowing seamless integration with services like PlayOn or Tversity (for streaming video content from Hulu, CBS, Youtube, CNN, ESPN and much more).
Store HD media on its internal hard drive, plug it into a TV via a HDMI cable and enjoy movies, digital music and family photos on a large screen HDTV. Supports most 1080p HD video codecs, and formats such as H.264, MKV, Dixv HD®, MOV, VC-1, FLV, etc. Capable of playing unique formats such as AVC-HD (used in camcorder footage) or FLAC (the popular, uncompressed audio, craved by audiophiles).

#MVMX800HD **169.95**

LINKSYS®

Media Hub Home Entertainment Storage

More than a simple network hard drive, Media Hub is designed to act as the central repository for all of your digital media, allowing you to stream media to compatible home theater devices, share photos over the web, and act as a backup device.
The drive features a Gigabit Ethernet interface, fast enough to stream three streams of HD video simultaneously. It stores files on a WD internal 500GB (NMH305) or 1TB (NMH410) hard drive. A second drive bay lets you increase storage capacity as needs dictate. Two USB ports to connect external hard drives for storage expansion.
The NMH405 and NMH410 add a color LCD to monitor device status or change settings, and a memory card reader that lets you download pictures directly to the drive.

- Web-based software (Mac and Windows) allows you to view and play media from the drive, directly on your computer screen. This allows you to free up space on your computer's internal hard disk.
- 1-year free remote access to your content on the drive from anywhere via the Internet
- Finds photos, music, and movies on your network, copies and sorts them for central accessibility
- When used with a Windows system, NTI Shadow software scans for media on your network on a regular basis, backing it up to the Media Hub's internal drive for safety
- Supports RAID 1 configuration when 2 disks of equal capacity are installed
- Streams movies, music and pictures to UPnP and DLNA 1.5 compatible devices
- Use anywhere in the world, runs on 100-240VAC • Kensington lock slot for protection from theft

Every Macintosh computer comes with iLife® '09, Apple's award-winning suite of digital lifestyle applications, featuring iPhoto®, the easiest, fastest way to organize and share digital photos, and a completely reinvented iMovie®, both seamlessly integrated with the MobileMe™ Gallery for online photo and video sharing. Every Mac also includes Leopard®, the world's most advanced operating system which features Time Machine™, an effortless way to automatically back up everything on a Mac; a redesigned Finder™ that lets you quickly browse and share files between multiple Macs; Quick Look, the best way to instantly see files without opening an application; Spaces®, an intuitive feature used to create groups of applications and instantly switch between them; and major enhancements to Mail and iChat®.

Apple® MacBook

A mere 1.08" thin and weighing only 5 lbs, the MacBook cuts a slim profile on any desk (or in any backpack or briefcase). Yet this go-anywhere notebook comes with go-anywhere durability. The tough polycarbonate shell keeps it ready for the rough and tumble of everyday life. And because the latch is magnetic — with no moving parts to snag, jam, or break — even opening and closing MacBook is a pleasure. When it is opened, every document, video, and photo will look sharp on the glossy 13.3" widescreen (1280 x 800) display. Plus, its powered by an advanced NVIDIA GeForce 9400M card for a smooth, responsive graphics performance.

- With two-finger scrolling, the trackpad becomes a fast track to wherever you want to go. And if you want, just place two fingers on the trackpad and click the button for easy right-click functionality.
- Incorporates 802.11n wireless technology, Bluetooth capabilities, 5 hours of wireless productivity battery life, and iSight webcam camera.
- 8x SuperDrive lets you burn everything you watch, listen to, or create onto DVDs
- Mini-DVI port to connect to an external display. Also includes includes two USB 2.0 ports, a FireWire 400 port, Gigabit Ethernet, audio input and headphone jacks, and a convenient lock slot.

MacBook with 2.13GHz Intel Core 2 Duo, 160GB SATA (5400 rpm) hard drive, 2GB of RAM, white polycarbonate shell, weighs 5 lbs *(Mfr# MC240LL/A; B&H# APMB21313W)* **978.00**

iLife '09: Included with every new Mac, iLife '09 features major upgrades to iPhoto, iMovie and GarageBand, and includes iDVD and an updated version of iWeb. iLife '09 makes working with photos, making movies and learning to play music a lot more fun, and iMovie users are especially going to love the advanced but easy-to-use new features.

iPhoto '09: Organize photos two new ways, based on who's in your photos (Faces), and based on where your photos were taken (Places). Then share on Facebook or Flickr with a click.

iMovie '09: Make a great movie in the time you have. Choose a dynamic theme to enhance your movie in seconds. Or refine every shot with the Precision Editor.

GarageBand '09: Learn to play piano and guitar. Learn songs from the artists who made them famous. Rock like a legend with new guitar amps and stompbox effects.

iWeb '09: Design a website to share your photos, movies, and music just by dragging and dropping. Adds iWeb Widgets, such as iSight video and photos, a countdown timer, YouTube video and RSS feeds.

Apple® MacBook Air

The world's thinnest notebook, MacBook Air measures an unprecedented 0.16" at its thinnest point, while its maximum height of 0.76" is less than the thinnest point on competing notebooks. MacBook Air has a stunning 13.3" LED-backlit widescreen display, state-of-the-art NVIDIA GeForce 9400M graphics card, a full-size and backlit keyboard, a built-in iSight video camera for video conferencing, and a spacious trackpad with multi-touch gesture support so users can pinch, rotate and swipe. MacBook Air is powered by a 1.6GHz or 1.86GHz Intel Core 2 Duo processor, and includes 2GB of RAM, 120GB SATA or 128GB SSD (solid-state drive), 802.11n Wi-Fi and Bluetooth 2.1 technology, and a 5-hour battery.

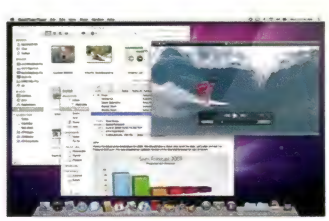

- Spacious trackpad offers multi-touch gesture support for pinch, rotate and swipe, making it more intuitive than ever to browse and rotate photos or zoom into web pages.
- Backlit full-size keyboard is ideal for dimly lit environments, while the built-in ambient light sensor automatically adjusts the brightness of the keys as well as the display brightness for optimal visibility.
- Includes AirPort Extreme 802.11n Wi-Fi networking. Apple's Migration Assistant enables you to quickly transfer files, applications and preferences from an older Mac to MacBook Air over a wireless network.
- Mini DisplayPort to connect with the Apple LED Cinema Display.
- USB 2.0 port, headphone jack and MagSafe Power Adapter designed especially for mobile users.
- Optional accessories include MacBook Air SuperDrive, a compact external drive powered by the MacBook Air's USB port, and Mini DisplayPort adapters that allow you to connect your MacBook Air to external DVI or VGA displays.

Mac OS X 10.6 Snow Leopard

An enhanced, streamlined, and refined edition of Apple's groundbreaking Leopard operating system, Snow Leopard is optimized for use with 64-bit processors, specifically those made by Intel. The newly-optimized Finder renders icons nearly twice as fast as before. Time Machine backups are nearly 80% faster, and wake from sleep shut down is twice as fast. In addition to speed enhancements, Snow Leopard's Finder has been enhanced with a more customizable Spotlight search and enhanced icon views. Exposé is now integrated into the Dock, allowing you to quickly view open windows on an application-by-application basis if desired. QuickTime X includes basic video editing tools. Trim extra footage and then upload them to MobileMe or YouTube with ease. iChat requires less bandwidth for video chat, and offers 4x the resolution for iChat Theater presentation broadcasts. For web browsing, Safari 4 delivers up to 50% faster JavaScript support, resulting in more responsive web pages.

OS X 10.6 Snow Leopard upgrade from Leopard *(APMOSXSL)*...**29.00** **5-Computer License (upgrade from Leopard)** *(APMOSXSLF)*.....**49.00**

Apple® MacBook Pro

Redefining notebook design, the 13", 15" and 17" MacBook Pro feature a precision unibody enclosure crafted from a single block of aluminum, state of the art NVIDIA graphics, brilliant instant-on LED-backlit display and large glass Multi-Touch™ trackpad that offers almost 40% more tracking area and support more Multi-Touch gestures. On two of the 15.4-inch and the 17-inch models, you can switch between the NVIDIA GeForce 9400M integrated graphics processor for better battery life and the powerful NVIDIA GeForce 9600M GT discrete graphics processor for higher performance.

- The 13- and 15-inch come with an advanced built-in battery that lasts up to 7 hours. The 17-inch comes with an 8-hour battery. (8 hours on the 17-inch MacBook Pro) on a single charge.
- LED-backlit display for brilliant instant-on performance, crisp images and vivid colors, while the edge-to-edge cover glass creates a smooth, seamless surface.
- For burning DVDs, they all incorporate an ultrafast 8x SuperDrive which also write to DL discs
- They are iPod, iPhone, digital camera, and external hard drive ready. There are two (13" and 15") or three (17") USB 2.0 ports and a FireWire 800 port for connecting faster peripherals.
- They include a Mini DisplayPort to connect with the Apple LED Cinema Display.
- Built-in iSight webcam, stereo speakers, omnidirectional mic, and AirPort Extreme Wi-Fi and Bluetooth 2.1 + EDR wireless technologies.
- The 13- and 15-inch MacBook Pro have a built-in SD card slot, so you can edit and share your photos and digital video on the spot.
- Built-in stereo speakers, built-in omnidirectional micr, combined optical digital input/analog line in, combined optical digital output/analog line out
- The spacious trackpad gives your hands plenty of room to move on the large, silky glass surface. Use two fingers to scroll up and down a page. Pinch to zoom in and out. Rotate an image with your fingertips. Swipe with three fingers to flip through your photo libraries. Swipe with four fingers to show your desktop, view all open windows, or switch applications. If you're coming from a right-click world, you can right-click with two fingers or configure a right-click area on the trackpad.

Apple® LED Cinema Display

Designed to expand the screen of the MacBook, MacBook Air or MacBook Pro, the 24" LED Cinema Display turns your notebook into a desktop, while built-in iSight camera, mic, and speakers expands your whole experience.

- Connect your MacBook to the LED Cinema Display and upgrade to first class. The 24" glossy widescreen 1920 x 1200 screen gives you room to work.
- Tilt the display to get the viewing angle that's best for your work environment. With its smooth-motion hinge, adjustment is effortless. Choose an angle anywhere from -5 to 25°.
- Connects to your MacBook via the ultra compact Mini DisplayPort connector.
- The display lights up very quickly, so there's no waiting when you connect your MacBook—you get full screen brightness instantly.
- Display includes a MagSafe connector that powers and charges your MacBook. The connector sits on your desk eliminating the need to unravel the cord from the MacBook's power adapter.
- Three self-powered USB ports, along with the built-in iSight camera, microphone, and speakers are enabled the moment you plug the USB connector into your MacBook. Connect a printer, camera, iPod, iPhone, whatever you like.
- With the built-in iSight camera, mic and speakers, you can connect your MacBook — leaving it open or closed — and engage in video chats or listen to music just as you would with a desktop computer.

24" LED Cinema Display *(Mfr# MB382LL/A; B&H# APLED24)*: Includes an AC power cord and a cleaning cloth. 22.6 x 18.8 x 7.8" (WHD), it weighs 21 lbs.....**849.00**

Apple® Mac mini

Packed inside its petite 2" tall, 6.5" square anodized aluminum enclosure, Mac mini houses an Intel Core 2 Duo processor, 80 or 120GB hard drive, a slot-loading Combo drive or SuperDrive, as well as built-in wireless — all whisper-quiet. This modular design lets you upgrade your current system to the elegance, simplicity, and reliability of Macintosh without a lot of extra expense.

Mac mini also gives you plenty of room to grow. Simply connect your digital devices, such as cameras, iPod, printer, camcorder, or keyboard, to the Mac mini over USB 2.0 or FireWire. Share files around your house at blazing speeds with built-in 10/100/1000BASE-T Ethernet. Enjoy high-quality sound on almost any speaker system with double-duty analog/digital audio. Record digital and analog sources through audio line in, perfect for your latest podcast in GarageBand. (Note: They don't include display, keyboard or mouse.)

- Built-in AirPort Extreme Wi-Fi (802.11g) and Bluetooth 2.0 + EDR
- NVIDIA GeForce 9400M graphics card with 128MB or 256MB of memory
- Bundled iLife '09 makes it easy to make amazing things. Enhance, organize, and share your photos via iPhoto. Create calendars, books, and cards. Make videos with iMovie's advanced, yet easy-to-use features. Turn your photo and movie creations into professional DVDs with iDVD. Create original music in GarageBand, even if you can't carry a tune. Make podcasts and blogs. Then publish them online via MobileMe and iWeb.
- Full-screen Front Row — with its intuitive menus, large text, and brilliant graphics — lets you browse the music, photos, and videos on your Mac mini as easily as you browse music on your iPod. Use the supplied Apple Remote to enjoy your media from anywhere in the room.

Apple® iMac

iMac sets the standard for elegance and power. It packs a complete, high-performance computer into an all-in-one design. From any view, iMac is impressive. Its profile is amazingly slim. But little compares to sitting in front of the glossy widescreen display framed in anodized aluminum. iMac instantly turns your workspace from a cluttered desktop into a brilliant display podium. Featuring powerful Intel Core 2 Duo processors, Mac OS X Leopard and iLife '09, the 20- and 24" glossy widescreen displays make photos and movies come alive with rich color.

- Made from a single sheet of aluminum, so you won't see any seams or screws except for a single compartment on the bottom that provides easy access to the memory slots.
- Flat-panel LCD screen with 1680 x 1050 resolution (20") or 1920 x 1200 resolution (24"), gives you vivid colors and breathtaking clarity.
- Ultra-thin Apple Keyboard complements iMac. Its anodized aluminum enclosure features low-profile keys with a crisp, responsive feel. It includes special function keys for one-touch control of Mac features, and two USB 2.0 ports for high-speed connectivity to your iPod, Mighty Mouse, digital camera, and other devices.
- The built-in iSight web camera and microphone are integrated so neatly you barely notice they're there — until you need them for a video chat.
- With NVIDIA high performance graphics card, they deliver smooth video playback and realistic visual environments.
- Connect your iPod, digital camera, mobile phone, and external hard drive. If it has a cable, iMac has a place for it. Threre are three USB 2.0 ports on iMac itself and two on the Apple Keyboard. Connect faster peripherals to the FireWire 400 and FireWire 800 ports for even more possibilities.
- Built-in high-speed 802.11n wireless technology. And with Time Capsule or the AirPort Express Base Station, every computer in every room can connect to iMac, the Internet, and each other. Over this network, everyone can print, surf the web, and even play music from the iTunes library through your home stereo — wirelessly.
- Burn your own CDs and DVDs — including double-layer DVDs — to back up data or create your own music mixes. With the SuperDrive and iDVD, you can even burn the movies you make onto a DVD and watch them on your TV.

24" iMac *(Mfr# MB420LL/A; B&H# APIM3061TB24)*: 3.06GHz Intel Core 2 Duo, 1TB hard drive, 4GB RAM, nVIDIA GeForce GT 130 graphics card **2099.00**

Apple® Mac Pro

The fastest Macintosh ever made, the Mac Pro features the latest Quad-Core Intel Xeon 3500 series and 8-Core Xeon 5500 series processors running up to 2.93GHz, each with 8MB of L2 cache per processor for breakthrough performance and power efficiency. The ideal system for creative professionals, 3D digital content creators and scientists, it offers high-bandwidth hardware architecture, up to 32GB of DIMM memory, powerful graphics and up to 4TB of internal storage. Comes pre-installed with Mac OS X 10.5 "Leopard". The 64-bit OS takes full advantage of the Xeon processors and includes such software applications as Time Machine, Spaces, Spotlight, Dashboard, Mail, iChat AV, Safari, QuickTime, and iCal. You also get iLife '09, the popular digital life suite that includes iTunes, iPhoto, iMovie HD, iDVD, iWeb, and GarageBand.

- The Mac Pro comes standard with the NVIDIA GeForce GT 120 with 512MB GDDR3 memory, Mini DisplayPort, and dual-link DVI video output. It includes a PCI Express 2.0 graphics slot, and supports the latest generation of graphics cards from NVIDIA, such as the GeForce 8800 GT with 512MB of video memory, or Quadro FX 5600 with 1.5GB of video memory.
- The most expandable Mac ever, Mac Pro features four internal hard drive bays with direct-attach, cable-free installation of four 1TB Serial ATA hard drives, totaling 4TB of internal storage and support for two SuperDrives. With optional 15000 rpm SAS (Serial Attached SCSI) drives that can deliver up to 250MB/s of RAID 5 disk I/O performance, the Mac Pro is ideal for film and video editors.
- With support for up to four graphics cards, the Mac Pro can drive up to eight 30" displays at once for advanced visualization and large display walls.
- Combined with SATA or SAS drives, using an optional Mac Pro RAID card offers the ultimate data protection and disk I/O performance on the Mac Pro.
- The Mac Pro is easily accessible in front and back so you can connect external devices with five USB 2.0, two FireWire 400, two FireWire 800, optical and analog audio in and out, dual Gigabit Ethernet ports and a headphone jack.
- Includes an ultra-thin aluminum Apple Keyboard and built-in Bluetooth 2.0 lets you reduce cable clutter with the optional Apple Wireless Keyboard and Apple Wireless Mouse.

Mac Pro *(B&H# APMP226QC3)*: 2.66MHz Quad-Core Intel Xeon processor, 3GB of RAM, nVIDIA GeForce GT120 graphics graphics card with 512MB of memory, 640GB Serial ATA 3GB/s; 7200 rpm, 16x SuperDrive with double-layer support (DVD±R DL/DVD±RW/CD-RW) **2299.00**

Mac Pro *(B&H# APMP226QC)*: Includes two 2.66GHz Quad-Core Intel Xeon processors, 6GB of RAM, nVIDIA GeForce GT120 graphics graphics card with 512MB of memory, 640GB Serial ATA 3GB/s; 7200 rpm, 16x SuperDrive with double-layer support (DVD±R DL/DVD±RW/CD-RW) **3079.00**

In addition to the standard configuration, B&H offers numerous customized Mac Pro systems at www.bhphotovideo.com

Apple® Cinema HD Display

30" Monitor

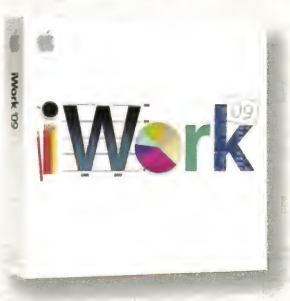

Designed to match their sculpted aluminum enclosure, Apple's 30" Cinema HD Display is the perfect companion for the Mac Pro. Featuring a sleek anodized aluminum case, you can put multiple displays right next to each other, for a virtually seamless picture. It hovers above your desk on a curvaceous stand, while a light touch can adjust the viewing angle from -5° to 25°. Connect the displays via industry-standard DVI and choose an optional VESA mount to install them anywhere.

- The 30" Cinema HD Display gives you the space you need to visualize your entire creation — yet provides the resolution necessary to edit in place. With 77% than a 23" more screen real estate, you can lay out a two-page spread and edit text without squinting. Review multiple images side by side in Aperture — or just one, full screen and large as life. Work in Photoshop with more than 30 layers in a palette. Take in the whole timeline in Final Cut Pro. Display 126 Logic Pro mixer controls simultaneously. Or peer into four different modes of a molecule visualization with subatomic detail.
- 2560 x 1600 resolution, viewing angle from -5° to 25°
- Mac Pro can be expanded to drive an array of up to eight Cinema HD displays.
- With dual-link DVI support and up to 256MB of graphics memory, the 17" MacBook Pro can drive the massive 30" Apple Cinema HD Display, giving your portable computer a dramatic desktop canvas.
- Has a FireWire 400 hub and a USB 2.0 hub, each with two ports.

30" Cinema HD Display; Dimensions are 27.2 x 21.3 x 8.46" (WxHxD), weighs 27.5 lbs *(Mfr# M9179LL/A; B&H# APCD30)*: **1699.95**

iWork '09: The latest version of Apple's popular office productivity suite adds powerful new features without sacrificing Apple's legendary ease of use.

Keynote '09 introduces advanced object transitions, which automatically animate objects with a choice of effects and Magic Move, an innovative way to create sophisticated animations just by applying a simple transition. New text transitions morph text from one slide to the next. New advanced object transitions animate objects off one slide while simultaneously animating objects onto the next slide with a choice of effects. 3D charts now include cylinder shapes, beveled-edge pie charts, new textures and four new 3D build effects.

Pages '09 features a new Full Screen view that helps you focus on your writing and an outline mode to organize your thoughts. MathType 6 support lets engineers, mathematicians and students easily add sophisticated equations to their documents and EndNote X2 integration lets users add and edit comprehensive bibliographic references. Pages '09 also includes 40 new Apple-designed templates, including newsletters, posters, certificates and coordinated stationery.

Numbers '09 provides a great way to quickly categorize data by column, which you can then collapse, expand and summarize to easily make sense of large sets of data. Numbers '09 makes formula writing dramatically easier with an enhanced function browser which includes built-in help for over 250 functions, and visual placeholders with tool tips that explain each variable in a formula.

Eee PC 1005HA (Seashell) 10.1" Netbook

Inspired from the contoured shape of a sea shell and dressed in a sparkling opalescent and glossy exterior crafted by innovative in-Mold Roller technology, the Eee PC 1005HA is a work of art. It's so light and compact, you can take it anywhere with you. And with sleek curves and smooth lines hugging its lustrous shell, the Eee PC 1005HA it will get a second look wherever it goes. Available in four versions, they are powered by Intel Atom N270 processor, equipped with 1GB of RAM, 160GB or 250GB hard drive and include Windows XP Home. They are also bundled with the intuitive ASUS Eee Docking software suite (XP only) to make the mobile computing experience even easier and more fun.

- Super Hybrid Engine lets you optimize computing power while on the move with three power management profiles (Super Performance, High Performance and Power Saving). Maximize system performance and extend battery life up to 5 hours on the 1005HA-E, 8.5 hours on the 1005HA-V and 1005HA-M, and an astounding 10.5 hours of unplugged use on the 1005HA-P.
- 10.1" LED backlit screen with 1024 x 600 resolution lets you view a single A4 page without the need to scroll left or right for easier reading and editing of documents.
- In addition to 160GB hard drive (enough for 30,000 MP3 songs), complimentary 10GB online Eee Storage allows you to access, drag and drop your documents and multimedia files anytime, anywhere. You can even share your files with your friends, family or colleagues.
- Wide palm rests and keyboard that is 92% the size of generic notebooks – making it easier and more comfortable to type
- With Multi-Touch gesture input, you can easily zoom in and out to view photos or read documents by just moving to fingertips apart or together on the touchpad. You can also simultaneously slide two fingertips up or down the touchpad—making scrolling in a window easy without the use of a mouse.
- Built-in 1.3MP webcam and Digital Array Mic. Consisting of two powerful microphones, it eliminates ambient background noises and reduces echoes for clearer voice recording.
- High-speed wireless connectivity with built-in 802.11n and Bluetooth 2.1
- Built-in MMC/SD/SDHC memory card slot
- F9 quick recovery process eliminates the need for a Windows CD or driver CD if you need to restore your system from the factory settings.
- SRS Premium Sound™ provides the ultimate audio experience for music, movies and games and SRS Premium Sound creates amazing 3D audio from mono and stereo material.

Eee PC T91 8.9" Tablet Netbook

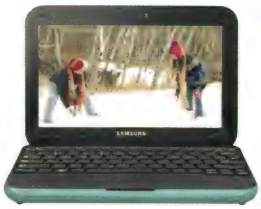

The revolutionary Eee PC T91 delivers ultimate portability and simplicity with an easy-to-use touchscreen that enables you to effortlessly navigate applications and the Web at a press of a finger. As big as a paperback novel, the lightweight Eee PC T91 is the world's smallest and slimmest touch PC. Plus, it boasts long-lasting battery life with the energy-efficient Intel Atom Z520 processor, exclusive ASUS Super Hybrid Engine, and LED-backlit display.

- Just 8.8 x 6.4", and 33 oz. it is one of the smallest and lighest 8.9" netbooks around.
- Super Hybrid Engine (SHE) and 2-cell battery provide 5 hours of continuous use per charge.
- Includes TouchSuite, a set of unique software applications that allow users to perform a myriad of fun tasks with their fingertips, such as touching up photos, creating photo albums, leaving handwritten desktop memos for loved ones, and sketching cartoons or custom emoticons.
- Tablet PC functionality makes it easy to cradle in one arm, enabling users to read documents, scribble ideas into digital notebooks and surf the Internet while traveling on foot.
- Optional TV tuner and GPS for extensive entertainment and advanced navigation capabilities
- Three ways to access data storage on-the-go: Built-in shockproof 16GB or 32GB Solid State Drive (SSD), exclusive Eee Storage of up to 20GB allowing you to upload and download files via an intuitive drag and drop interface, and expandable storage via through the Disk Expander Card of 16GB.
- Built-in 802.11b/g/n wireless, plus it is equipped with 3G plus (HSUPA) technology, enabling high-speed Internet access anywhere (subscription required).
- There are three operational modes to choose from: The main OS and two others which are built into the system and are all available at boot up.
  - Eee mode, which is very similar to their Express Gate technology seen in Asus netbooks, laptops and motherboards. This is a "lite" Linux operating system on a ROM, providing access to a good working OS with useful applications such as web browsing and Skype all within seconds from powering on.
  - The second operational mode is a touchscreen-only GUI all based around widgets, this is also available at boot up negating the use of the keyboard entirely which is much like their Eee Top platform.

Aspire Ultra-Portable 13.3" and 14" 'Timeline' Notebooks

Step into the future with these sleek new laptops powered by the latest Intel® ultra-low voltage processor letting you travel light with great performance for movies, videos, photos and more while optimizing energy efficient technology enabling longer battery life and generating less heat. With Intel's laminar wall jet technology, air is jet cooled and redirected along the bottom of the notebook making it a whole lot cooler in your hands or on your lap. At its thinnest point, these notebooks are less than one-inch thin with a brushed aluminum cover that not only gives them a stylish look but keeps them featherweight at just about 4 lbs. making them both light and easy to carry around.

Convenience features make it easy to save energy with a single touch. Just push the PowerSmart Button to enter into power saving mode, then push it again to unleash maximum performance. Acer redefines the way power is used making them more efficient, lighter and less harmful to the environment with up to 8+ hours of battery life on a single charge. Boasts significant energy savings all the way down to the power adapter. With a 66% energy savings over typical adapters, the Acer PowerSmart Adapter stops consuming energy when the high capacity battery is fully charged.

- Do more while mobile on the 13.3" or 14" High-Def Acer CineCrystal™ LED- backlit 16:9 display with seamless built-in webcam, optimized for viewing movies and HD entertainment all while saving energy.
- Immerse yourself into your entertainment with Dolby® Sound Room® delivering spectacular surround sound from any pair of speakers or headphones.
- Pinch, flick and swirl your fingers on the Multi-Gesture Touchpad for an intuitive navigation of web pages, photos, spreadsheets and more.
- Maximize device connectivity with HDMI and 3 USB ports.
- Ease your mind and back up your data without a hassle with the Acer Backup Manager, providing a seamless way to setup and perform backups.
- Enjoy the most up to date communications for ultra-mobility and freedom with Draft-N WiFi CERTIFIED® connectivity and built-in web- cam and microphone. Easily set up video conferences for business or video chats with friends wherever you are.

U20A-B2 12.1" Notebook

A design inspired by one of the world's thinnest creations, the wings of a butterfly, the U20A-B2 boasts a slim and elegant profile, which resembles the curvature of the wings of a butterfly once opened. Both aesthetically pleasing and boasting an equally stunning performance, the U20A-B2 is exquisitely crafted, thin, and lightweight—yet misses nothing in terms of functionality. Powered by an Intel® Core™ 2 Duo processor, the U20A-B2 features a 12.1-inch LED-backlight display, 4GB RAM and a 320 GB hard drive, 802.11a/b/g/n wireless connectivity and Bluetooth 2.1 + EDR, and Altec Lansing speakers for crystal clear sound. A multi-touch touchpad allows you to intuitively browse web-pages, documents and even zoom in and out of images with simple finger gestures. Finally, with energy efficient Intel® ULV processors, the U20A provides users with extended battery life for all-day productivity and enjoyment. Comes with Windows 7 Home Premium.

- 12.1" widescreen (1280 x 800) displays vivid colors and sharp details for the enjoyable viewing
- LED backlight panel is 1/2 the width of and 1/3 lighter than the traditional LCD panel. It operates with lowers power consumption and offers better luminance for a pleasant viewing experience.
- Built-in WLAN 802.11 b/g/n; integrated high-resolution 1.3MP webcam and built-in microphone
- Bluetooth 2.1 + EDR (enhanced data rate) for data transfer 3x faster than the standard Bluetooth.
- Keyboard keys and touch pad are illuminated allowing you to work in any lighting situation.
- Integrated 8-in-1 card reader • 8x Super Multi Double Layer DVD Drive
- Chiclet style keyboard and spacious keys allow for comfortable typing and prevents dust buildup.
- Express Gate lets you access the web and favorite application seconds after turning on the PC.
- AI Light sensor technology monitors the surrounding conditions around the user, and then makes adjustments to the brightness of the illuminated keyboard, touch-pad, as well as the display in response to environmental lightning.
- Powered by Intel's Ultra Low Voltage SU2700 processor and a 6-cell battery, the U20A can run for 8.5 hours before the battery needs a recharge.

UL30A-A2 • UL50Ag-A2

13.3" and 15.6" Notebooks

Enjoy mobile computing to the fullest with the 13.3" UL30A or 15.6" UL-50Ag. They provide up to 10 hours of all-day battery life, thanks to their 8-cell battery, low-voltage Intel Core 2 Duo CULV processor and LED-backlit display, which combines vibrant visuals with advanced energy efficiency. These stylish, ultra-portable notebooks feature a brushed aluminum lid that not only looks magnificent, but also helps in maintaining its stylish exterior day after day. They also feature a multi-gesture touchpad, which enables you to intuitively zoom in or out of pictures via pinching, or navigate up and down pages by sliding your finger. Compact and under 1-inch thick, they come with 500GB (UL30A) and 320GB (UL50Ag) hard drive and 4 GB of RAM, integrated webcam, 802.11a/b/g/n wireless connectivity and multi-format memory card reader. The UL50Ag has an 8x Super Multi Double Layer DVD Drive, the UL30A has no optical disc drive. Both come with Windows 7 Home Premium.

- 13.3- or 15.6-inch (1366 x 768) LED-backlit HD high definition display
- Up to 10 hours of battery life from an 8-cell battery
- Integrated 0.3MP webcam and built-in microphone
- Built-in 5-in-1 card reader (SD,MMC, Memory Stick/Pro, xD Picture Card)
- Built-in WLAN 802.11 a/g/n
- Altec Lansing speakers plus SRS surround provide a virtual home theater experience on the go. Has an HDMI port for connection to an HDTV.
- SmartLogon uses exclusive face recognition software to log-in without keying in any password.

K40IJ-D2 • K50IJ-D2

14- and 15.6-inch Notebooks

The K40IJ (14") and K50IJ (15.6") sport a high definition 16:9 LED backlit display with a high contrast ratio and color saturation. There are also Altec Lansing speakers complemented by SRS Premium Sound™ technology with virtual surround sound to provide high definition audio enjoyment. For durability, they are made with In-Mold Roller technology, and offer scratch-resistant painting. They are powered by Intel T6600 processor, and are equipped with Intel GL40 display card, 4GB of memroy and come with 320GB hard drive. Designed to provide a comfortable mobile computing experience, they also feature IceCool design, which boasts cleverly designed and positioned heat vents which keeps the palm rest cool, lower than that of the average human body temperature–even after long computing hours. Both come with Windows 7 Home Premium.

- 14- or 15.6-inch (1366 x 768) LED-backlit HD high definition display
- Integrated high-resolution 1.3MP webcam and built-in microphone
- Built-in 3-in-1 card reader (SD, MMC, MS)
- 8x Super Multi Double Layer DVD Drive • Built-in WLAN 802.11 b/g/n
- The unique Power4 Gear eXtreme technology helps conserve energy for extended computing hours by offering four operation modes designed specifically for various applications. Power is distributed according to the operation modes to ensure that no power goes to waste.

N81Vp-D2 14" Notebook

Designed for multimedia prowess and mobile productivity, the ASUS N81Vp-D2 is equipped with a 14" widescreen (1366 x 768) display powered by a dedicated ATI Radeon HD 4650 graphics card with 1GB of VRAM. This is complemented by Altec Lansing speakers powered by Dolby Home Theater technology to deliver impressive sound quality in any situation. Cutting-edge design includes the use of ASUS Infusion Technology to create a scratch-resistant panel that retains its sheen even after prolonged use. Boasting a streamlined exterior with shiny metal-like inlaid patterns inspired by modernist art-deco, the N81Vp-D2 delivers performance with style. Equipped with Intel T9600 processor, 4GB RAM, 320GB hard drive, fingerprint scanner, Express Gate, Bluetooth and 802.11 a/g/n wireless. It also has an HDMI port allowing connection to a large screen HDTV. Comes with Windows 7 Home Premium.

- 14.1-inch (1366 x 7680) LED-backlit HD high definition display
- Express Gate lets you access the web and favorite application seconds after turning on the PC.
- Bluetooth and built-in WLAN 802.11 b/g/n
- Integrated high-resolution 1.3MP webcam and built-in microphone
- Integrated 8-in-1 card reader
- 8x Super Multi Double Layer DVD Drive
- RF Biometric fingerprint reader takes data access authorization and protection to a higher level
- Optional Hybrid TV tuner can be accessed through a highly convenient integrated remote control.

ASUS®

N61VN-A1 16" Notebook

In designing the N61Vn-A1, ASUS utilized cutting-edge technologies, particularly in the use of In-Mold Roller Technology which creates a scratch-resistant panel that retains its sheen even after prolonged use. Boasting a streamlined exterior with shiny metal-like inlaid patterns inspired by modernist art-deco, the N61Vn-A1 delivers performance with style. With a 16" widescreen LCD you can enjoy a cinematic view while watching movies and playing games, while Altec Lansing speakers deliver clean, crisp and uncluttered audio. An nVIDIA GeForce GT 240M Graphics Engine, with 1GB DDR3 dedicated video memory, provides seamless and smooth media performance. Face recognition technology provides convenient and secure logon without passwords. A chiclet keyboard along with a numeric keypad allows for a more comfortable computing experience.

- 16-inch (1366 x 7680) LED-backlit HD high definition display
- Bluetooth and built-in WLAN 802.11 b/g/n
- Integrated high-resolution 1.3MP webcam and built-in microphone
- Integrated 8-in-1 card reader • 8x Super Multi Double Layer DVD Drive

G51J-A1 • G71Vx-A2 15.6" and 17" Gaming Notebook

More than just high definition entertainment notebooks, the G51J-A1 and G71Vx-A2 are powerful gaming notebooks powered by Intel Core 2 Quad processors. Gamers are also armed with a backlit gaming keyboard that enables them to conquer their enemies even in the dark, and industry leading EAX Advance HD 3D gaming audio effects. Powered by a dedicated NVIDIA® GeForce™ GTX 260M graphics card and NVIDIA's PhysX Technology, they offer users a completely new class of physical gaming interaction for a more realistic and dynamic experience. With a 3DMark score of 10648 their performance is a leap from mainstream notebooks that produce scores ranging from 2000 to 3000. The G51Vx-A1 boasts a 15.6" Full HD (1920 x 1080) display which provides users with a commanding cinematic view of their battlefield with a 16:9 aspect ratio. And as you fall deeper into the game, the G51Vx-A1 comes alive with cool, sidebar lighting, stereo surround sound and pulsing LED logo illumination. The G71Vx-A2 is equipped with a 17" WUXGA display with a resolution of 1920 x 1200, supported by ASUS Splendid Video Intelligence Technology, which provides users with 6 pre-set settings which enhances images, videos and in-game graphics. Gaming-focused keyboard allows for intuitive and lightning fast reflexes while in-game. They are equipped with two 320GB (7200 rpm) hard drives

- Integrated high-resolution 2MP webcam and built-in microphone
- Integrated 8-in-1 card reader • Bluetooth and built-in WLAN 802.11 b/g/n
- "Power4 Gear Hybrid" technology lets you boost system performance with an intuitive user interface for that extra grunt by simply selecting "Extreme Turbo" Mode. It also provides other power profiles that empowers users with the ability to adjust their power usage to better suit their prevailing tasks.
- They detect in-game environments and actions to provide up to an additional 64 corresponding sound effects, producing ultra-realistic spatial effects in more than 300 games. CMSS provides immersive surround sound for stereo, along with Altec Lansing speakers for a truly realistic gaming experience.
- Illuminating chiclet keyboard which intelligently detects its environment for dimmed lighting conditions, and enables gamers to control the brightness of the keyboard to cater to their needs.
- Include the Republic of Gamers (ROG) backpack and ROG illuminated gaming mouse with real-time sensitive adjustment and 1600 dpi for unprecedented optical resolution.
- Eee Stick controllers use motion-sensing technology that gives you a physical connection with your machine. Choose from gaming, wireless or presentation mode.
- LifeFrame offers easy to use recording and capturing functions with high-quality audio and video.
- SmartLogon uses exclusive face recognition software to log-in without keying in any password.

K70IC-A1 17.3" Notebook

The K70IC-A1 notebook is designed to provide a no-frills computing experience to users while on the move. Powered by an Intel® Core™ 2 Duo Processor, the K70IC-A1 provides users with the muscle to enjoy cinematic audio and visual enjoyment for immersive entertainment anytime, anywhere in comfort and style. The award-winning Chocolate keyboard features a wider and concaved contact area for typing comfort. It provides a comfortable, more tactile feel with each tap, as well as features tighter spacing between the keys to reduce dust accumulation. It also features a full-sized numerical keypad which allows for convenient numerical input. Designed to provide users with a comfortable mobile computing experience, the K70IC-A1 features the IceCool design, which boasts cleverly designed and positioned heat vents which keeps the palm rest cool, lower than that of the average human body temperature. ASUS IceCool design keeps temperature at palm rest area low even after long computing hours.

Finally, the K70IC-A1 sports a 17.3" high definition LED backlit display which provides a higher contrast rate and color saturation, complemented by a dedicated NVIDIA GeForce kGT 220M graphics card to provide crisp and clear visuals. Altec Lansing® speakers complemented by SRS Premium Sound™ provide high definition audio enjoyment.

All ASUS notebooks come with a 2-year warranty, and 1-year accidental warranty (covers drops, fire, spills and power surges). They also come with ASUS' Zero Bright Dot Guarantee—if you discovers one defective bright dot within 30 days of purchase, ASUS will replace the panel without any cost to you.

Pavilion dm3 Series Entertainment Notebook PCs

Set yourself free with the performance you need in a design you'll love. For those who want full PC performance optimized for mobility—up to 6 hours of life with the standard battery— the Pavilion dm series delivers in a surprisingly affordable, minimalist design. Its top and palm rest covers are made of brushed aluminum in Modern Argento gray, while its bottom casing is a magnesium alloy. The metal casing helps ensure maximum durability at minimal weight. The clean design is accentuated by an iconic keyboard. Powered by the latest ultra-low-voltage processor and mobile graphics technologies, it delivers optimal mobile performance to support your on-the-go lifestyle. Experience full-screen views of HD movies and TV with the 16:9 widescreen 13.3" screen. Enjoy your photos and videos on large screen HDTV via the HDMI port. Relax with extra protection from file loss due to drops with HP ProtectSmart. Chat face to face with the HP webcam and add fun special effects. Enjoy easy access to your favorite entertainment with HP Media Smart. They come with Windows 7 Home Premium.

Pavilion dv Series Entertainment Notebook PCs

The Pavilion dv series is designed for those who want rich digital entertainment capability coupled with desktop-caliber performance and the latest mobile techologies in a stunning design that travels well. They are well defined by fluid, modern lines and metalized finishes. High-gloss HP Imprint finish encases all surfaces visible during normal use for greater durability. The streamlined, thin look is enhanced with a color-matched keyboard and touchpad. Touch media controls light up and become visible only when the system is powered on further enhancing the clean appearance.

HP MediaSmart enables access to DVDs, videos, photos, music, games, Internet TV, and streamed or recorded TV (with an optional TV Tuner) at the touch of a button. Built-in demos show you how to add music to your slide shows or videos with drag-and-drop functionality – and much more. An HDMI port enables you to watch films on an HD TV. Create films complete with effects and transitions a snap! Extras include dual headphone jacks and an HP Mobile Remote Control. Each includes Super Multi 8x DL DVD with LightScribe allowing you to create personalized, silkscreen-quality DVD and CD lables. On the dv4, the optical drive can be removed–saving you up to half a pound. The dv7 series features a separate numeric keyboard and has a built-in subwoofer.

- From the thin-and-light design to the light-weight LED display and extended-life battery, the dv series is designed with mobility in mind. Backlit keyboard allows use in the dark.
- Turn your next instant message into a live video chat with the integrated webcam and digital mic. Personalize your videos with included software.
- Photo-ready with 5-in-1 media card reader. Transfer photos from your digital camera in seconds.
- HP ProtectSmart Hard Drive Protection locks your hard drive into place when it senses abrupt motion to help prevent data loss. The built-in eSATA/USB Combo port enables fast backup to an external hard drive.
- Enjoy the ultimate audio experience with Altec Lansing speakers and SRS premium sound.
- They come with Windows 7 Home Premium , SB models include Windows 7 Professsional.

G60 • G61 • G71 15.6" and 17.3" Notebooks

Pared down to the essentials, the G60, G61 and G71 notebooks are defined by minimalist lines. High-gloss reflective top cover and palm rest area surfaces contrast cleanly with matte everywhere else. HP Imprint finish in piano black on the top cover with silver across the palm rest and touchpad provides greater durability than traditional painted surfaces. The streamlined look is enhanced with a color-matched keyboard and touchpad. Burn audio CDs and DVDs with the SuperMulti 8x DVD±R/RW drive with Double Layer. Create personalized silkscreen-quality DVD and CD labels with LightScribe. Capture video clips or chat face-to-face with the integrated webcam and microphone.

- Enjoy full-screen HDTV content playback on the 15.6" crystal-clear 16:9 HP BrightView (1366 x 768) display, or on the G71's crystal-clear 17.3" HP Brightview (1600 x 900) display
- Built-in Altec Lansing speakers bring your entertainment to life.
- 5:1 integrated digital media reader enables photo transfer in seconds.
- Connect to large screen HDTV via HDMI port
- Exceptionally clean mobile design and separate numeric keypad.
- Get online quickly with integrated high-speed 802.11n wireless (b/g on the G61)

Touchsmart tx2-1070us 12.1" Tablet PC

With AMD Turion X2 dual core Mobile technology and the same viewable screen content as a 15.4" system, the tx2-1070us provides all the power and performance of a mainstream notebook PC without the additional weight.
Integrating fashion and technology, the innovative tx2-1027us combines ultra-powerful computing with Tablet PC capabilities and entertainment features in an attractive, lightweight (4.65 lb.) design. It's a convertible - you can convert it between a normal laptop / notebook form factor and a Tablet PC form factor. You can use either the multi-touch navigation or a stylus in either of the modes. There is also an included HP Mini Remote Control for multimedia or presentation navigation, and it conveniently fits in the ExpressCard/34 slot when not in use.

- 12.1" (1280 x 800) High-Def LED display with integrated touch-screen. Twist the display up to 180° to watch films — or fold it flat for writing.
- Write on the screen with included dockable/rechargeable eraser pen
- Live video chat using the webcam and integrated microphone.
- Enjoy ultimate audio entertainment with SRS Premium Sound.
- Equipped with LightScribe SuperMulti 8x DVD±R/RW with DL support
- 802.11 b/g/n wireless and integrated 5-in-1 card reader
- Experience intuitive, two-finger control of music, photos, movies
  - Tap objects once to select or twice to open); touch and hold to drag
  - Place two fingers on opposite corners of an object, move them closer to zoom out; move them away from each other to zoom in
  - Flick to scroll vertically or horizontally, or pan within an application
  - Rotate photos by touching to select, then by using two fingers on opposite corners to rotate

No reason to wait—now is the time to get a new PC. They feature faster performance and richer Internet experiences. Compared to a PC of just 3-4 years ago, a 2009 PC powered by an Intel® processor lets you:

- Experience up to 2x faster performance on new laptops
- Explore the Internet at greater speeds and access high-definition content
- Prepare photos and convert video for upload over 3x faster; convert music for your iPod up to 3x faster; convert HD video for your mobile phone up to 2.5x faster; Auto-enhance photos up to 2x faster.
- Experience better playback when streaming HD TV, movies, video through the Internet.
- Save power and reduce energy use with industry leading energy efficiency.
- Go mobile without the heavy load thanks to cool new thin and light designs Experience ultimate mobile freedom with lighter designs and long battery life.

SONY VAIO P Series (Lifestyle PC)

8" Mini PC with Embedded GPS and Built-in Mobile Broadband

The world's lightest 8" notebook, the 1.4-pound VAIO P Series Lifestyle PC does more than you could imagine–with impeccable style. Email at the airport, IM from the park, or just show it off when you want some attention. Traveling to a new city? Turn-by-turn GPS navigation will get you there faster. Enjoy a complete notebook experience without compromise. Small in size but big on functionality, the Lifestyle PC delivers the same convenient features you're used to, but with go-anywhere style. Windows Vista operating system supports all the software programs you already use: Microsoft Office applications, music programs, video players and more. Best of all, it fits right in your purse or jacket pocket. Choose from five colors, each inspired by the crystalline shimmer of natural gemstones and metals. Fashionable and flashy, it makes a statement wherever you go.

- Instant-on, ultra-bright 8" LED-backlit screen means you never have to wait for it to warm up. Plus, its extra-wide 1600 x 768 resolution easily displays the width of an entire page, putting an end to side-to-side scrolling that can slow you down.
- Looking for a place to eat? Type the word "restaurant" and let it be your guide. Using built-in GPS technology and Microsoft Streets & Trips software, your current location is found and real-time, on-screen directions lead the way. No internet connection required. Just step outside and type in where you want to go. You'll get turn-by-turn directions displayed right on the map. It's that simple.
- Featuring built-in 802.11b/g/n wireless and Verizon Wireless Mobile Broadband (subscription required) the Lifestyle PC puts the internet in your pocket. Everything is there, displayed just like it is on your home PC. Video chat, download music or shop on line —from virtually anywhere.
- Convenient, one-button quick-boot option offers fast access to the web, email, photos and more.
- Integrated Stereo A2DP Bluetooth technology
- Window arrangement utility lets you organize open documents and web pages with one simple touch. Press a button and watch as all your open windows are presented side-by-side on a single screen, cutting clutter and giving you a fresh perspective on your workspace.
- Built-in MOTION EYE webcam and microphone lets you snap photos and video chat
- Solid state drive (SSD) on the P788 and P798 provides a faster, more durable storage solution
- Surf the web longer when you're on the go with up to 4 hours of battery life
- Provides a convenient typing experience unique in such a small PC—preserving the touch and feel of a larger keyboard.
- An array of stylish matching leather carrying cases and wireless mice take color-coordinated PC fashion to a new level

SONY VAIO Z SERIES

Ultra-Portable 13.1" Business-Grade PC with Premium Performance

The 3.4 lbs VAIO Z is built business tough for the seasoned traveler. It features a scratch-resistant 13.1" (1600 x 900) XBRITE-DuraView LCD that offers a workspace 40% wider than the standard 13" 1280 x 800. It has an embedded full functioning GPS, powerful Intel Centrino 2 processor technology and a hybrid graphics system that lets you select your graphics performance on the fly—no need to reboot— giving you long battery life (up to 6 hours). The hybrid system lets you to toggle between Mobile Intel GMA 4500MHD graphics chip for optimal power consumption and a dedicated NVIDIA GeForce 9300M GS graphics chip for more robust performance—without shutting down your computer. Spacious keyboard provides a comfortable touch and feel when typing; a host of inputs and outputs enables maximum compatibility with external devices. For the ultimate in convenience, it integrates a full functioning GPS with Microsoft Streets & Trips. No need to carry or rent a separate GPS, the Z Series will you get there anytime, anywhere without an internet connection.

- Available with solid state Drive (SSD). Faster and more durable, the SSD provides a rapid boot-up and quicker access to applications than the spinning hard disk drive.
- Built-in Verizon Wireless Mobile Broadband—covering over 262 million people in 258 major metropolitan areas makes the VAIO Z a truly mobile wireless companion (subscription required). And with speeds of 600 Kbps to 1.4 Mbps, you can download a 4MB song in less than a minute.
- For security, it employs a biometric fingerprint sensor and Trusted Platform Module (TPM) module to ensure your data is protected from unauthorized use.
- Integrated camera and microphone with echo-cancelling technology for real-time video conferencing and great audio quality
- Built-in Bluetooth and 802.11a/b/g/n Wi-Fi; 8x SuperMulti DVD Burner
- Built-in webcam and microphone let you quickly snap photos and participate in live video chats
- Business-class durability lets you hit the road with confidence. Built to endure the knocks, bumps and accidents common to frequent travel and day-in/out computing.

SONY VAIO SR Series 13.3" Dual Work/Home PC with Unique Switch Mode

Lightweight and easy to handle at just over 4 lbs with a 13.3" display, the VAIO SR notebook is crafted with mobility in mind. Plus, you can tailor it to work the way you want it to. A set of buttons above the keyboard lets you set three distinct usage "personalities", or scenarios (home, work and entertainment). Each scenario can be customized with its own unique wallpaper and set of 5 shortcuts to your preferred programs. Your favorite websites and personal email for at home; productivity applications such as Word and Excel when at work; and programs that allow you to create and enjoy your music and movies when ready for a little entertainment. Switch mode features simple drag and drop functionality so setting up your shortcuts is quick and easy. And toggling between your different modes is simple—it requires only a touch of a button. Enjoy up to 6 hours of battery time.

- 13.3" (1280 x 800) widescreen LED backlit display with XBRITE-ECO™ LCD technology offers lower power consumption for improved battery life and incredibly high brightness levels, amplifying colors and creating clear, crisp pictures that truly "pop" off the LCD. Anti-reflective coating minimizes reflection while providing a wide viewing angle.
- Built-in 1.3MP webcam and microphone for video messaging with colleagues, friends and family.
- 802.11a/b/g/n Wi-Fi and Bluetooth technology (2.1 + EDR)
- Individual keys are slightly raised above an attractive bezel layer producing a user-friendly touch and feel that creates an improved typing experience
- Magnesium alloy casing protects against knocks and bumps common to everday use and travel. Also include HDD password protection and G-Sensor™ Shock Protection technology.
- For security, it employs a biometric fingerprint sensor and Trusted Platform Module (TPM) module to ensure your data is protected from unauthorized use.
- Watch your movies on a widescreen HDTV via HDMI output (optional cable required)

SONY

VAIO NW Series 15.5" PC for Everyday Computing and Entertainment

A great value in a gracefully slim 15.5" notebook, the VAIO® NW notebook is an ideal multitasking PC for your day-to-day productivity and entertainment needs. Whether surfing the web, working from home or enjoying your favorite music and movies, it has the essentials to do it all. Equipped with Intel® Core™ 2 Duo processor, 4GB of RAM and 320GB of storage. A soothing natural wave design and textured colors give this notebook a unique look that is pleasing to the touch. The isolated keyboard is comfortable to type on with responsive keys. Versatile Blu-ray Disc™ ROM drive on the NW270F and NW280F (only) combines the power of HD Blu-ray Disc video playback with the convenience and utility of DVD and CD read/write functionalities.

- View two web sites or documents side by side (no scrolling side to side) on the widescreen 15.5" 1366 x 768) LED backlit display. Equipped with XBRITE-ECO™ LCD technology for dazzling colors and incredible picture clarity.
- Dedicated ATI Mobility Radeon™ HD 4570 with 512MB VRAM on the NW280F (only)
- Get fast access to the web with one touch access without booting up your computer.
- Take advantage of the "Display Off" button to turn off your screen, for privacy or to perform nighttime applications, without sending your computer into hibernation. Or use it when outputting to another monitor or TV, so the image is only shown on the external display.
- Watch your movies on a widescreen HDTV via HDMI output (optional cable required)
- Built-in 802.11/b/g/n wireless, plus you can connect to compatible cameras, printers, and USB flash memory media via the 3 USB ports
- Stay connected with friends and family with the built-in 1.3MP camera and mic for video chatting
- Show your sophistication with this gracefully slim notebook in rich, textured colors— Walnut Brown, Birch White, Silver Rattan, Black Oak, and Pink Pine.

SONY VAIO FW Series

Incredibly Thin and Lightweight 16.4" Notebook with BD-Combo Drive

Featuring an extra-wide 16.4" XBRITE-ECO LCD (1600 x 900) display, the FW series is ideal for viewing Blu-ray Disc and DVD movies. Since many HD films are shot with a widescreen 16:9 aspect ratio, this extra-wide LCD is constructed with the same dimensions to ensure you won't miss an inch of the original picture. With this added horizontal real estate, you'll see the whole movie in its intended format, as the black bars typically appearing on your screen are minimized. In some cases, you won't see any black bars at all. The extended horizontal workspace also lets you view two full websites at once or compare two documents side-by-side without tabbing back and forth. Typically found in larger, heavier 17" notebooks, this convenient, time-saving display provides extra workspace in a compact (only 6.7 lbs), lightweight form factor.

- Super-powerful Intel® Core™ 2 Duo processor - ideal for multi-tasking
- Include a full set of dedicated multimedia controls just above the keyboard, adding a fun and practical touch to its sophisticated appearance. These intuitive music and video controls are user-friendly, so you can easily control your CDs, DVDs, pictures and home movies.
- Equipped with ATI Mobility Radeon™ HD4650 graphics card with 512MB VRAM (VGN-FW520F) or 1GB (VGN-FW550F) great for games and movies
- Built-in camera and microphone for video chatting and web conferencing
- A/V Mode lets you go straight to watching a movie, playing music, or viewing photos with a push of a button. Convenient, built-in A/V control buttons also let you play, change track, pause, stop, and control volume – all with one-touch ease.
- Built-in 802.11b/g/n Wi-Fi and Bluetooth
- Watch your movies on a widescreen HDTV via HDMI output (optional cable required)
- Integrated webcam and microphone make videoconferencing a reality
- Dolby Sound Room audio for personal surround-sound via notebook speakers
- Encased in durable and super-lightweight magnesium alloy, the thin-walled exterior of the VAIO FW notebook reduces weight while serving as a slender, rugged shell. Weighs 6.9 lbs. (with battery).
- Reminiscent of a rolling wave, the smooth, curved lines of the VAIO® FW notebook are as functional as they are attractive. From the iconic new cylindrical hinge to the sloping bend where the keyboard meets the display, every last inch of the VAIO FW notebook is designed to maximize viewing area while minimizing size.

SONY

VAIO AW Series 18.4" Full HD Multimedia Powerhouse

Experience the full excitement of HD video. From top to bottom, the VAIO VGN-AW420F multimedia masterpiece. Thoughtfully engineered to ensure you enjoy the full excitement of HD audio and video, it features a sleek design and 18.4" (1600 x 945) widescreen LCD display that maximizes viewing area while minimizing chassis size. Experience cinema-style audio that puts you in the middle of on-screen action or in the front row of a live concert. Featuring powerful and advanced audio technologies, Dolby Home Theater technology allows listeners to enjoy music, movies, and games in vivid surround sound through the AW notebook's speakers and sub-woofer. Equipped with Intel Core2Duo processor, 4GB of RAM, NVIDIA® GeForce 9600 M GT graphics with 512MB of VRAM and a 320GB hard drive, the AW notebook is ideal for gaming, viewing a movie, or just powering through your workload.

- 16:9 widescreen 18.4" display delivers loads of viewing real estate. Since many HD films are shot with a widescreen 16:9 aspect ratio, this extra-wide LCD is constructed with the same dimensions to ensure you won't miss an inch of the original picture.
- Spacious keyboard includes a 10-key number pad.
- HDMI™ output provides single-cable full 1080p HD connectivity to a compatible HDTV (cable required).
- Built-in 1.3MP webcam lets you video chat with friends and take photos using special face-tracking
- NVIDIA GeForce® 9600 M GT graphics card with 512MB of VRAM enable you to power through today's graphics-intensive games and media without bogging down. Plus, the additional power the external NVIDIA GPU contributes will lend a performance boost to your day-to-day processor functions for an optimized overall computing experience regardless of the task.
- Built-in 802.11 /b/g/n Wi-Fi with Bluetooth 2.1+EDR
- From its iconic hinge-integrated battery that saves space in the chassis to the elegantly thin bezel framing the LCD, every last inch of the VAIO AW notebook is engineered to maximize viewing area while minimizing size.
- Slim and sleek with a Titanium gray finish that bears a silvery translucence that highlights the model's fluid design and clean lines. This translucence is the result of a unique pearl-based paint technique that creates texture to the color and showcases the notebook's distinctive design.

An AC adapter is also included to power the docking station. *(B&H # SOVGPUPR1)* **135.95**

TOSHIBA

SATELLITE T115 • T135 • U505 • M505 • L505 • A505 • P505

The Satellite T115 (11.6") and T135 (13.3") are affordable, ultra-thin laptops built for everyday life on the go. They feature Intel Core 2 Duo power-efficient processors, giving them long. battery life. Log-on using the embedded webcam and Face Recognition software. For the ultimate in convenience, the standard touchpad now includes multi-finger touch control capabilities, making it easier to scroll and navigate through Web pages and long documents or rotate and zoom into images. Feature four gestures: Rotate, Ping, Momentum and Scroll. They are equipped with built-in 5-in-1 card reader, Webcam with microphone and, 802.11b/g/n wireless (the T135 adds Bluetooth support). Eco-focused design includes a stunning Fusion™ Finish in Red and White or Nova Black.

The U505 (13.3"), M505 (14") and L505 (15.6") step-up with 8x DVD SuperMulti drive with Labelflash™ to burn high quality labels directly on the disk. They offer a PC Health Monitor that constantly gauges your machine's temperature and power usage—alerting you to issues before they become problems. It also lets you run do-it-yourself diagnostic tests. And with support for full 1080P high-definition video and sound, their HDMI-CEC connection (U505 and M505 only) lets you scale up your gaming, movies and music on a home theater—and control the entire show with your TV's remote.

The A505 (16") steps up from the L505 with Harman Kardon stereo speakers and Dolby Sound Room, so you can enjoy rich, immersive, high-fidelity sound from your movies, games and music.

With exceptional power, features and room, the 18.4" P505 is a portable alternative to a desktop computer, giving you the freedom to work and create, plus super-size your music, 3D games, photos, movies and more. All this courtesy of a dazzling 18.4" diagonal high-def display, discrete graphics and a luxurious sound system. It also has a high-speed eSATA/USB port to transfer your files using an external storage to ease the strain on their laptop's hard drive.

- HD TruBrite™ widescreen displays feature a stunning 16:9 aspect ratio and native 720p resolution, offering more viewing space than standard displays while delivering a more enjoyable TV-like experience. In addition, they include LED backlit displays that light up instantly.
- USB Sleep-and-Charge port let you charge portable devices such as MP3 players, mobile phones, digital cameras and PDAs—whether the laptop is powered on, off or in sleep mode. As for those bulky AC adapters that came with your gear, you can leave them home.
- Hard Drive Impact Sensor detects when your laptop starts to fall off a table and "parkd" the heads of your hard drive before damage occurs. It works faster than you can blink to protect your laptop and all-important data. Sensor's sensitivity levels can be customized to suit your situation.

TOSHIBA

Qosmio® X505

The Qosmio X505 laptop delivers the extreme performance you crave, transforming the latest games and high-def content into a delectable feast for the eyes, while keeping you riveted with blazing-fast frame rates and entertaining extras. You'll enjoy elite performance powered by the newest Intel® Core™ i7 quad-core processor, enthusiast-class NVIDIA® GeForce® GTS 250M graphics,and ultrafast DDR3 memory. Power through hyper-realistic 3D games brought to life with intense visuals and a premium stereo system that delivers incredible virtual surround sound for games, music and movies. Create and edit hi-res photos and videos. Enjoy the latest Blu-ray Disc™ movies. Hold tons of entertainment on a spacious high-speed hard drive. Or simply plow through your day on a brilliant, full 18.4" HD TruBrite® Widescreen display. Topped by a striking Fusion™ Finish in Omega Black, the Qosmio® X505 gives you all the power and performance you want, plus the portability you need.

- Equipped with the Intel® Core™ i7 processor, the Qosmio X505 delivers maximum processing power in response to peak demands. You'll fly through everything you do on your PC—from playing intense 3D games to creating and editing digital video, music and photos. With Intel® Turbo Boost and Intel® Hyper-Threading Technology, you get intelligent performance when you need it the most.
- The NVIDIA® GeForce® GTS 250M offers what gamers want most—hyper-realistic action with intense 3D visuals, plus vibrant, lifelike scenes and dynamic character effects—thanks to NVIDIA's PhysX® technology. It goes beyond everyday gaming with built-in CUDA technology to speed demanding system tasks, like video playback and HD movie editing.
- Harman Kardon speakers + Dolby Home Theater transforms music, movies and gaming with more realistic dialogue and explosions, along with deeper, fatter bass and brighter treble tones. It also expands existing stereo or 5.1-channel signals to 6.1- or 7.1-channel playback for an experience that will spoil you for good. Delivering rich virtual surround sound on headphones and laptop speakers, Dolby Home Theater® puts you right in the middle of the performance—wherever you are.
- TouchPad™ with Multi-touch control lets you swipe, rotate, push, scroll or zoom in on the display screen with a simple brush of your fingers.
- Hard Drive Impact Sensor detects when your laptop starts to fall off a table and "parkd" the heads of your hard drive before damage occurs. It works faster than you can blink to protect your laptop and all-important data. Sensor's sensitivity levels can be customized to suit your situation.
- When the room's dim or the lights go down, you can keep right on typing thanks to a LED-backlit keyboard. Great for working on planes or in poorly lit cafes; it not only looks cool, but helps make the laptop more energy efficient too.
- HDMI-CEC connectionlets you scale up your gaming, movies and music on a home theater—and control the entire show with your TV's remote.
- Choose from either an ultra-fast 7200 rpm SATA hard drive, or an SSD (solid state drive) offering lightning-fast access times and even greater reliability.

TOSHIBA PROFESSIONAL & BUSINESS NOTEBOOKS

Toshiba's Satellite Pro, Tecra and Portege professional and business notebooks all feature EasyGuard & Fix to protect ital information and vulnerable components against the stress and hazards mobile computers are exposed to every day. Design innovations, like the Toshiba Hard Drive Protection, help protect crucial laptop components, and the shock absorbing design helps guard against jarring. Should your computer become damaged, the PC Diagnostics Tool can help minimize downtime and get you up and running. They also incorporate a preventative maintenance utility called PC Health Monitor that continuously checks the health and functionality of your laptop's critical hardware components.

- Airpocket cushioning and special padding materials have been integrated into the notebook's base and display to protect key components (HDD, LCD, inverter) and the chassis.
- Spill-resistant keyboard includes a cover, tape and insulators to help safeguard your notebook in case of a spill and gives you time to save and close your open files and turn off the machine.
- Toshiba PC Diagnostic Tool is proprietary, pre-installed software that you can launch to perform a hardware diagnostic test through a simple, non-technical interface. By self-diagnosing potential hardware issues, you can pinpoint and resolve possible hardware problems yourself or have pertinent, timesaving information on hand that IT support can use to help remedy the issue.
- They offer two levels of internal support and one level of external support specifically for the hard disk drive (HDD). The exclusive 3D accelerometer three-axis monitoring system detects free falls in all directions and rapidly moves the HDD head from between the HDD platters in preparation for impact. Shock absorption technology further reinforces the HDD in the event of an impact or vibration. And on the bottom of the notebook, the HDD Dome Shock Protector reinforces the area of the chassis closest to the HDD in order to provide further protection from impact.
- PC Health Monitor is an intelligent and comprehensive utility that provides a dashboard system of alerts regarding hard drive status, battery life, CPU temperature and system cooling warnings.

TOSHIBA Portégé R600 12.1" Notebook

Offering a sleek, lightweight design and brilliant Toshiba innovation, the 2.4 lb. Portégé R600 is today's new ultra-affordable, ultraportable laptop. A compact 12.1" (1280 x 800) LED-backlit display helps keep you productive in cramped coffee shops, on planes and through all-day meetings, while offering amazing color and clarity. It also offers industry-leading battery life—up to almost 8 hours— to help make you more mobile than ever. Includes DVD SuperMulti Drive, 802.11a/g/n Wi-Fi and Bluetooth 2.1 + EDR with Toshiba ConfigFree, and built in webcam and microphone. Includes Windows Vista Business with XP Downgrade.

- 12.1" (1280 x 800) widescreen display uses natural light to bring images to life—indoors or even out in daylight. Plus, along with richer colors and more stunning visual clarity, you'll have the room you need to handle those business documents as well.
- Enjoy mobile computing in style. Not just one of the thinnest, lightest ultraportables you can buy, it is also one of the most elegant.
- Fingerprint reader and multiple level password utilities for enhanced security
- USB Sleep-and-Charge ports let you charge portable electronic devices such as MP3 players, mobile phones, digital cameras and PDAs—whether the laptop is powered on, off or in sleep mode.
- eSATA combo port enables the high-speed transfer of files between the laptop and external hard drive with trasfer rates up to 5x faster than standard USB 2.0.

TOSHIBA Tecra R10 14.1" Notebook

The high performance Tecra R10 is a great desktop alternative—for professionals on the move. It brings office computing power wherever you go. Featuring Intel Centrino 2 with vPro technology, the Tecra R10 meets and exceeds the advanced levels of performance, energy efficiency and IT manageability today's business demands. A high resolution 14.1" widescreen (1280 x 800) LED display and powered by NVIDIA Quadro® NVS 150M card with 256MB of memory delivers rich-media presentations, full of vivid colors and fluid graphics. Advanced wireless, along with a built-in webcam and a host of security measurs keep you in touch and in high gear. Comes with 4th-Generation EasyGuard® Technology, including the PC Health Monitor, plus an unprecedented three-year warranty.

- USB Sleep-and-Charge ports let you charge portable electronic devices such as MP3 players, mobile phones, digital cameras and PDAs—whether the laptop is powered on, off or in sleep mode.
- eSATA combo port enables the high-speed transfer of files between the laptop and external hard drive with trasfer rates up to 5x faster than standard USB 2.0.
- Includes 7200 rpm SATA hard drive, DVD SuperMulti Drive, Bluetooth 2.1+EDR, 802.11a/g/n Wi-Fi and ToshibaConfigFree; built in webcam and microphone
- For security it includes multiple-level passport utilities, reinforced security cable lock slot, and a fingerprint reader that helps replace passwords with the swipe of a finger. Advanced TPM (Trusted Platform Module) software keeps your data from prying eyes.
- Comes with Windows Vista Business (32/64-bit) SP1 with XP Professional Downgrade

TOSHIBA Satellite Pro L350 17" Notebook

Featuring a massive 17" screen, the Satellite Pro L350 incredibly only weighs 7 lbs. offers business-essential performance within an ideally sized, highly portable design. (It does not include Toshiba's EasyGuard & Fix functions or a PC Health Monitor). Built around powerful Intel Core 2 Duo Processors, this machine lets you multitask, provides enhanced enhanced system and application performance, and smart battery usage too. Offering incredible color depth and clarity, tons of room, plus clearer viewing from wider angles, the 17" display helps you make picture–perfect presentations, and turns multimedia into a dazzling tabletop event. And for those who do lots of data entry, work in accounting or finance, or type all day long, wait till they lay their eyes (and fingers) on the broad full–size keyboard with a 10–key pad.

- 8x DVD SuperMulti (±RW double layer) drive supports 11 formats.
- Built-in 802.11a/g/n Wi-Fi and Toshiba ConfigFree
- Built in webcam and microphone
- Built-in 5-in-1 memory card reader
- Comes with Windows Vista Business 32-bit with XP Professional downgrade

PAVILION SLIMLINE

The Pavilion Slimline are compact desktop computers designed for use in the home. Ideal for areas with limited space, they are housed in a slimline case that is one-third the size of standard tower. They feature SuperMulti DVD burner with LightScribe technology, front panel memory card reader, and an extensive software bundle. Connect devices such as digital cameras, MP3 players, and camcorders with two front and four back panel USB 2.0 ports. 8x SuperMulti DVD burner with LightScribe technology lets you create music mixes, video discs, and digital photo albums and etch custom, silkscreen-quality labels and artwork directly onto LightScribe-enabled discs. Manage music, photos, and videos—plus create slide shows, listen to music, and more, with the HP MediaSmart software. The s5260f has a built-in dual-format NTSC or over-the-air ATSC HDTV tuner. So you record, watch, pause and rewind live broadcast TV, just like a DVR. It also has built-in 802.11n wireless connectivity.

Monitor not included

- Built-in front panel 6-in-1 (s5220f) or 15-in-1 (s5260f) memory card reader
- Create and edit videos using Windows DVD Maker and CyberLink software
- Get productive with Microsoft Works 9 which includes a word processor, spreadsheet, database and calendar

ASUS EeeBox Mini Desktop PC

The Eee Box is a mini desktop PC with huge possibilities. Built with home and office use in mind, this small computer is the epitome of elegance, boasting pleasing aesthetics and extremely quiet operation. Best of all, since the Eee Box only requires around 20 watts of power, your carbon footprint is reduced by 90% compared to a standard PC. With a slim svelte design, the world's smallest desktop PC allows an array of space saving options. Plus, it's so easy to use. The simple intuitive interface lets inexperienced users get started right away. Enjoy easy living with the eclectic, efficient and eco-friendly Eee Box. The system is powered by a 1.6GHz Intel Atom CPU, and has 1GB of RAM, 160GB hard drive capacity, 802.11n Wi-Fi, and Intel GMA graphics. The operating system is selectable between Linux OS and Windows XP Home.

- While its Atom CPU may not be the fastest in the world, it generates less heat and consumes less power than high-end desktop CPUs. This allows the Eee Box to be small and quiet, while still providing enough processing horsepower to run home, office, and Internet applications.
- So small, it can be mounted on the back of an LCD computer display—creating an all-in-one PC
- Built-in 5-in-1 memory card reader downloads pictures from popular card formats
- Express Gate gives you quick Internet access, without the need to boot into the operating system

ASUS EeeTop ET1602 15.6" All-in-One PC

The ET1602 is an easy-to-use one-stop desktop that puts the Internet at your fingertips — literally. It features a touch panel that allows you to do everything you can with a regular desktop by simply applying direct pressure on the screen with your fingertips! With its touch-and-select interface and exclusive touch-optimized software, everyone in the family will find easy to use. Scribbling memos to each other, surfing the Net, drawing custom emoticons during instant messaging—the possibilities are endless.

- Just plug in the power cord and its ready for use. Moving it around is effortless.
- Integrated 802.11n wireless, webcam and microphone
- Splendid™ Video Intelligence Technology ensures that the display remains vivid and clear regardless of environmental lighting, and SRS technology works in tandem with the built-in high fidelity speakers to deliver crystal clear audio.

ASUS ET2002 • ET2203 20- and 22-inch All-in-One PCs

Minimalist design and slim form factor ensures a small desktop footprint, while their light and compact design makes the ideal all-in-one, plug-and-play PC. That billing is further reinforced by its fast and easy start-up. So plug in the power cable and boot up, because the days of cluttered desktops and messy wiring are over. Experience movies and games like never before. With a 20- or 22" flushed high definition 16:9 widescreen display, HD support and HDMI compatibility, they deliver crystal clear, true-to-life visuals. Together with embedded deluxe stereo speakers featuring SRS Premium Sound™ with virtual 5.1 surround sound, they'll immerse you in a truly exceptional multimedia entertainment experience.

- Intuitive user interface is complemented by a suite of programs designed to make your life simpler. The EeeBar gives you quick access to system settings and your most frequently used applications.
- Stop posting notes on the fridge door because Eee Memo lets you leave personal notes or video messages
- Built-in webcam, fitted with the ASUS exclusive Real-time Image Capture Technology, provides a superior image quality at 30-fps; while its enhanced sensitivity to light ensures great images even in low-light settings.
- The ET2002 comes with an 8x Super Multi DVD drive; the ET2203 comes with a slot-in Blu-ray Disc player/ 8x Super Multi DVD drive

VAIO JS Series All-in-One (AIO) Desktop Computer

Easy to set-up and even easier to use, this powerful all-in-one desktop is built into the back of a stunning 20.1" LCD display. Designed as a space-saver, the JS chassis sits directly on your desk complete with a storage space for the keyboard. The 20.1" LCD display features Sony's own XBRITE-ECO™ LCD technology, so you can experience razor-sharp images in crisp, vivid detail. Powered by a Pentium processor and packed with Dolby Home Theater® technology and stereo speakers, the JS series is perfect for listening to music and watching stunning movies. Integrated microphone and webcam with face-tracking technology can follow your movements while video-chatting with friends and co-workers. They come pre-installed with Win 7 Home Premium.

- Whether for YouTube or a presentation, or a website, editing digital video is quick and easy with bundled VAIO® Movie Story software. You choose from the supplied templates and professional looking cutaways, cross-fades and soundtrack syncing are automatically done for you.
- Five high-speed USB 2.0 ports and one i.LINK interface conveniently located on the back and sides for easy access. Attach virtually all your peripherals without having to buy additional hardware.
- Built-in wireless 802.11b/g/n LAN technology, lets you place them virtually anywhere in your home.
- Elegant, yet simple keyboard with an isolated key design can be stored below the LCD to save space.
- The J410 features an 8x MultiDrive DVD burner and Intel Graphics Media Accelerator X4500HD
- JS450 steps up with integrated Bluetooth technology, NVIDIA GeForce 9300 M GS graphics card with 256MB of RAM, and a Blu-ray Disc ROM optical drive so you can watch pristine HD content. You can also check out exclusive movie previews and downloads utilizing BD-Live™, a Blu-ray feature that enables you to access additional content via your Internet-connected PC.

VAIO LV Series All-in-One High Definition PC/TV

Simplify your life by having your PC, HDTV and DVR in one sophisticated package. Stylishly designed to fit beautifully in any room, the VAIO LV series can serve as your entire entertainment hub. They are equipped with a Full HD 1080p 24" touch widescreen display for crystal-clear images. And with built-in DVR capabilities and up to 500GB of storage, you can create a personal entertainment library with up to 50 hours of HD television. Never miss a minute of your favorite programming again thanks to integrated NTSC / ATSC TV tuners that let you watch and record live TV including local and over-the-air HD channels.
The L116FX features an HDMI input so you can connect your compatible HD cable box, satellite receiver or Playstation 3 via a single cable and enjoy HD entertainment without powering on the PC. Packing powerful components, they can multi-task through demanding PC applications while editing HD content. They are equipped with wireless 802.11n and an integrated power supply allowing for clean mounting on a wall. Wireless keyboard with numeric 10 key pad, mouse, and remote control enable cord-free work or play from the convenience or your sofa.

- The 24" wall mountable display with stunning XBRITE-FullHD™ LCD technology delivers deeper blacks, brighter whites, true-to-life color and razor-sharp detail from almost any angle.
- Wall-mountable, plus they have an adjustable stand to help you get that "just right" viewing angle. With a simple push of your finger, you can adjust the stand to meet your desired viewing angle.
- "Display Off" button turns off your screen, without sending your computer into hibernation.
- User-friendly multi-touch screen for simple, intuitive touch access to internet and digital TV, social networks, photos, movies and more.
- Media Gallery lets you enjoy your photos, movies, and videos with a touch of your fingers
- Built-in microphone and MOTION EYE® camera with face-tracking technology.
- Stereo speaker configuration enhanced by Dolby Home Theater® places you amidst the excitement and emotion of your favorite entertainment
- Five high-speed USB 2.0 ports and one i.LINK interface conveniently located on the back and sides for easy access. Attach virtually all your peripherals without having to buy additional hardware.
- Webcam message board with handwritten messages and your own artistic drawings

Windows 7
Home Premium (32/64-bit)

Microsoft

The Home Premium edition of Windows 7 is designed to meet the needs of the modern home. Designed with entertainment and Internet use in mind, the OS features improved desktop navigation, improved speed, Internet Explorer 8 web browser, Windows Media Center, and HomeGroup networking. Both the 32-bit and 64-bit editions of the operating system are included on the disc, allowing you to install the edition which best suits your needs.

#MIW7HPF **197.95**

Windows 7
Professional (32/64-bit)

Microsoft

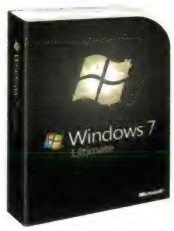

Stepping up from Windows 7 Home Premium, the Windows 7 Professional edition lets you run many legacy Windows XP productivity programs in a true virtualization of Windows XP. You'll also be able to join Domains, which is often a requirement for connecting to corporate networks.

Finally, the Professional edition adds the ability to backup your system to a home or business network.

#MIW7PF **294.95**

Windows 7
Ultimate (32/64-bit)

Microsoft

Otherwise the same as Windows 7 Professional, the Ultimate edition adds BitLocker, which allows you to encrypt data on your hard drive and other storage devices. Encrypting data is critical in environments where it is imperative that sensitive data does not fall into the wrong hands. You'll also be able configure the OS to use any of 35 languages, making the Ultimate edition an excellent choice for multilingual users.

EPEAT GOLD CERTIFIED LINE

Ergonomic Design with Great Performance

ERGONOMIC DESIGN • With height adjustment, swivel and tilt functions, you no longer have to contend with improper sitting postures or awkward viewing angles as it allows you to change the viewing angle according to your line of sight to enjoy greater comfort for long hour usage.

FULL HD ENJOYMENT • Embedded HDMI input with Full HD 1080p resolution delivers multichannel audio and uncompressed digital video through a single cable for the ultimate multimedia entertainment. Supporting HDCP copy protection such as that found on Blu-ray Discs, HDMI simplifies cabling and provides the highest-quality multimedia audio and video experience

20000:1 HIGH CONTRAST RATIO • ASCR (ASUS Smart Contrast Ratio) Technology enhances the display's dynamic contrast ratio, creating sharper and brighter images, especially during video and movie playback.

• SPLENDID™ VIDEO INTELLIGENCE TECHNOLOGY is built upon a color engine that automatically analyzes and determines the nature of the user's current task, thereafter adjusting the display's parameters accordingly to ensure the best possible color and image fidelity.

TFT FLAT PANEL BUSINESS MONITORS
Reasonably-Priced Monitors

Looking for an affordable LCD monitor? Look no further than the Flat Panel Business LCD monitors from Hewlett Packard. A fully detachable base makes the monitor easy to mount, and with its thin bezel design, it allows users to "tile" multiple displays for complex financial applications and video editing. A wide range of icon-based on-screen controls allows quick setting of user preferences.

- Fully detachable base • Plug-and-play convenience
- Built-in USB hub • Thin bezel design

LP FLAT PANEL MONITORS SERIES
Best-in-Class Performance Widescreen Monitors

The HP LP Flat Panel monitors offer best-in-class performance and presentation features on a stunning 20- to 30-inch wide-aspect screen. The LCD is well suited for power users, designers, content creators, and professionals working in visualization who need the best color and highest resolution available. Resolutions up to 2560 x 1600, 92 percent color gamut, and extra-bright, wide-format screens. Work the way you want with a monitor that supports desktop, wall, and swing-arm mounting; the integrated power supply eliminates bulky "power bricks" and improves cable management, allowing you to minimize desktop clutter.

WIDESCREEN LCD
VGA/DVI-I/DVI-D Inputs and Blue Eye Pro Colorimeter

The 526 25.5-inch Widescreen LCD Computer Monitor from LaCie is a high-quality display built with video professionals and graphic designers in mind. The monitor recreates a CRT-grade 91 percent NTSC color gamut with 12-bit LUT gamma correction at 16-bit calculation precision. It also covers 95.5 percent of the ISO Coated gamut and 95 percent of Adobe RGB.

• 1920 x 1200 resolution • Analog/2-DVI • 178°H / 178°V viewing angle • 800:1 contrast ratio • 16 ms response time

COMPUTER GRAPHICS MONITORS Blue Eye Colorimeter

320-Colorimeter

LaCie 3 series LCD's embed an industry-leading wide gamut (95% Adobe RGB / 99.7% of ISO Coated) S-PVA panel and a 10-bit gamma correction mechanism, which ensure smooth and vivid colors in artwork, photography, and layout. Thanks to DCDi by Faroudja video enhancement technology, it's excellent for audio/video editing, 3D CAD, and game development, performing flawlessly with HDMI, DVI, and VGA video sources up to and including full HD 1080p. It is also available bundled with the LaCie Blue Eye Pro single-click hardware calibration solution. These models offer extensive calibration capabilities including brightness, white point, and gamma adjustment, profile generation, and post-calibration color adjustment. A monitor hood and a screen cleaner kit are available with certain models.

LCD MONITORS WITH RGB LED BACKLIGHTING TECHNOLOGY

LA724

MIdeal for professional color-critical applications, Lacie's ground–breaking LED backlight technology produces purer red, green and blue primaries, resulting in a larger range of vibrant colors previously unattainable by CCFL-based LCD monitors. They cover a remarkable 116% and 114% or up to 125% and 123% (depending on the model) of the NTSC and Adobe RGB gamuts (CIE 1976), which offers a color experience that is truer to life than ever before. Their VA-LCD panel technology also delivers deep blacks, high contrast and excellent viewing angles. 14-bit gamma correction and ColorKeeper backlight stabilizer offer smooth gradient rendering and stable performance across time. Models ending with BEP, are bundled with blue eye pro Proof Edition software

COLOREDGE CG MONITORS Meet the Demands of Pros

ColorEdge monitors are ideal for graphic arts, printing, digital photography, and other fields requiring uncompromising color accuracy. With 12- or 10-bit hardware calibration, you can enjoy the benefits of soft proofing and on-screen color checking for a more efficient work flow. These models offer extensive calibration capabilities including brightness, white point, gamma adjustment, profile generation, and post-calibration color adjustment. All models have IPS panels that offer precise color display and minimal color shift when viewed from off-center. They feature a 12-bit look-up table and 16-bit internal processing. In addition, a monitor hood and a screen cleaner kit are also available.

Seagate FreeAgent Go

Portable Storage Solutions

Smart, sleek portable solutions for storage and safekeeping of all your photos, music, videos and more, FreeAgent Go drives let you carry your data while you travel, or to and from work and home. Plus, they are the world's first portable hard drive with a convenient desktop dock accessory. Simply pop your drive into the optional FreeAgent dock whenever you want to access your files — no more fumbling for cables. Macintosh version includes desktop dock, features Mac formatting and Time Machine–readiness. All drives come with a 5-year warranty for peace of mind.

- Experience fast data transfer with a USB 2.0 interface (Windows), or lightning-fast transfer with FireWire 400 & 800 interfaces as well as USB 2.0 on the FreeAgent for Mac.
- Save energy by using one small drive for both mobile and desktop needs, and take advantage of an environmentally smart utility that can power down the drive when not in use (Windows version), or take advantage of support for Apple's power management feature (Mac version).
- FreeAgent for Mac includes desktop docking station, durable carrying case and compact FireWire and USB cables

FreeAgent Go (for Windows) Only:

- Easily protect your data with automatic backup software
- Keep important files and folders private with powerful software encryption technology
- Sync content between work and home computers so you'll always have your most current versions
- Get started quickly with pre-loaded software—no CDs to load

FreeAgent Go Accessory Pack: Includes a silver USB dock and a black carrying case. *(B&H# SEFAGDC)*.....**19.95**

Western Digital

My Book: WD's award-winning USB external hard drives are smaller, sleeker and more elegant than ever. Plus they feature WD SmartWare™ software that to automatically back up your data, shows your backup as it happens, and brings back lost files effortlessly. Secure the drive with military-grade, 256-bit hardware-based encryption and password protection. See at a glance how much space is available on your drive with the illuminated capacity gauge. As always, their book-like shape takes up less space on your desk and allows two or more My Book drives to nestle neatly together like volumes on a shelf. Otherwise the same, Book® for Mac™ is formatted for Mac only, compatible with Apple TimeMachine. Includes automatic, continuous backup software and hardware encryption, with password protection.

- Just plug them in and they are ready to use—no installation necessary
- Automatic, continuous backup will instantly make a second copy whenever you add or change a file.
- Visual backup displays your content categories and shows the progress of your backup.
- Retrieve data whether you've lost all your data or just overwritten an important file.
- Customize your backup, set drive security, run diagnostics, manage the power settings, and more from the WD SmartWare control center.
- Gain peace of mind knowing that your data is protected from unauthorized access or theft with password protection and military-grade 256-bit hardware-based encryption.
- WD GreenPower Technology™ lowers power consumption by up to 30%, sleep mode reduces power during idle times, and a power-saving feature turns the drive on and off with your computer.
- My Book Essential, Mirror and Elite are compatible with both Windows XP/Vista/Windows 7 Also compatible with Mac OS X Tiger/Leopard/Snow Leopard (need reformatting).
- Instead of the illuminated capacity gauge, My Book Elite's smart display lets you create your own personalized drive label to remind you of what's stored on each drive. The display also includes available capacity and security status. You can even view the label when the drive is unplugged.
- My Book Studio Edition II is user serviceable — simply open the case and replace the existing drive — no screwdriver needed. It is also RAID-enabled, automatically and continuously duplicating your data. If one drive in this two-drive system fails, the system continues to run and data is safe. RAID 0 (striped) accesses the full capacity of the drives. RAID 1 (mirrored) accesses half of the total capacity for data protection.
- My Book Studio Edition and Studio Edition II are formatted for Macintosh compatibility, including Time Machine. Includes software and instructions for easy reformatting to Windows 2000/XP/Vista.

Home Network Storage

My Book World Edition II - next generation

My Book World Edition - next generation

Simplified set up and best-in-class performance make My Book World Edition the easy choice for centralizing data and backing up all the computers in your home. Connect the drive to your network router and you're up and running in minutes. Use the included back up software to protect your family's PCs with automatic and continuous backup plans. Store all your digital media in one central location so everyone in the family can have access to it. Access your files anywhere, anytime using MioNet® remote access technology from WD. Compatible with both Mac and Windows files, My Book World Edition drives combine up to 2 TB of networked storage, a built-in media server, and remote access software to make it the most versatile and powerful product in its class.
My Book World Edition II steps up with even safer storage. Using RAID mirroring technology, this system automatically and continuously maintains a second copy of your data for the ultimate in data protection. If one drive in this two-drive system ever fails, the system continues to run and your data is safe. How's that for peace of mind?

- Easily back up all your home computers with the included continuous backup software. Set it and forget it; every time you save something it's instantly and automatically backed up.
- Restore lost, damaged or older files back to their original location with a couple of clicks. Backup files are stored in the same file structure that you originally saved them, so it's easy to find files.

Seagate

FreeAgent Desk • FreeAgent Extreme
External Storage Solutions

Smart, sleek desktop solutions for storage and safekeeping of all your photos, music, videos and more, FreeAgent Desk and FreeAgent Extreme drives include easy-to-use software that helps keep your information safe and private with automatic backup and encryption of important files and folders. Environmentally smart utilities help save energy by putting the drives in sleep mode once it has been idle for 15 minutes. A Macintosh version of FreeAgent Desk is also available. It features Mac formatting and Time Machine–readiness and supports Apple power-management.

- Experience fast data transfer with a USB 2.0 interface (FreeAgent Desk), or blazingly fast transfer with eSATA, USB 2.0 and FireWire 400 interfaces (FreeAgent Extreme). FreeAgent Desk for Mac features FireWire 400 and 800 interfaces as well as USB 2.0.
- Conveniently store all your photos, music, videos and documents in one place thanks to large storage capacities up to 1.5TB.
- Sleek, modern design offers the choice of horizontal or vertical orientation to maximize your workplace.
- Easily protect your data with automatic backup software
- Keep important files and folders private with powerful software encryption technology
- Sync content between the FreeAgent Desk or FreeAgent Extreme drive and other portable drives so you'll always have your current file versions wherever you are.
- Get started quickly with pre-loaded software—no CDs to load
- Save energy with environmentally smart utility that can put your drive in sleep mode once it has been idle for 15 minutes
- They come with a 5-year warranty for peace of mind.

G-SAFE High Performace RAID Protected Storage Systems

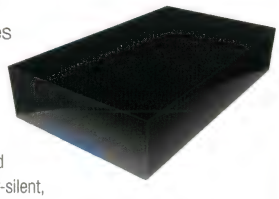

G-SAFE is the ideal storage solution to safeguard your important digital photos, audio and video libraries and documents. It offers the ultimate in peace of mind by simultaneously writing to two independent hard disk drives providing instant back up of files as you save them. And unlike single drive backup systems, if a drive failure occurs your images are safe and accessible. G-SAFE features two removable drive modules for easy replacement of disk drives and off-site backup of data. It utilizes two hot-swappable, 7200 RPM 3Gbit SATA hard drives. For example, G-SAFE 1TB incorporates 2x 1TB drives and provides a full 1TB of mirrored (RAID 1) storage capacity for your content.G-SAFE features high-speed 3Gbit eSATA, FireWire 800 and USB 2.0 interfaces for universal connectivity to Mac's and PC's and two removable hard drives mated to a sophisticated hardware RAID 1 (mirroring) engine designed to ensure 24x7 data protection. A front panel LCD is used to configure and monitor the health of the system. G-SAFE is ready right out of the box to starting protection your valuable data.

Hard Disk MAX, Design by Neil Poulton

Hi-Speed USB 2.0 with RAID

Get an enormous amount of storage capacity in a hard disk that's easy for anyone to use. The simple and efficient LaCie Hard Disk MAX, Design by Neil Poulton contains two internal disks for maximizing capacity. Setup is nearly effortless; it's plug & play and offers customizable formatting with LaCie Setup Assistant. LaCie Backup Assistant software is also included for PC and Mac users. This external hard drive comes with two RAID options, so you can easily choose the configuration that best matches your needs: RAID 0 (FAST) for high capacity or RAID 1 (SAFE) for high security. This sleek, subtle hard disk has an all-black mirror-polished finish and a unique feature—a blue LED strip on its underside that creates an ambient glow. Thanks to the USB expansion port, it can even be connected to another USB device—such as another external hard drive—for backups.

2TB Hard Disk MAX *(B&H# LAHDMAX2TB)* **221.95**

d2 Quadra Hard Disk Quadruple Interface Drive

Loaded with four interfaces—eSATA 3Gbits, FireWire 800, FireWire 400, and USB 2.0—this all-in-one professional hard disk offers universal connectivity for PC and Mac users. For easy setup, the LaCie Setup Assistant helps format your disk according to your needs. Perfect for digital content creation, audio/video editing, DVD authoring, Web animation, etc., the d2 Quadra can handle multiple demanding professional tasks. It can be daisy-chained via FireWire or connected to your DV camera and is even bootable in FireWire for Mac and in eSATA for Mac/PC. Launch any application in one push, such as the included Genie Backup Assistant software with data restore for Windows or Intego Backup Assistant software with data restore for Mac.

Rugged XL Dual Interface Drive

The LaCie Rugged XL, Design by Neil Poulton combines high-capacity storage with a user-centric design. A great companion to your PC or Mac, setup is effortless; it's plug & play and offers customizable formatting with the LaCie Setup Assistant. LaCie Backup Assistant software is also included for PC/Mac users for easy, automatic backups. This advanced hard disk features aluminum casing, which provides superior protection on your desk. Its extremely resistant and tough design comes complete with a rubber sleeve, internal bumper, and heat dissipating features, making it both sturdy and effective. The Rugged XL makes a statement on your desktop, with its design, based on the original award-winning LaCie Rugged Hard Disk, and colorful presence. With versatile Hi-Speed USB 2.0 and the lightning-fast eSATA 3Gb/s interface the Rugged XL is as fast as it is reliable.

1TB *(B&H# LARXL1TB)* **139.95**

d2 SAFE Hard Drive

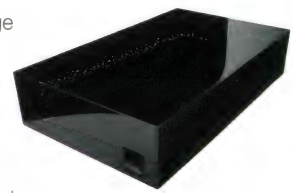

Triple Interface Drive with Fingerprint Access

This high-performance d2 hard drive comes with biometric (fingerprint) access, hardware encryption, and a chain lock port for attaching to your desktop. Simply swipe your finger over the sensor to access your data. To lock it, just touch the sensor and swipe again to unlock it upon return. Perfect for group projects, this triple interface (Firewire 800, Firewire 400 and Hi-Speed USB 2.0) drive is compatible with PC and Mac and holds up to 5 user profiles. It provides fast sustained transfer rates of up to 64MB/s via FireWire 800. Ideal for confidential professional applications such as video projects, digital artwork and music production, the d2 SAFE guards your original creations from getting into the wrong hands.

Network Space Ethernet Central Storage

An external hard drive with a Gigabit Ethernet interface, these drives are ideal for use in small networks and can support 5 simultaneous users. The ethernet interface allows users to access data and administrators to administer the drive remotely through a standard LAN connection. It also supports folder-level security, FTP access, and storage expansion via USB. Compatible with Mac and Windows.

1TB *(B&H# LA1TBECS)*.....**144.95**

All Lacie drives come with a 2-year or 3-year warranty

d2 Network • Big Disk Network

Professional File Servers

Professional, reliable, central storage for instantly storing, sharing, and backing up from any computer on your network, the d2 Network and Big Disk Network are full-featured file servers, recommended for networks with up to 50 users (15 at once). Share files among Windows, Mac, and Linux users thanks to their SMB and AFP protocols support, or connect remotely through FTP, HTTP, and HTTPS file systems. Get extra security and increase data portability by backing up them up — on your own schedule to an external hard drive via USB and eSATA ports (d2 Network) or USB port (Big Disk Network) using their built-in backup system. They also come with Genie Backup Manager Pro for Windows and Intego Backup Manager Pro for Mac. You can also download big files using their integrated torrent server, without having the computer turned on. Play stored media files directly on any UPnP AV-compatible device or via a Digital Media Adapter (DMA), such as a PS3 or Xbox. They are also compatible with any DLNA multimedia device, and work with iTunes. To control access, you can assign various security levels to shares, groups, users profiles, and public access.

2big Quadra

A quadruple (eSATA 3Gbits, FireWire 800, FireWire 400 & Hi-Speed USB 2.0) interface professional 2-disk RAID, the 2big Quadra delivers fast speed, large capacity and data security. Easy-to-use, it comes with two extractable, lockable and hot-swappable disks for a user-controlled solution. With four RAID levels, it meets your storage needs, whether it's security, capacity, speed or a combination. With burst transfer rates as high as 165MB/s (eSATA), it's ideal for audio/video projects (DV and SD video playback or 2D/3D imaging). Comes with Genie Backup Manager Pro software with disaster recovery for Windows users and Intego Backup Manager Pro software with disaster recovery for Mac users. It also features Triple Power Management and the LaCie Shortcut Button, which can launch any application you choose in one push.

4big Quadra

The 4big Quadra is the most complete 4-bay RAID solution for small servers, creative pro workstations, or offices that need large storage/backup capacity, superior speed, and advanced security. Offering capacities up to 6TB (6000GB!), the 4big features seven RAID modes, including RAID 0 and RAID 5—which is highlighted by a versatile hot-swappable feature—to customize its performance and data protection level. With burst transfer rates reaching up to 200-230MB/s* through eSATA 3Gbits, the 4big fits perfectly with most applications that demand high speed, such as photo, pre-press, AV projects, and even HD post-production. Compatible with Time Machine™, it also comes with Genie Backup Manager Pro™ and Intego Backup Manager Pro™, for customizable backup and computer recovery. Designed with the modern professional office in mind, stackable and chainable design helps to save space, while it's expandable and scalable up to four units (providing up to an amazing 24TB capacity and 600 MB/s transfer rates). The 4big Quadra's universal connectivity (with eSATA, Firewire 400/800, and Hi-Speed USB 2.0 interfaces) helps to ensure maximum compatibility with any Mac or PC. Compared to traditional RAID towers, it saves up to 30-80% more energy, and is almost 50% quieter, making it the perfect choice for creative professionals. The technology, performance, and the design of the 4big Quadra make it an ideal addition to any workspace.

D-Link

DNS321
2-Bay Network Storage Enclosure

Easily convert two internal 3.5" SATA hard drives into an external NAS storage solution without any tools or attaching any cables. The enclosure features a Gigabit Ethernet port, UPnP AV support, an FTP server, and RAID support. An excellent solution for adding storage to your network.

- Integrated FTP server gives you access to data via the Internet
- UPnP AV server streams media to compatible devices
- Configure as a independent volumes, JBOD, RAID 0, or RAID 1
- Included backup software supports full and incremental backup
- Permissions and security can be configured via browser-based interface

#DLDNS321 ..... **119.95**

DNS-323 2-Bay Network Storage Enclosure

Same as the DNS-321 (above) the DNS-323 steps-up with a USB port that can be used to connect a printer. This allows it to act as a USB print server, eliminating the need for a dedicated computer to act as a print server and improving your network infrastructure. It also has BitTorrent support in the Download Scheduler

#DLDNS323 ..... **159.95**

DNS-343
4-Bay Network Storage Enclosure

Convert four internal 3.5" SATA hard drives into an external NAS storage solution. Like the DNS-323 (above) it features a Gigabit Ethernet port, UPnP AV support, an FTP server, a USB print server and RAID support. The difference is (besides the capacity) is that it can be configured as a RAID 0, 1, or 5 array. This allows you to configure the array for maximum capacity, or for real-time data protection. It can also be configured in JBOD mode.

#DLDNS343 ..... **369.99**

Thecus

N0204 MiniNAS Pocket RAID Storage Server

A compact network storage enclosure with RAID 0, 1, and JBOD capability, the N0204 features 2 hot-swap drive bays, each of which can accommodate a 2.5" SATA hard drive. Boasting a Gigabit Ethernet interface, it can also act as an iTunes server.

- Gigabit Ethernet interface
- Supports RAID 0, 1, and JBOD configurations
- Energy-efficient design, consumes just 25-30% of the power of a standard 2-bay NAS
- Hot-swappable drive bays support 2.5" SATA drives
- Whisper-quiet cooling system
- Includes easy-to-use Windows setup utility
- Full multimedia support with UPnP AV and iTunes support
- USB ports for external storage expansion

#THN0204 ..... **169.95**

Thecus

N7700 • N8800
7-Bay Desktop and 8-Bay Rackmount NAS Servers

Designed with enterprise environments in mind, the 7-bay N7700 desktop and 8-bay N8800 2RU NAS servers support the installation of up to 7 or 8 (respectively) 3.5" SATA hard disks and a multitude of RAID levels. They also features an LCD display for monitoring, eSATA for storage expansion, and USB ports for storage expansion and printer connectivity.

- Powered by Intel Celeron CPU with 1GB of DDR2 system memory
- Dual Gigabit Ethernet ports with automatic failover protection
- Support for iSCSI initiators allows it to act as direct-attached storage over a LAN or WAN —enjoy blazing file transfer speed over without the expense of fiber-channel.
- Bright LCD displays drive status
- Support RAID 0, 1, 5, 6, 10, and JBOD
- Supports RAID expansion and RAID level migration
- USB expansion ports allow connection to external storage devices or USB printers for easy network printing
- eSATA port for storage expansion
- Supports ext3 and ZFS file systems
- Work as a UPnP AV server for DLNA devices
- Remote backup via Thecus' Nsync application

N7700 *(#THN7700)* **909.95**

N8800 *(#THN8800)* **1399.95**

N0503 ComboNAS Flexible NAS Server with Dual Format HD Support

One look at the N0503 tells you it's different. Using its special combo hard disk bays, the N0503 can actually support up to five 2.5" hard disks or three 3.5" hard disks. Fill it with three 3.5" hard disks and the N0503 is a high-performance three-bay NAS with up to 6TB of storage capacity. Equip it with five 2.5" hard disks, and you have a five-bay NAS unit that offers lower power consumption and noise. The N0503 also offers quick system response and file transfer capabilities with its powerful Intel® ATOM™ CPU and dual Gigabit Ethernet ports. Multiple RAID modes including RAID 0, 1, 5, 6, and JBOD are selectable, and auto volume rebuild, hot swap and hot spare capabilities mean maximum data reliability. It also comes with advanced data protection in the form of disk array roaming and Nsync – Thecus' remote replication utility.

- Intuitive and easy to use AJAX-based web interface
- LCD panel notifies you of critical system information at a glance
- Included download manager lets you download your HTTP, FTP, BT, or eMule downloads during off peak hours, so you can save your bandwidth for when you need it most.
- With support for an iTunes server, a photo web server, and uPnP AV streaming, the N0503 is an ideal media hub for the digital home. Connect to your home network and stream music and movies throughout your house. With the built-in IP camera surveillance server, use the N0503 to keep tabs on your home or office for enhanced security.

#THN0503 ..... **409.95**

N5500 Dual DOM with Dual Protection (NAS Server)

With the stackable N5500 you don't have to worry about down-time due to unexpected system failure. With the unique Dual-DOM design, an extra DOM is installed to ensure continuous and flawless operation. It also features Thecus' next-generation web-based interface featuring AJAX technology, making it the easiest-to-use Thecus NAS ever.

- Equipped with five hot-swappable SATA 3.5" hard disk bays for a whopping 10TB of total storage capacity.
- Can be configured as a NAS, DAS, or iSCSI unit, making it a perfect fit for just about any configuration.
- RAID 0, 1, 5, 6, 10 and JBOD and multiple RAID volumes.
- Support for iSCSI initiators means you can enjoy blazing file transfer speed over Ethernet without the expense of fiber-channel.
- Selectable file systems, including EXT3, XFS and ZFS
- Dual Gigabit Ethernet ports with 802.3ad link aggregation for excellent data throughput.
- Online RAID expansion, online RAID migration, and auto rebuild for maximum flexibility.
- Powerful Intel® CPU and dual Gigabit Ethernet ports with load balancing, failover, and link aggregation with 802.3ad
- Robust multimedia support, including an iTunes server, photo web server, and a media server which supports uPnP.
- Intuitive and easy to use AJAX-based web interface
- Compatible with Windows, UNIX/Linux, and MAC OS 9/X
- Select load balancing or failover, depending on your network configuration, to ensure maximum uptime and data availability.

#THN5500 ..... **824.95**

N4100PRO 4-Bay NAS Server

A desktop NAS server with a Gigabit Ethernet interface, the N4100PRO supports the installation of up to (4) 3.5" SATA hard disks and a multitude of RAID levels. It features an LCD display for monitoring, and USB ports for storage expansion and printer connectivity.

- Designed with SMB and SME environments in mind
- Supports RAID 0, 1, 5, 6, 10, and JBOD
- Dual Gigabit Ethernet ports with automatic failover protection
- Bright LCD displays drive status
- Capable of sustained transfer rates of 35MB/sec, equivalent to that of direct-attached USB 2.0 storage
- USB expansion ports allow you to connect external storage devices or USB printers for easy network printing.

#THN4100PRO **399.95**

data robotics, inc.

Drobo 4-Bay Robotic Storage Array Enclosure

An innovative external storage solution, the Drobo features the convenience and data protection capabilities of a RAID, without the hassles and inflexibility. It supports four standard 3.5" SATA hard drives. The four-bay enclosure ships without any drives installed. Start with a drive of any capacity, and simply add more as your storage needs increase. You can configure the storage capacity of the Drobo to suit your needs; you'll even be able to mix and match drive capacities without sacrificing data protection. Your computer sees the Drobo as a single hard drive volume for the ultimate in ease of use.

- Intuitive LED lights that indicate disk status. • Protects against both drive failure and data corruption.
- Can auto-repair data on a crashed hard drive, provided that the drive is replaced by a disk of equal or greater capacity. The Drobo intelligently and automatically rebuilds data from a failed drive, allowing you to get back up and running much quicker than you would with a RAID system.
- Connects to a computer via high-speed FireWire-800 or USB 2.0.

Drobo *(B&H# DR4BFW800U2)* **475.00**

data robotics, inc.

DroboPro 8-Bay Array Enclosure

Designed for use in professional environments, the DroboPro offers many of the benefits of a RAID while avoiding the inflexibility associated with it. The enclosure supports up to 8 standard 3.5" SATA hard drives—populate the enclosure with up to 16TB using the largest hard drives currently available. Configure the storage capacity of the Drobo to suit your needs; you can mix and match drive capacities without sacrificing data protection. Smart Volume management technology eliminates the need to manually resize and migrate volumes.

The enclosure connects to your computer via USB 2.0, FireWire-800 or iSCSI which uses a standard Gigabit Ethernet connection to deliver superior bus speeds. The array ships in a desktop configuration; an optional 3U rackmount kit is available.

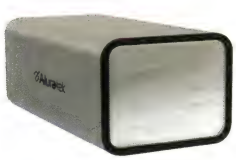

DroboPro in optional Rack Mount

- BeyondRAID technology protects against two simultaneous hard disk failures, allows you to expand array capacity with zero downtime, automatically performs management tasks, and performs self-healing where it makes repairs around the bad sector or disk, helping to eliminate data loss.
- Dual disk redundancy mode protects against the simultaneous failure of 2 hard disks; you can revert to single disk redundancy without reformatting, migrating data, or losing data.
- Can be formatted as NTFS, HFS Plus, EXT3, or FAT32
- Dual smart fans make the DroboPro a quiet addition to your desktop

Rackmount Kit for DroboPro *(B&H# DRDRPR1R11)* **19.95**

Aluratek Cyclone 2-Bay External Drive Enclosure

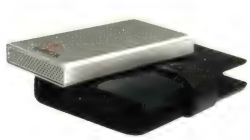

The CyClone is an external enclosure in a silver aluminum case with large thermal controlled fan for 3.5" SATA hard disks. It features two drive bays and an integrated RAID controller. The enclosure features USB 2.0 and eSATA ports for connection to a computer, supports RAID Levels 0, 1, SAFE33, SAFE50 & JBOD (eSATA) and has an LED indicator.

ALACDUES350F **74.95**

PROAVIO dvBOX

Portbable Hard Drive Enclosure

The dvBOX turns an internal 2.5"SATA hard drive into an external drive. It features connections for eSATA, FireWire-400, and USB 2.0. The enclosure supports SATA drives of any capacity. It is compatible with Mac and Windows systems. Simply connect the power cable and the data cable of the drive to the ports inside the enclosure. The drive is then ready to be used as a plug and play device. Plus, the drive is bus-powered which makes it truly portable—use it without the need for a power outlet. A USB power cable is available for systems that cannot provide enough power through eSATA to run the drive.

PRDVBPE **74.95**

NETGEAR

ReadyNAS NV+

4-Bay Gigabit Desktop Network Storage Enclosure

Perfect for any home office or small business, the compact (7.9 x 5.2 x 8.7" HWD) ReadyNAS NV+ features a Gigabit Ethernet interface, RAID data protection, UPnP AV streaming, and multiple backup layers that you can customize to fit your needs. First, protect Windows and Mac clients with included CDP software. Then, take a snapshot of your ReadyNAS data to ensure a recovery point. Next, backup to a USB drive on demand or on a schedule. Replication is a cinch between two ReadyNAS systems, and finally the ReadyNAS Vault option can move files and folders to an offsite secure data center for disaster recovery. Comes with a 5-year warranty.

- Supports Windows, Mac, Linux, and UNIX clients.
- Built-in printer server, iTunes server and streaming media server.
- Can be configured in RAID 0, RAID 1, and RAID 5 configurations.
- Whisper quiet operation; power controls for energy-efficient use.
- Netgear's X-RAID technology allows you to adjust the capacity of your RAID as your storage needs increase. You'll be able to replace individual drive modules with larger disks, without having to recreate your array from scratch.

LINKSYS

Media Hub Home Entertainment Storage

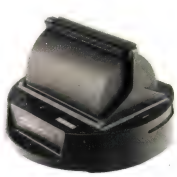

The Media Hub is an advanced network storage device, designed to act as the central repository for all of your digital media. More than a simple network hard drive, it allows you to stream media to compatible home theater devices, share photos over the web, and act as a backup device. The drive features a Gigabit Ethernet interface, fast enough to stream three streams of HD video simultaneously. It stores files on an internal 500GB (NMH305) or 1TB (NMH410) hard drive by Western Digital. A second drive bay is open, allowing you to increase storage capacity as your needs dictate. Two USB ports allow you to connect external hard drives for storage expansion. The NMH405 and NMH410 add a color LCD that allows you to monitor device status or change settings, and a memory card reader that lets you download pictures directly to the drive.

- Web-based software (Mac and Windows) allows you to view and play media from the drive, directly on your computer screen. This allows you to free up space on your computer's internal hard disk.
- 1-year free remote access to your content on the drive from anywhere via the Internet.
- Automatically finds photos, music, and movies on your network, copying and sorting them for central accessibility
- When used with a Windows system, NTI Shadow software scans for media on your network on a regular basis, backing it up to the Media Hub's internal drive for safety
- Supports RAID 1 configuration when 2 disks of equal capacity are installed
- Streams movies, music and pictures to UPnP and DLNA 1.5 compatible devices, including Xbox 360 and PlayStation 3
- Use anywhere in the world, runs on 100-240VAC • Kensington lock slot for protection from theft

Aluratek AHDDUB100

External SATA Hard Drive Duplicator

Is your computer starting to run slower? Are you worried that your hard drive may crash and you'll lose all of your valuable data? The AHDDUB100 duplicates the exact content currently stored on your computers SATA hard drive. Your OS (operating system) and program files are "duplicated" in addition to your data files making this a complete backup solution which is bootable. With its easy to use form factor all you do is insert your current 2.5" or 3.5" SATA hard drive to one side of the duplicator dock then insert your new backup drive into the other side and press the start button. No need to even connect to your computer. LED indicator light shows the status of the duplication process. It's that easy. *(ALAHDDUB100)* **99.95**

RollerMouse Pro PS/2 and USB Keyboard Platform with Mouse

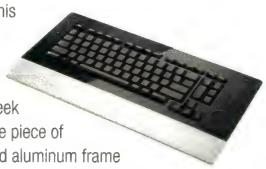

The RollerMouse Pro is a keyboard platform with an innovative roll-bar mouse that allows for one-finger operation. It features an integrated ergonomic wrist rest, 5 programmable buttons and a standard scroll wheel. The roller-bar itself can be used to move your mouse cursor in any direction as well as to left-click. It features an optical tracking mechanism and adjustable sensitivity. Can be connected via either USB or PS/2 and is compatible with both Mac and Windows computers.

- Eliminates reaching for a traditional mouse, relieving neck, shoulder and elbow pain
- No gripping necessary, thus avoiding the threat of repetitive strain injuries such as Carpal Tunnel Syndrome and tendonitis.
- Promotes the equal use of both hands, reducing the risk of injuring your dominant "mousing" hand
- Useful for both laptop and desktop computer applications.

B&H# CORMP.....**198.95**

Cordless Desktop MX 5500 Revolution

This integrated package features rechargeable MX™ Revolution hyper-fast scrolling laser mouse, and a dynamic keyboard display. Incorporates Bluetooth wireless technology and Logitech SecureConnect™ to ensure a hassle-free setup right out of the box.

- Sculpted mouse fits your hand for ultimate comfort and control
- Revolutionary scroll wheel speeds you through long documents or switch to click-to-click for navigating lists, slides, and images. Rapid charging stand eliminates the need to change batteries.
- Dynamic keyboard display integrates an LCD making it easy to play music, use your calculator, receive incoming message notifications, and check the time and date. Soft, coated palm rest comfortably supports your hands.

B&H# LOMX5500 ..... **129.95**

Logitech

Internet 350 USB Keyboard

The perfect fit for today's stylish, black and silver desktops and flat panel displays. The keyboard features highly-polished side panels, silver-accented hot key buttons, a "Calculator" key, and Windows™ Start Key.

- Driver-free hot keys provide access to the Internet and e-mail, calculator, and controls such as play/pause and volume up/down.
- Spill-resistant design protects the keyboard from accidental spills

B&H# LOI350KBB **16.95**

G15 Gaming Keyboard

This unique gaming keyboard includes an LCD display to communicate key data related to your gameplay. The display can show, for example, what server your friends are using to play a game or alert you when a new game is ready. Allows you to create up to six macros that can automate game functions and processes to enhance your performance with one-button commands.

- Illuminated characters with a choice of three levels of brightness.
- Perform single keystrokes or complex macros with six fully programmable G-keys. Create macros on the fly, without having to pause the action.
- Intelligent cable management keeps the mouse, headset, and other cords out of the way by routing them through channels on the underside of the keyboard.
- Convenient one-touch controls for volume and media playback

B&H# LOG15GK **74.99**

ADESSO

IOGEAR

Mobile Digital Scribe

USB Digital Pen System

Perfect for students, legal and medical professionals etc., the Mobile Digital Scribe is an electronic pen that uses ordinary ink refill to write on any surface while recording your handwritten notes, memos or drawings for easy upload to any computer. Bundled Myscript OCR software (Windows only) converts this handwriting to fully searchable, editable text.

- No special notepad, digital pad, or ink is required
- Write on any paper, up to A4 (Letter) size
- Captures handwriting from any surface; recognizes 17 languages
- Editing capabilities allow you to modify your notes as necessary
- Export notes to JPEG format to share via e-mail or IM
- When the Digital Scribe is connected to a computer, handwritten text and drawings are displayed directly on the screen.

Mobile Digital Scribe *(B&H# IOMDS)*.....**83.95**

DANE-ELEC

ZPen Digital Pen

Ideal for classrooms, business and traveling, the ZPen offers a convenient and fast way to digitize and store all your handwritten notes. Simply place the included USB receiver at the top of your paper and write with the ZPen. When you're finished, connect the receiver to a PC via USB and transfer your content. The included software converts your handwriting into text format for word processing.

- Digitizes notes written on any type of paper
- Use for medical prescriptions, administrative forms, memos, etc.
- The ZPen receiver is a 1GB USB drive as well. Use it to store music, photos and other personal files.
- Keyword search function for your handwritten notes.

ZPen *(B&H# CAPSSK)*: For Windows only **178.95**

PaperShow Digital Writing Kit

CANSON

Designed for digital flipchart work and interactive presentations (PowerPoint), PaperShow is ideal for meetings, conferences and collaborative work. Simply write on the Papershow digital paper and see your notes projected onto a screen via Bluetooth between the Digital Pen and USB Key.

- Full-featured digital writing with various colors and thicknesses of pen stroke, perfect shapes and editing tools (eraser, undo).
- Add annotations and feedback to PowerPoint presentations as you present and save these for circulation to attendees.
- Use with projector and screen or plasma screen.
- Easier to use than a flipchart – no need to type up notes, simply share work via e-mail or save and print your meeting output direct from your PC.

PaperShow *(B&H# CAPSSK)*: For Windows only **178.95**

ADESSO

CyberTablet 6400 / 12000

6 x 4" and 12 x 9" Graphics Tablets

Ergonomically designed tablets with wireless drawing pen and a 3-button wireless scroll mouse for easy drawing, handwriting, sketching, coloring and picture editing. Naturally draw and write freehand graphics and text as comfortably as on real paper.

- Edit digital photos using the fast-moving and precise wireless pen — with 512 levels of pressure-sensitivity for natural brush control and the tablets fine resolution of up to 3048 lines per inch. Draw and paint, creating great looking artwork with the natural feel and amazing control of the pen.
- Sketch and write notes in Office XP. Mark up documents in Word, annotate presentations in PowerPoint.
- The tablet connects via USB and includes 12 (6400) or 16 (12000) function keys for easy access to automated tasks.
- Bundled software (for Windows) includes PhotoImpact, Free Notes, Power Presenter REII, Pen Soft Pro and Office Ink.

B&H# LOQOAF **104.99**

minoru 3D Webcam

The USB 2.0 Minoru 3D Webcam is a single piece with two cameras spaced roughly the same distance apart as human eyes, for the stereoscopic effect. This creates an anthropomorphic look that means users tend to look into the eyes of the camera as they light up. The Webcam has a multi-position stand that can sit or stand on a desk, or perch on a monitor. Viewers wear special colored glasses to see the 3D image, and five pairs are included—just in case you lose one (or four).

- Can be used with Windows Live Messenger, Skype, AOL instant messenger, OoVoo and other video conferencing packages.
- Can also be used to take still pictures or record 3D video for YouTube. It can also be used as a normal 2D Webcam.
- Outputs 800 x 600, 640 x 480 (VGA), 352 x 288, 320 x 240 pixels at 30 frames per second

B&H# PRMINORU **59.95**

MILX3000UPE **22.50**

CALIFONE

4100-USB
USB Stereo Headphone

Uniquely designed for use in educational settings, the 4100-USB features noise reducing earcups, perfect for learning situations where isolation and voice feedback is essential.
- Adjustable in-line volume control and flexible microphone with on/off switch.
- The unidirectional mic has a flexible gooseneck and built-in wind screen to reduce recording of extraneous sounds.
- Plug-and-Play USB eliminates the need for a soundcard. Works out of the box with Mac or Windows computers.
- Fully adjustable headstrap made with rugged ABS plastic and replaceable earcups make it perfect for classroom use.
- 10-foot cord means you don't have to worry about stretching the cord into tight situations. Reinforced connections to the headcups resists students or others from pulling the cords out.

BOSE

Companion 2 Series II
Multimedia Speaker System

Delivering clear audio from a computer, the speakers feature TrueSpace stereo signal processing to create wide stereo sound. Dual inputs let you enjoy two audio sources simultaneously—one to your computer, the other to a portable audio device. Also has a headphone jack for private listening.

BOC22 ..... **99.00**

BOSE

Companion 3 Series II • Companion 5
2.1 Multimedia Speaker Systems

Companion 3 Series II

The Companion 3 features a powerful 5.25" Acoustimass subwoofer and two satellite speakers powered by 2" drivers to give your music and gaming the rich sound they deserve. The speakers come fully assembled on stands for optimum performance and more usable desktop space. Wired control pod provides volume and mute control, plus headphone and auxiliary audio input.

The Companion 5 steps up with a single USB connection that links the system to your computer. No special software, sound card upgrade, adapters or complicated wiring needed. It also brings music, games, movies and other 5.1-encoded material to life with the performance you'd expect from a five-speaker system.

Companion 3 Series II (BOC22) **249.00**

Companion 5 (BOC5) **399.00**

Logitech

Bountiful Wi-Fi

BWRG1000 Long Range Wireless 802.11b/g Router

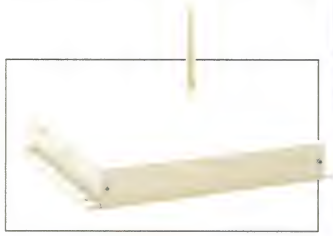

The most powerful wireless router allowed by US law, the 802.11b/g BWRG1000 can function as a router, bridge, access point, or repeater. Standard b/g clients can reliably connect to the BWRG1000 up to a quarter of a mile away. This range is achieved with standard 2.2dBi antennas which are removable for customized radiation patterns unique to any wireless install.

- Covering up to four times the area of standard routers, its ideal for large homes, hotels, multiple dwelling units, small- and mid-sized businesses, assisted living centers, warehouses, marinas, hot-spots and more.
- Rmote administration, VPN passthrough, 802.1x, DMZ hosting, port forwarding, MAC filtering, IP filtering, Quad SSID and much more.
- Security features include WPA2-Enterprise, WPA-PSK, RADIUS, WEP and MAC authentication.

B&H# BOBWRG1000 ..... **279.95**

BWAPG1000 Wireless Access Point

The BWAPG1000 is a reliable and affordable high performance 802.11b/g wireless access point, point-to-point bridge, point-to-multipoint bridge, and wireless repeater. It can obtain a strong signal at great distances and is PoE 802.3af compatible to ensure flexibility for any type of integration job.

- Performs at the highest level of output power allowed by the FCC
- Connect to the BWAPG1000 a quarter of a mile from the unit.
- Security includes WPA2-Enterprise, WPA-PSK, RADIUS, WEP and MAC authentication.
- Remote administration, VPN passthrough, 802.1x, MAC Filtering, Quad SSID andmore.

B&H# BOBWAPG1000 ..... **239.95**

D-Link

DWA-160 Xtreme N Dual Band USB Adapter

Stream HD video throughout your house, share files and go on line. When used with a Dual Band Router, the DWA-160 operates on two bands so you can avoid interference and stream away. Choose 2.4GHz or 5GHz for optimized HD video streaming. Wi-Fi Protected Setup™ push button for easy connection.

B&H# DLXDUSBA **74.95**

DIR-615 Wireless N Router

- IEEE 802.11g and IEEE 802.11n
- QoS Engine prioritizes traffic to enable enhanced gaming and phone calling (VoIP) experience
- Support for WPA™ and WPA2™ standards to prevent unauthorized access
- Dual active firewalls (SPI and NAT) prevent potential attacks from across the Internet.
- Quick Router Setup Wizard configures connection, wireless network settings and security features— so it's up and running in minutes.

B&H# DIDIR615 ..... **39.99**

DIR-655 Xtreme N Gigabit Router

Equipped with three external antennas, this router provides superior wireless coverage for large homes and offices, or for users running bandwidth-intensive applications. The DIR-655 includes a 4-port Gigabit switch that connects Gigabit wired devices for enjoying lag-free network gaming and faster file transfers. *(B&H# DIDIR655)* **94.95**

DIR-685 Xtreme N Storage Router

The DIR-685 combines a fast, far-reaching 802.11n Wi-Fi router with network attached storage (NAS) via built-in slot for 2.5" hard drive, print server and 3.2" LCD monitor for displaying digital photos and network diagnostics. Its upright design and touch sensitive buttons allow users to easily view the vibrant LCD screen that displays device status, digital photos, streamed video, weather forecasts and other information in up to 1.6 million colors. B*&H# DIDIR685* **239.99**

DIR-825 Xtreme N Dual Band Gigabit Router

The DIR-825 features two Wireless N bands, so users can check email and browse the Internet on the 2.4GHz band while simultaneously streaming high-definition (HD) movies and other media on the 5GHz band. The DIR-825 also features SharePort™ technology that allows users to share USB devices such as printers and storage drives with other computers on the network — in either a wired or wireless environment. SharePort turns the local USB port located on the back of the DIR-825 router into a fast and responsive virtual network port so users can access a range of USB devices regardless of their location in the home or office.

B&H# DLDIR825 ..... **129.99**

LINKSYS® by Cisco

WRT-54G2 Wireless-G Broadband Router

- Backwards compatible with legacy 802.11b devices.
- Wireless security (WPA2) and SPI firewall safeguard your home network and computers from most Internet attacks.
- Four standard 10/100Mbps RJ-45 Ethernet ports
- Push button setup feature makes configuration secure and simple
- Can be placed horizontally or wall-mounted

B&H# LIWRT54G2 ..... **49.95**

WRT-120N

Wireless-N Broadband Router

Same as above, except it features IEEE 802.11n (draft 2.0) to deliver twice the speed.

B&H# LIWRT120N **64.95**

WRT-160N

Wireless-N Broadband Router with MIMO

Same as above, plus it incorporates MIMO (Multiple in, Multiple Out) technology which actually uses the signal reflections that confuse ordinary wireless technologies to boost range and reduce dead spots.

B&H# LIWRT160N **79.95**

WRT-160NL

Wireless-N Broadband Router with Storage Link

Same as above, except the Storage Link feature also lets you connect a hard drive or flash-based USB storage device directly to your network to easily add gigabytes of storage. Access your music, video, or data files from any PC within your network, or securely through the Internet. Built-in media server streams to PCs or digital media adapters.

B&H# LIWRT160NL **99.95**

WRT-320N

Dual-Band Wireless-N Gigabit Router

Stepping-up from the WRT-160N, the WRT-320N has two Wireless-N radio bands so you can choose the one with the least interference in your area—2.4GHz or 5GHz band. It also includes a 4-port 10/100/1000 Gigabit switch that connects Gigabit wired devices for enjoying lag-free network gaming and faster file transfers.

B&H# LIWRT320N **109.00**

WRT-400N

Simultaneous Dual-Band Wireless-N Router

Same as the WRT-320N except the 5 GHz and 2.4 GHz bands are designed to work separately yet simultaneously, so you can easily customize your ideal configuration. For example, use the 2.4 GHz band to surf, email and print while keeping the less crowded 5 GHz band free for time sensitive traffic like music, gaming and high-definition video. (Also no Gigabit Ethernet, just 10/100Mbps RJ-45 Ethernet ports)

B&H# LIWRT400N **139.95**

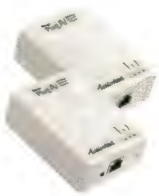

WRT-610N

Simultaneous Dual-N Band Wireless Router

Same as above, plus it features four 10/100/1000 Gigabit Ethernet ports, built-in Storage Link to transform any USB storage device into a NAS (networked attached storage), and a built-in Media Server which streams music, video, and photos to any UPnP compatible media adapter.

B&H# LIWRT610N **169.95**

Wired Networks

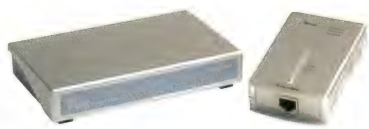

Actiontec MegaPlug AV 200Mbps Ethernet Adapter Kit

The MegaPlug AV 200Mbps allows you to extend your home LAN without the need for costly and time-consuming wiring. The kit includes two wall-plugged Ethernet bridges; each plugs into an AC wall outlet for network connectivity. The system can communicate at speeds up to 200Mbps, allowing you to leverage your home's electrical wiring to set up a network. You can even use it as part of a wireless network to help eliminate "dead spots" in coverage.

ACHLE2000301 ..... **99.95**

Actiontec MegaPlug

85Mbps Powerline 4-Port Hub and Ethernet Adapter Kit

The MegaPlug allows you to extend your home LAN without the need for costly and time-consuming wiring. The transceiver modules transmit network data over your home's electrical wiring system. The kit includes 2 transceiver units. The smaller unit features 1 port, ideally suited as the connection to your home router. The larger transceiver features 4 Ethernet ports, allowing you to connect multiple devices. Everything that you need to get started with HomePlug is included in the kit.

ACHLE085090 ..... **104.95**

LINKSYS Powerline AV Network Kit

Extend your home LAN without the need for costly and time-consuming wiring. The kit includes a transmitter and receiver module, giving you everything you need to get started. 128-bit AES link encryption for secure data transfer. The kit allows you to leverage your home's electrical wiring to extend the coverage of an Ethernet network. You can even use it as part of a wireless network to help eliminate "dead spots" in coverage. The receiver module features four Ethernet ports, allowing you to connect multiple devices without the need for a separate switch.

LIPLK300 ..... **129.95**

NETGEAR 85Mbps Wall-Plugged Ethernet Switch Kit

Extend your home LAN without the need for costly and time-consuming wiring. Simply connect the included Powerline adapter into your Internet router, and install 4-port switch in another room in your home. The two devices can communicate with at speeds up to 85Mbps, allowing you to leverage your home's electrical wiring to set up a network. You can even use it as part of a wireless network to help eliminate "dead spots" in coverage.

NEXEB1004100 ..... **119.95**

NETGEAR Wall-Plugged Ethernet Extender Kit

Extend your home LAN without the need for costly and time-consuming wiring. The kit includes two wall-plugged Ethernet bridges; each plugs into an AC wall outlet for HomePlug connectivity. It can communicate with other HomePlug devices at speeds up to 14 Mbps, allowing you to leverage your home's electrical wiring to set up a network. You can even use it as part of a wireless network to help eliminate "dead spots" in coverage.

NEXE102GNA **79.95**

IOGEAR

7-Port High Speed USB 2.0 Mini Hub

Offers seven Hi-Speed USB 2.0 ports for your high-speed connectivity needs. Provides a data transfer rate up to 480Mbps. Backward compatible with USB 1.1.

HA1192 ..... **129.95**

pinnacle Avid

PCTV HD Stick • PCTV HD Pro Stick

External USB HDTV Tuners

Bring digital HDTV to your PC with full DVR functionality. No more modifying your schedule to enjoy your favorite TV shows. Now, you can pause, timeshift and even automatically record all of your favorite shows – in SD or HD up to 1080i. They also include support for digital cable (ClearQAM).

- Network HDTV broadcasts are available over the air for free in most areas. All you have to do is connect the mini HDTV antenna to the card to receive the signal. In addition to digital TV, standard analog TV (NTSC) can be received via cable.
- The included TVCenter Pro software lets you not only watch TV, but also record it to your hard drive. It also turns your PC into a PVR with timeshifting: pause, REW or FF your favorite TV shows.
- Schedule TV recording by searching for keywords or using an electronic program guide. Schedule recording of an entire season of a TV show with a single click.
- Fully compatible with Windows Media Center-equipped laptop or PC

PCTV HD Pro Stick Step-up Features:

- Capture audio and standard definition video from your cable/satellite set-top box or camcorder with the included A/V adapter cable
- Includes remote control and high-gain telescopic antenna
- Stereo sound for both digital and analog TV, as well as stereo FM radio reception
- Automatically record shows to your hard drive in MPEG-1/2 or DivX formats, or direct-to-DVD

PCTV HD Stick *(PIPCTV801ESE)* **68.95**
PCTV HD Pro Stick *(PIPCTV801E)* **99.95**
PCTV HD Card Same as the HD Pro Stick except in a PCI card version *(PIPCTVHDC)* **74.95**

DYMO

LabelWriter 450 • LabelWriter 450 Turbo • LabelWriter 450 Twin Turbo

USB Label Printers for Windows and Macintosh

Print address labels, shipping labels, file folder labels, name badges, inventory labels, and others—without the hassle of using sheet labels on a standard desktop printer. The LabelWriter 450 can print up to 51 labels a minute and includes software allowing you to print labels directly from commonly-used office applications (Word, Excel, Outlook, and QuickBooks) and verify US addresses and ZIP+4 codes via the Internet.

Stepping up, the LabelWriter 450 Turbo can print 71 labels a minute and also includes software that allows you to print USPS-approved postage from your desktop.
Otherwise the same, the 450 Twin Turbo features two label spools to accommodate 2 types of labels simultaneously; select the appropriate one for your printing needs, or load the same media in both spools for uninterrupted printing of large jobs.

- Print up to 51 or 71 (Turbo models) labels per minute at up to 600 x 300 dpi resolution
- Over 60 label styles and layouts
- Thermal printing technology eliminates the need for ink or toner
- Quick Print widget lets you quickly create and print a single label
- Bundled DYMO Productivity software suite features DYMO Label 8, DYMO File, and Address Fixer software.
- DYMO File LT software converts paper documents to digital files.

PRIMERA TECHNOLOGY, INC.

LX400 • LX810 Color Label Printers

Print lables for private label water, weddings, wineries, bath, body, cosmetics, marketing and more. Labels can include full-color photos, illustrations, graphics, text and bar codes. And, depending upon the quantity you print, the price per label will be significantly less than labels printed on flexo or offset.
Incredible 4800 dpi printing delivers results that far exceed virtually any other on-demand print method available. Four built-in print resolutions let you select the combination of print quality and speed that fits your application best. The LX400 prints labels as narrow as 0.75" and up to 4" wide. Otherwise the same, the LC810 can print labels up to 8.25" wide and has six print resolutions;.

- Mix any combination of text, graphics, photos, illustrations and even bar codes.
- Include NiceLabel™ SE Design Softwarefor your basic label design needs. You can also use applications like Photoshop and Illustrator.
- Print onto many label, tag and ticket materials, including inkjet coated high-gloss, semi-gloss and matte labels.
- Creating labels takes just minutes on Windows XP/2000/Vista or Mac OS X
- Optional, field-installable Media Cutter attaches to the front of the printer and slides down and out of the way when not needed.

Impact S305

Wireless All-in-One Scanner, Copier and Inkjet Printer

Features Vizix patented ink technology with precise ink drop placement to produce sharp text and true-to-life photos. Vizix also produces print speeds up to 33 ppm black and 30 ppm color with 4x6" photos in as little as 24 seconds. Individual cartridges allow you to replace only the color you need.

- Print from multiple computers anywhere in your home or office with wireless 802.11g networking.
- Save money by replacing only the individual ink cartridge that runs out. Optional XL replacement ink cartridges increase your efficiency, save resources and lower printing costs.
- Built-in memory card slot and Pictbridge allows photo and file printing directly from memory cards, digital cameras and portable memory devices.
- 48-bit flatbed scanner with 1200 x 2400 dpi optical resolution.
- Make copies with 25-400% reduction/enlargement.
- 2-line, 128 x 32 pixel backlit LCD gray scale display
- Print with confidence—you're covered by Lexmark's 3-year Warranty with lifetime phone support

Prospect Pro205

Wireless All-in-One Fax, Scanner, Copier and Inkjet Printer

Features Vizix patented ink technology with precise ink drop placement to produce sharp text and true-to-life photos. Vizix also produces print speeds up to 33 ppm black and 30 ppm color with 4x6" photos in as little as 24 seconds. Print from multiple computers anywhere in your home or office with wireless 802.11g networking Comes with unmatched protection—a 5-year warranty and lifetime priority phone support.

- Included individual XL cartridges save resources and lower printing costs.
- Efficiently handle large copy, scan and fax jobs with the 35-page automatic document feeder.
- Save money with automatic 2-sided printing, which can cut your paper consumption up to 50%.
- Built-in memory card slot and Pictbridge allows photo and file printing directly from memory cards, digital cameras and portable memory devices.
- Vibrant 2.4" color LCD allows you to view and enhance photos prior to printing
- Included business card scanning software synchs with popular contact management applications
- Individual ink cartridges allow you to replace only the color you need.

Interpret S405

Wireless All-in-One Fax, Scanner, Copier and Inkjet Printer

Same features as the Impact S305 (above), plus it lets you efficiently handle large copy, scan and fax jobs with the up to 35-page automatic document feeder.

Intuition S505 Wireless All-in-One Scanner, Copier and Inkjet Printer

Same features as the Impact S305 (above), plus it features a vibrant 2.4" color LCD that allows you to view and enhance photos prior to printing for greater confidence in your output. It also saves you money—and the environment with automatic 2-sided printing, which can cut your paper consumption up to 50%.

Interact S605

Wireless All-in-One Scanner, Copier and Inkjet Printer

Same features as the Intuition S505 (above), except it trades the 2.4" LCD for a 4.3" web enabled touch screen that allows you to create customized 1-touch SmartSolutions to simplify common tasks, such as scan to email. Also, get the news, view your favorite photo sharing sites and discover the weather - directly from your printer.

Prevail Pro705

Wireless All-in-One Fax, Scanner, Copier and Inkjet Printer

Same features as the Prevail Pro705 (above) plus, it trades in 802.11g Wi-Fi for 802.11n and Ethernet connectivity. With Wireless-N, enjoy up to 3x the broadcast coverage of Wireless-g and faster data transfer speeds. And with Wi-fi Protected Set-up you'll experience a fast and secure 2-step setup. You'll also visit the print less frequently, as it comes with a 150 sheet maximum input capacity, which means less time refilling paper.

Prestige Pro805

Wireless All-in-One Scanner, Copier and Inkjet Printer

Same as above except without the fax, however, the Prestige Pro805 incorporates a large 4.3" web enabled touch screen that allows you to create customized 1-touch SmartSolutions to simplify common tasks, such as scan to email. Also, get the news, view your favorite photo sharing sites, and discover the weather - directly from your printer.

Platinum Pro905

Wireless All-in-One Fax, Scanner, Copier and Inkjet Printer

Same as above plus it adds fax capability and a second 150-sheet tray for a 300-sheet maximum input. The two trays also allows 2 types of media to be loaded simultaneously. Efficiently handles large copy, scan and fax jobs with the 35-page automatic document feeder.

DYMO

DiscPainter CD/DVD Printer

No more sticky labels or damaging your media with labels that peel off. And no more illegible handwriting from using a marker to label your disc. Compatible with Mac and Windows, DiscPainter prints directly onto discs, quickly and easily. It uses patented RadialPrint™ Technology to print directly on the disc as it spins, printing out impressive-looking discs in no time. Use the included Discus for DYMO software with its host of ready-made canvases to create inspired designs, or develop your own using Photoshop, InDesign, Illustrator, and QuarkXPress

- Print photos, designs and text at 600 dpi in 60 seconds and 1200 dpi in about 3 minutes. Print from edge to center hub on all inkjet printable discs—even mini (80 mm) discs
- Three print quality settings (Draft, Normal, Best) to easily optimize quality for the results you want
- Includes nine ink density controls to optimize ink coverage on matte, glossy or colorized CDs or DVDs
- Easily choose fonts, symbols, stamp art and type effects. Photo collage tool lets you include as many as 32 photos in their design

#DYDD **239.95**

PRIMERA TECHNOLOGY, INC.

Primera Bravo II

CD/DVD Duplication System

Bravo II combines automatic, robotic-based CD or DVD duplication along with full-color, 4800 dpi disc printing – all in one compact desktop unit. Burn and print 25 discs at a time, or up to 50 in Kiosk Mode. Ideal for independent filmmakers, musicians, or anyone who needs to distribute professional DVD and CD content.

- The drive can write a full DVD+/-R in under ten minutes and a full CD-R in under five minutes.
- The robotic arm, powered by Bravo's AccuDisc technology, prevents double feeding of discs into the drive by using advanced LED optics instead of mechanical components.
- Optional business card and mini CD adapter kits allow use of non-standard media in addition to the normal 120mm discs. Optional PTPublisher NE for connecting to networks.
- Includes burning and printing software for Windows and Mac OS.

#PRB2DVD **1734.95**

Primera BravoPro CD/DVD Disc Publisher

Automatically burn and print up to 100 CDs or DVDs at a time at up to at up to 4800 dpi. Aleratec

1:1 DVD/CD Copy Cruiser Pro LS

Standalone DVD/CD Duplicator with Lightscribe Technology

Duplicate DVDs and CDs, and then print custom labels on each, all in the same machine. This stand alone DVD/CD duplicator features LightScribe Laser printing technology built into the DVD Recorder allowing you to print your own silkscreen quality labels with graphics and text (software is included), without a printer.

- Can function as a 1:1 DVD/CD Duplicator or an external DVD/CD Recorder. The duplicator features a single DVD-ROM drive to read media and a single dual-layer DVD burner to write media.
- Use as a standalone duplicator or connected to a computer via USB 2.0.
- Provides optimum control with selectable functions and powerful control features
- Supports CD-R at 40x, DVD+R and DVD-R at 20x, and dual-layer DVD discs at up to 8x speed.

#AL11DVDCCPHQ **299.95**

DVD/CD RoboRacer SA

Standalone 100-Disc Capacity Duplicator

A stand-alone CD/DVD publishing system, the duplicator features a 100-disc capacity and 320GB of storage capacity for disc image storage. It supports automatic duplication, featuring an integrated control panel for operation. The dual-layer DVD burner also supports CD burning.

- Batch mode processing can create copies from multiple source discs
- Writes DVDs at 20x speed, and CDs at 48x
- Load disc images onto the internal drive from a computer via USB 2.0

#ALDVDCD **729.95**

MICROBOARDS Technology

QD DVD-123 1:3 CD/DVD Duplicator

Affordable performance and reliability makes the QD DVD-123 a trusted product in the service bureau industry. Configured with 3 fast (48x CD-R / 20x DVD-R/+R) recorders and easy-to-use four-button touch panel. Simply insert the master in the top drive, blank discs in the bottom drives and burn.

- No hard drive required, since duplication is on an as-you-go basis.
- LEDs show recording process status, minimizing faulty discs.
- USB 2.0 port lets you use the computer as the source for burning discs rather than a master disc.

#MIQDDVD123 ..... **399.00**

CopyWriter CD/DVD Duplicator

1:5 CD/DVD Tower Duplicator

The 1:5 CopyWriter features five CD/DVD recorders with an intuitive, menu-driven two-line display and a 5-button control interface to make copying a simple procedure. Insert a master in the top drive, place blank discs in the remaining drives, and burn up to 5 discs simultaneously.

- 48x CD-R / 20x DVD-R/+R recorders
- Disc verification mode and adjustable recording speeds to suit each individual project duplicated.

#MIDVDP516 ..... **569.00**

CopyWriter PRO LightScribe Duplicator

1:10 CD/DVD Tower Duplicator & Printer

The 1:10 CopyWriter Pro features 10 CD/DVD recorders and a built-in 250GB hard disk drive to store multiple master disc images and label designs, or extract audio tracks and mix your own discs. When the job is done, turn the discs over and print ten labels all at once with LightScribe's laser-etching technology. Don't worry about purchasing ink or ribbon again!

- Intuitive, menu-driven display and 5-button control interface
- Disc verification mode and adjustable recording speeds.
- Standalone operation or with a computer via USB 2.0 using an optional add-on module (LightScribe disc printing requires computer control)
- Includes LightScribe Label Designer and Zulu2 software for Windows

MemoryVue MF-8115

15" Wireless Digital Picture Frame

Windows Vista-capable right out of the box, the MF-8115 lets you view photos located on your PC's hard drive as well as an online photo-sharing site, and display the files. It can also be connected via USB 2.0 or an 802.11 Wi-Fi. Compatible with a wide array of photo, video and audio file formats. Reads media files from CompactFlash or Secure Digital/MMC digital camera memory cards - use an included adapter for Memory Stick, Memory Stick PRO, and xD cards. Present a photo slideshow accompanied by music that is broadcast from its built-in stereo speakers. The LCD display can also be removed from the frame, and any other standard picture frame can be used to visually blend in with a home's interior design. Control and configure the frame from onboard controls or the included wireless remote.

DIMF8115P **249.95**

MemoryVue MV-1500 • MemoryVue 1700

15- and 17-inch Multi-function Digital Picture Frames

Portable and easy to use media presenters, they are a great way to show off digital images, video and audio without the need for a complete home entertainment center. The 15" or 17" high-quality TFT color LCD display (1024 x 768 resolution) appears bright and sharp under most viewing conditions.
They have slots for CompactFlash, SD/MMC and Memory Stick cards for direct transfer of files from most digital camera media. Acceptable file formats include JPEG, MP3, and MPEG video. Media formats can combine to generate slideshows with music broadcast through the built-in stereo speakers. Easy-to-use menu-based controls can be accessed via onboard controls or with the included IR wireless remote control. They also feature interchangeable frames to match any interior design, and a matted border surrounding the LCD.

ALITY **PF-T80R**

8" Digital Picture Frame, Touch Frame (Black)

The PF-T80R brings the convenience of touch screen navigation to a digital display. The 8" TFT LCD screen with 800 x 600 resolution is capable of presenting photos, audio and video files held on a compatible memory card, or its internal 256MB memory. Orientation sensor will automatically rotate the images based on its horizontal or vertical positioning. When turned off, the screen has a polished surface that acts like a mirror, so if viewing multimedia files gets dull, you can stare at yourself for a bit...
Other features include audio/video outputs, built-in stereo speakers, built-in rechargeable battery, and onboard clock, calendar, and scheduler. Includes wireless remote control.

ALFD8 ..... **149.95**

mediastreet

eMotion 10.4" Digital Picture Frame with Electric Blue LED Frame

Stunning 10.4" (640 x 480) color LCD display with a 4:3 aspect ratio to show off digital images. With its 5-in-1 card slot that allows direct viewing of JPEG files, the eMotion is a great way to share images from a day of picture taking. Transfer photos, music and movies from a PC via USB and save to the 256MB of internal memory. Another USB port is capable of connecting directly to a USB hard drive or USB flash drive for a source of media files.

- Comes with a non-interchangeable acrylic frame with an embedded blue LED ambient light strip that lights up, and is both striking and complementary to many styles of décor.
- Display photos in Mosaic mode in addition to just one at a time - you can display 2, 3 or 4 photos at once depending on whether they are vertical or horizontal
- Can also print from the frame to a printer • Automatic slide show begins upon camera card insertion
- Operates from buttons on the unit or with the included IR wireless remote

Canon

PowerShot A480 (10 Megapixels)

The PowerShot A480 is designed for those on a budget, while offering the perfect balance of features for anyone who just wants to take the camera out of the box and start taking pictures. It features a 3.3x optical zoom (37-122mm equivalent), Canon's DIGIC III imaging processor for sharper images and improved functionality, and a high-resolution 2.5" LCD screen. Available in four colors (red, blue, silver and black), the A480 is powered by two "always available" AA batteries.

- Canon Face Detection Technology automatically sets focus (AF), exposure (AE), flash (FE) and white balance (WB)
- Motion Detection Technology reduces blur by calculating movement and selecting ideal exposure and ISO settings.
- Photo modes (My Colors) include Vivid, Neutral, Sepia, Black & White, Custom
- 14 shooting modes (including 12 Special Scene Modes), so you're ready for any shot that comes along.
- Explore their creative side with manual overrides for ISO speed, exposure compensation and white balance
- Direct connection to SELPHY Photo Printers, or to PIXMA Photo Printers and PictBridge-compatible printers via USB 2.0

PowerShot SD940 IS Digital ELPH (12.1 Megapixels)

Emerging from your shirt or pants pocket, or purse like a sleek little jewel, the PowerShot SD940 IS makes a statement before you even take a picture. It says you're into hot design and cool technology. It features a 28mm wide-angle lens with 4x optical zoom lens (28-122mm equivalent and optical Image stabilization offering versatility when shooting in the field. 720p HD movie shooting capabilities plus HDMI output connector for easy playback of video and photos on an HDTV. A large, crisp 2.7" PureColor System LCD with a wide viewing angle, great for sharing photos and video with friends. Timeless colors of muted metallics in blue, black, silver and brown to match any mood.

- Record video in beautiful high definition (1280 x 720 pixels). It also features a mini-HDMI connector allowing you to enjoy HD movies and still photos on a large screen HDTV. You also have the ability to display up to 130 thumbnails at once.
- Improved Smart AUTO Mode intelligently selects the proper settings for the camera based on 22 predefined shooting situations.
- 2.7-inch PureColor System LCD screen for excellent control when framing your shots. The PureColor System LCD offers spectacular color, resolution and contrast even when viewed at an angle. The screen is highly durable and easy to see in any light with a scratch-resistant, anti-reflective coating. It also features Night Display for easy viewing in low light.

Blue *(#CAPSSD940BL)*, **Silver** *(B&H# CAPSSD940S)*, **Black** *(B&H# CAPSSD940B)*, **Brown** *(B&H# CAPSSD940BR)*.....**299.95**

PowerShot SD980 IS Digital ELPH (12.1 Megapixels)

The PowerShot SD980 IS steps-up from the SD940 IS with a large 3" wide touch panel PureColor System LCD with a cool cutting-edge interface, plus an updated Active Display for quickly switching between images during playback with a shake of the camera. It also lets you get more in your shot with a 5x optical zoom with ultra-wide 24mm lens (to 120mm equivalent), plus Canon's Optical Image Stabilizer.

Step-up features from the SD940IS IS:

- The 3.0-inch wide touch panel PureColor System LCD screen provides an alternative to dials and buttons. With Active Display technology, a quick shake of the camera prompts images to play back, one after the other. When the camera is tilted while advancing the images, the advance speed changes according to the tilt angle. Additionally, by quickly moving the camera forward, you can jump between Focus Checker frames when reviewing still images. Using the same action, you can pause or restart a movie currently playing.

Blue *(B&H# CAPSSD980BL)*, **Silver** *(B&H# CAPSSD980S)*, **Gold** *(B&H# CAPSSD980G)*, **Purple** *(B&H# CAPSSD980P)*.....**329.95**

PowerShot SD970 IS Digital ELPH (12.1 Megapixels)

The PowerShot SD970 IS features cool curves, powerful features, expanded editing options, and 720p HD capability. 5x optical zoom lens (37-185mm equivalent) makes it easy to get that inspiring, emotive close-up. Large 3" PureColor LCD II (461,000 pixels) with anti-glare, anti-scratch coating.
Blink Detection alerts you after a shot has been taken, that a subject had closed eyes. Smart AUTO intelligently selects the proper settings for the camera based on 18 predefined shooting situations. While Active display technology switches between images during playback with a shake or tilt of the camera.

- DIGIC 4 Image Processor with evolved Face Detection Technology and Face Detection Self-timer.
- Shoot 720p HD video, plus HDMI output for easy playback of video and photos on a large screen HDTV.
- Zoom Blur allows users to zoom during exposure, thus providing a haze-like effect to the image. Creative Light Effect allows you to shoot pictures by converting the light from light bulbs and sparks from fireworks into various shapes, such as stars and hearts.

PowerShot SX20 IS (12.1 Megapixels)

The super-zoom, compact point-and-shoot PowerShot SX20 IS delivers super high quality photos at any focal length. Featuring an incredible 20x optical zoom lens, optical image stabilization, UD glass, and high ISO capability. It also features DIGIC 4 and improved Smart AUTO which selects the proper settings for the camera based on 22 predefined shooting situations.

- 20x optical zoom lens (28-560mm equivalent) can shoot any scene from wide-angle to telephoto. The camera uses a VCM (Voice Coil Motor) for high-speed, quiet, energy-efficient lens movement with precise control. Focal length is conveniently indicated on the lens barrel.
- 2.5" Vari-angle LCD for flexible viewing at nearly every angle, plus a viewfinder for more options.
- Powered by four "always available" AA batteries for convenience
- The 20x optical zoom can be used to shoot 720p HD movies with stereo sound.
- HDMI output for easy playback of video and photos on a large screen HDTV.
- 24 shooting modes (including 11 Special Scene Modes) are easily accessible through an SLR-style mode dial on top of the camera.

PowerShot SX20 IS *(B&H# CAPSSX20)* **399.95**

PowerShot S90 (10 Megapixels)

Slim and stylish, the PowerShot S90 offers professional imaging technologies and superior manual controls in a lightweight pocket-sized form factor. The 10MP CCD sensor coupled with Canon's DIGIC 4 Image Processor dramatically increases light sensitivity while reducing noise. High ISO 3200 capability makes it possible to capture critical shots even under poor lighting conditions. The bright, sharp f/2.0 lens brings dramatic depth-of-field characteristics to portraits and low light photography. Advanced Face Detection, Optical Image Stabilization, and a slew of custom scene modes keep all of your subjects looking their best.

- 3.8x optical zoom (28-105mm equivalent) can shoot any scene from wide-angle to telephoto. The camera uses a USM (Ultrasonic Motor) for high-speed, quiet, energy-efficient lens movement with precise control. Focal length is indicated on the lens barrel.
- Customizable zoom ring lets manual shooters take control of focus, exposure, ISO, zoom, or white balance settings.
- Large 3" PureColor LCD II (461,000 pixels) with multiple coatings to prevent interference from dust, scratches and reflections.
- With a maximum setting of ISO 3200, blur and camera shake are notably reduced for the ultimate in sharpness and clarity. In Low Light mode the camera automatically adjusts the ISO speed from ISO 320 to ISO 12800 in relation to ambient brightness, subject movement and camera shake.
- RAW mode lets you shoot images without compression giving you clearer images and complete creative control in editing. Simultaneous record both RAW and JPEG images while shooting.

PowerShot S90 *(B&H# CAPSS90)* **429.95**

Canon

PowerShot G11 (10 Megapixels)

The PowerShot G11 features a 5x wide-angle zoom lens, variety of shooting modes, and a 2.8" Vari-Angle PureColor System LCD. Add to that Canon's new High Sensitivity System and high-speed ISO for incredible image quality, and this compact digital camera is truly a groundbreaker.

Designed for those looking for a pocket-sized camera with SLR functionality, it offers easy access to heavily used functions with two mode dials for adjusting ISO and exposure compensation, and a full range of shooting and recording modes, including RAW + JPEG for ultimate creative control when editing images. A host of optional accessories, including Speedlite flashes, an underwater housing and a tele-converter lens are available to provide further photographic flexibility.

- 2.8" vari-angle PureColor System LCD (461,000 pixels) makes framing and reviewing photos and video an absolute pleasure. The LCD offers spectacular color, contrast, and detail at virtually any angle. Adjustable, the vari-angle allows you to compose up high, down low, and everywhere in between. Also offers a real-image optical zoom viewfinder
- 5x optical zoom (28-140mm equivalent) captures everything from sweeping landscapes to stunning portraits with ease. Advanced optical technologies ensure consistent brightness and clarity throughout the zoom range, while special coatings minimize ghosting and flare.
- Optical Image Stabilizer Technology keeps images steady and blur-free all through the zoom range - even in low light. Because it is an optical system, more corrective movement is allowed and there is no degradation of image quality.
- Dual Anti-Noise System combines a high sensitivity 10-megapixel image sensor with Canon's enhanced DIGIC 4 image processing technology to increase image quality and greatly improve noise performance by up to 2 stops (compared to PowerShot G10).
- i-Contrast technology revents high-light blowout while retaining low-light detail – ideal for difficult lighting situations.
- Increased light sensitivity with a maximum setting of ISO 3200 reduces camera shake and subject movement for crisp photos with spectacular sharpness and clarity. In Low Light mode, you can shoot up to ISO 12,800 in reduced 2.5MP resolution at 2.4 fps to capture brilliant shots indoors without a flash
- Built-in Neutral Density (ND) filter decreases light levels by 3 stops allowing creative control in bright conditions.
- Boasts a flash synchro speed of 1/2000 second, reducing the possibility of overexposed bright scenes.
- A real time histogram displays brightness levels on the PureColor LCD screen, so photographers can easily view conditions and change settings when shooting.
- DIGIC 4 processor improves the overall camera performance.
- HDMI output for viewing still images on an HDTV.
- RAW mode lets you shoot images without compression giving you clearer images and complete creative control in editing. Can simultaneous record both RAW and JPEG images while shooting.
- Improved Smart AUTO intelligently selects the proper setting for the camera based on 22 predefined shooting situations.
- 26 shooting modes including 17 Special Scene modes.

Kit includes 3 different styles of lens rings which protect the adapter threads of the G10 or G11 when not in use **26.95**

PowerShot G11 and Optional Flash

The PowerShot G11 is compatible with the Speedlite flash series intended for all EOS series SLR cameras. Attach a Speedlite flash to the hot shoe, then you can set and control the flash on the "Flash Control" menu in the camera. With a Speedlight, the G11 is given extra functions such as autoflash metering, FE lock and Flash exposure compensation; continuous shooting with external flash. Also Canon's Speedlite Transmitter ST-E2 enables you to have multiple slave flashes and wireless control.

CASIO

EXILIM EX-Z33 (10.1 Megapixels)

Just 0.71" wide, the EXILIM EX-Z33 combines a stylish, slim body with high-powered features that allow on-the-go photographers the ability to capture a memorable moment where ever they are. It features 3x optical zoom lens and a quick access dedicated movie button that allows users to record widescreen movies with a 16:9 aspect ratio.

- Automatically detects people's faces, so you can take focused and beautifully exposed pictures of the faces of your intended subjects.
- Movies can be recorded and saved using the ideal size and quality settings for the world's most popular video sharing site, YouTube™. Recorded movies can be uploaded to YouTube™ using the included computer software.
- Easy Mode helps beginners become an expert with common settings. Using Easy Mode, photo settings are restricted to just image size, flash on/off and self timer, and these are displayed on a simplified menu screen.
- The camera is compatible with commercially available SD card type Eye-Fi wireless LAN cards. When an Eye-Fi card is inserted in the camera, its presence is confirmed on the LCD monitor. The transfer of image data is also displayed on the monitor.

Available in Black *(#CAEXZ33B)*, Pink *(#CAEXZ33P)*, Vivid Pink *(#CAEXZ33VP)*, Silver *(#CAEXZ33S)*, Blue *(#CAEXZ33BL)* **119.95**

EXILIM Zoom EX-Z90 • EXILIM Zoom EX-Z450 (12.1 Megapixels)

Equipped with Intelligent AF that can detect even a non-human photographic subject, the EX-Z90 and EX-Z450 can automatically determine the focus and exposure area by simply pointing the camera at a desired shot .By simply pointing the camera at a desired shot, Intelligent AF ensures a focused, crisp picture without an out-of-focus subject. Taking pictures of your family pet or even beautiful scenery can be done in a snap, utilizing Intelligent AF to help minimize the number of photos that need to be taken to get a perfect picture. Thanks to the high-speed image processing technology and image analysis technology of the EXILIM Engine 4.0, users can enjoy taking quality photographs with ease.

In addition, Casio's unique Dynamic Photo function, for composite moving image creation, is faster and easier to operate, allowing users to produce animated electronic greeting cards and other digital creations.

- When the camera is pointed at a desired shot, the Intelligent AF function automatically detects the photo subject even if it is not a human face, and determines the focus and exposure area accordingly.
- Landscape Mode for taking beautiful scenery shots. Users can choose between the Vivid Landscape option, which enhances only impressive colors, or the Mist Removal option, which produces clearer pictures when the atmosphere is misty or hazy.
- Makeup Mode helps create beautiful pictures of people's faces. This function ensures that faces are correctly focused and well exposed, adjusts the smoothness of skin, and softens facial shadows caused by sunlight.
- The EX-Z450 (only) automatically detects difficult lighting situations, such as night and backlit scenes and then makes the most appropriate settings.

The 12.1-megapixel **Zoom EX-Z90** features a 3x optical zoom and offers advanced based performance and a wide range of functions. The camera's stylish design creates a fashion accessory for users that can fit in your pocket, clutch or the palm of your hand. Available in Black *(#CAEXZ90B)* and Pink *(#CAEXZ90P)* **149.95**

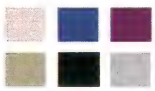

The 12.1-megapixel **Zoom EX-Z450** is built with a stylish design, has a wide-angle 28mm 4x optical zoom lens, and incorporates a CCD-shift image stabilization mechanism. Available in Champagne *(#CAEXZ450C)* **199.95**

CASIO

EXILIM EX-S5 (10.1 Megapixels)

Measuring just 3.8 x 2.2 x 0.7" (WHD), the 10.1-megapixel EX-S5 features a 3x optical zoom lens (35.5-106.5mm equivalent), widescreen 2.7" LCD monitor, and a variety of scene modes including face detection and YouTube Capture.

- As well as the rectangular focusing frame usually displayed on the LCD monitor, users can choose designs such as a heart or a butterfly. When in focus a beautiful heart can be displayed, and when correct focus isn't achieved the heart pattern breaks up.
- Menu screens can be freely selected from a total of six colors
- Shooting information is shown in an "operating panel" on the right hand side of the screen, which makes it easy to quickly change camera settings while shooting.

Blue *(B&H# CAEXS5BL)*, **Black** *(B&H# CAEXS5B)*, **Gold** *(B&H# CAEXS5G)*, **Pink** *(B&H# CAEXS5P)*, **Purple** *(B&H# CAEXS5PU)*, and **Silver** *(B&H# CAEXS5S)*.....**149.95**

EXILIM EX-S12 (12 Megapixels)

A stylish 12-megapixel camera, the EX-S12 features 3x optical zoom (36-108mm equivalent), 270-image battery life, and 2.7" Super Clear LCD for wide viewing angle and high brightness. Also offers Face Detection, Auto Best Shot and 41 Best Shot scenes, and HD movie recording. Dynamic Photo makes it easy crop a moving subject out of a series of images and insert it into other images, right on the camera.

- Anti-shake DSP raises the sensitivity and shutter speeds reducing the chance of image blur due to hand and subject movement.
- Control panel can be customized by selecting up to eight functions to be included on it. This means the features you use the most are always at your fingertips.
- Auto Shutter feature decides the optimum timing and releases the shutter automatically. Releases the shutter when it detects a smile; or when the camera detects that the camera and subject are still.
- Records movies at an optimal size for uploading to YouTube. Included software makes uploading quick and simple. Upload pictures via a wireless network with an optional Eye-Fi Wireless card.

EXILIM EX-FS10 • EX-FC100 (9.1 Megapixels)

Slim and compact, the 9.1-megapixel EX-FS10 and EX-FC100 feature high-speed burst shooting faster than an SLR camera. They offer a high-speed 30 shot-per-second burst rate and high-speed movies at a maximum of 1000 fps. Otherwise the same, the EX-FS10 is a card-sized camera just .64" thin with a 3x optical zoom (38-114mm equivalent) and the EX-FC100 is a compact camera with a 5x optical zoom (37-185mm equivalent) that fits perfectly in the palm of the hand.

- Shoot up to 30 frames per second. This allows you to capture up to 30 images with a single press of the button, then save the best pictures to capture the perfect moment.
- 1,000 frame-per-second High Speed Movie capability lets you shoot ultra slow-motion movies at speeds that were only available on super expensive, pro-level cameras. Settings for 210 fps, 420 fps and variable 30-210 fps are also available. Also shoots 1280 x 720 HD movies at 30 fps.
- Pre-record function lets you take pictures before you fully press the button. Stores up to 30 images in a buffer on the camera so you never miss the action.
- Record videos in the YouTube Capture Mode, and upload using Casio's YouTube Uploader software
- Upload pictures via a wireless network with an optional Eye-Fi Wireless card. They provide a display directly on the camera for working with your Eye-Fi Wireless card.

EXILIM EX-FC100: White *(B&H# CAEXFC100W)*, Grey *(B&H# CAEXFC100B)*.....**329.99**

EXILIM Hi-Zoom EX-H10 (12.1 Megapixels)

Ultra-thin (less than an 1" thick), the EX-H10 packs a 10x optical super wide-angle zoom lens, large 3" LCD monitor and a CCD-shift image stabilization mechanism into its compact body. It can also capture beautiful landscape photographs, record beautiful 1280 x 720 HD movies and can take up to 1,000 shots on a single battery charge.

- 10x ultra wide angle zoom (36-432mm equivalent)
- Makeup Mode ensures that faces are correctly focused and well exposed, adjusts the smoothness of skin and softens facial shadows caused by sunlight.
- Automatically detects difficult lighting situations, and adjusts to the most appropriate settings.
- Dynamic Photo function lets you extract images of a moving subject and combine them with a still image to form a new background. A unique digital camera image where only the main subject in the photo is moving can be created using just the camera, with no editing on a computer.
  - Enlarge or reduce the size of the cut-out subject to suit the still image on which it will be placed
  - A Dynamic Photo can be converted into a Motion JPEG movie file right on the camera
  - Using bundled software, users can transfer still images from a computer to create a Dynamic Photo

EXILIM EX-H10 *(B&H# CAEXH10B)*.....**299.95**

EXILIM EX-FH20 (9.1 Megapixels)

The remarkable EX-FH20 is capable of ultra high-speed burst shooting at 40 fps and can record high speed movies at up to 1,000 fps. This allows users to catch each decisive moment, and even capture motion that the human eye cannot ordinarily perceive. Other features include 20x optical zoom lens (26-520mm equivalent), 3" Super Clear LCD and electronic viewfinder, and HD Movie function that records 1280 x 720 high definition video at 30 fps.

- For simplified controls, all shooting mode settings on a single dial
- CMOS shift anti-shake function to support power-zoom shots.
- Seven burst settings to capture 7-megapixel (3072 x 2304 pixel) images at up to 40 fps.
- Record high speed motion for ultra slow motion playback. Select from 210, 420 or 1000 fps. Switch from 30 fps to high speed recording at 210 fps during recording at the touch of a button.
- High speed anti-shake function corrects images by automatically synthesizing multiple images captured during high speed burst shooting.
- Shoot clear and beautiful high speed night shots with or without a tripod.

EXILIM EX-FH20 *(B&H# CAEXFH20)*.....**449.95**

EXILIM Pro EX-F1 (6 MP)

Incorporating a high speed 6-megapixel CMOS sensor and a high speed LSI processor, the Exilim Pro EX-F1 achieves an ultra-high speed 60 frames per second (fps) burst rate for still images, together with 1,200 fps high speed movie recording. It features an impressive 12x zoom (36-432mm equivalent) with optical stabilization, 2.8" LCD and electronic-viewfinder (EVF).

- Breathtaking 60 fps burst rate (7 fps with flash) and 1/40,000 sec. top shutter speed. The rate can also be varied from between 1 and 60 fps while shooting. For example, shoot 60 shots per second for one second, or 5 shots per second for 12 seconds.
- 60 images can be saved in the camera's buffer memory even before the shutter button is depressed
- Record full 1920 x 1080 HD movies and output to an HDTV via HDMI output (cable required)
- Record high speed movie footage of motion too fast for the human eye, for ultra slow motion playback. Users can select a recording speed of 300 fps, 600 fps or 1,200 fps. There is also a Movie Button that lets users quickly start movie recording without first switching from still image mode.
- Controls include full manual exposure and focus; spot, center, and pattern metering; auto bracketing up to five frames; and Dynamic Range Expansion.
- View and capture that critical moment in slow motion during still photography.
- Internal LED light allows high speed burst shooting at between 10 and 60 frames per second.

Exilim Pro EX-F1 *(B&H# CAEXF1)*.....**999.95**

FUJIFILM

FinePix A170 • A220

Powered by two "always available" AA batteries, the 10-megapixel A170 and 12-megapixel A220 feature 3x optical zoom, Face Detection, Picture Stabilization and 18 recording modes. In SR Auto mode the cameras recognize six different scenes and then sets the ideal exposure, focus, WB and ISO. Panorama mode lets you capture and combine three consecutive shots, into one large panoramic shot. View up to 100 images in a 10 x 10 array of micro thumbnails on the 2.7" LCD. Record 640 x 480 video with sound at 30 fps.

FinePix J250 *(B&H# FUFPJ250B)*.....**159.95**

FinePix Z37 (10 Megapixels)

Thin and sexy, the FinePix Z37 comes in three hot colors and features a 3x optical (35-105mm equivalent) zoom lens, 2.7" LCD screen, 18 recording modes, Picture Stabilization, SR Auto (Automatic Scene Recognition) and Face Detection Technology (10 faces) with automatic red-eye removal. Captures 640 x 480 movies at 30 fps. Blog Mode automatically resizes photos, eliminating the need to use a PC to optimize images for the web.

FinePix Z37: Available in Blue *(#FUFPZ37BL)*, Purple *(#FUFPZ37PU)* and Green *(#FUFPZ37GR)*.....**149.95**

FinePix Z33WP (10 Megapixels)

Available in three striking colors, the FinePix Z33WP can be used in the rain, on the beach, on the ski slopes, hiking in the mountains, boating at the lake, or in the pool up to 10' underwater. It features 3x optical zoom lens, 2.7" LCD screen, SR Auto, Picture Stabilization and Face Detection technology with and automatic red-eye removal.

FinePix Z33WP: Available in Green *(#FUFPZ33WPG)*, Pink *(#FUFPZ33WPP)* and Black *(#FUFPZ33WPB)*.....**159.95**

FinePix F70EXR • F200EXR

Fuji's most advanced compact digital cameras, the FinePix 10-megapixel F70EXR and 12-megapixel F200EXR feature exclusive EXR sensor modelled after the human eye.

– When the light is strong and even, the camera can be switched to HR (High Resolution) mode to ensure every small detail is recorded.
– When light is strong but contrasty, the sensor can switch to DR (Wide Dynamic Range) mode to get the optimal balance between highlight and shadows.
– In low light the sensor will switch to SN (High Sensitivity and Low Noise) mode, to ensure clean noise-free pictures even in the darkest conditions.

- In EXR AUTO they recognize the subject and scene, and automatically decide the optimum EXR shooting mode. In EXR Priority, you can default to one setting whatever the lighting.
- Simulate the distinctive look of 5 film types: Velvia/Vivid (dramatic full saturation color), PROVIA/Standard (classic 'neutral' photography), ASTIA/Soft (gentle, low contrast portraiture and soft, fine, smooth tonality), Sepia (antique, warms tones), B&W (dramatic monotones).
- Dual image stabilization to eliminate blur and handshake
- Face Detection 3.0 tracks up to 10 faces simultaneously, at almost any angle to the camera.
- Shoot up to 12 frames in a burst at 5 fps in high-speed continuous shooting mode
- Up to 100 pictures can be viewed at a time in a 10 x 10 array of micro thumbnails on the LCD.

FinePix F70EXR

FinePix F200EXR

FinePix F70EXR Only:

- Wide-angle 10x optical zoom (27-270mm equivalent)
- Automatic compositing of multiple exposures
- Corrects red-eye in 0.1 second, and saves both the original and the corrected image
- 2.7" high contrast and wide viewing angle LCD
- Only 22.7mm thick and crafted into a beautiful sculpted shell with a double -coated lacquer finish
- Natural form with a comfortable grip for easy camera operation

FinePix F200EXR Only:

- Wide-angle 5x optical zoom (28-140mm equivalent)
- 3" high-resolution LCD
- ISO settings up to 12,800 (3MP) • Dynamic Range Bracketing
- Portrait Enhancer minimizes fine lines and small skin blemishes for smooth, natural looking portraits.
- In playback can display up to 10 fps at full resolution.
- Dual Shot Mode shoots two images– one with flash and one without – then lets you compare and select the most pleasing image.
- Has 17 pre-programmed scenes, including a special underwater scene mode for use with a special underwater casing.

FinePix F70EXR *(B&H# FUFPF70EXR)*.....**279.95** **FinePix F200EXR** *(B&H# FUFPF200EXR)*.....**329.95**

FinePix S1500 (10 Megapixels)

The affordable SLR-styled FinePix S1500 is wrapped with an eye-catching black casing and has a Fujinon 12x optical zoom (33-396mm equivalent) that offers great range. Features include Dual Image Stabilization, SR Auto (Automatic Scene Recognition), Face Detection with automatic red-eye removal, 2.7" high-resolution LCD and electronic viewfinder, and ISO levels of up to ISO 1600 at full resolution. Offers total control with manual adjustment options for resolution, ISO, aperture, shutter speed and more. Instant Zoom makes it easy to frame and compose shots with moving subjects at high zoom settings. Continuous high-speed shooting mode of up to 15 frames at 7.5 fps at 2MP, and six frames at 3.3 fps at 5MP. Runs on 4 AA alkaline, NiMH or lithium batteries.

- Record VGA-quality movies at 30 frames per second with sound
- 14 pre-programmed scene modes
- Capture, combine and save a maximum of three consecutive shots at 3MP resolution each as a panoramic picture.

- **FinePix S1500** *(B&H# FUFPS1500)*.....**189.95**

FinePix S200EXR (12 Megapixels)

Equipped with 12-megapixel Super CCD EXR sensor and a 14.3x optical zoom lens, the FinePix S200EXR deliver D-SLR-like performance without the bulk and expense. It incorporates Fuji's exclusive EXR sensor modelled after the human eye (see above), EXR AUTO and EXR Priority modes, and simulates five different film types—with three bracketing functions for high-level photography: Film Simulation Bracketing produces three images of PROVIA, Velvia and ASTIA films; Dynamic Range Bracketing produces three images in a different dynamic range (100%, 200%, 400%); and with AE Bracketing, the camera enables continuous capture of three frames with exposure range of up to ±1.0EV.

- 14.3x super zoom (30.5-436mm equivalent) with lens-shift image stabilization system.
- Pro Low-Light Mode automatically takes a series of four high-sensitivity & low-noise exposures and then combines them into an image with less noise than the single exposures.
- Can shoot continuously at full 12MP resolution up to 6 frames in JPEG format or 3 frames maximum in CCD-RAW (EXR). It can also shoot at 3MP resolution for 5fps for up to 24 frames. During playback, you can scan through up to 10 images per second.
- Super macro mode (0.4") perfect for product, medical and nature photography, jewelery and a wide range of other applications.
- In Multi Frame mode, just press the shutter once and the camera automatically takes a rapid series of exposures, analyzes them, and then aligns them to produce a single frame.
- 2.7"LCD plus electronic viewfinder
- RAW mode lets you shoot images without compression giving you clearer images and complete creative control in editing. Simultaneous record both RAW and JPEG images while shooting.

EasyShare Z1485 IS (14 Megapixels)

The Z1485 IS features amazing 14-megapixel resolution, 5x optical zoom lens (35-175mm equivalent), Kodak's Smart Capture, optical image stabilization, high ISO capability, and HD video recording. It also offers experienced users complete manual control of exposure metering and exposure compensation, aperture and shutter speed, white balance and flash mode.

- 14 MP resolution means you can make stunning prints up to 30 x 40".
- Camera automatically selects from ISO 100 to ISO 1600 based on lighting conditions. ISO 3200 and 6400 available at 3.1 MP resolution.
- Take stunning 16:9 HD pictures and 1280 x 720 HD video at 30 fps and view them on an HDTV with the optional EasyShare HDTV Dock.
- Panoramic stitch mode, on-camera editing, 16 scene modes, 5 color modes, sound and text on-camera tagging

EasyShare Z1485 IS: Available in Black *(KOZ1485ISB)*, Blue *(KOZ1485ISB)*, and Pink *(KOZ1485ISP)* **189.95**

EasyShare Camera Dock Series 3

Offers one-touch picture transfer, battery charging in 3.5 hours with charge cycle status indicator light and TV viewing capability **39.95**

EasyShare HDTV Dock

Show your HD photos and videos with friends on your HDTV, by placing your EasyShare Digital Camera on the dock - or by using an SD card, a flash drive, or a card reader attached to the USB port. Display your photos as single pictures, multi-up, or in slideshow format. Play, stop, fast-forward, forward/backward by frame, rewind, or pause your video. The dock automatically charges your camera, and can also connect to your Kodak EasyShare Printer Dock, so real Kodak Pictures are just a touch away. Includes remote control. *(KOESHDTVD)* **89.95**

EasyShare Z915 (10 Megapixels)

Whether you're zooming in on fast action shots or taking a picture of your grand surroundings, the Z915 can handle it. Compact and stylish, the camera features a powerful image stabilized 10x optical zoom lens, Kodak's innovative Smart Capture, 2.5" LCD with histogram display, and best-in-class 0.3-second click-to-capture speed.

- All-glass 10x optical zoom lens (35–350mm) zooms in fast to deliver extra-ordinary creative performance
- Face detection technology, high ISO (up to 1600), text and sound tags, on-camera cropping, blurry picture alert, and picture rotation
- Print better, brighter pictures using Kodak Perfect Touch processing to enhance highlight and shadow areas
- Record continuous VGA (640 x 480) video at 30 fps with sound and on-camera editing
- Powered by "always available" AA batteries

EasyShare Z915: Available in Black *(KOZ915ISB)*, Blue *(KOZ915ISLB)*, and Red *(KOZ915ISR)* **179.95**

EasyShare Z950 (12 Megapixels)

Providing maximum versatility for avid photographers to easily handle both distant and close-up shots, EasyShare Z950 features a 10x image stabilized Schneider-Kreuznach optical zoom lens, ISO 1600, multiple scene and color modes, as well as Kodak's innovative Smart Capture feature, which automatically adjusts focus, flash, and exposure for a great picture in virtually any setting. It also offer a large and bright 3" LCD.

- 10x Schneider-Kreuznach Variogon optical zoom (35-350mm equivalent) lens zooms in fast to deliver extraordinary creative performance. Capture dramatic shots in tight quarters or in front of spectacular landscapes.
- Optical image stabilization lets you capture sharp, steady shots when shooting at long zoom ranges. Camera shake is minimized to automatically deliver clear, sharp pictures
- 0.3 second click-to-capture speed means you can capture challenging action without delay
- Automatic and manual control of metering and exposure compensation, aperture and shutter speed, white balance and flash mode.
- Multiple scene modes (portrait, night portrait, backlight, self, landscape, night landscape, fireworks, sport, beach, snow, sport, children, close-up text/documents, museum) and five color modes.
- Create your perfect shot with features like cropping and auto picture rotation; Panorama stitch mode combines up to three shots into one large picture on-camera; Verify exposure using the histogram feature on live view, quick view, and review

EasyShare Z950 *(KOZ950ISB)* **279.95**

MINOX

Agent M Series Digital Spy Cameras

DSC Digital SpyCam

A masterpiece in minimalist design & photo technology, this 5-megapixel camera has a bright viewfinder that allows spontaneous, fast shots, even in critical light conditions. It records images to a micro SD card, and an external flash with integrated 1.5" LCD monitor can be docked to the camera. *(B&H# MIDSC)*.....**249.95**

Digital Sunglasses Camera

This pair of sunglasses has a micro video camera integrated in one of the earpieces and can be controlled via a remote control without attracting attention. The other earpiece houses an MP3 player. The lenses are replaceable, making this ingenious eyewear adjustable to the diopter strength required by the person wearing them. *(B&H# MISGC)* **199.00**

Digital Belt Camera

Camouflaged as an inconspicuous belt buckle the Belt Camera enables videos to be taken without being noticed. The micro-optics are perfectly concealed on the front of this ingenious camera, allowing undercover surveillance to be recorded in 3GP format. The controls are arranged on the underside of the buckle and are within easy reach. *(B&H# MIDBC)*.....**299.00**

Digital Pen Camera

This normal-looking ball-point pen has a micro camera hidden behind its clip that records AVI format videos, while a high-power microphone is integrated in the chrome-plated clip. A USB port for downloading the videos is built into the front part of the pen. *(B&H# MIDPC)* **199.95**

Rollei

Rolleiflex MiniDigi

Miniaturized 5-megapixel digital replica of the world-famous Rolleiflex 6x6 Twin Lens Reflex camera. Preserves many of the outstanding features but takes square format digital photos. Viewing is from above into the foldable viewfinder where the image can be seen on the 1.1" LCD monitor (which replaces the traditional ground glass). Crank Action frame advance prepares the camera for the next shot. Shutter release is below the twin lenses. Can be carried in a pocket or purse or dangled from neck or wrist by its carrying strap.

Red *(B&H# ROMDR)* and **Black** *(B&H# ROMDB)* **299.95**

DCC Leica M3 Plus

A replica of the classic Leica M3 camera in an ultra miniature format. Many details designed in metal enhance the form of the camera, making it a real gem, while the state-of-the-art technology and optical systems behind the nostalgic look provide images of a brilliant quality. This 5-megapixel camera delivers sharp and detailed images, as well as videos. Has a MINOCTAR 15mm lens (42mm equivalent), 1.5" color LCD screen and records to an SD memory card as well as 32 MB of internal memory. *(B&H# MIDCCLM3)*.....**189.95**

Leica

C-LUX 3 (10.1 Megapixels)

Ultra compact with a classic black or silver metal body, the C-LUX 3 has an elegant exterior design that is unmistakably Leica and is matched by an immaculate standard of optics and digital technology inside. Measuring just 2 x 3.7 x 0.9", it features a 5x Leica DC Vario-Elmarit optical zoom (25-125mm equivalent) that delivers brilliant pictures with true-to-life color reproduction. It has a 2.5" wide view LCD monitor, up to ISO 6400 sensitivity, can capture images in three aspect ratios (4:3, 3:2, 16:9) and has 27 automatic scene modes. The optical image stabilizer and intelligent exposure control prevent camera shake and ensure optimum definition. Records video clips in HD 720p resolution, and images in 16:9 ratio for use in HD slide shows.

- Just flick a switch to change between capture and viewing mode
- An extra knob lets you choose between photo and film mode.
- Automatic face recognition system adjusts focus and exposure so portraits and group photos come out even better.
- Built-in optical image stabilizer and high-sensitivity setting of ISO 3200 ensures no shaky pictures
- Automatic Scene Recognition selects the correct settings for macro, landscape, portrait or night portrait, as well as moving pictures in film mode.
- All metal body with slightly rounded sides along with great attention to small details ensures a reliable and intuitive camera to use that is also comfortable to handle.

White *(B&H# LECL3W)* .....**499.00** **Black** *(B&H# LECL3B)* **499.00**

D-LUX 4 (10.1 Megapixels)

A high-performance camera, the 10.1-megapixel D-LUX 4 incorporates a wide angle 2.5x DC Vario-Summicron zoom lens (24 to 60mm equivalent), large 3" LCD display, MEGA O.I.S. Image Stabilization, Face Recognition AF/AE and full automatic and manual exposure control. Intelligent automatic mode selects the best mode from Scene Select, either macro, landscape, portrait, night portrait, or night scene. HD port allows images and videos to be displayed on an HDTV using an optional component video cable.

- Capture images in three picture formats (16:9, 3:2 and 4:3)
- Capture video clips in standard and wide format - even in HD.
- Records images as JPEG files, or in professional RAW format to ensure optimum image quality when editing the images.
- Optional accessories include an external flash unit that provides full TTL-Flash exposure control, an attachable viewfinder with a 24-mm LED display to aid framing, and a hand grip to allow for more comfortable handling.
- Full range of automatic and scene settings plus manual focus, shutter speed, aperture and exposure

PENTAX

Optio E80 • Optio P80

Available in black or silver, the 10-megapixel Optio E80 offers easy operation with large control buttons in a compact, ultra-slim body. It features a 3x optical zoom (31.5-94.5mm equivalent), 2.7" LCD monitor and is powered by always available AA batteries. Auto Picture Mode, Face Recognition Autofocus, and the revolutionary High Sensitivity Digital SR Mode (with ISO up to 6400) ensure perfect photos under even the most challenging lighting conditions. Records high resolution, widescreen HD video at 720p at 15 frames per second with sound.

The high-performance 12-megapixel Optio P80 steps up with a wide angle 4x optical zoom (27.5-110mm equivalent) and records HD 720p video at 30 frames per second. PENTAX Shake Reduction (SR) technology features Pixel Track SR, Digital SR, and Movie SR, stabilizing your images and video for beautiful, blur-free results.

Optio E80: Available in Silver *(PEOE80S)* and Black *(B&H# PEOE80B)* **129.95**
Optio P80: Available in Black *(PEOP80B)*, Mint *(PEOP80M)*, and Pearl *(PEOP80P)*.....**199.95**

Optio W80 (12.1 Megapixels)

Waterproof, shockproof, and coldproof the Optio W80 can handle the most extreme conditions imaginable—the perfect compact digital camera for adventurers everywhere. From the highest mountain peaks to under the sea exploration, the camera sets a new standard for quality and durability. The specially designed 5x optical zoom lens never protrudes from the camera body, yet provides an amazing wide-angle focal length equivalent to 28-140mm. Features 20 Scene Modes, Face Recognition, Blink Detection, 720p HD video at a smooth 30 fps and the revolutionary High Sensitivity Digital SR Mode (with ISO up to 6400) to ensure perfect photos under even the most challenging lighting conditions.

- Complies with JIS class 8 Waterproof performance, enabling it to withstand up to 2 hours of continuous operation at an underwater depth of up to 16' (5m). Furthermore, the camera conforms to JIS Class 6 Dustproof standards. It is shockproof and capable of surviving a fall from up to 3'. Can even hold its own at a blistering 104°F (40°C) or below freezing temperatures of 14°F (-10°C).

Optio W80: Available in Azure Blue *(PEOW80BL)*, Cardinal Red *(PEOW80R)*, and Gunmetal Gray *(PEOW80G)* **299.95**

Operate your Coolpix S60 from an AC power source **19.95**

2-Year Extended Service Coverage *(B&H# NIEWCPC)*
Offered through Nikon U.S.A., this coverage becomes valid upon the expiration of the Nikon U.S.A. Inc. limited Warranty that was included with your camera **29.95**

Mini Tripod *(B&H# NIMT)*
An ultra-compact mini-tripod for your COOLPIX digital camera. A smooth miniature ballhead that provides 360° pan and ± 90° tilt. Its operating height is 6", folding length is 5", and weighs 2.9 oz. The rubber tips on its legs add extra stability **12.95**

COOLPIX L20 (10 Megapixels)

The 10-megapixel Coolpix L20 features 3.6x optical NIKKOR lens, Motion Detection to compensate for camera shake, and Easy Auto Mode with Scene Auto Selector which automatically selects one of six scene modes for best results. Smart Portrait System ensures a bright smile being captured without blinking, offers in-camera red-eye fix, and rescues dark or backlit images by improving brightness and detail where needed.

- Enhanced Face-priority Auto Focus can detect up to 12 faces-per-image and adjusts brightness on the subject's face to ensure well-balanced exposure of a whole picture
- 16 scene modes plus 5 color options for special effects, and can record VGA (640 x 480) video with sound.
- Adjustable ISO up to 1600 lets you keep shooting even in low light
- Bright 3" high-resolution LCD monitor
- Motion Detection compensates for camera shake by automatically controlling shutter speed and ISO settings, while Best Shot Selector (BSS) automatically takes up to 10 shots while the shutter is pressed and then saves the sharpest image.

COOLPIX L20: Available in Deep Red *(NICPL20R)* and Navy Blue *(NICPL20BL)* **129.95**

COOLPIX L100 (10 Megapixels)

A powerful photographic tool that blends ease-of-use with advanced shooting functions, the 10-megapixel Coolpix L100 steps-up from the Coolpix L20 with a high-powered 15x zoom, 4-Way Vibration Reduction (VR) image stabilization, and 3" LCD with high-contrast and anti-reflection coating for clear viewing, even in direct sunlight. In Sports Continuous Scene Mode you can shoot at up to 13 fps (up to 30 frames) when resolution is set to 3MP or lower.

- 15x wide-angle (28-420mm) Zoom-NIKKOR lens handles everything from landscapes and group shots, to close-ups and distance shots with superb color and razor-sharp results.
- 4-Way VR Image Stabilization includes Nikon's Optical VR sabilization as well as Motion Detection, ISO 3200 and Best Shot Selector (BSS).

COOLPIX L100 *(NICPL100)*: Available in Matte Black **249.95**

COOLPIX S220 (10 Megapixels)

Available in six colors with a slim body design (just 18mm thin), the 10-megapixel Coolpix S220 features a Nikkor glass 3x optical zoom lens, 2.5" LCD, Smart Portrait System with enhanced Face-Priority AF, and Scene Auto Selector. 16 scene modes including Food Mode and four movie modes with sound. Quick Retouch creates a retouched copy with the best balance of contrast and saturation.

- 4-Way VR Image Stabilization includes Optical VR that compensates for camera shake by moving the image sensor, as well as Motion Detection, ISO 2000 and Best Shot Selector (BSS).
- Smart Portrait System ensures bright smiles are captured without blinking, offers in-camera red-eye fix and rescues dark or backlit images by improving brightness and detail where needed.

COOLPIX S220: Available in Magenta *(NICPS220MA)*, Aqua Green *(NICPS220G)*, Cobalt Blue *(NICPS220BL)*, Warm Silver *(NICPS220S)*, Jet Black *(NICPS220B)*, and Plum *(NICPS220PL)* **149.95**

COOLPIX S230 (10 Megapixels)

Otherwise identical to the Coolpix S220, the Coolpix S230 adds an innovative and fun new approach to intuitive operation using its 3" widescreen touch panel LCD for most shooting and playback functions.

– Touch your subject on the LCD to set the autofocus and exposure
– After selecting your subject, touch the Portrait One-Touch Zoom button for three-step automatic zoom from the waist up, from the chest and up, or close-up of the face.
– Select thumbnails with your fingers all the way to scrolling through full-size images. Use the Paint Function to personalize your images by writing on the screen with the stylus.

Gloss Red *(NICPS230R)*, Night Blue *(NICPS230BL)*, Warm Silver *(NICPS230S)*, Jet Black *(NICPS230B)*, and Plum *(NICPS230PL)* **199.95**

COOLPIX S570 (12 Megapixels)

Stylish and simple, just push the shutter button and the Coolpix S570 automatically selects the right mode based on distance, brightness and the positions of faces within your shot. It also features a 2.7" high-resolution LCD, 5x wide-angle (28 to 140mm equivalent) Zoom-Nikkor zoom lens, ISO 3200, 4-way VR Image Stabilization, 16 scene modes and four movie modes, and enhanced Smart Portrait System.

- Slim, stylish metal design less that 1-inch thick slips right into a shirt pocket.
- Nikon's Scene Auto Selector makes it fast and easy to capture the moment by selecting the most appropriate of six scene modes.
- 4-Way VR Image Stabilization includes electronic VR, Motion Detection, ISO 3200 and Best Shot Selector (BSS).
- Quick Retouch automatically creates a retouched copy with the best balance of contrast and saturation.

Blue *(NICPS570BL)*, Black *(NICPS570B)*, Red *(NICPS570R)*, Pink *(NICPS570P)* **199.95**

Nikon

COOLPIX S630 (12 Megapixels)

High quality and compact, the 12-megapixel Coolpix S630 features a 7x optical zoom lens for incredibly sharp, clear images, quick response, Quick Retouch, bright 2.7" LCD monitor, 4-way VR image stabilization system. Images to be captured at up to 11 frames per second (up to 20 pictures). Unique design combines straight and curved surfaces with a unique "Sure Grip" that allows the camera to be held comfortably.

- 7x Zoom-NIKKOR (37-260mm equivalent) lets you capture the full delight of all those special moments, from entire scenes to tight close-ups.
- High ISO 6400 capability when shooting 3MP or smaller images
- Smart Portrait System with enhanced Face-Priority AF ensures a bright smile being captured without blinking, offers in-camera red-eye fix and rescues dark images by improving brightness and detail.

COOLPIX S630: Available in Jet Black *(NICPS630B)*, Titanium Silver *(NICPS630S)*, Ruby Red *(NICPS630R)*, Midnight Blue *(NICPS630BL)* and Royal Purple *(NICPS630PR)* **279.95**

COOLPIX P90 (12.1 Megapixels)

The 12.1-megapixel Coolpix P90 is the ideal camera for photo enthusiasts, travel photographers and users with more advanced photography skills. The camera features an incredible 24x optical zoom covering wide angle to super telephoto, a 3" vari-angle LCD monitor with tilt function and anti-reflection coating, and 15 fps high-speed shooting. Additional features include 4-Way VR Image Stabilization, ISO 6400 capability at 3MP; electronic viewfinder; Scene Auto Selector; Quick Retouch; and Distortion Control which corrects for barrel distortion.

- Amazing 24x optical wide-angle (26-624mm equivalent) Zoom-NIKKOR ED glass lens provides exceptional images with superb color and razor-sharp results.
- 3" high-resolution vari-angle LCD can be tilted upward as much as 90° degrees, or 45° downward.
- Sport Continuous Mode lets you shoot as many as 45 consecutive pictures at 15 fps to stay ahead of most any action you wish to capture. Furthermore, the Pre-shooting Cache option enables you to record up to 10 frames just before releasing the shutter.
- Program, Shutter- and Aperture Priority and manual exposure give ultimate control over images.

COOLPIX P90: Available in Matte Black *(NICPP90B)* **399.95**

COOLPIX S640 (12.2 Megapixels)

The 12.2-megapixel Coolpix S640 combines beauty and brains. It features world fast start up in just 0.7 seconds, a superb 5x wide-angle zoom-NIKKOR lens, bright 2.7" LCD monitor, 4- way VR image stabilization, ISO 6400 capability at full resolution, scene auto selector, subject tracking, and enhanced Smart Portrait System with skin softening, smile timer, and blink warning. Additional features include Quick Retouch, 16 scene modes, two movie modes, Face-Priority AF, D-Lighting and in-camera red-eye fix.

- Precision 5x Zoom-NIKKOR lens with 28mm wide-angle cover and macro as close as 0.8"
- 4-Way VR Image Stabilization includes Nikon's Optical VR sabilization as well as Motion Detection, ISO 6400 and Best Shot Selector (BSS).
- Camera ensures sharp focus by automatically tracking your subject – even if they temporarily move out of the frame.
- 2.7" Clear Color LCD greatly reduces reflections and improves visibility –even outdoors in the sun

COOLPIX S640: Available in Black *(NICPS640B)*, Red *(NICPS640P)*, White *(NICPS640W)* and Pink *(NICPS640P)* **249.95**

Coolpix S570, S640, S70 and S1000pj all feature enhanced Smart Portrait System:

- Skin Softening function smoothes skin tone at three different levels, letting you 'airbrush' someone's face for optimal portraits.
- Smile Timer ensures you always catch the decisive moment when your subject smiles.
- Blink Proof function shoots two sequential shots when the subject smiles, saving the one in which the subject's eyes are wide open.
- When activated, Blink Warning alerts you that the subject may have blinked and allows you to retake the photo.
- In-camera red-eye fix automatically fixes–while shooting–most instances of red-eye in the camera
- Face-Priority AF automatically focuses on up to 12 faces
- When set, D-Lighting rescues underexposed images or shots taken with excessive backlight by adding light and detail where necessary while leaving correctly-exposed areas untouched. The result is more natural-looking images. After D-Lighting is applied, the modified image is saved to the memory card, leaving the original image untouched.

COOLPIX S70 (12 Megapixels)

Offering elegant design and intuitive operation via a 3.5" touch panel OLED screen, the slim and stylish 12-megapixel Coolpix S70 features 5x optical Zoom-Nikkor (28-140mm equivalent) lens, 5-way image stabilization, Scene Auto selector, subject tracking, ISO 6400 at lower resolution and HD movies.

- Records 720p HD movies at 30 fps
- Bright 3.5" high resolution touch panel OLED screen with Clear Color Display with anti-glare coating.
- Simply tap the OLED display to have the camera focus and even shoot the picture
- Scroll through images and use a pinching motion with two fingers to zoom in/out of displayed images
- Scene effect adjustment by using the touch screen sliders can be modified as necessary
- Slim, stylish, metal dual texture surface design slips right into a shirt pocket
- 5-Way VR Image Stabilization system combines Nikons' optical and electronic VR image stabilization, as well as Motion Detection, ISO 6400 and Best Shot Selector (BSS).
- Macro shooting as close as 1.2" to get great pictures of flowers and other interesting subjects

COOLPIX S70: Available in Black *(NICPS70B)*, Red *(NICPS70R)*, Brown *(NICPS70BR)*, Beige *(NICPS70BE)* **399.95**

COOLPIX S1000pj 12.1-megapixel Camera with Built-in Projector

Basically the same camera as the Coolpix S70 (all the same features except it has 2.7" high resolution LCD vs. the 3.5" touchscreen OLED), the Coolpix S1000pj adds one other incredible feature—the world's first digital camera with a built-in, ultra-small projector— providing new ways to enjoy your pictures anytime and anywhere.

- With the simple touch of a button, the camera projects photos or movie clips on any flat surface at up to 40" in size. Pictures can be projected individually, or as slide shows complete with music and added effects that enhance the experience. This allows participants to visually share the passion of special moments together. For example, capture photos on a family vacation, and then serve double-duty as a personal theater in the evening.
- A variety of available effects adds extra flare and further enhances the fun of the built-in projector.
- Projector features 10 lumens of brightness, image size of 5-40" and a throw distance of 10" to 6.6'.
- Includes ET-2 projector stand and ML-L4 remote control. Set the S1000pj on the stand and easily navigate via the supplied remote control for shutter release, projector operation and more.

Coolpix S1000pj: Available in Black *(NICPS1000PJ)* **429.95**

Panasonic

Lumix DMC-LZ10 (10.1 Megapixels)

The ideal beginner camera, the DMC-LZ10 features a 5x Leica optical zoom (30-150mm equivalent), 20 scene modes, Face detection, 2.5" LCD, reduced blur with MEGA OIS and Intelligent ISO, Intelligent Scene selector and Intelligent iA, and even manual control of exposure. Record WGA (848 x 480) video and audio with a 16:9 aspect ratio to fit a wide-screen TV. Powered by convenient AA batteries.

- Just press the iA button, aim and shoot, the camera does the rest. zAutomatically adjusts to shooting conditions correcting blur, focus, and brightness problems.
- 20 easy to use scene modes
- Four exposure modes (Program AE, Aperture and Shutter Priority AE and full Manual) for full control

Black: *(PADMCLZ10K)*.....**119.95** **Silver:** *(PADMCLZ10S)*.....**119.95**

Lumix DMC-FP8 (12.1 Megapixels)

At just 0.8" thin, the ultra compact Lumix DMC-FP8 fits seamlessly into your pocket and digital lifestyle. A newly developed Leica lens offers a 4.6x optical zoom while remaining flush with the camera body. Panasonic's Intelligent Auto (iA) Mode delivers high speed AF tracking for moving subjects, optical image stabilization, scene mode selection, and auto ISO to make great pictures as simple as point-and-shoot.

- Illuminated controls to help navigate camera settings - even under dimly lit conditions.
- 4.6x Optical Leica Vario-Elmar lens (28-128mm equivalent)
- Boasts high-speed 0.95 second start-ups, AF speeds of approximately 0.3 second, and up to five consecutive shots at 2.3 frames per second at full resolution.

DMC-FP8: Available in Black *(PADMCFP8K)*, Silver *(PADMCFP8S)*, Red *(PADMCFP8R)*.....**299.95**

Lumix DMC-FS7 (10.1 Megapixels)
Lumix DMC-FS15 • Lumix DMC-FS25 (12.1 Megapixels)

The LUMIX FS-Series combine easy operation with a slim and sleek look, enabling users to take beautiful digital photos with a model they can slip in their pockets. Venus Engine IV enables an advanced processing system and quick response times. An intelligent 2.7" LCD screen detects light conditions and automatically adjusts the brightness levels for viewing in sunlight. Photo Frame mode lets users put attractive borders around photos, so when printed, look like postcards in picture frames. They record WVGA (848 x 480) video at 30 fps in 16:9 format, as well as standard VGA (640 x 480) format.

- The 10.1-megapixel DMC-FS7 features a bright F2.8 Leica DC Vario-Elmarit lens with 4x optical zoom and iA mode, comprised of four functions including Mega O.I.S., Intelligent ISO Control, Intelligent Scene Selector and Face Detection. The 12.1-megapixel DMC-FS15 and DMC-FS25 feature a 29mm wide-angle Leica DC Vario-Elmar lens with a 5x optical zoom.
- Enhanced intelligent Auto Mode (iA) includes AF tracking and Intelligent Exposure functions in addition to Mega O.I.S., Intelligent ISO Control, and Intelligent Scene Selector. Improved Face detection accuracy provides continuous adjustment of the focus and exposure even if the face is turned sideways to the camera. The DMC-FS25 steps-up with a prominent grip, larger 3" LCD screen and stabilization in movie mode.

DMC-FS7: Available in Black *(PADMCFS7K)*, Silver *(PADMCFS7S)*, Green *(PADMCFS7G)*, Pink *(PADMCFS7P)*, and Blue *(PADMCFS7A)*.....**159.95**

DMC-FS15: Available in Black *(PADMCFS15K)*, Silver *(PADMCFS15S)*, and Blue *(PADMCFS15A)*.....**179.95**

DMC-FS25: Available in Black *(PADMCFS25K)*, Silver *(PADMCFS25S)*, and Gold *(PADMCFS25N)*.....**229.95**

Lumix DMC-FX48 (12.1 Megapixels)

The 12.1-megapixel DMC-FX48 is equipped with an astonishing ultra-wide-angle LEICA DC lens and powerful 5x optical zoom (25-125mm equivalent), resulting in remarkable images with unprecedented width and depth. Additional features include Face Detection with Face Recognition, Mega O.I.S. (Optical Image Stabilizer), Intelligent ISO Control, Intelligent Scene Selector, and Intelligent Exposure.

- Faces can be "registered" for prioritized focus and exposure so that the registered face is bright and in sharp focus - perfect for group shots.
- Specify the age of the registered subject and have both the name and the age stamped on the photos. When babies under 3 years-old are registered, the camera will automatically switch to Baby mode if the baby appears into the frame.
- In playback, you can choose to display only photos that contain a specific registered face using Category Playback. You can also view image slideshows of only a selected person. Face recognition makes sorting archiving incredibly easy.
- In burst shooting mode, the DMC-FX48 can snap 2.3 shots per second at 12.1-megapixel large full resolution, or 10 3MP shots per second.
- Wide viewing angle 2.5" Intelligent LCD detects the light condition and automatically boosts the backlighting by up to 40% if needed.
- Takes photos in 4:3 (TV), 3:2 (4x6 print), and 16:9 (Widescreen HDTV) aspect ratios
- Panorama Assist mode allows you to create powerful panoramic images - vertically and horizontally.

DMC-FX48: Available in Black *(PADMCFX48K)* and Silver *(PADMCFX48S)*.....**299.95**

Lumix DMC-ZR1 (12.1 Megapixels)

The Lumix DMC-ZR1 boasts a high-powered, 8x Leica (25-200mm equivalent) optical zoom lens in a stylish, easy to carry camera body. 0.3mm aspherical lens formula provides excellent coverage for subjects from landscapes to distant street portraits while maintaining an incredibly slim and compact form factor. The advanced 12.1 megapixel sensor ensures the highest image quality possible.

- Panasonic's Intelligent Exposure (iA) Mode delivers high speed AF tracking for moving subjects, optical image stabilization, scene mode selection, and auto ISO to make great pictures as simple as point-and-shoot. Concentrate on the subject in front of you - let the camera do the rest.
- Advanced Face Recognition allows you to register up to six faces with auto name tagging and optimized exposure.
- POWER Optical Image Stabilization (O.I.S.) automatically detects and corrects for camera shake. Twice the shake suppression of older MEGA O.I.S, POWER O.I.S provides consistently sharp, crisp, images.
- Offers high-speed 1.1 second start-ups, AF speeds of 0.27 second, and up to five consecutive shots at 2.3 fps at full resolution. Highly energy efficient, take up to 330 photos on a single battery charge.

DMC-ZR1: Available in Black *(PADMCZR1K)*, Silver *(PADMCZR1S)*, Blue *(PADMCZR1BL)*, Red *(PADMCZR1R)*.....**279.95**

Lumix DMC-FX580

(12.1 Megapixels)

Stepping up from the DMC-FX48, the DMC-FX580 incorporates a large 3" touch-screen LCD that makes shooting and image playback intuitive and smooth. It has a prominent grip and can record HD 720p video at 30 fps which can be output using an optional component cable.

- Though featuring a touch-screen, the DMC-FX580 uses a hybrid operation system combining the touch-screen interface and a conventional operation system with the cursor key for intuitive control.
  - Set the Auto Focus (AF) and Auto Exposure (AE) at the desired part of the frame by simply touching the subject on the screen while recording.
  - In manual exposure mode, aperture and shutter speed can be adjusted by moving the slider.
  - Make fine adjustments to white balance and color temperature with the touch screen.
  - In playback mode, simply slide a finger across the screen to activate touch scroll for viewing images.

DMC-FX580: In Black *(PADMCFX580K)*, and Silver *(PADMCFX580S)*.....**349.95**

Panasonic

Lumix DMC-TS1 (12.1 Megapixels)

Waterproof, shockproof and dustproof, the DMC-TS1 features a wide-angle 4.6x LEICA DC VARIO-ELMAR optical lens (28-128mm equivalent),Panasonic's proprietary iA (Intelligent Auto) mode, Optical Image Stabilization (O.I.S.), Face Detection and Face Recognition, Intelligent Exposure and Scene Selector, and AVCHD Lite High Definition (HD) video recording capabilities. A Wind Cut function is also available to block out most of the noise from background wind.

- Waterproof to a depth of 10', shockproof from falls up to 5', and dustproof. With its rubber padding, reinforced glass and carbon resins inside the camera, the DMC-TS1 features an airtight body protected against water immersion, dust and sand.
- 2.7" Intelligent LCD is thickened for protection against pressure, allowing it operate with clear visibility even underwater.
- AVCHD Lite HD video offers double the recording time in HD quality compared to conventional M-JPEG format. Includes Dolby Digital Creator to record high quality audio to match the video.
- High sensitivity mode allows shooting up to ISO 6400.
- Flash Burst mode makes it possible to take consecutive shots with continuous flash.

DMC-TS1: Available in Silver *(PADMCTS1S)*, Green *(PADMCTS1G)*, and Orange *(PADMCTS1D)*.....**379.95**

Lumix DMC-ZS1 • Lumix DMC-ZS3 (10.1 Megapixels)

Compact and powerful digital cameras, the LUMIX DMC-ZS1 and DMC-ZS3 feature an ultra-wide-angle 12x (25-300mm equivalent) LEICA DC VARIO-ELMAR optical lens, iA (Intelligent Auto) mode, Optical Image Stabilization (O.I.S.), Intelligent Exposure, Scene Selector, and Face Detection. The DMC-ZS1 has a 2.7", Intelligent LCD, the ZS-3 has a huge 3" high-resolution (460,000 pixels) Intelligent LCD. In addition, the DMC-ZS3 also steps up with:

- Facial Recognition allows faces to be "registered" for prioritized focus and exposure so that the registered face is bright and in sharp focus—perfect for group shots.
- Records AVCHD Lite HD video allowing almost double the recording time in HD quality compared to conventional Motion JPEG format. Also features Dolby Digital Creator to record high quality audio to match the high-quality video.
- Optical Image Stabilization (O.I.S.) in Movie mode helps prevent handshake when using the high-powered zoom.
- Viera Link lets you control the camera's playback functions with your Viera TV's remote control.
- Movie REC Guide, wind-cut mic function and HDMI output for video and image playback on an HDTV.

DMC-ZS1: Available in Black *(PADMCZS1K)* and Silver *(PADMCZS1S)*.....**279.00**
DMC-ZS3: Black *(PADMCZS3K)*, Silver *(PADMCZS3S)*, Blue *(PADMCZS3A)* and Red *(PADMCZS3R)*.....**349.00**

Lumix DMC-LX3 (10.1 Megapixels)

Combining enhanced CCD technology, 24-60mm /2.0 ultra-wide Leica DC Vario-Summicron 2.5x zoom lens, 3" high resolution (460,000 pixels) LCD screen and a wide-range of manual shooting controls, the DMC-LX3 is ideal for serious amateurs and pros alike looking for a compact digital camera that furthers their creative photography.

- Multi Aspect mode allows the camera to take an image in three aspect ratios (4:3, 3:2, 16:9) simultaneously, allowing users to choose the version that best suits their needs.
- Large F2.0 aperture allows shooting at high shutter speeds in dimly lit environments. Shoot at ISO 3200 at full resolution and even up to ISO 6400 when using high sensitivity mode,
- Intelligent Auto mode (iA) with AF Tracking, Intelligent Exposure, Digital Red-eye Correction, MEGA O.I.S, Intelligent ISO, Intelligent Scene Selector, Face Detection (up to 15 faces) and Quick AF.
- Color temperature display and two-axis white balance adjustment
- Shoot 2.5 shots per second at full resolution
- Film mode with six color types and three types of monochrome selections provide flexibility and creative freedom.
- In Multi-film mode, the LX3 produces a maximum of three images from a RAW file for the user to compare the different textures.
- Records 1280 x 720p HD video at 24fps and offers output capability for video and image playback on a large-screen HDTV.

DMC-LX3: in Black *(B&H# PADMCLX3K)* in Silver *(B&H# PADMCLX3S)*.....**499.95**

Lumix DMC-FZ35 (12.1 Megapixels)

Equally adept at long-distance action photos or tight indoor shots, the DMC-FZ35 features a premium 18x wide-angle LEICA DC Vario-Elmarit optical zoom (27-486mm equivalent), 2.7" LCD enhanced Intelligent Auto Mode (iA) with AF Tracking, Intelligent Exposure, MEGA O.I.S and Face Detection.

- 2-step zoom speed function and a zoom resume function let you decide on your composition before you shoot. Optical zoom even functions when recording video clips.
- Records 1280 x 720p HD video at 30 fps and offers output capability for video and image playback on a large-screen HDTV.
- Boasts high-speed 1.2 second start-up, AF speeds of approximately 0.3 second, and up to five consecutive shots at 2.3 frames per second at full resolution.
- 37 scene modes to respond easily to any shooting situation. Baby, Pin Hole and Film Grain modes add unique, film camera-like effects and ambiences to images. Actual effects of the scene mode can even be viewed on the LCD before taking the shot.
- Built-in flash covers 28' at the wide setting, 18' at telephoto

External flash for the DMC-LX3. Guide No. 164'/50m at 85mm in equivalent 35mm format.....**519.95**

OLYMPUS

FE-26 • FE-46 (12 Megapixels)

Powered by 2 AA batteries, the 12-megapixel FE-26 (3x optical zoom) and FE-46 (5x optical zoom) feature 20 shooting modes, AF Tracking, Digital Image Stabilization, 2.7-inch LCD, 1600 ISO, and in-camera help guides. The FE-46 adds in-camera red-eye and lighting fix, resizing and cropping so users can edit images right in the camera. Also records video with sound (FE-26 shoots video without sound) and includes software to easily upload them to sites like YouTube.

- I-Auto + Shadow Adjustment Technology identifies the scene and adjusts the settings for perfect results everytime.
- Advanced Face Detection tracks up to 16 faces and automatically focuses and optimizes exposures for sharp, brilliant portraits.
- Get creative with filter effects like Pop Art, Pinhole or Wedding

FE-26: Available in Blue *(OLFE26BL)*, Silver *(OLFE26S)*, Pink *(OLFE26P)* and Black *(B&H# OLFE26B)*.....**89.95**

FE-46: Available in Pearl White *(OLFE46W)*, Light Blue *(OLFE46LB)* Black *(OLFE46B)* and Pink *(OLFE46P)*.....**99.95**

FE-4000 • FE-5020 (12 Megapixels)

Basically the same as the FE-46, the FE-4000 and FE-5020 feature wide-angle zoom lenses inside their super-slim bodies and include a lithium-ion battery and charger. The FE-5020 steps up with TruePic III Image Processor to deliver superior pictures with more accurate colors, true-to-life flesh tones and faster processing speeds.

- The FE-4000 has a 4x (26mm-105mm equivalent) zoom lens and offers Pop Art, Pinhole and Wedding filters.
- The FE-5020 has a wide-angle 5x (24mm-120mm equivalent) zoom lens and offers Pop Art, Pinhole and Fisheye filters

FE-4000: Available in Dark Gray *(OLFE4000G)*, Magenta *(OLFE4000P)* and Pearl White *(OLFE4000W)*.....**149.95**

FE-5020: Available in Wine Red *(OLFE5020R)*, Navy*(OLFE5020BL)* and Dark Gray *(OLFE5020G)*.....**179.95**

Stylus 550WP (10 Megapixels)

The Stylus 550WP can perform as well under water as it does on land because of its slim lightweight, aluminum exterior that is sealed from the elements by interior rubber gaskets and O-rings. Can be submerged up to 10' under water, and the inclusion of an underwater scene mode makes it ideal for taking photos while snorkeling, in the pool, or riding the waterslide.

- Features 3x optical zoom, 2.5" LCD, Intelligent Auto, Digital Image Stabilization, Face Detection (3 faces), Perfect Fix to correct shooting mistakes, Help Guides, and 17 shooting modes.

STYLUS-550WP: Available in Black *(B&H# OLS550WPB)* and Blue *(B&H# OLS550WPBL)*.....**179.95**

Stylus 7010 • Stylus 9000 (12 Megapixels)

Compact bodies with impressive zoom power, the 12-megapixel Stylus 7010 with 7x optical zoom (28-196mm equivalent) and Stylus 9000 with 10x wide-angle optical zoom (28-280mm equivalent) bring the action incredibly close, while features like Dual Image Stabilization, Intelligent Auto, Shadow Adjustment Technology and In-Camera Panorama take the guesswork out of great photography. Besides the different zooms, the Stylus 7010 has a 2.7" HyperCrystal II LCD screen and an HDMI output making it ideal for viewing images in the camera or on an HDTV. The Stylus 9000 has a 2.7" HyperCrystal III LCD which displays twice as bright enhancing the anti-glare capability.

- Other features include Dual Image Stabilization, Intelligent Auto and Advanced Face Detection (3 faces on the 9000, 16 faces on the 7010).
- In-Camera Panorama captures three images and stitches them together to create one amazing panoramic picture by simply pressing the shutter button and slowly panning across a panoramic scene.
- Shadow Adjustment Technology brings out more details in shadows. Captures scenes exactly as you see them, even in difficult lighting situations like backlight shots.
- TruPic III Image Processor delivers superior images with true-to-life color, sharper detail and less noise.
- Beauty mode takes beautiful portraits by softening shadows and smoothing wrinkles and blemishes on your subject's face. Edits can also be made inside the camera after taking the picture.
- Using a live, multi-frame window on the LCD, you can preview the effects of various settings, select and capture the perfect shot.
- Smile Shot detects a smile on your subject's face and automatically fires off three consecutive shots to capture that perfect smile.

Stylus 7010: Available in Gray *(B&H# OLS7010G)*, Silver *(B&H# OLS7010S)* and Pink *(B&H# OLS7010P)*.....**199.95**

Stylus 9000: Available in Black *(B&H# OLS9000B)*, and Champagne *(B&H# OLS9000C)*.....**299.95**

Stylus Tough-6000 • Stylus Tough-8000 (10 Megapixels)

Shockproof, waterproof, freezeproof, crushproof and shakeproof, the Stylus Tough-6000 and Stylus Tough-8000 are built to withstand some of the harshest environments on earth. Arrive at the windy mountain peak or dive into choppy waves, they stay steady and ready to capture blur-free images in virtually any condition. The 10-megapixel Stylus Tough-6000 is made for life's everyday adventures. It can take a drop from 5', dive to 10' below the surface, and beat the freezing cold. Designed for active and adventurous people, the 12-megapixel Stylus Tough-8000 can survive a 6.6' drop, venture 33' underwater, withstand 220 pounds of crushing pressure, and laugh at freezing temperatures.

- 3.6x wide-angle optical zoom lens doesn't protrude from its body so it is further protected from harsh conditions.
- Tap Control to make it easy for skiers, divers, etc. to control key settings (playback, shadow adjustment, flash mode and more) without removing their gloves.
- 2.7" LCD features an extra-wide viewing angle and anti-glare technology for easier composing and shooting
- Dual Image Stabilization combines Sensor-Shift Image Stabilization with high ISO sensitivity and fast shutter speeds so you can capture crisp, clear images even if the subject is moving.
- Using a live, multi-frame window on the LCD, Perfect Shot Preview lets you preview the effects of various settings, select and capture the perfect shot.

Stylus Tough-6000: Available in Blue *(B&H# OLST6000BL)*, Yellow *(B&H# OLST6000Y)* and White *(B&H# OLST6000W)*.....**279.99**

Stylus Tough-8000: Available in Black *(B&H# OLST8000B)*, and Silver *(B&H# OLST8000S)*.....**379.99**

SP-590 UZ (12 Megapixels)

The "total package", the 12-megapixel SP-590 UZ (Ultra Zoom) features a wide-angle 26x optical zoom, Dual Image Stabilization and ultra high-speed sequential shooting to capture the action far, wide and up close. It also features Face Detection, Perfect Shot Preview mode, Panorama Stitch mode, Smile Shot, 2.7" HyperCyrstal II LCD screen, Beauty mode and Shadow Adjustment technology.

- Wide angle 26x optical zoom lens (26-676mm equivalent) with fast f2.8-5.0 aperture lets you get close and capture more in each frame. Compact lens construction combines aspherical lens elements and extra-low dispersion (ED) lens elements to deliver edge-to-edge sharpness and clarity. Super-macro capabilities capture the subtlest details.
- Continuous mode lets you shoot up to six 5MP frames per second or ten 3 MP frames per second up to 30 frames. Also offers 5 frame exposure bracketing and interval shooting.
- Pre-capture automatically archives ten frames (3 MP) as soon as the focus is locked to capture the perfect shot.
- Operates like a simple point-and-shoot with automatic scene modes, or use the advanced manual focus and exposure controls that experienced users demand.
- Beauty Mode lets you smooth a person's skin, removing unwanted wrinkles or blemishes.
- Beauty Fix lets you make subtle edits, such as slightly emphasizing and brightening the eyes in post-capture
- Soft Background Focus lets you slightly blur a beautiful vista, lake or canyon in the background to accent the majestic foreground.
- HDMI outuput lets you connect the camera to an HDTV for playback of images and video

SP-590 UZ: Available in Black *(B&H# OLSP590UZB)*.....**399.99**

SL30 • SL102 (10 Megapixels)

Available in three colors, the 10-megapixel SL30 and SL102 with 3x optical zoom let you effortlessly capture images without worrying about technical specs or terms. The SL30 is powered by AA batteries, the SL102 by a rechargeable Li-ion battery.

- Digital image stabilization • 2.5" Intelligent LCD display
- Face Detection (up to 9 faces) adjusts focus and exposure.
- Record 640 x 480 video at 30 fps • Photo help guide
- Choose from nine scene modes • Automatic red-eye fix
- Beauty Shot automatically brightens and evens out skin tones as well as remove blemishes.
- Select from a wide variety of advanced photo effects then preview a suite of images before you shoot
- Self-portrait lets you know you're in the picture with a beep

SL30: Onyx Black, Neutral Silver, Candy Pink *(B&H#SASL30*)* **89.95**
SL102 : Black, Silver, Pink, Rose *(B&H# SASL102*)* **99.99**

SL202

Step-up features from the SL102—

- 2.7" Intelligent LCD display
- Smile Shot automatically triggers the camera only when a smile is detected on the subjects' faces
- Blink Detection automatically fires two consecutive shots if a subject's eyes are closed.
- When selected, Smart Auto will automatically choose from one of 11 scene modes to best suit the shooting environment.
- Smart Album makes it easy to search for a specific image. Sort by the date, content, color scheme or theme.

SL202: In Black, Silver, Pink, Gray *(B&H# SASL202*)* **119.95**

SL420 (10 Megapixels)

Step-up features from the SL202—

- 5x optical zoom (35-175mm equivalent)
- Dual Image Stabilization combines the strengths of both optical (OIS) and digital (DIS) image stabilization to help reduce blur caused by an unsteady hand.

SL420: In Black, Grey, Silver *(B&H# SASL420*)* **139.99**

SL620 • SL720 (12 Megapixels)

Step-up features from the SL420—

- 12-megapixel resolution • Large 3" LCD screen
- Zoom and image stabilization can be used while recording video.
- The SL720 steps-up with a 5x wide-angle zoom (28-140mm) and 720p high-definition video recording with HDMI connectivity. This allows the camera to be connected to an HDTV through a cradle for high-quality viewing of footage and photos.

SL620: In Black, Grey, Silver *(B&H# SASL620*)* **169.99**
SL720: In Black, Silver, Red *(B&H# SASL720*)* **199.95**

DualView TL220 • TL225

Take part in capturing the moment like never before, the Samsung DualView Camera with a 1.5" front LCD screen–lets you get out from behind the camera and get in the shot. Set up the perfect shot–with you in it–time after time. Other features include 12.2-megapixel resolution, Schneider-Kreuznach 4.6x wide angle zoom lens (27-124mm equivalent), advanced Dual Image Stabilization, Perfect Shot System and HD video. Otherwise identical, the TL220 features a 3" Touchscreen LCD (230,000 pixels) while the TL225 step-up with 3.5" Touchscreen LCD (1,152,000 pixels).

- In Child Mode the 1.5" front LCD can keep children's attention through built-in cartoons, letting you catpture those special expressions only kids can make. Countdown Timer lets you coordinate any shot perfectly.
- Smart Auto analyzes key elements of your composition, then chooses from 14 different preset modes to take the perfect shot.
- Schneider-KREUZNACH 4.6x wide-angle optical zoom lets you capture beautiful landscapes, wedding parties and skyscrapers without having to back up.
- Face Detection (up to 20 faces) adjusts focus and exposure.
- Frame Guide lets you set up a shot, then give it to a friend and your frame guide is there to follow. All you have to do is smile.
- Perfect Portrait System takes the guess work out of shooting beautiful portraits. Key features includes Smile Shot and Blink Detection, Beauty Shot, and Red-eye Fix mode.
- Smart Touch AF lets you focus on a different part of the shot by simply touching the desired area. That means your subject is always be in focus—no matter where in the frame it may be.
- The rear LCD Touchscreen lets you scroll quickly through all menus, and easily access your photo library. The Haptic vibration response registers your choices.
- Record 1280 x 720p HD video at 30 fps. The H.264 format also allows you to record four times more than M-JPEG - the format used in many other digital cameras - and delivers a much higher video and sound quality. With their mini-HDMI connector, you can watch your videos with any HDTV (adapter not included).
- Shots you didn't really want to delete are saved in a temporary folder just in case you have second thoughts.
- Smart Album feature lets you quickly scroll through your entire image library and organize images a multitude of ways.

DualView TL220: Available in Blue *(B&H# SATL220BL)* and Red *(B&H# SATL220R)* **299.95**
DualView TL225: Available in Orange *(B&H# SATL225O)* and Purple *(B&H# SATL225PU)* **349.95**

TL320

The top-of-the-line TL320 steps up from the SL720 with an all metal body, 3" hVGA AMOLED (active matrix organic LED screen), 5x extra wide-angle zoom lens (24-120mm equivalent) and more exposure control—aperture priority, shutter priority, as well as full manual shooting modes.
The organic LED screen out performs conventional TFT LCD screens with better contrast and a brighter screen that really helps when shooting in both bright sunlight and dark conditions. The 460k pixel packed screen also shows fantastic detail when framing the shot and in playback.

TL320: Available in Black *(B&H# SATL320B)* and Silver *(B&H# SATL320S)* **379.95**

HZ10W (10 Megapixels) • HZ15W (12 Megapixels)

The compact 10-megapixel HZ10W and 12-megapixel HZ15W feature an ultra-wide angle 10x optical Schneider zoom lens (24-240mm equivalent), that goes beyond the 28mm wide angle focal length of other cameras while adding powerful telephoto capabilities. They also feature 2.7" LCD screen, Face Detection technology, Smile Shot, Blink Detection, Beauty Shot, and Samsung's proprietary Smart Album program.

HZ-10W

- For added stability and blur-free images, especially when using them at maximum zoom, they incorporate both Optical and Digital Image Stabilization. Users have the option of simply using Optical Image Stabilization to help reduce blur caused by hand shake, ideal for well-lit environments, or choosing Dual Image Stabilization and combining the strengths of Optical and Digital Image Stabilization. Dual Image Stabilization is ideal for low-light environments where flash isn't desired.
- They offer a host of manual controls. Select shutter speed, from 16-1500 of a second, as well as adjust focus and aperture settings. Users can also dial in exposure in 1/3EV steps at a maximum of ±2EV and select a desired ISO up to 1600 or 3200 at 3MP resolution.
- They can record 720p high-definition video at 30 frames-per-second (fps). They utilize H.264 compression allowing users to record video for longer periods of time. Shooters can utilize Optical Image Stabilization and their 10x optical zoom while recording video, as well as Samsung's Successive Recording mode, which lets users pause and then resume filming without having to save the clips as individual files.

HZ-15W

HZ10W *(B&H# SAHZ10WB)* **279.99**
HZ15W *(B&H# SAHZ15WG)* **299.99**

SONY

Cyber-shot DSC-W180 • DSC-W190

Ideal for beginners who want to capture high quality pictures with easy-to-use functions, the 10.1-megapixel DSC-W180 and 12.1-megapixel DSC-W190 feature 3x optical zoom lens (35-105mm equivalent), Smile Shutter mode, 2.7" LCD screen, seven easy-to-use Scene Selection modes to quickly adjust for specific shooting conditions, and an easy shooting mode that simplifies operation while offering helpful on-screen instructions. Includes rechargeable lithium-ion battery and charger.

- Smile Shutter technology automatically detects and captures a smiling face.
- Face Detection tracks up to eight faces in a scene, fine-tuning focus and exposure for beautiful portraits.
- Optical SteadyShot image stabilization compensates for camera shake and prevents blur.
- 320 x 240 Movie Mode at 30 fps
- Up to ISO 3200 so you can take photos indoors or in low light without the need for a flash.
- Change the aspect ratio of an image right in the camera from 4:3 to 16:9.
- Retouch and enhance photos with in-camera trimming and red-eye correction
- Beginner-friendly function helps navigate through the various functions and settings

DSC-W180: Available in Silver *(B&H# SODSCW180)* **149.00**
DSC-W190: Available in Black *(B&H# SODSCW190B)* and Metallic Red *(B&H# SODSCW190R)* **169.00**

Cyber-shot DSC-W290

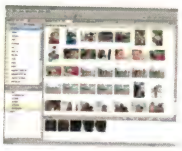

Stepping up from the DSC-230W, the DSC-W290 features a wide angle Zeiss Vario-Tessar 5x zoom lens (28-140mm equivalent), Intelligent Auto (iAuto) mode, HD video recording, Selected Face Memory and Anti-Blink function.

Step-up features from the DSC-W230:

- Intelligent Auto (iAuto) mode goes beyond traditional auto settings by recognizing and adjusting to scene conditions and lighting, enhancing natural skin tones, and reducing blur.
- Record video in HD 1280 x 720 resolution for stunning large-screen home movie playback.
- Record in 16:9 High Resolutio mode for viewing images on an HDTV
- Optimizing focus, exposure, and white balance for a specific face is easier with selectable facial memory, even when the subject leaves the frame. Perfect feature for situations when the goal is always to focus on a certain person.
- Easy Image Management takes the hassle out of sorting through large volumes of image data, by browsing in four convenient ways, so you can quickly select and view your desired photos.
- In Burst Mode, the camera can fire up to 100 shots at 0.62 second intervals at any resolution.
- In-camera editing and retouching functions include: Trimming, Red-Eye Correction, Soft Focus, Partial Color, Fisheye Lens, Cross Filter, Radial Blur, Retro, Happy Face and Unsharp Masking effects.
- Anti-blink function works by capturing two images, recording only the photo with less squinting. If a blink is detected in other shooting modes, a warning will be displayed after you take the shot.

Cyber-shot DSC-W290: Available in Black *(B&H# SODSCW290B)*, Silver *(B&H# SODSCW290)*, Blue *(B&H# SODSCW290L)* and Titanium *(B&H# SODSCW290T)* **229.99**

Sony PMB (Picture Motion Browser) Software:

Sony PMB (Picture Motion Browser) software bundled with all Cyber-shot Digital Still Cameras provides a simple, easy-to-use way to transfer video and still images to your PC, as well as sort, edit, and output to data disc and the Web. Finding your images with PMB is easy with Calendar view and Face Search. Face Search allows you to filter by faces (one or many) and also a specific person's face. Share images and videos on popular sharing sites with Media Services function.

Cyber-shot DSC-W220 • DSC-W230

The 12.1-megapixel DSC-W220 and DSC-W230 step-up from the DSC-190W with a Zeiss Vario-Tessar 4x optical zoom (30-120mm equivalent), 14 scene modes, Intelligent Scene Recognition and Dynamic Range Optimizer. Otherwise the same, the DSC-230W has a 3" Clear Photo LCD.

- Dynamic Range Optimizer uses a sophisticated algorithm to determine the best exposure and contrast settings in almost any shooting environment.
- Use Auto mode for automatic shooting, or choose from 14 convenient photo modes to quickly adjust for specific shooting conditions.
- Intelligent Scene Recognition (iSCN) Mode automatically detects 5 different scenes conditions and within 1/30th of a second selects the appropriate camera settings. In low light or backlit conditions they immediately take a second photo with optimized setting so you can chose which to keep.
- Record high resolution 16:9 images and view them on an HDTV via supplied HD output adapter cable.
- Capture VX Fine (640 x 480) audio/video clips (up to 10 minutes) at 30 frames per second.
- Supplied NP-BG1 battery supports up to 370 shots between charges.

PHOTOMUSIC combines images with music to produce fun and entertaining slide shows. Select from pre-loaded tracks on camera or transfer your own from your compatible PC.

Cyber-shot DSC-W220: Available in Black *(B&H# SODSCW220B)*, Silver *(B&H# SODSCW220)*, Blue *(B&H# SODSCW220L)* and Pink *(B&H# SODSCW220P)* **159.99**

Cyber-shot DSC-W230: Available in Black *(B&H# SODSCW230B)*, Silver *(B&H# SODSCW230)*, Blue *(B&H# SODSCW230L)* and Red *(B&H# SODSCW230R)* **179.99**

Cyber-shot DSC-T90

Featuring a distinctive and svelte design, the 12.1-megapixel ultra-chic DSC-T90 (less than 5/8" thin), has the same feature set as the DSC-W290 except it comes with Carl Zeiss Vario-Tessar 4x optical zoom lens (35-140mm equivalent). It also adds a 3" Clear Photo LCD Touch-Screen display to navigate menus, specify where you want the camera to focus, or zoom in on the pictures you've taken for a closer look at details. Let your imagination run wild with the built-in Paint Pen, as well as more than 30 stamps and 15 types of picture frames. Painted images are saved separately from the original images, so you can have fun without having to worry about permanently altering your original images.

Cyber-shot DSC-T90: Available in Black *(B&H# SODSCT90B)*, Silver *(B&H# SODSCT90)*, Blue *(B&H# SODSCT90L)*, Pink *(B&H# SODSCT90P)* and Titanium *(B&H# SODSCT90T)* **279.99**

Cyber-shot DSC-H20

The 10.1-megapixel DSC-H20 is designed for those who want all the features of the DSC-W290 in a high zoom camera. Equipped with a Carl Zeiss Vario-Tessar 10x optical zoom (38-380mm equivalent), the camera is ideal for great outdoor, sports, and travel photos.

Cyber-shot DSC-H20:
Available in Black *(B&H# SODSCH20)* **279.99**

SONY

Cyber-shot DSC-TX1 (10.1 Megapixels)

The DSC-TX1 incorporates "Exmor R" back-illuminated CMOS sensor for improved shooting in low-light scenarios, enhanced image clarity and drastically reduced grain, creating amazingly clear, vibrant photos. It also features 720p HD recording, Hand-held Twilight and Anti-motion Blur, and Multi-shot modes.

- Carl Zeiss Vario-Tessar 4x optical zoom with optical SteadyShot image stabilization. Plus, the lens can focus just 0.4" from a subject for extraordinary close-up shots.
- In the Sweep Panorama mode the camera shoots continuously while you sweep across the scene and then automatically stitches the pictures together to create one stunning panoramic photo.
- Touch panel lets you scroll through images with an effortless "flick" of your finger on the 3-inch Clear Photo LCD Plus display.

DSC-TX1: Available in Gray *(SODSCTX1G)*, Silver *(SODSCTX1)*, Blue *(SODSCTX1BL)* and Pink *(SODSCTX1P)* **379.99**

DSC-WX1 (10.2 Megapixels)

The DSC-TX1 incorporates "Exmor R" back-illuminated CMOS sensor for improved shooting in low-light scenarios, enhanced image clarity and drastically reduced grain, creating amazingly clear, vibrant photos. It also features 720p HD recording, and Hand-held Twilight and Anti-motion Blur modes. Wide angle 5x (24-120mm equivalent) optical zoom with a large f/2.4 maximum aperture– offers nearly twice the light gathering capability of conventional lenses.

- Capture ten full 10.2 megapixel resolution images at up to 10 fps
- Large 2.7" Clear Photo LCD Plus display
- Pet-mode minimizes blur when shooting moving pets utilizing Motion Detection technology and automatically turns off the flash to reduce glowing pet eyes.
- Retouch and enhance your photos on the go with in-camera trimming, red-eye correction, and unsharp masking functions.
- PHOTOMUSIC combines images with music (4 tracks, 5 minutes per track) to produce fun and entertaining slide shows with standard visual effects (Simple, Nostalgic, Active and Stylish).

DSC-WX1: Available in Black *(B&H# SODSCWX1B)* **349.99**

Cyber-shot DSC-HX1 (9.1 Megapixels)

Packed with state-of-the-art features, the DSC-HX1 is equipped with 1/2.4" Exmor™ CMOS image sensor, professional quality wide-angle 20x optical G-Lens, 3" Clear Photo LCD™ tilt display, sweep panorama technology and incredible high-speed shooting of up to 10 fps at full resolution in the continuous burst mode. It can record stunning HD 1080p video, and in Hand-held Twilight Mode allows you to capture cleaner and sharper night shots without using a tripod. Other features include Intelligent Auto Mode and Scene Recognition, Face Detection and selected face memory, Smile Shutter, Anti-Blink function, Dynamic Range Optimizer and Optical SteadyShot image stabilizer.

- 9.1-megapixel Exmor™ CMOS image sensor brings out the full resolving power of the camera's precision G-Lens to deliver extremely fast speed, high resolution, and stunning low-light sensitivity with improved image clarity and drastically reduced noise.
- Wide angle 20x optical G-Lens (28-280mm equivalent) has a six blade aperture capable of producing a beautiful bokeh (beautifully defocused backgrounds with a soft natural feel).
- 3.0" Clear Photo LCD Plus™ display, tilts up or down 90° for easier high and low angle shooting and features a special anti-reflective coating for sharp visibility, even in bright sunlight.
- Capture breathtaking shots with the Sweep Panorama Mode. Simply press the shutter button and sweep the camera in the desired direction (horizontal or vertical), and the camera continuously shoots at a high speed and then seamlessly stitches the images together to create a stunning panoramic image up to 224° — wider than a fish-eye lens.
- In Handheld Twilight Mode, the camera captures six images in a fraction of a second, keeping the moving object from one and superimposing the rest of the frame, to create a single optimized image with 50% less noise than an image shot with a camera with a traditional image sensor.
- Records HD 1080p video and crisp, lear audio via built in stereo mic. HD movie files (1440 x 1080) are recorded at 30fps in high quality AVC/H.264 format, for easy sharing on a compatible PC, and when uploaded on to the web. HDMI output allows images to be viewed on a large screen HDTV.

IPT-DS1 Party-Shot

Personal Photographer for DSC-TX1 and DSC-WX1

Relax and enjoy the party while the IPT-DS1 Party-Shot automatically takes your photos for you. It works with the the DSC-TX1 or DSC-WX1's Face Detection and Smile Shutter technologies to automatically take photos at an event. Intelligent composition uses the rule of thirds to compose great shots and motion detection seeks out movement to take the photo at the right moment. *SOIPTDS1* **149.95**

SIGMA

DP2 (14 Megapixels)

The DP2 is a high-end compact digital camera equipped with a 14-megapixel Foveon X3 SLR-sized (2652 x 1768 x 3 layers) image sensor—7 to 12x larger than the 1/1.8" to 1/2.5" image sensors used in ordinary compact digital cameras. It features Sigma's unique 'True' and 'True II' image processing engines, 24.2mm f/2.8 lens (41mm equivalent), 2.5" LCD monitor, RAW format recording, video recording, a host of exposure and metering modes, pop-up flash and hot shoe.

- The 14-megapixel Foveon X3 image sensor succeeds in full-color capture, with the full RGB, in a single-pixel location. Since the moire is not generated, use of a low-pass filter is not needed and full information of light and color can be captured with three-dimensional feeling.
- RAW recording mode (as well as JPEG) for retaining full image capture detail of the utmost quality. The bundled Photo Pro software is a RAW image developer that converts all RAW data quickly and easily. Adjustments can be made in three separate modes:
  – The X3F Mode stores the original settings of the image at the point of capture.
  – In Auto Adjustment Mode, software analyzes and automatically makes adjustments to the RAW data.
  – Custom Mode lets you make individual adjustments with simple slider controls in the software.
- 24.2mm f/2.8 lens, SLR-sized image sensor and the large f/2.8 aperture combination provide natural shallow depth-of-field and attractive bokeh effect.
- 7 Color Modes which adjust saturation, contrast, etc. for each shooting situation. Select from Portrait, Landscape, Vivid, Standard, Neutral, B&W or Sepia.
- Hot shoe for use of the optional EF-140 DG dedicated external flash and optional optical viewfinder.
- An optional hood is available to block out extraneous light. It also functions as an adapter to accept 46mm filters and close-up lens

FANTASEA

Underwater Housings

For Nikon & Canon
Point & Shoot Cameras

Compact, lightweight and made of durable injection molded polycarbonate, Fantasea housings offer full function controls, strong construction, coated brass double O-ring seals on all command control buttons, a radial O-ring main seal, LCD screen glare protection and stainless steel buckles.

They allow diving depths of up to 60 meters/200 feet and include a one-year free D.E.P.P flood insurance policy.

A complete specially designed accessory system is also available including wide angle lenses, red filters, trays, flex arms, ball & joint arms, slave flashes, focus lights, fiber optic cables, cases and more.

For compatible housings please call or log-on to our site

ikelite

ULTRAcompact Housings

Ikelite's ULTRAcompact digital housing is the ultimate in convenience, affordability and durability for your point-and-shoot system. Each model is designed with an underwater photographer's needs in mind and built to last. Easy open latch and drop in camera loading make set up a breeze. Simple sophistication and a full range of accessories provide professional quality without the price.

Available for compact Canon, Fuji, Nikon, Olympus and Sony point-and-shoot digital cameras.

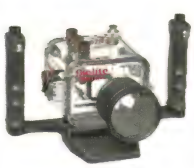

Shown with AF-35 Kit

AF35 AutoFlash Kit

The AF35 Autoflash replicates your camera's flash for automatic exposure in any situation. You only have to know how to point.

The AF35 AutoFlash it is an effortless and affordable way to add a flash to your point-and-shoot camera system. Everything you need to get started is in the box - just attach it to the bottom of your housing and start taking pictures. Includes AF35 AutoFlash, Flex Arm, AutoFlash Sensor, handle with rubber grip, single tray, and mounting hardware.

IK4035 ..... **398.95**

Compact Housings

Ikelite's compact housings accommodate cameras that are too large to fit in the ULTRAcompact housing. They are molded of crystal clear polycarbonate for corrosion free operation up to a depth of 200'. Housings accept optional wide angle conversion lenses. Unobstructed view of camera's information and control functions. Rugged aluminum handles and base plate allow attachment of video lights or strobe arm systems.

For cameras that feature a hotshoe, Ikelite incorporates special TTL conversion circuitry into the housing. This allows the camera to communicate with any current Ikelite DS Substrobe. The camera controls the Substrobe's output resulting in effortlessly perfect exposure. For cameras without hotshoes, the camera's built-in flash can be used with the EV-Controller to fire an external flash.

For compatible housings please call or log-on to our site

SEA&SEA

DX-2G Compact 12.1-Megapixel Digital Camera and Underwater Housing Set

This set includes the 12.1-megapixel DX-2G camera and a Sea & Sea housing that is rated to a depth of 180'. The camera has a host of features that make it well suited for underwater use, as well as snorkeling, surfing, skiing, fishing and sailing. These include a 3x optical zoom (24-72mm equivalent) 2.7" TFT liquid crystal monitor (460,000 pixels), shutter lag time of only 0.1 sec., manual as well as program exposure modes, exceptional macro capability and a large buffer that allows you to shoot 5 consecutive images with a 3 sec. write time in RAW mode. The housing allows access to all camera functions underwater. Comes with an LCD monitor hood to improve LCD visibility.

- Up to three individual settings of the My Setting function allow you to customize recording settings to your preference.
- White balance mode provides color correction when shooting available light
- Built-in electronic level allows you to verify that the camera is level for landscape photography
- 1/2" (1cm) close-up photography possible without an accessory lens

SeaLife

DC800 • DC1000

8- and 10-Megapixel Underwater Digital Cameras

Capture your memories—colorful tropical fish, white sand beaches and crystal blue waters. Fully rubber armored for shock protection, the 8-megapixel DC800 and 10-megapixel DC1000 make it easier than ever to take sharp, colorful underwater pictures as you explore the ocean world both above and below the water. They are depth tested to 200' (60m), incorporate a large 2.7" LCD screen for precise framing underwater, and feature a variety of dive-specific settings for blue and green water conditions at shallow or deeper depths. In Spy mode, the cameras can be set to automatically take shots in 10-, 30- second, 1-, or 5-minute intervals. Easily expand them with one or two SeaLife external flash accessories. The housing allows access to all camera functions underwater. The sure fire flash connection holds your fiber optic cable in the perfect position so the flash will fire every time.

- 4x optical zoom (DC800), 5x optical zoom (DC1000)
- Continuous 640 x 480 video recording with sound.
- Removable inner camera for use on land
- Big shutter button and widespread controls for easy access, even with dive gloves on.
- Ext Flash Manual mode for manual aperture and shutter speed exposure controls when using one or two external flash accessories. Ideal for advanced UW photographers.
- Easy 1-2-3 graphic on screen guide –takes the guess work out of setting up the camera for great pictures (DC1000 only)

EOS-1v

The EOS-1v proves that there is still a valuable place in you camera bag for a high quality 35mm film camera. It's a model that exemplifies the Canon tradition of advanced features and exceptional speed in a rugged, reliable package. To "tweak" its operational performance to your specific shooing style, the EOS-1v has more customizable features than any other Canon 35mm SLR.

- Magnesium alloy body covers and hybrid chassis for maximum strength
- Shutter durability tested to 150,000 cycles
- 72 individual gaskets for moisture and dust resistance
- Continuous shooting speeds of 9 fps in AI Servo mode, 10 fps in One Shot with PB-E2/NP-E2
- 20 built-in Custom Functions plus 31 additional Personal Functions for a total of 63 individual settings.
- Rubberized grip surfaces and proven EOS-1 control layout

Canon

EOS Rebel XS

The EOS Rebel XS provides an affordable entry into Canon's EOS system of interchangeable SLR lens, flashes, and system accessories. Point-and-shoot owners upgrading to this camera will appreciate the Rebel XS's Live View mode and 2.5" vivid LCD as it is a great aid in composing photographs, while the powerful 10.1 megapixel sensor with DIGIC III processing and ISO sensitivity up to 1600 produce a significant improvement in image quality. The XS can keep up with the action by capturing shots at 3fps until the memory card is full. Dust issues are addressed by Canon's integrated cleaning system that literally shakes particles off the sensor. With the Rebel XS digital SLR and access to the vast Canon EF lens library, budding photographers have greater allowance for creativity than pocket cameras could provide.

- 10-megapixel CMOS sensor • 2.5" LCD with Live View • 3 fps shooting speed
- Pop-up flash • 1.6x lens crop factor • Auto Lighting Optimizer
- Picture Style Settings

Kit with EF-S/18-55 (Black) *(B&H# CAEDRXSKB)*.....**599.95**

EOS Rebel XSi

Canon's EOS Rebel XSi features a new 12.2-megapixel CMOS sensor with microlenses over each pixel to reduce noise and enhance sensitivity up to ISO 1600. The nine-point autofocus system contains a newly developed AF sensor. The camera can continuously capture 3.5 frames per second for bursts of up to 53 images in large/fine JPEG mode and 6 frames in RAW mode. A Live View mode lets users frame shots through the LCD screen without lowering the refl ex mirror. An integrated cleaning system shakes dust particles off the sensor. The durable body is constructed of stainless steel and polycarbonate embedded with glass fiber.

- 12.2-megapixel CMOS sensor • 3", 230,000 pixel LCD monitor
- Shutter speed: 30 - 1/4000 second • Optical image stabilization • Built-in flash and TTL hot shoe • 14-bit A/D converter
- Auto optimization for highlight-shadow control • SD/SDHC memory cards • Weight: 16.8 oz. (body only)

Kit with EF-S/18-55 (Black) *(B&H# CAEDRXSIKB)*.....**749.95**

EOS Rebel T1i

With a 15.1 megapixel CMOS sensor and HD video capture, along with the DIGIC 4 Imaging Processor, the Rebel T1i is the latest and greatest model in the Rebel lineup. In addition to HD video capture, it offers 3" Clear View LCD (920,000 pixels) monitor and user-friendly functions such as Auto Lighting Optimizer, Creative Auto Mode and Canon's Live View modes, all the right tools to open new doors for imaging enthusiasts. High performance features include continuous shooting at 3.4 fps for up to 170 large/fine JPEG images or up to nine RAW images in a single burst when using a class 6 or higher SD or SDHC memory card. It provides ISO speeds from ISO 100 up to ISO 3200 in whole stop increments, along with two additional high-speed ISO settings – H1: 6400 and H2: 12800.

The camera features 16:9 720p HD video capture at 30 fps as well as a Full HD 1080p (1920 x 1080) video capture at 20 fps, and a third option to record 4:3 standard TV quality (SD) video capture at 640 x 480, 30 fps. The camera allows adjustment to image sharpness, contrast, color saturation and white balance, and have those settings apply to the movie image as well. Features Live View function (Quick, Live and Face Detection) for both still images as well as video as well as Canon's "CA" Creative Full Auto setting.

EOS 50D

Designed for avid hobbyists and semi-pros, the EOS 50D features 15.1 megapixel CMOS sensor, 6.3 fps shooting, and Canon's latest DIGIC 4 image processor, the EOS 50D delivers pro-level speed and resolution. The sensor captures detailed, low-noise images suitable for large-scale reproduction or creative cropping. High-speed, low light shooting is enabled by ISO levels of 3200, expandable to 12800. And, the improved self cleaning sensor incorporates a fluorine coating that increases protection by helping to reduce, repel, and remove unwanted dust. Canon's latest DIGIC 4 processing engine works with the CMOS sensor to deliver 14-bit image processing for smooth gradation and natural-looking colors, as well as fast startup times and near-instant image review. In the field, the D50's creative auto mode with quick control screen helps novice users narrow the gap between fully automatic and manual control for great results without technical knowledge.

Canon

EOS 7D

New

The high-performance EOS 7D features the resolving power of an 18-megapixel APS-C format CMOS sensor and dual DIGIC 4 image processors to enable 8 fps capture of high-definition, low-noise images at sensitivity levels up to ISO 12800. In addition still images, the EOS 7D can capture true HD 1080p video at 30fps. Video clips can be up to 12 minutes in length or 4GB in size, and you use of all Canon EF and EF-S-mount lenses, which enables an exceptional range of creative visual possibilities. To ensure clean, blemish-free image files, the 7D employs a dual dust-reduction system.
Transparent LCD overlay option enables advanced data display (user-selected AF modes, spot metering circle, and on-demand grid lines) within the optical viewfinder. In addition, Live View mode enables you to compose, review, and edit images using the 3" 920,000-pixel LCD. Unique Dual Axis Electronic Level and tilt display enables you to adjust the roll and pitch of the camera in 1° increments, using the viewfinder or LCD. Capture bursts of up to 126 JPEGs (large) when using UDMA CF memory cards, or 15 when shooting RAW files. Constructed out of rugged magnesium-alloy and sealed against dust and weather.

EOS 7D Body only *(B&H# CAE7D)* **1699.95**
EOS 7D Body with 28-135mm f/3.5-5.6 IS USM Lens *(B&H# CAE7D28135)* **1899.95**

EOS 5D Mark II

Relatively compact and affordable, the EOS 5D Mark II couples the power of a 21.1-megapixel full frame 24 x 36mm CMOS sensor, with groundbreaking 1920 x 1080 Full HD video capture to open the door to a much wider range of imaging possibilities for photographers. It also features a DIGIC 4 imaging processor and significantly lower noise, with sensitivity up to ISO 25,600. For convenience, it has a large, clear 3" Clear View LCD screen with 920,000 pixels for enhanced clarity and color when viewing images.

- ISO speeds from ISO 100 up to ISO 6400 in 1/3-stop increments, along with two high-speed settings - H1 and H2 - of ISO 12800 and ISO 25600, respectively, as well as a low-speed setting of ISO 50.
- Continuous shooting of full-resolution JPEGs at 3.9 fps to the capacity of the memory card or up to 14 RAW images in a single burst when using a UDMA CF card.
- 16:9 Full HD (1920 x 1080) at 30 fps as well as 4:3 640 x 480 at 30 fps.
- Mic terminal for external stereo microphones, also has an HDMI port to output crisp, clear images to an HDTV.
- Adjust image sharpness, contrast, color saturation and white balance, and have those settings apply to the movie image.
- Three Live View AF modes - Quick, Live and Face Detection Live mode - for capturing either stills or video, each with its own attributes.
- In addition to RAW format, the camera offers two more manageable file size options with sRAW1 and sRAW2 recording formats.
- Two silent shooting modes for law enforcement officials, and for behind-the-scenes shooting on movie sets.

EOS 5D Body only *(B&H# CAE5D2)* **2699.95**

EOS-1D Mark III DIGITAL

The Canon EOS-1D Mark III is a robust and durable professional digital SLR camera that uses a unique 10.1 megapixel CMOS sensor (APS-H size) with an integrated cleaning system to produce images of stunning quality. The 45-point AF system provides fast and accurate focus, while the dual DIGIC III image processors work in tandem to speed up every process and further refine image quality. The camera provides an amazing burst shooting rate of up to 10 fps with a maximum of 110 shots in JPEG or 30 RAW images. The camera is constructed with a high-durability body made from magnesium alloy, and a shutter that has been designed and tested to withstand over 300,000 exposures.

- 10.1 megapixel APS-H size CMOS sensor; 1.3x lens conversion factor
- Dual "DIGIC III" image processors; 14-bit A/D conversion
- 3" LCD monitor with Live View
- AF system with 19 user-selectable AF points and 26 additional assist points
- Weather-resistant construction, shutter durability-tested to 300,000 cycles
- EOS integrated cleaning system

EOS-1D Mark III Body only *(B&H# CAE1D3)* **3999.95**

EOS-1Ds Mark III DIGITAL

The EOS-1Ds Mark III features a full-frame 21.1-megapixel CMOS sensor that delivers impressive image quality, while its dual DIGIC III image processors work in tandem to speed up data handling and camera operation. Tough, high-durability body and shutter designs, combined with the unique EOS Integrated cleaning system, give you professional-level dependability. Choose from over 50 EF lenses, 15 interchangeable focusing screens, and an extensive wireless remote control and lighting accessories for virtually unlimited creativity in the digital world.

- Highlight Tone Priority and 14-bit A/D conversion
- 3" LCD monitor with Live View • CF Card Type I/II, SD/SDHC
- 5 fps, burst rate for 12 RAW images or 56 full-resolution JPEGs
- 45-point AF system and 63-zone TTL full aperture metering

Canon

10-22mm f/3.5-4.5 EF-S USM

For ultra-wide angle photography with the 40D, 30D, 20D and Digital Rebel Cameras, look no further than Canon's smooth and solid 10-22mm EF-S. Designed exclusively for digital SLRs, it has the same angle of coverage as a 16-35mm lens (in 35mm format). It is in fact, the widest lens available from Canon for these cameras. A Super UD and 3 aspherical lens elements assure excellent image quality while the USM autofocusing is fast and silent.

B&H# CA102235EF **789.00**

EF-S 17-55mm f/2.8 IS USM

The large circular aperture produces a shallow depth-of-field, creating background blur that draws attention to the photographic subject. The lens construction includes UD and aspherical elements, plus Image Stabilizer lens groups that shift to compensate for camera movement, ensuring clear, crisp images, even in dim light. With a ring-type USM, inner focusing & AF algorithms, this lens achieves autofocus quickly and quietly.

B&H# CA175528IS **1060.00**

EF 50mm f/1.2L USM

Ideal for low-light photography, the high-performance EF 50mm f/1.2L USM is a standard focal length optic featuring an ultra-large aperture for a narrow depth of field that produces a soft background blur. Its weather-resistant with lens coating and construction that are designed to minimize he ghosting and flare that frequently occur with DSLRs, to deliver superb image resolution and contrast.

B&H# CA5012LEF **1599.00**

100mm f/2.8 EF USM Macro Lens

The 100mm f/2.8 macro lens will focus over the full range from infinity down to life size (1:1 reproduction ratio). A high-performance ring-type ultrasonic motor provides fast and silent operation throughout its focus range. It also allows full-time manual focusing. An advanced optical formula with a three-group floating element system provides exceptional close-up performance, and a wide manual focusing ring offers smooth action and full-time manual focus override, even in the AF mode.

B&H# CA10028MEFQ **639.95**

EF 24-70mm f/2.8L USM

This lens improves on the previous L-series 28-70 f/2.8 lens with something even better. The range has been extended to cover an ultra-wide-angle 24mm, which makes it ideal for digital as well as film shooters, and the optics are even better than before with two aspherical elements and a totally new UD glass element. It's now sealed and gasketed against dust and moisture, and an improved processing unit makes the AF faster than ever.

B&H# CA247028LEF **1379.95**

70-200mm f/2.8L IS USM

Incorporating Canon's second generation two-stage Image Stabilization technology, this telephoto zoom responds in as little as 0.5 seconds, while providing up to three stops of correction for camera shake. Its AF system has been refined for better response time and tracking speed. And even the new 8-blade circular aperture offers a more pleasing out-of-focus image. Constructed to pro standards, this fast zoom is also highly resistant to dust and moisture.

B&H# CA7020028LIS ..... **Call or Log-on**

LENS FEATURES

L- Contains Aspherical Elements. A premium line of optical glass suited for demanding professional and artistic purposes

IS- Image Stabilization. A gyroscopic stabilizer built into the lens compensates for camera shake, thus achieving sharp photos with 2–4 stops slower shutter speeds than normally possible.

USM - Ultrasonic Motor. Lenses with the USM designation feature faster and quieter focusing operation without any compromises

EF - Electro-Focus. Through a series of electronic contacts, the control of lens focusing is provided by the camera body.

EFS - Electro-Focus (Short). Slightly different EF mount that is compatible only with the following digital cameras having APS-C sensors: Digital Rebel, XT, XTi, XS, XSi, 20D, 30D, 40D and 50D

DO - An alternative approach to lens formulation that yields compact telephoto lenses and decreased chromatic and spherical aberrations

Carl Zeiss
Manual Focus ZE Lenses for Canon

Film makers and photographers know and appreciate the quality and performance of Carl Zeiss lenses. Real, emotional, and without compromise, Zeiss lenses give the photographer control over every aspect of the composition. Carl Zeiss lenses offer many excellent possibilities for personalized manual composition. It is the subtlety, those fine points of detail, that distinguish a good shot from an excellent one. With excellence you can feel and quality that will last, Carl Zeiss lenses are perfect for decades of intensive use.

D3000

Nikon's most compact and easy-to-use digital SLR, the 10.2-megapixel D3000 combines the latest in creative imaging technology with supreme ease-of-use. From landscapes to portraits, the D3000 delivers professional quality photos with ease. Image sensor coupled with Nikon's exclusive EXPEED processor captures all of your photos with brilliant, life-like color and stunning detail.

A fast 11-point autofocus system tracks subjects in motion and captures action up to 3 fps. Nikon's Picture Control System, comprehensive in-camera editing functions, low-noise 1600 ISO sensitivity, and Advanced Dust Reduction System keep your subjects looking their very best. Review photos and settings on the large 3" LCD with 170° view.

The D3000's Guide mode assists users in choosing shooting modes for a variety of situations and, if they choose, in exploring advanced photographic techniques. From close-ups and landscapes to portraits with soft backgrounds or fast-moving action, Guide mode eases users into the world of digital SLR photography. Settings made with Guide mode can even be fine-tuned before the shot in order to achieve the best possible photos.

D3000 with 18-55mm *(B&H# NID30001855)* **599.95**
D3000 with 18-55mm and 55-200mm *(B&H# NID30002LK)* **849.95**

D5000

With a robust feature set and simple operability backed by superlative technology, the D5000 is the ideal choice for both entry-level digital SLR users and those looking to raise their level of photographic expression. It incorporates numerous imaging technologies from Nikon's high-end DSLRs in a smaller, less-expensive DX-format camera body. This includes the 12.9-megapixel CMOS sensor found in the D90, HD 720p video capture, a 2.7" variable-angle LCD, Live View for composing stills or video from almost any point-of-view, an 11-point autofocus system with Focus Tracking, and 3D Color Matrix II metering. Has an ISO sensitivity up to 200-3200 which can be increased ISO 6400 or decreased to ISO 100. It can shoot in burst-rates up to 4 fps, in RAW mode, or RAW+JPEG image capture. It offers 19 scene modes plus has a scene recognition system with face detection.

Expanded photo editing functions allow for in-camera retouching, including Soft Filter, Perspective Control (which helps correct distortions in perspective), and Color Outline (which creates monochrome outlines of objects in images by eliminating color and tonal gradations). Each editing function is applied to a copy of the image, with the original left unmodified. Rounding it out, Nikon's comprehensive Integrated Dust Reduction System uses and airflow control system to stop the generation and accumulation of dust.

D5000 Body Only *B&H# NID5000)* **729.95**
D5000 with 18-55mm *(B&H# NID50001855)* **849.95**

D90

The D90 features a 12.3-megapixel DX-format CMOS image sensor, 3" (920,000 pixel) LCD display, Scene Recognition System, Picture Control, Active D-Lighting, and one-button Live View, providing the image quality and performance that enthusiasts and pros need every day. With a start up time of just 0.15 seconds and a shutter release lag time of approx. 65 milliseconds, the D90 delivers instant response, and provides continuous shooting at a rapid 4.5 fps. In addition, the D90 can record 720p HD movie clips.

- Sensitivity between ISO 200 -3200, can expanded to 100 or up to ISO 6400
- In-camera image editing and effects
- Scene Recognition System Integrated with Face Detection System
- Optional GP-1 GPS unit provides automatic real-time geo-tagging— another option for organizing your images

D300s

With a 51-point autofocus system, 100% viewfinder accuracy, 7 fps continuous shooting, and low light sensitivity (expandable to ISO 6400), the 12.3-megapixel D300s boasts a professional-grade feature set in a compact, highly durable, metal body. Advanced Live View Technology allows users to compose photos and video with the bright 3-inch (920,000 pixel) LCD. 720p HD Video is captured in true broadcast-quality at a smooth, cinematic 24 fps. An integrated microphone allows you to capture spontaneous audio with video. Even has an 3.5mm stereo input offers higher quality options for professional applications.

Rugged and reliable, the D300s has dual slots for both CompactFlash and SD/SDHC memory cards. Either card can be used for primary storage; the secondary card can be configured for overflow, mirror capture, or video recording. RAW and JPEG files can even be saved to separate cards for convenience. Images can also be copied between cards for easy sharing.

Body only *(B&H# NID300S)* **1799.95**

D700

The D700 brings professional imaging with a full frame image sensor to a lightweight yet durable camera body. It features the exclusive 12.1-megapixel FX-format CMOS sensor, measuring 23.9 x 36mm—nearly identical to the size of a 35mm film frame - thereby eliminating any significant crop factor or focal length multiplier. Images taken with the D700 exhibit exceptional overall quality, broad tonal range and depth, along with extremely low-noise throughout its expansive ISO range of 200 to 6400. Nikon's exclusive EXPEED image processing system allows fast 5 fps frame advance, and the camera incorporates many of the features that have made point-and-shoot digital cameras so popular - such as Live View, Auto ISO, and in-camera image enhancement.

Bright viewfinder provides virtually 100% coverage for accurate framing, while an ultra-high definition (920,000-pixel) 3" makes composing shots in LiveView mode easy. A unique Virtual Horizon digital level sensor ndicates the camera's alignment relative to the true horizon on the rear LCD screen or in the viewfinder. The exterior of the D700 is crafted of magnesium alloy, and an array of rubber gaskets and seals protect vulnerable entry points from dust and moisture. There is an Image Sensor Cleaning function in case dust gets in.

Body only *(B&H# NID700)* **2999.95**

D3

The D3 also features the exclusive FX-format CMOS sensor, measuring 23.9 x 36mm, thereby eliminating any significant crop factor or focal length multiplier. Images taken with the D3 exhibit exceptional overall quality, broad tonal range and depth, along with extremely low-noise throughout its normal ISO range of 200 to 6400. Furthermore, by setting the camera to its built-in options of Lo-1 or Hi-2, the ISO range of the camera can be expanded to the equivalent of ISO 100 or ISO 25,600 respectively, offering unmatched versatility in practically any shooting situation.

Designed with sports photographers and photojournalists in mind, the D3 offers blazing speed and processing power. It has an incredibly fast reaction times with a shutter release lag of only 37 milliseconds, and a start-up time of approximately 0.12 seconds. It is capable of continuous shooting at up to 9fps in full resolution FX-format for up to 64 consecutive frames in JPEG compression and up to 20 frames when recording NEF (RAW) files. The camera can even record images at a mind-boggling rate of 11 fps when shooting in DX-format (5.1 Megapixel) mode.

Picture Control System makes it easy to select and apply adjustments, and offers four basic setting options - Standard, Neutral, Vivid and Monochrome. Photographers can also customize and store up to nine customized options and export up to 99 to a CF memory card, enabling photographers to share settings among multiple D3 cameras. The D3 can be used under the most demanding conditions. The exterior is crafted of magnesium alloy and the camera's shutter mechanism is tested to 300,000-cycle releases. The 3" LCD is strengthened with tempered glass and acomprehensive array of rubber gaskets and seals protect vulnerable entry points from dust and moisture.

Body only *(B&H# NID3)* **4995.95**

D3x

An FX-format digital SLR, the D3X features a massive 24.5-megapixel (6048 x 4032) CMOS sensor and superb low-noise capabilities to provide professional, commercial, high fashion, fine art and landscape photographers with the extreme resolution, dynamic range, color depth, detail and sharpness that clients demand. Whether creating catalogs, magazine covers, billboards or gallery prints, the large 5.94-micron pixel size and high signal to noise ratio produces vibrant images with breathtaking image fidelity while reducing lost highlights and shadows, and ensuring smoother tone reproduction with minimized noise. With full resolution shooting speeds of up to 5 fps, and 14-bit files, that when processed are approximately 138 MB, the D3X offers photographers an extreme level of performance and versatility in the studio or on location.

- Records images as TIFF, JPEG or NEF (RAW) in 12 or 14-bit compressed or uncompressed.
- Shoot in the 5:4 crop mode with 20.4- megapixel resolution, the ideal format for creating 8 x 10" portraits.
- Active D-Lighting, used with 3D Matrix Metering II, helps to determines proper exposure and create realistic contrast while compensating for lost shadows and highlights.
- With DX-format lenses, faster shooting of up to seven frames per second can be achieved at a resolution of 10.5 megapixels.
- Bright and accurate viewfinder offers 100% coverage with 0.7x magnification.
- Exceptionally low noise capable, it offers an ISO range of 100 to 1600, expandable to 50 (Lo-1) and 6400 (Hi-2).
- Large 3" high-resolution (920,000 pixels) LCD screen viewable up to 170°. Can also output to an external display via HDMI.
- Shoots up to 5 fps at full resolution or up to 7fps in DX crop mode (10.5 megapixels).
- Start-up time is only 0.12 seconds and shutter release time lag is 0.04 seconds.
- Scene Recognition System analyzes data from the 1,005-pixel RGB light sensor, to refine auto exposure, auto white balance and autofocus calculations.

Nikon

14-24mm f/2.8G ED AF-S ZOOM

This extreme ultra-wide zoom, wide-aperture lens delivers edge-to-corner sharpness that can surpass that of equivalent fixed focal-length lenses. The silent wave AF motor provides swift autofocus with ultra-quiet operation. No aperture ring on the lens body means a lighter, more compact lens.

(B&H# NI142428GAFS) **1829.95**

18-200mm f/3.5-5.6 II AF-S VR DX

Perhaps no lens can "do it all"; but this zoom lens from Nikon is about as close as it gets. It spans an enormous range that is the equivalent of 27-300mm in the 35mm format. With a compact design and Nikon's latest 4-stop Vibration Reduction technology, this lens is unique in its abilities and tremendously versatile.

(B&H# NI18200235) **849.95**

24-70mm f/2.8G ED WIDE ANGLE AF-S

Fast aperture standard zoom lens optimized for edge-to-edge sharpness on both Nikon FX and DX-format image sensors. The lens also includes two ED (Extra-low Dispersion) elements and PGM aspherical lenses that help control chromatic aberrations while enhancing sharpness and contrast, even at the widest aperture settings.

(B&H# NI247028GAFS) **1799.95**

PC-E 24mm f/3.5D ED MANUAL FOCUS LENS

The Nikon PC-E Nikkor 24mm f/3.5D ED Lens is an ultra-wide lens with special "Perspective Control" tilt and shift functions, making it ideal for architectural photography. Using tilt and shift correction will help obtain a natural-looking perspective in a distortion-free architectural image. The PC-E 24mm is compatible with all digital and 35mm film SLR cameras.

(B&H# NI2435DED) **1999.95**

17-55mm f/2.8G ED-IF

The 17-55mm is a professional grade zoom lens designed exclusively for digital photography. The lens combines a constant 2.8 aperture with fast and extremely quiet Silent Wave Motor focusing and rugged construction. The angle view is equivalent to a 25-82mm lens in the 35mm format making it an ideal choice for all sorts of demanding photographic assignments.

(B&H# NI175528GAF) ..... **Call/Log-on**

70-200mm f/2.8G AF-S VR

This is a lens found in most professional camera kits. The no-compromise design incorporates 5 ED-glass elements, a constant 2.8 aperture, 3-stop Vibration Reduction and Silent Wave Motor autofocusing. The lens handles beautifully with all-internal zooming and focusing mechanisms. Additionally, autofocusing and Vibration Reduction is maintained when using any AF-S series teleconverter. The lens is compatible with all digital Nikon cameras, as well as most recent film SLRs.

(B&H# NI7020028AFS) ..... **Call/Log-on**

LENS FEATURES

D-Type NIKKOR lenses relay subject-to-camera distance information to AF Nikon camera bodies. This then makes possible advances like 3D Matrix Metering and 3D Multi-Sensor Balanced Fill-Flash.

DX NIKKOR are c lenses ompact and light-weight, featuring a smaller image circle specially designed and optimized for Nikon digital SLR cameras.

AFS NIKKOR lenses feature Nikon's Silent Wave Motor which converts "travelling waves" into rotational energy to focus the optics. This enables smooth autofocusing that's extremely accurate and super quiet.

VR (Vibration Reduction) - system minimizes image blur caused by camera shake, and offers the equivalent of shooting at a shutter speed four or three stops faster.

G-Type NIKKOR are compact and lightweight lenses featuring a smaller image circle are specially designed and optimized for Nikon digital SLR cameras.

ED (Extra-low Dispersion) glass offer superior sharpness and color correction by minimizing chromatic aberration. They deliver stunning sharpness and contrast even at their largest apertures.

EDIF (Internal Focusing (IF) technology enables internal optical movementwithin the interior of the non-extending lens barrel. This allows for a more compact, lightweight construction as well as faster focusing and a closer focusing distance.

FM10

The FM10 is a lightweight, affordable, fully-manual film SLR that introduces the student/beginner photographer to the fundamentals of exposure, aperture, and shutter speed controls. Exposure settings, film advance and rewind are all done manually. Focusing manually while viewing through the lens is an exciting way for a budding photographer to develop a sense of composition. The FM10 is compatible with many Nikon accessories. Its built-in hot shoe accepts just about any Nikon Speedlight in manual or non-TTL auto modes, plus the FM10's built-in center-weighted light meter couples with a vast array of Nikon manual focus and autofocus ("D" type) lenses.

- Shutter speeds: 1 to 1/2000 sec. + B • Center weighted metering • ISO Range 25 to 3200 • Depth-of-field preview
- Double exposures • Self-timer • 1/125 sec. Flash sync

FM10 with 35-70 lens, case, strap and batteries *(B&H #NIFM103570)* **319.95**

F100

Derived from Nikon's previous top-of-the-line F5 camera, the F100 was designed as a smaller, lighter version for the professional and advanced amateur. Some features of note are the camera's fast five-point Dynamic AF system and 4.5 frame-per-second auto film advance that can keep up with almost any type of action. Nikon's innovative 3D matrix metering and 3D Multi-sensor balanced bill-blash assure accurate exposures in available light or with flash. As befitting an SLR of this caliber, the F100 works perfectly with every AF-D, AF-S, and AI-S Nikkor lens.

- Magnesium alloy body with professional weather sealing
- Shutter tested to 100,000 cycles • Shutter speeds 30 sec. to 1/8000 sec. + B • 1/250 Flash sync speed • 96% viewfinder coverage • Interchangeable focusing screens
- Five-point area AF with three crosshair-type sensors • Spot metering linkable to focusing points • 22 Custom functions

Body Only *(B&H# NIF100)* **749.95**

F6

Nikon's top-of-the-line professional film SLR, the F6, represents the highest levels of refinement from Nikon's legendary F-series cameras. The F6 incorporates technological advances such as 11-area Multi-CAM2000 AF system and iTTL Creative Lighting System flash control. But in these days of digital imaging, why shoot film at all? Many photographers prefer the results slide film yields, or they require an archival imaging system. The F6 provides a pure, gratifying photographic experience that is comparable to no other.

- 50,000 Cycle KEVLAR/aluminum-alloy shutter
- Dust and moisture resistant Body • 11-area AF system with 9 cross-type AF sensors • Four AF area modes
- Program, Flexible Program, Shutter Priority, Aperture Priority, Manual exposure control • Color matrix metering
- Center-weighted & spot metering • 41 Custom Functions
- 100% Viewfinder coverage • Interchangeable screens

Body Only *(B&H# NIF6)* **2499.95**

CARL ZEISS
Manual Focus ZF Lenses for Nikon

Engineers, film makers and photographers all know and appreciate the quality and performance of Carl Zeiss lenses. Real, emotional, and without compromise, Zeiss lenses give the photographer control over every aspect of the composition. Carl Zeiss lenses offer many excellent possibilities for personalized manual composition. It is the subtlety, those fine points of detail, that distinguish a good shot from an excellent one. With excellence you can feel and quality that will last, Carl Zeiss lenses are perfect for decades of intensive use.

OLYMPUS

E-P1 — 12.3 Mega Pixels

Featuring the retro styling of the famous half-frame Olympus PEN SLRs of the 1950s and 60s, the E-P1 PEN offers the speed and quality of a digital SLR with the ease of use of a point-and-shoot. Built around a 12.3 megapixel Live CMOS image sensor, the EP-1 offers professional photo and HD video capture in a compact, durable, stainless steel body. Live View Autofocus + Face Detection keep your subjects sharp and looking their best. When focusing manually, a 5x magnification space opens in the center of the frame to assist you. It offers in-camera image stabilization, advanced dust reduction technology, high ISO sensitivity, in-camera editing and retouching tools and Creative Art Filters. Compatible with all existing Four Thirds optics using an optional adapter.

E-P1 Body (Silver) with 14-42mm M.Zuiko Lens (Black) *(OLEP1S1442B)* **799.95**
E-P1 Body (White) with 14-42mm M.Zuiko Lens (Silver) *(OLEP1W1442S)* **799.95**

E-520 — 10 Mega Pixels

Compact and easy-to-use, the E-520's high resolution 10-megapixel Live-MOS image sensor combined with TruePic III processor gives you true-to-life skin tones, brilliant blue skies, precise color transitions, more detail and less image noise. The 2.7" HyperCrystal II LCD enables images to be beautifully displayed in vivid color, even in bright sunlight. Autofocus Live View feature lets you fmages with the viewfinder or on the LCD Display. Has 20 intuitive scene modes like Fireworks, Night Scene, Portraits and even underwater modes. Image stabilization is built into the camera body, compensates for movement so you can capture blur-free shots with any lens - even at slow shutter speeds. The E-520 also solves the dust problem with a proven anti-dust system so your pictures will be spotless - every time.

Body Only *(B&H# OLEE520)* **399.95**
Body with Olympus Zuiko Digital ED 14-42mm AF Lens *(B&H# OLEE5201442)* **499.95**

E-620 — 12 Mega Pixels

The E-620 offers a compact size and light 16.76-oz body. Its high-performance 12.3-megapixel Live MOS image sensor delivers excellent dynamic range and color fidelity, and a state-of-the-art amplifier circuit to reduce noise and capture fine details. Key features include: In-camera Image Stabilization (IS), Three IS modes, Live View shooting with a swivel 2.7" HyperCrystal™ LCD, and Olympus' TruePic III+ Image Processor. Olympus' new easy-to-use Art Filters and Multiple Exposures let you capture creative images on the go – without being tethered to a computer and editing software.

- 12.3-megapixel Live MOS image sensor • Art Filters • 4 fps shooting speed
- TruePic III Image processor • 18 scene select modes • Dust reduction system
- ISO 100-3200 • Built-in TTL flash • Slot for CF and xD memory cards

Body Only *(B&H# OLEE620)* **599.95**
Body and 14-42mm and 40-150mm Lens Kit *(B&H# OLEE6202LK)* **799.95**

E-30 — 12 Mega Pixels

The E-30 is a mid-range advanced DSLR with the same high-precision performance and imaging quality demanded by professional photographers who use the E-3, as well as the consumer-friendly features such as the Art Filters and Multiple Exposure function (found on the E-620). It combines a 12.3-megapixel high-speed Live MOS image sensor with TruePic III+ Image Processor and Full Time Autofocus Live View. As with all Olympus DSLRs, it provides advanced Dust Reduction and in-body mechanical Image Stabilization so that every Four Thirds lens is stabilized. The 2.7" LCD includes HyperCrystal technology, which offers many times the contrast of conventional LCD monitors for easier viewing in both preview and playback.

- 12.3 Megapixel Four Thirds Live-MOS Sensor • Weatherproof design • 5fps
- 2.5" Dual-axis, Free-angle LCD w/ Live-View • In-Camera Blur Reduction
- 11-point auto focus system • 100% Viewfinder coverage

Body Only *(B&H# OLE30)* **999.95**

E-3 — 10 Mega Pixels

The E-3 features a 10-megapixel Live MOS image sensor, with TruePic III+ Image Processor. It provides 5 fps continuous shooting, and 1/8000 sec. shutter speed. The E-3's AF system is also the world's fastest when used with the Zuiko Digital SWD ED 12-60mm f2.8-4.0 lens. In fact, every lens on the E-3 benefits from faster AF, so the E-3 can lock focus on fast-moving subjects. Plus, the camera has an integrated image stabilization system for blur-free images. The sealed magnesium chassis is splash- and dust-proof and its durable shutter will meet the demands of pros. Also, its dust reduction system helps eliminates dust spots.

- 10.1 Megapixel Four Thirds Live-MOS Sensor • 2.5" Dual-axis, LCD w/Live-View
- 100% Viewfinder coverage • Dust Reduction System • Weatherproof design
- Dual card slot for CF and xD memory Cards • Shutter tested to 150,000 cycles

Body Only *(B&H# OLE3)* **1299.95**

PENTAX

K-x

With the K-x, Pentax redefines the entry-level digital category. It offers high-end features including Live View and HD video. And, since there's no rule that SLR cameras must come in black, the K-x is available in a choice of white or black as well as limited edition red and navy. Extremely compact and lightweight with a one-handed shooting design and simple, easy to use operation, the K-x is perfect for those stepping up from a point-and-shoot camer to their first digital SLR.

- 12.4 MP CMOS sensor features sensor for stabilized image and video capture up to 4 stops
- 2.7" LCD features Live View with contrast, phase difference, and Face Detection AF.
- Widescreen 720p HD video capture at 24 fps cinematic framerate, using any Pentax 35mm lens.
- Creative processing and filter modes produce high quality finished images, while offering the ability to explore artistic freedom through unique special effects.
- True High Dynamic Range (HDR) image capture blends 3 bracketed images into a single picture with outstanding shadow, highlight, and midrange detail.
- Fast 4.7 fps capture speed and 1/6000 second maximum shutter speeds are possible with the Peb PRIME II image processing engine.
- Powerful automatic modes, including PENTAX Auto Picture and scene modes, ensure the perfect shot in any situation, while helping new photographers learn DSLR photography.
- Expanded ISO range covers sensitivities from 100-12800 for extreme low light photography.
- Captures up to 1900 shots with universally available, easy-to-find AA lithium batteries (also compatible with AA NiMH rechargeable and alkaline batteries).

K-7

Designed for advanced photographers seeking high-end design and features without the cost of a professional DSLR system, the K-7 features a rugged, yet compact body design, 14.6-megapixel CMOS sensor builtZ from the ground up, and advanced features such as HD Movie Capture and new, unique-to-Pentax camera controls. Compatible with every Pentax lens ever made, the K-7 features an abundance of new features that are exclusive to the camera and combine to make it a tremendous photography tool.

- The K-7 is a compact, magnesium alloy body that is one of the smallest in its class, reducing bulk and allowing users to travel light while maintaining durability and build quality. It is also weather, dust and cold resistant (to 14° F or -10° C).
- 14.6 megapixel CMOS sensor built from the ground up to minimize noise, adds four channel output for fast image capture, and the ability to capture HD quality movies.
- HD Movie features adjustable quality and resolution settings, aperture control, as well as mechanical Shake Reduction, and an external microphone terminal for recording stereo sound. Captures video at 720p (1280 x 720) 1536 x 1024, or 640 x 480 at 30 frames per second.
- An HDMI port with selectable output resolution (1080i, 720p, 480p) for playback on an HDTV.
- 3" LCD with 921,000 pixels for detailed image or movie capture and review using Live View
- Fast 5.2 fps shooting and up to 1/8000 sec shutter speed freezes even the fastest action
- Live View mode with contrast AF, Face Detection, and optional histogram, grid, and bright/dark area display. A 100% field-of-view viewfinder (92x magnification) and bright focusing screen are ideal for accurate image composition and accurate focus.
- Custom Image modes with advanced parameter settings including new Key adjustment allow users to customize the processing mode to suit personal creative style.
- Multiple exposure settings, including Green, Program, Sv, Tv, Av, TAv, M, Bulb, X-sync, and USER modes, provide extensive creative control over exposure for photographers of all experience levels.
- Dedicated PC socket for studio flash offers convenience for the studio photographer without adding hot shoe adapters.

Panasonic

LUMIX DMC-G1

World's smallest and lightest digital interchangeable lens camera, the 12.1-megapixel LUMIX DMC-G1 weighs just 1.28 lbs., yet is packed with features including high resolution electronic full-time Live View Finder and high resolution (460,000 pixels) 3" swivel LCD monitor, Face Detection (up to 15 faces), Supersonic Wave Filter Dust Reduction, MEGA O.I.S. and HDMI output for playback on an HDTV. Designed for personalized style and active lifestyles, the camera is available in three colors.

- Intelligent Auto (iA) mode detects shooting conditions and automatically adjusts for the ultimate shooting results. Panasonic's iA includes AF tracking, Intelligent Exposure prevents under- or over-exposer, Intelligent ISO changes the ISO setting and shutter speed if the subject is moving thus giving a blur-free photo, and Intelligent Scene Selector.
- Electronic Live View Finder (1,440,000-pixel equivalent), plus a built-in eye sensor detects when the user is nearing the view finder and automatically switches off the LCD, thus conserving battery life.
- Live View Finder has a large 1.4x (0.7x on a 35mm equivalent) magnification and when using the G1 in manual focus, the frame in the viewfinder or LCD will enlarge by 5x or 10x.

LUMIX DMC-GH1

Offering professional-level still photos and HD video performance, the 12.1-megapixel LUMIX DMC-GH1 steps-up from the DMC-G1 with the ability to record high-resolution full HD (1920 x 1080) video at 24 fps or smooth HD video (1280 x 720) movie at 60 fps using an AVCHD format (MPEG-4/H.264). The AVCHD format provides the important benefit of doubling the HD quality recording time compared with Motion JPEG.

- Dedicated video record button on the back of the camera lets users instantly start recording videos, even while shooting still photos – removing the fear of potentially missing a must-see video moment.
- Records video in high-quality stereo sound via Dolby Digital Stereo Creator. An optional stereo microphone (DMW-MS1) is also available to achieve a more intensive sound recording experience.
- Designed specifically for HD movie recording, the 10x LUMIX G VARIO HD 14-140mm ASPH./MEGA O.I.S lens (28-280mm equivalent) has a silent motor and continuous auto focusing capability.
- You can manually set the shutter speed and aperture, making videos more creative. Changing the shutter speed gives the videos a special look, particularly suitable for shooting fast-moving subjects. Controlling the aperture is convenient when there are several subjects at varying distances, so the user can focus on the foreground and blur the background – or vice versa.

Lumix DMC-GF1

World's smallest and lightest digital interchangeable lens system camera with a built-in flash, the Lumix DMC-GF1 features the same 12.1-megapixel sensor as the DMC-G1, 1280 x 720 HD recording in AVCHD Lite format, 3" LCD with 460,000 pixels and an optional hot-shoe mounted electronic viewfinder. It offers an extensive function set, provides uncompromising performance, and delivers the ultimate in operating and shooting ease. In addition to point and shoot functions, such as iA (Intelligent Auto) mode, the DMC-GF1 also comes with unique functions including exposure meter, aperture preview and shutter speed preview through the live view. It also puts a palette of creative possibilities in your hands. When shooting either still photos or movies, for example, you can select from several preset filters in My Color mode or apply a range of unique textures available in Film mode. The large, 3" Intelligent LCD offers extremely fine, automatic backlight control, which combines with the high resolution to assure outstanding viewing in everything from sunny outdoor conditions to dim indoor situations. The DMC-GF1 is compatible with an optional Live View Finder (DMW-LVF1), which provides the full-time live view function boasting 100% field of view regardless of the lens attached.

SONY

DSLR-A230

Ideal for a new generation of photographers, the DSLR-A230 features 10.2 megapixel APS-C sensor, high-sensitivity up to ISO 3200, and Super SteadyShot in-camera image stabilization that reduces blur with a brilliant array of Sony, Zeiss and Minolta a-mount lenses. Fast, lightweight and easy to operate, it also offers a large 2.7" LCD screen, anti-dust technology, automatic pop-up flash, scene slection mode, simple Function Guide menu display and Creative Style settings to to express your creativity and fine-tune camera performance.

- Eye-Start AF begins precision autofocus adjustments the moment you raise the camera to your eye – no waiting until the shutter button is half-pressed.
- 3fps (frames per second) continuous burst mode, plus RAW Burst Mode (up to 6 shots)
- SteadyShot INSIDE in-camera image stabilization works with any lens enabling shooting at shutter speeds 2.5-3.5 steps slower than would otherwise be possible. This allows shooting at higher shutter speeds even in very low light with minimum blur from shaky hands or fast-moving subjects.
- Dynamic Range Optimizer ensures balanced exposures, recovers details in shadows or lost in glare.
- Adjust contrast, saturation and sharpness settings for any of 8 finishing styles — including Standard, Vivid, Portrait, Landscape, Night View, Sunset, B & W and Adobe RGB modes.
- GUI with on-screen Help Guide offers clear, concise explanations of various modes and settings, the relationship between aperture and shutter speed, and the effect each has on photographic results.
- Uses CompactFlash Type I/II cards and Memory Stick PRO Duo media via an optional adapter.

DSLR-A330 • DSLR-A380

The 10-megapixel DSLR-A330 and 14.2-megapixel DSLR-A380 step up with Quick Autofocus (AF) Live View technology, 1.4x and 2x Smart Teleconverter, and high-resolution thumbnails for PhotoTV HD viewing. Live View mode links you and your subject on the 2.7" LCD screen, for a familiar point-and-shoot style — with super-quick AF response and accurate exposure control to help you catch the perfect moment.
Otherwise the same camera, the DSLR-A380's massive 14.2-megapixel CCD provides spectacular image detail for making big prints and tight crops.

Step-up features from the DSLR-A230:

- 2.7" Clear Photo LCD Plus™ Screen provides a sharp, clear view of your subject and tilts up or down for low-angle or high-angle monitoring.
- Touch a button and zoom in electronically on your subject, reproducing pixels on a 1:1 basis with no degradation in picture quality. Zoom in at 1.4x or 2x creating the 35mm equivalent of a 200mm telephoto with the standard 18-70mm zoom lens.
- Automatically creates high-resolution thumbnail images for viewing on Sony's BRAVIA HDTV in optimized PhotoTV HD mode, with image format adjustable for standard 3:2 or widescreen 16:9 display.
- HDMI terminal lets you connect them to a large screen HDTV for playback of images and videos.

SONY

DSLR-A500 • DSLR-A550

Stepping up from the DSLR-A330 and DSLR-380 (respectively), the 10-megapixel DSLR-A500 and 14.2-megapixel DSLR-A550 incorporate Sony's Exmor CMOS sensor to ensure crisp low-noise images, packed with fine detail and vibrant colors. Yielding high-sensitivity and depth-of-field control, the Exmor CMOS image sensor combined with the BIONZ processor enables a high ISO of 12,800 that yields low-light pictures with lower noise and reduced loss of picture detail.

They also add manual focus confirmation live view mode using the main imaging sensor, in addition to Sony's secondary-sensor Quick AF live view system. Both cameras also include Auto HDR (High Dynamic Range) mode that captures a huge range of shadow and highlight detail in landscapes, interiors and other scenes. The DSLR-A550 has a 3" (230,000-pixel) tilt-angle LCD, the DSLR-A550 features a 3" high resolution (921,000 pixel) tilt-angle LCD.

- Smile Shutter technology enables the camera to automatically take a shot when in Live View mode, and a Face Detection system recognizes and adjusts the camera for faces in a given scene.
- 6 creative style settings and 6 scene modes which adjust the camera for optimized exposures.
- Save images as RAW or JPEG formats (separately or in tandem), and with dual media slots files can be stored on Memory Stick PRO Duo/Memory Stick PRO-HG Duo and SD/SDHC media cards.
- Shoot up to 5 frames per second (with optical viewfinder) and at up to 4 frames per second with Quick Auto Focus Live View

HVL-F42AM Flash

Provides Sony DSLR cameras with features like powerful illumination, adjustable bounce angles, wireless remote capability, and intelligent features like ADI metering, auto white balance, auto zoom and high-speed sync. It is perfect for formal portraits, weddings and special events, still-life photography, hobby shots and more.

- Automatic light control with Sony DSLR-series cameras
- High-speed synchronization feature
- Wireless flash capable
- Bounce and zoom flash head
- Auto distance range 2.2-61'

HVL-F42AM *(B&H# SOHVLF42AM)* **299.99**

HVL-F58AM Flash

The HVL-F58AM features an effective range of more than 45' and a guide number of 190'/58m (at 105mm), and a fast, 5-second recharge time.

The HVL-F58AM can also wirelessly control up to three groups of flashes, and Wireless Ratio Control allows you to assign ratios for each group separately. Other useful features are include ADI metering, auto white balance, auto zoom and high-speed synchronization.

- Head pivots 90° left and right on a horizontal axis as well as vertically up and down
- Large, easy-to-read LCD

HVL-F58AM *(B&H# SOHVLF58AM)* **499.99**

DSLR-A850 • DSLR-A900

The DSLR-A850 and DSLR-A900 features a massive 24.6-megapixel 35mm full-frame CMOS image sensor for a larger capture area, improved wide-angle performance and tighter depth of field control—as well as amazing image quality. They also have body-integrated, full-size SteadyShot INSIDE image stabilizer that compensates for up to four shutter speed steps, giving you more freedom when shooting in low light. Equipped with Dual BIONZ imaging processors, they deliver continuous shooting up to 3 fps (A850) and 5 fps (A900) with superb image quality and ultra-low noise. They also offera large, ultra-bright glass pentaprism viewfinder with 98% (A850) and 100% (A900) coverage, a 3-inch Xtra Fine LCD display and HDMI output.

- Intelligent Preview function lets you see the effects of manual adjustments to exposure value, shutter speed, aperture, Dynamic Range Optimizer and white balance before you take the shot, so you can determine the optimum settings before you take the shot, instead of losing time to trial-and-error.
- Review your images in stunning detail on the 3" Xtra Fine LCD (921,000 pixels). With photo-quality resolution you can identify any necessary focus or exposure corrections before shooting.
- In addition to full frame image capture, the A900 can also crop images to APS-C size format allowing the use of APS-C lenses.
- Rubberized grip to hold the camera with comfort and confidence.
- Up to 1/8000 second shutter speed on a mechanism proven for 100,000 cycle operation.
- Mirror Lockup Mode, built-in eyepiece shutter, user-replaceable focusing screens, 2EV exposure bracketing (3 exposures), and remote camera control from your PC.
- Accepts both CompactFlash and Memory Stick Duo Media
- Utilizes both static-free anti-dust coating on the imager's filter and anti-dust vibration that automatically shakes the sensor to dislodge dust each time the camera is shut off.
- Image Data Lightbox software lets you browse, rate and compare images, making it easie to select for further processing.
- Surprisingly lightweight, the body is covered in a die-cast magnesium alloy shell, providing a rugged feel. Sealed viewfinder optics and rubber gasket surrounds on all buttons, dials, and switches protect the camera from dust and moisture.

Kingston TECHNOLOGY
COMMITTED TO MEMORY

Kingston Technology offers three distinct lines of CompactFlash products, each offering everyday users high quality products at a great price. These rugged, low-power cards can store loads of digital data. Choose from standard CompactFlash, CompactFlash Elite Pro, or the high-performance CompactFlash Ultimate.
For SDHC (Secure Digital High Capacity) they offer capacities up to 32GB in Class 2, 4 and 6.

Standard CompactFlash
4GB / 8GB

- Great value for amateurs offering high capacity at low cost
- For everyday use of digital cameras, PDA's, and MP3 players

CompactFlash Ultimate 266X
8GB / 16GB

- Designed for high-end imaging; write speed of 266x
- Fast transfer rates of 45MB/sec. read and 40MB/sec. write

CompactFlash Elite Pro 133X
8GB / 16GB / 32GB

- Designed for high-end imaging; write speed of 133X
- Fast transfer rates of 25MB/sec. read and 20MB/sec. write

Secure Digital High Capacity (SDHC)
4GB / 8GB / 16GB / 32GB

- Designed to meet the storage demands of high-quality digital still and video cameras. Class 4 is available up to 32GB, Class 6 in 8GB and Class 6 Ultimate in 4 or 8 GB.

SanDisk

Standard 2GB / 4GB / 8GB / 16GB

Capture a memory every day on SanDisk standard SD/SDHC or Memory Stick PRO Duo cards. For use in all kinds of digital devices including digital cameras, cell phones, digital camcorder or PDAs, and with capacities up to 16GGB they ensure you have plenty of room to capture and store photos, videos and tunes every day.

- Built to last, with an operating shock rating of 2,000Gs, equivalent to a ten-foot drop
- High transfer rate for fast copying and downloading • Backed by a 5-year limited warranty

Ultra 4GB / 8GB / 16GB / 32GB

Catch whatever life throws at you with SanDisk Ultra memory cards - rugged, high-performance cards with the speed and reliability you need to capture any moment, under any conditions. With fast transfer speeds of up to 15MB/second, today's photographers and videographers are always ready for the next shot and the next adventure.

- For digital SLRs and other feature-rich compact point and shoot cameras
- 15MB/sec read, & 9MB/sec. write, speeds (100x)
- Available as CompactFlash, SD and SDHC and Memory Stick PRO Duo
- Lifetime limited warranty

Extreme® CompactFlash® Cards 8GB / 16GB / 32GB

Get exactly the shots you want with professional-grade SanDisk Extreme CompactFlash cards. With up to 60 MB/sec read/write speeds, you'll see it takes more than a great digital SLR camera to bring your ideas to life. And with up to 32GB of space, you'll have room to capture it all in RAW+JPEG, and save the editing for later.

Extreme and Extreme Pro CompactFlash Cards Both Feature

- Up to 60MB/sec read/write speeds (400X) on the Extreme or up to 90MB/s (600x) on the Extreme Pro for shorter wait times, faster continuous burst shooting and fast transfer to a computer.
- Capture RAW+JPEG, sequential bursts and high-def video files on up to 32GB Extreme or 64GB Extreme Pro CF cards
- Proprietary Power Core™ controller distributes data across the card more rapidly and efficiently; the UDMA-6 interface allows for maximum data transfer between card and camera
- The Power Core controller's firmware algorithms through wear leveling enhance endurance of card by moving the data across different blocks of memory, evenly spreading the data around.
- They both feature RTV silicone coating for added protection against moisture and humidity
- Backed by rigorous stress, shock, and vibration testing procedures and limited lifetime warranty
- Tested to perform from -25°C to 85°C (-13°F to 185°F)

Extreme® Pro™ CompactFlash® Card 16GB / 32GB / 64GB

Now there's a memory card fast enough to keep up with your advanced DSLR: The SanDisk Extreme® Pro™ CompactFlash® card. With lightning-fast (up to 90 MB/s* write) speed, you'll be able to capture more continuous burst shooting-and get the most out of your professional digital SLR camera. And with up to 64GB of storage, you'll be ready for more RAW+JPEG and high-def video.

Panasonic SD Memory Cards

Panasonic SD memory cards offer high capacity, high speed, and high reliability to meet all your high definition needs. They are available in three speed classes: Class 4 offering transfer rates up to 20MB/s in 4GB, 8GB and 16GB. A 2GB card in Class 6 with at transfer rate up to 22 MB/s and a Class 10 with high speed transfer up to 22 MB/s. These are available in 4GB, 8GB, 16GB and 32GB.

DELKIN DEVICES

CompactFlash:
Delkin offers inexpensive, high performance 55x CompactFlash cards in 1GB, 2GB, 4GB, 8GB, 16GB and 32GB capacities which provide optimal storage in digital cameras, PDA's, and music players. They also come with a lifetime warranty.

CompactFlash PRO:
For those who need higher performance, CompactFlash Pro UDMA enabled cards deliver industry-leading read/write speeds with a sustained transfer speed of 305x (45MB/sec). The enhanced camera-to-card and card-to-computer transfer times considerably improve workflow for any pro photographer in the field. Available in 1GB, 2GB, 4GB, 8GB and 16GB capacities, they also come with a lifetime warranty.

Secure Digital (SD)
With capacities up to 16GB and 55x speed, Delkins' SD cards are able to handle a large variety of content, and most importantly preventing against accidental data loss. A built in write protect switch further ensures the safety of your data. Available in 1GB, 2GB, 4GB, 8GB and 16GB capacities, they also come with a lifetime warranty.

SDHC Pro (Class 4 , Class 6)
Versatile flash memory cards handle a large variety of content, for use in professional grade SLR digital cameras. SDHC Pro Class 4 is available in 32GB, the Class 6 in 4GB, 8GB and 16GB. They have a lifetime warranty.

Eye-Fi

Eye-Fi are wireless SD memory cards for your digital camera. It stores photos and videos like standard SD or SDHC memory card, except the Eye-Fi Card makes your camera wireless. Built in Wi-Fi helps you organize and share your memories. During a quick setup, you specify where you want your photos and videos sent (where in your computer, where on the Internet). After that quick setup, turn on your camera within range of the configured network to effortlessly transfer photos and videos. Press the button, and let Eye-Fi do the rest! No cables, no hassles.

Available in three families for photo applications: Eye-Fi Home which comes in a 2GB capacity; Eye-Fi Share (2GB) which allows you to upload photos to your online photo sharing site, and Eye-Fi Pro which automatically geotags your photos; includes access to 10,000+ hotspots for one year; and wirelessly uploads RAW files to your computer. Available in 2GB and 4GB.

SONY Memory Stick PRO Duo (Mark 2) • Memory Stick PRO-HG Duo

Save high-resolution photographs with lightning-fast read and write speeds. The perfect solution for storing and transferring high-resolution video and still photos recorded on compatible Handycam camcorders and/or Cyber-shot digital cameras, Sony's Memory Stick PRO Duo (Mark 2) media offer up to 16GB capacity and provide write speeds up to 32MB/sec. Even faster, the Memory Stick PRO-HG Duo media card offers up to 40MB/sec. write speed and are also available in 1GB to 16GB capacities.

Lexar

Lexar offers a complete line of award-winning memory cards in various speeds, formats, and capacities that let you easily and reliably store photos, music, video, data, and more. So whatever digital device you use, Lexar has the perfect solution to fit your needs. Lexar Professional UDMA 300x and 600x CompactFlash cards deliver blazing-fast download speeds from card to computer (45MB/sec or 90MB/sec) when paired with the Lexar Professional UDMA FireWire® 800 Reader or Professional UDMA Dual-Slot USB Reader, as well as provide support for the next-generation of high-resolution UDMA-enabled DSLR cameras. Also trusted by professional photographers, Lexar Professional 233x CompactFlash cards provide a reliable high-speed, high-capacity solution that brings out the ultimate performance in your DSLR equipment. Last, Platinum II cards (available in Memory Stick, SD,and CompactFlash) are ideal for fast-action photography and HD video. They offer high-speed, high-capacity performance and reliability.

Professional UDMA 600x CF

As Lexar's premium offering in the professional photography market, the Professional 600x CompactFlash memory card provides ultimate, industry-leading, high-speed performance with industry leading transfer rates and improved in-camera performance and workflow speeds. Includes Image Rescue™ 4 and Adobe software.

Pro UDMA 300x CF

Ultimate High Speed Performance

- Sustained 300x write speed of 45MB/sec.
- Available in 2GB, 4GB, 8GB, and 16GB capacities
- Limited Lifetime warranty, includes Image Rescue 3

Lexar Pro 233x CF

Hi Speed Pro CF Cards

- Sustained 233x write speed of 35MB/sec.
- Available in 2GB, 4GB, and 8GB capacities
- Limited Lifetime warranty, includes Image Rescue 3

Platinum 2

Ideal for Video and Picture Taking

- Available in Memory Stick, SD,and CF
- 80x Speed for CF, 60x Speed for SD and MS
- Available in 2GB, 4GB, 8GB, and 16GB capacities
- Limited Lifetime warranty

VisibleDust

Arctic Butterfly SL700 • 724 (Brite)

Sensor Brushes

The Arctic Butterfly 724 (Brite) features a bright LED that illuminates the sensor while in operation, making it to see the dust. The DC rotary engine generates an optimal centrifugal force that enables speedy dust rejection while increasing the charge enhancement of the fibers. Combining nano-coating technology for charge enhancements, super thin fibers for maximum lift capability and rotary motion for cleaning/charging (without the use of canned air) makes the Arctic Butterfly® 724 (Brite) a superb sensor cleaning tool. Can be safely used on ITO (Indium Tin Oxide) coated sensor and DLSR's with built in sensor cleaning systems.
The Arctic Butterfly SL700 has a lower spinning speed and does not offer the convenience of a detachable brush.

SL-700 #VISL700.....**$74.95**

SENSOR CLEANING SWABS

These swabs, with their unique fabric folding system, are specially tailored for cleaning your delicate sensor without leaving streaks, pooling or abrasions. Available in Orange Series (double layer high absorbency fabric) and Green Series (ultra-thin MXD-100 fabric). 12 swabs per pack.

For 1.3x Sensor #VIS13*.....**$39.95**
for 1.5x-1.6x Sensors #VIS1516*.....**$39.95**

Corner Swabs

Designed to remove dust build up in those "hard to reach" areas. Compatible with Visible Dust's wet cleaning solutions, these swabs are specifically fabricated for cleaning the corners. 16 swabs per pack.

Orange Series #VIOCS.....**$30.95**
Green Series #VIGCS.....**$30.95**

Vswab

Unique sensor cleaning swabs, the narrower edge of the V shaped swab minimizes the contact between the swab and the chamber wall. This eliminates the lint produced inside the camera eventually from falling on the sensor. Triangular form also brings a more homogeneous swabbing motion and less streaking along the edges. 12 swabs per pack.

Orange Series #VIS10DHAPO.....**$39.95**
Green Series #VIS10UMXDG.....**$39.95**

FX1B

Better Beamer Flash Extender

for Use with Telephoto Lenses

- Excellent for wildlife & birding photography, where long-distance fill-flash is needed, especially with a bright sunlight background to open up shadows.
- When used with TTL flash metering, exposure is automatically set by the camera and flash, and no special compensation is required.
- Reduces the drain on battery power by two-thirds.

PHOTO SPEED SYSTEM

The Honl Photo Speed System is a collection of lightweight, durable and affordable light modifiers for shoe-mount flash that bring studio-style lighting control with you into the field. Designed to universally fit all shoe-mount flash, these versatile light modifiers provide photographers with an assortment of practical tools to shape light without resorting to cumbersome, heavy and expensive lighting equipment. Consisting of an assortment of Grids, Snoots, Gobos, and Gels, they attach quickly and easily to any shoe-mount flash via the Speed Strap, a simple, non-slip velcro strap that wraps around the flash head without the use of annoying adhesives.

Honl Photo Speed Grids

Constructed of rugged ABS/ polycarbonate, Speed Grid honeycomb cells narrow the beam of light from your portable flash unit, producing a small circle of light on your subject. Perfect for dramatic lighting effects.

1/4" Speed Grid #HOSG4.....**29.95**
1/8" Speed Grid #HOSG8.....**29.95**

Honl Photo Speed Gobo / Bounce Card

The versatile Speed Gobo is made of a tough black ballistic nylon on one side and a white polymer on the other. The black side can be used to keep light from flaring into your lens when using your flash as a background or hair light. The white side can be used as a bounce card. Buy two for a great barn door setup.

HONL-GOBO #HOGBC.....**$14.95**

Honl Photo Speed Snoot / Reflector

These versatile and easy to use snoots can be shaped to concentrate the light from your shoe-mount flash for dramatic cinematic lighting, or opened up to use as a flash bouncer/reflector. Perfect for everything from basic portraits to background lighting.

5" Shorty: HONL-SNOOT5 #HOSS5.....**29.95**
8" Regular: HONL-SNOOT8 #HOSS8.....**29.95**
Gel Kit 1 Filter Kit for Speed System for Shoe Mount Flash # HOGK1.....**$29.95**

Honl Photo Speed Strap

The Speed Strap provides the mount for all Honl Photo Speed System attachments. It's non-slip, so it won't budge when attached.

Speed Strap #HOSS.....**$9.95**

Qflash TRIO
QUANTUM
QF8 Flash

The Qflash TRIO QF8 combines a Qflash head with built-in FreeXwire TTL radio and QTTL adapter for your digital camera. Slip it onto the camera hot-shoe, connect a Turbo with the included long power cable CQ8, and go. TRIO's radio sends TTL commands to other remote Qflash TRIO's. Configure distinct modes and settings of remote Qflash TRIO's from the on-camera TRIO.

- Control and synchronize any number of remote Qflash.
- Send camera TTL wireless data to remote Qflash*.
- Receive QTTL signals from other TRIO's or FreeXwire transmitters.
- Unlimited rapid-fire, full power flashes.

For Canon E-TTL II #QUQF8C..... **875.00**
For Nikon i-TTL # QUQF8N..... **875.00**

Qflash PILOT QF9

An accessory, Qflash PILOT QF9, provides all the features of the TRIO without the flash head. The self-powered PILOT commands remote Qflash, requires no external power pack and mounts to a hot shoe.

UMBRELLA MOUNT KIT

For Digital Flash

impact

Kit includes two Impact 32" white umbrellas with removable black backing. Umbrellas soften, broaden, and diminish the light output of any tungsten or flash light source. A white umbrella without a black backing may also be used as a makeshift softbox.

Each of the 2 umbrella brackets fit on top of almost any light stand, has different size stud adapters for various grip clamps, includes a cold shoe mount for your shoe-mount flash. It swivels, tilts, locks into place, and accepts almost any small to medium sized umbrella.

Includes:

- 2 32" Umbrellas-White with Removable Black Cover
- 2 Umbrella Bracket with Swivel Mount & Flash Shoe
- 2 8' Black air-cushioned Light Stands

#IMDFUMK **$98.95**

SLAVE STROBES

Battery Operated

Battery operated strobes allow you to direct light where you need it in any situation, including extra light for backlighting and fill lighting. Strobes are triggered by a built-in, light-sensitive slave for auto-sync operation.

SIGMA

MODEL TYPES

DG Models

Optimized for Digital SLR's

These are large aperture, wide angle lenses with short minimum focusing distances and an abundance of peripheral illumination. While they are ideal lenses for digital SLR cameras, they are also suitable for traditional 35mm SLR's.

DC Models

For Digital SLR's Only

These lenses feature an image circle matched to the small sensor found in digital SLR cameras. This method results in a lens ideally suited to digital reproduction with the added bonus of reduced weight.

MODEL FEATURES

HSM - HyperSonic Motor. Enables virtually silent, highly-responsive auto and manual focusing, as well as manual-focus-only override.

ASP - Aspherical Lens. The aspherical lens complex allows freedom of design, improved performance, a reduced number of component lenses and a compact size.

EX - EX Lens. The exterior of this lens is EX-finished to denote the superior build and optical quality, and to enhance its appearance.

OS Function - Optical Stabilizer. This function utilizes a built-in mechanism that compensates for camera shake. It dramatically expands photographic possibilities by alleviating camera movement when shooting by hand-held camera.

APO - APO Lens. In order to attain the highest quality images, the APO lens has

been made using special low-dispersion (SLD) glass and is designed to minimize color aberration.

IF - Inner Focusing. To ensure stability in focusing, this lens moves the inner lens group or groups without changing the lens' physical length.

RF - Rear Focusing. This lens is equipped with a system that moves the rear lens group for high-speed, silent focusing.

RFS - Rear Filter Slot. This lens has a rear slip-in gelatin filter slot.

TAMRON

DI Digitally Integrated

esigned for use on both digital and film SLR cameras

DI-II

esigned for use on digital SLR cameras only

Model Features

SP - Aspherical Lens. The spherical lens complex allows reedom of design, improved erformance, a reduced number f component lenses and a ompact size.

APO - APO Lens. for highest uality images, the APO lens as been made using special w-dispersion (SLD) glass to inimize color aberration.

IF - Inner Focusing. To ensure stability in focusing, this lens moves the inner lens group or groups without changing the lens' physical length

VC - Vibration Compensation. Eliminates camera shake through optical design with special in-lens compensators.

18-270mm f/3.5-6.3 Di II VC

- Fast Standard Zoom Lens Designed Exclusively for Digital Photography
- Compact & Lightweight
- 35mm Equivalent ~29-432mm
- 19.2 oz. • 72mm Filter Size

LENS COVERS

LensCoat

Manufactured from 100% closed-cell neoprene, offering protection from bumps, jars, and nicks, with a camouflage-pattern fabric cover. Lens Covers also provide a thermal barrier, protecting your hands from cold lenses in lower temperatures. They are easy to install and remove, leaving no residue on the lens.

Moving a big white (or black) lens near skittish wildlife is like waving your arms – a sure way to flush your subject and ruin what could be a once-in-a-lifetime photo opportunity. LensCoat™ Lens Covers mask your large lens, giving you a better chance at getting the shot.

COLOR BALANCE SYSTEM LENS

CBL

The Color Balance Lens (CBL) is a 2-sided disc with a gray side and a white side, to help improve color balance and exposure. By reading light reflected, the CBL is more consistently accurate.

- Works with all lenses and digital cameras/camcorders • Durable, waterproof materials
- Divides the wide spectrum of visible light into smaller bands that can be more accurately read and interpreted by a camera's meter • Helps eliminate post-processing color adjustments

85mm Medium Disc #CBL85 ..... **$119.95**
110mm Medium Disc #CBL110 ..... **$139.95**
220mm Medium Disc #CBL220 ..... **CALL**

WHIBAL G6

WhiBal

The WhiBal Generation 6 (G6) RAW Reference Card is a simple-to-use standard for setting white balance in all RAW converters, as well as image editors such as Adobe Photoshop. The light & easy to handle single-card format eliminates a need to fan out reference cards, thereby speeding reference capture. Can be used to set white balance reference, black point, and white point.

G6 Pocket Card (3.5 x 2") #WHWBCPK **$29.95**
G6 Studio Card (6 x 3.5") #WHWBCSK **$36.95**
G6 Reference White Balance Card (11 x 8.5") #WHSLRBC **$21.95**
G6 Combo Pocket / Studio White Balance Card Kit #WHWBCCK **$59.95**

SLR (Spring Loaded Retractor) with Belt Clip Mount #WHSLRBC **$21.95**

WHITE BALANCE LENS CAPS

Dot Line Corp.

These lens caps are great for digital photography. Just point at a subject area and the light is diffused to create an average white balance for a particular scene. Cap slips onto the front of any lens, or a lens with a protective filter. If your lens has bayonet threads on the outside, simply use the adapter provided. Handy loop to connect to a camera strap or strap lug so you don't lose the cap.

52mm White Balance Lens Cap #DODL2552 ..... **$19.95**
58mm White Balance Lens Cap #DODL2558 ..... **$19.95**
62mm White Balance Lens Cap #DODL2562 ..... **$21.95**

77mm White Balance Lens Cap #DODL2577 ..... **$24.95**

COLOR CALIBRATION DISC (CCD)

Here's a quick and easy way to accurately balance the color in your digital photography and videography. It eliminates the need for gray & white cards and cumbersome procedures. Set the camera's white balance to manual and shoot through the lens — that's all there is to perfect custom color balance! Use it in every lighting situation and type of light.

- Quickly and accurately calibrate the color in your digital still or video camera
- Save time and improve your productivity by eliminating post shot adjustments of color balance
- Stop carrying around cumbersome white & gray cards

82mm #STCCD82 ..... **$59.95**

COLORCHECKER CARD

x-rite

Xrite, one of the most respected names in color management, provides color test targets for digital and traditional photographic applications where consistency and accuracy are required. A range of sizes and types are available to aid in profiling and analyzing color information from cameras, printers, and scanners. Xrite color and gray scale cards are the standard for color comparison.

Original ColorChecker Card #XRCCC **$69.95**

M9 SERIES Digital Rangefinder Camera

Leica is proud to present the LEICA M9, the world's smallest full frame digital camera. This 18 megapixels camera continues the legacy of the Leica M rangefinder with the most modern digital technology

- Smallest full frame digital camera in the world
- Rangefinder camera with a 24 x 36 mm Format Sensor
- 18 megapixels which allows the full 35mm format
- Custom designed CCD sensor for optimal performance • Newly developed cover glass to elmininate infrared light contamination, i.e. no IR filters needed • Simple Menus and easy handling
- Available in classic black paint and steel gray paint • 2-year warranty

M9 Black Body #LEM9B ..... **6995.95** **M9** Silver Body #LEM9S **6995.95**

M7 SERIES 35mm Rangefinder Camera

Classics are works that clash with the present.They are never modified – instead they are re-interpreted on the basis of a changed world. With the M7, a classic camera has been infused with modern electronic advantages that results in a camera that is faster t han ever while still having the soul of a Leica.

- Choose between three viewfinder magnifications: the standard 0.72x, an 0.85x viewfinder magnification for longer focal lengths, and an 0.58x viewfinder magnification for wide-angle.

S2/S2P SLR Digital Cameras

The excellence of the all-new Leica S2/S2P System is based around a high resolution 37.5 megapixel, 30 X 45 mm CCD medium format sensor which is 60% larger than that of a traditional 35mm format producing stunning image quality. The Leica S2/ S2P outperforms every other camera system in the medium-format category while offering the ease-of-use of a DSLR. The unique Leica S-System boasts fast, accurate autofocus, high-speed MAESTRO image processing, a highly durable design with significant weather seals and the new Leica S Lens System sets a new standard for quality.

The high-speed MAESTRO dual image processor allows up to 1.5 images per second at maximum resolution. Slots for both Compact Flash and SD, with an option for saving RAW format Adobe DNG data onto the Compact Flash and JPEG to the SD card simultaneously. Supplied with Adobe Lightroom software. Leica's proprietary Image Shuttle software allows all of the Leica S2 features to be controlled remotely from a computer. The Leica S2P adds a scratch-resistant sapphire glass LCD cover and the Leica Platinum Service Package.

HASSELBLAD

CFV 39
39 Megapixel Digital Camera Back

Designed for Hasselblad V cameras, the CFV 39 uses a 39-megapixel sensor— twice the size of full frame 35mm DSLRs—turning your existing camera into a modern digital workhorse. Features include Hasselblad's Instant Approval Architecture (IAA) and Natural Color Solution and 3F RAW file format, a choice between tethered or untethered shooting, as well as compatibility with view cameras using an interface plate. Shoot to the classic and loved square format giving 29 megapixel images and the full rectangular format giving 39 megapixel images

#HACFV39 ..... **$13,995.00**

H3DII-50 50 Megapixel, SLR Digital Camera

The H3DII-50 represents the 4th generation of the Hasselblad H-system. Featuring Kodak's 50 Mpixel 36×48mm sensor, the camera system has been designed to meet the most exacting demands of high-end pros who require the ultimate in image quality.

- Integrated 50 Mpixel capture unit with 3" display • Ultra-Focus: integral optimization of digital lens performance • Hasselblad Natural Color Solution • CCD cooling sink lowers noise levels • Direct ISO/WB control • Thumbwheel control of digital menus • GPS accessory option • Full Digital APO Correction for improved image sharpness and detail • Choice of eye-level or waist-level viewfinders • View camera option • 3FR raw - or DNG export

#HAH3D502 ..... **$25,995.00**

H3DII-31 / 39 31 and 39 Megapixel SLR Digital Cameras

TThe H3DII-31 and H3DII-39 are the 4th generation of the Hasselblad H-system, with improved controls and functionality, better sensor cooling, a more intuitive user interface, and a bright 3" display. They offer photographers the full benefits of professional medium-format digital cameras, along with the ease of use of the best 35mm DSLRs. A 28mm lens is optimized solely for digital image capture.

- Modular design with a choice of viewfinders
- Recorded resolution of 4872 x 6496 pixels (H3DII-31) or 5412 x 7212 (H3DII-39)
- Use Hasselblad HC lenses with integral leaf shutter
- Shutter Speed 32 - 1/800 second • Use CF type I & II memory cards

TOYO-VIEW
Field 45CF Camera

- Lightweight and compact, durably constructed of polycarbonate and carbon fiber
- 40% lighter than equivalent metal field cameras • Stainless steel and diecast aluminum hardware

#TO45CF Field 45CF Camera **$894.00**
#TO45CF150KZ View 45CF Camera W/150 Geronar Lens **$1,572.00**
#TO45CF210K View 45CF Camera W/210 Geronar Lens **$1,726.00**

Mamiya®

DL28 • DL33 Digital Camera Systems

The 28-megapixel DL28 and 33-megapixel DL33 produce images with unmatched richness and color accuracy, low noise, and striking highlight and shadow detail. In addition, the larger format produces images with a more three-dimensional look. Extra-large 3.5-inch touch screen offers a bright, high-contrast display ideal for outdoor or indoor work. The DL28 and DL33 combine the professionally proven Mamiya 645AFD III camera system with Leaf's innovative 28MP Aptus-II 6 or 33MP Aptus-II 7 digital backs. The body and back work together as an integral unit with an intuitive ease that virtually any photographer will appreciate. The 645AFD III body has a new coreless motor for faster, more accurate autofocusing and an enhanced interface system that provides total communication between the camera, lens and digital back.

- With 16-bit capture, 12 stop dynamic range and an ISO range of 50-800, the DL28 and DL33 are full featured professional digital solutions that allow photographers to focus on creating the image and not worrying about the technology.
- The 28MP back provides RAW files of 53MB and 16-bit TIFF files in excess of 159MB; the 33MP back provides raw files of 67MB and 16-bit TIFF files in excess of 190MB ensuring that you'll have the information for striking enlargements of virtually any size. And for those times when you can't get close enough to your subject, you'll have the confidence to crop a small portion of the image without a noticeable loss in quality.
- Compact flash media storage makes it easy to shoot untethered on location or in the studio. You can also use the included firewire cable and Leaf Capture 11.2 software to shoot directly to your computer. The software even allows other people - in the field or in the studio - to view your creativity on their iPhones as you continue shooting!
- In addition to using the included Leaf Capture 11.2 software, you can also open Leaf RAW files with commonly used programs including Adobe Photoshop CS3/4 (with the latest version of ACR software), Lightroom 2 and Apple Aperture 2.

Camera Filters for analog, digital, or video, picture and broadcast television cameras and lenses

Camera filters are transparent or translucent optical elements that alter the properties of light entering the camera lens for the purpose of improving the image being recorded. Filters can affect contrast, sharpness, highlight flare, color, and light intensity, either individually, or in various combinations. They can also create a variety of "special effects." Optical filters function in digital photography much as they do in film work. In their most successful applications, filter effects blend in with the rest of the image to help get the message across.

Filter holder systems are for anyone who wants to use creative filters in addition to correction and technical filters. The main overall advantage is that filters can be easily slipped in and out of the holder, saving critical time. Color or effect can be placed in a specific area of the frame, and most of all, options exist for inserting several plastic, gelatin, or glass filters.

Screw-in filters are the most common type. They are attached to the lens by way of thread or bayonet mount and are positioned precisely parallel to the plane of the lens.

Why filters for digital cameras?

With sophisticated image editing tools like PhotoShop and Photo-Paint, why bother with optical filters? Given enough time, talent and patience, you probably could emulate most filter effects in post-processing, but when would you find time to shoot, eat, and sleep?

Wide-Angle – Larger front diameter than the screw-in diameter to eliminate vignetting on wide angle lenses. **Slim Wide-Angle –** No front thread, no vignetting.

cokin® Cokin universal filter holder system allows you to use 1 of 160 different filters on many different-sized lenses. Works with all lenses of SLR cameras (35mm or digital), medium and large format cameras, video/ broadcast cameras & slide projectors. The filter holder is the key to the whole Cokin Creative Filter System. It is attached to the lens by the adapter ring & takes specially designed round or square filters.

There are 3 different Series in the COKIN System:

"A" Series for lens diameters from 36mm to 62mm; "P" Series for lens diameters from 48mm to 82mm; "Z-PRO" Series for lens diameters from 49mm to 96mm

Adapters: 49, 52, 55, 58, 62, 67, 72, 77mm **38.50**

SQUARE OR RECTANGULAR FILTERS require the use of a special filter holder, or matte box. They offer the additional benefit of sliding adjustability, for effects that must be precisely aligned within the range of graded filters. In all cases, it is advisable to use a mounting system that offers sturdy support and easy manipulation. The use of a lens shade will minimize the effect of stray off-axis reflections.

BENRO
Carbon Fiber Tripods

BENRO Carbon Fiber Tripods are sturdy, high-quality tripods that use 8 layer, 2nd generation carbon fiber technology for its leg construction. This 8x tubing is 60% stronger overall than conventional carbon fiber tripods. Magnesium is used for die-cast parts. Despite its lower weight, magnesium is more rigid than aluminum, and has the same strength per volume.

BENRO
Aluminum Travel Angel Tripods

Professional-quality tripods that use lightweight high rigidity aluminum alloy with a wall thickness of 1.5mm. In addition, magnesium is used for all die-cast parts. Despite its lower weight, magnesium is more rigid than aluminum, and has the same strength per volume. The tripod comes fully-featured, and is precisely machined to offer the quality and strength demanded by professional photographers.

BALL HEADS

Ball Heads for your tripod provide optimum flexibility because they allow movement on all axes at the same time with a single locking mechanism. Aiming and leveling can be done in one fluid motion, a feat that would take multiple steps with a pan-tilt head, making them faster to use.

GIMBAL HEADS

Gimbal tripod heads provide the ideal support for very long, heavy telephoto optics favored in nature and wildlife photography. Rather than resting your camera and lens on the tripod, this type of mechanism suspends the equipment, which makes it easier to handle while dampening vibrations

LegCoats

LegCoat™ tripod leg covers protect your shoulders when carrying your gear and the camouflage helps break up the shape of your tripod at the same time.

Made of closed cell foam padding and heavy-duty neoprene, it is soft to the touch but rugged in function. The padding guards your hands from the cold tripod legs in lower temperatures, and can protect the tripod from minor nicks and scratches. Made with Velcro® fastners for easy assembly.

The covers come in a set of three, sized specifically for your tripod.

REMOTE CONTROL RELEASE

AQUATICA

The Trigger assembly is made of anodized aluminum and is connected to the housing's bulkhead via a standard Nikonos-to-Ikelite strobe cable. The cable can be lengthened by adding an extension cord. Now you can fire your camera from a distance. Possible applications include: Pole camera operation for shark or whale photography, long exposures on a tripod for deep wreck photography, and a host of other scientific photo uses.

TITAN UW HOUSING
for Nikon D200

LIGHT & MOTION UNDERWATER IMAGING

Professional-grade housing that is controlled by USB advanced technology. This enables fingertip control over aperture, shutter speed, as well as bracketing, exposure compensation and white balance.

- Electro-mechanical shutter release provides control with tactile feel between half shutter and full shutter
- ROC strobe control allows 12 manual power levels on most TTL-compatible strobes
- Besides light & motion port conversion rings, also allows Aquatica, Sea & Sea, and Subal ports
- Viewfinder options will significantly improve camera's viewing area

#LIHD200 ..... **$1,999.00**

For other Light & Motion ports, port conversion rings and accessories, visit our web site.

CINTIQ INTERACTIVE PEN DISPLAY

wacom

Utilizing advances made in tactile and touch-senstive displays, Wacom has developed the Cintiq, which combines the clarity and slim form of an LCD screen with its winning digital drawing tablets. This allows artists, designers, and professionals to edit directly on the display, providing a more natural and rapid workflow. The Cintiq incorporates many features from the Graphire and Intuos series tablets like a comfortable pen stylus, extended pressure sensitivity, ExpressKeys, and Touch Strips. The Cintiq display can be positioned at a comfortable angle on its stand, but it is light and safe enough to be used on the artist's lap.

Includes:

- Cintiq stand • Grip Pen & Stand • Pen Nibs
- VGA or DVI-D to DVI-I adapter • Power supply & cable
- Software tablet driver, Photoshop Elements 3.0, Corel Painter Essentials 2.0, nik Color Efex Pro 2.0 IE, Wacom Brushes 2.021UX • Dimensions: 9.4 x 8.5 x .5"

Professional Display

- 170° viewing angle
- 12, 20, or 21.3" TFT active matrix LCD
- UXGA resolution (1600 x 1200)
- Calibrated ICC color profile included

INTUOS 4 GRAPHICS TABLET

wacom

With a new design and features inspired by members of the professional creative community, Intuos4 redefines the pen tablet experience. Featuring the new Wacom Tip Sensor and 2048 levels of pen pressure sensitivity, the Intuos 4 pen captures the most subtle nuances of pressure, allowing you to dynamically adjust exposure, brush size, opacity and more. User-defined ExpressKeys activate frequently-used shortcuts and modifiers, while,the accompanying illuminated ExpressKey displays on the medium, large and extra large models provide a constant reminder of each key's function. The finger-sensitive Touch Ring quickly controls up to 4 different functions such as canvas rotation, zoom, scroll, brush size and more.

- Quickly and professionally edit photos and create digital artwork with natural pen control
- New pen tip sensor technology lowers activation force and captures every nuance of pen pressure
- 2048 levels of pen pressure sensitivity for precise pressure control
- User-defined ExpressKeys™ & multi-function Touch Ring put time saving shortcuts, modifiers, scrolling, zooming, and more at your fingertips
- Illuminated ExpressKey displays provide a constant reference each Keys setting (Medium, Large or X-Large only) of Intuos4
- Custom radial menus for rapid navigation • New Precision Mode simplifies detail work

hiti S420 Photo Printer

The perfect passport ID photo solution, the S420 has a wide range of embedded ID format selection. In addition, bundled IDesiree 2.0 software gives you unbeatable flexibility in ID format designs to satisfy the ID photo market demand worldwide. The supplied 2.5" LCD controller with multi-language and graphical user interface, allows users to edit images easily without the need of a computer.

- LinkPrint offers a functional connection interface between the printer and various storage devices including flash memory cards, digital cameras, USB drives, and many other USB devices.
- Dust-proof hatch door opens and closes automatically during the printing process. In addition, a protective cover over the paper cassette and an optional detachable rear dust shield further enhance dust resistance capability, ensuring beautiful and dust-free prints every time.
- HiTi color ribbons come with exclusive Magic Coating technology–laying a protective and transparent coating layer over the photo. The coating is water, UV-ray, fingerprint and smear resistant. It also provides an optional watermark function, which can be customized to personalize photos.

S420 Photo Printer *(B&H# HIS420)* **218.99**

hiti P510Si Wireless Printer

6" roll-type dye-sub printer with direct wireless printing connectivity when paired with the optional WFT510 Wireless Foto Transmitter. Utilizing a graphic user interface on a 3.6" LCD, it is very easy to operate HiTi P510Si printer without the need of a computer. With less clicks and intuitive user-interface design, printing a photo can be a much easier and faster experience.

- Included software for all business needs, making good use of passport/ID photos and e-frame photo printing.
- 10-bit Color Engine creates vibrant colors as well as natural and continuous tones
- 3 different printing modes, Event Photo, Personalized Photo and ID Photo,
- Front loading design allows for easy access to the ribbon and paper roll resulting in easy and efficient maintenance procedures.

P510Si Wireless Printer *(B&H# HIP510SI)* **1379.95**

hiti P510S 6" Standalone Roll-Type Photo Printer

The P510S re-defines "Instant Photo Printing" by giving photographers a light-weighted roll-type dye-sub Digital Mobile Studio. Exclusive HiTi color technology and 10-bit color engine create vibrant colors as well as natural and continuous tones, offering both professionals and amateurs the best color output quality.

- An easily movable roll-type printer and weighing only 28 lbs, the P510S is ideal for on-location photo finishing.
- Utilizing a graphic user interface on a 3.6" LCD, it is very easy to operate the printer without the need of a computer.
- Provides varied professional image software for all your business needs, making good use of passport/ID photos and e-frame photo printing.

P510S Photo Printer *(B&H# HIP510S)* **1199.95**

hiti P510K Compact Integrated 6" Roll-Type Photo Kiosk

An all-in-one solution, the P510K integrates a tiltable 10.2" LCD touch screen, industrial computer system, multiple media card slots, 6" roll-type printer, user-friendly workflow menu, and backstage management system. With less clicks and intuitive user-interface design, printing a photo can be a much easier, faster and fun experience.

- Offers users the versatility of printing layouts to satisfy requests for different digital imaging services, including standard photos, passport/ID photos, e-frame photos, collage photos and photo index.
- World's smallest 6" roll-type dye sub photo kiosk, it is perfect for photo studios, chain stores, hotels, or entertainment places.

FUJIFILM FinePix iP-10 Digital Photo ID System

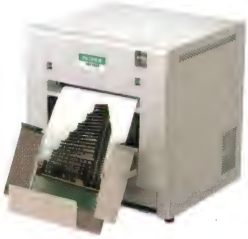

Complete system for ID photo printing, the Fujifilm IP-10 is an easy to use system for creating photos for passports, visas and other forms of identification. The system includes the FinePix F480 Digital Camera Kit with a second lithium ion battery and the FinePix IP-10 Printer. Designed to support "tethered" shooting-with the camera connected to the printer using the provided USB extension cable-the system allows for quick transfer of the photo to the printer without handling a removable digital media card. The FinePix F480 is an 8.2-megapixel camera with 4x optical zoom. It comes with a passport shooting guide on the 2.7" LCD. The FinePix IP-10 Printer is a compact printer that uses dye-sub technology and Fujifilm's Image Intelligence software to produce colorful 4 x 6" images. It has a 2.4" LCD for previewing pictures and adjusting print settings.

FinePix IP-10 *(B&H# FUIP10)* **574.95**

FUJIFILM ASK-2000 • ASK-4000

Thermal Photo Printers for Professional Photographers

Thermal printers offering high-speed, high-quality prints at minimal cost, the ASK-2000 and ASK-4000 enables studio, wedding and event photographers to quickly and easily provide customers onsite with 4 x 6" prints in 8 seconds and 8 x 10" prints in 40 seconds (up to 225 prints per hour).

Connect the printers to a laptop via USB 2.0 and leverage dye-sub thermal transfer technology to produce beautiful, natural-looking prints onsite. This also eliminates organizing, printing and mailing photos following an event. Both printers feature color-correction software incorporating Fujifilm's Image Intelligence technology, providing lab-quality prints regardless of location.

- All operation and maintenance functions, from powering on to loading paper and changing ink ribbons, is done at the printer and by opening the front cover. No light-sensitive materials are required.
- The ASK-2000 offers edge-to-edge printing and is capable of delivering 4 x 6", 5 x 7", 6 x 8", 6 x 9" prints. The ASK-4000 offers edge-to-edge printing and produces 8 x 10" prints in just 40 seconds, and 8 x 12" prints in just 49 seconds.

ASK-2000 *(B&H# FUASK2000)* ..... **1699.95** **ASK-4000** *(B&H# FUASK4000)* **2499.95**

Kodak Photo Printer 6850

Digital Thermal Photo Printer

The dye-sublimation Photo Printer 6850 delivers durable, photographic-quality glossy prints that resist water and last a lifetime. It can print a high-quality, borderless 6 x 8" glossy in 15 seconds or a 4 x 6" print in just 8 seconds. It can output 375 5 x 7" or 6 x 8" prints or 750 4 x 6" prints, without operator intervention. With more printer uptime, and less labor downtime, this printer is a powerful, cost-efficient business tool. It offers a USB 2.0 interface, and you can daisy chain multiple printers from the same PC for faster effective speeds. Combine its built-in cutter with its high speed and you can confidently provide "while-you-wait" printing to gain more sales.

Included pint drivers interface directly with PCs and laptops, making for hassle-free portability.

Photo Printer 6850 *(B&H# KOP6850)* **2323.20**

Kodak Professional 9810

Photo Quality, Letter-Size, Dye-Sub Photo Printer

Get high-speed, high-quality production printing wherever you need it—in your studio, lab, on location, or for distributed, on-demand output. With a built-in cutter and high capacity—300 8 x 10" per roll or 250 8 x 12" per roll—you'll get professional-quality prints in seconds, so you can sell more prints, faster. Roll-fed printing means less waste so you can do it all at an affordable cost. The 9810 produces an 8 x 10" print in just 45 seconds, with no post-processing needed to ensure image stability. Water-resistant and fade resistant prints will last a lifetime.

Professional 9810 *(B&H# KOP9810)* **2499.95**

Canon

PIXMA MP250 All-in-One Photo Printer

Copy and scan as well as print 4800 x 1200 dpi beautiful borderless photos up to 8.5 x 11" with true photo lab quality. If you're printing documents or web pages, it comes with pigment black ink so you'll get crisp, sharp text every time. ChromaLife100+ system enables photos to last up to 300 years when using genuine Canon ink and paper and stored in archival-quality photo album.

- Auto Photo Fix II technology automatically categorizes your images into one of five types - Portrait, Scenery, Night Scenery, Snapshot with Scenery, and Snapshot with Night Scenery - then applies optimal image and multi-zone exposure correction. So, unexposed areas of the photo will be optimized, area by area and faces that are backlit and under-exposed will automatically be brightened with correct color cast to help ensure more accurate skin tones for gorgeous images.
- Collect, combine and edit multiple web pages to print your own layout using "Easy-WebPrintEX."
- Dual Color Gamut Processing enables your copies to maintain the integrity of the original, whether a document or copy-after-copy.
- Print a 4 x 6" borderless photo in approx. 56 seconds
- 7-segment LED to set number of copies and view printer status.

#CAMP250 ..... **64.95**

PIXMA MP490 All-in-One Photo Printer

Stepping up, the PIXMA MP490 also has the new Auto Photo Fix II software built right into the machine and automatically corrects your images, except easy viewing and editing can be done right on the 1.8" LCD. Plus, if you don't feel like using a computer, no problem. Just insert a compatible memory card into the built-in card slot, select images on the LCD display, and print!

#CAMP490 ..... **95.50**

PIXMA MP560 Wireless All-in-One Photo Printer

Print beautiful borderless photos up to 8.5 x 11" or crisp, clean documents and enjoy incredible quality—wirelessly from any Wi-Fi enabled computer from anywhere in the house or office. Featuring 9600 x 2400 maximum color dpi with a minimum color droplet size of 1pl and a 5 individual ink tank system, the PIXMA MP560 blends performance and convenience. Built-in two-sided printing saves you paper so you can be efficient and eco-friendly, at the same time. The new Auto Photo Fix II feature automatically adjusts and helps to correct your photos, and you can preview images before you print on its built-in 2.0" LCD. Quickly access and select the function of your choice with the Easy Scroll Wheel.

- Dual Color Gamut Processing Technology enables your copies to maintain the integrity of the original.
- Auto Scan Mode automatically recognizes the type of original you are scanning and saves it with the appropriate settings.
- Built-in 2-sided printing can cut your paper usage by 50%, helping the environment.
- Enjoy computer-free photo printing options via compatible memory cards, USB Flash Memory Drives, PictBridge and optional Bluetooth wireless devices.
- 2-way paper feeding lets you load paper from the front cassette or rear tray so whether your office or photo lab is open, you're ready to print!

#CAMP560 ..... **139.95**

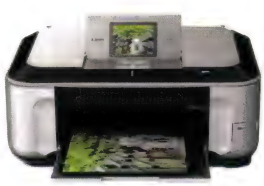

PIXMA MP640 Wireless All-in-One Photo Printer

Stepping up from the PIXMA MP560, the PIXMA 640 lets you preview and enhancing images on the large 3" LCD display. It also adds built-in auto duplex printing. This lets you keep it green and print on both sides of the page without the hassle of turning it over manually. This can cut your paper usage by 50% so you save time, money and paper - plus you're helping the environment! It is also extremely fast. It can print a borderless 4 x 6" in approx. 20 seconds—twice as fast as the MP560.

#CAMP640 ..... **214.95**

PIXMA MP990 Wireless All-In-One Photo Printer

The the ultimate wireless all-in-one photo printer, the PIXMA MP990's unmatched quality begins with a built-in Wi-Fi capability that lets you print wirelessly from anywhere around the house. You can also connect to a wired network if you choose via built-in Ethernet. Built-in Auto Duplex Printing helps you keep it green by automatically printing on both sides of the paper, which can help reduce your paper cost by 50%. Offering a maximum resolution of 9600 x 2400, it has a six individual ink tank system that includes a photo black and gray ink for professional color and black & white photos. The pigment-based black ink also produces crisp, laser-quality text for documents. So, you only replace the color ink tank that runs out. For ease of use, it offers a large 3.8" color LCD, Easy Scroll Wheel, Auto Photo Fix II, Auto Scan Mode and Quick Start.

- Superior 4800 dpi high-resolution CCD scanner includes a Film Adapter Unit to easily scan 35mm film and slides. Plus, the White LED eliminates warm-up time for document and photo scanning.
- Can print a borderless 4 x 6" in 16 seconds
- Computer-free printing through compatible USB Flash Drives, Memory Cards, IrDA , PictBridge and optional Bluetooth devices.

Canon

PIXMA Pro9000 MKII • PIXMA Pro9500 MKII

13 x 19" Professional Inkjet Photo Printers

Affordable, professional wide-format printers, the 8-color PIXMA Pro9000 MKII and 10-color PIXMA Pro9500 MKII produce brilliant, gallery-quality prints up to 13 x 19" on a variety of specialty media and fine art papers. The Pro9000 MKII uses long-lasting dye-based inks, the Pro9500 MKII utilizes long-lasting pigment-based inks, bringing all the benefits of the commercial print studio into your workspace. They feature Canon's high-performance FINE print head with auto-self alignment mechanism, integrated wheels and automatic sheet feeder. They offer versatile media handling with support for fine art paper up to 13 x 19" with two separate paper paths, including front feeder for heavyweight paper types. Last, they feature Canon-to-Canon Direct Printing, professional CD printing, and come with professionally-oriented software to enhance your creativity and productivity.

- Ambient Light Correction technology helps reduce the perceived color difference caused by different light conditions between printing and viewing or display environments. Compatible with Windows Vista OS, Ambient Light Correction allows users to optimize print color for the lighting conditions where the final print will be shown. Through the software, users can adjust color to various levels of lighting conditions from daylight at 6500K to a warm white fluorescent lamp at 3000K for optimal viewing.
- They come bundled with Canon's proprietary Easy-PhotoPrint Pro software and Adobe PhotoShop Elements. Plug-in for AdobePhotoShop CS, CS2, CS3, or PhotoShop Elements 6 along with Canon Digital Photo Pro (DPP) software, Easy-PhotoPrint Pro permits one-click image transfer, simple setting controls for color management and allows users to configure printer settings once for images on multiple sheets. It also facilitates the printing of RAW image files (as a high quality TIFF or JPEG) without having to save directly from applications, like DPP.

Pro9000 MKII (8-Color)

The Pro9000 MKII's dye-based inks produce bright, highly saturated colors on a wide range of media, from matte to high gloss. Light reflects evenly off the printed surface, giving professionals an exceptionally wide color gamut to work with and allows prints to retain a life-like sense of depth. Eight separate ink channels offer a level of color fidelity rivaling that of positive photo film. The red and green inks increase saturation by 60% and 30% respectively compared to 6-ink printers. Subtle details – particularly in areas of low chromaticity – are reproduced with proof-standard accuracy. Unique ChromaLife100 system achieves beautiful prints with enhanced longevity– resisting fading for up to 100 years.

Pro9000 MKII *(B&H # CAPP9000M2)*.....**449.95**

Pro9500 MKII (10-Color)

Uses Canon's Lucia inks – high density pigment inks that offer exceptional print quality on both photographic and fine art papers, and on finishes ranging from matte to semi-gloss. They deliver image permanence of up to 100 years with color prints and 200 years with monochrome output. Three monochrome inks and seven color inks provide photographers with outstanding mono-chrome and color reproduction in a single unit. The addition of red and green inks extends the color gamut for true-to- life portraits, landscapes and fine art prints. The dedicated gray ink reduces metamerism and ensures that prints are free of the color shift that can appear with conventional CMYK-generated output.

Canon PIXMA iP3600 Photo Printer

Featuring a 5-color ink system - four dye-based inks and a pigment-based black ink -the iP3600 produces vivid colors and bold, black text. Create long-lasting photos with resolution up to an 9600 x 2400 color dpi. Photo lab-quality 4 x 6" borderless print in only 41 seconds. Print photos directly from a PictBridge digital camera or camera phone– no computer required.

- Two paper trays let you store both plain and photo paper.
- Auto Photo Fix optimizes your images for such factors as skin tone, white balance, brightness, and makes red-eye corrections.

PIXMA iP3600 *(B&H# CAIP3600)*.....**69.95**

Canon PIXMA iP4700 Photo Printer

Stepping up from the iP3600, the iP4700 prints twice as fast, producing lab-quality 4 x 6" borderless prints in 20 seconds. It also has new Auto Photo Fix II which automatically categorizes your images into one of five types - Portrait, Scenery, Night Scenery, Snapshot with Scenery, and Snapshot with Night Scenery - then applies optimal image and multi-zone exposure correction.

- Built-in 2-sided printing can cut your paper usage by up to 50%, helping the environment.
- 2-way paper feeding lets you load paper from the front cassette or rear tray so whether your office or photo lab is open, you're ready to print!

PIXMA iP4700 *(B&H# CAIP4700)*.....**99.95**

Canon PIXMA iP100

Mobile Photo Printer

Stylish high resolution printer, the rugged and compact iP100 prints beautiful borderless color photos– from anywhere– from the car or even at the beach. Patented print head technology and 5-color ink system let you create spectacular photos with 9600 x 2400 color dpi. Prints a photo lab quality 4 x 6" borderless print in just 50 seconds. Offers IrDA compatibility and an optional BU-30 Bluetooth interface, so you can print wirelessly from a PC, PDA or phone. Or, connect a digital camera and print photos direct—no PC required. An optional Canon car adapter and rechargeable battery kit provide power on the go. Auto Image Fix feature corrects images for the best possible exposure, color, brightness and contrast.

PIXMA iP100 *(B&H# CAIP100)*.....**209.95**

PENTAX

Pocketjet 3 • Pocketjet 3 PLUS

200 and 300 DPI Thermal Printers

Just 10" long and weighing 16 oz. these printers fit in your briefcase, or can be mounted in a vehicle or work area. Using advanced direct thermal printing technology, they eliminate the need for messy and expensive ink, toner, or ribbons. Prints monochrome only.

Pocketjet 3 200 DPI *(B&H# PEPJ3)*.....**245.95**
Pocketjet 3 Plus 300 DPI *(B&H# PEPJ3P)*.....**399.95**

Officejet H470b Mobile

- Compact letter-size printer
- 4800 x 1200 dpi
- Up to 22 ppm black and up to 18 ppm color
- Uses HP Vivera Inks
- Print directly from notebook computers, PDAs, cameras, and memory cards
- Built-in lithium-ion battery stores enough power to print up to 480 pages per charge
- Supports PictBridge direct printing • Weight: 5 lbs

#HEOJH470B **248.95**
#HEOJH470WBT with Bluetooth wireless adapter **324.95**

Photosmart D7560

- 3.5" touchscreen color display
- Print black up to 33 ppm; color up to 31 ppm
- Print 4 x 6 photos in as little as 18 seconds
- Connectivity: USB, PictBridge, and memory card slots • 5 individual inks cartridges
- 125-sheet input tray, 20-sheet automated 5 x 7" photo tray, automatic paper sensor, and CD/DVD tray
- Borderless printing up to 8.5 x 11" inches
- Dimensions: 18 x 7.2 x 15.1" • Weight: 17.8 lbs

#HEPSD7560 ..... **138.50**

Photosmart B8550

- Up to 4800 optimized dpi and PC
- Up to 36 ppm black
- Up to 27 ppm color with front USB Port
- Wired Ethernet printing and print sharing with up to 5 computers
- Automatic paper type sensor and built-in ethernet networking
- Dimensions: 17.7 x 5.7 x 14.5"
- Weight: 13.2 lbs.

#HEPSB8550 ..... **219.50**

Photosmart A536

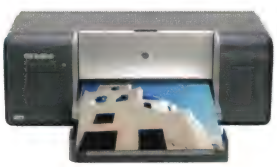

Print lab-quality photos up to 5 x 7" on this compact mobile printer, with or without a PC. Use the convenient 2.4" LCD display to preview, edit, personalize–using creative effects and colors– then print.

- Print from SD, MMC, xD and Memory Stick cards
- Remove red-eye and enhance photos before printing
- Print borderless shots; no trimming needed
- Fold-up tray makes it easy to work areas where space is limited.

#HEPSA536 ..... **93.50**

Photosmart B8850

- 8-color, long-life, high-capacity HP Vivera pigment inks
- Brilliant colors, rich blacks and neutral grays for stunning images
- B&W: up to 28 ppm; Color: up to 26 ppm
- Automatically adjusts print settings for consistent color
- Efficient self monitoring/self cleaning system
- Electrostatic Drop Detection ensures Optimum printer performance on every print • Produce archival, professional quality photos in sizes up to 13 x 19" • Up to 4800 dpi
- Dimensions: 26.5 x 16.9 x 9.5" • Weight: 37.7 lbs

#HEPSB8850 ..... **449.95**

Photosmart B9180

- Prints borderless up to 13 x 19"
- 8 individual archivable Inks
- Auto red eye removal
- Color: 4800 x 1200 dpi optimized resolution
- Print on media up to 1.5 mm thick
- Print speed 26 ppm (13 x 19" 90 sec.)
- USB 2.0 and Ethernet interfaces
- 200-year archival life • 1,000 page-per-month duty cycle
- Windows and Mac compatible
- Dimensions: 26.5 x 16.9 x 9.5" • Weight: 37.7 lbs

#HEPSB9180 ..... **633.95**

Photosmart A646

Personalize and print lab-quality photos using an extra-large 3.45" TouchSmart screen, and print snapshots from a Bluetooth-enabled phone. You can even run a slide show right on the screen, no PC needed.

- Just plug in a USB cable and print
- Print directly from memory cards, USB thumb drives, and cameras via PictBridge
- Choose from 300+ creative elements—borders, clip art, captions, and more. Add special effects including pet-eye fix, blemish removal, slimming, and sepia tone.
- Print borderless up to 5 x7"
- Print 4 x 6", 4 x 8" photo card; 4 x 12" panorama; 5 x 7"

#HEPSA646 ..... **143.50**

Photosmart D5460

- Up to 9600 x 2400-optimized dpi
- Print color up to 9.2 ppm
- Print black up to 11.5 ppm
- 125-sheet input tray
- Five individual HP Vivera ink cartridges means you replace only what's empty
- Print documents, web pages, lab-quality photos, creative projects, and even personalized CD's and DVD's
- 20-sheet automated photo tray • 50-sheet output tray
- USB 2.0 interface
- Dimensions: 18 x 7.2 x 15.2" • Weight: 12.75 lbs

Canon imagePROGRAF iPF5100 • iPF6100

17" and 24" Wide Graphic Arts Printers

Designed to satisfy the most critical printing needs of all types of digital artists, the imagePROGRAF iPF5100 and iPF6100 combine LUCIA pigment ink with innovative hardware to produce brilliant eye-catching output that's ready in minutes. The 12-color pigment ink system provides superior color stability and print longevity while dramatically expanding the color gamut.

With the combination of the two gray and two black inks, the iPF5100 and iPF6100 also produce crisp, neutral monochrome output. Furthermore, the L-COA print controller intelligently processes print data and directs the two high-precision, high-density (30,720 nozzles) print heads to lay down ink with unprecedented speed and accuracy. The multiple media handling options and included software suite make them the ideal solution for professionals. Stunning quality prints can be created right out-of-the-box, with software that is just as innovative as the printer itself.

Canon imagePROGRAF iPF6200

24" Wide Graphic Arts Printer

Stepping up from the iPF6100, the IPF6200 is equipped with an EFI Colorproof eXpress RIP, and a built-in 80GB hard drive providing the extra data capacity and control that busy agencies, design groups and pre-press operations require. The EFI Colorproof eXpress RIP software with a simple set-up wizard and intuitive user interface is designed to enable all levels of users to produce accurate color proofs quickly, easily and effectively. This ICC compliant software enables color definition according to your operation's specific requirements, includes pre-defined modes for proofing, photo and monochrome output and even supports remote job processing and printing.

iPF6200 *(B&H# CAIPF6200)*.....**Call**

Canon imagePROGRAF iPF8100 • iPF9100

44" and 60" Large Format Printers

The iPF8100 takes the next step in redefining large format printing and the ideal solution for any color professional looking for impressive, full-bleed color output, strength in paper handling and exceptional speed in output. Advanced professional features such as automatic clogged nozzle detection and compensation for reliability, an 80GB hard drive, 330ml or 700ml ink tank for versatility, a large backlit LCD panel for ease of use, and ink usage tracking for accountability are designed to satisfy every color professional's large format printing needs.

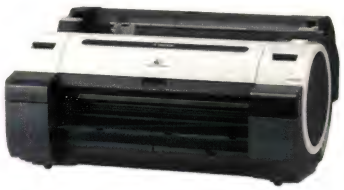

Built to put advanced printing technologies into the hands of artists and photographers, the iPF9100 will help to fulfill your creative potential like never before. You get impressive 60" color output, strength in paper handling and speed in output - everything a professional needs to productively and efficiently create enhanced color materials. The iPF9100 is designed to fulfill the needs of any digital artist looking to create captivating images from capture to output. The iPF9100 incorporates the 12-color pigment ink system with LUCIA™ inks, the L-COA controller, along with an 80GB hard drive.

The iPF9100 also has the ability to recalibrate itself to the original factory settings and apply any necessary adjustments across the printer's media types. The result - a more predictable printing platform where results can be consistently achieved.

Canon imagePROGRAF iPF650/655 • iPF750/755

24" and 36" Corporate and CAD Printers

The five-color imagePROGRAF iPF650 (24") and iPF750 (36") feature a new magenta ink for brighter reds and blues and utilize a new, super-high-density print head with redesigned nozzles that eject 4 picoliter droplets of ink, consistently producing up to 2400 x 1200 dpi output with precise lines that are accurate to ±10% and as fine as 0.02mm . With standard gigabit network interface and an independently-driven, dual-blade cutter they can print a D/A1 color line drawing in 28 seconds. Enhanced accounting functions collect printer job log information such as client ID, ink and media consumption, media type and output size. Microsoft Office plug-in enables users of any skill level to create large format printouts of documents, images or illustrations that were created in Word, Excel or PowerPoint programs. Also included is the latest version of the popular PosterArtist Lite, a simple poster creation software program.

Otherwise the same (respectively) the imagePROGRAF iPF655 and iPF755 have a built in 80GB hard drive to streamline workflow for a medium-sized networked environment or for those printing larger sized files with complex images.

Canon imagePROGRAF iPF610 • iPF710 • iPF810

24", 36" and 44" Corporate and CAD Printers

The 24" imagePROGRAF iPF610 features a Reactive Ink system consisting of four highly colorfast dye inks - Cyan, Magenta, Yellow and Black - plus two channels of pigment-based matte black. It has a large LCD panel and operates with very little noise. The L-COA controller drives the best quality output at the highest possible speeds.

The iPF610 has on-board support for HP-GL/2 and HP RTL files. It prints on a variety of media plus includes printing/application software programs.

Otherwise the same, the 36" iPF710 is a powerful print solution designed to meet the speed and precision requirements for CAD, MCAD, ECAD and GIS applications, with versatility to handle all-purpose, office applications. Otherwise the same, the 44" iPF810 also features exceptional line accuracy, high-speed-throughput and an 80GB hard drive that makes handling multiple complex jobs simple, especially in shared printer environments. Relieve workload from your computer, store and retrieve print jobs with the touch of a button, and utilize a Remote User Interface and password-protected mailboxes to keep your workgroup productive. The iPF810's Economy Print Mode helps lower cost per print while it's sub-ink-tank system enables on-the-fly ink replacement for continuous printing.

Canon imagePROGRAF iPF810 PRO • iPF820 PRO

44" Single and Dual Roll Large Format Corporate and CAD Printers

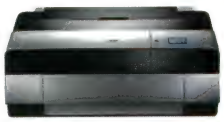

Ideal for high-volume production printing, the iPF810 PRO provides a complete workflow solution, bundling CADISTATION PS+ and True Adobe PostScript software. Designed for efficient job management, CADISTATION PS+ creates a seamless workflow by providing batch printing and nesting capabilities, options for web-based job submission, as well as job and print queue management abilities. The software also has the capability to track usage information for cost and account management. With a high speed throughput, an Economy Print Mode, 80GB hard drive, and sub-ink tank system, the iPF810 PRO is a truly effective solution for end-users looking to streamline their workflow. Otherwise the same, the iPF820 PRO is a dual roll printer.

EPSON Stylus Pro 3880 17" Wide Printer

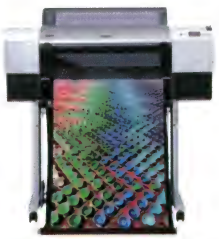

9-cartridge UltraChrome K3 Ink Technology

Main top-loading paper feeder, second top-loading manual feeder – optimized for fine art front-loading manual feeder up to 1.5mm thick
Max resolution: 2880 x 1440 dpi • USB 2.0 & Ethernet
Handles paper up to 17" wide with borderless printing on sheet paper from 4 x 6" to 17 x 22"
New printhead with ink repellent coating to prevent clogging and help improve drop placement.
Can utomatically switch between photo black and matte black inks depending on the paper.

HARMAN PHOTO

HARMAN PHOTO Baryta FB Real Baryta paper with the look and feel of traditional photographic paper

The baryta layer gives the prints greater detail and definition, an extended tonal range and the look and feel of real photographic paper. The specially developed anti-curl system ensures the prints remain flat after printing.

HP Inkjet Paper

HP Photo Papers are specifically designed to work with HP printers and inks to deliver professional-image quality and true-to-life photos. HP Photo Papers are easy to use, resist fading, are quick drying and smudge proof, and their thickness and weight provide a superior look and feel. Print instant-dry photos that resist water and smudges, with HP Advanced Photo Paper.

Hahnemühle

Inkjet Paper

The Hahnemuhle paper mill has been producing quality mould made artists papers for over 400 years. Since its founding they have developed a tradition of excellence in art materials that have now been brought to the digital age. The result is the Hahnemuhle collection of Digital Fine Art papers. Designed for discerning users, these grades of Digital Fine Art paper can be used to create limited editions, giclees, original digital art, traditional output, photographic and historic photographs on a choice of paper textures, multiple colors and a huge variety of sheet sizes and weights. These are available in cut sheet sizes of A4, A3, A2 and are compatible with all inkjet printers up to a printed resolution of 1440 dpi, while printers that feed flat from the bottom and bending the paper up round only being recommended up to 210 gsm. The Hahnemuhle papers work equally well with both dye and pigmented based inks on a wide variety of printers providing a color intensity and crispness not possible with non-coated art papers. The Hahnemuhle collection is manufactured in the traditional mould-made and fourdrinier techniques that artists value for its unique rich look, feel and texture. No longer does the digital artist have to compromise on paper quality when producing or reproducing their work digitally. Surface coating in combination with the traditional paper base and the right inks will produce sharp, high resolution output with the warmth and quality of the hand generated artwork. In many cases it is difficult to identify the original with the copy.

INKPRESS

Inkjet Paper

Inkpress is commited to providing the highest quality inkjet paper with unparalleled tech support to discerning professionals. To provide the ultimate quality in professional inkjet media, Inkpress works directly with some of the best paper mills available. These mills are carefully chosen because of their standards and expertise in the manufacturing of quality inkjet media, which involves both paper base production and coating. There is an abundance of knowledge available, both on the part of Inkpress and their paper mills that qualifies them as one of the leading manufacturers of inkjet media.

LUMIJET Inkjet Paper

Lumijet paper is best suited for commercial photo applications, i.e. the creation of a professional portfolio. Characterized by interesting surface structures, extreme precision of detail, visual attractiveness and faithful color rendition, Lumijet papers meet the high standards and requirements of photographers, photo-artists and graphic artists. The broad spectrum of the Lumijet range offers a large selection of differently textured artist papers that lend each print an elegant aura and feel. The range of weights and sizes is suitable for all professional and semi-professional inkjet printers. Lumijet paper is available as rolls or in the most popular cut sheet sizes.

INNOVA

Innova's highly acclaimed award winning FibaPrint range is designed as a digital solution to the traditional Fibre based baryta papers used in the conventional darkroom. A special Micro porous gloss coating was developed specifically for photographic reproduction and high quality fine art print applications. These coating range from a semi-matte to an ultra gloss finish, with the texture and feel of the art paper base giving it a quality as close to any traditional Fibre photo paper out there. The acid inhibiting crystal layer technology makes it the perfect digital FibaPrint alternative. They have an extremely large colour gamut and D-max rating of up to 2.7.

PICTORICO Inkjet Media

A division of Mitsubishi Paper Mills, Pictorico Inkjet Media was established in 1998 with a single goal: to offer a wide variety of the highest quality output media to the broadest range of inkjet printer users. Today, Pictorico (derived from the Spanish word for "picturesque") serves digital imaging professionals and enthusiasts with inkjet media of unrivaled performance. Whether for industrial and commercial output or the needs of the digital imaging arts, Pictorico inkjet media - with their superior quality and versatility - are rapidly establishing themselves as the choice of the discerning.

MUSEO

Museo (pronounced Moo-zay-o) is the brand name given to the family of digital fine art papers manufactured to archival standards (Library of Congress, ISO) with all products being 100% cotton, internally buffered (to prevent long term environmental acidification), and containing no optical brighteners (which fade over time). Museo is designed for professional, semi-professional, and prosumer photographers and artists who produce digital originals or reproductions using inkjet technology.

RotaTrim

Mastercut
Professional Rotary Cutters

This professional range of rotary cutters is the one by which all others are judged. Over 250,000 are in use worldwide in schools, offices, studios and darkrooms, where their robust construction is rigorously tested, day in, day out. With cut lengths from 12" to 54" each model features the unique chromed steel twin guide rails, silent glide action and all metal cutting head and end frames.
These smooth running professional cutters are designed to withstand high volume applications and will handle virtually all flexible materials up to 3mm thick. Each Mastercut is screen-printed with a very useful 10mm grid, 'A' size indicators and two additional metric/imperial scale bars.

- Hollow ground, self-sharpening tungsten steel rotary blade
- Silent glide action and all-metal cutting head and end frames
- Automatic transparent clampstrip for firm grip and clear view of cutline
- Slice tough materials like cardboard, litho plates, mount board, even 1/16" hardboard
- Lockable metal sliding backstop for precision repeat cutting • Fully guaranteed for 5 years

Monorail Rotary Trimmers

Rotatrim's professional monorail rotary trimmer range are superbly engineered machines by which all others are judged. Over 300,000 are in use worldwide; in workshops, studios, schools and offices, where their robust construction is rigorously tested, day-in, day-out.

- With cut lengths from 12" to 54" each model features the unique chromed steel twin guide rails, silent glide action and all metal cutting head and end frames
- Designed to withstand high volume applications and will cleanly cut virtually all flexible materials up to 3mm thick
- Screen-printed with a very useful 10mm grid, "A" size indicators and two additional metric/imperial scale bars

DAHLE

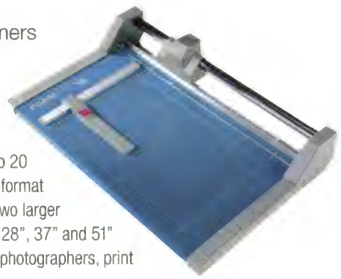

Personal Series Rolling Trimmers

Lightweight and portable, Dahle's Personal Trimmers offer 'take anywhere' convenience. Equipped with a ground self-sharpening blade that cuts in either direction, they feature an automatic paper clamp to hold your work securely in place. The 7 sheet at a time cutting capacity is ideal for cutting paper and trimming photographs. Available in 9", 12" and 18" cutting lengths. Popular among photographers, craft enthusiasts and office professionals.

9" Personal Rolling Trimmer *(B&H# DAT9)*.....**42.25**
12.5" Personal Rolling Trimmer *(B&H# DAT12.5)*.....**49.95**
18" Personal Rolling Trimmer *(B&H# DAT18)*.....**57.95**

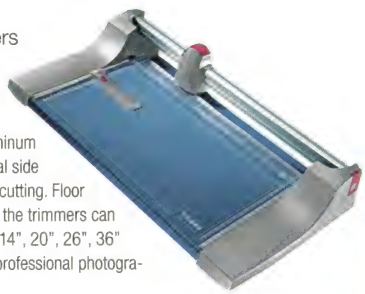

Professional Series Rolling Trimmers

The Professional Series of rolling trimmers are designed to handle heavy duty applications without compromising precision. Like the Personal Trimmers, they are equipped with a bi-directional, ground self-sharpening blade. A cutting capacity ranges from 14 to 20 sheets — ideal for trimming paper, photos, and large format prints. These trimmers can be wall mounted and the two larger sizes have optional floor stands. Available in 14", 20", 28", 37" and 51" cutting lengths. A popular choice among professional photographers, print shops and graphic design agencies.

14" Professional Rolling Trimmer *(B&H# DAT14)*.....**129.00**
20" Professional Rolling Trimmer *(B&H# DAT20)*.....**159.00**
28" Professional Rolling Trimmer *(B&H# DAT28)*.....**204.00**
37" Professional Rolling Trimmer *(B&H# DAT37)*.....**289.00**
51" Professional Rolling Trimmer *(B&H# DAT51)*.....**334.00**

Premium Series Rolling Trimmers

Like the Professional Series, Premium Rolling Trimmers are designed for heavy duty applications. Whether you are trimming matboard or a single sheet of paper, the thick walled square aluminum guide rod provides maximum strength with minimal side movement of the cutting head, ensuring burr-free cutting. Floor stands are available for the two largest models, or the trimmers can be placed on a table or wall mounted. Available in 14", 20", 26", 36" and 51" cutting lengths. A popular choice among professional photographers, picture framers, and print shops.

14" Premium Rolling Trimmer *(B&H# DAT14Q)*.....**179.00**
20" Premium Rolling Trimmer *(B&H# DAT20Q)*.....**244.00**

51" Premium Rolling Trimmer *(B&H# DAT51Q)*.....**484.00**

RotaTrim Technical (Manual) & Powertech (Electrical) Cutters

The Technical/Powertech range use a unique, self adjusting triple roller cutting head to effortlessly slice through almost any flexible sheet, including thin films and foils, up to 4mm thick. The Technical (manual) and Powertech machines are ideal for display/exhibition applications, and are available in extended ranges with up to a massive 99" cut length. The Powertech models have the cutting head electrically driven by a steel reinforced belt, via a foot operated pneumatic switch, thus leaving both hands free for speedy repositioning and faster throughput. Each Powertech machine is supplied with a comprehensive operating and servicing manual.

- Stainless steel 1½" square guide rail and all metal construction eliminates distortion.
- Self sharpening steel cutting wheel and counterblade.
- Transparent clampstrip combines with rubber gripper for firm positive clamping.
- Two way cutting option by removing C.C. Plate.
- Longer machines (1550 upwards) supplied with unique extension rods which effectively double baseboard depth to 700mm – perfect for pop-ups.

- 3 White Reflective Umbrellas
- 24x36" Softbox with Mounting Ring
- Mono to PC Sync Cord
- Wheeled Kit Case

#IMVC500LR3K **999.99**

Collapsible Reflectors

One visual issue created by single-light sources is contrast. Reflectors, always a favorite contrast solution for fashion photographers, fill in shadows thrown by brilliant light sources such as the sun or a single strobe without creating the need to add a second fixture. The reflector takes the place of a second light.

Style	12"	22"	32"	42"	52"	41x74"

FRESNEL LIGHTS

ALTMAN

Altman's series of Proline location and studio Fresnels offer a combination of style, durability, performance and efficiency. The 600L and 1000L serve as key, backlight, or kicker.

Includes:
- 4- or 8-leaf barndoors • 3-in-1-snoot set
- Scrims • Hinged filter frames

650L-SM 650 watts #AL650LS **$318.95**
1000L-SM 1000 watts #AL1000LS **$469.95**

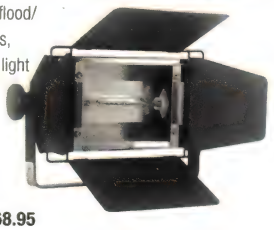

Q-LITE FLOOD LIGHT

ALTMAN

This open-face fixture is a compact, lightweight multi-purpose flood/fill light, ideal for stage, studio, and location lighting applications, well-suited for use in tight or confined spaces where maximum light output and beam spread are required for fill or flood lighting.

Includes:
- Q-Lite • Color frame • Snoot & color frame holder
- Safety cable • 36" AC power cable

#ALQL **$168.95**

FRESNEL LIGHTS

ARRI

150W Fresnel

A small fresnel with great performance and tough construction. It is half the weight of the 300W Fresnel with a 50mm lens. It has superior optical performance and an extruded aluminum housing.

#ARF150 ..... **$279.95**

Shown with optional barndoors

300W Fresnel

Spherical specular high-purity aluminum reflector. Designed to gather as much light as possible and direct it through the 3.2" (80mm) fresnel lens. A ribbed housing provides cooler operation.

#ARF300 ..... **$336.95**

650W Fresnel

Standard 4.3" lens and high-purity aluminum reflector. Beam angle in spot position is 16°, 60° in the flood position.

#ARF650 ..... **$374.95**

SOFT-LITE

ALTMAN

A lightweight indirect fill light, the Soft-Lite provides a very soft even wash of light. With a virtually shadowless beam, the Soft-Lite will uniformly illuminate an area 20.7' x 19.3' at a distance of ten feet, with a center intensity of 35 footcandles.

Uses 2 double-ended tungsten halogen bulbs up to 1000 watts each, for a maximum of 2000 watts

#ALSL **$359.95**

TOTA-LIGHT

lowel

Compact, rugged, and versatile, it can be used with its umbrella or gel-frame & diffusion as a soft key, fill, or back light. With its adjustable reflectors, it can be a smooth and even background light, or point it toward the ceiling to raise the ambient (base) light level of a room. Tota is also widely used for photographic copy work.

- Even, smooth, broad light • Uses 300, 500, 650, 750-watt lamps
- 120 or 240v • Adjustable reflector doors to vary intensity

#LOTL **$119.95**

PRO LIGHT

lowel

Focus Flood Light

- Use as low-level key or accent light, fill light, or back-light
- Exquisite even light, with fresnel-like shadow quality
- Flood-to-spot focusable
- Max wattage – 250w at 120v, Multi-voltage AC/DC (120, 240, 12, 30v)
- Wide range of easy-to-attach light controls

#LOPLQ **$114.95**

LiteDome Q39 – Consistently delivers even, natural light from your strobe unit.

SilverDome NXT – Can be used with strobes or continuous lighting. Switch between high-contrast and buttery-soft lighting in seconds.

MultiDome – Gives you extensive creative control. This box is designed to work with strobe lights.

WhiteDome – Its unique, translucent design produces soft, nearly shadowless lighting. Ideal for lighting your videos, films, and large sets.

MovieDome – Exceptionally heat-resistant design for movie and video production.

CineDome – Has a narrower, deeper profile designed to maximize the light projection of your Fresnel lights.

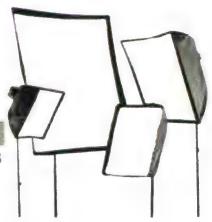

HalfDome2 – The narrow profile is great as a hairlight for group portraits or getting sleek, elongated catch lights in product photography.

OctoDome NXT – Designed to be used with the Starlite continuous light source or with strobe lights.

STROBE LIGHTBANKS

CHIMERA

Pro II – Has a flush screen and a small rear opening

Super Pro Plus – Removable front screen and a choice of front screen diffusion fabrics

Super Pro Plus Shallow – Removable front screen and thinner front-to-back design

Video Pro – Standard depth lightbanks made for broad beamed fixtures up to 1200 watts

Quartz – Same as Video Pro with 12000w limit

Daylite – Standard depth lightbanks made for broad beamed fixtures. 12000w limit.

Daylite Junior - Made for narrow-beam fixtures such as fresnels. 1200-watt limit. 50% deeper than std. Video Pro.

"Plus" versions - Include standard screen and both the ½ & ¼ grid screens

"Plus 1" versions - Include standard front screen only

Shallow version – Has 20% less depth from front to back

AC RADIO SLAVE SYSTEM

impact

This multi-functional radio slave system is designed to trigger strobes for flash photography wirelessly or to take exposure meter readings.

Includes:
- AC 16-Channel Radio Slave Receiver • AC 16-Channel Radio Slave Transmitter • Female Mini to Male Phono Adapter
- Male Mini to PC Adapter • Male Mini to Male Phono Adapter
- A23 12v Alkaline Battery

#IMACRSS16KQ **$89.95**

DIGITAL 4 CHANNEL

Microsync

Radio Slaves

Using a hot shoe mount transmitter about the size of a CompactFlash memory card, it instantly sends a wake-up & triggering signal to its mated "H" prong receiver plugged directly into your strobe pack or monolight. This 4-channel system functions at distances of up to 100'.

Size	Receiver Only		Kit	
Monoplug	#MIRM	$129.95	#MITRKM	$199.95
"H" Prong	#MIRH	$129.95	#MITRKH	$199.95

POCKET WIZARD PLUS II

PocketWizard™

Combined Transmitter and Receiver

- Auto-Sensing Transceiver Technology determines which mode (Transmit or Receive) to set itself.
- Photographers can trigger their cameras remotely, and the camera-mounted transceiver relays the signal to a remote flash—automatically.
- Backward Compatible with All Previous Pocket Wizards

#WIPWP2T **$188.95**

AC SLAVE STROBES

Slave strobes screw directly into a standard AC socket and allow you to boost or fill in with any electronic flash by means of its built-in slave. Bare Bulb model covers 180°.

Milos Structural Systems

ALUMINUM TRUSSING SYSTEMS

QT QuickTruss
aluminium trussing systems

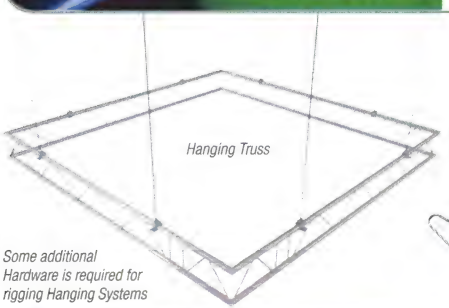

Trussing is modular aluminum framework designed to support staging and lighting.

The Milos QuickTruss M222 System features solid conical connectors and tapered pins for an extremely Quick, Simple, and Secure assembly of structures. Available as complete Hanging and Floor kits or as Individual M222 Components.

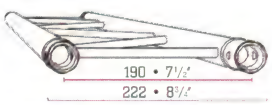

Why use Trussing? The Milos QuickTruss system allows controlled focus of lighting and speaker components while making maximum use of allocated installation space. The space-saving Hanging or Floor systems have more available space for hanging than floor stands, and offer great weight loading capabilities (despite their small size and light physical weight). The modular design of QuickTruss system allows for infinite expandability; components can be reused for wide variety of staging applications.

Applications for Trussing include: Stage lighting, Live Sound/DJ applications, Studio Lighting, General Staging, Trade Shows, Retail, and Decorative. A rubber mallet is recommended for fastening components together

M222 DUO TRUSS

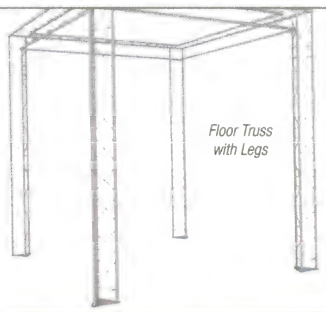

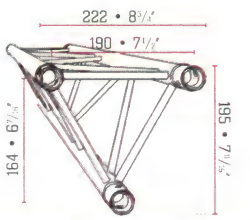

Some additional Hardware is required for rigging Hanging Systems

Canvas Series—Available in 107 Styles

Canvas backdrops are made of heavy cotton canvas and paints specially mixed for elasticity and durability. These backdrops will last decades.

Canvas Scenic Series—Available in 55 Styles

Canvas Scenic backdrops are carefully hand-painted scenes on heavy cotton canvas, when you need something more specific than abstract colors in your backgrounds. These backdrops are highly durable.

Canvas Old Master Scenic Series—Available in 27 Styles

Canvas Scenic backdrops are carefully hand-painted "Old Master" scenes on heavy cotton canvas, when your shot requires a touch of the traditional. These backdrops are also highly durable.

Muslin Classic Series—Available in 18 Styles

The Classic Series is a wide array of color choices, presented in a softly blended technique of painting. These backdrops have a painterly "canvas look."

CHROMA KEY PAINT

Rosco Chroma Key Paints have been formulated with the assistance of video technicians throughout the country. They are manufactured to provide high luminance values and color saturation for keying effects.

- Coverage: Approximately 300 sq. ft. per gallon

Gallon – Blue #RO5710..... **$69.95**
Gallon – Green #RO5711G..... **$69.95**

Cautions: Do not apply when surface or air temperatures are below 50° F, keep from freezing. Avoid prolonged contact with skin or breathing of spray. Do not take internally. Use adequate ventilation. KEEP OUT OF REACH OF CHILDREN.

Colors depicted may vary slightly due to differences in computer monitors, printed media, and variances in manufacturer's dyes or paints.

Your Point of View

Extreme sports are tearing the envelope like never before, and these on-board POV-cam systems will be there for you every step and slide of the way. They're shock-resistant, water-and dust-proof, built to handle your lifestyle and capture all of it on lightweight, ultra reliable tapeless media with crystal-clear imagery.

POV cameras are easily attachable to where you need them, feature lengthy SD-card storage times in a variety of formats, and download quickly to NLE systems. No matter how you grip it and rip it, your POV is captured for keeps.

Filmmakers are also pushing the edges of the frame, and POV cams are making music videos, documentaries, and indie films more visceral and exciting than ever. Extended techniques and hybrid styles are now part of a shooter's vibe. POV cams can capture the unique footage you want, for projects that crackle and pop with energy. These unique cameras are also ideal for undercover applications. They're small enough for situations impractical or inaccessible to conventional cams. Wherever your ride takes you, POV cams are the new generation of image capture.

VholdR WEARABLE CAMCORDER

ContourHD
Wearable Camcorder

Capture and share your most exhilarating extreme experiences with the rugged, weatherproof ContourHD camcorder. An all-in-one contained unit that mounts to virtually anything, use it to capture all the action when you're riding, skating, wind surfing and then some.The 135° rotating lens gives you a wide angle view and at the same time is fixed focus, allowing you to forget about the camera and keep your eyes on the trail, slope, or road.

- Record up to 30 minutes of wide screen video per 1GB in HD mode (1280 x 720/30fps) or up to 60 minutes per 1GB of high speed sports footage in the 848 x 480/60fps SD High Action mode.
- Records to MicroSD card (2GB card included)
- Recording video is easy thanks to the over-sized record switch—even with gloved hands
- No need to fuss with focus: the camera's dual lasers, activated on demand, indicate where it's pointed and if its level. Lens and capture card rotate in unison within a pivoting, hermetically sealed capsule—so no matter how upside-down your world, the ContourHD makes it level.

ContourHD Wearable Camcorder *(B&H# VHCHDC)* **279.95**

GoPro

Motorsports HERO Wide
World's Smallest, Wireless On-Board Video Camera

Motorsports HERO Wide Video Camera is a 5MP camera with a 170° wide angle lens for capturing as much of the action as possible. The camera mounts to virtually anything— car, boat, plane—via a number of mounting options. Quick release mounts, a suction cup mount, roll bar mount and additional expansion mounts are all included. The Motorsports HERO Wide camera even mounts to the top and sides of helmets. So, not only do you get the awesome images provided by the wide angle lens but you also get the perspective of exterior mounting.

The camera shoots up to 56 minutes of 5MP video at 30fps and with a 2GB SD card can capture up to 1945 images when you choose "Photo every 2 seconds" mode. The camera is shockproof and waterproof up to 100'; so even when it's raining you can keep shooting. Runs 3 hours when using Lithium batteries and 2 hours when using NiMH rechargeable batteries.

Motorsports HERO Wide *(B&H# GOMSH)* **179.95**

Helmet HERO Wide: Same as above, except the Helmet HERO Wide quick-release attaches to vented and non-vented helmets, bikes, kayaks, skis, snowboards, and even includes a head strap for wearing like a headlamp. *(B&H# GOHHW)* **189.95**

ELMO

SUV-CAM II Micro Video Camera System

A tough, portable video recording system that can be used for sports, security and industrial applications, the SUV-Cam II is small enough to be mounted in places inaccessible to conventional cameras. Records 2½ hours of DVD-quality on a 4GB SD/SDHC card and can be viewed on the recorder's 2.2" LCD screen or output to a monitor.

- Records in MPEG-4 format video to a SD/SDHC card. Images can be played back right on the recorder's 2.2" color LCD screen, on a PC, or a large TV/monitor via its A/V ports. The use of SD cards as a storage medium is ideal for this recorder given a flash memory drive's virtual immunity to shock and vibration.
- When the action starts there is no time to fiddle around with menus and settings to get the system to start recording. Simply needs to press the Start/Stop button once and the unit instantly goes into recording mode even if its been turned off. There is also a 'hold' feature to prevent the 'stop' button from being accidentally pressed during intense or extreme movements.
- Although the camera is ultra compact, it is built of a tough metal waterproof material able to submerge down to 132'. Pleasure divers and career marine biologists alike will love recording the wondrous sights and sounds under the sea. (The recorder cannot be immersed in water.)
- The focusing ring is designed that it shouldn't become de-focused under most operating conditions. Additionally, this system enlists the aid of a sophisticated white balance function to ensure that your skies don't turn out green and your snow doesn't acquire a yellowish tinge.

SUV-CAM II with 2.6' Cable *(B&H# ELSC23C)* **729.95**
SUV-CAM II with 5' Cable *(B&H# ELSC25C)* **749.95**

V.I.O.

POV.1.5
Point-of-View Video Systems for Extreme Action Sports

The innovative POV.1.5 captures the most thrilling point of view—yours. This hands-free video sports system is built to withstand the dust, shock and water that make action sports fun. The camera head mounts to your gear, helmet, or handle bars, while the all-digital, flash memory recorder can be mounted nearby or stowed easily in your pack.
The remote controlled recorder has a straight record mode and an edit-on-the-go space saving mode.
Recording in DVD-quality MPEG4 video, the POV.1.5's wide aspect ratio mode allows you to merge footage into an HD workflow. The POV.1.5 package—with a tethered camera head, built-in video recorder, 4GB SD card (8GB limit), wireless remote and software for managing your point-of-view videos allows you to shoot, tag, edit, and share your footage right out of the box.

- High-quality wearable video camera records with 720 x 480 resolution at 30fps
- Ergonomic user interface design enables single-handed operation and hands-free video capture
- Shock-resistant, water-resistant and dustproof for use in the most hazardous environment

POV.1.5: Digital Helmet Camera System *(B&H# VIPOV150)* **599.95**
POV.1.5M Moto Kit: Includes POV power, allowing you to power a POV unit with your car or motorcycle battery *(B&H# VIPOV375)* **649.95**

AIPTEK
www.aiptek.com

Hi-Speed HD 720p HD Camcorder

Incredibly inexpensive, the Hi-Speed HD camcorder captures up to an hour of 720p (1280 x 720) AVCHD video at 30 fps to its internal 2GB memory or up to 16 hours on a removable 32GB SDHC card. This makes it ideal for emailing or uploading to the web. In addition, it can also be used as a 3MP digital camera with a flash and red-eye reduction mode for shooting and storing thousands of digital images. Other features include 2x digital zoom, 2.4" 270° swivel LCD screen, Night Shot mode for recording in low light, and an component output for watching your video and stills on a large screen HDTV. An external mic input allows use of a higher grade mic for higher quality sound recordings. Charge the camera using your computer's USB port or with the included AC adapter.

Hi-Speed HD *(B&H# AIHISPEEDHD)* **105.95**

A-HD+ 1080p HD Camcorder

The A-HD+ steps up with the ability to record 1080p HD video (1440 x 1080) at 30 fps, a 4x digital zoom lens and 8MP digital camera. Although it has a 128MB memory, you can record up to 8 hours of 1080p HD video on a removable 32GB SD/SDHC card. It also has a video input allowing you to record movies or TV shows from your TV, VCR or DVD player for viewing on the 2.4" LCD. Plug in a pair of headphones into the hadphone jack and you have a personal media or MP3 player. (It doesn't have an external mic input).

A-HD+ *(B&H # AIAHD1080P)* **119.95**

Action-HD 1080p HD Camcorder

The Action-HD steps up (from the A-HD+) with a 3x optical zoom autofocus lens, LED lights to help focus and boost images in low light, and a 2" macro zoom for up-close stills and video. It also includes a remote control and a compact alloy tripod.

Action-HD+ *(B&H # AIAHDPRO)* .. **159.95**

Action-HD GVS 1080p HD Camcorder

The top-of-the-line Action-HD GVS features a 5x optical zoom and Gyroscopic (image) stabilization that cuts down on blur from hand shake or a moving subject. It has a 3" swivel-reversible LCD display that rotates up to 270° and Night Shot mode for recording in low light situations. It has an external mic input, but no video input. It also doubles as a 5-megapixel digital still camera. In Burst mode, can shoot 10 frames per second, and has a built-in flash with red-eye reduction.

Action-HD+ GVS *(B&H# AIAHDGVS)* **179.95**

Compact Alloy Tripod

Compact, table-top tripod for use with Aiptek cameras or any other small camera using a 1/4-20 connection. This sturdy base comes with a stabilizing ring allowing full circle pivoting.

Compact Tripod *(B&H# AIZACSTD4)* **12.95**

SANYO

VPC-CG10 Dual Camera Xacti

The VPC-CG10 records HD 720p video at 30fps and up to 10 megapixel digital photos with a 5x optical zoom (38-190mm equivalent). This in a very stylish, sleek, upright design. It has a large, 3" display that flips out from the camera and rotates up to 285° on an axis that allows you to take great video or still images from otherwise-difficult-to-view positions. Especially useful when shooting in confined spaces. For convenience, videos, still photos and the various settings / menus can be easily accessed with a user's thumb. The camera easily fits in a coat pocket and makes sharing videos and photos via social networking web sites, portable video devices like iPod's, TV's and computers, easy.

VPC-CG10: Available in Black *(SAVPCCG10BK)* or Pink *(SAVPCCG10P)* **199.95**

VPC-HD2000ABK Dual Camera Xacti

Featuring an HD lens, high-speed CMOS sensor, and high-speed processor, the VPC-HD2000ABK records clear and smooth Full HD 1920 x 1080p video. It is also capable of high-speed shooting at 600 fps/240 fps, which lets you view fast-motion videos, such as sports scenes, in slow motion—impossible on a normal camera. It can capture realistic 8-megapixel photos, (12 MP interpolated). Ergonomic design prevents muscle fatigue and maintains a horizontal lens orientation even when the camera is mounted on a tripod. At the same time, it's still compact enough to grip in your hand. Standalone shutter buttons that let you start shooting a video or a photo with a single thumb press. There's no need to press a separate mode switch, and you can even shoot photos and videos simultaneously.

VPC-HD2000: Available in Black *(SAVPCHD2000ABK)* ..... **Call or Log-on**

VPC-TH1 Dual Camera Xacti

Capture life's special moments as they happen - the VPC-TH1 records HD 720p video at 30fps and up to 2-megapixel digital photos with a 30x optical zoom. It has a more traditional horizontal design but this camera is far from ordinary. Compact, lightweight design makes the VPC-TH1 extremely portable and easy to use. It has a large, 3" display that flips out from the camera and rotates up to 285° on an axis that allows you to take great video or still images from otherwise-difficult-to-view positions Videos, still photos and the various settings and menus can be easily accessed with the user's thumb.

VPC-TH1: Available in Blue *(B&H#SAVPCTH1BL)* or Silver *(SAVPCTH1)* **279.95**

All Sanyo Xacti Cameras Feature:

- Designed to fit in the palm of your hand, they feature an easy to navigate menu which make them a great choice for the beginner and the more advanced user. They are the perfect blend of style, performance, and ease of use.
- AVCHD format makes sharing videos and photos via e-mail or web sites a breeze. Import video and still image files directly into iTunes, then port them to a video-capable iPod.
- Using Face Detection technology, they recognize up to 12 faces for videos and still pictures and optimize focus and aperture settings to ensure all subjects are in focus.
- Take pictures like the pros with sequential shooting up to 13 frames per second (7 fps on the VPC-CG10).
- Sophisticated image stabilizer automatically compensates for distracting up-and-down or side-to-side camera movement, keeping your subject steady and easy to follow. It accurately distinguishes between unintentional camera shake and deliberate camera movement. Operates in both wide-angle and telephoto modes.
- Record 4 hours of HD video on a 16GB SDHC memory card
- Simultaneously shoot video clips and still images. Never miss another precious photo opportunity (not the VPC-FH1).
- They all have (except on the VPC-CG10) an HDMI output for a single cable connection to an HDTV or DVD recorder
- Supplied battery provides over 3 hours of recording time.

VPC-WH1 Dual Camera Xacti

The VPC-WH1 has the highest possible waterproof rating—IPX8—allowing you to record stunning 720p AVCHD video 10' underwaterfor an entire hour. Small and stylish, it features an extra long 30x optical zoom (35mm equivalent of 43-1290mm), 2.5" display that flips out and rotates up to 285°and an easy to navigate menu.

VPC-WH1: Available in Blue *(B&H # SAVPCWH1BL)* or Yellow *(B&H # SAVPCWH1YL)* **349.95**

VPC-FH1A Dual Camera Xacti

Take stunning full 1080p High Definition video at 60fps and amazing 8 megapixel digital photos. Compact and stylish, the palm fitting VPC-FH1A features a large, 3" LCD display that flips out from the camera and rotates up to 285°, an easy to navigate menu, 600fps slow motion mode, and face chasing technology which automatically read and corrects focus and lighting for up to 12 different subjects. It has a 16x optical zoom lens for video and a 10x optical zoom lens for photo. Videos, still photos and the various settings and menus can be easily accessed via your thumb.

VPC-FH1A Black *(B&H # SAVPCFH1A)* **499.95**

SAMSUNG

HMX-U10 Ultra-Compact Full-HD Camcorder with 10MP Still Camera

The HMX-U10 delivers Full-HD 1920 x 1080 recording in a user-friendly, ergonomically designed package. It also offers one-touch upload to YouTube and built-in intelli-studio software for in-camera editing. 7° slanted ergonomic handgrip saves your hand and wrist from unwanted strain, while keeping the lens angled at just the right pitch, allowing you to maintain the most comfortable and natural position while still capturing straight on video and stills. 1x zoom fixed focus lens provides you with hassle-free recording capabilities. Just point the camcorder, press record, and shoot! HD video, along with the 10MP still images are captured and stored on SD/SDHC memory cards. View images on the 2" LCD screen on the back of the camera.

HMX-U10: Available in Black *(SAHMXU10BN)* or Red *(SAHMXU10RN)*.....**179.95**

SMX-C14 Flash Memory Camcorder

The SMX-C14 is a SD (Standard Definition) flash memory camcorder with an external memory card slot that holds up to a 32GB SD/SDHC card for up to 16 hours of recording, which can then be quickly transferred to your PC for uploading or emailing. It also offers an optimized recording mode for easy uploading to YouTube whereby the camera automatically adjusts the resolution to 640 x 480. You don't have to convert your files, which results in effortless uploading and sharing. The angle of the lens (25°) lets you hold the camera in a comfortable and natural way while filming your subjects straight on. Record longer without experiencing the wrist pain and fatigue normally associated with camcorder use. Other features include a 2.7" LCD display, Anti-Shake Hyper DIS, Face Detection and 10x optical zoom. Built-in intelli-studio software requires no installation of separate software to your computer, meaning you can edit in-camera or use the SMX-C14 on any PC. It also makes direct uploading to YouTube and other social media sites easy.

SMX-C14: Available in Blue *(SASMXC14LN)* or Red *(SASMXC14RN)*.....**279.95**

SMX-K40 • SMX-K45 Flash Memory Camcorders

An affordable way to get the HD experience, the SMX-K40 and SMX-K45 record standard definition (720 x 480) video and up-convert it to 1920 x 1080/60p footage when connected to an HDTV via an HDMI cable. You get to experience the depth and clarity of HD while watching your budget. They are equipped with a 52x Schneider KREUZNACH optical zoom with optical image stabilizer and 65x (digital) Intelli-Zoom. They offer a one-touch button for fast and easy upload to sites like YouTube. Built-in intell-studio software means no installation of separate software to your computer, so you can edit in-camera. Other features include time-lapse (interval) reoording, USB or wall charging via included AC adapter, and animated thumbnails to simplify the way you search for video clips. When scrolling through your videos, each thumbnail will provide a short playback of the video file when highlighted. Last, they record to SD/SDHC cards, while the SMX-K45 also offers a built-in 32GB SSD (solid state drive).

HMX-100 • HMX-104 • HMX-105 • HMX-106 Full-HD Flash Memory Camcorders

Samsung's H-Series offer high-performance, full 1920 x 1080 HD video, a renowned Schneider Kreuznach Varioplan HD lens, and state-of-the-art design with internal SSD (Solid State) drives provide onboard memory. Lightweight and compact, the drives operate silently with very low heat emission, and feature no moving parts, which reduces overall power consumption and enhances reliability. No moving parts also make them more durable and resistant to shock and vibrations, which pose a considerable threat to the performance of HDD based digital camcorders. Additionally, SSD technology is faster than HDD, including quicker boot-up and read/write speeds which is required for the amount of data recorded in full-HD resolution. When actively reading and writing data, Samsung's SSD technology consumes approximately 1/8th of the power of a comparable HDD.

- All except the HMX-H100 offer an internal SSD drive, plus, their memory capacity can be expanded using an SD/SDHC memory card. The HMX-H100 records to an SD/SDHC memory card only. The camcorders utilize H.264 compression, which significantly increases recording time. At full-HD resolution and when set to fine mode, users can record up to 12 hours on the HMX-H106.
- They incorporate a 10x wide-angle (37-370mm equivalent) Schneider Kreuznach Varioplan HD zoom lens which is paired with Samsung's Optical Image Stabilizer to reduce blur from vibrations or hand shake. The wide angle lens makes them ideal for recording large groups of family or friends, breathtaking landscapes or even capturing all the action at sporting events.
- High performance 1/4.5" 2.2MP CMOS imaging sensor yields impressive light sensitivity.
- Each can also capture 4.7-megapixel digital still photos with a built-in strobe flash
- Ued in conjunction with Samsung's proprietary swivel grip, the additional controls on the swiveling 2.7" touch screen LCD lets you effortlessly control the camcorder at low or high angles.
- HD Time Lapse recording mode lets you record a single image at pre-selected intervals of 1, 3, 5, 10, 15, or 30 seconds, and will save each image as one single movie file.
- HDMI output lets you enjoy their full-HD content on their HDTV without the need for proprietary docking cradles.

Flip video

Flip Ultra • Flip Ultra HD

- The Flip Ultra records up to 120 minutes of full 640 x 480 video at 30fps to its 4GB built-in flash memory. The Flip Ultra HD records up to 120 minutes of 1280 x 720 HD video to its built-in 8GB flash memory. Also has HDMI output for connection to large screen HDTV.
- Internal memory means no messing around with cards or tapes. Their USB arm lets you download directly without cables that can get lost or tangled.
- No menus, settings, and complicated operations. Flat back panel with touch-sensitive buttons features a 2" LCD screen. Just shoot and share. Controls include record, playback, pause, FF, REW, zoom and delete.
- Video is compressed into small file sizes allowing uploading straight to the the Internet from the camcorder—commpletely bypass editing on your computer.

Flip Ultra: Available in Black *(FLU1120B)*, Yellow *(FLU1120Y)*, Pink *(FLU1120P)* or White *(B&H# FLU1120W)*.....**129.95**

Flip UltraHD: In Black *(FLU2120B)*, or White *(FLU2120W)*....**199.95**

Flip Mino

Similar to the Flip Ultra, the compact Flip Mino is 40% smaller and features an internal, rechargeable, lithium-ion battery. Fits right in your pocket, ready to shoot up to 60 minutes of video to the 2GB internal memory whenever and wherever. Otherwise the same, the flat back panel with touch-sensitive buttons features a 1.5" LCD screen and all the controls you need to capture and playback video, keeping the Mino as user-friendly as it gets.

- Video output enables instant viewing of videos on TV
- Edit custom movies that include music from your personal library

Flip Mino: In Black *(FLF360B)* or White *(FLF360W)*.....**129.95**

Flip Video MinoHD

Flip Video MinoHD gives you an easy-to-use HD 720p camcorder that fits in your pocket. Weighing only 3.3 oz. and the size of a small cell phone, the MinoHD can be controlled with one hand. There's no menu to worry about. All the functions you need to operate the camcorder are clearly marked and easy to understand. Capture up to 60 minutes of AVCHD video to the built-in 4GB flash memory.
Also features a 1.5" LCD screen for composition and playback, a 3 second startup time, and a silent mode for discrete recording.

- Records 16:9 HD video at 1280 x 720 at 30 fps. Watch all your videos immediately after you shot them on your HDTV - in their full HD glory using the supplied cable.
- Even though the camera lens is fixed focus, there is a 2x digital zoom for when you need to get just a little bit closer.
- To edit and upload footage, simply flip out the USB arm and connect it to your computer. Use the built-in FlipShare software to email, edit, and post to sites such as YouTube. The video files also work with iTunes, iMovie, and iPhoto.

Flip Video MinoHD Black *(B&H# FLF460B)*.....**169.00**

Canon

DC410 • DC420

DVD Camcorders

For those who want to record directly to DVD, the DC410 and DC420 feature long optical zoom len, DIGIC DV II image processor, Widescreen HR recording, built-in video light,Control, 2.7" widescreen LCD, and external mic input. For convenience, they feature Quick Start function, Easy Menu, Joystick control and built-in lens cover.

- Record to DVD-R/-RW discs for up to 60 minutes in LP mode, or to DVD-R DL (dual layer) discs that can store up to 108 minutes of video.
- The DC410 has a 680,000-pixel CCD, the DC420 has a 1.07-megapixel CCD sensor that includes a filter for color correction.
- Built-in, high-quality image stabilizer instantly corrects camcorder shake, allowing you to shoot professional-looking, rock-steady video
- 2.7" widescreen viewfinder lets you see exactly what you're recording at all times.
- The DC410 is equipped with Canon 41x Advanced Zoom, the DC420 a 48x zoom (default mode). On either, you can select a 37x optical or 2000x digital zoom. They also offer three fixed-zoom speeds to ensure smooth, steady zooms automatically.
- 6 digital effects/2 fades (Camera Mode) add professional-looking touches to your videos.

DC410 *(B&H# CADC410)*: 680,000 pixels **279.95**
DC420 *(B&H# CADC420)*: 1.07 megapixels **299.95**

ZR960

MiniDV Camcorder

The ZR960 provides users with the reliability of the MiniDV format—whether you just want to record your child's ballet recital or you're an aspiring film student. Features include Quick Start, 41x Advanced Zoom, Electronic Image Stabilization, and a 2.7" widescreen LCD. It also offers an external mic and headphone terminals for enhanced audio recording—a must for students. DV (IEEE1394) terminal lets you easily upload your video to a computer for editing or sharing on the web.

- 1/6" CCD image sensor works with Canon's DIGIC DV Image Processor to produce true-to-life color and tonality
- 41x Advanced Zoom plus you also have the option to use a 37x optical Zoom or 2000x digital zoom.
- Record to MiniDV and take advantage of both its universal compatibility with existing technology while also benefiting from a level of reliability, which pros have counted on for over a decade.
- Electronic Image Stabilization corrects for camera shake or if you're subject is moving or you're accidentally bumped
- Once you open the LCD the ZR960 is ready to record—never again miss that once in a lifetime moment.
- Smooth zoom control with three fixed speeds for fluid transitions
- Widescreen HR recording lets you capture everything in 16:9 computer for sharing
- Exposure lock keeps your exposure settings in place when you want to refine your composition
- Level and Grid Markers help you compose better shots by lining up the horizontal lines in your images

ZR960 *(B&H#CAZR960)*.....**249.00**

Canon

FS-200 • FS-21 • FS-22

Standard Definition Flash Memory Camcorders

Measuring just 2.2 x 2.3 x 4.8" (WHD), the ultra-sleek FS200 combines big video storage capacity in a compact camcorder weighing only 7.9 oz. It features a 680,000-pixel CCD sensor, Genuine Canon 41x Advanced Zoom, and DIGIC DV II Image Processor for exceptional color and clarity. Available in three fashionable colors, the FS-200 offers Image Stabilization, a 2.7" Widescreen LCD and records video directly to an SDHC memory card. It also offers a host of conveniences including, Video Snapshot, Quick Start, Quick Charge, Dual Shot, joystick control, Program AE modes and more.

Stepping up, the FS21 and FS22 add dual flash memory capability. In addtion to recording to an SDHC memory card, the FS21 incorporates a 16GB internal Flash drive, for up to 10 hours of video recording, while the FS22 doubles that with a 32GB drive. Additionally, they feature a 1.07-megapixel CCD image sensor and Genuine Canon 48x Advanced Zoom.

- DIGIC DV II Image Processor allows continuous shooting of up to five 1024 x 768 still images per second.
- Quick Charge feature gives the supplied BP-808 lithium-ion battery 30- or 60-minutes of juice, in just 10- or 20-minutes of charging (respectively). The battery also keeps you informed by displaying remaining battery life to the minute.
- Industry-leading image stabilization will give your video a more professional look, with rock-steady shots, even when you're shooting at maximum telephoto range.
- Records high-resolution 16:9 widescreen for picture-perfect video.
- Dual Shot Mode lets you capture video and photos in the same mode - without requiring any switching.
- Joystick control eliminates many buttons, making the camcorder easier than ever to use. Control exposure lock and exposure compensation during recording; and control Play, Stop, FF and REW functions during playback, all from one convenient place.
- Offers three pre-set zoom speeds for smooth, steady, professional-looking zooms.
- For the best exposure for various situations, the Program AE mode will automatically adjust the settings to compensate for the conditions and subject. Choose from Portrait, Sports, Night, Snow, Beach, Sunset, Spotlight and Fireworks.
- Mic terminal lets you attach an external microphone, while a headphone terminal lets you use headphones to more accurately record or monitor audio from a specific source, or to review audio in playback.

FS-200: Available in Misty Silver *(B&H# CAFS200S)*, Evening Blue *(B&H# CAFS200BL)*, and Sunrise Red *(B&H# CAFS200R)* **299.99**
FS-21 *(B&H# CAFS21)* .....**499.99** **FS-22** *(B&H# CAFS22)* **599.99**

FS-200, FS-21, FS-22, HF20, HF200, HFS10/11 & HFS100 All Feature:

- Battery displays the remaining recording time to the minute
- In Video Snapshot Mode capture a series of 4-second video clips, then blend in one of 10 supplied music tracks, or your favorite background music to create an entertaining movie.
- Level Marker makes it easy to keep your camera level for more better looking video, while a Grid Marker lets you compose hots accurately, according to the grid in the viewfinder.
- When in Camera Mode and the LCD panel is closed, the camcorder is placed in standby mode. When the action starts, open the LCD panel and you start recording in less than one second.
- Pre-Record gives you a head start on capturing the action by continuously recording three seconds of video to memory before you even press the record button. When you start recording, the additional video also recorded.
- Built-in video light lets you shoot subjects in color, in low light, up to 4.9' away.
- Built-in electronic lens cover means you never have to go looking for your lens cover again.
- Hi-speed USB 2.0 terminal for ultra-fast transfer of movies and photos.
- With the optional Canon's DW-100 DVD Burner, a single cable, and the click of a few buttons is all you need for your videos to be burned to a disc ready to play in a compatible DVD player.
- Bundled ImageMixer 3SE software (Windows XP and Vista compatible) lets you play back recorded video on a computer, as well as edit your footage and burn it to a DVD. Trim, reorder, and combine scenes, as well as add music, titles, and transitions.

DW-100 DVD Burner

Share your best camcorder footage with family and friends, or burn DVDs for archival backup. This easy-to-use DVD burner records onto DVD-R/-RW/-R DL (dual-layer) DVDs in either AVCHD high definition or standard definition. Transfer and back up footage from your Canon HDD or flash memory camcorder via USB 2.0.

- Only 3 buttons
- Transfers photos
- Plays back to HDTV via camcorder
- Compatible with 8.5GB High Capacity DVD-R DL discs, for approx. 2.6 hours of recording time
- 3 backup modes: entire media file, new scenes, or playlist

DW-100 *(B&H# CADW100)*.....**169.95**

Canon

VIXIA HF20 • HF200 • HF S10 HF S11 • HF S100

HD (High Definition) Flash Memory Camcorders

Powerhouse camcorders, the **VIXIA HF20** and **HF200** deliver brilliant video and still photos through Canon's 3.89 Megapixel Full-HD CMOS image sensor and DIGIC DV III advanced image processor. They also feature Canon 15x HD video lens, Face Detection, SuperRange Optical Image Stabilizer, advanced Auto Exposure system, 24Mbps recording, Video Snapshot and Dual Shot Modes. They can record up to 3 hours of crisp, HD video (24 Mbsp mode) to a 32GB removable SDHC memory card, while the VIXIA HF20 also offers the option of recording to an internal 32GB flash drive. Incredibly compact, they measure 2.8 x 2.4 x 4.9" (WHD) and weigh only 14 oz.

Stepping up, the **VIXIA HF S10, HF S11** and **HF S100** deliver brilliant video and photos through an exclusive 8.59 Megapixel CMOS image sensor. They incorporate a Canon 10x HD Video Lens plus a built-in 1.7x Digital Tele-converter for an extended telephoto range, while retaining renowned Canon image quality. They also record up to 3 hours of crisp, high definition video (24Mbsp mode) to a 32GB SDHC memory card, while the VIXIA HF S10 (32GB) and HF S11 (64GB) offers extended storage with the option of recording to their internal Flash drive. Incredibly compact, they measure only 2.8 x 2.7 x 5.4" (WHD) and weigh just 17 oz.

- Genuine Canon 10x (HF S10 and HF S100) or 15x (HF20 and HF200) HD Video lenses offer four zoom speeds (three pre-set, one variable) for smooth, steady, professional-looking zooms. Aspheric design ensures crisp, sharp video — enhancing the HD image quality. Additionally, a gradation neutral density (ND) system gives you better exposures in bright shooting situations.
- They capture 1920 x 1080 HD video via Canon's exclusive 3.89- or 8.59-megapixel HD CMOS image sensor for high color resolution and advanced color reproduction—even in dimly lit scenes.
- DIGIC DV III image processor delives enhanced image quality, true color production and a sophisticated noise reduction for exceptional low-light performance.
- 2.7" Multi-Angle Vivid Widescreen LCD features hard coat anti-reflection surface, improved color reproduction and wider range of viewing angles—so you see more of what you're recording.
- When manually focusing, a focus assist function provides a 2x magnification of your subject
- With Canon's high quality Face Detection technology, up to 35 faces can be detected automatically, and 9 detection frames can be displayed at one time. This ensures razor-sharp focus and natural, accurate exposure of the chosen subjects. It recognizes faces that are turned downwards or sideways. In addition, a specific face may be used to search for clips featuring that specific subject's face.
- Mini Advanced Accessory Shoe on the camcorder lets you attach available Canon optional accessories, such as the VL-5 video light or DM-100 directional stereo microphone. Has an external mic input.
- Built-in audio meter and manual audio level adjustments, so your video sounds as good as they look.
- HDMI (1.3) output to connect to an HDTV for highest quality playback. They also support CEC which allows multiple HDMI devices connected to an HDTV to be controlled by a single remote control.
- Optional RA-V1 Remote Control Adapter provides the VIXIA HF S11 (only) with a LANC terminal for connecting the optional Canon ZR-1000 and ZR-2000 and third-party wired remote controllers. This adapter fits into the Mini Advanced Accessory Shoe for controlling various camcorder functions, such as power on/off, record start/stop, zooming and focus, and is ideal when used on a tripod.

Vixia HF S11 *(B&H # CAHFS11)* **1399.99**

All Canon HD Camcorders Feature:

- Revolutionary Instant AF focusing system achieves focus instantaneously, reducing focus "hunting". Benefits are especially apparent in high brightness and night shooting situations. Capture fast, accurate focusing, even when following a moving subject.
- 24p Cinema Mode enables a professional "film-look". In addition, you can use the CINEMA setting which changes the color and tonal characteristics, evoking the look and feel of a movie shown in a theater. For added flexibility, these settings can be used together or independently.
- 24Mbps recording capability gives you the highest quality AVCHD video possible. You'll see enhanced detail, finer gradations of tones and improved reproduction of moving subjects.
- SuperRange Optical Image Stabilization (OIS) combines gyro- and image-sensors to correct for a wide range of camcorder motion without a loss in image quality.
- In addition to the standard interlaced video (60i), you capture video in 30p (30 progressive frames, recorded to 60i), which is particularly useful for footage to be used on the Internet.

Canon

Vixia HV40

HDV Camcorder

The VIXIA HV40 shares the core components found within the VIXIA line, but also offers a Genuine Canon 10x HD Video Lens and 2.96 Megapixel Full HD CMOS Image Sensor. What's more, it also allows users to record in native 24p Mode—allowing you to capture and record 24 progressive fps (frames per second) to a HDV tape, a big advantage for the serious filmmaker. SuperRange Optical Image Stabilization and Instant Auto Focus give the ontrol demanded by high definition. If you wish to continue to use your existing SD (Standard Definition) equipment, the HV40 has both SD and HD recording modes. Another add-on feature, Custom Key Mode, enables users to assign commonly used functions to a single button on the camcorder for easy access.

- 2.96MP full HD CMOS sensor delivers 1920 x 1080 HD video, while Canon's DIGIC DV II Image Processor reduces image noise and customizes the color and tonality of your video and still images.
- 10x HD Video Lens with three fixed zoom speeds for fluid transitions. Super spectra coating eliminates flare and ghosting, while the aspheric design cuts down on aberration while boosting resolution.
- 2.7" multi-angle widescreen LCD with hard coat AR surface reproduces color accurately with reduced glare and enhanced contrast.

Vixia HV40 *(B&H# CAHV40)* **799.95**

Canon

VIXIA HG21 High Definition 120GB Hard Disk Drive Camcorder

Record up to 45 hours of HD video directly to its internal 120GB drive or to a removable SDHC memory card. When the internal drive becomes full, footage can be easily transferred to an SDHC memory card, where it can be inserted into a reader for instant viewing. The VIXIA HG21 features a Canon 12x HD Video Lens, HD CMOS Image Sensor for Full-HD (1920 x 1080) image capture; DIGIC DV II Image Processor for superior color and clarity; Instant AutoFocus for fast and accurate focusing– crucial for HD; and SuperRange Optical Image Stabilization, which corrects a wide range of camcorder vibration for virtually shake-free images.

- Selectable frame rates let you choose between 60i, 30p and 24p to achieve just the look you want. 24p Cinema Mode enables aspiring moviemakers to achieve a professional "film-look." In addition, CINE setting changes the color and tonal characteristics, evoking the look and feel of a movie shown in a theater. For added flexibility, these settings can be used together or independently.
- With 24Mbps bit rate recording, video shot of fast-moving sporting events, multi-color butterflies on a variegated leaf or the shading of a brilliant sunset will be remarkable.

GZ-MG630 • GZ-MG670 • GZ-MG680

Everio G Series Hybrid (microSD/SDHC & Hard Disk) Standard Definition Camcorders

The GZ-MG630, GZ-MG670 and GZ-MG680 each feature a 1/6" 800,000-pixel CCD image sensor, Konica Minolta 40x dynamic zoom and 800x digital zoom. Dynamic zoom achieves up to 40x magnification by using nearly all of the CCD's effective pixels without any picture quality degradation. Otherwise identical except for their storage capacity, the GZ-MG670 and GZ-MG680 also offer HD upconversion that converts the camcorders' standard definition recordings for output as a 1920 x 1080p upconverted video signal, allowing HDMI connection to compatible HD televisions. With had disk drive capacities of 60GB to 120GB, they allow up to 28 to 150 hours of recording, depending on record mode.

GZ-MG630: 60GB Hard Disk Drive/ microSD/SDHC Card in Diamond Silver, Sapphire Blue or Ruby Red *(B&H# JVGZMG630*)*.....**349.95**

GZ-MG670: 80GB Hard Disk Drive/ microSD/SDHC Card in Onyx Black *(B&H# JVGZMG670B)*.....**429.95**

GZ-MG680: 120GB Hard Disk Drive/ microSD/SDHC Card in Onyx Black *(B&H# JVGZMG680B)*.....**449.95**

Everio S Series, Everio G Series and Everio HD Series All Feature

- Each is equipped with a 2.7" color LCD monitor
- Opening the LCD automatically opens the built-in lens cover and powers up the camcorder. Closing the LCD also closes the lens cover and shuts down the power. Quick Restart allows recording to start one second after the LCD is re-opened.
- Built-in light turns on automatically so you can shoot brilliant images even in low light situations
- One Touch Export function allows videos to be imported into iTunes and loaded into an iPod or iPhone.
- Zoom and record using the Laser Touch scroll bar or buttons next to the LCD, or with the standard zoom lever and REC button. Laser Touch also makes it easy to browse through thumbnail images of recorded scenes and access menu selection.
- Bundled Everio MediaBrowser software (Windows) provides an easy-to-search calendar-type graphical interface for indexing and finding video files with thumbnail images of recorded videos and stills are superimposed on the calendar. With built-in filter functions, you can instantly narrow down the selection to just videos, just stills, and so on.
- The software also allows easy playback, simple cut editing, and "Decomotion" to spruce up recorded footage with animated graphics for upload to YouTube. Supports burning to Blu-ray disc in addition to DVD.
- Conveniently upload videos to YouTube™ via One Touch Upload function. Users can perform an in-camera edit of any length video to fit the 10-minute YouTube limit.
- To easily check the content on Everio's HDD or SD/SDHC card, the Digest Playback unction automatically selects highlight scenes using JVC's proprietary algorithm and plays back what looks like a "coming attractions" trailer for a movie. 60 minutes of footage is condensed into five minutes of highlight scenes.
- Data battery allows you to check the remaining power by % and remaining recording time in minutes
- Convenient 2-way strap can be used in the usual camcorder fashion, supporting the user's hand when shooting, or it can be extended and used as a wrist strap like the type on most digital still cameras.
- Optional CU-VD50 Direct DVD Burner/Player lets you burn videos to a DVD disc without having to use a PC.
- With the CU-VD50 or with a DVD burner equipped PC, you can burn a full-sized DVD-Video disc at the touch of a button. Just press the DIRECT DVD button on the camcorder, and the DVD burning process starts automatically. Automatically transfer only newly recorded data to the burner, just the scenes you manually select, or pre-select the scenes you want in the order you want internally at the camera using the Playlist function.

GZ-HM200 • GZ-HD300 • GZ-HD320 Everio HD Hard Disk Camcorders

JVC's Everio HD camcorders record 1920 x 1080 full HD video, the GZ-HD300 and GZ-HD320 offer HDD storage for extra-long recording times. The GZ-HM200 offers dual SD card recording, with continuous recording from one card to the next, and is one of the smallest and lightest full HD camcorders available. They feature a 3.05 megapixel CMOS image sensor, and maintain native 1920 x 1080 resolution through playback, enabling output of a 1080p 60 fps progressive signal to make the most of high-end HD displays. 1920 x 1080 HD discs played back via the camera from the JVC CU-VD50 Share Station are also converted to 60 fps progressive.

- Euipped with HDMI (1.3) for connection to a large screen HDTV
- 20x Konica Minolta HD zoom lens provides a high-performance "eye" for the capture of Full-HD resolution images.
- AVCHD UXP mode (bit rate of up to 24Mbps) delivers more detailed, sharper images with less noise. Ideal for storing to Blu-ray or an external hard disk drive. All the recording modes – UXP, XP, SP, and EP – use Full HD 1920 x 1080 resolution.
- JVC's HD Gigabrid Premium video engine applies advanced image processing to optimize image quality and enables 2.5x faster creation of DVD discs for AVCHD DVDs.
- Face Detection technology automatically detects faces within the image being recorded to accurately adjust focus and exposure for sharp, beautiful images.

GZ-HM200: SD/SDHC Card Dual Slot in Onyx Black, Sapphire Blue or Garnet Red *(B&H# JVGZHM200*)* **519.95**
GZ-HD300: 60GB Hard Disk Drive/microSD/SDHC Card in Onyx Black, Sapphire Blue or Ruby Red *(B&H# JVGZHD300*)* **599.95**
GZ-HD320: 120GB Hard Disk Drive/microSD/SDHC Card in Onyx Black *(B&H# JVGZHD320B)* **699.95**

HD Everio GZ-HM400

10.3-Megapixel Dual Use Hybrid Camera

The HD Everio GZ-HM400 features 1920 x 1080 AVCHD recording and 9-megapixel digital still capture along with 32GB of built-in flash memory storage and the option to record to SD/SDHC memory cards. It has a 2.8"" LCD and includes a Konica Minolta HD lens with 15x Dynamic zoom and JVC-developed optical image stabilizer that uses two active prisms to compensate in the horizontal and vertical directions, providing the same effectiveness throughout the entire zoom range, from wide to telephoto.

- For still image shooting, up to 60fps 5.3-megapixel stills can be shot in a continuous burst of up to 11 images. Or, if preferred, continuous shooting of up to six nine-megapixel stills at up to 15fps is also possible. It is also possible to shoot 5.3-megapixel stills simultaneously while recording 1920 x 1080 Full HD video.
- To shoot stills, it offers aperture- and shutter priority modes, controls for manual brightness and focus adjustment.
- Konica Minolta HD Lens with a 10x optical zoom magnifies up to 15x without degradation thanks to Dynamic Zoom technology.

GZ-HM400: *(B&H# JVGZHM400US)* **899.95**

HD Everio GZ-HM400 & HD Everio X Both Feature:

- High-speed recording function shoots ultra-slow motion video. Any one of three speeds – 120 frames per second (fps), 300fps and 600fps – can be selected; the faster the recording speed, the slower the playback motion. With this function, 2.4-second bursts of video are recorded that are then played back over a period of up to 24 sec., 20x longer than normal speed.
- One Touch Export function to export videos into iTunes for playback on an iPod or iPhone. A One Touch Upload function simplifies uploading videos to YouTube.
- AVCHD UXP mode (bit rate of up to 24Mbps) delivers more detailed, sharper images with less noise.

HD Everio X (GZ-X900) 9-Megapixel Dual Use Hybrid Camera

The hybrid Everio X (GZ-X900) offers the powerful shooting combination of Full HD video and 9-megapixel still photos, plus creative shooting functions such as slow motion video and high speed "motor drive" still photography. Small enough to easily slip into a pocket, Everio X weighs just 0.66 lbs. (including battery) and measures just 2.6 x 4.8 x 1.46". About the size of a chunky smart phone, Everio X is a slab-sided rectangle without the handgrip, protrusions or indentations found on most camcorders. This allows plenty of flexibility in how the camera is held – from below, above, or whatever suits the situation. There are top-mounted zoom and record buttons, and a second set next to the LCD for additional shooting flexibility. The camera is black with silver accents, the right side has textured carbon fiber-like finish to provide a secure grip and resist smudges.

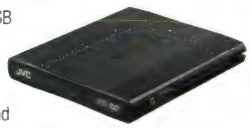

- 2.8" LaserTouch LCD gives you a wide surface on which to compose and playback all your shots.
- Up to six 9-megapixel stills can be shot at 15 images per second – faster than what digital SLRs can achieve
- Shoot 1920 x 1080 (60i) Full HD video and 5.3 megapixel stills simultaneously. While recording video, photos can be shot at 1/4000 shutter speed without interrupting video recording.
- Equipped with 5x Konica Minolta HD lens that magnifies up to 8x without any picture degradation thanks to Dynamic Zoom technology. In addition, proprietary optical image stabilization (OIS) technology ensures effectiveness throughout the zoom range.
- Face detection technology assures accurate focus and exposure, and HDMI (1.3) output for connection to large screen HDTV.

Everio X (GZ-X900) *(B&H # JVGZX900)* **899.95**

JVC

CU-VD3

Everio Share Station Direct HD DVD Burner

Connect your camcorder via USB 2.0 directly to the CU-VD3 and you can burn a 1-hour DVD (4GB) in just 30 minutes. It is compatilble with AVCHD and MPEG-2 formats, and AVCHD created discs are also playable on compatible Blu-ray players. Plus, it can be connected to your PC, so it can be used as an external DVD burner for your videos and data as well. Uses DVD-R/-RW disc, DVD-R DL disc supported. Can be used horizontally or vertically with the included stand.

CU-VD3 *(B&H# JVCUVD3)* **179.95**

CU-VS100

HD Media Player

If your camcorder uses SD cards, you're read to use this player.

Instead of connecting camcorder to TV each time you want to watch, simply insert the recorded SD card and enjoy playback right away. And since it supports still image and music data too, count on it to entertain you.

CU-VS100 *(B&H# JVCUVS100US)* **199.00**

CU-VD40

Everio Share Station Direct DVD Burner

Connect your camcorder directly to the CU-VD40 via USB 2.0 and you can burn a full-sized DVD-Video disc without a PC.

Burning operations are controlled from the Everio itself or by its remote. The camcorder converts Everio MOD files to the DVD Video format. HDMI and component connections ensure the highest quality HD recordings possible. Supports DVD-R/W and DVD-R DL discs.

CU-VD40 *(B&H# JVCUVD40)* **199.95**

CU-VD50

Everio Share Station Direct HD DVD Burner

Connect your camcorder via USB 2.0 directly to the CU-VD50 and you can burn DVD discs with both AVCHD and MPEG-2 formats. Created AVCHD discs are also playable on compatible Blu-ray players. You can choose to superimpose the recording date and time info on the DVD playback screen (HD Everio models only). And when burning a DVD, a menu screen is automatically created according to the Event Icon theme that has been selected.

- Not limited to use with Everio. When connected to your PC, it can be used as an external DVD burner for your videos and data, too.
- Uses DVD-R/-RW disc, DVD-R DL disc supported.
- Can be used horizontally or vertically with the included stand.
- HDMI, component (Y, Pb, Pr) video and composite video and audio output udio/Video output
- 1920 x 1080 output & with x.v.Color™ • Includes remote control
- DVD burning operation can be controlled by Everio camcorder

CU-VD50 *(B&H# JVCUVD50)* **379.95**

Panasonic

SDR-S26

Standard Definition SD Card Camcorder

Perfect for active, on-the-go users, the SDR-S26 records exclusively to SD/SDHC memory cards and comes with VideoCam Suite 2.0 software making it easy to upload to your computer for internet sharing. For simplified recording it offers Intelligent Auto (iA) mode which automatically adjusts the camcorder to your shooting situation, enacting functions such as Face Detection when the situation calls for it.

The SDR-S26 is equipped with an amazing 70x ultra optical zoom lens and Advanced Optical Image Stabilization O.I.S. which reduces the effect of hand-shake even when subjects are zoomed to maximum magnification. Gyro sensors detect hand shake, and the advanced O.I.S. shifts the lens to correct the optical axis and repeats this detection and correction process about 4,000 times per second.

- Records to SD/SDHC memory cards for easy transfer of video to PC for email and easy uploading to social media sites.
- 2.7" wide LCD gives you a generous platform on which to compose and playback video and stills.
- Electronic Image Stabilization cuts down on blur caused by hand-shake or a moving subject for cleaner video and stills.
- Sub Rec Button for handheld shooting and one-handed operation
- One-Touch Navigation uses the joystick for most used operations

SDR-S26 *(B&H # PASDRS26*)*
Available in Champagne Gold, Red, Blue or Black **269.95**

SDR-SW21

Waterproof SD Card Camcorder

Like the SDR-S15 (above), SDR-SW21 records to SD/SDHC Memory Cards, allowing it to be lightweight and compact, ideal for active and on-the-go users. However, the SDR-SW21 is a tough and compact camcorder that is waterproof up to 6.5' in both fresh and salt water; shockproof enough to sustain a 4' drop; and dustproof to protect against particles such as dirt, sand, and dust. The SW21's rugged design makes it ideal for creating videos outdoors and for those with active lifestyles. Equipped with a 10x optical zoom and Electronic Stabilization, it also features a fast 0.6 second quick-start recording so users can easily catch those spontaneous video moments.

- Connect the camcorder to a computer using a USB cable, the bundled VideoCam Suite software automatically starts up, making it possible to seamlessly upload videos that are correctly formatted for video websites for sharing, such as YouTube.
- The SDR-SW21 can easily copy video from an SD card to DVD in one simple step. By connecting to the optional VW-BN1 DVD burner using a USB cable, video r can be copied to a 12-cm DVD disc (DVD-RAM/-RW/-R/-R DL) —no computer needed.
- 2.7" wide LCD gives you a generous platform on which to compose and playback video and stills.

SDR-SW21: In Orange *(PASDRSW21D)* ..... **Call/Log-on**

Panasonic

SDR-H80

Standard Definition Hard Disk Drive Camcorder with 70x Zoom

Featuring the world's first and most powerful 70x optical ultra-zoom lens, the SDR-H80 also includes an advanced Optical Image Stabilization (O.I.S.) system which helps reduce blur caused by a shaky hand and Panasonic's Intelligent Auto (iA) technologies, making them easy to use. Panasonic's iA technology detects the shooting conditions and automatically selects the most suitable modes and settings so features like Advanced O.I.S. and Face Detection, which adjusts the exposure so faces are captured perfectly, engage seamlessly. Also included in iA is the Intelligent Scene Selector, which determines which Scene mode will provide the optimal results.

- The SDR-H80 can capture and store up to 54 hours (in LP mode) of video to its 60 GB internal HDD. It protects data extremely well, thanks to the reliable SDHC/SD Memory Card, which does not require any kind of drive mechanism. In addition, the Anti-Shock Shield helps protect the built-in hard disk from the effects of external impact.
- Connect to a computer using a USB cable, and the bundled VideoCam Suite software will automatically start up, making it easy to seamlessly upload videos that are correctly formatted for video websites for sharing, such as YouTube.

SDR-H80: In Silver *(PASDRH80S)*, Red *(PASDRH80R)*, Black *(PASDRH80K)* or Blue *(PASDRH80A)* **349.95**

HDC-TM20 • HDC-HS20

High Defintion Flash Media and Hard Disk Drive Camcorders

The HDC-TM20 and HDC-HS20 are introductory HD camcorders featuring a Leica Dicomar 16x optical/1000x digital zoom lens, AF Tracking, Advanced O.I.S. (optical image stabilizer) LED video light, 2.7" wide LCD touch screen, Highlight Playback, Quick Power-On, 5.1-channel surround sund recording, USB 2.0 interface, and networking with select Panasonic TVs.

HDC-TM20: Records to built-in 16GB memory and included 8GB SD/SDHC Memory Card. *(B&H# PAHDCTM20K8)* **599.95**
HDC-HS20: Records to internal 80GB hard disk drive and SD/SDHC Memory Card *(B&H# PAHDCHS20)* ..... **Call or Log-on**

All High Definition Flash Media and Hard Disk Drive Camcorders Feature:

- They enable the transfer to a Mac computer so that video clips can be edited in HD image quality using iMovie software.
- Designed for users who want to view recorded images as quickly as possible, Highlight Playback detects zooming, panning, scene changes, increases and decreases in sound level, faces and more in recorded images as "highlights" by using Panasonic's Intelligent Index System.
- Extremely fast, they start up in just 0.6 seconds. When switched on, they are in record standby and ready to shoot in just 1.9 seconds.
- LCD screen brightness is automatically adjusted (in 16 steps) according to the shooting conditions.
- They record 5.1-channel surround sound with five microphones. A Zoom Mic function links the mic's action to the camera's action.
- Record up to 4 hours/12 hours in highest/lowest quality mode on 32GB SD/SDHC memory card
- Connect them to a VIERA HDTV via an HDMI mini cable, and operate the camcorder using the TV remote control and following on-screen prompts.

HDC-HS250 • HDC-TM300 • HDC-HS300

3MOS High Defintion Flash Media and Hard Disk Drive Camcorders

Semi-professional camcorders HDC-HS250, HDC-TM300 and HDC-HS300 use three full-HD MOS sensors to deliver the highest quality video and still images. Equipped with a 1/4-inch image sensor and large-aperture 20x Leica Dicomar lens, they also record still images with a 10.6-megapixel resolution and feature an 8.3-megapixel resolution for still images when simultaneously recording with video.

- The HDC-HS300 and HDC-TM300 come equipped with a manual ring, an electronic viewfinder and an external mic terminal –ideal for those looking for more expressive video shooting. They allow delicate and precise fingertip control of the zoom, focus, aperture, shutter speed and white balance. The HDC-HS250 is virtually identical, but without the manual functions and electronic viewfinder, thus providing the same high image quality in a slightly smaller body.
- The HDC-HS250 and HDC-HS300 both feature an internal 120GB hard drive which can store up to 50 hours of recording (in HE mode). They can also easily copy recorded video from the SDHC/SD Memory Card to the hard disk, or vice versa. The HDC-TM300 is a a "twin memory" camcorder, meaning it can record to the built-in memory or an SD/SDHC Memory Card. When the memory becomes full, the camcorder switches recording to the memory card to provide uninterrupted recording.

HDC-HS250: Records to internal 120GB hard disk drive and SD/SDHC Memory Card ..... **Call/Log-on**

MHS-CM1 • MHS-PM1

Webbie HD Cameras

The stylish MHS-CM1 and MHS-PM1 capture daily events in HD (1440 x 1080, 1280 x 720) or standard definition (640 x 480) video and 5-megapixel still photos. Five scene selection mode let you capture the best picture possible in any situation. Seamlessly switch from video recording to still photo capture with the press of a button. Or simultaneously capture both motion video and still images. Sharemark and pre-installed Picture Motion Browser Portable software make it easy to transfer content from the cameras to a PC for direct upload to Shutterfly and Picasa Web Albums photo sharing sites, YouTube and Dailymotion video sharing sites, and Photobucket video and photo sharing site. You can also simply drag and drop video files from the camera to your personal computer folders.

- Integrated Lithium-ion battery provides 90 minutes of recording, and both cameras can record up to 8.5 hours of HD video footage or thousands of photos directly to an optional 16GB Memory Stick PRO Duo media.
- Measuring 1.7 x 2.4" (WxH), the MHS-CM1 sports a slim horizontal design that fits naturally in your palm with a large 2.5" swivel LCD screen. It features a 5x optical and 20x digital zoom, and has an integrated LED video light.
- Just 0.9" thick and 2.2" wide, the 4 oz. MHS-PM1 features a 1.8" LCD screen and rotating swivel lens with 4x digital zoom that flips over so you can see yourself while shooting video and taking photos.

HDR-CX500V • HDR-CX520V

High Definition 32GB and 64GB Flash Memory Camcorders

Featuring 1/2.88" 6MP back-illuminated "Exmor R" CMOS sensor, record up to 25 or 50 hours of full 1920 x 1080 HD video and up to 12-megapixel photos to 32GB (HDR-CX500V) or 64GB (HDR-CX520V) of internal flash memory. These camcorders also record to optional 16GB and 32GB Memory Stick PRO-HG Duo HX media cards. They also feature a Sony G 12x optical zoom lens for true-to-life color reproduction, upgraded Optical SteadyShot image stabilization with Active mode and 3-Way Shake-Canceling, 3" wide touch panel LCD, Face Detection with Face Touch Priority, Smile Shutter, Highlight Playback and geotagging with the guilt-in GPS receiver.

- Tagged videos and still images can be reviewed and played back using the Map Index function on the camcorder or on a PC using the supplied PMB (Picture Motion Browser) software.
- Large 3" LCD gives you an accurate display on which to compose and play back your shots, while also providing an intuitive touch panel surface to navigate menus and other functions such as integrated GPS, spot focus, and spot metering.
- Smooth Slow Record mode increases the record rate from 60 frames per second (fps) to 240 fps, allowing you to capture 3 seconds of fast motion and play the video back in 12 seconds.
- Dual record capability lets you capture 8.3MP still images while shooting high definition video, so you can capture those special moments without having to switch recording modes.
- Built-in Intelligent Flash for added detail and reduced shadows
- Record and zoom controls on LCD touchscreen
- Active Interface Shoe lets you mount Sony's Intelligent Accessories, such as external lights and microphones,
- HDMI output for connection to a large screen HDTV
- Dolby Digital 5.1 channel recording with built-in zoom mic

HDR-XR100 • HDR-XR200V

High Definition Hard Disk Drive Camcorders

The HDR-XR100 and HDR-XR200V feature 1/5" ClearVid CMOS sensor with Exmor technology, BIONZ image processor and professional-quality Carl Zeiss Vario-Sonnar T* lens to record stunning full HD 1920 x 1080 resolution video as well as 4MP still images. They offer SteadyShot image stabilization, Dolby Digital surround sound, long recording times with built-in hard drives and the ability to record to optional Memory Stick PRO Duo media.

- "HDD Smart Protection" prevents any recorded video and images from being lost if the camcorder is accidentally dropped.
- 5.1-channel surround sound recording via built-in zoom mic
- Rotable (270°) 2.7" wide (16:9) touch-panel LCD Plus screen
- Dual Record lets you capture still images directly to Memory Stick Duo media while recording video in High Definition.
- Easily copy video or still images from the hard disk to removable Memory Stick Duo or PRO Duo media without using a PC.
- HDMI (mini) output to transmit HD video and 5.1 channel audio from the camcorder to compatible HDTV via a single cable.
- Smooth Slow Record mode increases the record rate from 60 frames per second (fps) to 240 fps, allowing you to capture 3 seconds of fast motion and play the video back in 12 seconds.
- Face Detection technology recognizes up to 8 faces anywhere in the frame and automatically controls focus, exposure, and color to help capture smiling faces brightly and clearly.
- Smile Shutter technology automatically detects faces and takes photos as your subject smiles.

HDR-XR200V Step-up Features

- Improved Optical Steady Shot with Active Mode provides dramatically smoother video footage and photos.
- Built-in Intelligent Flash for added clarity and detail, reduced shadows when taking pictures in low-light situations.
- ActiveShoe provides on/off power capability directly from the camcorder to select external lights and microphones
- Highlight Playback mode can personalize your video footage by generating a video slideshow with theme transitions and background music. You can also add your own MP3 music files.
- GPS antenna and NAVTEQ digital maps for video and photo geo-tagging, which allows content to be played back on the camcorder map index display or on a PC with the included software.

HDR-XR500V • HDR-XR520V

High Definition Hard Disk Drive Camcorders

Stepping up from the HDR-XR200V, the HDR-XR500V and HDR-XR520V feature a 1/3" Exmor-R back-illuminated CMOS sensor for stunning low light performance. Twice as sensitive as the HDR-XR200V's front-illuminated CMOS sensor at F2.0, the Exmor-R sensor delivers brilliant image clarity and reduced grain. They also feature a Sony G lens that incorporates advanced optics and low-dispersion aspheric glass elements for accurate color production and sharp, detailed images. A six-blade iris produces circular "bokeh" defocus effects for creative shooting possibilities.They also add a 3.2" wide (16:9) touch-panel Xtra Fine (921,000 pixels) LCD, assignable dial (manual control), color viewfinder, external mic input and headphone jack.

SONY

HDR-FX7 3CMOS 1080i HDV Camcorder

Shoot like a pro with the HDR-FX7. Capture and playback amazing video and still images in both 1080i HDV and standard definition on standard miniDV tapes. Recorded HDV video can be conveniently edited with a choice of available HDV, non-linear editing software. Its HDMI interface offers simple, one-cord connection to compatible display devices. ClearVID 3CMOS sensor combined with Sony's Enhanced Imaging Processor results in higher video resolution, greater light sensitivity with minimal picture noise, and more accurate color reproduction

- The HDR-FX7 has a smooth slow record function. With its three sensors, it can capture a six-second burst of video and play it back in 24 seconds as slow motion video.
- Has a high-resolution, 3.5" SwivelScreen LCD screen with Clear Photo Plus LCD for superb contrast and accurate color reproduction. Also sports a high-resolution viewfinder to accurately check composition, focus and image color.
- Has a Carl Zeiss Vario-Sonnar T* lens with a 20x optical zoom plus a 1.5x digital extender realizing a 30x optical zoom without significant degradation of picture quality.
- Super SteadyShot optical image stabilization reduces shaky footage, even when shooting handheld at high zoom settings.
- Provides extensive manual controls for zoom, focus, shutter speed, white balance, iris, and gain. Independent manual zoom and focus rings provide a high degree of manual control.
- Picture Profile allows the user to set manual adjustments for a scene (color, sharpness, white balance, etc) into any one of six presets, so they can be called up at just the touch of a button.
- Dual record function allows 1.2-megapixel still images and video recorded simultaneously, with the press of a button.
- For more control while focusing the camera for greater detail and clarity, the LCD can temporarily be magnified up to 4x its original size without any loss of distortion.
- Settings for focus, zoom, iris, gain, shutter, and white balance can be set to the Assignable Buttons which will create a smooth transition and will take place according to the set time and transition. This function enables the focus to gradually shift from the front of the screen to a deeper part of the screen. Thus the iris enables a smooth change of depth of field.
- By increasing the record rate from 60 fields per second (fps) to 240 fps for 6 seconds allowing you to capture fast motion and which will play the video back in 24 seconds. This is great for analyzing a golf swing or a viewing a bird in flight.
- Capture still images up to 1440 x 810 (16:9 Mode) resolution, directly onto Memory Stick Duo Media for easy transfer to PCs
- Battery information can be displayed on the LCD screen when charging and when the camcorder is turned off. The display will show how much the battery is charged, in 10% increments and the approximate recordable time left when using the LCD screen or in the viewfinder.

HDR-FX7 *(B&H # SOHDRFX7)* **1999.00**

Sony HDR-FX1000

3CMOS 1080p HDV Camcorder

Ideal for amateur videographer shooting weddings or the aspiring cinematographer, the HDR-FX1000 offers advanced cinematic features, including 24P scanning and advanced color settings. It captures full HD 1920 x 1080 resolution using three Sony's ClearVid™ 1/3" CMOS sensor chips which provide high sensitivity, deep resolution, high-speed reading, low noise and a wider dynamic range. It also allows the camcorderto perform significantly better in low-light environments with sensitivity of 1.5 lux.

- 3.2" XtraFine LCD™ (921,000 pixels) and XtraFine 0.45" electronic viewfinder (1,227,000 pixels) for high-resolution and high-contrast images with remarkable-color reproduction.
- Peaking focus assist provides a simple way to ensure images are in perfect tack-sharp clarity. The process highlights high-contrast areas that represent sharp lines making focus operation incredibly quick and easy.
- Progressive scan at 1080/24p and 30p gives video productions a film-like look. Using a 2-3 pull down, the 24P scanned image is converted to 60i for easy editing with existing software.
- Three built-in neural density filters provide exceptional light control even in extremely bright environments.
- 30% extension in dynamic range translates into more detail in both highlights and shadows. Increase dynamic range can be very useful when color correcting during post production.
- Incorporates CinemaTone technology, which comes in two flavors. CinemaTone Gamma™ crushes blacks while keeping the mids and highlights detailed, while CinemaTone Color™ deepens color reproduction for richer hues. Combine the two and footage becomes incredibly film-like.
- Equipped with a Sony G lens with a 29.5mm wide-end viewing angle, extra-low dispersion glass and 20x optical zoom. The lens also has a digital extender that increases magnification by 1.5x, making the lens achieve up to 30x digital zoom levels.
- Manual settings for iris, gain, white balance, shutter speed and focus for increased creativity and control. Use of any of the three manual rings for adjustments to zoom, focus and iris provides even more flexibility.
- When shooting in extremely bright-lit areas, the gain control can be knocked even down to reduce noise even further.
- Histogram gives users a visual/numerical reference for making sure the camera is properly color corrected.
- Zebra feature highlights over-exposed areas of the frame
- Color bar button provides reference for quick calibration on location or in the studio.
- x.v. Color technology built into the HDR-FX1000 means the cameras sees nearly twice as many colors than conventional prosumer-level cameras. The camera provides colors that are more accurate and vivid in gamut.
- HDMI output for connection a widescreen HDTV

SONY

HDR-TG5V

Ultra-Portable HD 1080i Camcorder

The HDR-TG5V delivers full HD 1920 x 1080 resolution video recording and 4-megapixel still image capture in an ultra-portable design, perfect for travel and everyday recording. The stylish HDR-TG5V features a pure titanium body that makes the camcorder remarkably strong, lightweight, and resistant to scuffs and scratches. It includes a built-in GPS receiver that records the latitude and longitude where videos and photos are shot, automatically adjusts the clock to the proper time zone and displays your current location on the LCD with NAVTEQ map index display. The HDR-TG5V comes with 16GB of embedded flash memory that can record up to two hours of high definition video at the highest quality settings, as well as a number of convenient Sony innovations, including Face Detection with Smile Shutter™ technology and Highlight Playback.

- Features a 10x Carl Zeiss Vario-Tessar zoom lens designed for compact camcorders. Precision ground optics help maintain the sharpness and contrast of larger lenses, and SteadyShot image stabilization reduces blur caused by camera shake.
- 2.7" wide (16:9) touch panel Clear Photo LCD Plus™ display provides excellent viewing clarity with improved resolution.
- 4-megapixel still image capture lets you take high resolution digital photos, and for added clarity and detail in low-light situations, the built-in flash reduces shadows and improves pictures.
- Made possible by the BIONZ™ image processing engine, Face Detection technology recognizes up to 8 faces anywhere in the frame and automatically controls focus, exposure, and color to help capture smiling faces brightly and clearly.
- In Smile Shutter the camcorder automatically take still photos when your subject smiles, even while shooting HD video.
- The Highlight Playback feature lets the HDR-TG5V automatically create a short movie - including transitions and music - by using several criteria to identify and compile key scenes.
- Dolby Digital 2 channel stereo recording captures active sounds coming from left and right, while the built-in zoom mic focuses on your subjects in sync with the camera's zoom lens.
- Record video directly to either the 16GB memory or removable Memory Stick PRO Duo media
- Smooth Slow Record lets you slow down fast motion by increasing the record rate from 60 fps) to 240 fps
- x.v.Color™ technology can capture or display nearly twice as many (1.8x) viewable colors as the standard RGB color range.
- HDMI and USB 2.0 output for connection a widescreen HDTV or PC for fast transfer of video and still images for editing.
- Map Index uses your geotagged videos and photos to view your shot locations on NAVTEQ® maps in the camcorder, offering a new way to easily search and find a desired scene by location or view where a scene was captured.
- Film Roll Index creates scene indexes at specified display intervals, making it easier to find and playback the desired moment.
- Face Index uses Face Detection technology to organize your video footage based on the faces detected in each scene.
- Bundled Picture Motion Browser software makes it easy to transfer, sort, and view your video and still images. Multiple output options let you burn to DVD, AVCHD, and Blu-ray Disc™ media, making it simple to upload to video & photo sharing sites.

HDR-TG5V *(B&H # SOHDRTG5V)* ..... **Call or Log-on**

PAL Camcorders Explained: In the U.S., the TV color system is known as NTSC, which uses 525 scan lines at 30 frames per second. But there are two other television standards, called PAL and SECAM, used in the rest of the world. Unlike NTSC, PAL uses 625 scan lines at 25 frames per second. So, while camcorders can record video anywhere in the world, it's where that video is played back that makes a difference. PAL camcorders are designed to play back in countries that support the PAL color system—such as Europe, China, the Middle East, and South Africa. This means that these camcorders—with their different signals and frame rates—*do not* play back on American televisions. There are no multi-standard camcorders; they are either NTSC or PAL. Variations to these standards also exist, such as PAL-B, PAL-I (United Kingdom), SECAM-D (China), and SECAM-L (France).

impact

VIDEO CONVERSION LENSES

Impact's high-quality convertible lenses are manufactured with premium workmanship, resulting in superior, high-resolution image capture. These conversion lenses are available in several categories: telephoto, wide-angle, macro/close-up, and fisheye. They mount directly onto digital and video camcorders. Impact lenses with a magnetic base will magnetically mount directly to your digital camera or camcorder.

HC9/HC7 HOUSING

for Sony HDR-HC9 & HC7 Camcorders

This compact unit is designed to transport the Sony HC7 and HC9 camcorders to depths of 450'(137m). It utilizes the camera's LCD monitor as its underwater viewfinder, and provides total camera function through reliable mechanical controls, crystal-clear optics and internal color correcting flip-filter. Premium distortion-free ports provides the clearest, sharpest images possible.

Reconnaisance, Intelligence and Target Acquisition

These versatile night vision solutions are specifically designed to capture high-resolution imagery directly to various standard and high-definition video camcorders. Using a modular system to facilitate high-performance video capture, these scopes exhibit extraordinary sensitivity in critical low-light operation, and will transform any dark scene into bright, high-resolution video. Both the AstroScope and Prowler systems can not only attach directly to fixed- and interchangeable-lens camcorders, their front-end C-mounts allow use of any number of professional-grade 35mm cameras and lenses.

PROWLER POCKET SCOPE

MEYERS

This Gen III pocket surveillance scope incorporates an internal flood light illuminator that allows night viewing up to 200 feet. An optional laser illuminator can also be attached for capabilities of well over 2 miles. Use as a fully operational pocket scope or add a 702 D/S adapter for your Nikon or Canon SLRs or other camcorders. Includes a removable 50mm f/1.3 C-mount lens.

- Built-in tube circuitry protects against bright light damage • No vignetting
- Dioptric correction from -2 to +6 • Resolution 64 lp/mm
- Brightness increase of 12 to 16 stops • Built-in IR illuminator
- Power 1- AA or 1- 123 • 100% US made • Dim. 5 x 2.5" • Weight: 12oz

#4300I Prowler with 50mm f/1.3 C-Mount **$2,994.95**
#BE704 3" Extended Viewing Relay Lens **$494.95**

9350XL-3PRO

AstroScope™

This advanced night vision module is designed for Canon's XL series standard and HD camcorders. Utilizing Canon's 20x zoom lens enables long-range surveillance and evidence capture, at the same time permitting you to take advantage of the vast array of Canon-quality EOS EF still imaging lenses (with the addition of Canon's EF Lens Adapter—B&H #CAEFAXL1).

- Intensifier (CIU) module powered by the camcorder
- Maintains all camera functions including image stabilization • No backfocus adjustments needed

9350XL-3PRO System Includes:

- Gen III Common Module Central Intensifier Unit • Back Body Adapter (BBA) • Front Lens Adapter
- Simple "Start Here Card" • Soft-Sided Drawstring Lens Bag • Lens Cleaning Cloth

#ASNVACXL (914657) **$5,849.95**

745-B1 NIGHT VISION SYSTEMS

MEYERS

Canon XL Series Night Vision Camcorder Kit

The 745B-1 series adapts to Canon XL series (interchangeable lens) camcorders. The 745B-1 includes the relay with designated camcorder adapting bracket mount. The image above illustrates the 745B-1 together with the (optional) Prowler scope, which has a C-mount front and 50mm lens. To adapt the Canon 6x, 16x, and 20x video lenses requires the optional 709A-XI adapter ring

#BE745B1XL Ultra Hi-Res Adaptor f/Canon XL Series camcorders **$1,995.00**

9350BRAC SYSTEMS

AstroScope™

The AstroScope 9350BRAC systems are designed for video camcorders with a fixed (non-removable) lens. They require an optional standard C-mount objective lens, per your intended requirements for high performance.

9350BRAC systems include:

- Gen III central intensifier unit module (powered by AAA Batteries) • Custom-designed relay lens
- Camera platform bracket with standard 1/4" x 20" tripod mount • Eyepiece adapter (EPA) with cold shoe accessory adapter • C-mount front lens adapter (FLA-C) • Simple "Start Here" card
- Standard AAA batteries • Lens-cleaning cloth

9323B ENG

AstroScope™

9323B-3N for ENG/EFP 2/3" B-4 (Sony-Type) Bayonet Mount

Systems Includes:

- Gen III thin film image intensifiers
- Supports 2/3" cameras with B-4 (Sony-type) bayonet mount
- Intensifier module powered directly from host camera
- Permits the use of all standard optics
- Soft-sided drawstring lens bag
- Lens-cleaning cloth
- Support for high-definition (HD) models

PROFESSIONAL VIDEO
CHOOSING THE RIGHT EQUIPMENT

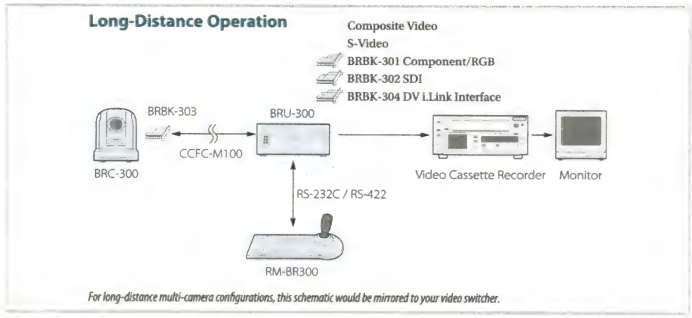

Ensure the Best Imagery from Production to Delivery

Now more than ever, today's professional video products allow you to capture beautiful, incredibly detailed high-definition imagery at increasingly affordable prices. Even high-end, high-definition video imaging products such as mixers, decks, and nonlinear editing (NLE) systems have become very reasonably priced.

The following pro video pages are designed to assist you in evaluating your project's potential needs, and in helping you choose the professional acquisition products and accessories that will benefit your production most.

EVI-HD1
SONY

High-Definition PTZ Color Camera

Flexible full 1080i HD remote Pan/Tilt/Zoom camera enables you to output in one of 14 formats—eight HD and six SD video formats (including 1080/60i, 1080/30p, 720/60p, 720/25p, NTSC/PAL and HD-Analog and HD-Digital). It incorporates a 1/3" CMOS (2 MP) image sensor, 10x optical wide angle zoom lens, and HD-SDI output. The EVI-HD1's direct drive motor ensures quick but quiet movement, while the newly developed lens takes in a wide field of view.

#SOEVIHD1

EVI-D70
SONY

¼" PTZ Color Video Camera

Pan/Tilt/Zoom remote desktop or ceiling-mounted communication camera with a 1/4" EXview HAD image sensor, long 18x zoom lens, image inverting capability, high-speed operation, quiet direct drive operation, and six camera position presets. It includes a wireless remote control and can be controlled by optional RS-232C and RS-422 serial controllers.

#SOEVIID8C1 8" Indoor Clear Dome Housing w/Pendant-Mount Bracket

EVI-D100
SONY

¼" PTZ Color Video Camera

This Pan/Tilt/Zoom remote communication camera has a wide-angle lens and quiet, high-speed direct drive operation—ideal for smaller, closed-in venues. Along with its 1/4" CCD, 10x optical (4x digital) zoom, and six position presets, the camera features auto focus, auto white balance, and auto exposure. Includes wireless remote control, or can be controlled by optional VISCA/RS-232C serial controllers.

TELEMETRICS CP-ITVD300
SONY

PTZ Remote RS-232 Controller

The Telemetrics CP-ITVD300 desktop remote controller has four direct RS-232 serial inputs for up to four EVI/BRC cameras. Joystick's proportional rate technology allows smooth, precise and simultaneous pan/tilt/zoom functions. Can also program predetermined angle, focal length and focus points. Compatible with Sony EVI-D30, EVI-D70, EVI-D100, BRC-300, BRCH-700 and Elmo PTC-100 cameras.

BRC-Z330
SONY

High Definition PTZ Camera

Designed for a wide variety of remote video applications, the BRC-Z330 is a high definition PTZ camera featuring a 1/3" 2-MegaPixel CMOS image sensor and 18x optical zoom lens. The camera's wide pan/tilt ranges and smooth pan/tilt/zoom capability make it perfect for deployment in houses of worship and auditoriums, as well as educational facilities, conferences and concerts halls. The camera simultaneously delivers stunning high definition images in 1080i and 720p, while still having capability for output standard definition. Easy to install, it has a quiet operation that minimizes interference with ongoing events, helping it blend in naturally with the surrounding environment. *# SOBRCZ330*.....**4200.00**

BRC-300
SONY

3-CCD PTZ Color Camera

This broadband remote camera provide high-quality, low-noise SD images in 4:3 and 16:9. The 12x autofocus optical zoom has a high-accuracy, wide-range Pan/Tilt/Zoom capability. Controlled from a PC via RS-232C or RS-422 connection. Integrates into S-Video, RGB, iLINK, fiber or SDI systems.

BRC-H700 / BRC-Z700
SONY

HD 3-Chip PTZ Color Cameras

These compact HD cameras capture 1080i resolution in 60i/50i, offering wide pan and tilt ranges, Carl Zeiss lenses and fast, accurate movements. The highly sensitive BRC-H700, with 3 1/3" CCD sensors, has the widest viewing angle in the BRC series. The BRC-Z700 provides HD/SD output via 3 1/4" CMOS chips, a 20x optical zoom, and a very quiet and precise motor.

PRO POV CAMS

Remote Head and Micro Camera Systems

Designed for industrial video, diagnostics, scientific imaging, and specialty programming such as reality TV, these tiny, high-resolution cameras can be mounted in places inaccessible to standard cameras—providing unique points of view for a range of uses. Whether focusing on an auto plant or a petri dish, an operating table or a poker table, these fixed focus professional systems will capture details otherwise impossible to record. Each camera head is connected by cable to a dedicated camera control unit (CCU), purchased separately, and requires a C-mount, bayonet or micro mount lens.

SONY HXR-MC1 Compact HD POV Camera and Recording System

A stunning full high-definition compact point-of-view (POV) camera, the HXR-MC1 consists of a small camera unit and a handheld controlling unit with LCD panel and recording function. This all-in-one tiny camera system needs no extra equipment, take it out and just start shooting. The camera unit is also splash-proof. Moreover, the unique style of the HXR-MC1 enables shooting in unordinary conditions and angles, such as shooting sports scenes from the user's point of view and onboard shooting in motor sports. Thanks to the LCD-equipped main unit, once the shot is taken, users can check the material immediately.

- Achieves its balance of compact size, light weight and superb image quality through the use of solid-state recording onto Memory Stick PRO™ Duo media using AVCHD compression. The HXR-MC1 can record up to six hours of high-definition content onto a 16GB Memory Stick media.
- Offers HD 1920 x 1080 resolution, and features Sony's ClearVid CMOS Sensor system enhanced by Exmor technology for high-quality digital signals with extremely low noise.
- Even with a 10x optical zoom and a built-in mic, the camera measures only 1-1/2 x 1-11/16 x 3-1/2" allowing it to be attached to various devices such as helmets or cars. Screw holes on the bottom of the unit make mounting easier. It is also splash-resistant for use in the rain.
- Recording and playback are performed within the HXR-MC1's control unit, eliminating the need for external recording devices or facilities. The combination of Exmor and CMOS sensor technologies result in low power consumption and maximum battery operation of up to 405 minutes.
- Control unit has a 2.7" 16:9 touch-screen LCD panel. Set-up during shooting or video operation can be carried out simply by touching the LCD panel.
- The control unit is also equipped with a recording button, zoom lever, and manual control dial, so users can control the camera remotely while watching the images. External monitors are not needed.
- HD video is recorded in AVCHD, which uses MPEG-4 AVC/H.264 compression, the same method used in Blu-ray Disc technology. **#SOHXRMC1** **2,899.95**

MN-43H

ELMO

1/2" CCD Color Lipstick Camera

This high-performance micro camera is ideal for medical and scientific applications as well as covert surveillance. Designed mainly for indoor use, the MN-43H offers low-light sensitivity down to 5 lux, and 470 lines of horizontal resolution.

- 1/2" CCD delivers 768 x 494 effective pixels
- Accepts 14 different lenses
- Manual white balance and shutter

HV-D30

HITACHI

High Resolution 3-CCD Color Camera

The compact, multi-function design of Hitachi's smallest 3-CCD camera makes it ideal for medical, industrial and other specialized imaging applications. Three 1/3" CCD's (410K pixels each) produce 800 lines of horizontal resolution, while a 12-bit A/D converter and advanced DSP assure high-quality images with minimal noise. Reaching a minimum sensitivity of 0.9 lux, the HV-D30 excels in low-light situations. Includes genlock input for synchronizing with external devices, plus composite, Y/C, RGB or Y/R-Y/B-Y outputs and RS-232C port for remote operation.

- 4 scene files • 6-vector color corrector
- Lens flare and shading compensation • Dynamic Chroma Compensation
- Dynamic noise reduction

Canon XL-2
Professional MiniDV Camcorder

The only prosumer camcorder to offer an interchangeable lens system, the LX-2 also offers a host of professional functions inluding 16:9 aspect ratio, scan-matching, time code and custom picture looks. It also has 30 -frame and 24-frame interlaced and progressive modes.

- 3 1/3" CCD's (680k pixels) with horizontal pixel shift
- Separate progressive scan CCD for each primary color
- Interchangeable XL lens system
- Complete image control including custom presets
- 2-bit DSP (Digital Signal Processor) allows customizable Cine look
- 20x Fluorite zoom lens (5.4 - 108mm) with OIS
- 16:9 and 4:3 aspect ratio shooting formats
- 4-channel audio, two XLR audio inputs with phantom power (+48v)
- SMPTE time code
- Variable frame rates–60i / 30p / 24p (2:3 and 2:3:3:2)

Canon
GL-2 3-CCD MiniDV Camcorder

Building on their expertise in 35mm photographic and broadcast TV lenses, the GL-2 is equipped with Canon's exclusive L-Series Fluorite optical technology for outstanding imaging power and shooting versatility in a lightweight, portable design. To complement the lens, Canon's superb optical stabilization system eliminates image shake due to a wide range of movement and/or high wind conditions.

- 20x Fluorite lens • Three 1/4" CCD's, 410K pixels each
- Optical image stabilization
- 30P frame movie mode
- 2.5" LCD with 200K Pixels
- Balanced XLR audio inputs with manual levels
- Manual Aperture/Shutter/Gain
- 16:9 Aspect Guides, Custom Keys, Variable Zoom Speeds, SMPTE Bars, Control-L, Clear Scan

Canon XH-A1s • XH-G1s
Professional HDV Camcorders

The compact XH-A1s and XH-G1s encapsulate a wealth of features in a compact, 3-CCD camcorder that captures true 1080i high-definition video at frame rates of 60i, 30F and 24F. A genuine Canon L-series 20x HD zoom lens
ensures outstanding resolution and color reproduction. its wide-angle view equivalent to 32.5mm on a 35mm camera. Behind the lens are three 1/3" native 16:9 CCD's (1440 x 1080 each) delivering superior picture quality and a wide dynamic range with virtually no color noise.

- Whether shooting handheld, from a moving car, or on a swaying bridge, Canon's super-range OIS combines gyro- and image sensors to keep your picture steady.
- DIGIC DV II technology processes the HDV signal with 4:2:2 color sampling, ensuring optimal color reproduction in skin tones and in high-contrast scenes. For more precise image control there are 7 Program AE modes and nine custom presets, to adjust hue, gain, sharpness, setup level, and Cine gamma settings for exactly the image you need. Then save the settings on an SD memory card for future use.
- For the critical focus required of HD recording, Canon's Instant AF uses two sensors to provide fast and accurate focus, even in low light. Other features include an analog-digital converter, built-in XLR inputs with external leveling, a 2.8" widescreen LCD (207K pixels), and two built-in ND filters.
- Audio capabilities include two-channel audio performance; two built-in XLR terminals with separate audio-input sensitivity settings; the ability to simultaneously record sound from the supplied internal microphone and an external microphone; line output level switching; an audio (manual) limiter and a new metal headphone jack for reliable connectivity. The result is better overall flexibility and control of the camera by enabling the use of one cameraman to do the job of many.

XH-G1s Step-up Features:
Adds Professional Jack Pack, which offers HD-SDI and SD-SDI output, embedded timecode and audio, SMPTE timecode I/O, and Genlock input for multi-camera sync.

Canon XL-H1A • XL-H1s

The Canon XL-H1A HD cameras aim to meet the needs of broadcast ENG producers, documentary, film, and commercial videographers. Genuine 20x HD optics and exceptional image processing result in brilliant HD image capture. Achieve 1080i HD resolution at 25 Mbps with selectable frame rates of 60i, 30F, and 24F. Fully customizable system has a 1/3" XL mount w/three native 16:9 image sensors (1440 x 1080), Cine control, multiple output options, and a well-balanced design—an ideal tool for meeting the demands of advanced video work.

- Interchangeable lens system allows application-specific lens options
- 3 1/3" native 16:9 CCD image sensors (1.67 MP each)
- 1080i HD resolution
- Variable frame rates of 60i, 30F, 24F
- SDI raw 1080i uncompressed 1.5GB/s
- 20x HD Zoom Lens 5.4-106mm (38.9-778mm 35mm equivalent)
- Total Cine control • Optical image stabilization
- DIGIC DV II processor • SD slot to save camera settings
- Aspect guides in viewfinder
- Combination flip-up 16:9 EVF & LCD panel
- SMPTE time code and color bars with 1kHZ reference tone
- Dual XLR (line/mic level) inputs with +48v Phantom power (4-channel option with MA-300)
- Clear Scan • 2 built-in ND filters • LANC terminal

XL-H1S Step-ups:
Professional Jack Pack with HD-SDI (SMPTE 292M) and SD-SDI (SMPTE 259M) output, Genlock input and SMPTE timecode input/output, for multi-camera shoots.

XL-H1A *(B&H# CAXLH1A)* **XL-H1s** *(B&H# CAXLH1S)* **HD Video Lens 6x Zoom XL 3.4-20.4mm L** *(B&H# CA6XLH1)* **2499.95**

Console Software Remote Studio Software

Lets you control key functions of your digital camcorder remotely through your PC. Whether your camera system is configured in a studio, mounted on a crane, or is in an inaccessible or dangerous location, commands and responses are exchanged between the camcorder and a PC through a single IEEE 1394 cable. Control the camera's zoom, focus, white balance, frame rate, as well as its iris and shutter speeds. You can also control gamma, master pedestal, color phase, custom presets and AE metering. The software even includes a waveform and vector display for measuring and adjusting video and phase parameters. Use the playback viewer to view video recorded to the hard drive, and at the same time adjust camera settings for the next shot using the recording panel. System requirements: Windows XP OS (Home or Professional) with Service Pack 2, Pentium 4–2.5GHz CPU or better, 512MB memory or better, and an IEEE 1394 connector. *(B&H# CACSW)*.....**499.95**

Interchangeable Lenses for XL-H1A, XL-H1s, XL-2

The XL-H1A, XL-H1s and XL-2 accept a host of interchangeable XL lenses or Canon's extensive range of photographic lenses. For wide-angle imaging, Canon offers a 3x Wide-Angle Lens with a resolution in excess of 600 TV lines, while the 16x Mechanical Servo Zoom Lens gives you the flexibility of calibrated focus and zooms. For added optical lens magnification, apply the 1.6x Extender between the camcorder and the zoom lens. There is also a 16x Automatic Lens with Super Range Optical Image Stabilization. Using the optional EF Adapter opens you to a wealth of Canon EOS EF photographic lenses, a tremendous super telephoto boon to those producing wildlife, astronomy or surveillance videos.

3x Wide-Angle Zoom Lens: The 3x (3.4-10.2mm f/1.8-2.2) short zoom gives your camcorder a 70° field of view, making it ideal for shooting interiors as well as landscapes. It incorporates 18 high-quality precision-crafted optical elements to deliver extraordinarily sharp images. Six-blade iris for minimal light flare. Manual zoom and focus ring. Built-in 1.5x ND filter. (24mm–72mm in 35mm). *(B&H# CA3XXL1)* **1,199.95**

16x Manual Zoom Lens: The 16x (5.4-86.4mm f/1.6) manual servo zoom lens gives you the flexibility of calibrated power zoom, power iris (has auto iris capability), two built-in ND filters and calibrated manual focus. Has a macro and flangeback adjustment mechanism. Includes soft case. *(B&H# CAM16XXL1S)*.....**1,499.95**

RC-72 Aspect Ratio Converter: When shooting in 4:3 mode, this 0.8x converter provides the same angle of view as 16:9 mode. *(B&H# CARCXL2)* **279.95**

EF Adapter: Allows the attachment of over 50 high-quality Canon photographic EF lenses—ranging from Fisheye to Super Telephoto to a choice of versatile zoom models. *(B&H# CAEFAXL1)* **449.95**

1.6x Extender: Fits between body and lens to increase the focal length of Canon XL lenses by 1.6x. *(B&H# CA1.6XXL1)*.....**399.95**

SR-DVM600US / SR-DVM700US

3-in-1 Recorders

Mini DV, DVD, and a 40GB (SR-DVM600US) or 250GB (SR-DVM700US) hard disk drive combination in a single device. Record in three formats both directions to enable 6-way recording with DV/MPEG real time encoding. Utilizes Mini DV tape format, with Mini DVCAM playback. Records DVD-R/RW and DVD-RAM discs, with DVD+R/RW playback. Edit and play from the 40GB hard drive (MPEG-2). Make auto-repeat discs for digital signage and event applications.

- IEEE-1394 (iLink) I/O • Y/C (S-video) I/O • Component output
- RS-232C remote control (SR-DVM700US only)

SR-DVM700US *(#JVSRDVM700US)*.....**1329.95**

SR-MV45US

DVD Recorder Plus S-VHS/VHS Dual Deck

- Industrial dual deck simplifies the DVD recording process
- DVD's can be authored with the option of "full-repeat" (loop mode) for kiosk- type POS and museum applications
- 3D noise reduction for superior picture quality

#JVSRMV45US.....**429.95**

BR-HD50U Compact HDV/DV VTR

Feeder deck to a non-linear editing system. Switchable HDV and DV modes and analog outputs.

Connect to a monitor equipped with an HDMI connector and use it as a low-cost viewer. Cross-converter function enables 720p, 1080i, 480/576p, 480/576i signal output. Has a HDMI output and RS-422 interface.

#JVBRHD50U.....**Call or Log-on**

SR-HD1250 • SR-HD1500

Blu-Ray and HDD Recorder Combos

Record and author professional BDMV (with menu) or BDAV discs. Advanced MPEG-2 and MPEG-4 (H.264) encoding provides support for HD and SD sources, and a built-in format converter can downconvert HD content for recording to a standard DVD. They also support BD-R or BD-RE (erasable) Blu-ray discs.

The SR-HD1250 has a 250GB hard drive and includes component and HDMI outputs for flexible monitoring options. The SR-HD1500 steps up with a 500GB hard drive, plus an RS-232C terminal and support for .MOV files (for Apple Final Cut Pro), which makes it compatible with footage recorded with JVC GY-HM100 and GY-HM700 in the SP (19/25 Mbps) mode.

GY-HM100U • GY-HM700U

ProHD Memory Card Camcorders

GY-HM100U

The compact hand-held GY-HM100 and compact shoulder-mounted GY-HM700 are professional solid state 3-CCD camcorders that record 35Mbps high definition video and uncompressed audio directly to inexpensive SDHC media cards in the native Quicktime format used by Apple Final Cut Pro. This eliminates the need for editors to transcode or re-wrap prior to editing—allowing instant editing of recorded material without file conversion, and a media cost approaching the economy of tape. Video clips are dragged directly from the storage media onto the non-linear editor's timeline, eliminating the need for transcoding while maintaining original first generation image quality.

In addition to 35Mbps per second, a bit rate supporting full 1920 x 1080 encoding in the HQ mode, they can record 720p (19/35Mbps) and 1080i (25Mbps) in SP mode, assuring compatibility with today's most popular professional NLE systems.

Both record on widely available SDHC memory cards up to 32GB. The cameras provide 2 memory card slots, for a total of up to 64GB of on board storage—enough for up to 6 hours of continuous HD recording. The cameras automatically begin recording on the second card when the first card is full.

GY-HM700U

GY-HM100 Hand-held

- With an ultra-compact 3 lb. handheld form factor, the GY-HM100 is about the size of a lens for a 2/3" imager camera. This makes it ideal for use in tight quarters. For even less conspicuous shooting, the handle can be removed and the audio can be recorded via the built-in 2-channel microphone.
- Incorporates a Fujinon 10:1 Zoom HD Lens with three aspherical elements and an Electronic Beam Coating (EBC) for reduced flaring and ghosting. To protect the lens, a flip-in cover is integrated in the lens hood, eliminating the need for an external cap.
- Focus is controlled manually or automatically. A smooth servo zoom is controlled with a conventional rocker on the handgrip, or manually with the lens ring. For close-up shooting, a macro mode lets you record subjects as little as 2" away from the lens. Automatic and manual iris let you adjust the depth of focus.
- Despite its size, the camera's hand grip has an ergonomic shape, accommodating hands of all sizes. Control and switches are placed with pros in mind. To conserve space, a single ring is used for both manual focus and manual zoom. Additional manual controls include white balance, shutter, gain, and audio levels.
- Records 2 channels of uncompressed LPCM 16-bit/48kHz audio. Audio levels can be controlled manually, or automatically using AGC. Audio meter in the LCD and VF facilitate adjustment. Balanced XLRs with 48v phantom power on the handle for an external mic and/or wireless receiver. Versatile input switching allows the mic signal to be directed to the desired channel. A shotgun microphone is provided, as well as a built-in stereo microphone for ambient sound pickup.

GY-HM100U *(B&H# JVGYHM100)*.....**Call or Log-on**

GY-HM700 Shoulder-Mounted

- Utilizes three precisely aligned 1/3" progressive scan full HD CCDs and exclusive Adaptive Pixel Correlation Technique to produce resolution comparable to cameras with larger image sensors.
- Includes a detachable 14x Canon KT14x4.4KRSJ HD lens based on the superb optics found in more expensive HD lenses. Its superior MTF provides higher resolution than typical "stock" lenses. Canon's internal focusing system minimizes "breathing" and makes possible a more efficient light blocking lens hood.
- The GY-HM700 can create a single clip file from multiple trigger presses. This is ideal when "in camera editing" is preferred. The complete shot sequence is instantly available as a single clip.
- Numerous lens options are also available, and adapters that allow 1/2" and 2/3" bayonet mount lenses to be used. Optional HZ-CA13U film lens mount adapter enables mounting of 16mm film camera lenses—expanding production lens options.
- In Pre Rec (Retro Cache) Start Mode the GY-HM700 continually records a few seconds in cache memory. Never miss a breaking shot again.
- In 720p 35Mbps mode, the camera can be set to record at a frame rate different (under/over crank) than the playback rate.

GY-HM700U *(B&H# JVGYHM700U)*.....**Call or Log-on**

GY-HD250U 1/3" 3-CCD Professional ProHD Camera

Designed for ENG, field production and cinematography, the GY-HD250U features 1080i output (via FireWire) to optional hard disk. Can record full-frame 720/60p and real 24p, 25p, 30p, 50p, and 60p. Offers 24p full HD image capture for cinematographic applications and easy transfer to 16mm and 35mm film. 720/60p HDV format produces crisp, native HD images (1280 x 720), while full-frame 60p eliminates the degenerative process of de-interlacing. MPEG-2 compression allows high-quality HD recording on standard DV media. Direct digital transfers to HDD via FireWire maintain quality throughout the transfer process. Archive on tape or plug the hard drive straight into your NLE—no need to make dubs or transfer data.

- Composite video input (for SD pool feed) • Genlock, time code input/output • Studio capability with optional multicore adapter
- HD/SD-SDI output with embedded audio & TC, Varicam flags (HD mode only) • HD-SDI output of 1080i from built-in cross converter

AG-DVX100B 1/3" 3-CCD MiniDV Camcorder

Shown with optional Mic

The AG-DVX100B is a standard-definition camcorder that combinessophisticated professional controls with the lightweight and handling of home video. Achieve film-like images with 24p shooting and Panasonic's exclusive CineSwitch™ technology. Adjust every aspect of your picture, with manual control of iris, shutter, gain, white balance, gamma, color matrix, detail, chroma, and pedestal. Three user-assignable buttons and six scene files allow you to save your favorite settings and transfer them between projects. The camera's Leica Dicomar 10x wide-angle zoom lens provides mechanical zoom and focus rings for precise control, along with professional barrel markings for correct pull-focus and take-to-take consistency. To make sure you're seeing exactly what you're shooting, a BW/color viewfinder and LCD both offer full overscan and anamorphic 16:9 display.

- 3 1/3" CCDs (410k pixels each)
- 60i, 30p, 24p recording
- Dual XLR audio
- 2 zebra settings

AG-DVC20 3-CCD MiniDV Proline Camcorder

Shoulder-mounted standard-definition camcorder with an advanced digital image processing system that captures sharp and vivid images with true colors. Perfect for educators, event videographers, sports coaches and entry-level shooters, the camera is equipped with three 1/6" CCD's, 10x optical zoom lens with electronic image stabilization, multi-speed zoom rocker and 2.5" LCD monitor. Lightweight (4.4 lb) despite its stature, the camera is simple to use, with a one-touch navigation joystick for easy and fast control over basic operations. Different shooting modes—Cinema (letterbox), tele-macro, and soft skin—and five AE settings give you more advanced image control, while the Color Night View mode produces bright, vivid colors even in dimly lit locations. Input/output is via IEEE-1394, output via composite and S-video. Built-in stereo microphone and external stereo mini-mic input. Includes two 1350 mAh batteries, AC adapter and wireless remote control.

AG-HPX500 2/3" 3-CCD DVCPRO HD Camcorder

With three 2/3" progressive image sensors, an interchangeable lens system and four P2 card slots, the AG-HPX500 high-definition ENG camcorder is built for professionals. Supporting all HD/SD recording formats and tapeless P2 work flow, the HPX500 uses advanced 14-bit A/D digital conversion and 19-bit inner processing for exceptional image accuracy. It records in 1080 (60i/50i/30p/25p/24p) and 720 (60p/50p/30p/25p/24p) resolution, with a variable frame rate function (12fps–60fps) that allows for under- and overcranking. Footage can be captured in DVCPRO HD, DVCPRO50/25, and DV, in a variety of gamma modes, while exclusive CAC technology minimizes any blur caused by lens chromatic aberration. The P2 HD technology offers instant recording startup, clip thumbnail view, shot marker, hot swap, pre-rec, loop-rec and SD card metadata/scene files.

AG-HMR10 • AG-HCK10

Full HD Portable SD Memory Card Recorder and Multi-Purpose Camera Head

Ideal for applications in video production, sports coaching, healthcare, law enforcement, remote operation/ surveillance, and much more, the AG-HMR10 is a hand-held, battery-operated portable recorder with HD-SDI input and output, while the AG-HCK10 camera head features three 1/4" native HD resolution 3-MOS imagers, 12x optical zoom, and Optical Images Stabilizer (OIS). When connected via included 3m detachable cable (optional 10m cable is also available), iris, focus and zoom can be remotely controlled from the recorder. The HMR10 records in HD formats including 1080/60i, 1080/50i, 720/60p and 720/50p.

- Equipped with an HD-SDI input and output, the HMR10 recorder is also suitable for back-up recording from any HD-SDI-enabled camera or for use in studio or event production.
- In addition to HD-SDI in/out the recorder features HDMI out and USB 2.0, internal speaker and headphone mini jack, and 3.5-inch color LCD monitor that displays content in thumbnail images for quick viewing.
- For editing or playback, users can instantly transfer content from the SD memory card to Mac or PC computers with an SD/SDHC card reader or by connecting the HMR10 recorder directly via its USB 2.0 interface.

AJ-SD930B

DVCPRO 50/25 Editing and Production VCR with DVCAM and DV Playback

The AJ-SD930B is a versatile, cost-effective studio VCR designed for high-end digital video production. Use of the popular DVCPRO50 50Mbps format makes it suitable for creating high-end programming. With 4:2:2 digital component recording and four channels of digital audio, it delivers the superior picture and audio quality professionals need.
Comes standard with SDI input and output, RS-422A remote and jog & shuttle dial. Switchable between DVCPRO50 (50Mbps) and DVCPRO (25Mbps) for recording and playback, and both can playback DV and DVCAM tapes. Can also record and play UMID data. These and other features make it an ideal solution to a wide range of production and broadcast uses.

- In DVCPRO50 mode, the AJ-SD930B can record up to 92 minutes on a AJ-5P92LP compact 1/4" cassette tape. In DVCPRO mode, recording time is doubled to184 minutes.
- For added versatility, can play back DVCAM and standard DV tapes. Mini DV tapes can also be played back using the optional AJ-CS455P adaptor. In playback, automatically detects the recording format used (DV, DVCAM, DVCPRO or DVCPRO50) and plays back accordingly.

Panasonic AG-HMC40

3-Chip AVCCAM Handheld Camcorder with 10.6MP Still Capability

Weighing less than 2.2 pounds, the AG-HMC40 features three full resolution 1/4" 3-MOS image sensors to produce stunning 1920 x 1080 HD images with high sensitivity. The camera can also capture still images with 10.6 MP resolution directly onto the SD card. It is equipped with a 12x optical zoom (includes 2x, 5x, 10x) and professional image functions like Dynamic Range Stretch (DRS) that helps compensate for wide variations in lighting, and a Cine-Like Gamma mode which gives recordings a more film-like aesthetic.

- Supports 1080/59.94i (in all modes) and 1080/29.97p, 1080/23.98p native, 720/59.94p, 720/20.97p, and 720/23.98p native (in PH mode only).
- Offers a wide variety of valuable professional features including waveform monitor display, focus assists such as focus bar display and enlarged display, time date stamp, user assignable focus ring, auto focus with face detection, zebra display, synchro-scan shutter function, three programmable user buttons, time code/UB recording, and remote control terminal (for zoom, focus, aperture, REC start/stop controls).
- Comes standard with HDMI output, USB 2.0, composite output (AV multi/ch1, ch2), analog component (mini-D), detachable XLR audio input and audio REC level adjustment dials. Also offers 2-channel input (mic/line switchable) with +48V phantom power.
- 2.7" LCD monitor offers simple touch-panel operation and access to various solid-state recording functions such as pre-record, interval recording, shot marker and metadata capture.

AG-HMC40 *(B&H# PAAGHMC40)*.....**Call or Log-on**

Panasonic's AVCCAM series provides the flexibility of low cost, SD memory card based recording and full 1080 and 720 resolution capture. Utilizing AVCHD, an MPEG-4 /AVC Hi Profile-based format, the AVCCAM series provides a near doubling of bandwidth efficiency with improved video performance over MPEG-2 compression used in HDV formats. It also brings the benefits of solid-state recording to budget-conscious professionals. Like digital still photography, recording onto inexpensive SD/SDHC cards offers a fast and simple, file-based workflow with ultra-reliable performance and resistance to shock, vibration and extreme temperatures and weather. Since AVCHD records video as digital data files, content can be transferred and stored on affordable, high-capacity hard disk drives (HDD) or optical storage media and transferred to future storage media as technology advances.

- Using just one 32GB SDHC memory card, a user can record 3 hours of full resolution 1920 x 1080 video and audio in PH mode (average 21 Mbps/max. 24 Mbps), four hours at HA mode (17 Mbps) and 5.3 hours at HG mode (13 Mbps). In the HE mode (6 Mbps), the camera can record up to 12 hours of 1440 x 1080 HD content on a single 32GB SDHC card.
- AVCHD is supported by a wide range of editing options including Apple Final Cut Pro, Adobe Premier Pro CS4, EDIUS Pro 5 and EDIUS Neo 2. In addition, a free transcoder can be downloaded from Panasonic to convert AVCHD files to DVCPRO HD P2 and downconverted DV files for use with most existing professional editing systems.

Panasonic AG-HMC70

3-Chip AVCCAM Shoulder-Mount HD Camcorder

The HMC70 features three native 16:9 progressive 1/4" CCDs to record widescreen 1440 x 1080 HD resolution images of weddings, sports, concerts, or other events. It can be used by law enforcement agencies for training or surveillance, by schools for use in video production, live staging and documentation, or by broadcasters and newspapers for web journalism. The HMC70's lightweight, shoulder-mount design facilitates stable shooting and better balance during long recording sessions. The camcorder's 3" 16:9 LCD monitor offers thumbnail display of recorded images so videographers can monitor or delete clips. Users can also capture 2.1 Megapixel still images with the camcorder onto the SDHC memory card – even during video recording.

- 12x Leica wide-angle zoom lens (38.5 to 462mm equivalent) with one-push auto focus, and integrated Optical Image Stabilization (O.I.S.) to ensure stable images. Manual focusing is also possible.
- Auto mode provides quick and easy shooting, while manual mode lets you adjust the white balance, brightness (iris and gain up to +18 dB) and shutter speed (1/50 to 1/8000 second).
- Offers three recording modes – 6Mbps, 9Mbps or 13Mbps. Using a 32GB SDHC memory card, the HMC70 can record for up to 12 hours at 6Mbps quality and up to 5.3 hours minutes at 13Mbps.
- In addition to the lens grip, the upper part of the handle grip contains both the Rec Start/Stop button and a lens zoom control. This assures easy shooting even at low angles or when using a tripod. The zoom speed can be set to any of three speed levels.
- LCD and viewfinder display three types (horizontal, grid, 4:3) of guidelines, as well as a Zebra pattern.
- In addition to a built-in stereo mic, it has two XLR mic/line switchable inputs with attenuation and +48v phantom power.
- Outputs include HDMI, component HD/SD video (BNC x 3), composite SD (BNC), and audio (RCA x 2 channels). USB port allows the AG-HMC70 to connect to a PC in device mode.

AG-HMC70 *(B&H# PAAGHMC70U)*.....**Call or Log-on**

Panasonic AG-HMC150

3-Chip AVCCAM Handheld HD Camcorder

The AG-HMC150 is a production-level camera featuring three 1/3" progressive CCD imagers to produce stunning 1920 x 1080 resolution picture quality. It comes with a 13x Leica Dicomar zoom lens (28-364mm equivalent)—the widest in its class, auto or manual operation of focus and iris, and automatic optical image stabilization (O.I.S.) to ensure stable, smooth and precise shooting. It handles full-pixel (1920 x 1080 and 1280 x 720) 24p progressive recording, and offers advanced features such as SMPTE time code reader/generator, focus assist functions, six scene files, three neutral density filters and three user sets and simplified waveform and vectorscope display.

- Cam-driven (mechanical) manual zoom ring provides the same fast, precise zooming and feeling as cameras with interchangeable lenses. The servo-driven zoom also allows slow zooming. Also offers a 2x, 5x or 10x digital zoom that instantly magnifies the image —without the light loss that happens when using a lens extender.
- Records in 1080/60i, 1080/30p, 1080/24p; 720/60p, 720/30p, 720/24p HD formats
- Advanced gamma functions address eight shooting scenarios and enhance your creative abilities. This includes the cinelike gamma, which produces the characteristic warm tone of film recordings.
- In addition to a built-in stereo mic, it has two XLR mic/line switchable inputs with +48v phantom power, auto/manual level, and internal/external assignment
- Equipped with both composite (RCA) and component (Mini D4) video outputs, allowing HD images to be down converted and output as SD images. Also has an HDMI output and USB port.
- Any remote controller compatible with the AG-DVX100 or AG-HVX200 can be used (for Zoom, Iris, Focus, Start/Stop)
- Handle grip contains both the Rec Start/Stop button and a lens zoom control (with three speeds) to ensure easy shooting even at low angles.
- Large 3.5" LCD monitor offers a monitor mirror mode which is convenient when shooting interviews.
- Time/date stamp for applications like legal depositions or surveillance

AG-HMC150 *(B&H# PAAGHMC150)*.....**Call or Log-on**

Panasonic AG-HPX170

A full production quality tool, the the AG-HPX170 is a solid-state P2 HD handheld camcorder equipped with three 1/3" 16:9 CCDs, high-performance digital signal processor with 14-bit A/D conversion and 19-bit processing to assure high-quality recordings necessary for top-level production and broadcast. Weighing only 4.2 lbs, the camcorder has a 13x Leica Dicomar zoom lens with a 28mm wide-angle setting (the widest in its class) and a cam-driven manual zoom for smooth, easy and precise operation. For added flexibility, the camera provides auto or manual focus and iris.

- Fully solid-state, the HPX170 has no moving parts, features fast IT compatible file-based workflow; and is resistant to temperature extremes, shock and vibration.
- With its two P2 card slots, record up to 128 continuous minutes of the highest quality DVCPRO HD recording using 64GB P2 cards. Other user-friendly recording modes include hot swapping for non-stop recording, loop record, pre-record, interval and one-shot recording. A time/date stamp function makes it ideal for use in law enforcement environments.
- Offers a 20-step frame rate selection in 720p mode for variable-speed shooting in the 12fps to 60fps range to acquire fast- or slow-motion in-camera effects.
- For added creative flexibility, offers a variety of advanced gamma functions and settings including a CineGamma mode.
- HD/SD-SDI output for live feed productions as well as for editing and monitoring. It also has IEEE 1394 and USB 2.0 interfaces for fast P2 content transfer into NLE systems.
- Records in 20 HD and SD formats (1080i and 720p formats in DVCPRO HD, as well as 480i in DVCPRO50, DVCPRO and DV) and is switchable between 16:9/4:3 aspect ratios.
- Convenient features include clip preview on the camera's 3.5" color LCD monitor; instant recording startup, scene files, assignable user buttons, focus assist and a camera remote function.

Panasonic AG-HVX200A HD Format 3-CCD Camcorder

This solid state P2 high-definition camcorder provides professional filmmakers with a powerful acquisition tool for the most demanding requirements. 1/3" advanced progressive CCD's and a wide-angle (30mm) 13x Leica Dicomar HD lens give you a wider, more vibrant image as you capture HD 1080i and 720p video in DVCPRO HD, DVCPRO 50, DVCPRO or DV. The HVX200A's intraframe compression system—great for precise editing—records to two P2 cards (32 mins. per 32GB card) or MiniDV tape at 100 Mbps and 4:2:2 sampling. With Cine/News gamma modes, plus variable frame rates of 12–60fps, achieve the exact look your project needs.

• IEEE-1394 / USB 2.0 • SD down-conversion • Dual XLR audio inputs • Free 16GB P2 card **AG-HVX200A** *(B&H# PAAGHVX200A)*

Panasonic AG-HPX300

P2 HD Camcorder with AVC-Intra

The AG-HPX300 is world's first affordable full 10-bit, 4:2:2 professional HD camcorder. With 17x interchangeable lens, three 1/3" 2.2-megapixel 3-MOS imagers and full 1920 x 1080, 10-bit 4:2:2 AVC-Intra recording, the HPX300 brings true master-quality HD recording within your reach – all with the benefit of P2's faster, independent frame, file-based workflow. In a field of its own, the HPX300 delivers high-resolution recording using AVC-Intra and industry-standard DVCPRO HD, but also supports standard definition recording in DVCPRO50, DVCPRO and DV formats for complete flexibility. Native 24p (23.98 fps), makes it an affordable solution for indie film production. High resolution LCOS color viewfinder (1,226,000-pixels) and 3.2" LCD color monitor (921,000-pixels) provide clear image reproduction even in bright outdoor areas. The two-slot HPX300 provides instant random access to recorded HD or SD content and operates reliably in harsh environments, with resistance to temperature extremes, shock and vibration. For security, there is a five-year warranty program. At 8 lbs, the HPX300's lightweight well-balanced design and ergonomic handle makes it comfortable to use.

AW-HE100

Multiformat HD/SD Integrated PTZ Camera

The HE100 integrates super-smooth pan/tilt/zoom (PTZ) mechanisms within a unique ergonomic design, making it a cost-effective robotic camera solution for a wide range of applications—from surveillance to video-conferencing to event production. The HE100 supports 1080i, 720p, and 480i formats and can simultaneously output both HD and SD signals, creating broadcast-quality video through its three 1/3" CCD's and 13x f1.6 zoom lens. The integrated PTZ unit has a True Servo pan-tilt head that offers precise, fast, fluid movement in all directions, delivering a maximum pan/tilt speed of 60 degrees per second. Outputs HD/SD analog component and composite video. Includes: Wireless remote control, power cable, tbletop/ceiling mounting bracket, main mounting bracket, drop-prevention wire, cable cover, mountig screws and rubber feet.

SONY HDV

HVR-A1U CMOS Hand-Held HDV Camcorder

An extremely compact and lightweight camcorder, the The HVR-A1U is equipped with a 1/3" CMOS sensor with 2.97-megapixels and an Enhanced Imaging Processor to deliver outstanding picture quality.
In addition to HDV 1080i recording and playback, the HVR-A1U offers DVCAM/DV recording and playback capabilities, and down-conversion capability of its 1080i recordings for a flexible choice of production systems in HDV, DVCAM, or DV format.
It features a Carl Zeiss Vario-Sonnar T* 10x high-definition zoom lens with four types of zoom control, electronic Super SteadyShot stabilization system, and simultaneous operation of 2.7" LCD monitor and B/W or color 0.44" viewfinder with peaking, histogram and zebra pattern functions.
It also incorporates convenient and professional features such as two XLR audio inputs with 48v phantom power, time code capability, automatic shooting modes, and still image recording to Memory Stick Duo media. Other advanced features include Tele Macro function, SuperNight Shot, Skin Tone Detail, Black Stretch and Shot Transition function for smooth automatic scene transitions.

HVR-HD1000U CMOS Shoulder-Mounted HDV Camcorder

Designed for mobility and professional appearance, the HVR-HD1000U features a shoulder-mount design and black matte body similar to that of professional camcorders. Ideal for corporate communications, colleges, wedding and event videography, the camera is equipped with premium design characteristics, and can record high-definition 1080i on a standard mini DV tape.
A 10x Carl Zeiss Vario Sonnar lens with SteadyShot image stabilization ensures the perfect shot every time. A built-in down-converter creates DV material, perfect for standard DVD productions. Plus, a special still photo mode is ideal for producing DVD cases and making wedding photo albums.

SOHVRHD1000U ..... **Call or Log-on**

Sony's HDV Format

The HDV tape transport mechanisms are based on the DV helical scan format. Therefore, videotapes used for DV recording can also be used for HD recording, and the recording time is equivalent. HDV1080i and HDV 720p devices are downward compatible with DV from which both HDV tape transports mechanisms were derived.

The HDV 1080i specification does not follow the DV tape footprint as HDV 720p does. In order to accommodate a higher bit-rate, the HDV 1080i specification adopted a unique track and sector structure that maximizes the length of the track for MPEG-2 payload recording. The video payload bit-rate is 25.4Mbps, which is 28% higher than what is possible by strictly adhering to the DV track and sector structure.

Content originated by HDV 1080i products is routinely used as "contribution" for high end productions, inter-cut with other high definition formats and eventually aired on network broadcasts. The HDV 1080i specification compresses HD video at 25 Mbps (same as DV). The 25Mbps data stream consumes only 2GB for every ten minutes of recording.

HDV 1080i has a very high vertical resolution of 1080 lines. It is possible to deliver 1.85:1 or 2.35:1 film formats with excellent visual quality. The high spatial and temporal resolution of HDV 1080i produces very detailed 35mm film out.

Blu-ray Disc recorders can be connected directly to compatible HDV devices via their i.Link® ports for an efficient and cost effective distribution of high quality prerecorded HD content. One single layer Blu-ray Disc media provides 115 minutes of native HDV 1080i recording. It is not necessary to resort to high compression schemes or to use expensive, time-consuming multi-pass encoders for long form program distribution.

HVR-Z5U 3-CMOS Handheld HDV Camcorder

A compact HDV camcorder designed to enhance creativity and deliver the highest standard of optical and audio quality, the HVR-Z5U incorporates Sony's 3 ClearVid™ CMOS Sensor system with Exmor™ technology to provide excellent low-light sensitivity and Sony's 20x "G Lens" for superb resolution, color, and contrast, for breathtaking images that rival expensive interchangeable lenses. This sophisticated lens incorporates Sony's unique optical technology and unparalleled quality control. Moreover, it's been optimized to perfectly complement the camcorder's image sensor and image-processing technology, thus expanding shooting possibilities. The 29.5-590mm (35mm equivalent) wide-angle zoom offers a field of view that's ideal for many shooting situations.
Zoom, focus, and iris control rings can be controlled using just one hand. Moreover, the built-in digital extender system increases the zoom ratio to approximately 30x while Sony's optical Super SteadyShot system helps you achieve a stable picture.

SOHVRZ5U ..... **Call or Log-on**

HVR-Z5U • HVR-Z7U • HVR-S270U All Feature

- They incorporate three Sony ClearVid™ 1/3" CMOS sensor chips for high sensitivity, deep resolution, low noise and a wider dynamic range. The sensors capture full HD 1920 x 1080 resolution, resulting in better picture quality when recorded onto mini DV tape in the HDV format (1440 x 1080).
- They can switch between HDV 1080i, DVCAM, and standard DV recording for supreme flexibility. Native editing in the HDV format is supported by most popular NLE (nonlinear editing) software.
- They can convert material from 1080i down to 480i and output the video signals through their i.LINK interface and other SD output connectors.
- HDV can also be recorded as a memory file on inexpensive CompactFlash cards using the supplied (optional with the HVR-Z5U) HVR-MRC1K Memory Recording Unit, allowing a streamlined nonlinear editing workflow to be achieved. The cameras have a special shoe connector for direct attachment of the HVR-MRC1K without having to use a cable. The recording unit automatically synchronizes with the cameras, and various recording options (are available when using it in HYBRID operation. Store over two hours of HDV, DVCAM or DV on a 32GB CompactFlash card.
- They feature 24p/30p HDV native progressive recording and 24p/30p progressive scan mode
- They are equipped with Sony's 3.2" XtraFine LCD (921,000 pixels) and 0.45" XtraFine EVF (1.2 million pixels) for high-resolution and high-contrast images with remarkable color reproduction.
- They have three built-in ND filters to help reduce light intensity under bright shooting conditions.
- The HVR-Z5U and HVR-Z7U have HDMI output, the HVR-S270U has an HD/SD-SDI output connector.
- A host of functions enhance operational versatility. These include -6 and -3dB gain settings, Smooth Gain function, advanced histogram, picture profile with up to 6 picture-quality settings, Color Correction and Skin Detail functions, White Balance Shift function and Smooth Slow Rec function which enables smooth slow-motion playback by capturing images 4x faster than normal.

HVR-Z7U • HVR-S270U

3-CMOS Handheld and Shoulder-Mount Interchangeable Lens HDV Camcorders

Ideal for documentaries, electronic newsgathering, independent production, music videos, web streaming, and more, the handheld HVR-Z7U and shoulder-mounted HVR-S270U step up from the HVR-Z5U with a 1/3" bayonet interchangeable lens system. This allows the use of a wide range of lenses from Canon and Fujinon. Both come standard with a 12x high-quality, multi-purpose Carl Zeiss lens for HD video, with a Vario-Sonnar T* coating to reduce reflections. A specially designed 8x wide-angle lens is also available as an option. These lenses give them the same functionality as Sony's professional fixed-lens camcorders with built-in features such as auto-focus, optical stabilizer, and automatic back-focus adjustment. Using a special adaptor, users can also attach Sony's Alpha series (digital still camera) lenses.
The HVR-Z7U uses InfoLithium batteries and has an HDMI ouput. The HVR-S270U also supports standard-size cassettes for extended recording times (up to 4.5 hours), has four-channel audio input and has an HD/SD-SDI output connector.

SONY GV-HD700

HDV Portable Video Walkman

A portable player/recorder well suited for ENG and EFP work, the GV-HD700 offers the ability to record SD resolution and playback HDV resolution, view content on its built-in 7" TFT 16:9 LCD screen, or output 1080i/720p signals to an HD display through the HDMI output. Features include x.v.Color Technology, crystal clear still/slow-motion playback, MiniDV SP/LP record/playback, IEEE-1394 (DV) interface, component output, and 12-Bit/16-bit PCM digital audio recording.

- 7" color LCD screen with Active Matrix technology provides clear, accurate colors for on-the-spot playback of recordings.
- Built in assemble editor lets you mark cut-in and cut-out points for up to 20 separate scenes.
- Edit images by zooming in up to 2x and cropping (up, down, left, right).
- Capture digital still images from tape, analog or i.LINK input, directly onto Memory Stick Duo media
- Analog in/out lets you preserve your analog library by copying it onto a digital format.

#SOGVHD700 ..... **1049.95**

SONY HDR-FX7

3-CMOS HDV Camcorder

Shoot like a pro with the HDR-FX7 high definition Handycam camcorder. Capture amazing video and still images in high definition with the HDV 1080i 3CMOS sensor, while a Carl Zeiss 20x optical zoom Lens maintains image clarity. Record still images at the same time that you're shooting video. So no matter what the occasion, the HDR-FX7 is the perfect camcorder for the situation.

- Carl Zeiss 20x HD lens plus a 1.5x digital extender available throughout the entire zoom range
- 3.5" wide (16:9) Hybrid Clear Photo LCD Plus display • Smooth slow record
- Manual zoom and focus rings • Super SteadyShot Optical Stabilization System
- Picture Profile lets you make adjustments for a scene (color, sharpness, white balance, etc.) into any one of six presets
- Simultaneously record HD video and 1.2-megapixel still images directly to Memory Stick Duo Media

SONY HDR-V1U

3-CMOS Professional HDV Camcorder

Equipped with a 3-chip ClearVid CMOS sensor combined with Sony's Enhanced Imaging Processor (EIP) technology for higher sensitivity and higher resolution, the HVR-V1U natively captures progressive images at 24p, 30p or 60p, while maintaining full 1080i HDV resolution. It features a Carl Zeiss 10x Vario-Sonnar T* Lens with extra-low dispersion glass, huge 3.5" Clear Photo LCD screen, XLR audio input, time code capability, various automatic shooting modes, and still picture recording. In addition to HDV1080i, it offers DVCAM/DV recording and playback as well. Down-conversion of 1080i recordings is also provided for a flexible choice of production systems in HDV, DVCAM, or DV format. For added flexibility and versatility, the HVR-V1U enables simultaneous or "hybrid" recording to tape with the optional HVR-DR60 hard-disk recording unit.

#SOHVRV1U ..... **Call or Log-on**

SONY HVR-M15AU • HVR-M25AU • HVR-M35AU

HDV Videocassette Recorders

HVR-M35U

These HDV videocassette decks both offer HDV 1080i, DVCAM, and DV SP recording and playback capability on mini-size DV as well as standard-size cassettes, for easy migration from standard- to high-definition production. They can convert material from 1080i down to 480i and 576i, and output these video signals via its i.LINK, analog component, composite or S-Video connectors.

HVR-M15AU

HVR-M25AU

They can output three types of color bars via i.LINK, HDMI, analog component, S-Video, and composite connectors, as well as a 1kHz audio tone signal via the i.LINK, HDMI, and analog audio connectors.

They copy external timecode through the "HDV/ DV in TC" feature and connectivity options include—i.LINK (IEEE-1394), component output, S-Video, composite, and analog audio I/Os. Auto repeat function enables them to automatically rewind the tape to either the beginning of the tape, the first complete blank portion, or an index point on the tape, and start playback again from there. Built-in tape cleaner with high-grade sapphire blade helps prevent signal dropouts and improve the reliability of recording and playback.

- The HVR-M15AU is compact and unobtrusive. Can be placed horizontally or vertically to conform to existing work environments.
- The HVR-M25AU deck adds a 2.7" wide 16:9 ClearPhoto LCD and an HDMI output. DUPLICATE PLUS functionmakes it easy to copy video and audio from an i.LINK compatible VCR or camcorder. When down-converting signals, the Edge Crop Adjust function is provided to adjust the edge crop position. By displaying the edge crop marker on the LCD monitor, operators can conveniently check the edge crop position before outputting down-converted signals. All Scan Mode–similar to the Underscan mode of ordinary monitors–displays all effective scanning lines in the LCD monitor when 1080i mode is selected. This is useful if you want to check pictures for web applications, for example.
- The HVR-M35U adds support for "native progressive" recording modes, down-conversion playback, and has HD/SD-SDI output with embedded audio and timecode data, allowing straight duplication to a similiarly equipped deck. It can also play back the 4-channel audio data in HDV 1080i format recorded by the HVR-S270U as well as the four-channel audio data in DVCAM format.

SONY HVR-1500A

Digital HD Video Cassette Recorder

The HVR-1500A is an HDV/DVCAM/DV player and recorder. It offers many must-have professional features such as quick mechanical response, multi-format DV playback, and a robust set of video and audio interfaces ranging from analog to digital SDI and AES/EBU. Additionally, it offers HD-SDI input/output, allowing it to be used as an HD recording deck for cameras with HD-SDI outputs. The HVR-1500A can also be used as a standard definition DVCAM recorder. Designed as a bridge between HDV and HDCAM format, as well as between HDV and XDCAM HD format, use it for dubbing from HDCAM decks for off-line production, such as viewing or distributing content on lower-cost HD media, or for baseband, real-time writing back from an HD non-linear editing system.

- Records in 60i, 50i, HDV 1080i, DVCAM, and DV (SP mode) formats, with DVCPRO 25 playback
- Inputs include SD-SDI, AES/EBU and 6-pin i.Link (HDV).
- Analog video is selectable from HD/SD component, SD composite, S-video, and analog XLR (x2)
- Optional HVBK-1505 Analog Input Board enables analog SD component, composite or S-video, and balanced audio via XLR connectors.
- Optional HVBK-1520 enhances the unit by giving it both up-conversion and cross-conversion capabilities; up-convert DV to either 1080i or 720 or cross-convert 1080i HDV footage to 720p.

SONY HXC-100 HD/SD System Camera

Equipped with Sony's newly-developed digital triax transmission technology, the multi-format HXC-100 allows users to use their facility's existing triax cable infrastructures for a seamless and cost-effective transition to digital transmission and ultimately to HD. The HXC-100 camera supports versatile applications for HD with a high-quality SD output. It uses the latest 14-bit A/D conversion circuit as well as the superb 2/3-inch Power HAD™ FX CCDs to bring out high picture quality. Together with the highly compact 1.5 RU HXCU-100 Camera Control Unit and a remote control panel from Sony, the HXC-100 camera offers a fairly simple system. With a variety of beneficial functions packed into the camera, such as its Focus Assist function, the HXC-100 provides genuine user-friendliness. Features three 2/3" Power HAD™ FX CCDs with 2.2 million pixels each, and is switchable between 1080i and 720P 50/60 Hz, with 525i and 625 SD modes available from the camera head and CCU. It offers comprehensive image controls with wide dynamic range and a 14-bit A/D. It also offers a range of automatic features designed to minimize the adjustments necessary during production, including auto iris with multi-zone weighting, auto skin tone detail, auto knee, electronic color correction, focus assist function and hyper gamma.

SOHXC100K ..... **Call or Log-on**

- Offers a high sensitivity of f/10 for 59.94 Hz and f/11 for 50 Hz with high S/N ratios of -55 dB (HD) and -65 dB (NTSC)
- A wide range of capturing modes are available including 1080/50i, 1080/59.94i, 720/50P, 720/59.94P, 576/50i, and 480/59.94i.
- High-performance 14-bit A/D converter enables images captured by the high-performance CCDs to be processed with maximum precision.
- Auto Lens Aberration Compensation function optimizes lens performance to provide stunning picture quality.
- Offers long cable runs of up to 1200m (3937 feet) via ø14.5 mm cable between the camera and the CCU.
- Provides a wide range of inputs and outputs via the connector panel such as HD-SDI output, SD-SDI output, VF signal, return signal, and SDI Prompter signal. What's more, an intercom channel (ENG/PROD) is also provided.

HXCU-100 Camera Control Unit for HXC-100

The HXC-100 camera offers flexible configuration with the highly compact 1.5 RU-size HXCU-100 Camera Control Unit, creating a standardized 19-inch rack system that is ideal for space-limited production areas. Combined with the HXCU-100, the HXC-100 can be configured as a simple studio system. Equipped with the latest Sony-developed digital transmission technology, the HXCU-100 can transmit high-resolution pictures between the camera and CCU, regardless of the cable length.
The HXCU-100 features flexible interfaces of selectable inputs/outputs between HD-SDI and SD-SDI. What's more, the optional HKCU-FP1 CCU Front Control Panel is also available. When the front panel of the HXCU-100 is replaced with the HKCU-FP1, a simple remote control system can be configured. Many functions of the camera can be controlled by the control knobs and switches on the HKCU-FP1.

Sony 3-Year Extended Warranty *(#SOEWD)*

DSR-2000A DVCAM Master Series Editing Player/Recorder

The DSR-2000A supports playback of all DV based formats including DVCPRO and DV recorded in both SP and LP. It has pre-read editing for superior frame accuracy, a built-in jog shuttle dial for 2 machine linear editing and Dynamic Motion Control for clear playback and smooth edits at any speed. Also includes Firewire connection for interfacing with non-linear systems.

DSR-2000A *(#SODSR2000A)* **Sony 3-Year Extended Warranty** *(#SOEWD10)*

SONY PMW-EX1 • PMW-EX3

3CMOS XDCAM EX Pro HD Camcorders

The first compact HD camcorder to belong to Sony's CineAlta line, the solid-state PMW-EX1 incorporates three progressive 1/2" Exmor CMOS image sensors and full HD signal processing with MPEG-2 HD recording at 25/35Mbps. You can set shutter angle and speed, frame rate (from 1fps to 60fps), resolution (1080p/720p/1080i) and a range of cine-style gamma curves. Record up to 140 minutes of video at 35Mbps on two 16GB SxS memory cards at full native 1920 x 1080 or 1280 x 720 switchable HD resolutions. Integrating a 3.5" high-resolution LCD and built-in stereo microphone with two XLR microphone inputs, the PMW-EX1 also features a 14x non-servo Fujinon lens with a fully manual iris ring and focus ring with hard stops and marked focus positions.

PMW-EX3 Step-up Features: Utilizing the same electronics as the PMW-EX1, the EX3 adds an interchangeable 1/2" lens mount, removable viewfinder, improved controls, and a redesigned, easier-to-hold body that includes a retractable shoulder pad. For creative shooting, it features "Slow & Quick Motion", commonly known as "over-cranking" and "under-cranking", selectable gamma curves, slow-shutter, interval recording and Picture Profile feature. Filmmakers and wildlife/event videographers requiring variable lenses can take advantage of the outside dials for peaking, brightness and contrast, a push-button frame rate dial, and zebra switches for easier viewfinder calibration. It also comes equipped with a remote control interface. Various camera settings can be remotely controlled using an optional RM-B150 or RM-B750 Remote Control Unit via its 8-pin remote connector.

SONY PHU-60K 60GB Hard Disk Recording Unit for the PMW-EX1 and PMW-EX3

Designed for the Sony PMW-EX1 and PMW-EX3 XDCAM EX camcorders, the drive has a capacity of 60GB, which will record up to 200 minutes in HQ (35 Mbps) mode. The ability to record uninterrupted can be especially useful for event coverage, sports and documentary-style shooting. The PHU-60K doesn't require tethered cabling or clunky adapters. Simply plug it into the existing media slot, and it provides a sleek advanced storage unit directly on the camera body. It comes equipped with advanced data protection technology which attempts to minimize the loss of data in the event of a power interruption. In most cases, the PHU-60K can save all but the last few seconds of footage. The disk is protected by shock absorbers, and a 3G Sensor that detects differences in acceleration and orientation and will momentarily shut off the recording platters if conditions are too turbulent.

B&H# SOPHU60K **746.95**

SONY PMW-EX30 XDCAM EX Recording Deck

The PMW-EX30 is a versatile and compact recording deck that can be used for many different applications. It allows simple viewing f recorded materials with a monitor, dubbing to other format/media such as HDV, XDCAM HD and HDCAM, and feeding to nonlinear editing systems. In addition, the PMW-EX30 can be used as an affordable full HD recorder for event recordings — it can record HD signal outputs from a switcher.

The PMW-EX30 is equipped with a wide array of interfaces including HD-SDI input and output, HDMI output, HD analog component, composite outputs and more. Equipped with two SxS PRO memory card slots, the PMW-EX30 can record up to 140 minutes of HD footage using two 16GB SxS PRO memory cards. The recording time can be further extended up to approximately 260 minutes when an optional PHU-60K Professional Hard Disk Unit is attached to the deck.

- Highly compact design - can be placed either horizontally or vertically
- MPEG HD recording /playback at 35 and 25 Mb/s
- Equipped with two SxS PRO memory card slots
- Built-in 3.5" LCD monitor
- Adjustable audio input volume (CH1 and CH2)
- HD-SDI input/output, i.LINK (HDV) input/output and component output
- Down-converted SD outputs for migration to SD environments - SD-SDI, i.LINK (DVCAM), component, S-Video and composite
- HDMI output for connection to HDTV displays

SONY ACCESSORIES

VCT-PG11RMB 2-Stage Tripod

Features the RM-1BP remote LANC controller on the pan arm for fingertip control of zoom, focus and recording functions, and a 75mm leveling ball-mount for rapid setups. The dual-tubed upper stage provides superior torsional resistance, and the mid-level spreader provides greatly increased vertical strength.

SOVCTPG11RMB.....**1099.95**

HVL-LBP Battery-Powered LED Light

Ideal for wide-angle shooting, the HVL-LBP features LED reliability and low power consumption, wide uniform light for 16:9 aspect ratios, and operates with daylight-balanced color temperature. Spot or flood lighting with an attached condensing lens. A dimmer dial adjusts the light intensity from 10% to 100%.,and an indicator shows the remaining battery strength even when the light is turned off. Use as a hand-held battery light or on top of a light stand to act as a backlight. Powered by NPF-970 InfoLITHIUM battery for up to 3 hours at maximum brightness.

SOHVLLBP.....**519.95**

RM-1BP LANC Remote Control

Can connect to a tripod handle and used for convenient control of zoom, focus and start/stop. Using the rocker switch to select either slide-wheel zoom or zoom speed, it is easy to perform the sort of slow zooms that are tricky using the camcorder's own controls.

SORM1BP.....**219.95**

VCL-HG0872 0.8x Hi-Grade Wide Angle Converter Lens

Expand your HDV camcorder's optical range with the VCL-HG0872 wide angle lens. Featuring a 3 group and 4 element design with all aluminum and glass construction, it provides a superb wide angle zoom for stunning group and landscape shots.

High grade glass lens offers increased detail at the edge of an image for minimized distortion and increased optical clarity. The included hood helps protect the lens from damage while helping to eliminate errant light. A handy storage pouch and front and rear lens covers are included to protect the lens while off the camcorder. Fits all camcorders with 72mm diameter lens.

SOVCLHG0872.....**349.95**

SH-L32WBP LCD Hood

An LCD hood for the 3.2" LCD monitors of the HVR-Z5U, HVR-Z7U and HRV-S270U. An adjustable 360° shade prevents light from the LCD monitor from leaking out into the surroundings. It is designed to fold up while still attached to the monitor, so it can also serve as an LCD cover when in transit. *(#SOSHL32WBP)*.....**61.95**

AC-VQL1BP AC Adapter/Charger

4-slot battery charger for NP-970 InfoLITHIUM battery packs, the AV-VQL1BP displays current available time for shooting and remaining time to complete charge. Has two selectable charge modes (Normal/Full). Displays battery log information (total charge times/charge cycles and last operation date).

XDCAM HD Versatile, Disc-based Recording System

Sony's XDCAM HD system is suitable for all types of users – including cinematographers, broadcasters, and video professionals – and complements the other products in the Sony range such as the HDCAM Series for high-end video production and the affordable, entry-level HDV Series. One of the major characteristics of the XDCAM HD system is its use of an optical disc as a recording medium. Ideal for broadcasters, production facilities, corporate, government and educational facilities, the tremendous benefits of disc-based operation include instant random access and network capability to name just a few. Sony's XDCAM HD brings these disc-based benefits to HD programming, providing much improved workflows and cost efficiencies as well as offering striking-quality HD images.

#SOPDF335L or #SOPDW355L

SONY PDW-F335L • PDW-F355L

XDCAM HD 1/2" 3CCD Camera with Viewfinder

The PDW-F335L and PDW-F355L are highly versatile and cost-effective HD camcorders. Equipped with three 1/2" HD CCDs they offer HD recording in 1080/59.94i, 50i, 29.97P, 25P, and 23.98P modes – as well as DVCAM-format recording. They incorporate a rich variety of features useful for creative shooting such as interval recording, slow-shutter, and selectable gamma curve. Additionally, the PDW-F355 provides a "Slow & Quick Motion" function, which is also commonly known as "over-cranking" and "under-cranking".

They record high-quality uncompressed four-channel audio in HD recording mode. They are also equipped with a range of audio interfaces. They offer highly advanced image control features such as Skin Tone Detail and Dynamic Contrast Control, allowing operators to create stunning images. Picture Cache recording provides up to 12 seconds of loop recording using solid state memory. When in Standby mode and the REC button is pressed, everything that happened up till 12 seconds before that moment can be recorded to disc. Valuable shots, which would otherwise have been missed, are now captured.

Disc recording provides users with a number of benefits that are especially useful during shooting. For example, because new footage is always recorded onto an empty area of the disc, there is no need to cue-up to the next recording position before shooting. This means that operators can start shooting without the worry of accidentally recording over existing footage. In short, the XDCAM HD camcorders are ideally suited to a broad array of shooting opportunities such as event shooting, news gathering, field productions, and indie productions.

SONY PDW-700 2/3" XDCAM HD422 Camcorder

#SOPDW700

The PDW-700 offers striking-quality HD recording at a rate of up to 50MB/s (on 50GB Dual Layer discs) using the MPEG-2 4:2:2P@HL compression, "MPEG HD422. It also provides multi-format recording capability including 1080i, 720p and SD, which comes with HD/SD conversion and cross conversion between 1080i and 720p. The PDW-700 is equipped with three 2/3" CCDs – a "Power HAD FX" progressive CCD with 1920 x 1080 effective pixels. Stunning- quality HD images are captured by this high-resolution CCD in conjunction with the14-bit A/D converter, 4:2:2 sampling and recording, and advanced digital signal processing.

It features two HD/SD-SDI outputs and a composite/HD-Y output, as well as a pool-feed input (HD/SD-SDI and composite) input options. The camera's ruggedness and durability have been enhanced with dust and water resistant mechanisms, as well as features to cool the camera and reduce fan noise. The camcorder maintains XDCAM's file-based architecture and use of proxy video and metadata. It also features a digital extender, picture cache, interval recording, slow shutter, focus magnification, clean switching between the "live and playback" function, and a large 3.5" LCD screen. The PDW-700 has a Live & Play function that can simultaneously output both playback signals (images already recorded) and incoming camera signals (images seen through the viewfinder). Both signals are fed to their respective output and viewfinder connectors independently, and can be viewed at the same time. This allows users to frame the next shot, adjust the exposure, and even focus the lens while the camcorder is playing back recordings from the disc. With fast file-based operations and superb picture quality, the PDW-700 is an invaluable tool for news gathering, TV, documentaries, and entertainment programming where a high-quality look is everything.

SONY PDW-F800 2/3" XDCAM HD422 Camcorder

The PDW-F800 CineAlta® camcorder offers a frame rate of 23.98P natively in 1080 mode and multi-format recording flexibility as standard – including standard-definition recording to support legacy formats (MPEG IMX®, DVCAM™ and 4:2:0 HD content). It also provides multi-format (1080i/720P) recording, as well as HD/SD conversion and cross-conversion during playback between 1080i and 720P. Record HD content (95 minutes at 50 Mbps) to the dual-layer PFD50DLA 50GB optical disc. The PDW-F800 adds variable frame rate recording for slow and quick motion capabilities, also known as "over-cranking" and "under-cranking." The camcorder uses three of Sony's new 2/3-inch Power HAD™ FX progressive CCDs that can produce a resolution of 1920 x 1080, delivering high quality, four-channel 24-bit audio recording.

An image inverter feature enables the camera to be used with cinema lens adaptors, and a variety of gamma settings includes Hyper-Gamma and user-selectable gamma curves. A focus assist bar-graph display is visible on the camera's viewfinder, and users can record proxy data to USB removable media to make transferring data easier and faster, especially in the field or on location between the camera and a PC or editing system.

Also features auto tracing white balance hold, output markers such as safety, aspect, and center on the HD-SDI output, slow shutter, interval recording, picture cache recording (up to 30 seconds), disc exchange cache and "shock-less" gain control. Option boards are available to enable pool-feed operation. The camcorder features a 2x digital extender to enhance zoom capabilities, enabling images to be doubled in size without any loss of image sensitivity. It also has slow shutter, 2x focus magnification, clean switching between the "live and playback" function, and a large, easy-to-view 3.5" color LCD screen.

MSW-M2001

MPEG IMX Editing Recorder with Legacy Format Playback

SONY

The MSW-M2000 is a professional MPEG IMX format VTR that will also playback Sony 1/2" legacy formats — Betacam, Betacam SP, Betacam SX

- Multi-function display
- Employs 8-bit 4:2:2 component video sampling • MPEG data stream can output via SDTI-CP • Supports input/output rates of 30, 40 and 50 Mbps
- Employs 8-bit 4:2:2 component video sampling and MPEG-2 4:2:2P data compression
- Optional up-conversion card for 720p, 1080i, and 480p output
- Reverse down-conversion making HDTV elements recorded to Digi-Beta or any of the Sony 1/2-inch legacy formats.

COCO-EX3 POWER ADAPTER

bebob

Specially designed for the Sony PMW-EX3, the COCO-EX3 is a compact and cost-effective method of powering accessories such as a light, on-board LCD monitor, or audio receiver. Designed to draw voltage from high capacity Anton Bauer Gold Mount or V-mount batteries, the Coco-EX3 attaches to the back of the camera in place of the battery. The Anton Bauer Gold Mount or V-mount battery then simply snaps onto Coco's special mounting plate.

- Run a camera light, hard-disk recorder, or an external LCD via a unique Twist D-Tap connector.
- Four Hirose 4-pin connectors to operate wireless audio accessories.
- COCO-EX3 and battery enhances the balance of the camera.

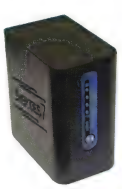

For use with V-mount Battery #BECOCOEX3V.....**434.95**
For use with Anton Bauer Battery #BECOCOEX3AB.....**434.95**

FOCUS enhancements

FS-4 PRO AND FS-5 PRO HD SERIES
Portable Hard Drive Recorder

The Focus FS-4 HD Portable recorder DTE (Direct-To-Edit technology) is a must for DV, HDV, and P2 camcorders. Audio, video and timecode signals are sent from the camcorder through a FireWire cable. It's light enough to clip to a belt or mount on a camcorder, and supports HDV 720p/1080i (.m2t), 24p, AVI, QuickTime, and RawDv. The "Pro" series steps up with support for QuickTime 1080i 50/60 and 720p 30, Avid OMF, P2 MXF (DVCPRO 25) and Pinnacle AVI. The 80 and 100GB model includes a 180-minute high capacity battery. All other models include a 90-minute battery.

The Focus FS-5 steps-up with an ultra-light design, a backlit, high-resolution LCD screen, along with intuitive menus and controls. It has 10 seconds of shock cache recording, time-lapse recording, scene marking, clip categorization, and the ability to assign custom metadata.

transvideo
TITAN TX/RX Microwave Wireless Transmitter & Receiver System

This multi-directional, microwave wireless video transmitter/receiver set can broadcast through walls without desynchronization of the video picture. The Titan Tx/Rx system has a 1,000 ft (300 m) line of sight, a 2.4 Ghz frequency range, 4 preset channels, and is FCC, IC and CE certified. Transmits/receives NTSC, PAL & SECAM color and B&W signals. *Requires* camera-specific power cable, as listed below. Both the Titan transmitter and receiver require a minimum 9V of power, up to 36V, available in a variety of connection options (12V and 14V sources supply ample power in the field). Extremely compact, both units are easily Velcroed to any camera or monitor.

• Signals remain stable even when in motion
• Connectivity via BNC (video), Lemo2 (power) and Hirose 6-pin (video and power)
• 4 channels are pre-dialed and accessible with the flip of a switch—no tools required
• Can be used in conjuntion with any monitor
• Optional "5MDBP" battery pack adapters allow use of 7.2V cam batteries

RFX extreme

RFX-NLL-II License Free Link

The RFX-NLL-II is a state-of-the art 5.8GHz license free, digital broadcast microwave audio/video link. The transmitter is designed to mount between an ENG camera and battery. The receiver is designed to be mounted on a tripod or other suitable location. The NLL-II offers a 1500' range, with switchable mic/line inputs, balanced audio, in and out, and microphone phantom power. Video is encoded to MPEG-2, making it ideal for high quality broadcasting environments. Applications include sports arenas, roof top to roof top, and camera to ENG truck.

#RFNLLII **9949.95**

I·D·X

CW-5HD CAM~WAVE HD Wireless Video Transmission System

Transmit your high-definition 1080 and 720 signals wirelessly up to 100 feet (30m) through walls, and up to 150 feet (50m) in line-of-sight, with a transmission delay of less than 1ms. This uncompressed wireless transmitter and receiver system supports both HD-SDI (SMPTE 292M) and SD-SDI (SMPTE 259M) video signal processing, multiple video formats, and two channels of SDI embedded audio. Its wireless transmission operates via MIMO/OFDM, between 5.1–5.8GHz frequencies—no special FCC license required. It has no visible antenna array, and is powered (10–17 VDC) through its V-mount or via 4-pin XLR connectivity. Selection of four manual or auto-select frequencies with 256-bit encryption features loop-through and conforms to FCC, CE and RoHS specifications.

impact™

Video Pro Conversion Lenses

Impact's high-quality conversion lenses are manufactured with premium workmanship, resulting in superior, high-resolution image capture. The lenses are available in several categories: telephoto, wide-angle, macro/close-up, and fisheye. They mount directly onto digital and video camcorders. Impact lenses with a magnetic base will magnetically mount directly to your digital camera or camcorder.

35mm Lens Adapters

Depth of Field and the Elusive "Film Look"

Achieving a genuine film look on video takes more than good lighting and 24fps progressive capture. The shallow, controllable depth of field and high-grade optics of 35mm prime lenses are also needed. The Letus 35 and Cinevate's Brevis35 allow you to attach still photography lenses onto nearly any SD or HD camcorder, projecting their rich, film-like images onto an internal translucent screen which your camera then records.

w/o lens

with lens

W LENS ADAPTER SYSTEMS

Letus35 Extreme

With its high-grade achromatic lens and 1/2-stop light loss, the Letus35 Extreme exhibits a beautiful film look with absolutely no vignetting and superior edge-to-edge sharpness. Its proprietary image orientation technology flips the image upright—without the added expense and inconvenience of an external adapter.

- Interchangeable thread rings and lens mounts for changing cameras on-the-fly • Virtually silent vibration system
- Built-in LED on/off indicator • Comes with choice of mount

Letus35 Ultimate

The top-of-the-line successor to the widely acclaimed Letus 35 Extreme, the Ultimate completely raises the bar on 35mm adapters by offering a new multipatented design and the highest-quality achromatic lenses. Along with a quieter, "smart" spinning ground glass element with zero wobble, the Ultimate contains a precision back-focus adjustment and can stop down to f/22. Its built-in flash memory remembers your last settings, while the supplied D-tap power cord is hot swappable. Stunningly beautiful, film-like images were never so affordable. Includes PL mount, choice of optimization kit, D-tap, custom waterproof case, and rod support bracket.

- User-changeable ground glass element • Variable RPM motor with LED display • Off-center spinning glass and driving motor

#LELT35ULTEX1 with PMW-EX1 ring..... **4484.95**

Letus35 Mini

Designed and optimized for cameras with a 43mm filter size or smaller, the Letus35 Mini brings all the impressive features of the Letus35 Extreme to consumer camcorders like the Canon HV30 and Sony HC9. Now you can achieve cinema-like image quality with a minimum of equipment and cost.

- Less than 2 lbs • No support rods necessary
- 16:9 native aspect ratio • Great in limited space

RELAY LENSES

Letus 2/3" B4 Compact Relay Lens

This relay lens will allow you to attach a Letus35 Extreme, Elite, or Ultimate adapter directly to the camera body bypassing the stock lens entirely. Precision calibrated to the Letus35 adapters, features academy frame size, 9 lens set, razor sharp center and edges, iris ring, back focus ring with lock down, stainless steel flange

#LELTB4C **3479.00**

Letus 2/3" B4 Pro Relay Lens

Pro version of the B4 compact relay lens. 103mm in length from flange. 3/4 stop brighter than the P+S PRO35 relay.

#LELTB4P **5949.95**

BREVIS-35 MP.1 35mm Lens Adapter

Innovative filmmakers looking for the true cinematic look of film in their video footage can really take advantage of the newly designed and adaptable Brevis 35 MP.1. This lightweight and cost-effective 35mm lens adapter incorporates a firmware upgradeable microprocessor with integrated aspherical optics and a total light loss of only 1/2 an f-stop to your camera with a 50mm lens mounted at f/2.8. Its internal rechargeable cell pack gives you a remarkable 30 hours of run time from a "smart" 30-minute charge. In crafting your shot, the Brevis 35 can be equipped with an optional image flip module—which flips the upside-down image that results from using a 35mm adapter—and a matte box system with solid carbon fiber rods. Interchangeable imaging effects can also be implemented to give you different looks and greater latitude to your cinematic productions.

The Brevis 35 imaging bundle requires a 35mm (interchangeable) lens mount. Lens mounts supported are Nikon, Canon EOS, Canon FD, Pentax K, Pentax M42, OCT19 (cinema), and PL (cinema).

RELAY LENSES

Letus 1/3" Pro Relay Lens

The Letus 1/3" relay lens is designed for cameras with a 1/3 inch image sensor and removable lens system. The Letus relay will allow you to bypass the stock lens of your camera and attach a Letus adapter (Extreme, Elite, or Ultimate) directly to your camera body on cameras with removable lenses with standard 1/3" mount such as the Panasonic HPX300 and JVC HD series.

#LELT13FFPRO **2694.95**

Letus 1/2" Pro Relay Lens

The Letus35 1/2" relay lens is designed for cameras with a ½" image sensor and removable lens system. The Letus relay will allow you to bypass the stock lens of your camera and attach a Letus adapter (Extreme, Elite, or Ultimate) directly to your camera body on cameras with removable lenses such as the Sony PMW-EX3, XDCAM 350/355, etc.

AMRE SERIES HARD CASES
Waterproof High-Performance Cases

HPRC are premium Italian designed cases that give you the confidence to send your equipment into even the most severe conditions. That's because HPRC shells are injection molded using an advanced patented plastic that creates a light- weight high-strength barrier between your protected items and the outside elements. HPRC protection meets ATA 300 specifications for transit cases as well as rigorous standards for military use. Unbreakable hard resin-shelled waterproof black transit cases have a cubed "pick-and-pluck" foam interior, soft-grip handle, and air pressure release valve. The "WF" series has smooth-gliding wheels.

MERLIN
STEADICAM
Handheld Stabilizer Systems

The unique design of the Merlin stabilization system is manufactured to provide you with an ultra-lightweight solution that not only increases stability, but can go simply anywhere. Ultra-light and ultra-compact, the Steadicam Merlin allows you to keep up with the action more easily than ever.

The Steadicam custom-fitted Merlin travel case allows you to securely cradle your camcorder while it is affixed to and balanced on the Merlin. Upright and easily accessible, the case lets you get ready quickly before your next shoot. Offers generous space to store the Merlin Arm and Vest plus additional gear.

With the Merlin Arm and Vest you have the choice of using the Merlin lightweight camera stabilizing system for fluid hand-held shooting in the same manner as the larger Steadicam rigs used in Hollywood film productions.

- "Folding-Caliper" hinge allows for instant fold-up—perfect for shoulder-mounted shooting
- Quick-release mount

VariZoom
Pro Vehicle Mounting Kit

The Auto Rig is a comprehensive professional vehicle-mount kit that can be implemented in your cinematic feature. It supports camcorders up to 25 lbs, and can attach to the edge of a car door or hood. This support is designed to maintain the vehicle's surface integrity, while the system's custom anti-skid rubber cups absorb shock and vibration and allow you to film at various angles and extreme positions.

#VAVZAR VZ-DV Auto Rig.....**$489.95**

GLIDECAM X-10
Camera Stabilization System

This highly advanced professional stabilization system is designed specifically to be used with Glidecam's GL-2000 and 4000 Pro handheld stabilizers. The system works by isolating your body's motion from the camera, leaving your camera balanced and in a relatively motionless state. The support arm can be boomed up and down, as well as pivoted in and out and side-to-side as you to create smooth camera footage. Walk, run, go up and down stairs, shoot from moving vehicles and travel over uneven terrain without any camera instability or shake. The support vest is lightweight, comfortable, and can be adjusted to fit a wide range of operators, while the support arm can be set up and configured so that either a left-handed or right-handed operator can use the system.

X-10 System includes:
X-10 Support Arm, Support Vest, Docking Bracket, Stainless Steel Arm Post, Aluminum Arm Post, (6) Steel Weight Plates.

Video Paint / Ultimatte

rosco

Ultimatte Paints have been specifically formulated to provide the correct luminance and RGB Values for optimum operation with the Ultimatte compositing system. The color specifications were designed in conjunction with the Ultimatte Corporation and have their official approval. Rosco Ultimatte Paints are recommended for interior and exterior surfaces including fabrics, wallboard, plastics, plaster, brick, and concrete. Ultimatte Paints have been designed for use with the Ultimatte System. However they can be used with Chroma Key systems as well. They provide optimal luminance and color separation when shot on either film or video.

KCT-50 / 50SV

HORITA

Character Generators

Standalone character generator works with a standard PC keyboard. Add titles and captions to video, no PC or PC software required. Add up to 9 lines of 20 characters each. The built-in text editor performs common typing operations for quick performance of titling and captioning tasks. Maintain two separate setup and display screens.

KCT-50 Composite Only #HOKCT50 ..... **$359.95**
KCT-50SV S-Video (Y/C) Only #HOKCT50SV **$394.95**

CG-100D / DSP

data

The CG-100D is an SDI overlay-based character generator that brings broadcast quality work within reach for those working on a tight budget. The foundation of the system is DataVideo's DeckLink card, which acts as a downstream keyer connected to the SDI Overlay/Graphics input on the SE-500 switcher. This software allows you to pre-compose pages before going live.

LISTEC VIDEO
Spectra-Lite Flat Panel LCD Teleprompter

This versatile and dependable 15" monitor with wide-angle mirror/hood assembly is designed for use with portable-style cameras with an ENG lens, to be used in studio environments. Optional accessories include a sliding counterbalance, riser, and case.

#LIST2015CCDW **$3,619.95**

EZPROMPT / SCRIPT Q
MIRROR IMAGE
Teleprompter Software

These intuitive, easy-to-use teleprompter programs make management of your text and scripts a breeze. Both will run equally well on laptop and desktop computers.

EZPrompt for Windows XP or most earlier versions #MIEZPSW **$449.95**
Script Q for Mac OS-X 10.2 or later #MISCRIPTQ **$349.95**

QBOX
QTV
Ethernet/Wireless Prompting Solution

The QBox interface is designed for use with QTV QMaster prompting software and your prompter. QBox stores a copy of the current running order or script. If the control PC crashes or connection is lost, the QBox continues to scroll the script at the same speed. Control the QBox locally or remotely.

#QTQBPI **$1,583.50**

FS-150MP / FS-160
MIRROR IMAGE
Free Standing Prompters

No need to purchase a heavier duty tripod to support these prompters. Just slide your existing camera/tripod configuration behind and into the fabric hood and start prompting. Systems include a stand, LCD monitor, glass beam splitter, housing, EZ Prompt software, VGA cable and mouse controller.

FS-150MP Input XVGA (300 NTS) #MIFS150MP **$2,199.95**
FS-160 Input XVGA/NTSC/S-Video (450 NTS) #MIFS160 ..... **$3,624.95**

LC-160 / 160HB / OS-160
MIRROR IMAGE
15" LCD Pro Series

This series is extremely lightweight and requires no counterweight. All LC models feature a fold-down mirror and hood design and include removable side panels for hood. Accepts SVGA computer and composite video PAL or NTSC. Powered by 110/220 volts AC or 12 volts DC.

LC-160 450 NTS #MILC160 ..... **$3,499.95**
160HB Hi-Bright (200–1800 NTS) #MILC160HB **$4,649.95**
OS-160 Outsider (200–1800 NTS) #MIOS160LCD **$4,679.95**

Z-PRO SERIES
LISTEC VIDEO
LCD Teleprompters

The Mini Z-PRO LCD system mounts the prompter and camera over the balance point of the tripod's pan head, eliminating the need for a large balance plate and counterbalance weight. The LCD displays are available in 13" or 15" (diagonal), with the choice of either a fold-down panel/soft hood or standard-size panel/studio hood.

The 15" display unit features height adjustments at 3", 4", and 5", as well as an offset mounting platform. The display itself features a text-reversal menu command and superb brightness and contrast.

Bundle the Listec A-6000WIN prompter software for a complete prompting system.

- NTSC/PAL/SECAM, 110–240VAC 50/60Hz

(P=fold-down panel S=studio hood)

#LIMZ1013S 13" with studio hood **$3,089.95**
#LIMZ1015P 15" with fold-down panel **$3,349.95**
#LIMZ1015S 15" with studio hood **$3,748.95**

RISE & FALL ROBOTIC STAND
autoscript
Motorized Robotic Teleprompter Stand

Offering the ability to adjust its height automatically, this motorized robotic teleprompter stand is ideal for studio or location productions such as awards shows, conferences and presentations. Made of chrome, it features a special high-brightness backlight, built-in cue light and controls for color, brightness and contrast.

- Height range: 51.4"–82.9" • Data control via BNC 75ohm cable

#AUMRFST15HB **$8,194.95**

QNXT SERIES
QTV
QNxt Teleprompter Software

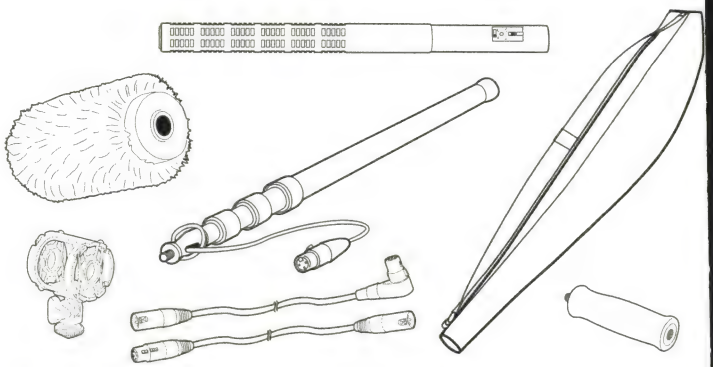

QStart: supports prompting and editing of single scripts
QPro: full script edit suite, closed captioning, conference system and PowerPoint integration, on-screen preview of prompter output
QMaster: fully featured for cutting-edge, live-broadcast environments

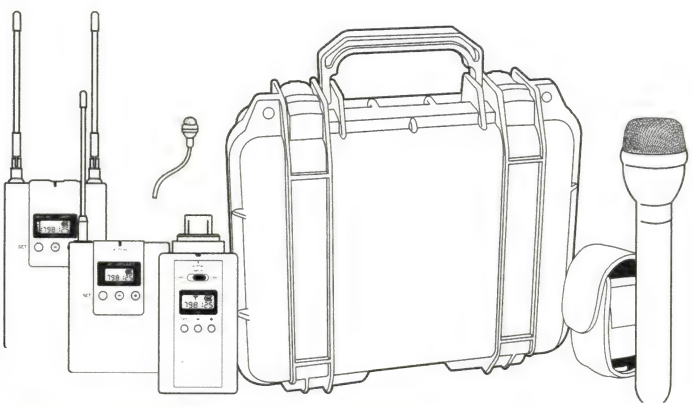

#QTQSP QStart software **$399.95**
#QTQPP QPro software **$1,099.95**
#QTQMP QMaster software **$3,349.95**

SHOTGUN MIC KITS
(Basic & Deluxe)

B&H shotgun microphone kits give you all the gear you need to get the job done. We have put together several well thought out combinations that center around some of our most popular and effective shotgun models. Our basic level shotguns offer great performance for the dollar, and feature lightweight yet durable construction. Deluxe kit mics are characterized by the increased rich and open sound quality you might expect from an upper-level model, with even higher component standards. Because of their sensitivity to wind and handling noise, each kit contains a camera-mountable suspension shock mount to provide isolation from inadvertent shocks, and a high-quality wind cover to provide effective wind protection on outdoor shoots. Also provided is a pistol grip, which is great for close handheld applications, light packing, or for those times where a pole is just too obtrusive. For those occasions where optimal reach is desired, basic kits provide easy-handling aluminum boompoles, while deluxe kits come with even lighter carbon fiber models. 20-ft. and 1.5-ft. cables round out the systems with the deluxe kit 1.5-ft. cables being coiled.

WIRELESS ENG KITS
(Basic & Deluxe)

A dependable wireless microphone system is a must-have in any Audio For Video sound kit. The ability to capture your subject without the use of cumbersome cables provides freedom of movement, and at times may be the only alternative you may have in a given situation. Our Wireless ENG Kits are designed to get you working right away while leaving room to expand as your needs grow. We start with some of our most popular multi-channel UHF wireless lavalier systems, that have proven to be solid performers in the areas of sound quality and reliability. When a lavalier is a less than optimum option, you can make use of the provided plug-in transmitter to connect to a shotgun, handheld, or other microphone as well as a line level signal source in some cases. A professional omnidirectional handheld mic is also included, along with a waterproof carrying case, packed with foam inserts. Deluxe kits feature the added benefit of an upgraded broadcast quality lavalier microphone, which is the ultimate way to improve the sound quality of a standard system.

VIRELESS ENG DUAL KITS

Basic & Deluxe)

or those occasions where one mic may not be hough, B&H offers both basic and deluxe Dual Vireless ENG microphone kits. These make it easier an ever to conduct two-person interviews or cover ultiple subjects by simply reconfiguring the supplied ystem components. At the heart of each kit is either a ombination of two complete wireless lavalier systems ith independent receivers, or a system that will include single dual-channel receiver. A single dual-channel eceiver can streamline your setup by offering one onsolidated receiver package for easy mounting. wo separate receivers allow placement in different ocations, like on two different cameras for instance. hese kits also include a professional omnidirectional andheld microphone and plug-in transmitter for even nore versatility, as well a waterproof carrying case acked with foam inserts. The deluxe kits feature pgraded lavalier microphones for improved sonic erformance.

MIXER KITS

(Basic & Deluxe)

If you have started to make use of several microphones or audio sources on your shoots, acquiring a portable mixer could be your next wise investment. A mixer can bring new parameters of control to your productions by allowing you to match and monitor your levels in a more precise manner. You will also be able to increase the total number of inputs that simultaneously feed your camera or recording device, which greatly expands your coverage by combining a variety of sound sources. Improved metering, XLR connections, and phantom power are but a few of the advantages that a mixer can provide, with some models even offering selectable limiters to guard against sudden volume overloads. Get started with a B&H Basic Mixer Kit, which will give you a compact portable field mixer along with a pair of professional headphones to properly monitor all of you signals and help you keep things trimmed. If you are looking for a more advanced alternative, our Deluxe Mixer Kits will come with a professional production mixer bag and wearable harness, as well as a breakaway cable for a direct link to the camera or recorder.

audio-technica. 1800 Series Wireless

Single and Dual Channel Wireless Systems

The 1800 Series wireless microphone components are both flexible and easy to use with automatic scanning of 996 UHF frequencies. These systems feature durable metal construction and operate with True Diversity technology for resistance to multi-path interference and dropouts. Each transmitter and receiver has its own battery fuel-level indicator that is easily visible in their backlit displays, along with frequency and setup information. All pieces use readily available AA batteries and incorporate soft-touch controls for easy navigation.

ATW-R1810 - Portable Single-Channel Diversity Receiver
• Detachable antennas • Balanced output • Tone Lock squelch • Headphone monitor output with independent level control #AUATWR1810D **$359.00**

ATW-R1820 - Portable Dual-Channel Diversity Receiver
• Allows simultaneous operation of two microphones • (2) Separate balanced output jacks
• External DC power input • Independent diversity indicators for each channel
• Single mode extends battery life with one mic #AUATWR1820D **$999.00**

ATW-T1801 - Portable Beltpack Transmitter
• High/low power output selection • Power/mute indicator • Mounts facing either up or down
• Protective sliding control cover #AUATWT1801D **$249.00**

ATW-T1802 - Plug-in Transmitter
• Locking collar and protective control cover • Mic/line input selection
• Provides phantom power for condenser microphones #AUATWT1802D **$249.00**
#PEUPOH Universal plug-in transmitter holster case **$29.95**

SONY UWP-V1 / UWP-V6

Camera Mount UHF Wireless Systems

Sony's updated UWP centers around an all new metal chassis design for durability, and extended operating times for enhanced performance. An even more compact design now offers auto channel scanning and space diversity reception to help minimize reception interruptions. The system also offers backlit displays and 188 user selectable frequencies.

UTXB2V - Bodypack Transmitter
• 5 mW or 30 mW output • 8 hrs operation #SOUTXB2V* ..... **CALL**

UTXP1 - Plug-on Transmitter
• Mic/line input switch • AA size battery operation • 50 mW output • 6 hrs operation

AZDEN UHF Wireless

105 SERIES
105 LT System

The Azden 105LT is a small on-camera UHF wireless system that offers 92 user-selectable channels with diversity performance. This system is available as the 105LT lavalier set and the 105LTH which comes with the 105UPR receiver, a 15HT handheld transmitter/mic and a 15BT bodypack transmitter with lavalier mic.

• Camera mount 92-channel UHF wireless system
• Optional ROC-LM output cable provides XLR connectivity
• 15HT features low-noise coating • 105UPR and 15BT battery life is 6-8 hours, 15HT is 8-10 hours

Lavalier system #AZ105LT **$339.95**
Combo system #AZ105LTH **$489.95**
Optional 1/8" to XLR output cable #PEROCLM **$29.95**

305 SERIES
UHF Camera Mount Wireless System

The Azden 305-Series Wireless Microphone System is designed for camera mount applications. This system features 188 selectable UHF frequencies, intuitive digital displays, and dual 1/8" outputs on the receiver for main and headphone monitoring. The components operate on two AA alkaline batteries.

• 240 UHF user-selectable frequencies (794-806MHz)
• LCD displays frequency and settings menus
• Powers via (2) AA batteries (6-8 hours)
• EX-503 lavalier mic with locking connector
• Camera shoe mount, mini and XLR output cable

305LT Compact Wireless Lavalier System
#AZ305LT **$399.00**

325 SERIES
Dual-Channel Wireless Microphone System

The Azden 320 Series Dual Channel Wireless Microphone System is available in several configurations to suit any audio situation.

• Dual-plug XLR and stereo mini output cable
• Features compact and lightweight design
• 240 user-selectable frequencies per channel
• Digital display for programming and battery strength

ULX Includes (1) 320 UPR Dual Receiver, (1) 30XT Plug-in Transmitter, (1) 30BT Body-pack Transmitter and (1) EX503 Lavalier
#AZ325ULX **$799.95**

ULT Includes (1) 320 UPR Dual Receiver and (2) 30BT Body-pack Transmitters with (2) EX503 Lavalier Microphones
#AZ325ULT **$799.95**

1200 SERIES
Dual-Channel Wireless Microphone System

The sleek top of-the-line1200 series, featuring the 1200URX receiver,1200BT bodypack transmitter and 1200XT plug-on transmitter, delivers performance and features usually associated with systems costing thousands more.

• The 9.9 oz. 1200URX Receiver features true diversity electronics in conjunction with removable twin high-gain antennas and Azden's proprietary DLC (Diversity Logic Control) circuitry for superior, noise-free reception.
• Balanced XLR mic/line output and low noise circuitry ensure low noise and high audio gain on output.
• Comprehensive, multi-function LCD display provides frequency and channel information as well as battery and antenna status.
• Available in three configurations (Slot-in, V-Mount and Gold-Mount receiver)

VOICE TECHNOLOGIES VT500, VT506
Miniature Lavalier Microphones

- **VT 500** Flat frequency omnidirectional
- **VT 506** 6dB rising frequency omnidirectional
- Ultra-rugged design
- Connector options include: TA4F, TA5 or EW
- Includes: 5 clips, windscreen, and waterproof VTO box
- Integral noise filter • Provides excellent isolation

VT500 with TA5 connector #VT0012 or #VOVT0099 ..... **$230.00**
VT500 with EW connector #VT0015 ..... **$234.00**
VT506 with TA5 connector #VT0035 or #VT0102 ..... **$230.00**
VT506 with EW connector #VT0038 ..... **$234.00**

COS-11D
Lavalier Microphone

The SANKEN COS-11's ultra-small design and superior sonic characteristics make it the lavalier microphone of choice for TV news and other critical broadcast applications. Available hard-wired or pre-wired with a TA5F connector for use with Lectrosonics wireless systems.

- Ultra-linear, omnidirectional pattern • Moisture-resistant
- Frequency response 50HZ - 20kHz • Max SPL 136dB

Hard-wired with XLR #SACOS11DBPB **$449.00**
Pre-Wired with TA5F connector #SACOS11DPTT5 ..... **$359.95**

B3
Miniature Lavalier Microphone

The B3 is a very small, round, omnidirectional electret microphone. Only .23 inch (5.8mm) in diameter, the B3 features replaceable protective caps that can change its color and frequency response to match your application. It is highly resistant to moisture, makeup, and other hazards found in a production environment.

- Slim, unobtrusive design
- Includes pouch, tie clip, and wind screen
- 20Hz to 20kHz frequency response

EMW
Lavalier Microphone

The Countryman EMW is moisture resistant and has a 20Hz to 20kHz frequency response, giving it a rich detailed sound which allows it to be used in a variety of applications. In addition, it is available in flat, shelved, and peaked frequency response curves enabling use under clothing or for instrument capturing.

- Low handling noise
- Best choice for hiding under clothing
- 130dB SPL handling

B6
Sub-Miniature Lavalier Microphone

Only one-tenth of an inch (2.5 mm) in diameter, the B6 features a protective cap that can be used to change its color and frequency response to match your application. The outer screen in the B6's replaceable cap stops makeup and sweat before they enter the mic element. If it clogs, you can simply remove the cap for cleaning or replacement.

- Ultra-miniature size • Highly moisture resistant
- Production-quality performance

Please refer to www.bhphotovideo.com/countryman for a complete listing of all Countryman mics

AT-899
Subminiature Lavalier Condenser Mic

- Designed to deliver high sonic performance in a low-profile, easily concealable package
- Ideal for interviews, documentary, film, theater, and stage applications
- Maximum intelligibility and low noise
- Miniature low-profile design • Omnidirectional polar pattern
- Supplied with a large array of accessories
- Available hard-wired or pre-wired with Sennheiser, Lectrosonics, Shure and Audio Technica connectors
- Frequency response 20 Hz to 20 kHz • Max SPL 116dB

#AUAT899 ..... **$199.95**
AT-898 Cardioid version #AUAT898 ..... **$239.95**

TR-50
Omnidirectional Lavalier Microphone

- Mini-electret condenser with minimum sound coloration
- Includes windscreen, tie clip, tie tac, vampire mic, and cable clip
- Also available with the TR79 power supply, which has an XLR output connector, and which can be powered externally or via an internal battery

Sennheiser EW wireless #TRTR50BSETP **$229.95**
Switchcraft TA5F connector #TRTR50BMLP **$229.95**

TR79 hardwired power supply #TRTR50BPS **$314.95**
Power supply for Sennheiser EW wireless #TRTR79SETP **$169.95**
Power supply with Switchcraft TA5M connector #TRTR79MLP **$167.95**

ECM-88BC, ECM-88B
Ultra-Miniature Lavalier Microphone

The ultra-miniature ECM88 provides a flat, wide frequency response (20Hz to 20kHz) resulting in natural sound reproduction, capturing in great detail.

- Omnidirectional polar pattern
- Ultra-low handling noise
- Water-resistant design

ECM-88BC with 4-pin Hirose Connector #SOECM88BC **$349.95**
ECM-88B with DC-78 Power Supply & XLR Output Connector #SOECM88B **$510.00**

ECM-77B
Miniature Lavalier Microphone

One of the most popular omnidirectional lavalier microphones, it features a miniature design for inconspicuous use, and a wide frequency response to reproduce audio accurately from a wide variety of sources.

- Phantom power or AA battery operation
- Frequency response 40 Hz – 20 kHz
- Includes pouch, windscreen, and clip
- Widely used in radio, television, and broadcast

#SOECM77B **$395.00**

ECM-44B
Lavalier Microphone

The ECM-44B makes the exceptional quality of Sony's electret condenser microphones available for budget-conscious productions, and a variety of sound reinforcement requirements, such as lectures and demonstrations.

- Frequency response 20 Hz to 20 kHz
- Maximum SPL 120 dB • Excellent cost/performance ratio
- Includes pouch, clip, and windscreen

#SOECM44B **$200.00**

JIMMY BOX
Wireless Receiver Holder w/Support Handle

- Wireless audio receiver camera mount designed to work with compact professional digital video cameras
- Mounts under the camcorder, allowing connection to tripods and shoulder braces
- Soft Velcro interior protects wireless receiver
- Support arm keeps the camera stable

Large #JIWRBL **$179.95**
Standard Wireless Receiver #JIWRB **$159.95**

BRACKETS
Wireless Mounting System

Mounting boxes attach to any camera with the Sony screw configuration that is most commonly found on the NP/1 battery holder and the IDX NP/1 battery system, as well as a variety of other systems using optional side plates or brackets. A felt lining protects receivers from the bangs and bumps of everyday use. Includes all mounting screws.

UCR-201

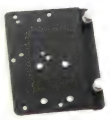

Side Plate For Anton Bauer Gold Mount
- Mounts with 2 thumb screws to the Anton Bauer Gold Mount system
- Allows a BEC receiver holder to be mounted high or low

#BEABSPU **$44.95**

EW Series

Right Angle Bracket for Mounting 2 Side Plates
The BEC Right Angle Attachment can be used for a second plate to be mounted behind the battery. #BERAA **$19.95**

NT5

RØDE

Small-Diaphragm Matched Pair

The NT5 (matched pair) are a set of small-diaphragm cardioid condenser microphones designed for single or stereo X/Y miking. Great for location sound, spot miking, and stereo ambience recordings.

- Cardioid pickup pattern
- 2 externally polarized, pressure-gradient condensers
- Gold-sputtered capsule
- Heavy-duty, satin nickel-plated body
- Frequency response: 20Hz to 20kHz

Includes: Dual wind screens, stand mounts, durable road case

#RONT5 ..... **$429.00**

NT4

RØDE

Stereo Condenser Microphone

The Røde NT4 is a fixed, 90-degree X/Y configuration stereo microphone designed for both professional studio and location recording applications.

- Phantom or 9V battery powered • 143dB SPL
- Frequency response: 20Hz to 20kHz
- Custom mini-stereo jack and XLR cables included

Includes: Custom case, shock mount, windshield, and stand mount

#RONT4 ..... **$529.00**

CAXSTE25 5-pin stereo XLR female to 2 XLR male Y cable (25 ft.) #RECAXSTE25 ..... **$75.00**

Rycote Windshield Kit 4 #RYWSK4 ..... **$629.00**

SASSP-MKII

crown

Stereo PZM Microphone

The Crown SASS-P MKII is a stereo PZM microphone designed for electronic news gathering, crowd, ambience, theater, and sound-effect recording applications. Its capsules are spaced to human head-sized dimensions, providing an accurate stereo perspective of human hearing.

- Stereo Ambient Sampling System
- Frequency response 20Hz to 18kHz
- Powers via phantom power or (2) 9V batteries

Includes: Hand grip, windscreen, carrying case, thread adapter

#CRSASSPMK2 ..... **CALL**

BP4025

audio-technica

X/Y Stereo Microphone

Capture ambiance, live performances and any audio source with accurate stereo imaging and detailed frequency response. The capsule features two condenser capsules mounted in an X/Y configuration. Its innovative coincident capsule configuration produces accurate stereo image in a smaller housing.

- Terminates to a 5-pin XLR output, and the supplied cable provides dual 3-pin XLR connectors.
- Requires 11-52V phantom power.
- Includes the 5-pin to dual 3-pin XLR cable, stand adapter, windscreen and protective pouch.

#AUBP4025 ..... **$599.00**

AT8022

audio-technica

X/Y Stereo Microphone

Capture ambiance, live performances and any audio source with accurate stereo imaging and detailed frequency response.

- Powered with external phantom power or a 1.5V AA battery
- The capsule features two condenser capsules mounted in an X/Y configuration to produce accurate stereo image.
- 5-pin XLR output connector.
- Includes dual 3-pin XLR and single 1/8" (1.5mm) stereo mini cables, stand adapter, windscreen and protective pouch.

#AUAT8022 ..... **$399.00**

MKH-418 S

SENNHEISER

S Stereo Shotgun Microphone

The MKH 418 S is an M-S stereo shotgun microphone using Sennheiser's exclusive RF condenser technology. It is ideally suited for film, radio, television, and reporting applications.

- Polar Pattern: -M Supercardioid/lobar, S: Figure 8
- 130dB SPL
- Frequency response: 40 to 20,000 Hz

#SEMKH418S **$1,659.95**

CAXSTE25 5-pin stereo XLR female to 2 XLR male Y cable (25 ft.) #RECAXSTE25 ..... **$75.00**

Stereo Shotgun Microphone

The CSS-5 is an easy-to-operate stereo mic with a unique design that utilizes an array of five directional condenser elements, offering three distinct operation modes.

- Ideal for film, video, and broadcast applications
- 3 switchable modes: Normal, Mono, Wide
- Frequency response: 20Hz to 20kHz

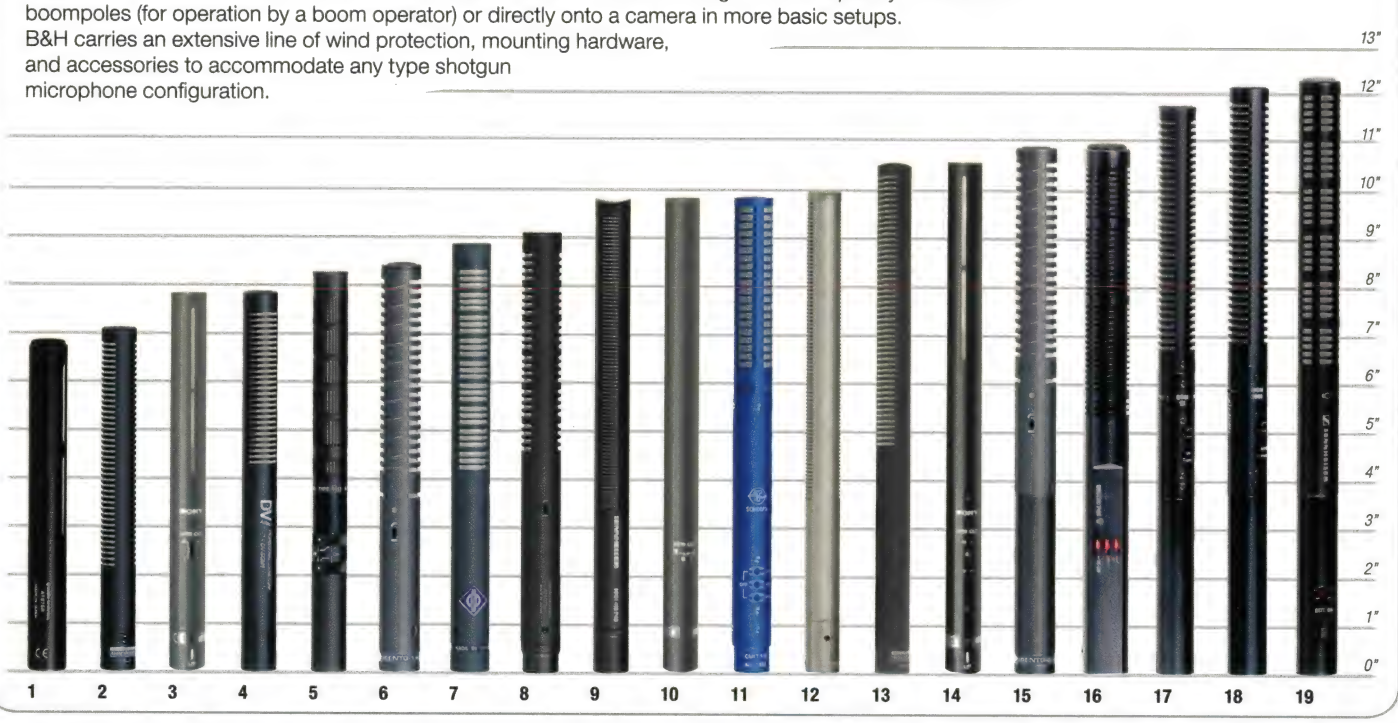

#SACSS5 ..... **$2,075.00**

CAXSTE25 5-pin stereo XLR female to 2 XLR male Y cable (25 ft.) #RECAXSTE25 ..... **$75.00**

CAXSTE 5P XLR/F to 2 XLR/M Y-Cable 18" #RECAXSTE **$40.00**

SHOTGUN MICROPHONES

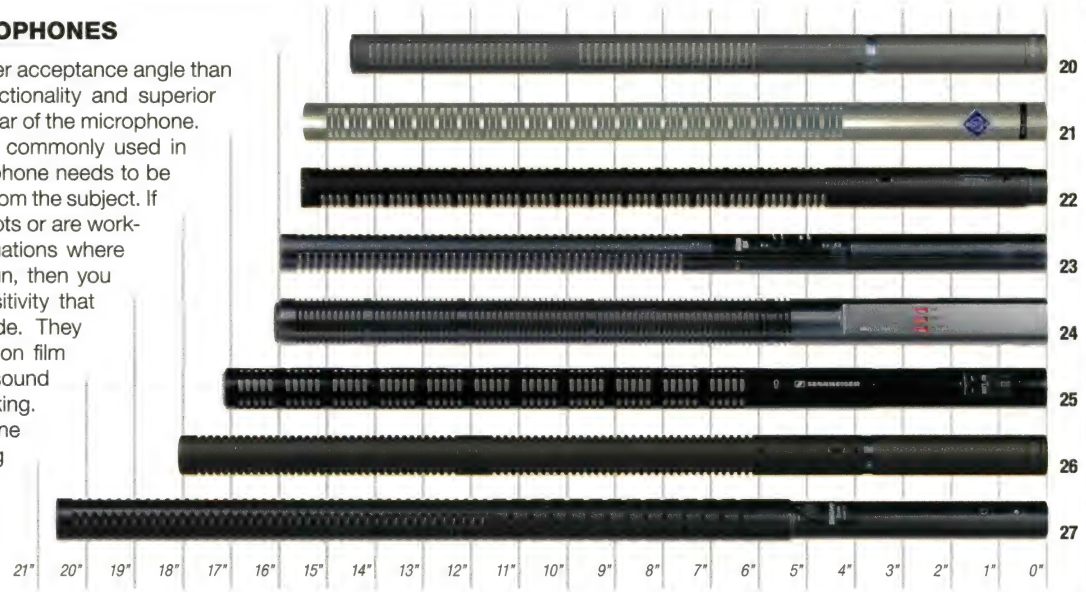

are characterized by a long, narrow tube design, not unlike the barrel of a shotgun. These highly directional microphones are commonly used for ENG, broadcast, and location sound applications. They provide a narrower angle of acceptance that solates the subject's sound from unwanted "off-axis" ambient sound. Shotguns are frequently mounted on boompoles (for operation by a boom operator) or directly onto a camera in more basic setups. B&H carries an extensive line of wind protection, mounting hardware, and accessories to accommodate any type shotgun microphone configuration.

LONG SHOTGUN MICROPHONES

are characterized by a narrower acceptance angle than standard shotguns, high directionality and superior rejection from the sides and rear of the microphone. These types of shotguns are commonly used in applications where the microphone needs to be located at a greater distance from the subject. If you are filming wider angle shots or are working in news or broadcast situations where interviews are done on the run, then you will appreciate the extra sensitivity that a longer shotgun can provide. They are a great solution for location film and TV production, theater sound reinforcement and spot miking. B&H carries an extensive line of wind protection, mounting hardware, and accessories to accommodate any type of long shotgun microphone configuration.

AT8415 / AT8415 DELUXE
audio-technica
Shock Mount

- Lightweight, low-profile design
- Deluxe version features Suspenders that are made from a special polymer and are designed to be very high-quality replacements for the standard rubber bands
- Will fit 19-25mm diameter microphones

Deluxe Low-Profile Shock Mount #AUAT8415D **$64.95**
Low-Profile Univ Shock Mount #AUAT8415 ..... **$49.95**
Repl Bands (4) for AT8415 Shock Mount
#AUAT8415RBS **$5.99**
Camera Shoe Mount Adapter #AUAT8469 ..... **$9.95**

RODE BLIMP
RØDE

Professional, adjustable windscreen and shockmount solution for popular shotgun microphones measuring up to 12.79" (325mm) in length. Comprised of a professional pistol-grip with dual hoop suspension mounts that may be adjusted anywhere on the support bar. A short XLR cable at the base of the grip connects to the microphone. The blimp windshield basket cradles the suspension mounts, and a fur windscreen covers the entire windshield basket. Designed for handheld operation, a 3/8" thread at the base allows it to be boom mounted as well.

#ROBLIMP **$249.00**

DUSM-1
PEARSTONE
Suspension Shock Mount

The DUSM-1 universal shock mount features soft silicone suspenders and a quick-release tilt mechanism. It is 3/8"-16 threaded for use with a boompole and includes a camera hot shoe adapter.

- 4-way rubber suspension system
- Rubberized locking adjustment knob
- Lightweight and low profile

#PEDUSM1 ..... **$49.95**

INVISION VIDEO
Rycote
Hot Shoe Adapter

- Patented "Lyre" technology provides excellent vibration isolation against handling and camera motor noise.
- Hold shotgun microphones from 19 to 25 mm in diameter and up to 300 mm in length, including the slab sided Sennheiser MKH range.
- A "Soft feel" grip is molded into the clip, to prevent the microphone twisting or slipping.
- Mount can be rotated 360° around the mounting point and slid in and out allowing the microphone to be positioned in the optimum place on the camera.

#RYIVSMSF **$79.00**

WS6 / WS7
RØDE
Deluxe Windshields

These open cell foam and fur sleeve windshields are designed to reduce wind noise when recording in adverse environmental conditions.

- WS6 max slot length 6 1/4" and a diameter of 21-22.5mm
- WS7 max slot length 7 1/4" and a diameter of 19-20mm

#ROWS6 ..... **CALL** #ROWS7 ..... **$99.00**

ROCS
sanken

This 10-pack of Sanken Microphone rubber o-rings expands a shotgun's diameter, allowing it to fit into larger camera clamp mounts (eg. PD-170, etc.) #SAROCS **$20.00**

SHOTGUN WINDSCREENS

SG Series **-** High-quality replacement windscreens for shotgun mics. Made from acoustical hypo-allergenic SonicFoam. It is washable, long lasting, and keeps its original shape.

SG-1 For mics up to a .75" diameter x 7.5" long (Audio Technica 4073a, Neumann KMR81I, Sennheiser MKH416, ME66) #WISG1 ..... **$27.50**
SG-2 For mics up to a .75" diameter x 11.5" long (Audio Technica 4071a, 835b Neumann KMR82I, Sennheiser ME67, ME80) #WISG2 ..... **$34.95**
SG-60 For mics up to a 1" diameter x 6" long Sennheiser MKH-60, Sony ECM-672 #WISG60 ..... **$27.50**
SG-70 For mics up to a 1" diameter x 11.25" length (Sennheiser MKH-70) #WISG70 ..... **$34.95**
SG-200 For mics up to a 1" diameter x 4.75" long (most on-camera shotgun microphones) #WISG200 ..... **$22.95**

SOFTIE WINDSHIELDS
Rycote

- Softie windshield and shock mount designed to offer wind attenuation comparable to a standard Rycote windshield
- The Softie windshield consists of an acoustic foam base covered with a specially designed synthetic fur
- Shock mount has its own bracket and can be used as a pistol grip or boom-mounted
- Available in 12, 18, 24, 29 and 32 cm lengths, with three diameters to fit most popular mics

#RYSPGK* ..... **CALL**

S-SERIES WINDSHIELDS
Rycote

The S-series features a new suspension concept, new materials and new windshield construction, yet retains all the renowned Rycote features of flexibility, balance, and professional performance. These Windshields are lightweight, economical, and are designed for dependability.

Fits 8" to 10" long microphones #RYSS300 ..... **$349.00**
Fits 10" to 11" long microphones #RYSS330 ..... **$359.00**
Fits 11" to 13" long microphones #RYSS375 ..... **$369.00**
Fits 14" to 16" long microphones #RYSS450 ..... **$379.00**

BLIMP SYSTEM
Rycote

The blimp system is available in 8 sizes and consists of three components, resulting in the best shock isolation and wind protection.

Modular suspension
- Lightweight suspension with a high-precision modular frame
- Includes pistol grip and boom adapter

Windshield
- 25dB exterior wind attenuation • Slide-on/slide-off system for easy removal of mic and suspension • Lightweight & durable

Windjammers
- Provides an extra 10-12dB protection over a standard windshield • Specially designed materials

All versions available, call for details and pricing

HOT SHOE EXTENDER
Rycote

The Hot Shoe Extension allows you to fit multiple attachments to your single hot shoe on your camera/camcorder.

The Hot Shoe Extension allows you to rotate the attachment 360° around the shoe fixture on the camera.

10 cm length #RYHSE **$24.95**
20 cm length #RYHSEL **$59.95**
40 cm length #RYHSEXL **$64.95**

INVISION SERIES
Rycote
Microphone Suspension Systems

These 70mm wide "lyre" suspension systems offer great stability and isolation when used on either a boompole or static stand. They are virtually indestructible and will support a wide range of shotgun and small to medium diaphragm mics.

- INV-4, INV-5, and INV-6 fit on a standard bar and can be easily tightened with a star knob
- INV-7 and INV-8 fit on a long bar for mics that require even more support

#RYINV* **$69.00**

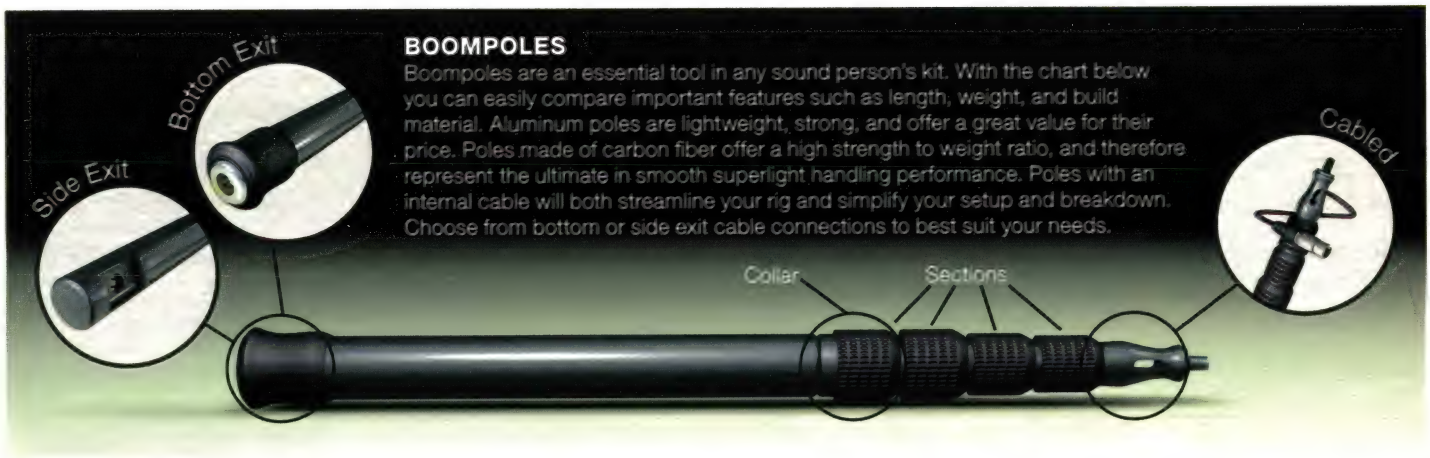

SOFTI-CASE
Windshield/Windjammer Hard Cases

These blimp cases are an excellent way to protect your valued high level wind protection from the wear and tear between jobs or when traveling. Extra storage space leaves room for XLR pigtails, spare suspension clips, and more.

- Rigid ABS plastic tube case
- Locking draw latch closure

#AL300* ..... **CALL**

BOOMPOLES

Boompoles are an essential tool in any sound person's kit. With the chart below you can easily compare important features such as length, weight, and build material. Aluminum poles are lightweight, strong, and offer a great value for their price. Poles made of carbon fiber offer a high strength to weight ratio, and therefore represent the ultimate in smooth superlight handling performance. Poles with an internal cable will both streamline your rig and simplify your setup and breakdown. Choose from bottom or side exit cable connections to best suit your needs.

RE-50 B & RE50N/DB
Omnidirectional Dynamic ENG Microphones

Electro-Voice

This industry standard news gathering microphone continues its legacy as a top professional choice.

- Omnidirectional element with handling isolation
- 80Hz to 13kHz frequency response • Nearly indestructible and weather resistant
- Includes stand adapter, pouch and hard-shell case

#ELRE50B **$139.95**
RE50N/DB adds higher output neodymium element #ELRE50NDB **$179.95**
379 windscreen for RE-50 &RE-50N/B (charcoal) #EL3791 ..... **$19.95**
Fat-Cat Outdoor windscreen #REFATCAT **$68.00**

RE-16
Dynamic Supercardioid Microphone

Electro-Voice

The Electro-Voice RE16 is a dynamic supercardioid microphone designed to meet the exacting demands of professional broadcast use. It features a unique blast filter and exclusive non-metallic diaphragm.

- Dynamic supercardioid microphone
- 80Hz to 15kHz frequency response
- Superior noise rejection
- Bass-tilt switch

#ELRE16 ..... **CALL**

4104B
Commentator's Lip Microphone

Coles

The Coles 4104B ribbon microphone has emerged as an indispensable tool in mobile news satellite units because of its unique noise-canceling characteristics.

- Cardioid polar pattern
- 60Hz to 12kHz frequency response
- Special lip-positioning bar
- Low-frequency roll-off
- Removable plastic hygiene shield

#C04104B **$859.95**
Plastic hygiene protection screens for 4104B microphone #C04104HS **$39.95**

VP 64A
Omnidirectional ENG Microphone

SHURE

The VP64A is an omnidirectional handheld dynamic microphone designed for professional audio and video production. Its Neodymium element, internal rubber isolation, and tailored frequency response delivers high-level, low-noise audio with greater speech clarity and articulation. Ideal for indoor/outdoor news gathering and sports broadcast.

- Omnidirectional polar pattern
- 50Hz to 12kHz frequency response with presence boost
- Neodymium magnet for increased output
- Internal rubber shock mount for reduced handling noise • Water-resistant grille

#SHVP64A **$77.95**

SM63 & SM63L
ENG Mics

SHURE

Compact, lightweight, durable mics with professional sound and appearance. Patented mechanical isolation system for low handling noise.

- Omnidirectional dynamic capsule
- 80 Hz to 20 kHz frequency response tailored for optimal speech intelligibility
- Built-in pop filter
- Available with a 23 cm extended handle

Champagne finish #SHSM63 ..... **$118.95**
Extended handle, champagne finish #SHSM63L **$132.95**
Extended handle, black finish #SHSM63LB **$132.95**

D230
Dynamic ENG Microphone

AKG

The AKG D230 is an omnidirectional, handheld dynamic microphone designed for rough outdoor use — specifically, electronic news gathering.

- Omnidirectional polar pattern eliminates proximity effect
- 40Hz to 20kHz frequency response
- Integral pop filter and internal shock mount
- Very robust metal housing
- Extended length handle to accommodate Station ID flag
- Includes SA44 stand adapter and integral windscreen

#AKD230 ..... **CALL**

AT8004
HH Omni Dynamic Microphone

audio-technica

This sturdy omnidirectional field microphone features a hardened-steel grille and is perfect for interviews and broadcasting.

- Omnidirectional polar pattern
- 80Hz to 16kHz polar pattern
- Internal shock mount
- Long handle model provides extra reach
- Includes stand clamp and protective pouch

#AUAT8004 ..... **$109.95**
AT8004L with Extended Handle #AUAT8004L **$124.95**

M58
Handheld Omnidirectional Interview Microphone

beyerdynamic

Specifically designed to satisfy the demands of electronic news gathering and electronic field production, the M58 is an omnidirectional dynamic microphone that features a rugged, well-balanced design and sophisticated internal shock mount. It's ideal for providing a high degree of comfort during extended interviews, with minimal handling noise and the ability to withstand the physical punishment of field production.

- Omnidirectional pattern with high-output element
- 40Hz to 20kHz frequency response • Durable construction and internal shockmounting
- Comfortable, weight-balanced, slim-profile design

#BEM58 ..... **CALL**

MD 46
Handheld Unidirectional Interview Microphone

SENNHEISER

Capable of isolating a source hidden amongst the noise, the Sennheiser MD 46 is a professional dynamic unidirectional microphone designed to deliver high-level handheld field performance. It produces a clean, open sound with slight high-end presence, without the plosives and proximity effect usually emphasized by unidirectional microphones.

- Dynamic cardioid pickup pattern improves source isolation
- 40Hz to 18kHz frequency response • Long, durable handle with excellent balance
- Internal pop filter especially effective against plosives

#SEMD46 ..... **$174.95**
MD-42 Omnidirectional Version #SEMD42 ..... **$179.95**

Lightweight Ear Set

crown

The Crown CM-311A is an industry standard head-worn electret condenser microphone that powers via phantom power or 9V battery. It utilizes Crown's unique "Differoid" technology, effectively isolating desired vocals from unwanted background noise.

- Behind-the-ear design with fully-adjustable headband
- Electronically controlled bass roll-off
- 48V phantom or 9V battery powered • Frequency response: 50Hz-17kHz • 148dB SPL

#CRCM311A **$259.95**

E6/E6(I)
Ultra-lightweight Headset Microphones

COUNTRYMAN ASSOCIATES, INC

The Countryman E6 & E6(i) are omnidirectional EarSet microphones designed to offer the highest possible sound quality without the bulk or appearance of conventional headsets. These virtually invisible microphones provide a wide frequency response, and are available in a wide variety of colors.

- Clips onto ear easily without making adjustments or interfering with hairstyles • Hard-wired or wireless connectors
- Resistant to makeup and moisture
- Frequency response 50Hz to 20kHz • Max SPL 135dB

Final Cut Studio

Editing Unleashed

Authorized Reseller

Consisting of six tightly-knit programs (Final Cut Pro 7, Motion 4, Soundtrack Pro 3, Color 1.5, Compressor 3.5, and DVD Studio Pro 4) the all new Final Cut Studio suite ensures seamless integration and file sharing. Travel round-trip between programs with ease—from editing, motion graphics and audio mixing, to color grading and final delivery. Begin with familiar tools, and extend your reach when you're ready. Final Cut Studio's tool kit contains a comprehensive solution to meet any expanding post-production need.

Final Cut Pro 7—The hub of an integrated post-production workflow

- Native editing of HDV, XDCAM HD, DVCPRO HD • 150+ real-time filters, and effects
- Apple ProRes codec let you edit faster and at higher quality across a wide variety of workflows. In addition to the original ProRes 422 and ProRes 422 (HQ), the family now includes ProRes 422 (Proxy) for off-line editing; ProRes 422 (LT) for projects that require reduced file sizes at broadcast quality; and ProRes 4444 for compositing and digital workflows that require the highest-possible quality.
- Redesigned Change Speed window lets you make speed changes without rippling the sequence
- Support for iChat Theater gives editors the ability to collaborate with clients in real-time. Output your video to iChat Theater and talk while your client watches the clips with you.

Motion 4—Professional motion graphics and animation

- See results in real-time as you work • 2D/3D multi-plane compositing
- Add reflections and shadows that respond to lights and objects as they pass through the 3D space
- Text and titling tools, including an Adjust Glyph tool that lets you distort a single character.
- 150+ filters and effects • Paint tool animates brush-strokes • 1500+ design elements

Soundtrack Pro 4—Audio post-production

- Nondestructive, multi-channel waveform editing • 5.1 surround sound mixing
- Surround Panner dynamically automates and manipulates surround sound positioning
- Automatic Audio Conform tracks, manages and synchronizes audio changes to match your video edit
- Automatically down-mix from surround to stereo
- 1000+ surround sound effects and music tracks • 50+ audio effects plug-ins

Color 1.5—Professional color grading

- Create consistent color and feel with 35+ professional color effects and 20+ looks
- Preview color grading adjustments at any resolution in real-time
- Chroma key mattes, advanced masking and motion tracking
- RGB resolutions at 4:4:4 with 32-bit float processing

Compressor 3.5—Industrial-strength encoding tool

- Batch processing to SD/HD MPEG-2, H.264, VC-1, WMV, GXF and FLV
- Open a file, publish it to the Web, or send it to your iTunes library.
- Automatically converts source footage to highest quality and optimizes conversion settings for best results • Presets designed for the most common encoding tasks

DVD Studio Pro 4—Powerful DVD authoring

- Create professional DVDs with interactive features • Built-in Dolby Digital Pro Encoder
- Author SD and HD dual-layer (DVD-9) • Simulator tests DVD interactivity and scripting
- Prepare industry compliant projects for commercial replication
- Create motion menus w/ 30+ pre-designed menu templates and transitions

Euphonix MC Control

MC Control offers hands-on control of Final Cut Pro (and other applications) in a slim, portable design. It has host of powerful features to speed up and enhance video and audio editing, including a customizable high-resolution touch-screen interface, jog/shuttle wheel to quickly navigate through projects, and four motorized faders and eight knobs to quickly set audio levels and panning.

- Preprogrammed touch-screen Soft Keys for Final Cut and other media applications
- Soft Key editor to program custom Soft Keys for any function or macro command
- Jog/shuttle/zoom wheel and transport controls • 4 touch-sensitive motorized faders
- 8 touch-sensitive rotary encoders • Control multiple applications & workstations via Ethernet
- Expandable with MC Transport and/or MC Mix units

#EUMCCONTROL **1499.00**

Euphonix MC Transport

MC Transport provides professional, hands-on control and navigation of media applications like Final Cut Pro, Logic Pro, Pro Tools and more. From its ultra-high resolution optical jog wheel and shuttle ring to ergonomic transport controls, programmable Soft Keys and integrated numeric key pad, MC Transport provides you with one-handed access to almost every facet of your project for an unmatched editing experience.

- Weighted, optically encoded jog wheel and shuttle ring
- 7 ergonomic transport/navigation keys with multi-color status LEDs, 6 programmable Soft Keys
- Numeric keypad for time code/marker navigation
- Control multiple applications & workstations via Ethernet
- Expandable with MC Control and/or MC Mix units

BORIS FX Blue 2.5

Real-time 3D and Motion Graphics Solution

Blue 2.5 is a standalone 3D compositor as well as a plug-in for After Effects, Premiere Pro, and Avid editing systems. Designed for editors and compositors who want to create stunning 3D looks without the learning curve and render times associated with 3D applications. Perfect for post facilities, Blue 2.5 uses latest-generation GPU-based graphics cards to provide an interactive effects design experience. Delivers real-time processing of 2D and 3D effects as well as real-time playback of video and audio media. Users can adjust effect parameters during playback, a "front room" capability that is ideal for working side-by-side with clients. The fast export to disk, including hardware-rendered anti-aliasing, motion blur, and 3D shadows, provides significant time-savings.

For Windows *(#BOCB2F)* **264.95**

BORIS FX

Continuum Complete 6

Video Effects Plug-ins

Continuum Complete 6 is an expansive plug-in filter set that lets you create effects from the practical to the inspired directly in your native host interface for unprecedented workflow. Nearly 200 filters include advanced keying, matting, compositing, image processing, distortion, temporal effects and motion tracking. These filters provide the creative freedom to animate your graphical elements or video at any speed, acceleration, or position you want.

- "Digital repair"-style filters such as Smooth Tone, DV Fixer, and Pixel Fixer
- Hundreds of factory-installed animated presets
- Over 1500 factory-installed static presets
- Presets can be modified with a standard text editor
- Volumetric lighting effects and glows
- Specular lighting special effects such as Glint, Glare, Glitter
- Compositing tools such as Light Wrap and Matte Choker
- Natural effect generators such as Snow, Rain, Fire, Stars
- Motion Key for automated foreground object removal
- Film Look effects such as Bleach Bypass, Damaged Film, and Grain Match
- Optical Flow-based image retiming and motion blur effects

For Mac *(#BOCC6AEM)* and Windows *(#BOCC6AEW)* **889.95**

BORIS FX

Final Effects Complete (FEC)

Visual Effects Filters

Final Effects Complete offers a collection of over 100 effects plug-ins for leading nonlinear editing and compositing solutions. Ranging from graceful blurs and edges to radical warps and particle generators, FEC dramatically augments your creative arsenal without forcing you to learn a new application. The simplicity of the filters combined with the native host interface, reduces the learning curve to virtually zero. Most filters feature less than a dozen parameters; only a few simple adjustments are required to create totally unique organic effects.

For Mac *(#BOFEC5AEM)* and Windows *(#BOFEC5AEW)* **894.95**

Avid Media Composer • Media Composer Mojo DX

The world's most powerful film and video editing software, Avid Media Composer offers the deepest editing tool set in the business, complemented by a full range of workflow-enhancing graphics, effects, encoding, audio generation, and mastering tools. It also features rock-solid media management, file-based workflows and mobile editing capabilities. Native, direct access to the most popular camera formats and resolutions increases productivity and opens to the doors to more clients. On a laptop or a desktop, Media Composer, streamlines the path from file-based footage acquisition, to on-set editing, to full finishing, while preserving every creative decision made along the way. Match shots quickly with the industry-standard Avid color correction toolset. Work in high-quality HD with Avid DNxHD 36. And push the envelope with Spectra-Matte keying, Fluid Motion time effects, Boris Continuum Complete, Avid FX and a wide range of third-party AVX2 plug-ins.

Media Composer Mojo DX combines Media Composer with Avid Mojo DX hardware. The Mojo DX architecture tightly connects the host workstation and PCI Express I/O hardware into a single high-bandwidth, high-performance effects engine. The architecture is optimized for highly responsive real-time editing using the latest generation of HD codecs, including HDV, XDCAM-HD, DVCPRO HD, AVC-I, and Avid DNxHD.

- Multi-format open timeline with native, direct access to HDV, XDCAM-HD, XDCAM-EX, DVCPRO HD and AVC-I, Avid DNxHD 36 (the perfect solution for HD offline) and uncompressed 10-bit HD in progressive 720p, 1080p and interlaced formats. No need to transcode, even when mixing codecs.
- Included Sorensen Squeeze and Avid DVD by Sonic (PC only) let you go out to to DVD, Blu-ray, or the Web.
- Extensive family of integrated real-time effects from transitions to 2D & 3D effects, moving mattes, tracking, high quality keys and rampable motion effects
- Intraframe™ editing with paint, AniMatte™, scratch removal, blur and mosaic
- Access P2 and XDCAM-HD/EX files directly from disc or card, with metadata. Edit the media in its native format and play out or write back directly to disk or card.
- Create offline media files from DI sources (R3D, DPX) using MetaFuze® software
- Stereoscopic editing support
- Save time with automatic syncing of audio and video and seamless tracking of timecode, KeyKode, and other metadata.
- Insert the sequence timecode based on project type when exporting the timeline audio tracks as BWF (Broadcast WAV). Provides fast and easy sync reference for downstream process that do not support OMF or AAF such as slave playback devices.

Avid Liquid Pro 7

Avid Liquid Pro 7 is a powerful SD and HD video editor with integrated DVD authoring; surround sound audio processing and 1000s of powerful real-time effects. Liquid's integrated toolset provides all of the tools needed to create the highest quality productions and finish to tape, DVD or web streams. Offers IEEE1394 (for DV and HDV), component, composite and S-Video input and output. Stereo and S/PDIF audio I/O as well as 6-channel surround sound monitoring is available via a simple to set up USB 2.0 connection.

- Frame-accurate editing of HDV content.
- Real-time effects engine provides multiple streams of HDV, video monitoring with Liquid Pro and a smooth workflow for finishing in SD or back to HDV tape.
- Edit DV, MPEG I-frame, MPEG IBP, uncompressed, Windows Media, DIVX and MPEG-4 in SD as well as HDV.
- Edit, create titles and effects and then dive into a DVD authoring toolset that lets users define the interactivity, create menus, add a Dolby Digital 5.1 surround mix and then burn a finished DVD.

Liquid Pro 7 Hardware/Software Bundle *(B&H# AVLP7)* **779.95**

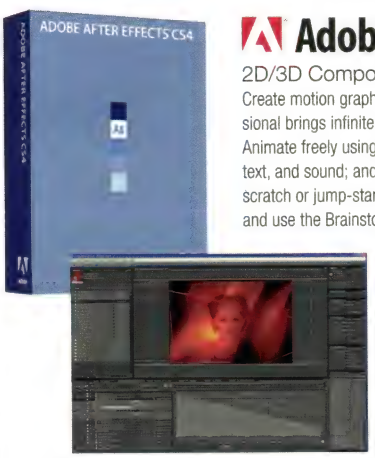

Adobe Premiere Pro CS4

Bundled with Adobe's OnLocation CS4 and Encore CS4, Premiere Pro CS4 is a complete start-to-finish solution for efficient video production and DVD creation. It includes all the great features you expect from NLE software including multiple video and audio tracks, color correction, and native support for digital camcorders. It supports SD, HD, and HDV video formats, and can even export video for use in Flash. Bring new dimensions to your projects efficiently and in real time with precise keyframe controls and features like high-quality slow motion with time remapping. Save time creating dramatic effects and get finer creative control thanks to tight integration with Photoshop CS4 and After Effects CS4 Professional. Quickly and precisely edit footage from multicam shots, and much more. Working with virtually any format, Premiere Pro CS4 efficiently takes you from on-site capture to final delivery without sacrificing the quality and integrity of your footage. Finish and deliver content anywhere, from film and tape to the web, DVD, Blu-ray Disc, and mobile devices.

- Edit video natively in tapeless formats, including RED, AVCHD, P2, XDCAM EX, and XDCAM HD, without transcoding or rewrapping.
- Full support for multicamera editing (up to four simultaneously).
- Choose fast color correction for quick adjustments or secondary color-correction tools for more detailed modifications.
- Adobe Media Encoder allows you to encode video for use on the web. It supports many compression formats, including FLV, F4V, Windows Media, MPEG-2, H.264, and QuickTime.
- OnLocation CS4 turns your computer into a digital video recorder, field monitor, and video signal evaluation processor.

Premiere Pro CS4: For Mac *(B&H# ADPPCS4M)* or Windows *(B&H# ADPPCS4W)* **634.95**

Adobe After Effects CS4 Professional

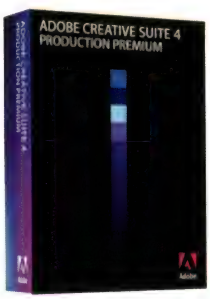

2D/3D Compositing and Animation Software

Create motion graphics for film, video, DVD, the web, and mobile devices. After Effects CS4 Professional brings infinite variety to your creative vision and stunning impact to your communications. Animate freely using Shape Layers and the Puppet tool; combine moving imagery with still images, text, and sound; and manipulate your creations with inexhaustible effects combinations. Work from scratch or jump-start projects quickly with hundreds of customizable animation presets and templates, and use the Brainstorm feature to generate animation variations based on parameters you choose. It features an intuitive interface, enhanced multicore and multiprocessor support, and tight integration with Adobe applications like Photoshop CS4 Extended, Premiere Pro CS4, Illustrator CS4 and more. When your projects reach review, clients and colleagues can make timecode-specific comments using Adobe Clip Notes, streamlining the approval process. Flexible tools let you produce professional output for cutting-edge media types, like FLV and SWF for the web or mobile devices; work with a wide range of file formats from HDV to OpenEXR, H.264, and Camera Raw; and take advantage of additional animation presets available for download via Adobe Exchange.

- Add impressive vector graphics to animations. Build, modify and animate vector shapes that include polygons and stars. Create shape layers using the pen tool.
- The puppet tool can turn almost any 2D image or text field into a dynamic animated layer. Place "joints" within the image, so you can reshape, extend, squish and rotate objects.
- Special visual effects plug-ins let you enhance, stylize and make other changes to any layer of your video.
- Use the Cartoon effect to mimic cel animation and watercolor paintings, or stylize footage for artistic purposes.
- Device emulators will show you exactly what your project will look like on a specific mobile device (mobile phones, PDAs, etc.)

After Effects CS4 Professional: For Mac *(#ADAECS4M)* or Windows *(#ADAECS4W)* **839.00**

Adobe CS4 Production Premium

Maximize your productivity with CS4 Production Premium, the total post-production solution. Achieve creative control with a complete set of professional video and audio post-production tools to take your ideas from storyboarding and acquisition through production and delivery. Capture footage, edit efficiently, apply blockbuster visual effects, create and match compelling audio to your productions. Move smoothly among select components via Adobe Dynamic Link.

Enjoy integration between Photoshop and After Effects to allow for greater animation possibilities. Export from After Effects, Premiere Pro, and Soundbooth with markers converted to cue points for easier project creation in Adobe Flash. Manage media more efficiently than ever with Adobe Bridge, a single, intuitive interface that enables instant previews of video and audio files, batch processing, and image sequence previewing and scrubbing. CS4 Production Premium supports every major file format and lets you deliver your work to virtually any medium, including film, video, DVD, Blu-ray Disc, the web, and mobile devices.

Includes: After Effects CS4 Professional, Premiere Pro CS4, Photoshop CS4 Extended, Illustrator CS4, Flash CS4 Professional, Encore CS4 Soundbooth CS4, and OnLocation CS4. Also included are the components common to CS4 applications. They include Bridge CS4, Version Cue CS4, Device Central CS4, and Dynamic Link.

CS4 Production Premium: For Mac *(#ADPPRCS4M)* or Windows *(#ADPPRCS4W)* **1399.00**

BORIS FX Graffiti 5.3

Broadcast-Quality 2D and 3D Titling Effects

Innovative and user friendly titling tools, Graffiti 5.3 lets you create titles and graphics directly inside your nonlinear editing system without importing and exporting. Easily create sophisticated title animation including type on text, text on a path, jitter and randomization. Create 3D text with bump maps and reflections. An expansive Style Palette and the BORIS Library Browser provide easy access to hundreds of preset effects and styles.

- EPS import and extrusion • Resolution independent vector text
- Advanced type-on title animation • Text on a path
- Automated rolls, crawls, fades, zooms • Gradient generator
- 35 filter effects • 3D user modifiable spline primitive shapes
- 3D shapes such as cylinders, spheres and cubes
- 3D text with textures, reflection mapping, materials and lights
- Audio import with scrubbable waveform

For Mac *(#BOG52M)* and Windows *(#BOG52W)* **274.95**

BORIS FX FX 9.3

Effects, Image Processing, Paint & Rotoscoping

FX 9.3 offers realistic lighting, advanced keying and color correction, compositing, DVE, vector paint and support for third-party After Effects filters. Offers a Library Browser with hundreds of high-quality presets for easy application in over 20 NLEs. Sophisticated vector paint and spline tools allow you to create animatable masks. More than 115 video filters include motion tracking and image stabilization, as well as self-animating natural effects that easily interact with timeline video.

- Unlimited layers of media • Volumetric Lighting Filters
- Oversize image import for pan and scan
- 3D shapes such as Cylinders, Spheres and Cubes
- Gradient and Procedural Media Generator • Motion Blur
- Audio import with scrubbable waveform
- Motion Tracking, Stabilization and Corner Pinning

For Mac *(#BOBFXM900)* and Windows *(#BOBFXW900)* **279.95**

BORIS FX RED 4.3

Titling, Effects and Compositing Software

An integrated 3D compositing, titling, and effects application, RED delivers unparalleled performance to over 20 NLE's. Designed specifically for editors, RED offers an unprecedented range of features and adds a standalone engine for rendering. It integrates 2D and 3D compositing, titling, paint, rotoscoping, a full suite of tools to create and extrude vector objects, 3D creation and animation, and the industry-leading software DVE technology. Save time and money using one interface, in one system.

- 164 video filters • Raster Paint Engine • Subtitle import feature
- OpenGL accelerated effects creation and playback
- Advanced 2D and 3D compositing with unlimited layers
- High quality keying, masking, mattes and Apply Modes
- Motion tracking, corner pinning and image stabilization
- Vector paint and rotoscoping with precise controls
- Over 110 filters including Wire Remover, Film Grain and Match
- Vector text for razor-sharp display at any scale

For Mac *(#BOBR4M)* and Windows *(#BOBR4W)* **894.95**

AJA VIDEO SYSTEMS INC

D-Series Miniature Converters

D10CE SDI to Analog Component and Composite Converter

Provides excellent quality 10-bit conversion of SDI to simultaneous component and composite video. Component outputs are user configurable to Y/Pb/Pr, Betacam, or RGB (or composite Y/C). The composite output is configurable to composite video or sync. Has two re-clocked, loop-thru SDI outputs and all functions are user configurable via external dip switches. Exclusive PLL jitter filter/memory reduces the effects of SDI jitter on the output analog video. *(B&H# AJD10CE)* **499.95**

D10C2 SDI to Analog Component or Composite Converter

Provides excellent-quality 10-bit conversion of SDI to analog component (user configurable to Y/Pb/Pr, Betacam, or RGB) or composite (two composite outputs and an S-Video output) The D10C2 also provides two re-clocked, loop-thru SDI outputs and a composite sync output (component mode). All functions are user configurable via external dip switches. *(B&H# AJD10C2)*..... **443.50**

D10AD Analog Component or Composite to SDI Converter

Provides excellent-quality 10-bit conversion of analog component or composite video to 4 SDI outputs with EDH. The D10AD accepts Y/Pb/Pr, Betacam, or RGB component inputs or composite (NTSC/PAL) and S-Video inputs. 4-Line Adaptive Comb Filter for high-quality decoding of composite sources can be switched to 2 line or notch modes. Video format, AGC mode, color bar generator, and pedestal are user configurable. *(B&H# AJD10AD)*..... **546.95**

D10CEA SDI to Analog Audio and Video Converter

Converts SDI video with embedded audio to 10-bit component or composite video and 4-channel balanced analog audio. Video outputs can be configured as YPbPr, RGB, composite or S-Video. The audio outputs can be wired in a balanced or unbalanced configuration. The 4 audio output channels can be selected as group 1-4 from SMPTE embedded audio. Audio and video output connections are available on a 25-pin "D" subminiature connector – a break-out cable is supplied. Also outputs two re-clocked loop-thru SDI outputs. *(B&H# AJD10CEA)* **546.95**

D5D Analog Composite and S-Video to SDI Converter

Bring video from time-base corrected analog composite equipment into a serial digital environment. The D5D provides low-cost, all digital decoding of analog composite (NTSC/PAL) or S-Video to SDI. Features selectable 2 or 3 line adaptive comb filter as well as a crystal PLL jitter filter/memory to reduce jitter in each of the three SDI outputs. *(B&H# AJD5D)* **509.95**

D5DA 1x4 SDI Distribution Amplifier

The D5DA can be used as a low-cost 1x4, re-clocking SDI DA or repeater. The SDI input is re-clocked and equalized to 300 meters of cable. In addition, it automatically adapts to 143, 177, 270, or 360 Mb SDI inputs. *(B&H# AJD5DA)*..... **212.50**

D5CE SDI to Analog Component or Composite Converter

Digital conversion of SDI to either composite or component analog video. Three analog BNC outputs are user configurable to cover a wide range of format combinations including three composite (NTSC/PAL), one composite and S-Video, YPbPr, Betacam, or RGB. Re-clocked, loop-thru SDI output. *(B&H# AJD5CE)*..... **316.50**

D10A Analog Component to SDI Converter with Separate Sync Input *(B&H# AJD10A)*..... **759.95**

D10C Composite Digital (D2/D3) to Composite Analog, or SDI to Component Converter *(B&H# AJD10C)*..... **648.95**

KONA LSe SD Capture Card for Macintosh

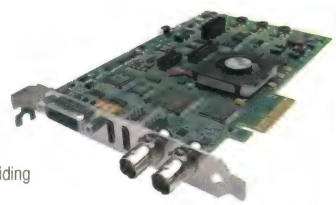

Affordably priced, the KONA LSe is the perfect video capture and playback card for building a professional SD (standard definition) editing system. Configured with a Mac Pro, RAID storage, computer display and video monitor - along with Final Cut Pro - it achieves the same editing quality as an expensive turnkey suite. Kona LSe offers analog video input/output that can be configured as component, composite or S-Video, 10-bit resolution SDI input and two outputs with multi-channel embedded audio support, analog XLR-balanced audio input/output, and AES XLR-balanced digital audio input/output with sample rate conversion.

- Offers direct integration with Final Cut Pro, as well as support Adobe After Effects, Motion and more.
- Uses 12-bit A/D and D/A converters to capture uncompressed 10-bit or 8-bit 4:2:2 formats to QuickTime. Ingest and master to/from Betacam SP and other standard definition VCRs. Also supports capture and playback from compressed SD formats like DV/DVCAM and DVCPRO 25/50.
- KONA control panel simplifies A/V control and also supports a stand-alone mode.
- AJA optimized QuickTime drivers, genlock and RS-422 machine control.

KONA LSe *(B&H# AJKONALSE)*: With break-out cables and 3-year AJA Warranty with Advanced Exchange..... **Call or Log-on**

KONA LHi SD/HD Capture Card for Macintosh

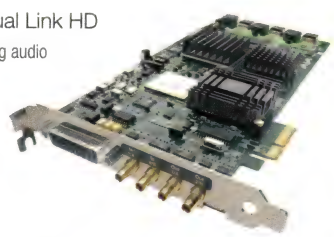

A non-compromise uncompressed SD/HD video capture and playback card, the KONA LHi allows legacy analog cameras and VCRs alongside the newest 3G SDI and HDMI v1.3a enabled products to interface to the latest PCIe Apple Mac OSX hardware, with integrated support for Apple Final Cut Studio and other QuickTime software applications. The card also features AJA's proven 10-bit hardware-based, realtime, broadcast-quality SD to HD up-conversion, HD to HD crossconversion and HD to SD down-conversion, providing complete flexibility when working with multiple SD and HD formats.

Edit, monitor and master professional quality video in an affordable, easy to use product. Since all of KONA LHi's conversions are hardware-based, they are available all the time—during ingest or playback. Outputs can be configured independently allowing users to have simultaneous HD and SD output—or two different types of HD, 720 or 1080, output via cross-conversion.

- DVCPROHD, HDV, and Apple Dynamic RT Extreme hardware acceleration takes part of the codec processing load off the CPU, allowing more RealTime (RT) effects in Final Cut Pro when outputting.
- 3G HD/SD SDI input/output including support for 1080p 50/60
- HDMI v1.3a I/O w/Deep Color at 30/36 bits per pixel allows full support of the latest 10-bit monitors.
- Capture uncompressed 10-bit or 8-bit 4:2:2 formats to QuickTime as well as Apple ProRes 422, DVCPRO HD and more.
- 12-bit analog component (SD/HD), composite and S-Video input/output
- 2-ch balanced XLR AES digital audio and 2-ch balanced XLR analog audio input/output
- 8-ch SDI embedded audio input/output
- HD/SD Genlock, LTC Input (on Reference input) and RS-422 machine control

KONA LHi *(B&H# AJKONALHI)*: With break-out cables and 3-year AJA Warranty with Advanced Exchange..... **Call or Log-on**

KONA 3 Capture Card for Uncompressed SD, HD, 2K and Dual Link HD

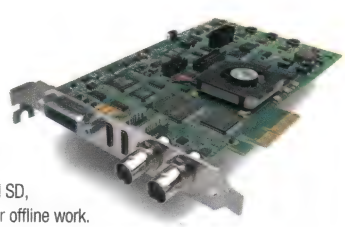

The top-of-the-line KONA 3 steps up from the LHi (except no analog video input, no analog audio input/output and no HDMI) with Dual link HD and 2K support, internal SD/HD hardware downstream keyer and extensive audio I/O support.

- Supports Dual Link 4:4:4 HD-SDI, with full bandwidth 4:4:4 RGB at 10-bits for 1080i, 1080p, 1080PsF and 720p formats. KONA 3 can also convert between 4:4:4 and 4:2:2 formats for single link HD-SDI monitoring and output.
- With the hardware HD/SD downstream keyer, waiting for a graphic or logo to render in software becomes just a memory.

KONA 3 *(B&H# AJKONA3)*: With break-out cables and 3-year AJA Warranty with Advanced Exchange..... **Call or Log-on**

XENA LHi SD/HD Capture Card for Windows

XENA LHi features 10 or 8-bit uncompressed video, 3G/HD/SD SDI I/O including support for 1080p50/60, analog composite/S-Video/SD-HD component video I/O, 2-channel AES/8-channel SDI embedded audio I/O, 2-channel balanced audio I/O, and broadcast-quality hardware-based up/down/cross-conversion for flexible SD/HD post production. HDMI v1.3a allows full support of the latest 10-bit monitors. Comes with a breakout cable and also works with the optional KLHi-Box for rack mounted I/O convenience. Provides 10-bit hardware up-, down-, and cross-conversion to/from HD and SD, which can be applied to any or all inputs or outputs. Digitize HD into space efficient SD for offline work.

- Using many user-selected formats-DPX, Cineon, TGA, TIFF, BMP, YUV, AVI or QuickTime™-XENA LHi captures directly to disk.
- Offers all the audio support you'd ever want: multi-channel audio and 16/24/32-bit AES/EBU digital audio at 48kHz for digital production.
- Includes hardware sample-rate conversion on AES inputs-eliminating source synchronizing requirements.
- Injest HDV-acquired material into uncompressed or any other supported file format. These 12-bit analog inputs and outputs, in addition to 10-bit digital I/O's, ensure that XENA LHi can interface to almost any Single-Link SDI, HDMI, or analog HD or SD device you throw at it.
- Monitor HD files on an SD monitor. Make analog or digital SD tape masters from an HD project.

XENA LHi *(B&H # AJXENALHI)*: With break-out cables and 3-year AJA Warranty with Advanced Exchange..... **Call or Log-on**

AJA VIDEO SYSTEMS INC

Ki Pro Portable Digital Disk Recorder

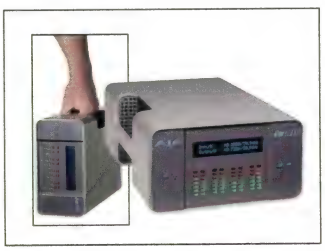

Bridging the gap between camera acquisition and post, Ki Pro is a portable tapeless video device that records files to the Apple ProRes 422 codec directly from camera. Ki Pro provides a new way of connecting production and post with its extensive analog and digital connectivity; virtually any video and audio source can be fed into Ki Pro to record pristine 10-bit ProRes 422 media that is then immediately available to edit within Apple's Final Cut Studio. Ki Pro allows filmmakers, broadcasters and video professionals and prosumers to skip the process of re-rendering to an editing codec by giving immediate access to full raster edit-ready ProRes 422 files directly from camera. Ki Pro records hours of media to a removable storage module with built-in FireWire 800 or to 34mm ExpressCard Flash. The device is a small, portable unit that can sit on a table, in a bay or mounted between a camera and tripod. Ki Pro is also ideal for on-set monitoring, providing instant access to multiple display devices simultaneously.

- Record natively to Apple ProRes 422 for full raster 10-bit 4:2:2 HD and SD.
- Bridge proprietary compression schemes by recording to Apple ProRes 422.
- Connect any digital camera via SDI or HDMI, or any analog amera with multiple input options
- Convert in real time from SD to HD, or 720 to/from 1080, in full 10-bit quality.
- Extend client review capabilities with simultaneous recording to camera and to Ki Pro.
- Extend productive life of existing cameras and embrace future workflows with powerful conversion capabilities.
- Built-in WiFi and Ethernet for complete control via a web-browser, or iPhone.

Ki Pro *(B&H# AJKIPRO0)*: With HDD Storage Module and AC Adapter with 4-pin XLR connector ..... **Call or Log-on**

io HD Portable FireWire-800 Analog/Digital Capture Device

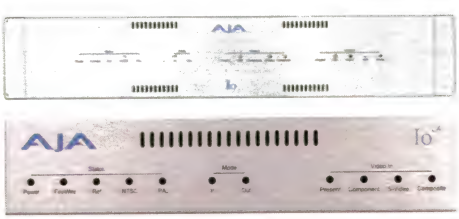

io HD is an effortless to use, transportable plug-in solution for working with HD and SD in Final Cut Studio. With a single FireWire 800 connection, io HD can easily be connected to a Mac Pro desktop or a MacBook Pro laptop, offering un-paralleled video and audio connectivity.
Within its portable and rugged form factor (measures only 8.2 x 12 x 4.8" and has a built-in handle), io HD offers SD/HD analog I/O, SD/HD digital I/O including HD-SDI and HDMI, balanced analog and digital AES audio, as well as RS-422, genlock, and even LTC timecode connections. It is also the only device in the world that supports Apple's ProRes 422 codec in hardware, enabling true 10-bit video editing with a MacPro or MacBook Pro. Add AJA's realtime hardware-based 10-bit up/down/cross conversions, and you can work anywhere in SD or HD—all in full-raster 10-bit 4:2:2 quality. Comes with a three year warranty.

- ProRes 422 Workflow—in Hardware
  - Allows ProRes 422 to move over FireWire 800 connectivity
  - Creates images visually indistinguishable from the source
  - 4:2:2 chroma sampling provides high-quality color definition
  - 10-bit sample depth produces images suitable for color correction and compositing.
- AJA Control Panel is used to select the input audio/video source, configure up/down/cross-conversions and much more.
- Data Rate Calculator figures storage/bandwidth requirements
- AJA System Test benchmarks storage such as disk arrays
- Two HD/SD inputs and two outputs, one connection for Genlock input and a loop-through, and two groups of three BNCs configurable for component HD/SD analog video input and output.
- HDMI input/output, composite, S-Video, LTC in/out and RS-422 machine control—connect to just about anything.
- 8-channel SDI embedded 24-bit 48kHz audio for multi-channel audio mastering.
- Balanced analog XLR connections for four channels along with two unbalanced RCA connectors.

B&H # AJIOHD..... **Call or Log-on**

IO• IO^{LA}• IO^{LD}
Uncompressed Over-Firewire Devices for Final Cut Studio

The Io family provides a simple elegant plug-in solution for working with Final Cut Pro on a Mac. With a single FireWire connection, any Io connects to a Mac Pro, MacBook Pro, or Power Mac and provides audio and video I/O, connection to VCRs, Genlock and integrated Final Cut Pro drivers. With the proper FireWire card and external drives, you can even use Io products with an Apple laptop. Io products are the simple solution for building a Mac-based video finishing system. Co-developed with Apple, Io products work with Final Cut Pro to provide a seamless non-linear editing experience, with all the features of proprietary systems - but without the expense and hassles. All feature RS-422 control, looping genlock, are rackmountable and come with a 3-year warranty.

IO: Analog component (YPbPr/RGB), composite and S-Video input/output, 10-bit SDI input/output, 4-channel AES I/O, SPDI/F I/O, 4-channel XLR-balanced audio input/output. 8-channels embedded audio. *(B&H # AJIO)* ..... **Call or Log-on**

IO^{LA}: Analog component (YPbPr/RGB), composite and S-Video I/O 4-channel XLR-balanced audio I/O. *(B&H # AJIO)* ..... **Call or Log-on**

IO^{LD}: Analog component (YPbPr/RGB), composite and S-Video output only, 10-bit SDI input/output, SPDI/F 2-channel out. 8-channels embedded audio. 2-channel XLR-balanced audio output. *(B&H # AJIO)* ..... **Call or Log-on**

HD-Series Miniature Converters

3GM 3G/1.5G HD-SDI Multiplexer

The 3GM is versatile and economical tool for interconnecting dual-link 1.5G SMPTE372M and 3G SMPTE425M. Allows dual 1.5G to 3G or 3G to dual 1.5G conversion. Additionally, 3GM's 3G HD-SDI output is configurable for SMPTE425M type A or B. Can even convert 3G from/to type A or B. Also provides a monitor output which is a single link 1.5G HD-SDI. Has two inputs (HD/SD-SD) and three outputs (3G HD-SDI, HD/SD-SDI). Fully equalizing and re-clocking with jitter attenuation. Passes all ancillary data. *(B&H# AJ3GM)* ..... **Call/Log-on**

HD10C2 HD/SD-SDI to Analog Component Converter

In addition to being a high-quality 10-bit HD converter, it is "dual-rate" and works with both HD-SDI and SDI inputs. For HD-SDI inputs, the HD10C2 outputs full bandwidth HD component or VGA-style RGBHV video. For SDI inputs, component or composite SD outputs are supported. When connected to a multi-format monitor, will automatically provide an image from almost any HD or SD input format. Also features 2 equalized HD-SDI outputs. *(B&H# AJHD10C2)* ..... **Call/Log-on**

HD10A HD Analog to HD-SDI Converter

Miniature, high-quality, 10-bit analog to digital converter for HDTV. The HD10A can add an HD-SDI output to cameras, computers with HD RGB graphics, VTRs, or other analog-only HD equipment. The HD10A accepts HD YPbPr or RGB analog and outputs three duplicate HD-SDI signals. Works in1080i, 1035i,1080psf and 720p with internal or external tri-level sync *(B&H # AJHD10A)* ..... **Call/Log-on**

HD10MD3 HD-SDI to SDI/Analog Downconverter

Miniature digital downconverter for converting HD-SDI video to standard definition SDI and analog component/composite video. The HD10MD3 uses a full 10-bit data path and multi-point interpolation to produce broadcast quality downconverted video.
It also converts either 1080p24 or 1080p 24sf to 59.94 Hz output using 3:2 pulldown. Output can be formatted for 4:3 or 16:9 SD monitors. Four-channel input embedded HD-SDI audio is passed to the SDI output. *(B&H # AJHD10MD3)*..... **Call/Log-on**

HD10AVA SD/HD Analog Composite or Component Video and 4-Channel Audio to SD/HD-SDI with Embedded Audio

The HD10AVA automatically detects the video input format and embeds the audio inputs in the SDI/HD-SDI outputs. Add an SDI/HD-SDI audio/video output to professional video equipment with analog outputs. Add HD-SDI outputs to most HDV cameras or decks by using the component outputs of such devices. Supplied breakout cable for audio/video inputs and provides 3 SDI-HD-SDI on BNC. *(B&H # AJHD10AVA)*..... **Call/Log-on**

GEN10 HD/SD Sync Generator, Blackburst and Tri-level Sync Generator

A cost effective and flexible SD/HD/AES sync generator, the GEN10 features 7 outputs including 2 groups of independently controlled SD/HD sync outputs and one AES-11 output. The SD outputs can be switched between color black or color bars. HD tri-level sync can be switched between 19 different HD formats. The AES-11 output can be switched between SILENCE and TONE. All outputs are in sync with each-other and are sourced from an accurate master time base. *(B&H # AJGEN10)*..... **Call/Log-on**

Intensity Pro

HDMI and Analog Capture Card

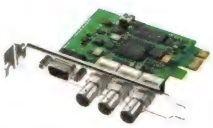

Compatible with Mac and PC, the Intensity Pro offers HDMI, analog component, composite (NTSC/PAL) and S-Video video capture and playback.

Work in uncompressed video by capturing directly from the HD camera's CCD and eliminate HDV and DV compression quality problems, or use disk-space friendly professional compressed video if required. Instantly switch between HD and SD video standards. The supplied break-out cable also includes analog RCA stereo audio input/output and S/PDIF audio output.

(B&H# BLIP) **189.95**

DeckLink SDI

SD/HD-SDI Editing Card

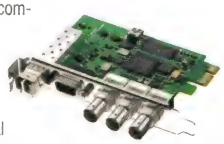

DeckLink SDI combines the highest quality 10-bit SD/HD-SDI capture and playback with high-end features such as black burst/HD tri-sync reference input, and RS-422 deck control. It can instantly switch between SD-SDI and HD-SDI formats, and includes 8 channels of embedded SDI audio support, so all video and audio connections are made with a single BNC type SDI video cable.

(B&H# BLDLSDI) ..... **Call/Log-on**

DeckLink Optical Fiber

SD/HD-SDI Card with Optical Fiber SDI I/O

Stepping up, DeckLink Optical Fiber combines highest quality 10-bit SD/HD-SDI capture and playback with built in optical fiber SDI. Designed for broadcast and post production users who want traditional SDI as well as optical fiber SDI cabling, the card eliminates the need for external SDI to optical fiber conversion.

(B&H# BLDLOF) ..... **Call/Log-on**

DeckLink Studio

SD/HD-SDI & Analog Editing Card

DeckLink Studio features independent connections for SDI, analog component (BNC x3), composite (BNC) and S-Video, so all types of video equipment can remain connected without re-cabling. It also includes SDI connections that switch between SD and HD, as well as an SD only output that always outputs via a built in hardware down converter even when running in HD. The SD down converted output is great when you need to monitor your work in both SD and HD at the same time.

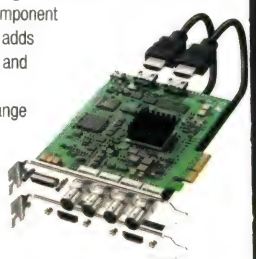

- 10-bit hardware down converter is selectable between letterbox, anamorphic 16:9 and center cut 4:3 modes, and operates when running in all HD video formats as well as in capture and playback modes. When running HD video formats, both S-Video and composite video are output from the down converter so video is always present, independent of what video standard is used.
- Includes 4 channels of balanced analog audio, as well as 2 channels of AES/EBU digital audio. Channel 3 and 4 analog audio outputs can be switched to AES/EBU for channel 3 & 4 and 5 & 6 output. That provides 6 channels of digital audio output—perfect for 5.1 surround sound monitoring or multi language work.
- Built in SD keyer allows RGBA graphics to be keyed over the SDI input in standard definition.
- Black burst and tri-sync input and a RS-422 deck control connection for broadcast decks.

(B&H# BLDLS) ..... **Call/Log-on**

DeckLink HD Extreme

SD/HD/2K 4:4:4 Video Capture/Playback Card with SDI, HDMI and Analog Connections

The most advanced capture card ever built, DeckLink HD Extreme connects to SD/HD-SDI, HDMI, component analog, composite (NTSC/PAL) and S-Video while instantly switching between SD, HD and 2K. Plus it adds Dual Link and 3 Gb/s SDI for 4:4:4 quality, and a new hardware down converter for simultaneous HD and SD playback. It includes 2 channels of AES/EBU audio in/out with a sample rate converter on the AES/EBU input as well as 2 channels of XLR balanced analog audio in/out. It works with the widest range of equipment, such as HDCAM, HD-D5, HDCAM SR, Betacam SP, Digital Betacam, HD receivers, HDV cameras, televisions, mixers and more. Capture and play back 4:4:4 video when used with decks such as Sony HDCAM SR™, or view real time playback of 2K film resolution at 24 fps with Blackmagic Design's HDLink Pro. Other features include packaged software utilities, real-time effects, and compatibility with most video software applications.

- Built-in Dual Link 3 Gb/s SDI supports 4:4:4 and real time 2K capture and playback
- High speed 4-lane PCI Express supports full HD keying, 2K film and 1080p video formats
- Blackburst in SD or TriSync in HD and RS-422 deck control for capture and playback of clips with timecode accuracy
- Photoshop plug-ins are included for capture and output of still frames. Blackmagic FrameLink™ lets you instantly access QuickTime and AVI media as DPX files. Blackmagic Disk Speed Test™ checks your disk array in frames per second.

(B&H# BLDLHDX3) ..... **Call or Log-on**

Multibridge Pro • Multibridge Eclipse

Computer and monitors not included

Multibridge Pro is an external PCI Express capture and playback solution that instantly switches between SD, HD and 2K, in 4:2:2 or 4:4:4 video quality. Consisting of a compact (1RU) but robust break-out box, Multibridge Pro connects to PC or Mac via high speed 10 Gb/s PCI Express 4 lane, for the world's highest quality editing system. Disconnected from the computer, it can be used independently as a bi-directional SDI video converter. Multibridge Pro supports Dual Link SDI and 3 Gb/s SDI, you can capture and play back 4:4:4 video when used with decks such as Sony HDCAM SR, or play back in real time 2K film resolution at 24 fps with Blackmagic Design's HDLink Pro.

- Multibridge Pro switches between HD and SD video, and features an SD/HD-SDI input, and two SD/HD-SDI outputs. It also includes 12-bit analog video input and incredible 14-bit A/D video conversion output.
- The analog video connections can be independently switched to component (YUV), composite NTSC/PAL and S-Video. When using component (YUV) video, the analog connections will switch between HD and SD allowing connection to HDV cameras or analog decks.
- There are two 2 channels of analog balanced XLR audio, 4 channels of AES/EBU digital audio I/O with each input featuring sample-rate converters, and 2 channel unbalanced audio out.
- Also includes a built-in HDMI digital monitoring output. HDMI allows up to 12 bit at full HD resolution for a very high quality built-in digital video monitoring solution.

Multibridge Eclipse Step-up Features: Designed for more complex needs in high end broadcast and post production, Multibridge Eclipse steps up with a larger 2 rack unit size for a massive 12 channels of AES/EBU, 4 channels of XLR balanced audio, and 32 independent audio level meters for audio monitoring. It also incorporates an advanced front panel design with status lights that shows users instant feed-back of operational status—resolution, genlock format and video input status— vital in busy broadcast facilities.

Multibridge Pro *(B&H# BLDLMBPQ2)* ..... **Call or Log-on**

Multibridge Eclipse *(B&H# BLDLMBEQ)* ..... **Call or Log-on**

HDLink Pro • HDLink Optical Fiber

Advanced HD Monitoring Solutions

Monitoring converters for professional post production editors and broadcast paint and effects artists, HDLink Pro allow any supported DVI or HDMI display to be used for incredible HD/SD-SDI monitoring. When DVI-D or HDMI monitors are connected, HDLink Pro instantly switches between HD and SD, and allows pulldown for best monitor compatibility. Also supports stereo RCA audio output for monitoring on consumer equipment, as well as software for Windows XP and Mac OS X via an easy to use software interface.

HDLink Pro features Dual Link 3 Gb/s SDI for high resolution HD-SDI 4:4:4 RGB and 2K film monitoring. It also includes color management via built in 3D lookup tables that allow any feature film stock to be simulated so editors can always see the correct color of the final film output. Popular 3D lookup tables can be loaded for various film stocks, and HDLink Pro is compatible with third party software for generating tables. Included in HDLink Utility software is full control for adjusting tables and generating custom "looks" for download into HDLink Pro. When editing with complex 5.1 surround sound audio tracks, HDLink Pro allows full 5.1 monitoring by including 6 separate channels of audio output. *(B&H# BLHDLPROOPTD)* ..... **Call or Log-on**

HDLink Optical Fiber: Otherwise the same (except single link 3 Gb/s SDI only) the HDLink Optical Fiber is the world's first broadcast monitoring solution with built in optical fiber SDI connections ..... **Call or Log-on**

OpenGear Converter

Blackmagic's OpenGear Converters give you a great range of conversion while providing the freedom and cost savings of an open standard combined with centralized network control and monitoring. OpenGear Converters instantly switch between all SD and HD video formats the instant the video input changes. A huge range of standards are supported including NTSC, PAL, 1080i/59.94, 1080i/50, 1080PsF/23.98, 1080PsF/24, 720p/59.94, 720p/50 and new formats can be added via USB. All models have 3 Gb/s SDI technology that auto switches between SD, HD and 3 Gb/s HD-SDI formats. All AES/EBU audio inputs feature sample rate converters, and all audio connections can be switched between analog and AES/EBU audio!

- Fully compatible with the OpenGear standard. Many manufacturers develop OpenGear cards and frames that can be mixed and matched. OpenGear cards are hot swappable and can be controlled by java based DashBoard network control and monitoring software on Windows, Mac OS X and Linux.

- Select either 24-bit analog or 24-bit AES/EBU digital audio via mini switches, or remotely via the DashBoard network control software. The converters support the standard 2 ch and 4 ch audio rear modules, so they can be used with other brand OpenGear products.
- Blackmagic OpenGear Converters are built to the highest quality standards with low SDI jitter. You get the longest SDI cable lengths combined with ultra low noise analog video and audio for a true broadcast quality solution.
- Highest quality HD down converter automatically adapts to the input video format and outputs standard definition video in letterbox, anamorphic 16:9 or center cut 4:3.
- Converters can be set up via mini switches, DashBoard, or via USB using Blackmagic Design's Converter Utility. That's three completely different ways to configure, so you're never stuck in a critical live situation.
- The SDI to Analog and SDI to Audio OpenGear Converters feature a unique redundant SDI input for mission critical or live broadcast tasks.

Same features as their respective Mini Converters (on the right) except in card form

DVI Extender

Extend you computer monitor via simple SDI video cables

Now you can route your computer monitor via your SDI router. DVI Extender lets you extend the DVI-D connection to your computer monitor via simple SDI cables. Now it's much easier to connect your computer displays anywhere in your facility, or even to more than one monitor when using any 3 Gb/s SDI router. DVI Extender also works as a regular DVI to SD/HD-SDI video converter, that's perfect for broadcast graphics!

- Includes a standard 3.5mm audio mini jack input so you can connect audio from your computer! That means you get full 3D accelerated graphics and audio from your computer to SDI.
- Built-in 3 Gb/s SDI technology makes it fully compatible with all of your SD and HD-SDI equipment.
- Connects directly to any USB port on your computer. Makes it ideal for portable use, as it can be powered directly from your laptop. Yoou could even use a portable iPod USB power supply!
- DVI Extender is a fully digital converter that connects the DVI-D output on your computer to SDI equipment such as HDLink Pro.
- Harness your computer's built in 3D accelerated display to create realtime broadcast graphics in standard and high definition video. Simply set the control panel to video output and it will output NTSC, PAL, 720p or 1080 HD resolution SDI video with embedded audio from your computer via the audio input jack.

BLHDLEXTDVI.....**Call or Log-on**

Video Recorder

Capture video direct to H.264 video files for your iPod, iPhone, Apple TV, YouTube and even full resolution video backups. Capture analog video from VHS, Video-8, video cameras and more, direct to the H.264 file format as used by iPod™, iPhone™, Apple TV™ and YouTube™. Blackmagic's Video Recorder plugs directly into your computer's USB and includes easy to use software. Get the highest quality video capture from any component video or regular video device. Video Recorder eliminates time consuming processing because it captures into the native file format of your mobile device. It can even copy to iTunes ready for syncing.

- Component, composite and S-Video inputs to capture video directly to the high-quality H.264 format.
- Select the device you want to capture for. The Video Recorder software will automatically set the size and quality for you. If you're using a custom device, then just enter the resolution and data rate you need for your media files, and Video Recorder will take care of all scaling.
- Easily adjust the cropping to make perfect movies every time. Simply slide the cropping tool along until any artifacts are removed. This means all your captured media will be pixel perfect without annoying black lines at the edges.
- Set the software to record for a certain length of time before stopping automatically. You can even have videos loaded into iTunes automatically upon capture.

B&H# BLVR.....**129.95**

Mini Converter

Build your studio with the worlds most advanced and easy to use converters. Blackmagic's MiniConverters include auto SD/HD switching, redundant input, AES/EBU and analog audio on 1/4" jacks, combined with advanced 3 Gb/s SDI technology. There are 7 models to choose from depending on the conversion you need, plus a sync generator model.

- They support NTSC, PAL,1080i/59.94,1080i/50,1080psf/23.98, 1080psf/24, 720p/59.94 and 720p/50 formats, plus new formats can be added via USB.
- Redundant input for mission critical tasks such as broadcast or live events.
- On models with AES/EBU digital audio in, a sample rate converter lets you connect to any AES/EBU source, either synchronized, or un-syncronized. On HDMI models, you also have full access to the HDMI audio embedded in the HDMI video connection.
- Use them anywhere in the world. A universal power supply is included with international socket adapters for all countries.
- Mini Converters are built to highest quality standards with low SDI jitter so you get the longest SDI cable lengths combined with multiple internal power supplies for ultra low noise broadcast quality analog video and audio.

SDI to Analog: Convert from SDI to analog in HD/SD component, NTSC and PAL video, plus balanced AES/EBU and analog audio. *(BLSDIAMC)*.....**Call or Log-on**

Analog to SDI: Perfect for converting from analog video in HD/SD component, NTSC, PAL or S-Video to SDI video with the choice to embed SDI audio from balanced AES/EBU or analog audio inputs. *(BLASDIMC)*.....**Call or Log-on**

SDI to HDMI: Converts from SDI to HDMI with embedded HDMI audio, plus balanced AES/EBU or analog audio. Use big screen TVs for broadcast video monitoring. *(BLSDIHDMIMC)*.....**Call/Log-on**

HDMI to SDI: Converts HDMI devices to SDI video with the choice to embed SDI audio from HDMI, AES/EBU or balanced analog audio inputs. Add SDI outputs to cameras with HDMI connections, or add if your computer supports HDMI compatibility via DVI to HDMI adapters, then you can use for adding SDI outputs to computers. *(BLHDMISDIMC)*.....**Call or Log-on**

SDI to Audio: De-embed 4 channels of analog audio or 8 channels of AES/EBU digital audio from any SDI video connection. Easily access the audio in any SDI video connection for output to audio equipment such as audio mixers, analog broadcast decks, audio monitors and more. *(B&H# BLCOMCSAU)*.....**Call or Log-on**

Audio to SDI: Embed 4 channels of analog audio or 8 channels of AES/EBU digital audio into any SDI video connection. Embed audio from devices such as audio mixers into SDI video connections for use with SDI routers and decks or to add extra audio channels to video converters. *(B&H# BLCOMCAUS)*.....**Call or Log-on**

Optical Fiber: Simultaneously convert SDI to Optical Fiber, and Optical Fiber to SDI. Automatically switches between any SD, HD, 3Gb/s HD-SDI video standards and each direction can be completely independent. *(B&H# BLCOMCOF)*.....**Call or Log-on**

Sync Generator: Includes 6 crystal stabilized video reference outputs for referencing all the video equipment in your studio in either high definition Tri-Sync or standard definition blackburst. *(B&H# BLSGMC)*.....**Call or Log-on**

Broadcast Converter: Combines most mini converters features into a 1RU chassis that allows bi-direction conversion. Convert SDI to analog/HDMI while simultaneously converting analog to HDMI to SDI. Complete solution for connecting analog decks to SDI based systems in a compact rackmount design. *(B&H# BLBCC)*.....**Call or Log-on**

Mac Pro / MacBook Pro Turnkey Systems

Edit video right out of the box. B&H Turnkey systems are custom-built around the growing needs of the most demanding video editors. Custom configurations coupled with AJA and Blackmagic hardware solutions exploit the power and efficiency of the Mac Pro desktop workstation, and MacBook Pro Laptops. Whether you're editing a feature film or a production company looking to take the plunge into high quality 2K video, we have a turnkey solution to suit the needs of the most demanding video editors. If our pre-configured turnkey solutions can't meet your needs, contact our B&H sales staff for a custom configured turnkey to fit your specific production needs.

All Mac systems come pre-installed with— • Final Cut Studio 2-Final Cut Pro, Soundtrack Pro, Motion, Color, and DVD Studio Pro • Mac OS X Leopard • Training disks for Mac OS X and Final Cut Studio • RAM–4GB MacPro, 2GB MacBook Pro • Color-coded Final Cut Pro keyboard • 3-year AppleCare • 1-year B&H technical support

DV / HDV / SD / HD Mac Turnkey Systems

DV/HDV/SD/HD Turnkey Systems—Our entry-level turnkeys offer pro-level interfaces. An economical solution for event videographers, corporate producers, and indie filmmakers.

SD & HD Uncompressed Mac Turnkey Systems

Designed for high-quality network broadcast content production

Power through post production. We've ramped up the specs on our SD/HD Uncompressed Mac Turnkeys to meet demanding broadcast standards and HD heavy workflows. Obliterate data crunches and HD stutters with Final Cut Studio software charged with complementary hardware solutions.

The Io family provides a simple, elegant plug-in solution for working with Final Cut Pro on a Mac. With a single FireWire connection, any Io connects to a Mac and provides audio and video I/O, connection to VTRs, Genlock and integrated Final Cut Pro drivers. Co-developed with Apple, Io products work with Final Cut Pro to provide a seamless non-linear editing experience, with all the features of proprietary systems. Multibridge is the first external PCI Express capture and playback solution that instantly switches between SD, HD and 2K, in 4:2:2 or 4:4:4 video quality. Connect to your PC or Mac with high speed 10 Gb/s PCI Express, or use independently as a bi-directional SDI video converter.

2K Mac Turnkey Systems

The advent of 2K acquisition tools require powerhouse editing systems to crank out high capacity resolutions. Our 2K Mac Turnkeys are custom-built with the professional filmmaker or editor in mind. Multiformat editing? No problem. Hardware solutions by AJA and Blackmagic handle multiformat workflows without a glitch. Ingest, edit and finish your film with these specialized turnkey toolkits for film festival or theatrical distribution.

KONA cards offer unprecedented hardware processing power, with realtime features, superior hardware-based up-/down-/cross-conversion, HDV and DVCPROHD acceleration and maximum overall performance, speed and stability - critical advantages in a production environment. Work in SD, HD and 2K.

The Multibridge Eclipse features a larger 2 rack unit size for a massive 12 channels of AES/EBU, and 4 channels of balanced audio, HDMI in and out, Dual Link 3 Gb/s SDI in and out, and an advanced front panel design with status lights and 32 audio level meters.

Get all the power of film and HD editing with the DeckLink HD Extreme adds HDMI capture and playback, plus 3 Gb/s SDI support, and 3D lookup tables.

2K PC Turnkey Systems

Designed for the professional filmmaker or editor
looking to present a finished cut to a film festival or theatrical distribution.

Belt out high-resolutions jobs with ease. Shoot in 2K without worrrying about your system slowing down to a crawl. Sprint to the finish line on your edits with a 2.8GHz Intel Quad-Core Xeon E5440 CPU. Run several applications simultaneously. The system also features integrated Gigabit Ethernet and ample expansion slots for further customization. Powered by Windows Vista.

Adobe Production Premium CS4 software suite in tandem with AJA and Blackmagic capture hardware provide all of the tools you round out these comprehensive PC turnkey solutions. AJA Xena 2K supports 10-bit uncompressed video with full 4:4:4 and 4:4:4:4 HD and HSDL support, delivering broadcast-quality video capture and output. Blackmagic's Multibridge Eclipse supports 3 Gb/s SDI Dual Link, HDMI, component, NTSC composite and PAL composite video input and output. Genlock and RS-422 deck control are also part of the system, making it an excellent choice for broadcast environments. If you don't need analog compatibility, and are looking for a pure digital card, then DeckLink HD Pro PCIe is the perfect choice. HDLink HD Pro supports dual link SDI, so you can work natively in 4:4:4 10 bit RGB, for high end effects and feature film work. 10 bit RGB 4:4:4 is compatible with the Sony HDCAM-SR 4:4:4 deck, and allows for full color resolution.

grass valley

EDIUS Neo 2

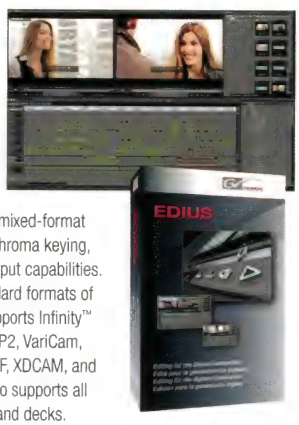

Built on the same highly-acclaimed real-time mixed format editing technology as in Grass Valley's EDIUS 5, the EDIUS Neo 2 offers native editing of various formats including AVCHD, HDV, DV, Windows Media, and QuickTime, and supports a seamless real-time workflow, including the ability to mix various formats within the same timeline.

With a basic, entry-level range of tools and features, EDIUS Neo 2 is perfect for the classroom environment, yet still provides powerful nonlinear editing features found in higher-end solutions, such as real-time, multi-track, mixed format HD/SD editing, chroma keying, titling and both Blu-ray Disc and DVD authoring.

- Real-time, Mixed format HD/SD editing, including AVCHD, HDV, MPEG-2, DV, Windows Media, and QuickTime video
- Fast, flexible user interface, including unlimited video, audio, title, and graphics tracks
- Real-time editing and conversion of different HD/SD aspect ratios, such as 16:9 and 4:3
- Real-time editing and conversion of different frame rates, such as 60i, 50i and 24p, and different resolutions, such as 1920 x 1080, 1440 x 1080, 1280 x 720, 720 x 480
- Real-time HD/SD effects, keyers, transitions, and titles
- Real-time, render-free video output directly from the timeline
- Nested timeline sequences
- High-speed MPEG-2 and HDV import and export using multi-core and multiple CPU technology
- Segment encoding (smart rendering) export for MPEG-2 and HDV
- Direct to Blu-ray Disc and DVD timeline export with menu
- Quick Titler built in for real-time roll/crawl titling

(B&H# GREN2) **169.95**

EDIUS 5

Designed for broadcast and postproduction environments, EDIUS 5 is perfect for file-based workflows, offering real-time, multi-track, mixed-format editing, compositing, chroma keying, titling, and timeline output capabilities. In addition to the standard formats of the EDIUS family, it supports Infinity™ JPEG 2000, DVCPRO, P2, VariCam, Ikegami GigaFlash, MXF, XDCAM, and XDCAM EX video. It also supports all DV and HDV cameras and decks.

Step-up features from EDIUS Neo 2

- GPU-accelerated 3D transitions
- Supports up to eight cameras and provides realtime monitor preview, as well as a mastert channel preview that displays all eight camera angles.
- High value software bundle includes filters, effects, image stabilization, VST audio plug-ins, and DVD and Blu-ray authoring

EDIUS 5 *(B&H# GREDIUS5)* **649.95**

EDIUS 5 Hardware/Software Systems

EDIUS NX Express with EDIUS 5 Software

The EDIUS NX allows for realtime HD/SD resolution conversion and output, aspect ratio conversion and output, frame rate conversion, and various other effects, keyers, transitions, and titles. The card has a hardware-based video overlay design for accelerated HD/SD editing. It is equipped with inputs and outputs for DV, HDV, composite and S-Video and unbalanced audio, making it easy to put raw footage into your computer and export it back to tape. Also features analog input signal cleaning and enhancement. *(B&H# GRENPEBE5S)* **749.95**

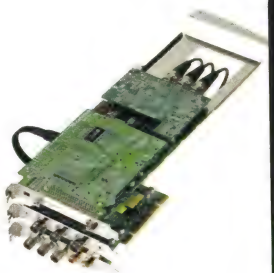

EDIUS NX Express with HD/SD Component Output and EDIUS 5 Software

Same as above, plus a daughter card with component output (BNCx 3), as well as accelerated standard definition MPEG-2 and MPEG-4 encoding. *(B&H# GREENE5S)* **1069.95**

EDIUS NX Express with HD/SD Component Output, 5.25" Breakout Box and EDIUS 5 Software

Same as above, plus it includes a sleek, black, 5.25" breakout panel that provides front-mounted connectors for 4-pin FireWire, composite, S-Video and unbalanced stereo RCA audio. Includes all cables for connecting the bay to the EDIUS NX Express board. *(B&H# GREENNE5NBE5)* **1299.95**

EDIUS SP-SDI Board Set and EDIUS 5 Software

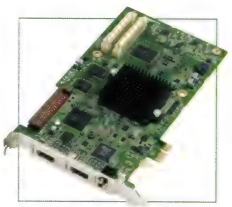

The EDIUS SP-SDI system features hardware-based video overlay and high-quality video I/O circuitry. It interfaces with video equipment including HDV, DV, and all analog cameras and decks. And it supports professional video equipment with component video and XLR balanced audio I/O, as well as frame-accurate RS-422 VTR control and external reference sync input connections. *(B&H# GRESBSE5S)* **2879.95**

EDIUS SP-SDI Board Set with EDIUS 5 Software and 19" 1 RU Breakout Box

(B&H# GRESBBE5SZ) **3359.95**

HDSTORM • HDSTORM Plus

A PCI Express board bundled with EDIUS 5 editing software, HDSTORM allows you to work with HDMI inputs and outputs, and has a Canopus HQ hardware codec built-in for optimized, CPU-free capture. HDSTORM empowers you with constantly synched, full-resolution preview of effects and content directly from the EDIUS 5 timeline. The power of having the Canopus HQ codec on-board means you won't be restricted by CPU speeds or workstation limitations when ingesting or creating high-quality Canopus HQ AVI files for editing.

Already a prominent part of the EDIUS software legacy, the Canopus HQ codec offers supreme visual quality without the excessive hard disk storage costs normally associated with HD video ingest. With HDSTORM, you can be assured that the HD video content you output from your HD sources will be perfectly preserved, ready for you to either edit, author to DVD or Blu-ray, or store for later usage. Because the input quality is so clean, subsequent conversions to other distribution formats—such as mobile phones or the Web—are cleaner too.

Working as a perfect combination of software and hardware, HDSTORM can handle any mix of HD and SD video content; unlimited video, audio, title, and graphics layers; and any combination of real-time effects. Otherwise the same, the HDSTORM Plus includes a bay option for high-quality HD/SD analog component, S-Video, and composite input/output.

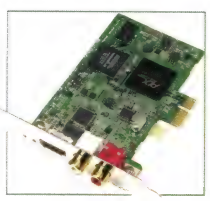

HDSTORM *(B&H# GRHDSPEDIUS5)* ..... **1249.95** **HDSTORM Plus** *(B&H# GRHDSPBE5)* **1269.95**

HDTHUNDER

HDTHUNDER is a premium, high-powered solution for multi-format editing—supporting SDI-based editing and tapeless workflows and the ability to preview projects in real time, using affordable HDMI monitors. A PCI Express board, it includes EDIUS 5 editing software, HD-SDI inputs and outputs, an HDMI video output for full-resolution, real-time preview monitoring, and embedded HDMI audio for high-quality audio monitoring. HDTHUNDER features timecode input and output for accurate editing from field logs, reference input support for blackburst and tri-level sync, machine control for external VTR ingest, and optional VTR emulation software that that lets users control an EDIUS editor like a VTR for direct playout from the workstation. It also empowers users with a constantly synched, full-resolution preview of effects and content directly from the EDIUS timeline. The board can handle any mix of SD and HV video content; unlimited video, audio, title, and graphics layers; and any combination of real-time effects. It also offers real-time, full-resolution, full-quality HD and SD video output. *(B&H# GRHDT)* **2229.95**

HDSPARK

HDSPARK is a hardware solution for those working in a file-based, networked environment and need to see projects output in real-time, using affordable HDMI monitors. A PCI Express board, it includes EDIUS 5 editing software as well as an HDMI output to support full-resolution, real-time preview monitoring. It also features embedded HDMI audio and separate stereo RCA jacks for high-quality audio monitoring.

The board can handle any mix of high- and standard-definition (HD and SD) video content; unlimited video, audio, title, and graphics layers; and any combination of real-time effects. It also empowers users with constantly synched, full-resolution preview of effects and content directly from the EDIUS timeline. *(B&H# GRHDSV5)* **774.95**

ADVC700 Broadcast-Quality Bi-Directional Analog/Digital Video Converter

Engineered for professional broadcast and post production standards, ADVC700 provides unmatched quality and reliability in bidirectional analog/DV conversion, supporting both Windows and Mac OS. An excellent component I/O solution for any DV interface, the ADVC700 boasts a 19" rack-mountable design with component, composite, S-Video, and balanced and unbalanced audio I/O, RS-422A control, as well as support for LTC timecode and external synchronization. Canopus DV codec chip provides unparalleled picture quality preservation during analog-to-DV conversion, plus locked audio support for perfect audio and video synchronization. It also features patented PerfectSync technology (see box) to ensure impeccable conversion of every frame. The ADVC700 is easily and quickly configurable using the LCD front panel display and jog dial. *(B&H# GRADVC700)*.....**1649.95**

The ADVC700, ADVC1000 and ADVC3000 include patented PerfectSync technology to ensure perfect output synchronization. PerfectSync controls and synchronizes the transfer rate of IEEE1394 communication with an external reference signal. This prevents skipped and duplicate frames and produces perfect conversion of all frames during analog/DV conversion.

ADVC1000
Broadcast-Quality Bi-Directional SDI/DV Converter

A professional, high quality bi-directional SDI/DV video converter designed for broadcast studio equipment, the ADVC1000 features front-side controls and LCD display, analog video and unbalanced audio outputs for monitor preview, and a solid half-1U 19" rackmount design. *(B&H# GRADVC1000)*.....**1649.95**

ADVC3000 Broadcast-Quality A/D Converter

Designed for broadcasters, cable operators, video professionals and post-production operations, the 2RU high ADVC3000 combines the features of the ADVC700 and ADVC1000 converters—and can convert between analog and DV, DV and SD-SDI and analog and SD-SDI. Whether you to need to convert YUV component video to uncompressed SDI, DV to S-Video, or simply to de-embed and re-embed audio from a digital video stream, the ADVC3000 gives you what you need.

B&H# GRADVC3000.....**2795.00**

ADVC-HD50 Realtime HDMI-to-HDV Conversion

The ADVC-HD50 instantly converts uncompressed HD video and audio from HDMI devices to the HDV format then outputs a FireWire connection for use in the non-linear editing system of your choice. Featuring a sleek, portable design it requires no drivers or software to set up, and is compatible with PC and Mac-based editors. Perfect for anyone who needs HDMI ingest without internal hardware. *(B&H# GRADVCHD50)*.....**799.95**

ADVCHDSC1 HD/SD-SDI-to-Component Conversion

The ADVCHDSC1 converts HD-SDI signals to HD component output or SD-SDI signals to SD component output. It provides instant output of HD content to affordable HD component displays, such as TVs and RGB monitors—and standard-definition (SD) content to component, S-Video, and composite displays. It has a sync generator for HD (tri-level sync) and SD (black burst), as well as audio-level-adjustment options. Also features embedded audio support, SD-SDI to composite and S-Video conversion, HD-SDI conversion to RGB for PC monitors with BNC inputs, and front-panel displays for video-format and audio-level outputs. Automatically detects your current video output format, and supports SDI signal pass-through. *(B&H # GRADVCHDSC1)*.....**1349.95**

ADVCHDM1 Real-Time HD-SDI/HDV Conversion

Provides high-quality, bi-directional conversion between HD-SDI and HDV signals, complete with embedded audio. Compatible with Mac and Windows-based nonlinear editors that support HDV or HD-SDI, the ADVCHDM1 lets you instantly convert HD-SDI output to HDV and ingest HDV material into HD-SDI systems for archiving. It can also encode HD MPEG-2 transport streams up to 1920 x 1080 resolution using one of 8 different bit-rate settings that best suits your workflow. It lets you input external timecode information when encoding in HDV; control HD-SDI decks via HDV and vice versa with AV/C-RS-422 device control conversion; and use simple, two-button control for its encoding/ decoding and time-code mode via the front panel. *(B&H# GRADVCHDM1)*.....**4499.95**

ProCoder 3 Professional High-Speed Transcoding Software

ProCoder 3 is a versatile, Windows-based solution for multi-format encoding and compression. Batch processing, priority queuing, and simultaneous creation of multiple destination files are a few of its features. Quickly transcode web video with a user-friendly ProCoder Wizard. Or exploit the power of the application with custom settings. Supports H.264 to produce Apple iPod and mobile video files, and decoding of the AVCHD format from the latest generation of MPEG-4 camcorders.

(B&H# GRPC3).....**399.95**

Pegasus HD/SD
Video Capture Card for Archival Distribution

Pegasus HD/SD is a video capture card designed for use in archival and distribution applications. In addition to the included HQ Recorder capture software, the card ships with an SDK. This allows developers to create their own custom applications to leverage the Pegasus's capabilities.

- Video capture —S-Video, YUV, RGB analog HDMI video
- Canopus HQ codec chipdelivers superlative visual quality and small file sizes
- Software bundle with SDK includes Auto Capture, Manual Capture, and Scheduled Capture

GRPEGASUS.....**849.95**

MVR-D2200V
Realtime MPEG-1/2 Encoder and Decoder

The card installs into an available PCI slot and is compatible with Windows operating systems. It allows you to encode MPEG video in realtime, allowing you to convert video for MPEG-dependent applications such as DVD with great speed and efficiency. This card is a great option for anyone who requires hardware-accelerated MPEG output. Includes MPEG Station software for capture and playback. This DV AVI to MPEG conversion utility supports full resolution overlay for footage previewing. You'll be able to adjust quality settings in detail to meet your specific requirements.

GRMVRD2200V.....**1349.95**

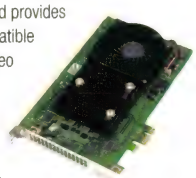

MVRD4400
Realtime MPEG Encoding

Featuring a full Windows software development kit for application developers, the MVRD4400 system offers high-quality, real-time hardware-based MPEG encoding with the ability to filter, stabilize, and enhance analog source video prior to MPEG encoding. The powerful pre-filtering features of the MVRD4400 hardware include advanced 3D Y/C separation to reduce color noise and improve image quality, 3D digital noise reduction to eliminate noise in the analog video signal, and a line time base corrector (LTBC).

GRMVRD4400.....**1449.95**

FIRECODER Blu
Accelerated Blu-ray Encoder and More

The PCI-e based FIRECODER Blu board provides accelerated encoding of Blu-ray compatible video sourced from any number of video applications, including our own EDIUS nonlinear editing software. You can then output its results directly to a Blu-ray disc or to a Blu-ray compatible file for additional authoring. It also lets you transcode between H.264 and MPEG-2 formats; it supports 1080i and 720p as well as native 24p Blu-ray formats. It supports up- and downconversion of standard- and high-definition (SD and HD) sources. And it encodes HD source materials 2X faster than real time—and SD source materials 4-5X faster than real time. Includes FIRECODER WRITER software, a collection of basic Blu-ray and DVD authoring tools.

GREBBR.....**499.95**

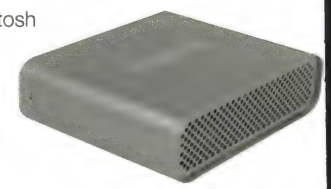

matrox CompressHD
Accelerator Card for H.264 HD File Creation

A fast, flexible, high quality encoding workhorse, CompressHD is designed for professional content creators delivering H.264 files for Blu-ray, the web, and mobile devices. Incorporating Matrox MAX technology, CompressHD lets you create H.264 files, for resolutions ranging from iPod to HD, faster than real time (bitrates up to 50 Mbps).
It works in systems with or without a video I/O device and extends the life of your current system investment, giving you the power you need to deliver today's premium H.264 formats faster than ever. A low profile, half-length PCIe x1 card, it fits into Mac Pros, Intel-based Apple Xserve systems, and PCs. *(B&H# MACHD)*.....**495.00**

Matrox MAX is a unique technology that implements faster than realtime H.264 encoding for resolutions ranging from iPod to HD. It uses a dedicated hardware processor to accelerate the creation of H.264 files for Blu-ray, the web, and mobile devices. By using specialized hardware acceleration, jobs are finished with amazing speed and system resources are liberated for other tasks. Quality and flexibility are ensured through direct integration with professional applications such as Apple Compressor on the Mac and Adobe Media Encoder on the PC. As an added benefit, the Matrox MAX technology allows direct export to higher quality H.264 Blu-ray compliant files from Compressor. Matrox MAX technology is available in MXO2, MXO2 Mini and MXO2 Rack.

matrox MXO
HD/SD Output/Monitoring Device and Scan Converter for Macintosh

The MXO is a versatile, all-in-one output device for the Mac. It turns the Apple Cinema Display or other DVI monitor into a professional HD and SD video monitor. Because it's small and portable, it makes a laptop a mobile editing station. It's a frame-accurate, broadcast-quality HD/SD analog and SDI output device ideal for mastering native digital projects directly to tape or to a satellite encoder. And, it can be switched into a genlockable scan converter with HD/SD analog and SDI output.

- Inexpensive HD and SD monitoring – now you can trust your Apple Cinema Display or other DVI monitor, even for color grading
- Frame accurate, broadcast-quality audio/video output in HD and SD with guaranteed A/V sync
- Genlockable HD/SD-SDI, HD/SD analog component, Y/C, and composite outputs with up to 8 channels SDI embedded audio output and stereo audio monitoring
- Realtime downscaling of HD projects to SD resolution with proper color space and aspect ratio conversion for monitoring and output
- WYSIWYG video output from QuickTime-based applications
- Genlockable HD/SD scan conversion for flicker-free video output of your computer desktop with any application

MXO *(B&H# MAMXO)*.....**995.00**

matrox MXO2 Complete Portable I/O for Macintosh

A complete portable I/O device for the Mac, the MXO2 is lightweight, fits in your laptop bag, and runs for hours on a field battery or the or the included AC adapter. It lets you work seamlessly in any format you want. Designed to streamline editing workflow with Apple Final Cut Studio and Adobe CS4 Production Premium on MacBook Pros and Mac Pros, the MXO2 provides broadcast-quality input/output, monitoring, and up/down/cross conversion. Users can benefit from file-based workflows with native support for XDCAM, XDCAM HD, XDCAM EX, and P2. In addition, they are not limited to using a single codec as with some other I/O devices on the market.

- RS-422 machine control is provided for frame-accurate capture and print-to tape with Final Cut Pro and Adobe Premiere Pro. Supports up to five user selectable simultaneous video outputs: HD and/or SD on HDMI, SDI, and analog.
  - – Video inputs include HD/SD-SDI, analog component HD, composite, S-Video and HDMI
  - – Audio inputs include two XLR-balanced, two RCA unbalanced, two AES/ABU, SDI and HDMI embedded (up to 8 channels).
  - – Video outputs include two HD/SD-SDI, 12-bit analog component, 12-bit composite, and S-Video, one HDMI.
  - – Audio outputs include four XLR-balanced, six RCA unbalanced for surround sound monitoring, two AES/ABU, SDI and HDMI embedded (up to 8 channels).
- With SD analog black burst (bi-level) or HD tri-level sync genlock, it can genlock to any type of video input or to house sync.
- Turn your HDMI monitor into a true-color video display you can trust, even for color grading. Makes it the ideal monitoring solution for Final Cut Pro, Premiere Pro, and other QuickTime-based applications. No need to buy expensive HD monitoring equipment. In addition, realtime downscaling feature lets you view your HD projects on an SD monitor.
- Adjust and control your HDMI monitor exactly like you would a broadcast HD monitor. Controls for hue, chroma, contrast and brightness are provided. Also has a Blue-only mode to gives you completely accurate color representation.
- Provides 1:1 pixel mapping on HDMI monitors that support this feature. Proper conversion of the HD color space to the SD color space and proper aspect ratio conversion to anamorphic, letterbox, and center cut are supported.
- Provides realtime SD to HD upscaling with proper conversion of the SD color space to the HD color space.
- Offers realtime cross conversions from 720 to 1080 and 1080 to 720. Realtime frame rate conversion is also supported with the following cadences – 2:3:2:3, 2:3:3:2, and 2:2:2:4. It also facilitates monitoring when, for example, you need to work with 23.98 fps footage but your monitor does not support that frame rate. Use MXO2's realtime frame rate conversion to view your project at 29.97 fps.
- Provides built-in 5.1 surround sound monitoring via RCA and HDMI so you don't have to buy more equipment. The MXO2 also lets you map any audio track in Final Cut Pro or Adobe Premiere Pro to any audio output.

MXO2 Complete Portable I/O for Macintosh *(B&H# MAMXO2)*.....**1595.00**
MXO2 with Matrox MAX *(B&H# MAMXO2M)*.....**1894.95**

matrox MXO2 Mini
HDMI and Analog I/O for Mac and PC

The sleek MXO2 Mini goes wherever you go. Use it with a laptop or a desktop system and applications including Final Cut Pro, Premiere Pro, Photoshop, and many more. Capture via HDMI, analog component, S-Video, and composite. Convert standard definition videos to HD or vice versa, while capturing or playing out, using the MXO2 Mini's high-quality dedicated hardware. Playback high and standard definition video simultaneously. Turn your HDMI screen into a professional-grade video monitor with color calibration tools including blue-only. Easily edit AVCHD footage by capturing into an edit-friendly compressed or uncompressed format.

- Easily connects to cameras and monitors
- Capture HD video via HDMI or analog component; NTSC and PAL via analog component, S-Video, or composite
- Playback HD video via HDMI and analog component; NTSC and PAL via HDMI and analog component or HDMI and S- Video and composite
- High-quality 10-bit hardware scaling engine for realtime upscaling, downscaling, and cross conversion on capture and playback
- Stereo RCA and up to 8 channels of HDMI audio input and output
- 5.1 and 7.1 surround sound monitoring on the HDMI output

matrox RT.x2 LE • RT.X2

Professional Realtime HD Editing for Adobe CS4

al for corporate communicators, event videographers, ject studios, educational facilities and digital filmmakers, RT.X2LE allows users to get maximum productivity from obe Premiere Pro CS4 and CS4 Production Premium. e RT.X2 LE is a ¾-length PCIe card with a professional akout box, that lets you edit HDV or P2 720p and output . Plus, you can capture other HD and SD formats over the alog inputs, and mix all types of footage on an HD or SD eline in real time.

X2 LE goes far beyond the capabilities of systems that mbine Premiere Pro CS4 and a simple I/O card. The RT.X2 rdware provides accelerated editing of full-quality, full-me-rate video, export to DVD, Blu-ray, QuickTime, Adobe ash and other formats, and extra productivity with WYSIWYG graphics d realtime downscaling of HD projects for SD delivery. herwise the same, the full-version RT.X2 provides full-resolution HD monitoring on an inexpensive flat panel display via its independent VI output. In fact, the RT.X2 provides better HD video definition, with pixel-to-pixel mapping on a flat panel (1920 x 1200), than you will t on expensive professional HD monitors which re typically limited to approximately 800 lines of resolution.

- Provides realtime native editing of HDV 1080i, HDV 1080p, HDV 720p (JVC ProHD), P2 MXF 720p, XDCAM EX, DV, DVCAM, DVCPRO.
- Realtime, mixed-format, multi-layer workflows that combine HD and SD material from analog and digital sources
- Broadcast quality effects are fully keyframeable and feature a high level of control for detailed work.
- Many more realtime layers of video and graphics
- Real time effects including color correction, chroma/luma keying, speed changes, blur/glow/soft focus, 3D DVE and much more
- Extensive support for Canon, JVC, Panasonic and Sony cameras
- Realtime high-quality downscaling for analog SD output from an HD timeline
- Realtime playback of 32-bit MPEG-2 I-frame AVI files with alpha in HD and SD
- Realtime capture from analog sources to compressed MPEG-2 4:2:2 I-frame
- Realtime mixed-format multi-cam
- Realtime MPEG-2 IBP capture from analog and DV sources for DVD authoring
- Composite, Y/C, and analog component input and output
- WYSIWYG video output for motion graphics, animation, and compositing applications (After Effects, Bridge, Photoshop, Combustion 3ds Max, eyeon Fusion, LightWave 3D
- Audio VU meters on capture

matrox Axio Le

Realtime Engine for HD and SD Editing for Broadcast and Post

Axio LE makes Adobe Premiere Pro CS4 and CS4 Production Premium the foremost realtime HD and SD editor for demanding broadcast and post-production environments. It features no-render HD and SD finishing in compressed and uncompressed formats, superior realtime color correction tools, advanced realtime effects, and a full complement of analog and digital audio and video inputs and outputs. It also lets users work seamlessly with the other Adobe Production Studio applications, fully supporting Adobe Dynamic Link and providing WYSIWYG video output support for After Effects and Photoshop, as well as other industry-leading animation and compositing packages.

Stepping up from RT.X2 platform, the Axio LE features simultaneous HD and SD output, SD/HD-SDI input/output, analog component input/output, SD genlock and Tri-level HD genlock. It also supports full 1080i resolution at 25, 29.97 and 1080p at 23.98, 24 and 25, and offers Closed Captioning (CC) support.

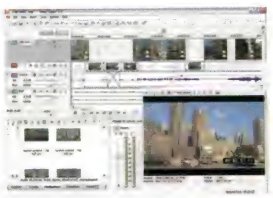

Step-up Features from RT.X2

- Full-resolution, mixed-format, multi-layer realtime editing of HD and SD video, graphics, and effects
- Realtime native editing of Panasonic P2 and P2 HD and Sony XDCAM, XDCAM HD, and XDCAM HD422 clips (MXF files)
- Support for Omneon media servers via native MXF file transfers
- Extensive native codec support in HD and SD – uncompressed, MPEG-2 I-frame, DVCPRO HD, MPEG HD, MPEG HD422, HDV, IMX, DVCPRO50, DV, DVCPRO, DVCAM
- 24 fps editing in HD and SD with pull down, reverse pull down, and Panasonic VariCam support
- Native MXF and HDV AVI file support in Video for Windows applications such as After Effects via EZ-MXF and EZ-HDV utilities
- DV-1394, composite, Y/C, HD/SD analog component, and HD/SD SDI input and output
- 2-in/6-out AES/EBU audio, 2-in/6-out XLR audio, 8-in/8-out SDI embedded audio, 1/4" output jack for stereo monitoring

CINEFORM

Neo Scene

Designed to elevate enthusiast filmmaking to a higher level, Neo Scene delivers the same quality CineForm files as used by Hollywood movie producers and post production facilities. They rely on CineForm file formats for their editing and archive workflows because they offer the highest visual fidelity achievable.

- Neo Scene converts hard-to-edit HDV, AVCHD, or Canon 5D MKII camera footage to CineForm AVI or MOV files. Users will benefit from the same theatrical quality format and real-time editing performance as professionals.
- Neo Scene uniquely extracts 24p progressive frames from all your HDV or AVCHD material for editing in your favorite NLE.

For Mac *(#CINSM)* and Windows *(#CINSW)* **124.95**

Neo HD

Available for Mac or Windows, Neo HD offers the industry's highest quality and most feature-rich online HD workflow, enhancing applications from Adobe, Apple, Autodesk, Sony, and virtually any other DirectShow (AVI) or QuickTime (MOV) application. *(#CINHDWM)* **479.95**

Neo HD & Prospect HD Both Feature

- Whether a project is destined for film, projection, Blu-RAY, DVD, or web distribution, Neo HD and Prospect HD deliver unmatched workflow efficiency, the industry's highest visual fidelity compression and cross-platform compatibility.
- HD Link (Windows) and Remaster (Mac) file conversion and image processing software convert most camera or file-based source formats into 10-bit CineForm Intermediate HD files while also performing valuable tasks such as telecine removal, deinterlacing, spatial resampling, and much more. Enables true 24p editing workflows from most HD sources.
- CineForm files are 10 bits in precision and are visually equivalent to uncompressed sources — but are just 15% of the file size.
- They include First Light™, a cross-platform, non-destructive color processing application that works together with your editing and effects software. First Light maintains color adjustments as Active Metadata with your media — you never need to render, and consequently you never clip highlights. Color adjustments are immediately visible in any application that calls a CineForm file.
- Create on one platform, share on the other, even with distributed editing workflows. CineForm provides a free decoder on both Win and Mac to easily share content.

Prospect HD

CineForm's Prospect HD is designed for online editing of all HD film, television, or videography projects using Adobe Premiere Pro CS3 or CS4 on Windows. An HD real-time software video processing engine enhances the performance and features of Premiere Pro while eliminating the need for (and outperforming) most specialized hardware. Modern PCs can easily play 4-6 CineForm HD streams in real-time while editing. *(#CIPHDAPP)*.....**699.95**

Advantage Series 2.0 Keyboards

In addition to color and icon coded keycaps, they include two USB 2.0 ports, multimedia keys, and a sleek new design. Bella's unique hybrid technology allows you to use the Premier Pro and Avid Media Composer keyboards on either a PC or a Mac platform.

For Adobe Premiere Pro *(B&H# BEKBA2PP)*.....**69.95**
For Final Cut Pro *(B&H# BEKBA2FCP)*.....**69.95**
For Avid Media Composer *(B&H# BEAKMCM)*.....**69.95**

DV Keyboard 3.0

Features a built-in jog/shuttle controller, 2 USB 2.0 ports for direct, high-speed connectivity, and 3 ports for the optional NeoLite. High-quality sticker sets are included to help you learn and edit more quickly, and multimedia keys for further productivity. Utilizing Bella's unique hybrid technology, they work on both Mac and PC platforms.

With keycap stickers for Pinnacle Studio, Sony Vegas Movie Studio and Apple Final Cut Express *(B&H# BEKBDV3)*.....**114.95**
For Sony Vegas *(B&H# BEKBDV3SV)*.....**129.95**
For Avid Liquid *(B&H# BEKBDV3AL)*.....**129.95**

Professional Series 3.0

The Professional Series 3.0 features a built-in jog/shuttle controller, two specialty keys (which can be programmed for commonly used commands), two USB 2.0 ports, and program-specific, color and icon-coded keycaps that let you learn the application quicker and edit faster. The keyboard also includes the NeoLite, a task light featuring dual LEDs and a 12 inch flexible gooseneck that plugs into any of three power ports in the keyboard leaving all USB ports free. Web, email, and multimedia keys allow use as a standard keyboard as well.

For Premiere Pro *(B&H# BEKBP3PP)*.....**129.95**
For Final Cut Pro *(B&H# BEKBP3FCP)*.....**129.95**
For Avid Media Composer *(B&H# BEKBP3AMC)*.....**129.95**

FINAL DRAFT Final Draft 8

Script Writing Software for Mac/Windows

The number-one selling program for writing movie scripts, television episodics and stage plays. Combines powerful word processing with professional script formatting in one self-contained, easy-to-use package. No need to learn about script formatting rules – it automatically paginates and formats your script to industry standards as you write. *(#FIFD8)*.....**199.95**

Final Draft AV 2.5

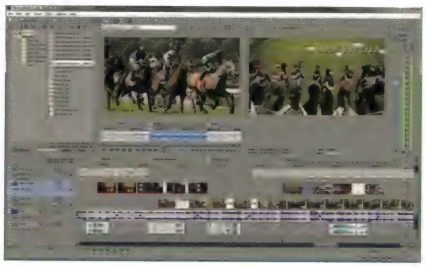

Full-featured scriptwriting software for writers of commercials, corporate and training videos, documentaries and presentations. Final Draft AV keeps audio and video columns automatically aligned when text is added, edited or deleted. No complicated commands to learn, no need to worry about style or text placement; creates a professionally formatted A/V script in no time. *(#FIFDAV25)*.....**124.95**

SONY Vegas Pro 9

Professional Video, Audio, and Blu-ray Disc Creation

Vegas Pro 9 includes 32- and 64-bit versions of Vegas Pro 9 software, DVD Architect Pro 5 software, and the Dolby Digital professional AC-3 encoder—working seamlessly together to provide an efficient and intuitive environment for professional video and broadcast production, as well as DVD and Blu-ray Disc authoring. Offering the most robust and progressive platform available for content creation and production, it offers broad format support, superior effects processing, unparalleled audio support, and a full complement of editorial tools. From acquisition to delivery, from camera to Blu-ray Disc, it delivers exactly what you need to produce outstanding results.

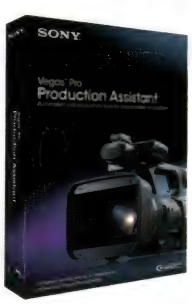

- Edit SD or HD video with drag-and-drop functionality, mouse and keyboard trimming, and ripple editing. Features include ProType Titling technology, multicamera editing tools, 32-bit floating point video processing, customizable window layouts, color-coded snapping, improved HDV/SDI/XDCAM support, Cinescore plug-in support, A/V synchronization detection and repair, and auto-frame quantization.
- Dock multiple windows across multiple monitors, and save your layouts to fit specific editing tasks; nest Vegas projects within the timeline, customize and save keyboard commands, and use application scripting to automate repetitive tasks.
- Supports 24p, HD and HDV editing as well as XDCAM EX and RED. Natively supports frame sizes up to 4096 x 4096. The 4K image standard for digital cinema projection is 4096 x 2160 pixels. This level of resolution provides more detail and flexibility to pan and crop. It is ideal for compositing and video effects work, as it provides a high-quality final output.
- Create compelling 3D video and text effects, with control over Z-depth, plane intersection, compositing, and more. 3D motion is real time and previewable via i.LINK to an external monitor.
- Includes over 190 video effects and 175 transitions — all fully customizable. Effects include: Film Effects, Chroma Ke Timecode Overlays, Media Generators, Credit Rolls, Text Effec and more. Use transitions such as Clock Wipe, Dissolves, and Page Peels.
- Edit multicamera productions intuitively and quickly by specifying shots as you watch your project.
- Switch between as many as 32 video sources with a keyboard command or a click of your mouse.
- Sophisticated lighting effects such as Glint, Rays, Defocus, Starburst, Soft Contrast, and Fill Light let you simulate the effect of light streaming in from behind your source, create colored highlights, change the focus of your shot and more.
- Use unlimited tracks, 24-bit/192 kHz audio, punch-in recordin 5.1 surround mixing, effects automation, and time compress/expand. Apply customizable, real time audio effects like EQ, Reverb, Delay, and more. Expand audio processing and mixing options with supported third-party DirectX® and VST audio plug-ins. Use the Mixing Console for precise audio control.
- Burn movies to Blu-ray Disc™ directly from the Vegas Pro timeline for high-definition delivery. Use DVD Architect Pro 5 software to author DVDs or Blu-ray Disc media with multiple video angles, subtitles, multiple languages, and special features Preview and test your work in real time. Apply Brightness and Contrast, Auto Levels, Crop, and Anti-Flicker filters. Set CSS and Macrovision® copy-protection flags for masters.
- Vegas Pro 9 has a comprehensive help system, as well as detailed interactive tutorials that provide walk-through demonstrations of common features and functionality.

Vegas Pro 9 Video *(B&H# SOVP9)*.....**569.95**

SONY Vegas Pro Production Assistant

The Production Assistant is a plug-in designed to enhance the functionality of Vegas Pro software, streamlining the workflow for professional broadcasters and editors. It automates many frequent tasks and processes to save hours of tedious editing work. Easy to use, it includes a complete set of video tutorials to help you get maximum output with minimum effort.

- Automatically swap placeholder slugs with program media
- Automated broadcast color processing presets including correction for tungsten balance, fluorescent lighting, indoor white balance problems and stage lighting issues
- Quickly remove gaps between media events
- Widescreen converter tool for complete control over display of HD/SD 16:9/4:3 and mixed media and other automated pan/crop techniques
- Add image overlays at regular or fixed intervals for automated network bug placement and other watermarks
- Automatically add customized crossfades between video events
- Efficiently produce powerful video and photo montages
- Quickly split stereo tracks to separate mono tracks
- Easily create motion fly-ins over a background for video and still sequences
- Creates volume envelopes to duck audio for voiceover work
- Convert 4:3 full screen clips to 16:9, or pull a 4:3 center-cut from 16:9 material
- Add a film look to your projects with 21 included video filters
- Place lower thirds-includes over 50 animated lower thirds
- Create presets for repetitive batch processing workflows
- Encode video with built-in presets for a variety of delivery options
- Batch process media for playback rate, broadcast color, video filters, marker creation, image sequence creation, crop and aspect ratio, image background/underlay/overlay, audio normalization, and interlace flicker reduction.

MOTU V4HD Firewire Video Interface

ith one simple plug-and-play FireWire 400 or 800 nnection, the V4HD turns your Mac or PC into a werful HD/SD production workstation equipped th all the video and audio I/O you need. Connect your gear, from SD camcorders and monitors professional HD cameras, video decks, LCD ference monitors and plasmas – all at the same ne, with no cable swapping. Choose your input urce, then log and capture HD or SD clips directly to Final Cut Pro or Premiere Pro.

Captures and plays all standard HD and SD formats up to and including 1080p30 (720p, 1080i, 1080p and 1080PsF)
In Final Cut Pro, the V4HD supports full-raster1920 x1080 HD capture and playback using Apple's ProRes 422 codec in both standard and HQ modes. Final Cut users can ingest an uncompressed SDI or component HD source and then capture and edit in ProRes while monitoring their ProRes timeline in HD and SD simultaneously via the V4HD's hardware-accelerated up- and down-conversion.

In Final Cut Pro and Premiere Pro, the V4HD provides hardware-accelerated capture and playback of DVCProHD, DVCPro50 and DVCPro25 video streams, plus 8- and10-bit uncompressed SD with plug-and-play FireWire connectivity and CPU-efficient intra-frame editing.

Hardware-accelerated 2:3 or 2:3:3:2 pull-down insertion and removal — go between film and NTSC rates in real time, with no rendering required.

- Can instantly playback DVCProHD/P2 clips (imported or ingested) with no transcoding necessary. Conversely, you can connect any SD or HD video source such as an HDV camera, legacy video deck or DVD player and then capture it directly as a DVCProHD clip in Final Cut or Premiere.
- Many cameras now feed their uncompressed SDI or component output directly from the camera's optics and imager, before compression, for the best-possible picture quality during capture. Need to bring SD material into your HD project? The V4HD even provides hardware-accelerated SD-to-HD up conversion for capturing SD sources in DVCProHD format.
- Up/down conversion formatting — anamorphic, pillar box, letterbox, 14:9 pillar box, 14:9 letterbox and full screen
- Two rack space form factor with dedicated connectors — no cable swapping or gangly, inconvenient breakout cables.

logickeyboard™

Advance LogicKeyboard

The Advance line of keyboards use direct printing on keycaps with clear bright colors and friendly icon coded keys. They offer excellent graphical artwork and present a functional and stylish appearance, with logical key command groupings. These custom keyboards are based on the original Apple Pro Ultra Thin Alu keyboard. They offerplug-and-play setup with any USB-equipped Mac, with good feel and stylish, modern appearance that match the "new Apple look".

- Ideal for post-production facilities, video editors and anyone else who requires all the custom key commands to be readily accessible from a dedicated, clearly labeled, color-coded keyboard.
- They feature all the regular letter, number, and symbol labelling that you will find on a conventional keyboard, so it can either be added to your computer in conjunction with your conventional keyboard or simply be used as a substitute for it.

RED GIANT SOFTWARE

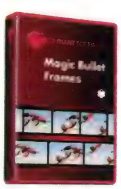

Magic Bullet Looks
Set the mood on any timeline

Desert sunrise, Arctic tundra, nighttime urban streets: the look of your footage defines the mood. Now you can define the style of your video or film, regardless of on-set conditions, with powerful imaging tools. Choose from 100+ Look presets, to help set the mood for everything from a wedding to the next Sundance original. You also get the stand-alone Magic Bullet LooksBuilder, for pre-visualizing looks on set or anywhere. Portable presets load into any editing hosts, so the same Looks you create on set are the ones you finish with in the editorial suite: no need for an expensive finishing system. *(B&H# REMBL)* **398.95**

Magic Bullet Colorista
Simple, fast, industry-standard color correction

Now that you've locked your edit, load Magic Bullet Colorista and make your project shine. Under the hood is the next-generation Magic Bullet engine with real-time processing for fast review and rendering. Colorista offers industry-standard color wheels for precise color control. Plus, use the Power Mask tool to isolate areas - the easiest way to light up your talent. *(B&H# REMBC)* **169.95**

Magic Bullet Frames
Give interlaced video the 24p look of film

Start with ordinary interlaced video, apply Frames, sophisticated algorithms, and you'll get the smoother, professional de-interlaced look of 24p film. Choose between motion-adaptive and field-blended approaches, and you'll get high quality footage at high speeds, right in your editor's timeline. NTSC-to-24p and De-interlacing filters offer both a field-blended and a motion-adaptive de-interlacing approach that deliver great artifact-free video. Includes letterboxing and line offset controls to easily create mattes and adjust the image inside the letterbox area. *(B&H# REMBF)* **198.95**

Magic Bullet Instant HD
Crystal-clear HD with one click!

Instant HD up-converts DV video into a variety of HD video formats. Choose from a list of preset resolutions to easily integrate DV video into your next HD production. When scaling from standard definition (SD) to high definition (HD), nstant HD's algorithms generate the missing pixels with integrated sharpening and anti-aliasing for sharp, clear results inside your favorite video application. *(B&H# REMBIHD)* **98.95**

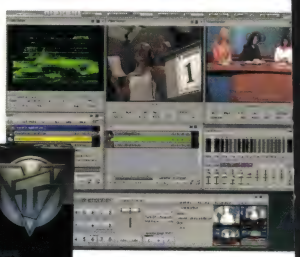

Magic Bullet Suite 09': Get all four plug-ins (Colorista, Frames, Instant HD, and Looks) in one money saving bundle *(B&H# REMBS09)* **699.95**

ToonIt 2.0

ToonIt 2.0 allows you to give video footage a cartoon aesthetic with unique algorithms to transform your image into cartoon shading and lines. Its plug-ins free you from time-consuming techniques like rotoscoping and hand painting. The plug-ins also offer precise control over styles, shading, and outlines. ToonIt 2.0 also adds the Heat Vision plug-in (mimicking the look of the Predator movies), 14 new styles, new presets, and faster output. *(B&H# RETOONRD)* **348.95**

NewTek VT[5] Integrated Production Suite

A TV studio in a box, VT[5] defines the cutting-edge in live production. More powerful, flexible and affordable than ever before, VT[5] features live switching and Web streaming of up to 24 cameras, live virtual sets, real-time keying, titling, the world's fastest SD & HD editing and video painting. All this is tightly integrated with everything you need for production, post-production, and graphics.

VT[5]'s extensive HD post production capabilities include sophisticated real-time, non-linear editing, video painting and a full-featured animated character generation package. VT[5]'s real-time, uncompressed video processing with component and optional SDI output delivers unsurpassed video quality. The optional SD switcher adds an additional eight SDI inputs and SDI routing functionality to the system. Designed for the video producer that wants to expand their services without breaking the bank, VT[5] gives the power, flexibility and functionality of a system costing much more. Whether the project calls for a live CEO message integrated with pre-edited segments or a complex edit for broadcast television, VT[5] gives you the tools necessary to complete your next award-winning project.

Authorized Reseller XSAN 2

SAN file system for Mac OS X

Xsan allows you to set up an enterprise-level Storage Area Network (SAN) using Apple Xserve RAID computers. Link multiple Xserve RAID's together using fibre-channel switches. Computers in your network running OS X with Xsan installed will be able to address them as a single volume.

- Xsan Admin 2 simplifies day-to-day SAN administration. Optimize configuration volume settings, or manage file system permissions with less errors.
- Access Xsan volumes simltaneously from a single workstation or server with MultiSAN
- Spotlight enables content preview on SAN volumes without even opening a file
- Share terabytes of data simultaneously over a high-speed Fibre Channel network
- Optimized workflow configuration settings for higher efficiency and maximum performance
- High-availability architecture eliminates single points of failure with mission-critical redundancy

(B&H# APXS2) **869.95**

Authorized Reseller

Mac OS X Server v10.6 Snow Leopard

Take the power of OS X into a Server Environment

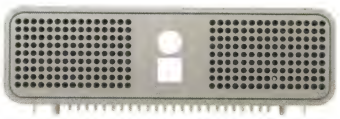

Mac OS X Server v10.6 Snow Leopard is a powerful 64-bit server operating system with new features and applications that make it easier for everyone in your organization to collaborate, communicate, and share information. It's simple to set up and manage, and it's up to twice as fast as its predecessor, improving performance for file sharing, mail, web hosting, and more.

- Quickly manage users, groups, and services from anywhere on your network.
- Monitor your server with the Server Status Dashboard widget.
- Add new client computers with almost no effort.
- iCal Server 2 lets you share calendars, coordinate events, and schedule meetings within a workgroup, a small business, or a large corporation.
- Podcast Producer 2 lets you capture, encode, publish, and distribute podcasts with ease — perfect for employee training, university lectures, presentations, and more.
- Address Book Server lets you synchronize and access contacts across multiple computers.
- Deploy scalable mail services with junk filtering and virus detection for everything from a small workgroup to tens of thousands of users.
- Ensure secure remote access to your business network from anywhere. Securely access firewall-protected services without using VPN. Use the organization's existing directory service for authentication. Enjoy strong encryption and authentication thanks to Transport Layer Security (TLS) technology.
- Use your own wiki-powered website to easily collaborate and communicate within your group.

StoragePro™

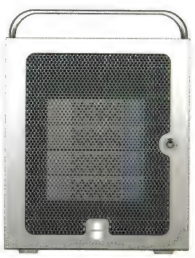

iStoragePro Dock Quad Interface Drive

The iStoragePro Dock, complete with one 3.5" drive (up to 7200 rpm) is the perfect storage solution for traveling business people: portable and stylish for today's lifestyle. iStoragePro Dock (3.5") is equipped with a quad interface, offering simple and quick connectivity by providing USB 2.0, FireWire400, FireWire800, and eSATA ports, all in a single, compact unit. This efficient interface simplifies setup, providing for cost-effectiveness without compromising performance. The drive can write at speeds to 60MB/sec. Passive heat-sink to ensure data integrity and reliability. Includes universal AC adapter and 3-year warranty.

The iStorage T4 eSATA system is equipped with a high performance SATA II port multiplier Chipset Technology. Just a single cable connected to a SATA RAID controller card is capable of providing high speed video storage. This efficient interface simplifies setup and saves money without compromising performance. Can be used with Apple Final Cut Pro and Adobe Premiere Pro CS4, as well as video capture cards from AJA, Blackmagic Design, Bluefish44 and Matrox. When connecting with the PCIe RAID controller, can easily can be configured as a RAID 0, 1, 5, 10, or as a JBOD, capable of providing performance and fault-tolerance necessary to protect your video.
Includes four hot-swappable disk module, 1TB or 2TB 3.5" SATA II drives each with up to 32MB cache and higher. Includes 120-240VAC auto switching power supply and 3-year warranty.

iStoragePro T5 5-bay eSATA JBOD System

iStorgaePro T5 eSATA system is equipped with a high performance SAT II port multiplier Chipset Technology providing a high speed storage solution. Simply put, its a single cable that connects to SATA RAID controller card. This efficient setup provides cost-effectiveness without compromising performance. The higher speed of PCI Express also easily handles advanced formats such as full resolution 1080i HD, 720P, HDV and SD video capture and playback mode. Only high speed PCI Express SAS/SATA RAID Card HBA ensures RAID Protection for your Data, Can easily configured as a RAID Level 0, 1,5,6, 10, capable of providing high performance to support your vdeo application. iStorage-Pro works in Windows XP, Windows Vista, Windows Server, Mac OS X, and Linux systems that supported by HBA RAID card manufacture.

Celerity FC-44ES 4Gb Fibre-Channel

Quad-Channel PCI Express Host Adapter

ATTO Technology, Inc.

Available in PCI-X or PCI Express, the Celerity host adapter supports 4Gb Fibre-Channel devices. Choose from quad, dual, or single-channel models. Full-duplex connections support up to 800MB/sec per channel. Fully backwards compatible with 1Gb and 2Gb devices, the adapter features ADS technology for superlative results.

4GB Quad-channel PCIe *(B&H# ATCTFC44ES0R)* **2399.95**
4GB Dual-channel PCIe *(B&H# ATCTFC42ES0R)* **1199.95**
4GB Dual-channel PCI-X *(B&H# ATCTFC42XS0R)* **939.95**
4GB Single-channel PCIe *(B&H# ATCTFC41ES0R)* **927.95**
4GB Single-channel PCI-X *(B&H# ATCTFC41XS0R)* **834.95**

G-SPEED FC

SAN-Ready RAID Storage Solutions for SD and HD Production

G-SPEED FC is the ideal storage solution for multi-stream, multi-user SD and uncompressed HD work flows. G-SPEED FC features 4Gbit Fibre Channel connectivity and is available in a compact desktop enclosure with 6 Hitachi® SATAII drives. G-SPEED FC can be configured (via a front panel LCD or Web GUI) as a JBOD or in RAID levels 0, 1, 3, 5 or 6. Supports multi-stream ProRes 422 and uncompressed SD/HD workflows. Web-based configuration and management. Auto-rebuild and email notification. Removable cooling fan ensures reliable operation and data integrity. Ships complete with SFP to LC module and 2-meter optical cable. Macintosh and Windows compatible. Comes with 3-year warranty.

6TB *(GTGS6TBFC)* ..... **Call or Log-on** **9TB** *(GTGS9TBFC)* **5599.0**

G-SPEED eS PRO

High-performance, Fail-Safe RAID for HD/2K Production

G-SEED eS PRO provides professional content creators with better than fibre-channel performance for demanding post production applications at a fraction of the cost. Compact and whisper quiet, they feature mini-SAS connectivity to a high performance PCIe x8 IOP RAID controller that supports RAID levels 0,1, 3, 5 or 6. A single G-SPEED eS PRO enclosure with four 7200rpm SATA II drives in RAID 0 mode supports multi-stream ProRes 422 HQ playback and a single-stream of uncompressed 10-bit HD. Two units with eight drives in protected mode (RAID 3 or 5) supports two simultaneous streams of uncompressed 10-bit HD or a single 2K DPX sequence. G-SPEED eS PRO is simply the most affordable, fail-safe desktop RAID storage solution designed specifically for high-end post.
Mac and Windows compatible. Come with 3-year warranty.

G-Speed eS PRO XL

High-Performance, Expandable Fail-Safe RAID Solutions for Uncompressed HD and 2K Production

The G-SPEED eS PRO XL is a cost-effective, expandable storage solution designed for content creation professionals working with multi-stream uncompressed HD and 2K workflows, and digital intermediate (DI) film applications. G-SPEED eS PRO XL easily expands by simply daisy-chaining 12- or 16-bay enclosures using locking mini-SAS cables. A total of (8) enclosures can be connected to the system for up to 192TB of incredibly fast online storage!
It features the same IOP RAID controller used in the G-SPEED eS PRO system with (2) 12Gbit mini-SAS ports, RAID 0, 1, 3, 5, 6 and JBOD support, and performance over 800 MB/sec. A single 12-bay G-SPEED eS PRO XL can support real-time multi-stream 10-bit 1080/60i and 2K DPX workflows. Adding high-performance storage has never been so simple - or cost effective. Mac and Windows compatible. Comes with 3-year warranty.

Dulce SYSTEMS PRO Duo-eSATA

External Hard Drive Array

e PRO Duo-eSATA houses two of the latest SATA k drives; each is rated for a speedy 3Gb transfer e. Combining the two fast disk drives gets even gher data rates. Using the operating system to ipe the two drives, you will get an amazing 0MB/s. This translates to many real-time video eams for editing and playback to save you time in ur editing workflow, getting your project done on time and on dget. If you need more real-time playback and higher data rates than FireWire 800 can provide, the RO Duo-eSATA is your solution.

he PRO Duo-eSATA comes complete with two high performance disk drives installed, a two eSATA port CI-e 1x Host Adapter for workstations or Express Card/34 for laptops, two 1-meter eSATA cables, and power module.

TB PRO Duo-eSATA External Hard Drive Array *(B&H# DUPDE2000GB3)* **598.00**

Dulce SYSTEMS Quad es

SATA RAID Protected Storage

Your time is money, so protect your creative work as you work. The snazzy looking Quad es model combined with the supplied PCI-e full featured RAID controller provides a sweet spot for price and performance the video professional demands. The stylish looking Quad es is fully populated with 4 or 5 hard disk drives giving a top capacity of 4TB in RAID 0 striping performance mode, this is about 55 hours of 8 bit uncompressed SD video. Handles HD resolution as well. Equipped with a large 120mm fan, virtually the entire rear panel is designed to circulate cool air through the hard drives. The an is large but it is tame, it operates at a lower RPM and it's very quiet. Cool drives means happy drives. Dulce Systems confidently provides the industry's longest warranty-42 months.

- The fully loaded RAID controller is highly configurable but yet it is simple to use. The controller supports RAID 0, 1, 3, 5 and JBOD with hot spares.
- The instant availability and background initialization features saves you from hours of RAID format time. In fact, the Quad comes pre-formatted for Mac OS X. For Windows a short format process is required. The Quad es is supplied with an 8 lane PCI-express RAID controller.
- A web browser accessed RAID Manager provides quick and easy RAID management. The Quad comes pre-configured for Mac OS X in RAID 0 mode, so it might not be necessary to access the RAID Manager initially. But, should you want to change the configuration or manage the disk drives, you are just a couple of clicks away from the RAID Manager.

Dulce SYSTEMS PRO DQ g2

The Fastest PCIe RAID 3/5/6 Protected Storage

The PRO DQ g2 (generation 2) improves on the original field-proven SATA RAID to benefit demanding video editing and content creating professionals. The fastest Extended PCIe SATA RAID storage in it's class - over 100MB/sec. The high-performance RAID controller is enhanced with an Intel IOP348 RAID processor running at 1.2GHz producing reliable data protection and exceptional data throughput.

Additionally, the PRO DQ g2 is fully populated with 8 enterprise class high performance 1TB 3.5" 7200 RPM SATA disk drives, running in RAID 3 or 5 protected mode, the PRO DQ g2 can pump out 690 MB/s sustained. That is over 100MB/sec faster than the earlier models! Want to run faster? Configure the RAID engine to RAID 0 mode and the PRO DQ will scream at 800 MB/s.In the double protection RAID 6 mode the PRO DQ g2 at 580MB/s will out run other lesser protected RAID storage. All this performance translates into productive real-world work flows. Look at all the real-time playback the PRO DQ g2 can provide, your creativity has never been this efficient.

CalDigit HDElement

A new horizon in RAID storage with high performance and protection, HDElement is the ultimate solution for reliability with support for RAID 0, 1, 5, 6, 50, 60 and JBOD. The HDElement is the compact 4-bay hardware RAID storage that you've been waiting for. It comes with CalDigit's RAID Card that gives you hardware protection for your valuable data. It also gives you room to grow. Thanks to CalDigit RAID Card's multiple external ports. You can connect up to 3 HDElements, that's up to 12 additional drives.

- Powered by the CalDigit RAIDCard, the HDElement has a 100% hardware disk controller that comes with its own independent CPU. This means that the CPU uses less cycles and power than a software solution, and leaves your workstation's CPU free to do what it has been designed for - running your applications. Hardware RAID also gives you the ultimate in protection from OS corruption or crashes while a software application gives no protection at all.
- Any highs (peaks) and lows (drops) during data transference are equalized by ASTT (Active Sustained Transfer Technology) .It optimizes the best transfer size and timing between the RAID controller cache and the host machine.

CS-320R / 450R / 460
Scan Converters

Scan converters that inputs a computer generated video signal up to 1024x768, and outputs a standard resolution composite, Y/C and RGBS signal in the NTSC and PAL television standard. They work very well for computer generated presentations, eliminating interlace flicker without resolution loss.

CS-320R #AVCS320R **$259.95**
CS-450R with Overlay (Genlock) #AVCS450R **$569.95**
CS-460R Internal Scan Converter with Genlock/Overlay #AVCS460 ..... **$499.95**

EXT-HDMATE-S
Video Up-Converter

Scale up standard or high-definition video sources to resolutions up to 1080p. Inputs include (2) component and (1) DVI source. Digital TOSlink and analog audio inputs. On-screen menus for easy setup and image adjustment are accessible via the supplied IR remote control. Digital TOSlink and analog audio inputs are supported.

- Single Link Range—1080p/1920 x 1200

#GEHMS **$319.95**

1290 / 1291 / 1292
Scan Do Scan Converter Series

These high-performance scan converters support computer signals from VGA, Mac, and RGB, up to a resolution of 1280 x 1024. Built-in color bar generator and RS-232.

1290 Scan Do Select with composite and S-video outputs #COSDS **$999.95**
1291 Scan Do Pro II with RGB and YUV outputs #COSDPROII **$1,549.95**
1292 Scan Do Pro IID with SDI output #COSDPROIID **$2,799.95**

C2-2200A / 2250A / 2255A
Video Switcher/Scalers

High-qu ality scaling to analog or DVI computer and HDTV signals that support NTSC & PAL. Inputs include (2) Composite video, (2) S-Video, and (1) YUV /YPbPr component. Computer input signals can be scaled to resolutions up to 2048 x 2048. Also offer 4 x 1 switching.

C2-2200A #TVC22200A **$1,549.9**
C2-2250A Adds picture-in-picture, chromakey, lumakey and mixing #TVC22250A **$2,120.7**
C2-2255A C2-2250A plus SDI #TVC22255A **$2,299.9**

EXT-HDSDI-2-DVI-SSL / SP
HD-SDI/DVI Scalers

Scale up SD/HD-SDI single or dual-link mode sources to a full single-link DVI-D output signal. Outputs resolutions up to 1080p. Includes Gennum's VXP scaler for superior picture quality. Controlled with an IR remote control or via RS-232 connection.

EXT-HDSDI-2-DVISSL Single-link SD/HD-SDI to DVI #GEHSDCSLS **$949.95**
EXT-HDSDI-2-DVISP Two SDI/HDSDI connectors to DVI #GEHSDCSG **$1,099.95**

CVG-719XL / CVG-720XL
7 Input Presentation Scaler with Audio

Multi-standard video to RGBHV scaler, and 7-input seamless presentation switcher. Digitally reprocesses the signal and regenerates the video at a chosen line and pixel rate format. Convert composite, Y/C, component, VGA-UXGA, & DVI-D signals to fourteen user-selectable pixel rates—1024 x 852/1024, 1366 x 768, 1365 x 1024, 1280 x 720, 720 x 483, 852 x 480, 1400 x 1050, as well as a user desirable output mode, and 3:2/2:2 pull-down. Built-in proc-amp for video and RS-232 control.

CVG-719XL #COCVG719XL **$1116.00**
CVG-720XL With picture-in-picture #COCVG720XL **$1276.00**

C2-1100 / 1150
Video Down-Converters

C2-1100 down-converter with CORIO2 technology provides high-quality scan conversion from computer or HDTV signals to standard video formats. Handles any computer resolution up to 2048 x 2048 at any vertical refresh rate and all HDTV resolutions up to 1080p. Video outputs are switchable between NTSC and PAL. Connectors include— HD-15, Composite, S-Video and YUV Component, RS-232. Rack mountable.

C2-1100 #TVC21100 ..... **$1074.95**
C2-1150 With genlock #TVC21150 ..... **$1,399.95**

IMAGE PRO HD SERIES
Multi-Format Signal Processors

The Image Pro HD's are powerful, all-in-one signal processors that accept a wide range of video inputs and funnel them into different signal formats. They function as high-performance video scalers, scan converters, switchers and transcoders. This is ideal for converting RGB, HDTV, component, S-video, Composite (NTSC, PAL, and SECAM), DVI, SDI and HD/SDI into user-selectable video formats. Aspect ratio conversion, memory presets, test patterns, genlock, picture adjustments, and motion adaptive de-interlacing detection included.

1x8 Analog Video Distribution Amplifier

Amplifies and distributes a single analog video input into eight separate video signal outputs. Ideal for distributing a single video signal throughout a facility or multiple home displays. Durable, rugged metal case for adequate shielding.

1T-DA8CVB 1x8 composite (BNC) D/A #TV1TDA8CVB **$129.95**
1T-DA8SV 1x8 S-video D/A #TV1TDA8SV **$129.95**

HD-D205
HDMI Distribution Amplifier

Split (2) HDMI video sources to (5) HDMI displays. Daisy-chain up to (4) of these units for increased distribution capacity. This unit features built-in signal amplification to ensure lossless, noise-free signal transmission over extended distances. Blu-ray compatible and HDCP compliant on all output channels.

#RTHDD205 ..... **$394.95**

1T-HDMI-612 / 614 / 618
HDMI Distribution Amplifiers

Designed to convert (1) HDMI input into multiple HDMI outputs without signal degradation or loss of encryption. Supports 480i, 480p, 720p, 1080i, and 1080p resolutions. Certified by the Silicon Images ATC Laboratory and supports DDWG standard for HDMI, HDCP, and RoHS compliant monitors. Maximum bandwidth capacity of 1.65GHz. Supports a maximum cable distance of approximately 50'.

1T-HDMI-612 #TV1THDMI612 ..... **$284.95**
1T-HDMI-614 1x 1x2 HDMI #TV1THDMI618 ..... **$239.95**
1T-HDMI-618 1x4 HDMI 8 HDMI #TV1THDMI614 ..... **$469.95**

EXT-DVI-144 / 145 / 147
DVI Signal Distribution Amplifiers

Gefen stackable DVI signal distribution hubs allow you to send (1) DVI graphics source to multiple DVI digital displays. The unit includes built-in DVI detection for storage of EDID data and supports DDWG standards for DVI monitors. Supports 1.65 Gbps video amplifier bandwidth, and maintains the highest DVI, single-link 1920 x 1200 video resolution.

EXT-DVI-144 1x2 #GE1X2DSDA **$259.95**
EXT-DVI-145 1x4 #GE2X4DSDA **$519.95**
EXT-DVI-147 1x4 #GE3X6DSDA **$759.50**

EXT-HDMI-142 / 144 / 148
HDMI Signal Distribution Amplifiers

Output to multiple HDMI/DVI monitors from one video source. Allows satellite receivers, HD-DVD players, and other HDTV devices with HDMI output to be displayed on multiple HD monitors from one source signal. Daisy-chain multiple splitters to form a network. Maintains high-resolution video up to 1080p, and computer resolutions up to 1920 x 1200

EXT-HDMI-142 1x2 #GE1X2HHDA **$259.9**
EXT-HDMI-144 1x4 #GE1X4HDA **$419.9**
EXT-HDMI-148 1x8 #GE1X8HDMDA **$779.9**

SDA-172P / LKS-WSU
1x3 SDI Distribution Amplifiers

SDI video distribution amplifiers accept an SDI digital video signal and outputs three signals for distribution. The input automatically adjusts to formats of 143, 177, 270, 360 and 540 Mbps, and re-clocks and equalizes the signal to 250 meters of cable.

SDA-172P 1x3 SDI D/A #MISDA172P **$434.95**
LKS-WSU Required LKS-WSU universal wall plug-in power supply #MILKSWSU **$69.95**

LEI-550 / LEI-555 / LEI-589
1x6 SDI Video Distribution Amplifiers

Output 6 SDI signals from one source. Offers automatic EQ and dual-gain control outputs to adjust video levels on (2) 3-output banks for variable video level adjustment.

The LEI-155 step-up re-clocks the input signal for distribution over longer distance cables.

LEI-550 #LILEI550 ..... **$504.95**
LEI-555 Re-clocking up to 500 feet #LILEI555 ..... **$548.95**
LEI-589 SD-SDI closed caption decoder, Two fields #LILEI589 ..... **$839.95**

VM-1042 / 1044 / 1055
High-Resolution Distribution Amplifiers

With over 400 Mhz of video bandwidth, the HRS-02-DR5 is the perfect choice for all high-resolution presentation or broadcast applications. Ultra-wide bandwidth supports high-resolution RGB, RGBS, RGBHV, YUV component video and HDTV.

VM-1042 1x2 component video (200MHz bandwidth) #KRVM1042 ..... **$504.00**
VM-1044 1x4 RGBS, YUV, component video (320MHz bandwidth) #KRVM1044 ..... **$374.95**

STUDIO VIDEOHUB
HD/SD SDI Routing Switcher

The Studio Videohub Router from Blackmagic Design is a solution designed to eliminate complicated, manual video patching by allowing you to connect all your equipment to a single router controlled via software. This unit is a broadcast-grade routing switcher that features (16) inputs, (32) outputs, and (16) deck control ports. It supports auto-switching with SD, HD, and 3Gbps SDI. The chassis can be mounted in a standard 19" equipment rack and its slimline profile is only several inches deep.

BLVHUBST ..... **Call or Log-on**

862-XL818HD-3A
HD-SDI Video Router with Analog Stereo Audio

This 8x8 HD/SDI routing system features a modular design. Video and audio upgrades are available via plug-in modules. Two power supply slots are accessible from the front panel. One power supply comes standard. A redundant power supply is available as an option. Detachable X-Y front panel control has an Ethernet 10-base-2 coaxial connection. RS-232 is provided through a standard D-sub connector. Modular construction offers configuration flexibility for the user, providing easy options for adding features or upgrading digital modules.

- Maximum of 256 Remote Panels

#LI862XL818HD 8x8 HD/SD SDI routing **$7,899.95**

WFM-5000
HD/SD-SDI Portable Waveform Monitor

Tektronix

This studio or the field video monitoring/calibrating tool employs fully digital processing for accurate, repeatable, drift-free operation. It offers automatic format detection, and an integrated adjustable high-luminosity display that is sharp and easy to read in full sunlight. The front-panel has a USB for easy transfer of instrument presets and audio headphone ports, and screen shots and an error log are easily downloaded via the Ethernet port. 32 user-configurable presets for quick configuration recall and monitor for up to (16) embedded channels (1 AES audio input). Audio bars and Lissajous curve displays.

#TEWFM5000 ..... **$6,643.95**

5850V NTSC
Vectorscope Line Select Monitors

LEADER

The 5860V composite, waveform monitor accepts two separate analog composite signals with a picture monitor output for viewing and specific line selection for horizontal sweep. The 5850V vectorscope accepts an analog composite signal for color phase measurements, and has a line select signal to display vector information for the selected line.

#LE5850V NTSC Vectorscope Monitor **$2,417.75**
#LE5860V NTSC Waveform Monitor **$1,990.25**

5872A
Waveform Monitor and Vectorscope

LEADER

Waveform Monitor and Vectorscope combination that accepts 2 composite signals. Overlays the signals so they can be compared or viewed simultaneously. Differential Gain/Differential Phase measurements are possible with this unit. Line select with 9 presets, full raster line select, chroma and IRE filters, universal voltage.

#LE5872A **$4,745.95**

SVR-1100S8B
2-Channel Waveform/Vectorscope

COMPUVIDEO

The SVR-1100 S8B has dual-chan. composite & 1-ch. Y/C, 1-ext. reference w/loop thru inputs and subcarrier capture ± 50Hz. The SVR-1100 DV adds 1-4:2:2 serial digital, parade with vector, analog/component 525/60 & 625/50, Digital encoder SDI to composite.

#COSVR1100S8B Dual-channel **$2,298.95**
#COSVR1100DV 4:2:2/SDI **$4,498.95**

SVR-1700HSD
HD/SD Waveform and Vectorscope

COMPUVIDEO

The SVR-1700HSD is a two-channel combination waveform monitor and vectorscope; it measures SDI High Definition/Standard Definition, composite and component HD/SD video signals, offering standard features within a monochrome display.

- Smart Master Control • 6" CRT • Multiple displays
- Variable Sweep • Multi-function • DA outputs

#COSVR1700HDS **$5,799.95**

TWIN SPLIT RGB
1x2 RGB Distribution Amplifier with Sync

Communications Specialties, Inc.

The Twin Split RGB is a 1x2 component video distribution amplifier that splits either RGB or YUV signals and offers input/output options for various sync signals. Its fully buffered quality output circuitry isolates each output so that if a problem with one cable arises it will not affect the other outputs. Sync options consists of Composite Sync, Separate H&V, Sync on Green, and Sync on All.

#COTSRGB **$339.95**

CVG-CVA2LD / CVG-SVA-2LD
Video, Stereo Line Drivers / Distribution Amplifier, Level, and EQ

Comprehensive

Boost your audio and video signals with these audio and video line drivers, distribution amplifiers. They have one A/V input and drive that video and stereo audio input to two equalized outputs, up to 500 feet.

CVG-CVA2LD Composite Video
#COCVGCVA2LD **$239.20**

CVG-SVA-2LD S-Video (Y/C) Video
#COCVGSVA2LD **$239.20**

EXT-COMP-141N / EXT-COMPAUD-141
Component RGB Extender

Gefen

Component (RGB) video extender is a sender with receiver system that transfers signals over single common CAT-5e network cables up to 330' (100 m). Supports HD resolutions up to 1080p without any reduction in video quality. The EXT-COMPAUD-141 can transmit two-channels (left +right) of analog or digital audio.

EXT-COMP-141N Component #GEECVC **$273.95**
EXT-COMPAUD-141 Component with Audio #GEEXTCOMPAUD **$364.95**

EXT-FW-1394B
FireWire Extender

Gefen

Transmit FireWire-800 or FireWire-400 data signals over 2-strand LC-LC fiber optic cable. This cable supports runs of up to 1640' (500 m), making it an ideal solution for remotely locating FireWire devices. This kit includes a transmitter, receiver, power supply, and FireWire cables. The required fiber optic cabling is not included. Cross platform compatible.

#GEFWE **$824.95**

KRVP-103
Interface Converter and Line Driver w/ Cable Equalization

OCEAN MATRIX

KRVP-103 is an interface converter for computer generated video; it accepts video from a computer source on an HD-15 connector and interfaces to a 5 BNC output for RGBHV connectivity. This device also features cable EQ and line amplification to drive a projector and local monitor simultaneously.

#OCKRVP103 ..... **$336.95**

DPR
HDMI Repeater Module

RT COM

The RTcom HDPR is a repeater designed to extend the maximum length of one High Definition Media Interface (HDMI) connection. With the standard becoming the primary HDTV transmission method, custom installations often require longer cable lengths than the maximum HDMI length of 16 ft (5m). This module allows two HDMI cables to be chained together with no signal loss.

RTHDPR180 1x8 S-Video D/A **$149.95**

IEEE-1394B
FireWire Fiber Optic Box Repeater/Extender

RT COM

IEEE-1394B Fiber Optic Repeater allows any FireWire 400 or FireWire 800 device to be placed up to 1,640' (500 m) away from a computer or other signal source by converting the signal to a fiber optic one to transmit over multi-mode glass of fiber (MM GOF). Extends any IEEE 1394b device up to 820' (250 m) at 62.5/125um and 1,640' (500 m) at 50/125um.

#RTIEEE1394B **$898.95**

AVT-8710
Multi-Standard Time Base Corrector

Eliminate picture jitter and time base errors in video tape playback.

- Processes NTSC, PAL and SECAM video signals
- Automatic gain control
- Digital comb filter provides superior signal decoding
- Built-in color bar generator that sends out a test pattern when there is no video input

#AVAVT8710 ..... **$214.95**

TBC-1000 / 7000
Single Channel Time Base Corrector

datavideo

Correct unstable video without signal noise or loss, plus adjust video levels. TBC-1000 is also a 1x4 D/A.
The TBC-7000 TBC has freeze frame, genlock, color bars & YUV 4:2:2 color sampling.

TBC-1000 Single Channel TBC and 1x4 D/A #DATBC1000 ..... **$474.95**
TBC-7000 2-Channel TBC w/Dual-Layer Chroma key #DATBC7000 ..... **$959.95**

1T-TBC
Multi-Standard Time Base Corrector

tvone

Multi-standard time base correctors that correct for time base errors in videotape playback or to correct for instability in most video signals

- Composite, Y/C, Proc-Amp, NTSC, PAL, SECAM
- Built-in processing "Proc-amp" amplifier
- Comb filter for decoding video input

#TV1TTBC **$369.95**
#TV1TTBCGL with Gen-Lock **$459.95**

AR-31R & AP41 SERIES
TBC/Frame Sync/Proc-Amplifiers

HOTRONIC, INC.

The AR-31R is a TBC/Frame sync offering Y/C and composite input and output.

- Digital comb filter • Genlock for reference
- AP-41 series are and have front panel potentiometers to control video image levels

AR-31R TBC Frame Sync with Remote #HOAR31R **$799.95**
AP-41 TBC Frame Synchronizer #HOAP41 ..... **$954.95**
AP-41SF Time Base Corrector / Frame Synchronizer #HOAP41SF **$1,249.95**

AP-41SPD Time Base Corrector / Frame Synchronizer #HOAP41SPD **$1,874.95**

QS-440-1
Four Channel Picture In Picture

KeyWest TECHNOLOGY

Four channel picture- in-picture with the ability to adjust size, position, aspect ratio and edge enhancement.

- Independent channels- composite, Y/C • Genlock input • Key out • TBC • Proc-amp • NTSC/PAL
- RS-232 control • Rack mountable

#KEQS4401 ..... **$3,099.95**

SP-11D
Video Processor

KRAMER

Broadcast quality, video processor that functions as a proc-amp, a TBC, a format converter and a standards converter for composite video, S-Video (Y/C), RGB/component video (YUV or RGBS) and SDI video signals. The original and processed image can be viewed simultaneously with the split screen output enabled. NTSC, PAL and SECAM analog formats can be inputted and output in any other standard.

- Rackmountable • Screen splitter

#KRSP11D **$3,116.95**

BVTBC10
10 Bit TBC / Frame Synchronizer

KeyWest TECHNOLOGY

These series time base correctors and synchronizers have composite and Y/C I/O's with full proc-amp controls and genlock. Plus the units have freeze frame, color bars, pedestal level, detail and NTSC and PAL standards adjustments.

#KEBVTBC10SI SDI Input, Y/C I/O, Composite I/O, RS-232, NTSC PAL **$1,495.95**
#KEBVTBC10SO Composite, Y/C, SDI Output, NTSC PAL, RS-232 ..... **$1,594.95**
#KEBVTBC10SD Composite, Y/C, SDI, Genlock, RS-232 ..... **$1,684.95**

50II / 50III
Time Base Corrector / Frame Synchronizer

Prime Image

Full-featured video TBC, frame synchronizer, and proc amp that is ideally suited to exceed a wide variety of video production applications. It does full transcoding of composite and component signals, and inputs may be synchronous or non-synchronous. The 50 III add inputs SDI 525/635 (SMPTE 259-C), and component (Y:R-Y:B-Y) with proc amp control on all inputs.

50II Composite Y/C #PR50II **$1,889.95**
50III SDI and Component #PR50III **$4,499.95**

Optoma
PK-101 PICO POCKET PROJECTOR

Give a presentation any-where on just about any surface. Just 4 oz.the palm-sized PK-101 can project an image size up to 60" almost anywhere from a wide array of sources like camcorders, media players and video phones. Even includes an iPod dock connector. Features DLP Pico technology, a bright LED light source and a lithium-ion battery that lasts up to 90 minutes.

#OPPK101 ..... **249.00**

Optoma
PK-102 PICO POCKET PROJECTOR

Give a presentation any-where on just about any surface. Just 4oz. the palm-sized PK-102 can project an image size up to 60" almost anywhere from a wide array of sources like camcorders, media players and video phones. Same features as the PK-101 except instead of an iPod dock, it has 4GB of memory to hold up to 6000 pictures or 8 hours of video. Includes a VGA cable adapter for connection too PCs and laptops.

#OPPK102 ..... **249.00**

3M
MPRO120 POCKET PROJECTOR

The MPro120 projects images from 8-50" and incorporates next-generation features like built-in sound, brighter and more color-ful picture, plus a battery that lasts 2-4 hours. Energy-efficient LED technology de-livers a whopping 20,000 hours of opera-tion. Works with computers, cell phones, iPods/iPhones, PDAs and more to project files, photos and movies almost anywhere there is a surface.

#3MMPRO120 ..... **329.00**

InFocus
IN2102 COMPACT DLP SVGA PROJECTOR

The IN2102 features 2500 lumens and a 2000:1 con-trast ratio, plus a host of connectivity options includ-ing multiple computer and audio inputs an RS-232 port and a wireless-ready port for easy upgrades to InFocus LiteShow II. For convenience, it offers ±20° keystone correction, Kensington lock and PIN code. Rated for 24/ 7 operation. Lamp lasts up to 3000 hours.

Visual Presenter with Built-in Mic

Provides images and microphone capabilities via a USB cable that plugs into your computer or RCA video connector. View, capture, edit, and share images.

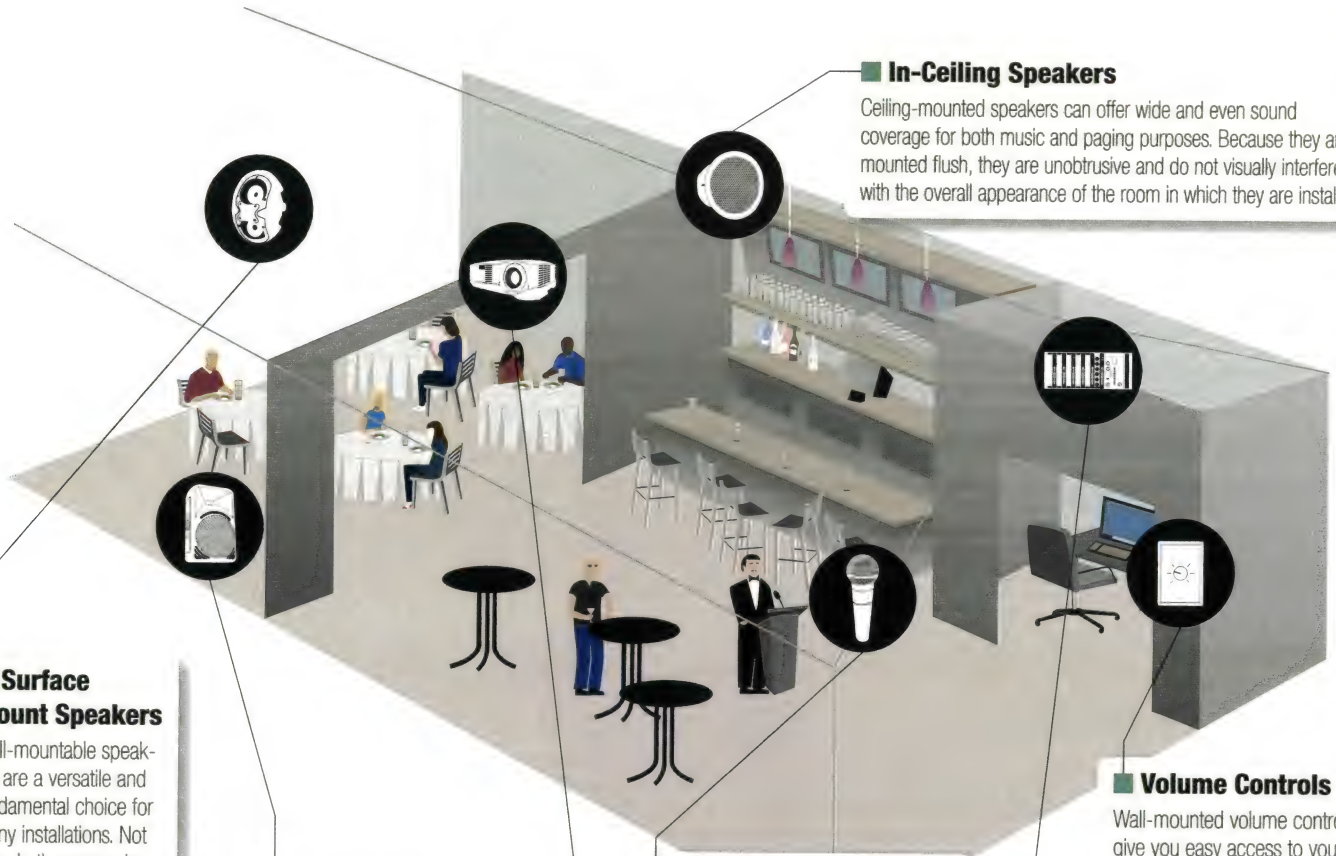

- Flexible 20" neck and rugged, sturdy base
- Head also rotates 180 degrees • USB 2.0 Driver software for PC or Mac

#BUVP20M **$299.95**

MULTIMEDIA FOR THE MIX MASTER

A/V presentations are made in conference rooms, auditoriums, lecture halls, and even outdoors. The right gear means the difference between having your attendees leave well-informed or confused and irritated. It all depends on where the presentation is being made, the size and type of audience, whether indoors or out, and business or pleasure. You'll need more oomph and pizzazz (watts) at weddings, trade shows, and block parties than you'll need at business meetings or quiet restaurants.

In-Ceiling Speakers

Ceiling-mounted speakers can offer wide and even sound coverage for both music and paging purposes. Because they are mounted flush, they are unobtrusive and do not visually interfere with the overall appearance of the room in which they are installed.

Surface mount Speakers

Wall-mountable speakers are a versatile and fundamental choice for many installations. Not only do they come in a wide variety of sizes and configurations to fit almost any situation, but the angle of their placement can usually be adjusted for maximum effectiveness.

Loudspeakers

Housed in rugged injection-molded cabinets, loudspeakers are ideal for front-of-house and monitor applications, in both permanent and temporary installations. Mounted on stands or using fly points with bar handles, these need to be powerful enough to reach your entire audience. Outdoor use typically requires more power than indoors.

Microphone

A microphone will allow you to page patrons, make announcements, and present speeches. Gooseneck, desktop, and handheld mics are just a few of many other ideal installation choices.

Volume Controls

Wall-mounted volume controls give you easy access to your sound levels when they are placed in logical locations throughout your installation. Some models even offer complete on/off zone control and paging-level maximization.

Projector

These are used to show video, stills, and slide shows on a big screen. Small portable units are best for use on the road, while the larger and brighter units are better for permanent installations. You'll need extra brightness for presentations in well-lit environments.

Distribution Amplifier/Mixer

You'll need a way to mix incoming signal sources and route them to your choice of destination zones. Some models combine distribution, mixing, voice ducking, and amplification into one convenient unit.

DN-C615
DENON

Professional CD and CD-R/RW Player with MP3 Decoder

The DN-C615 is an affordable single-tray CD player with a host of features normally found on much higher-priced units. Ideal solution for schools, churches, small radio stations, and small venues.

• Low-cost professional CD player with Instant Start • Coaxial S/PDIF output
• 2U rack-mount chassis • CD-R/RW/MP3 Playback compatibility • Pitch control ±12%

#DEDNC615 ..... **$299.00**

MULTIMIX 9R
ALESIS

9-Channel Rack-mount Audio Mixer with iPod Dock

Rack-mounted tool for mixing and playback directly from an iPod. It also includes video output.

• Integrated universal dock for iPod • (5) High-gain XLR and 1/4" balanced mic/line preamps
• 48V phantom power • Three band EQ with high/low shelving and band pass/reject

#ALIMM9R **$299.00**

RS80
ROLLS

Quartz PLL Synthesized AM/FM Tuner

The Rolls RS80 is a rack-mountable quartz PLL synthesized AM/FM tuner ideal for situations where reliability and sound quality are of the utmost importance. This unit is usable worldwide, thanks to programmable 9-10kHz AM center switching.

• Single rack space steel construction • Up to 40 AM/FM presets • Auto search and store function • Switchable between 120 and 230 volts

#RORS80 ..... **CALL**

RM67
ROLLS

6-Channel Rack-mountable Mic/Source Mixer

The RM67 is a versatile single rack space audio mixer that is ideal for paging and music with its convenient talk-over feature. A remote volume jack allows external control, making it perfect for karaoke bars, aerobic studios, clubs and restaurants, or audio/visual presentations.

• (3) XLR mic inputs with phantom power • (4) stereo RCA inputs
• Pre-master mix output record capability • Mic inserts for processing mic inputs

#RORM67 ..... **CALL**

MX152
ROLLS

MixMate Compact Microphone and Line Level Audio Mixer

The MX152 is a compact mic/line mixer that provides an efficient way to mix easily sources such as CD players, AM/FM tuners, video players, and dynamic or condenser microphones. It features two XLR mic inputs with phantom power and three stereo line source inputs.

• Individual level controls for each input • Tone controls for each mic input
• Main outputs on RCA connectors • Phantom power and ducking

#ROMX152 ..... **CALL**

IDEC
Numark

A/V Recorder/Player for iPod

Dock your iPod into this 2U rack unit and use it for presentations and events. The MixMeister software lets you create custom sessions with beat-mixed transitions between songs.

• Large control buttons and jog wheel • Balanced XLR and unbalanced RCA outputs

#NUIDEC **$199.95**

CD-160MKII
TASCAM

Professional Single-Disc CD Player with MP3 Playback

The CD-160MKII is an affordable rack-mount CD player designed for studios and system installations. It features S/PDIF digital output, pitch control and a front-panel number pad for accessing track numbers.

• 2U rack-mount CD player • Auto cue to first audio in track • Headphone output with level control
• RC-150C wireless remote included

#TACD160MK2 ..... **$299.00**

S-ZONE
SAMSON

4-1 zone stereo mixer

The S-Zone gives system installers all the features they need to control up to four zones of audio with a compact, single-rack space unit. The unique front panel control section allows you to assign any of the four inputs to any of the four zones with just the push of a button.

• 4-channel/4-zone stereo mixer • 2 mic/stereo line inputs with ducking • 2-band EQ
• Remote volume control • 2 stereo CD/line inputs • Euroblock output connectors

#SASZONE **$349.00**

RM68
ROLLS

"Zone Wolf" 2-Zone Stereo Mixer

The RM68 is a versatile 9-input dual-zone mixer designed for restaurants, hotels, schools, churches even factories with its first mic input featuring a talk-over function.

• 3 XLR inputs and 6 RCA line-level inputs • Level control on every channel
• 1/4" remote volume jack • Two-zone capability

SXS-PRO MEDIA 8 GB #SOSBP8 ..... **$499.95**

SURVEILLANCE VIDEO AT A GLANCE

Security is a huge concern for today's home and small business owner. With such a bewildering number of system options available, B&H can help you find the perfect solution to fit your needs and budget.

GETTING STARTED A CCTV (Closed Circuit Television) system consists of a camera and monitor. Choose your wire (see the "UTP or Coax" box, opposite) and connect these components. Plug the camera into a power supply. Congratulations! You've just built a CCTV system.

WHAT IF YOU CAN'T ALWAYS WATCH THE CAMERAS? You'll need to record the video stream from the cameras. In the past, special VCR's with time-lapse capability were popular. You'd program them to record so many pictures (or frames) per minute; a lower frame rate allowed more video to fit onto a single VHS tape. Otherwise, recording to VHS tape could get expensive quickly. The trade-off was that more compressed video rendered fewer details, because only a few pictures per minute were recorded. VCR's only recorded one channel of video, too. For multiple cameras, you'd have to connect the VCR to a "mux," or multiplexer, splitting the screen into 4, 9, or 16 segments, one for each camera. Picture detail was almost imperceptible.

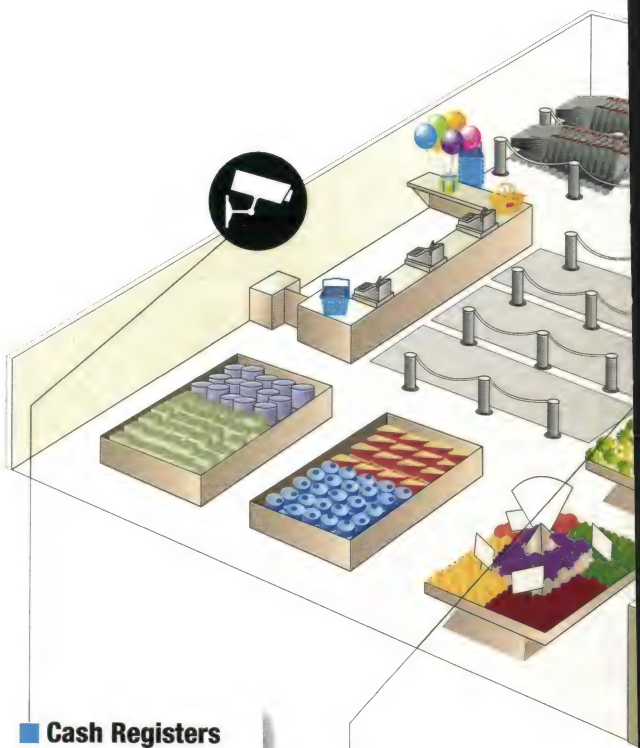

ENTER DVRS Digital Video Recorders (DVR's) were a huge step forward. These are essentially computers that record video to hard drives. Hard drives cost much less than their equivalent in VHS tape, and DVRs can also record multiple cameras. Video storage used to be measured in hours; it's now measured in days, weeks—even months. DVRs use video data processors to compress the video, cramming more video into the same amount of space, storing higher and higher frame rates (FPS or frames per second). 24 FPS is reckoned as "real time." Even 12 FPS seems close to real time. Many security pros use 7.5 FPS as the standard recording rate. Many DVR's have IP connections as well, allowing Internet connectivity via a PC and a router. As of this writing, Mac-compatible DVR's are rare.

THE CAMERAS Choose the right camera. Will it always be dark? Will you need a camera to enhance available light? Outdoor cameras should have infrared illuminators to allow night vision. Will part of the picture be very brightly lit and partly dark? A camera with Wide Dynamic Range (WDR) and dual shutter speeds will take each zone of the picture and expose it properly, allowing you to see a complete image of bright and dark areas.

FIXED VS. PTZ PTZ (Pan Tilt Zoom) cameras allow you to move the camera remotely until it's oriented correctly, and to zoom precisely. These individual cameras are expensive—the price of four or five fixed cameras, typically—so only install a PTZ to cover large, open areas such as parking lots or lobbies.

LONG-TERM ARCHIVING Backing up your data is always a safe bet. Having a great deal of hard-drive space installed on the DVR is a good idea, because you can search for video from the DVR control program. On the other hand, this can become expensive. Another option: back up video to an external hard drive. You will not be able to search using the DVR's search filters, but the data will be protected in case anything destroys the DVR, such as theft, flood, fire, or electrical surges.

A WORD ABOUT PRIVACY Before installing CCTV, check the local laws regarding privacy and recording. Never install video or audio surveillance anywhere there is a reasonable expectation of privacy, such as in bathrooms, locker rooms, changing rooms, medical examination rooms, etc. Never record another person's private property without permission.

Cash Registers

For this situation, install high-resolution, varifocal cameras. Varifocal cameras have adjustable lenses that allow you to get exactly the picture you want—zoom in to get a tight image with lots of detail, or zoom out for a wide overview. Illuminate the area well, but never point a camera directly at a light source.

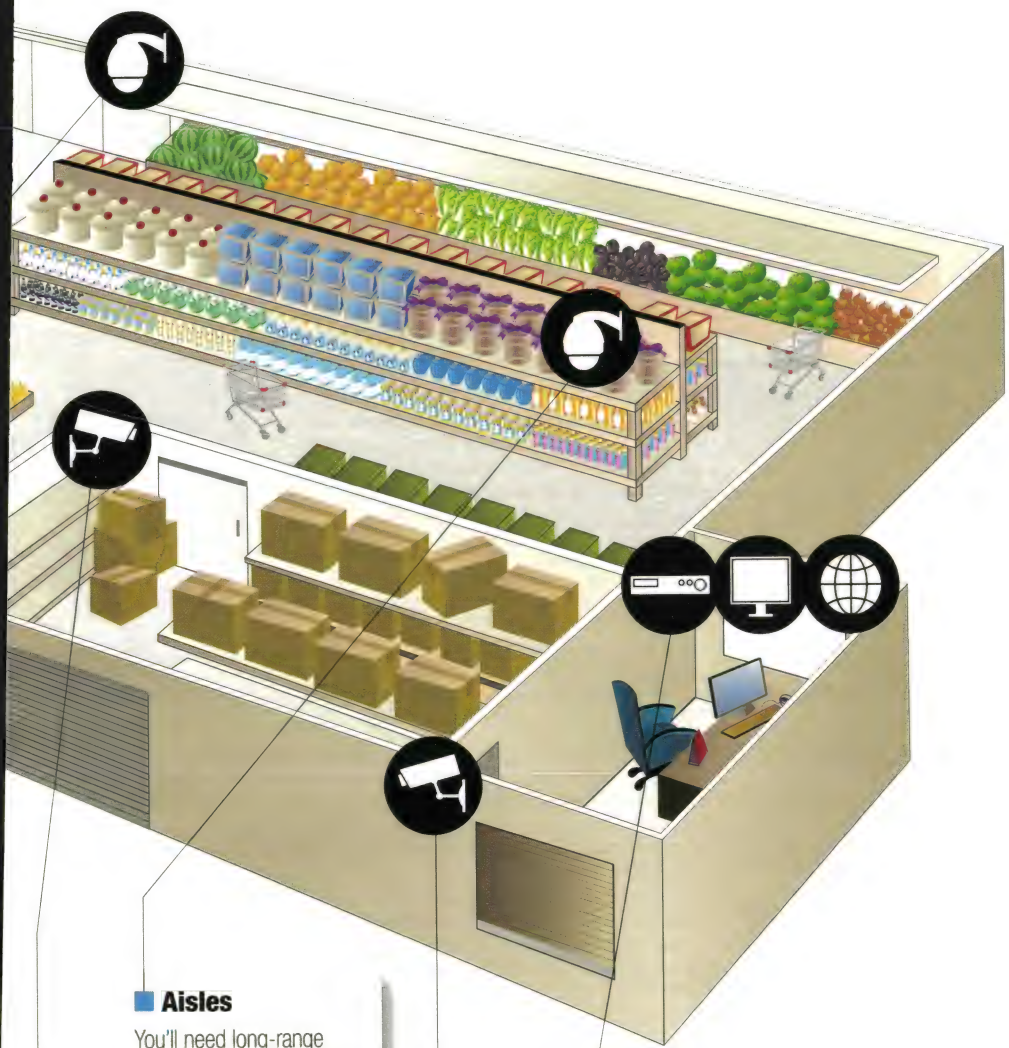

Entrance

If your storefront is made of glass, the lighting will change over the course of the day. Most cameras will show you a completely washed-out picture. If this happens to you, you need a Wide Dynamic Range (WDR) camera, which lets you view the very dark and very bright parts of the picture simultaneously.

Typical Retail Setup

Selecting the best components is the hardest part of setting up a surveillance system. Not every camera will work for every application. At B&H, we can help you find the right cameras for your specific needs, without breaking the bank. Here, we'll look at a common purpose for surveillance equipment: minding the shop when you can't be around.

Diagram courtesy of Swann

Aisles

You'll need long-range lenses here. Install cameras on both ends of the aisle, facing each other, for optimal results. This way, you'll minimize dead spots (areas with no video coverage). Face cameras away from light sources.

Storage

Many warehouses and storage rooms are lit poorly. To compensate, use a DN, or Day/Night camera, which uses filters and digital processors to enhance available light. A wide-angle lens also allows coverage of more area with fewer cameras. The trade-off is a slight loss in detail and clarity.

Recording Options

The DVR, or digital video recorder, is the brain of any CCTV system. Keep the recorder in a dry, cool, safe spot. You'll need high-speed internet access, and a router (not just a modem). Forward the ports on your router to access your cameras from any PC on the planet.

Outdoor Cameras

Cameras equipped with infrared illuminators will allow you to see a limited amount in the dark. Cameras will see in black and white when the infrared illuminators come on, so if color is important to you, it's best to have auxiliary lighting.

IP or ANALOG

Which is Right for You?

IP cameras are different from webcams in that they do not need to be connected to a computer in order to work. These cameras have built-in web servers. Giving these cameras their own IP addresses allows you to connect to them over a network like any other server. While each IP camera is, individually, more expensive than any individual analog camera, you do not have to purchase other equipment, such as DVR's, to control the cameras. On the other hand, storage space is a consideration; video storage takes up a lot of hard-drive space, even compressed. If you have the IS infrastructure for a large load on the network, IP cameras may well be the right solution for you.

UTP or COAX

Which Is Best?

- All analog cameras need at least two cables: one for video and one for power.
- Coaxial cable, or RG59, commonly known as 'coax', is the most common wire used to transmit video.
- Coax is expensive, hard to install, and bulky. More and more professional installers are turning to ordinary CAT5, or UTP cable, most often used for computer networks.
- Using NVT's line of video transceivers, you can use existing premise.wiring to transmit video.
- A passive transceiver will send video over a single twisted pair. Two passive transceivers will send video 700 feet.
- Using a passive transceiver on the camera end and an active video receiver will send video 3000 feet.
- Using two active, amplified hubs together will allow you to send video 1.5 miles!

MSP-04MM14L01

mace

4-Channel Pro 1000 System

The Mace MSP-04MM14L01 provides you with a simple and cost effective solution for securing multiple areas in your home or business. The system comes complete with a 4-channel DVR, a 14" color LCD monitor, 2 dome cameras, 2 bullet cameras and all the necessary power supplies, cables and mounting hardware. With this system in place, you will be able to view images from all four cameras on the same monitor as well as record them to the DVR. Because of the DVR's network connection you will also be able to access live and recorded images from a remote location over the Internet.

- Compact with a low-profile design, the 4-channel DVR-400MM incorporates an 80GB hard drive and features H.264 compression format for quality video images and efficient data management. It offers simultaneous recording, viewing and playback as well as remote Internet viewing of live and recorded images.
- The monitor features 1024 x 768 resolution, slim, space saving design and is equipped with loop through composite (BNC), S-Video and VGA inputs and has built-in speakers.
- The DM-63FCIR dome and CAM-43CIR bullet cameras feature 420 lines of resolution, 20 IR LEDs to illuminate up to 50 feet in the dark. Weather and vandal resistant metal casing, no mounts necessary

4-Channel Pro 1000 System: (B&H # MAMSP04MM14L) **1198.95**
4-Channel High Performance Pro System: Same as above except with: DVR-400HP, DM-65VCIR Dome Cameras and CAM-53CIR Bullet Cameras (B&H # MAMSP04HP14L) **1249.95**
4 Channel Ultimate Pro 1000 Real Time System: Same as above except with DVR-400RT3 realtime recorder (B&H # MAMSP04RT14L) **1879.95**

MACE 16 CAMERA KITS

mace

This professional surveillance system offers the ultimate in security. The MAMSP16HP192 features a 16 channel 7FPS DVR, 8 IR bullet cameras, 8 varifocal IR dome cameras, and a 19" LCD monitor. The MAMSP16RT191 includes a 16 channel real time DVR, 8 IR bullet cameras, 4 IR domes, and 4 varifocal IR domes. Both kits include 19" LCD monitor and power supply. Cable and adapters not included.

#MAMSP16HP192 16 Cam Kit **$3,899.50**
#MAMSP16RT191 16 Cam Real Time... **$4,179.95**

WILIFE

Logitech

Do It Youself Surveillance Kits

WiLife Surveillance Systems are easy, do-it-yourself, video surveillance starter kits for your home or office. Systems typically take 15 minutes to install and program. Get professional quality video without running wires. The WiLife system uses power line connection technology to transmit video over your existing electrical wires. Plug your camera into any outlet, plug the receiver into another outlet, plug the receiver into your computer using the included USB cable, install the software, and the WiLife Command Center takes care of the rest- it's that simple.

All Starter Kits Include:

- Camera, power supply
- Receiver, USB cable, Ethernet cable
- Computer and monitor not included

SW244-LPC

Swann

DVR4-1150 Recording Kit with 2 Maxi-Brites & 160GB HDD

Secure multiple areas in your home or business with this affordable and easy to install surveillance kit. It complete with 2 MaxiBrite cameras, a 4-channel DVR and all the necessary cables, power supplies and mounts. View all cameras at once on a single monitor as well as simulaneously record all 4 of them to the DVR. The DVR has an internal 160GB hard drive (expandable to 400GB), USB port, and features motion detection recording. This provides enhanced security, more efficient search options and better data management. The cameras feature 380 lines of resolution, sturdy anti-corrosive and weather resistant metal casing, and built-in IR illumination for viewing in the dark up to 30-ft.

#SWSW244LPC **$349.95**

CLEARVU1

SVAT

The SVAT CLEARVU1 comes complete with a DVR, an integrated 7" color LCD monitor, 4 cameras, 60 feet of cable per camera, and all the necessary adapters and power supplies. A USB connection on the DVR provides easy backup of recorded material to a USB flash memory stick or USB hard drive. Cameras are weatherproof and infrared for viewing and can see for 25 feet in the dark. Because the monitor is built into the recorder, this kit is perfect for any location where space is at a premium. View these cameras from any PC with included software and DDNS.

#SVCLEARVU1 4 Camera DVR Kit **$674.95**

CLEARVU10

SVAT

Ultra Slim Web Ready 8 Channel DVR Security System

Protect your assets and your loved ones with this advanced package that you can set-up yourself. Record high quality digital video in MPEG-4 for up to 480 continuous days with customizable recording options and warning alarms. Remove the clutter with an amazingly slim and feature loaded DVR that has everything built into one sleek 19" LCD video security station.

- Auto-start recording, customizable viewing options, and email alerts (up to 7 addresses) whenever motion is detected or cameras lose power.

Includes: 19" LCD DVR with 320GB HDD, 4 Outdoor Night Vision CCD Cameras with camera mounts and all necessary power adapters and cables

#SVCLEARVU10 ..... **Call or Log-on**

PenCam DVR-421

Swann

Mini Video Camera and Recorder

The incredible PenCam DVR-421 conceals a video camera—so small you almost can't see that it's there—and a DVR inside a working quality ballpoint pen. Perfect for covert surveillance, law enforcement, lawyers (features time and date stamping), sales people, mystery shoppers, etc. Simply click the top of the pen and it begins recording. Wear it innocently in your shirt pocket, place it on your desk, or use it like an ordinary pen while recording AVI video files (compatible with Windows XP/Vista, Windows Media and RealPlayer) to the internal 2GB memory. Record for up to 3 hours then upload to a PC and then to YouTube, Facebook and other social networking sites. Built-in 90-minute battery is charged via USB port.

SWSW234PCG **$99.95**

C520PIR • C520SDCS

ARM ELECTRONICS

The C520PIR consists of a color camera concealed in a PIR motion detector, the C520SDCS consists of a color camera concealed inside an imitation smoke detector. Each has a built-in camera featuring 520 lines of resolution and low light sensitivity of 0.6 lux. The camera's are is equipped with a 3.7mm and 3.6mm pinhole lens (respectively) , a focal length common for security cameras. The video output is via a BNC connector, and a bracket is supplied for installation on a wall. The camera inside the C520SDCS is positioned to point at an angle as opposed to a camera that looks straight down.

CNC1020

LOREX

Security Mirror Camera

The Lorex CNC1020 is a high resolution color camera concealed inside a concave (curved fisheye view) mirror. This is the style of mirror commonly seen in retail, grocery and convenient stores, making it well suited for those types of applications. Patented mirroring technology completely hides the camera while allowing the camera to properly view an image. Includes wall mount bracket with cable pass-through, which allows cables to be completely hidden.

CNC1020 Color Concealed Security Mirror Camera #LOCNC1020 ..... **$228.50**

HIDDEN CAMERA AND RECORDER

SVAT

The SVAT PI1000 is a DVR and color camera contained inside a compact and realistic looking PIR motion sensor. People seeing it will dismiss it as just another sensor of some kind on a wall and will pay no further attention to it. This makes it an excellent choice for applications looking for an all-in-one monitoring and recording solution in a unit that is compact, easy to install and use, and most importantly discreet. Video is recorded in MPEG-4 and is stored to the included 512MB SD card, which goes right inside the DVR. Recording can be continuous or set to begin when motion is detected.

#SVPI1000 Motion Detector Camera with Built In Recorder **$229.99**
#SVCVP800 Pocket Sized SD Card Recorder **$149.99**

BOARD CAMERAS

BOLIDE TECHNOLOGY GROUP

Ultra compact or "board" cameras are ultra versatile, highly concealable cameras, perfect for custom covert surveillance applications. These cameras come with flat or pinhole lenses, and many have removable board lenses, allowing a user to choose the right lens for the application. Install these cameras anywhere you need a covert camera but cannot add a ready made covert camera without raising suspicions. Bolide board cameras measure 1.5 inch by 1.5 inch square, with a depth of less than half an inch.

#BOKPC600 Board Camera Pinhole Lens Color **$99.95**
#BOKPC400 Board Camera Pinhole Lens B&W **$42.00**

EQ550
EverFocus
PoleStar True Day/Night Camera

The EQ550 is a high resolution color box camera with a Day/Night function and 16-bit DSP to ensure properly exposed, well defined images in all lighting conditions with a minimum light rating of 0.002 lux. If even a small amount of light is available, the camera will still give you the best possible image. A common problem with low-light cameras is "noise", which is interpreted as motion by the DVR and recorded. DNR (Dynamic Noise Reduction) reduces noise, saving up to 70% of DVR storage space.

#EVEQ550 520 VTL 0.002 Lux Auto Iris **$224.50**

VCC-6584DN
SANYO
High-Resolution Day/Night 1/3" Color CCD Camera

Image clarity and image brightness are two of the most important factors for making a positive identification. With its high resolution of 540 lines and 0.25 super low lux rating, the VCC-6584DN excels on both counts. Electric-day/night function made possible thanks to an ultra sensitive CCD and digital technologyWhat this means to you is that you'll get usable video images even in areas that appear quite dark to you. Can be powered by either 24v AC and 12 to 15v DC power supplies. Accepts CS mount lenses (lens not included).

SAVCC6584DN **$149.95**

C10CH6
PELCO
High-Resolution 1/3" Color CCD Camera

Designed for minimally intrusive surveillance monitoring, the compact C10CH6 brings Pelco-level security monitoring to a home or business. Equipped with a 1/3" CCD it delivers quality images up to 540 lines of resolution—even under challenging lighting conditions. It has a minimum illuminaton of 0.4 lux and features a host of electronic picture controls including Electronic Shutter, Back Light Compensation, Eclipser Function, AWB, Gamma Correction, and Flickerless Mode. On-screen menu provides easy access to controls and features like area masking, tilting, pixel correction and preset lighting profiles. Can be powered by either 24v AC and 12 to 15v DC. Accepts CS mount lenses (lens not included).

PEC10CH6 ..... **$179.95**

WV-CP504 (Super Dynamic 5)
Panasonic
Day/NightColor Security Camera

Super Dynamic 5 (SD5) image technology achieves exceptional image quality by combining 128x wider dynamic range with 0.1 lux low-light sensitivity, 650 lines of resolution, and the implementation of Adaptive Black Stretch (ABS) technology to compensate for dark areas. Also includes intelligent Video Motion Detection (i-VMD) to capture moving objects without distortion and object detection for items removed or left behind. Built-in Auto Back Focus adjusts the positioning of the CCD to provide accurate focus in both color and B/W modes and reduces post-installation intervention. Offers 24V AC or 12V DC power options. Lens not included.

PAWVCP504 ..... **$434.95**

BC6002HDN/8/30
BOLIDE TECHNOLOGY GROUP
Star-Light Day & Night Camera

The Bolide BC6002HDN/8/30 uses a 1/3" Sony Hi-Resolution Interline, super light sensitive CCD to produce high quality color images in normal light conditions. It seamlessly switches to B/W under lower light conditions. Other key features include Digital Noise Reduction and high speed white balance auto adjust. The BC6002HDN/8/30 gives a high quality image with 560 lines of resolution in color mode and 620 lines in B/W mode with only 0.001 lux rating. Power consumption is only 0.8W and it supports wide range power from 8VDC to 30VAC.

BOBC6002HDN8 ..... **$184.95**

EI350
EverFocus
High Resolution Box Camera

The Ever Focus EI350 color surveillance camera features a built-in vari-focal lens and includes a sturdy aluminum mounting bracket offering a wide range of camera adjustment. The camera records a high resolution of 520 lines and is also super light sensitive with light requirements a low 0.5 lux. The camera uses powerful features such as 10-bit digital signal processing to improve image quality in difficult lighting conditions including low light levels and harsh back-lit situations. Easy to install, the EI350 is a good choice for high resolution, low cost video surveillance for your home or business.

#EVEI350- 520 VTL 0.5 Lux Integrated 3.8~9.5m Lens **$179.95**

EverFocus

Varifocal High Resolution

he ED350 records a high color resolution of 520 lines with inimum light requirements just 0.5 lux. The camera uses powerful settings such as 10-bit digital signal processing, AGC, and AWB o enhance picture quality under poor lighting conditions. A built-in 3.8~9.5mm varifocal lens provides easy adjustment for zoom and ocus, so you get exactly the shot you want. This camera installs n minutes and is a good choice for low profile, low cost video surveillance for your home or business. Runs on 12 VDC or 24VAC.

#EVED350NW Varifocal High Resolution, White Base **$184.95**
#EVED350Nb Varifocal High Resolution, Black Base **$169.95**

CAM-53CIR

mace

Vandal Resistant Bullet Camera

This dependable little camera from Mace proves that quality doesn't have to be costly. With its weather resistant chassis and IR illumination, this camera can be installed indoors or outdoors as well as in areas containing little or no light. Users will also appreciate its built-in microphone, which by capturing audio along with video will give users a better evaluation of an incident. Included with the camera is a power supply and 100 feet of connecting cable, making it quick and easy to install.

#MACAM53CIR 470 VTL IR Camera **$124.99**

Polestar EZ550

EverFocus

Weatherproof IR Bullet Camera with 6~50mm Lens

The Polestar EZ550 offers 560 lines of resolution, true day/night performance and the capability to capture images in complete darkness with super low light technology of 0.002 lux. It has a built-in motorized lens controller for zoom and focus adjustment and vari-focal 6-50 mm lens for an extensive field of view. It features true day/night feature with IR cut filter and IR distance up to 164 feet. Built-in Dynamic Noise Reduction (DNR) for reduced image noise and a 70% saving of disk storage. Built-in heater for low temperature. Cable wires inside housing and bracket eliminate messy wiring and prevent wire damage. Weatherproof IP66 rated and vandal resistant to withstand intentional destruction.

#EVEZ550 ..... **$544.95**

CAM-5S

mace

Color Bullet Camera

An attractive bullet-style color camera, the CAM-5S is suitable for many monitoring applications including watching the baby sitter, your children playing outside, or daily activities at home or work. Ideal for use in small locations, it features a 1/4-inch r CCD with auto white balance, 380 lines of resolution, electronic shutter up to 1/100,000 second and low-light capability. The camera includes a 3.6mm lens and a sturdy, adjustable mounting bracket.
Easily installed to monitors and DVRs.

#MACAM5S **$65.95**

BC1009IRAD

BOLIDE TECHNOLOGY GROUP

Vandal Resistant IR Dome

This camera's durable construction allows it to be safely installed indoors or outdoors as well as in areas with a concern for vandalism. The camera's unique dome design also allows its pointing angle to be easily adjusted post installation, something which cannot be said for most dome cameras. A Day/Night function along with 12 IR LEDs provide the camera with the ability to see up to 50 feet in the dark. 450 VTL, 12VDC.

#BOBC1009IRAD Vandal Resistant IR Dome **$99.95**

EHD525

EverFocus

Vandal Resistant Dome

The EverFocus EHD525EX is a vandal resistant day/night dome camera designed for outdoor use. The camera is contained in a rugged housing protecting it from rain, sleet, and snow while a built-in heater automatically activates when the temperatures drops below ideal levels. The camera displays a high resolution picture of 520 lines with minimum light requirements as low 0.5 lux and under difficult lighting conditions. Includes adjustable 3.8~9.5mm varifocal lens.

#EHD525EX1 Vandal Resistant Varifocal 0.5 Lux 3.8~9.5mm #EVEHD525EX1 ..... **$239.95**
#EHD525EX2 Vandal Resistant Varifocal 0.5 Lux 9~22mm #EVEHD525EX2 ..... **$299.95**

CAM75CIR

mace

Long Range Infrared Camera

This compact yet powerful camera uses 6 high intensity IR LEDs and a 12mm lens to see up to 200 feet away in complete darkness! The IP 67 rating means it is vandal resistant and weather proof, making it ideal for long range outdoor use. Installing this on a wall in order to observe an entrance or driveway means you no longer have to trench cable just to see in the dark. 480 VTL, 12 VDC. Requires a 1 amp power supply.

#MACAM75CIR 480 VTL Long Range IR **$314.95**

CVS1000

LOREX

Submersible Camera

The Lorex CVS1000 has one of the highest waterproof rating of any CCTV camera on the market. Its IP68 rating means that it can be safely submerged in water at depths of up to 165 feet. This makes it ideal for use on boats, in water parks or any other environment where the camera is subjected to a good splashing every now and then. Includes 100' waterproof cable and power supply. 420 VTL, high powered LEDs can see 60'.

#LOCVS1000 Underwater Camera **$199.95**

PAN TILT ZOOM CAMERA

mace

This PTZ speed dome features 26x optical zoom and 12x digital zoom. The Sony CCD ExView chip means the camera is extremely sensitive at low light, while the guard tour function means you can let the camera scan automatically. When used with a Mace DVR, the RS485 can be controlled from the DVR directly using the mouse, eliminating the need for a keyboard. With auto flip, privacy mask, auto focus, and variable speed panning.

#MASD6260 PTZ in Outdoor Housing with Heater **$1,253.95**
#MASD626I PTZ in Indoor Housing Flush Mount **$1,199.95**

BLC111A

Panasonic

Attractive, cheap, and simple to install, the BL-C11A is perfect for watching your home while you're on the road. View the video from any PC with the free IP address without installing software- all required software is embedded in the camera. The camera automatically configures itself for optimal use when it plugs in. The motion detection technology can tell the difference between humans and animals and send you an email with video of an intrusion. 10x digital zoom and remote pan and tilt from any remote PC, too. Also has a highly sensitive microphone for audio monitoring.

BL-C111A Wired Network Camera with Motion Detection #PABLC111A..... **$163.90**

BB-HCM580A

Panasonic

Professional grade PTZ network camera, easy to install and operate, and requiring no additional software to view from a remote PC. Using a standard Web browser or compatible cellphone, you can control the movement of the camera. With 21x optical zoom and remote pan and tilt. You can also assign a home position that allows you to return the camera to a preset point in the field of view. Up to eight presets can be registered in advance for fast video capture. With 3.5mm audio input and output for 2 way audio communication.

BB-HCM580A Profesional Pan/Tilt/Zoom Network Camera #PABBHCM580A..... **$823.50**

AXIS 221 DAY/NIGHT CAMERA

Like it's cousin the Axis 211, this box camera features a CS lens mount, Power over Ethernet (PoE), motion detection, simultaneous MJPEG and MPEG4 streaming, and Axis's powerful developer toolkit for custom applications. It also features a removable IR cut filter to switch from high resolution color during the day to an ultra sensitive B/W mode when light levels fall, giving you color pictures at 0.65 lux and black and white at 0.08 lux. A Pentax 3~8mm varifocal lens gives you the exact field of view and focus length you need.

AX223M MEGAPIXEL IP CAMERAS

AXIS COMMUNICATIONS

Most IP cameras record video in 640x480 resolution, which is VGA quality. For applications requiring higher resolutions, Axis offers the AX223M. This is the megapixel version of the day/night AX221 (above), and it is capable of capturing outstanding video quality with the clarity and detail normally associated with digital still cameras thanks to a 2 megapixel CCD imager. Using digital zoom, you can drill down into images for a level of video surveillance never before possible. Use a rectilinear lens such as the THSY125A (page 413) for dPTZ functionality and forensic video.

#AX211M Megapixel IP Camera..... **Call or Log-on**
#AX211M10 Megapixel IP Camera 10 Pack..... **Call or Log-on**

I-PRO MEGAPIXEL CAMERAS

Panasonic

The second generation of cameras in Panasonic's iPro line, these megapixel cameras feature 1.3 megapixel progressive scan CCD chips and a proprietary DSP for crisp, clear video images. The progressive scan eliminates the "jagged edge" look of video frame grabs, allowing you to clearly view the faces of moving subjects.Megapixel cameras require a high definition lens whose depth of focus tends to be so shallow that precise focus adjustment is required, so the camera includes a Focus Adjust feature. With dual streaming JPEG and MPEG4, PoE, and day/night mode. The PAWVNF302 includes a 2.8~10mm varifocal lens.

#PAWVNF302 Dome Camera 2.8~10mm lens..... **$849.95**
#PAWVNP304 Boc Camera CS Mount..... **$734.95**

SNC-DF80N

SONY

Vandal Resistant Low Light Dome

The Sony SNCDF80N is a high performance network camera encased in a rugged housing that is both weather and vandal resistant. In B/W mode, this camera is capable of producing visible images in light levels as low as 0.06 lux. Three pre-recorded audio files can be recorded to the camera's internal memory. Upon motion detection or other alarm condition the camera can bet set to play these intelligent messages instead of just sounding or displaying an ambiguous alarm alert. Features motion detection, 2 way audio, CF card backup, and a standard BNC video output for viewing on a public display monitor for theft deterrence purposes.

#SOSNCDF80N Vandal Resist low Light..... **$87 9.95**

WV-NW484S

Panasonic

The Panasonic WV-NW484S is a high performance network dome camera contained in a vandal resistant enclosure capable of withstanding significant shock and vibration. This level of durability makes it an excellent choice for use in prisons, construction sites, sports stadiums, schools, and similar applications where the camera might be at risk from intentional or accidental damage. PoE powered heater and dehumidifier makes this perfect for harsh weather conditions, while image stabilization and auto back focus means you can install it even in places where vibrations make normal camera placement impossible. SDIII technology allows you to see in very low light conditions to 0.6 lux. Includes 3.8~8mm varifocal lens, left object detection, and motion detection.

#PAWVNW484S Vandal Resist IP Dome..... **$929.95**

EDVR4D1/160

EverFocus

his commercial grade recorder cludes motion detection recording, h board DVD burner, VGA output, TZ control, loop-through video puts, alarm I/O ports, and remote ewing. This DVR records at speeds of up to 120 fps over 4 channels at 360 x 240 resolution, and an be adjusted to 30 fps at 720 x 480. This DVR can send you an email alerting you to common VR problems like hard drive failure or video loss.

EDVR4D1160 4-Channel Digital Video Recorder 160GB **$599.00**

AXIS 241Q
4 Channel Video Encoders

The Axis 241Q effectively bridges the gap between analog and digital technology. The server accepts four analog fixed or dome cameras and turns them into virtual network cameras complete with full remote Inter viewing and recording, PTZ control and alarm I/O ports. Connection to the network is via a single Ethernet cable, making it quick and easy to set up and operate without the need for a local PC. These and other features make this server a very useful tool for long established security facilities looking to take full advantage of the latest in network technology without having to replace their existing high resolution and expensive analog equipment. Take advantage of the flexibility of IP while keeping the picture quality of analog. The Axis 214Q captures video simultaneously in both the MJPEG and MPEG-4 formats at a resolution of 704 x 480 and at speeds up to 30 fps. This gives a user the necessary control over how data is transmitted over a network and also provides a user with the image clarity and smooth picture movement required to better identify people and objects. Built into the server is a motion detection function fully configurable for area and sensitivity. Motion detection not only alerts an operator to suspicious movement, but when used to trigger recording to a server, saves valuable time and network resources.

AXIS 247S MINI ENCODER

This video server takes the composite video signal from one analog camera and encodes it for streaming over a network in MJPEG and MPEG4 simultaneously. The encoder delivers high quality video in 4CIF at 30 fps, while the built in de-interlacer eliminates video artifacting, giving you the clearest image the camera is cap of producing. The encoder outputs power, allowing you to power the camera using the same PoE as the encoder. At just 3.8 x 1.6 x 3.9", you can easily mount the unit inside a camera housing. With audio input and motion detection.

#AX247S Mini Encoder with PoE and Power Output **$499.00**
#AX247S10 AX247s 10 pack ..... **Call or Log-on**

BT-84001 BIONIC EAR
High Performance Uni-directional Microphone

The Bionic Ear is a high performance uni-directional microphone system with a range of up to 100 yards. It can be used for security and surveillance applications and recorded from by connecting a recording device to the 3.5mm mini plug. The Pro 88W is a 2-channel VHF wireless microphone system. The system includes a belt-pack transmitter, camera mountable receiver, and MT830mW omni-directional lavalier microphone.

#BOBT84001 Bionic Ear **$259.95**
#BOPRO88W Wireless Mic VHF Lavalier System **$259.95**

VMC-L2017 / VMC-L2019
SANYO

High Performance Professional LCD Monitor

High performance professional LCD monitors. 500 TV lines of resolution (1280 x 1024). 1000:1 high contrast ratio. 2 composite inputs, 1 S-Video input, loopthorugh output with BNC 1, VGA input, 2 audio inputs (RCA type). 11 language OSD menu. Adjustable height. Includes remote control.

VMC-L2017 17" LCD Monitor Multi Input #SAVMCL2017.....**$649.95**
VMC-L2019 19" LCD Monitor Multi Input #SAVMCL2019.....**$826.95**

PMCL542A
PELCO

42" LCD Monitor

The Pelco PMCL542A is a high resolution 42" LCD monitor built to perform in around-the-clock surveillance environments. Pelco's IQE technology provides maximum contrast and color accuracy. A space-saving footprint makes the monitor less obtrusive in small rooms, and energy efficient.

#PEPMCL542A.....**$2,559.95**

C21M
ARM ELECTRONICS

Professional Grade 21" CRT Monitor

Housed in a durable steel cabinet with a built-in carrying handle, the C21M provides a high level of detail and color depth for CCTV environments. It offers a high resolution of 520 lines with loop-through BNC and S-video inputs.

#ARC21M 21" CRT Color 520 Lines.....**$372.50**

KCT20AD
mace

20" Color CRT Slave Monitor

This low cost 20" color CRT slave monitor has a built-in speaker. Designed for CCTV applications, the monitor lets an operator display an image in full from the main multi image monitor for viewing or recording purposes. It features a video loop-through input and 350 lines of resolution.

#MAVERKCT20AD 20" Color CRT Slave Monitor with Speaker.....**$232.95**

1BSM
ARM ELECTRONICS

One-Inch Portable Viewfinder Service Monitor

This portable viewfinder service monitor allows repair technicians to view CCTV outputs on site. It's equipped with a bright LCD display for quick and easy operation, with a resolution of 320 x 240 pixels.

#AR1BSM 1" Service Monitor.....**$134.95**

SW248-8LM
Swann

8" LCD Security Monitor w/ Built-In Speaker

This monitor accepts the direct connection of two video cameras and features a built-in speaker for monitoring sound along with video. It's small and light enough to easily move from location to location.

#SWSWALCD8 8.4" LCD Security Monitor.....**$159.95**

PX7V / PX9V / PX5V
DRW

These LCD monitors are specifically designed for high quality CCTV monitoring. They come with all the necessary inputs, including RCA composite, S-Video, and VGA. Intensive Color System (ICS) technology prevents weak signals from being lost, eliminating the "video hunting" phenomenon commonly associated with PC LCDs.

PX7V 17" Enhanced Series CCTV LCD Display #DRPX7V.....**$394.95**
PX9V 19.1" Enhanced Series CCTV LCD Display #DRPX9V..**$449.95**
PX5V 15" Enhanced Series CCTV LCD Display #DRPX5V.....**$369.95**

HIGH RESOLUTION LCD
BOLIDE TECHNOLOGY GROUP

Use for very high resolution installations where detail, clarity, and color fidelity are critical. Includes 2 BNC inputs and outputs, 1 S-Video input and output, 1 VGA input, and 3 RCA audio inputs and outputs. The monitor has a wide field of view, allowing you to view multiple monitors in a row at the same time, ideal for security desks with several monitors.

#BOBE8017LCD 17" Security LCD.....**$599.95**
#BOBE8019LCD 19" Security LCD.....**$909.95**
#BOBE8021LCD 21" Security LCD.....**$1,024.95**

LCM-205MW
Ikegami

Professional 21.1" Monitor
Designed for Public Teleconferencing

The LCM-205MW has a built-in camera and provides a simple way to relay video transmissions; its wide-dynamic range assures crystal clear images in dimly lit spaces. The LCD can also be used in any public environment where constant visual monitoring is necessary.

#IKLCM205MW Public View LCD Monitor, includes Multimedia Card.....**$1,759.95**

VER-19LCD
mace

LCD Monitors for CCTV Environments

Designed for CCTV environments, the VER-19LCD has a high resolution and low response time, making it ideal for a variety of surveillance applications. It has an audio input and built-in speakers.

VER-19LCD 19" Professional CCTV Monitor #MAVER19LCD...**$449.95**

BLUE
BLUEBERRY

The Blueberry is a unique, precision-engineered, large diaphragm cardioid condenser microphone with an open natural response tailored especially for vocals. Its hand-built capsule and discrete low-noise circuitry provides the shimmering detailed highs, smooth mids, and articulated low end desired by professional musicians and engineers.

- Outstanding for vocal, voice-over, and acoustic instrument recordings.
- Custom-designed and hand-built components
- Excellent low-level presence
- Extremely well-balanced response characteristics
- Discrete Class-A circuitry for low-noise handling
- 133dB SPL
- 20Hz-20kHz frequency response
- Cherry-wood case included

#BLBM **$999.99**

SHURE
KSM32SL

Ideal for both studio and live sound applications, the Shure KSM32 is a ruggedly built, large diaphragm cardioid condenser microphone. Its Class-A circuitry and extended "sweet spot" delivers a smooth, detailed response, making it well-suited for recording sources from piano to percussion or violin to vocals.

- Built-in pop filter
- Switchable low-frequency filter
- 48V phantom powered
- 15dB pad
- 139dB SPL
- 20Hz-20kHz frequency response

#SHKSM32SL **$549.00**

AUDIO TECHNICA
AT4050

The AT4050 is a multi-pattern condenser microphone designed to provide years of high-quality performance in any recording environment. Its transformerless design and "extended life" dual-diaphragm capsule produces a warm detailed response with virtually no low-end distortion.

- Switchable Cardioid, Omni, and Figure-of-Eight patterns
- Gold diaphragm aging process for extended performance life
- Transparent upper and mid-range frequencies
- Switchable high-pass filter with 10dB pad
- 149dB SPL
- 20Hz-18kHz frequency response

#AUAT4050 ..... **$479.9**

RODE
NT2000

The RODE NT2000 is the world's first continuously variable control microphone. Its polar response, filter adjustments, and pad attenuation greatly enhance overall control and performance flexibility, while the newly-designed capsule diaphragm provides the warm, detailed sound and excellent transient response necessary for a variety of recording applications.

- Large diaphragm condenser mic with variable polar, pad, and filter controls
- Very wide dynamic range for multiple recording applications
- Active electronics with FET impedance converter
- 147dB SPL
- 20Hz-20kHz frequency response
- Shock mount and molded case included

#RONT2000 ..... **$599.00**

AUDIO TECHNICA
AT2050

The AT2050 is a multi-pattern condenser mic well suited for home studios, project recording and live sound reinforcement alike. Fatures user switchable cardioid, omnidirectional and figure-eight polar patterns for versatile operation and control in any scenario. The element and output stage combine to produce a smooth yet natural audio quality with low noise. An 80Hz high-pass filter switch eliminates low frequency hum and any associated noise. A -10dB Pad switch is featured for providing more headroom when capturing transient signals that may otherwise cause peak distortion. Ideal choice for capturing vocals, general instruments and speaker cabinets.

#AUAT2050 ..... **Call or Log-on**

AKG
C3000B

The AKG C3000 B is a large diaphragm cardioid condenser microphone built for both studio and live performance use. Its special capsule tuning allows a pleasing, smooth sound with a slight presence boost to add "air" to both vocal and instrument recordings. Capable of handling very high source levels without clipping, the C3000 B effectively reduces unwanted noise while providing the signal-to-noise ratio needed by project studio engineers who want "present" and "up-front" takes.

- Ideal for lead vocals and high-volume instrument sources such as guitar amps, brass, and percussion
- Clean, transformerless design with smooth, wide dynamic range
- Internal and external "spider" suspension for increased noise reduction • Smooth low-frequency roll-off and 10dB pad
- 150dB SPL (pad engaged) • 20Hz-20kHz frequency response

#AKC3000B ..... **Call or Log-on**

NEUMANN
TLM103A

Derived from the famous U87, the affordable TLM103A (anniversary edition) is a large diaphragm, cardioid condenser microphone. Its well-balanced performance and extremely low self noise make it the mic of choice for virtually all recording, broadcast, and production applications.

- Excellent noise rejection
- Internal shock mount reduces handling noise
- Transparent audio reproduction
- 138dB SPL
- 20Hz-20kHz frequency response
- Aluminum case (included)

#NETLM103A ..... **Call or Log-on**

STUDIO PROJECTS
C1

The Studio Projects C1 is an extremely versatile large diaphragm cardioid condenser microphone with a rich, smooth tone and open, detailed response. It clearly represents a breakthrough for both project and professional studios in search of a high-quality microphone at an affordable price.

- Ideal for vocals and acoustic instruments
- Transformerless low-noise design
- 10dB pad with high-pass filter
- 142dB SPL
- 20Hz-20kHz frequency response
- Case, shock-mount and windscreen included

#STC1Q ..... **Call or Log-on**

AKG
C414 B-XL II

The AKG C414 B-XL II is the next generation of legendary C414 microphones. With improved electronics and greater versatility, the XL-II sets a new benchmark for all other studio microphones.

- High sensitivity and extremely low self noise
- Five switchable polar patterns for placement and application flexibility
- Unique elastic capsule suspension greatly minimizes noise from chassis vibration
- Two-color LED's provide quick visual indication of selected polar pattern and output overload
- 20Hz-20kHz frequency response
- Professional shock mount, pop filter and windscreen provided

#AKC414BXL2 ..... **$999.95**

LUE
ABY BOTTLE
th Shock-Pop

ing design elements of the acclaimed ttle mic system, the Baby Bottle is a lid-state, Class-A discrete condenser crophone that employs the styling, tention to detail, and hand-crafted ality Blue is famous for. The precision-achined, gold-sputtered capsule has a ed cardioid pattern and is enclosed in "Lollipop" spherical grille. The versatile aby Bottle has a high output level th low self noise, providing a natural, ncolored response that's particularly effective for vocals, coustic instruments, and hand percussion.

Tailored frequency response for improved vocal presence
133dB SPL • 20Hz-20kHz frequency response
Includes: Shock mount and pop filter, protective pouch, cherrywood box

#BLBBMSP.....**$499.99**

SE ELECTRONICS
SE2200A

With lower noise electronics and a better signal-to-noise ratio, the Studio Electronics SE2200A is an affordable large diaphragm cardioid condenser microphone that improves upon its already well-received predecessor, the SE2200. Featuring a clear and lively sound that's slightly "lifted" (bright) in the upper range, the SE2200A delivers the characteristic response needed by both project and professional studios searching for uncolored vocal and acoustic instrument recordings that are both "up front" and "present" in the mix.

- Transformerless FET circuit for a clean, transparent tone quality
- Slight high-frequency boost tailored to enhance vocal response
- 10dB pad and 100Hz low-cut filter
- 125dB SPL • 20Hz-20kHz frequency response
- Includes rugged aluminum shock mount and flight case

#SESE2200A.....**$299.00**

NEUMANN
TLM49

The TLM49 is a professional large diaphragm cardioid condenser microphone designed to provide vocalists with the smoothest, most natural sound reproduction available. Utilizing its tube simulation circuit, the TLM49 produces even order harmonics in the same way a tube microphone would. Its focused sound is smooth and full with a transparent subtleness that picks up every nuance of a vocalist's performance.

- Designed especially for studio-recorded vocals
- Tube simulation circuitry creates warm, full harmonics
- Cardioid pattern isolates source material while reducing noise
- No additional cabling or power supply necessary
- 127dB SPL • 20Hz-20kHz frequency response

#NETLM49.....**Call or Log-on**

NEUMANN
U87AI/SET Z

The legendary U87, known for its warm, rich sound, and precision engineering, is perhaps the world's most widely used large diaphragm condenser studio microphone. When making a professional studio investment, it's considered the piece to buy.

- Its sound has made it a favorite on vocal, string and piano recordings for years
- Multiple selectable patterns for recording flexibility
- Improved sensitivity for better signal-to-noise ratio than original U87 • Transformerless design for ultra-low noise operation
- 10dB pad • 117dB SPL • 20Hz-20kHz frequency response

#NEU87AISZ.....**Call or Log-on**

AUDIO TECHNICA
AT4040

The Audio-Technica AT4040 is a large diaphragm cardioid condenser microphone designed to offer full-range detail at an affordable price. Providing improved electronics and a transformerless design, the character of the AT4040 is full and round with the transient response and high source level handling capabilities needed for all-around source-capturing capabilities. A perfect do-it-all first mic for project studios, the AT4040 delivers the performance of microphones costing significantly more.

- Full, detailed sound with enhanced presence for additional "sparkle" and "sheen"
- Sensitive capsule with fast transient response and high volume handling capability
- Ideal all-purpose vocal and instrument microphone
- 80Hz high-pass filter and 10dB pad
- 155dB SPL (pad engaged) • 20Hz-20kHz frequency response

#AUAT4040.....**$299.00**

AUDIO TECHNICA
AT2035

TThe AT2035 is a cardioid condenser microphone well suited for home studios, project recording and live sound reinforcement alike. Features a cardioid polar pattern for minimal feedback and off-axis noise. The element and output stage combine to produce a smooth yet natural audio quality with low noise.

An 80Hz high-pass filter switch elliminates low frequency hum and any associated noise. A -10dB Pad switch is featured to provide more headroom when capturing transient signals that may otherwise cause peak distortion. Ideal choice for capturing vocals, general instruments and speaker cabinets.

#AUAT2035.....**$149.00**

RODE
NT2A

The RODE NT2A is a high-quality, large dual-diaphragm multi-pattern condenser microphone, with superior electronics that provide ultra-low noise performance. Its fixed variable pad, pattern and filter adjustments provide the flexibility and control needed by musicians and recording engineers.

- Variable Pad, Pattern, and Filter adjustments made from the mic
- Acoustically-modeled solid cast metal housing
- Polar patterns include: Cardioid, Omni, and Figure 8
- High-strength steel mesh head
- Internal capsule shock mounting
- 157dB SPL (pad engaged)
- 20Hz-20kHz frequency response

#RONT2A.....**$399.00**

SHURE
PG27
CAR

The PG27 features a flat frequency response that makes it versatile enough for any recording application. It features an XLR output and a 20dB Pad switch that minimizes noise while capturing transient (peaking) audio signals. The capsule's cardioid polar pattern minimizes off-axis noise and feedback from nearby audio sources. Includes a shockmount that minimizes vibration and noise due to shock.

#SHPG27XLR.....**$149.00**

SHURE
SM27
CARDIOID CONDENSER MICROPHONE

Cost-effective large diaphragm mic for capturing vocals and instruments in project studio recording applications. The SM27 features include a cardioid polar pattern to minimize off-axis noise while reducing feedback and a -15dB pad to maximize headroom and reduce peak noise and distortion caused by transient (peaking) audio signals. 3-position low-cut filter switch minimizes low-frequency noise and proximity effect.

#SHSM27LC.....**$299.99**

AUDIO TECHNICA
AT3035

The Audio-Technica AT3035 is an affordable high- performance large diaphragm condenser microphone. Its crisp, clear highs and robust lows make the versatile AT3035 a great choice for use in project and home studios.

- Wide dynamic range
- Low self noise
- Low-cut switch and 10dB pad
- 148dB SPL
- 20Hz-20kHz frequency response
- Custom shock mount and protective pouch provided

#AUAT3035 ..... **$199.00**

BLUE
BLUEBIRD

The Bluebird features Class-A discrete circuitry that delivers excellent audio quality on a wide variety of sound sources. Designed with versatility in mind, the Bluebird is popular among project studios who demand outstanding quality at an affordable price. The Bluebird brings out clarity and detail on vocals, guitars, drums, piano, horns, strings, etc. The BirdCage shock mount and BirdNest pop filter are both included.

- Cardioid pick-up pattern
- Workhorse studio microphone for a variety of sounds
- 48V phantom powered
- 138dB SPL
- 20Hz-20kHz frequency response
- Includes custom shock mount and pop filter

#BLBBMQ ..... **Call or Log-on**

AKG
C12VR

Legendary for its warmth, clarity, and presence, the meticulously-engineered AKG C12 has been faithfully restored with the C12 VR (Vintage Re-Issue). While maintaining the exact unique twin diaphragm capsule design and 6072A vacuum tube, AKG utilized new manufacturing standards to provide a higher level of consistency and performance for today's high-end digital studios. A most sought after vocal mic, the C12 features multiple polar patterns with six remotely-selectable variations, making it equally desirable for solo and ensemble instrument recordings.

- Vintage re-issue of the famous dual-diaphragm vacuum tube C12 • Multiple patterns (nine total) remotely controlled with silent switching
- Internal microphone switching provided for pre-attenuation of -10dB, -20dB, and 10dB boost
- 128dB SPL • 30Hz-20kHz frequency response
- Professional flight case, shock mount, and pop filter included

#AKC12VR ..... **Call or Log-o**

CAD
M179

An ideal multi-purpose studio microphone, the large-diaphragm dual-sided CAD M179 features a continuously variable condenser element that's ideally suited for both vocal and instrument recordings. The improved, sophisticated electronics are capable of capturing complex musical detail with lower noise and better dynamic balance than significantly more expensive microphones. Flexible and versatile, the M179 provides engineers a high-quality microphone for everyday studio use.

- Smooth, continuously variable pattern selection
- Advanced internal amplifier circuit performance that competes with higher-end designs • Ideal for both solo and ensemble instrument/vocal recordings • Built-in pad and high-pass filter
- 143dB SPL (pad engaged) • 10Hz-20kHz frequency response

#CAM179 ..... **Call or Log-on**

MXL
MXL V67I

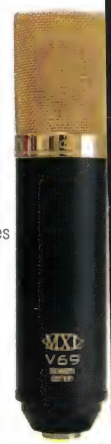

The MXL V67i is a versatile large condenser microphone with 2 selectable diaphragms. The front side has a warm, lush sound, and the microphone's back side simulates some of the brighter more airy sounding vintage capsules of the 1960's. Perfect for those needing several quality microphones, but on a limited budget.

- (2) selectable 25mm/ 1" large capsules (one warm and one bright)
- Solid state preamp with balanced transformer output
- Gold-plated grille
- Selectable pad and roll-off filter
- 140dB SPL
- Includes: mic clip and wooden storage case
- Frequency response: 30Hz-20kHz

#MXMXLV67I **$169.95**

MXL
MXL V69

The MXL V69 is an affordable large diaphragm tube condenser microphone with a wide dynamic range and warm vintage tube sonic characteristics; a perfect complement to digital recording devices. It comes with a deluxe flight case, versatile shock mount, dedicated power supply, Mogami 7-pin and XLR microphone cables and a wind screen.

- Vintage tube sound
- 25mm (1") large capsule condenser
- 12 AT7 type tube
- Durable brass enclosure
- 140 dB SPL
- Internally wired and supplied with Mogami cables
- Includes: shock mountv, windscreen, power supply, cables, and deluxe flight case
- Frequency response: 20Hz-18kHz

#MXMXLV69MED **$299.95**

M-AUDIO
SPUTNIK

The Sputnik from M-Audio is a large diaphragm vacuum tube microphone that was designed to bring out musical detail in a wide variety of instrumentation and voices. It combines the nuances of classic tube microphones with customized design innovations that result in a stellar sounding workhorse production tool. The carefully conceived circuitry of the power supply protects the tube and allows for cable runs of up to 200'.

- 18dBA of self-noise
- -10dB pad, low-cut filter at 80 Hz
- 3-micron evaporated gold Mylar diaphragm
- Multiple polar patterns, Cardioid, Omni, and Figure-8
- Power supply, 26' 7-pin cable, shockmount, and flightcase included • 132dB SPL • 20Hz - 20kHz frequency response

#MASPUTNIK ..... **Call or Log-on**

BLUE
DRAGONFLY

The Dragonfly is a cardioid condenser microphone employing Blue's hand-built large diaphragm capsule, discrete Class-A circuitry, and a rotating spherical grille, allowing for an almost infinite number of placements, key for unmatched fine tuning and delivering consistent takes with outstanding depth, definition, and focus. An excellent choice for studio engineers seeking clearly professional results, correct placement of the Dragonfly produces exceptionally focused percussion, instrument, and vocal recordings.

- Unique design with integrated shock mount and spherical grille provides superior versatility, focus, and detail
- Great imaging and slight high-end/low-end boost delivers ideal tone for electric guitar, pop/R&B vocals, and percussion overhead recordings
- Effectively controls high-volume sources without overload
- 132dB SPL • 20Hz-20kHz frequency response

#BLDM ..... **Call or Log-on**

RODE
K2

Combining the sound of vintage tube microphones, the tube condenser RODE K2 produces a smooth, extended high end, fat, round midrange, and solid, full low-end response from its large-diaphragm element. Its continuously variable pattern and high-level handling capability allows the versatile K2 to reproduce sounds from the subtle nuances of finger picking and bowing to thumping guitar amps and booming percussion. In the studio or on stage, the K2 gives musicians and engineers the warm presence and dynamic performance required for truly professional recordings.

- Class-A circuitry with a full, round tone and improved capsule and diaphragm technology • Extremely high sound pressure level handling capabilities • 162dB SPL • 20Hz-20kHz frequency response • SM2 shock-mount, power supply with 9-pin cable, and hard-shell case included

#ROK2 ..... **$699.00**

ODE
ROCASTER

Procaster is a professional quality amic microphone designed to offer compromise performance for voice lications in the broadcast environment. turing a tight polar pattern and tailored- voice frequency response, the Procaster erfect for every application where a great nding, rugged microphone with superior ient noise rejection is demanded.

- roadcast quality sound
- igh output dynamic capsule
- alanced, low impedance output
- nternal shock mounting of capsule for low ndling noise
- nternal pop-filter to reduce plosives
- obust, all metal construction
- en year warranty

OPROCASTER **$229.00**

RODE
NT 1000

The Rode NT 1000 is an ultra-versatile one-inch studio condenser microphone excellent for instrument and overhead drum kit miking. It's built of a heavy-duty cast metal, and the one-inch HF-2 capsule is internally shock-mounted with a 134 dB dynamic range, 140 dB SPL capabilities and a 20Hz to 20kHz frequency response.

- Ultra-versatile studio condenser
- Large capsule with gold-plated membrane
- Low-noise transformerless circuitry
- Internally shock-mounted capsule
- 140 dB SPL
- Heavy-duty cast metal satin nickel body
- Includes: zip pouch and stand mount
- Frequency response: 20Hz-20kHz

#RONT1000 ..... **$329.00**

AUDIO TECHNICA
AT2020

The AT2020 is an affordable cardioid condenser microphone that truly pushes the price/performance envelope. Designed for most home studio recording applications, the AT2020 effectively isolates source signals while providing a fast transient response and high sound pressure handling capabilities, making it a well-balanced, quality multi-purpose microphone.

- Low-mass diaphragm provides wide dynamic response for multiple recording applications
- Open, acoustic design reduces resonance and handling noise
- Cardioid pattern isolates source signal • 144dB SPL
- 20Hz-20kHz frequency response

#AUAT2020 ..... **$99.00**

AD
300²

e E-300' is a multi-pattern ternally biased servo-condenser eat for studio vocals, choir, oken word, and voice-over plications. The 1.1" 24K gold uttered externally biased triple ttern (cardioid, omni, figure dual diaphragm condenser psule is hand-dampened for nsistent frequency response. A chargeable 9V nickel hydride batterry provides a huge current serve, allowing for remote operation for up to 6 hours.

- Multi-pattern externally biased servo-condenser
- Switchable polar pattern: cardioid, omnidirectional, figure 8
- High-pass filter 6dB pad/octave @ 80 Hz
- 20 dB pad • 145 SPL
- Includes: shock mount & carrying case
- Frequency response: 10Hz – 20KHz

CAE300 ..... **Call or Log-on**

AKG
PERCEPTION 120

The Perception 120 is a great all-purpose large diaphragm condenser microphone designed for studios and live sound applications. Its one-inch diaphragm cardioid capsule provides a warm, transparent sound, excellent off-axis rejection and high SPL capability. The Perception 120's reliable performance, rugged metal housing and affordable price make it excellent value for project studios.

- Professional general-purpose microphone
- 1" large diaphragm true-condenser capsule
- Cardioid polar pattern
- Rugged metal housing
- Includes metal stand adapter
- SPL 135dB
- Ideal for project studios
- Frequency response: 20Hz- 20kHz

#AKP120 ..... **$85.95**

MXL
MXL-M3

The M3 Silicon Valve microphone is an all FET design with a warm, transparent sound similar to popular vintage mics of the early 1960's. This attractive microphone is sensitive enough to capture subtle vocal performances and still have enough headroom to capture percussion with detail.

- Cardioid condenser large diaphragm microphone
- Offers smooth vintage sonics
- 130dB SPL handling capability
- 20Hz to 23kHz frequency response
- Includes storage case

#MXMXLM3 ..... **$249.00**

STUDIO PROJECTS
B1

The Studio Projects B1 is a versatile cardioid condenser microphone that is equipped with a true one-inch, gold sputtered large diaphragm in a pressure gradient transducer capsule. This versatile mic is great for miking amplifiers with high sound pressure levels, voice over, and a wide variety music and broadcast recording applications.

- Large diaphragm cardioid condenser
- Pressure-gradient transducer, 1" 3 mm mylar capsule
- High-quality transformerless design
- Selectable filters, 75Hz & 150Hz
- Selectable pads, -10dB & -20dB
- Includes: foam wind screen, shock mount, and zippered Bag
- Frequency response: 20-20kHz

#STB1Q **$99.99**

M-AUDIO
NOVA

The large diaphragm cardioid condenser M-Audio Nova is a cost-effective solution to achieving recording results previously attained by higher cost designs. Class-A electronics and effective source isolation help deliver a smooth, wide frequency response with an improved signal-to-noise ratio, ideal for vocals and other home/project studio recording applications.

- Outstanding value for discrete Class-A circuitry in a large diaphragm condenser mic
- Solid brass capsule
- Wire mesh grille and body, all brass w/silver nickel plating
- 128dB SPL
- 20Hz–18kHz frequency response
- Includes hard mount and soft case
- Also comes with free XLR cable

#MANCM **$99.00**

SHURE
PG42-LC
CARDIOID MICROPHONE

The PG42 accurately reproduces vocals, instruments and amplified signals with maximum detail. A -15dB Pad switch maximizes headroom and minimizes distortion and noise.

The cardioid polar pattern reduces off-axis noise and feedback from nearby audio sources. The microphone includes a carrying case and shockmount.

#SHPG42LC **$199.00**

BLUE
WOODPECKER

The Woodpecker is an elegantly engineered ribbon microphone, useful for recording male and female vocals, guitars, drums, and ambient sounds. It utilizes phantom power for operation while its handmade aluminum ribbon pressure-gradient transducer delivers smooth highs, defined mids, and rounded bass. The Woodpecker is an excellently-crafted and versatile ribbon microphone, and a welcome addition to any studio.

- Low noise Class-A discrete electronics
- Bidirectional Figure 8 pick-up pattern
- Handmade precision-crafted quality parts
- Exotic wood finish
- 20Hz-20kHz frequency response
- 136dB SPL
- Includes custom shock mount and cherrywood box

#BLWP ..... **Call or Log-on**

ROYER LABS
R-121

The R-121 is a sleek, modern, and versatile ribbon microphone combining warmth and clarity of sound and housed in a compact, durable metal frame. The element's figure-of-8 polar pattern exhibits increased brightness on the backside at distances of 3' or less, but is equally sensitive on either side. You can shove this mic against a Marshall stack or record an introspective vocal performance with equally effective results.

- Sensitive but durable dynamic ribbon mic with figure-of-8 polar pattern
- 135dB SPL capacity, useful as drum overheads or for miking speaker cabinets
- Ribbon element unaffected by heat or humidity
- 30Hz-15kHz frequency response
- Lifetime warranty

#ROR121 ..... **$1295.00**

ROYER LABS
SF-12

The SF-12 is a stereo coincident ribbon microphone offering premium stereo separation and unusually high SPL capabilities. The SF-12 consists of a pair of matched ribbon mics connected one over the other and aimed 45° off-center in the classic Blumlein style. The mic is endowed with excellent phase compatibility between the two sides for artifact-free mono recording, and exhibits negligible of-axis coloration.

- True stereo microphone for Blumlein or M-S recording
- 130dB SPL capacity with no self-distortion
- Great for minimalist drum kit recording
- Free of phase anomalies, folds well to mono
- 30Hz-15kHz frequency response
- Extension cable with upper/lower "Y" XLR adapter included

#ROSF12 ..... **Call or Log**

BEYERDYNAMIC
M160

The M160 is a dynamic dual-ribbon microphone with a hyper-cardioid pickup pattern that has found a home in many a locker as the mic of choice for recording bowed and low-output plucked-string instruments, from violas to lutes to dulcimers. Combining superior off-axis rejection with an ultra-thin and highly sensitive dual-element, the M160 offers the detailing and close-miked intimacy often associated with pricey condensers.

- Dual-element dynamic ribbon microphone with hyper-cardioid pickup pattern
- Superior detailing and off-axis rejection
- Mic of choice for stringed-instrument recording
- Glare-free chromium plating ideal for broadcast and television studio use
- 40Hz-18kHz frequency response

#BEM160 ..... **Call or Log-on**

ROYER LABS
R-122

The R-122 is a versatile ribbon condenser microphone with 48V phantom-powered ultra-quiet active electronics. The element exhibits a true ribbon figure-of-8 polar pattern, and the custom-wound toroidal transformer in the microphone allows for much-increased sensitivity. The phantom-powered circuitry provides optimized impedance conversion with virtually no self-noise for universal preamp compatibility.

- Durable, high-sensitivity ribbon condenser mic with figure-of-8 polar pattern
- 135dB SPL capacity, quiet 48V phantom-powered electronics
- Equal sensitivity in both front and back of mic
- Increased brightness in back of mic at shorter distances
- 30Hz-15kHz frequency response

#ROR122 ..... **$1750.00**

ROYER LABS
SF-24

The SF-24 is an unusual stereo ribbon condenser microphone with active electronics supporting 48V phantom power. Basically crossed and stacked figure-of-eights, the microphone exhibits classic Blumlein and M-S stereo characteristics with a high SPL capacity free of phasing issues and mono-friendly – either side of the SF-24 may be used as a separate mono mic. The mic's unusually high sensitivity allows for use with any outboard or mixing console mic pre.

- True stereo ribbon condenser microphone
- 130dB SPL capacity with no self-distortion
- Active electronics, 48V phantom power only
- Consistent frequency response unaffected by distance
- 40Hz-15kHz frequency response

#ROSF24 ..... **Call or Log-o**

SHURE
KSM313
DUAL-VOICE RIBBON MICROPHONE

The KSM313 is a professional-quality ribbon microphone ideal for capturing instruments or vocals. Revolutionary Roswellite proprietary ribbon material with high tensile strength and shape memory replaces the traditional foil ribbon construction in order to achieve extremely high SPL capabilities. It has a figure-8 polar pattern and true Dual-Voice ribbon motor assembly, allowing you to choose the mic's response. Choose between a warm and full sound for amplifiers, or bright for vocals. Made of machined steel, gold, silver, and aluminum components. Includes a swivel monocle mount and wooden storage case.

#SHKSM313 ..... **$1295.00**

SHURE
KSM353
PROFESSIONAL RIBBON MICROPHONE

The KSM353 is a professional-quality ribbon microphone ideal for capturing instruments or vocals. The mic has a figure-8 polar pattern and a custom ribbon motor that tailors the bass response without lowering the overall output. Revolutionary Roswellite proprietary ribbon material with high tensile strength and shape memory replaces the traditional foil ribbon construction in order to achieve extremely high SPL capabilities. A double-shielded full-size transformer minimizes signal loss and maximizes output while also keeping magnetic and RF interference to a minimum. The mic is machined steel, gold, silver, and aluminum components. It includes a spring-loaded shock mount and wooden storage case.

#SHKSM353 ..... **$2695.00**

SENNHEISER
MKH-30

The MKH-30 from Sennheiser is a unique recording microphone. Its figure of 8 pick-up pattern is particularly effective at the rejection of lateral sounds and the suppression of sounds from adjacent sources. Boasting a wide and open-sounding frequency response, it's an excellent tool for capturing a soloist or small instrumental groups. It comes equipped with a roll-off filter and switchable attenuation.

- Wide frequency response
- Very low self noise
- Roll-off filter
- Figure 8 pattern
- 40Hz–20kHz frequency response

#SEMKH30 ..... **$1249.95**

NEUMANN
KM184

eal for solo instruments, ensemble, and spot miking, the ompact KM184 is a small diaphragm cardioid condenser icrophone that offers premium Neumann sound that's both pen" and "musical." Two other polar patterns are available in e "Series 180", the KM183 omnidirectional condenser, and the M185 hypercardioid condenser.

- Sold individually or in matched stereo pairs
- Available in non-reflective black or nickel finish • 138dB SPL
- 20Hz–20kHz frequency response
- Wooden jewel box, windshield, stand and cable mount (incl.)

#NEKM184MT **$849.99**

KM183 small diaphragm with omnidirectional pattern
#NEKM183MT **$899.00**

KM185 small diaphragm with hypercardioid pattern
#NEKM185MT **$999.00**

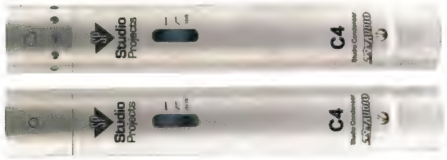

AUDIO-TECHNICA AT4051A

The Audio-Technica AT4051a is an exceptional small diaphragm cardioid condenser microphone. Its low self noise design is achieved with a direct-coupled balanced output, unlike conventional transformer-coupled microphones. The result is a versatile tool for production in critical music and broadcast studios. Optional pattern capsules are available for flexibility.

- Fast transient response • 80Hz hi-pass filter switch
- Phantom powered • Interchangeable capsules
- 20Hz–20kHz frequency response

#AUAT4051A **$499.00**

AT4053A-EL small diaphragm hypercardioid capsule
#AUAT4053AEL **$195.00**

STUDIO PROJECTS
C4

Studio Projects is known for producing affordable yet stellar-sounding microphones, and the C4 kit is no exception. Sold in a pair with cardioid and omni capsules, it's well equipped to handle myriad production tasks, from live music and studio production, to location sound and ambient recording. Each ruggedly-built microphone features a 10 dB pad and a high-pass filter.

- Case, shock mount and windscreen included
- Interchangeable omni and cardioid capsules
- Phantom powered

#STC4 ..... **$349.99**

AKG
C451B

A re-issue of the popular C451, the C451B delivers the same well-defined, articulate sonic characteristics of its predecessor, still making it great for use on acoustic guitars, drums, percussion or overhead miking. The all-metal body provides excellent protection from RF interference, and the microphone is rugged enough for even the most demanding applications.

- Selectable 10dB, 20dB pad
- 20Hz–20kHz frequency response
- Excellent transient response • 155dB SPL
- Selectable low-frequency roll-off switch

#AKC415B **$579.00**

C451 B/ST matched stereo pair with complete accessories in a carrying case
#AKC451BST **$1299.00**

SCHOEPS
CMC641SET

A favorite in film and music production, the Schoeps Colette series is known for its pristine sound quality and flexibility. Featuring transformerless electronics, the CMC6 preamplifier can utilize a number of different capsules for a variety of demanding production situations. The MK41 super-cardioid capsule has a directional yet very natural-sounding response and is used in a variety of applications from live television to interior film production shoots.

- Scalable design with 20 optional capsules
- Superior natural sound • Low noise floor
- Transformerless electronics
- 40Hz–20kHz frequency response

#SCCMC641S **$1939.00**
CUT1 low-cut filter (60Hz at 24dB octave) #SCCUT1 .. **$675.00**
B5DG Hollow foam windscreen #SCB5DG **$62.00**

AUDIO-TECHNICA
AT4041

The AT4041 is a small diaphragm condenser microphone that, as an instrument mic, can be used on virtually any source requiring a cardioid response. Its accuracy, detail, and highly-sensitive capsule make it an obvious choice for solo acoustic instrument recordings, sound effects gathering, and choir and small acoustic ensembles.

- Ideal for guitar, piano, and overhead miking
- High level handling ideal for percussion and brass • Smooth, extended response with slight high-end emphasis
- Transformerless design for quick response and virtually no low frequency distortion
- Rugged brass housing with switchable high-pass filter • 48V phantom powered
- 145dB SPL • 20Hz–20kHz frequency response

#AUAT4041 ..... **$299.99**

AUDIO-TECHNICA
AT4053B

Fast response to transients contributes to the open, transparent reproduction of even the most difficult-to-capture instruments.

- Specially engineered to meet the most critical acoustic requirements of professional recording, broadcast and sound reinforcement
- Hypercardioid polar pattern reduces pickup of sounds from the sides and rear, improving isolation of desired sound source
- Direct-coupled, balanced output results in a clean signal even under high-output conditions
- Transformerless circuitry virtually eliminates low-frequency distortion and provides superior correlation of high-speed transients
- Switchable 80 Hz hi-pass filter and 10 dB pad

#AUAT4053B **$599.00**

SHURE
SM81 LC

The Shure SM81 LC is a high-quality small diaphragm cardioid condenser microphone designed for studio recording, broadcasting, and sound reinforcement. The ruggedly constructed SM81 LC can also serve as a field recording mic with consistent performance over a wide range of temperature and humidity conditions. Its flat, neutral frequency response makes it particularly well-suited for use on acoustic guitar, piano, cymbals, and choirs.

- Requires 48V phantom power
- Selectable low-frequency rolloff
- 10dB lockable attenuator switch
- Rugged steel construction for durability
- 131dB SPL
- 20Hz–20kHz frequency response
- Carrying case, windscreen, swivel adapter and attenuator-switch lock (included)

#SHSM81LC **$349.00**

CROWN
CM-700

A strong contender as an engineer's everyday-use microphone, the Crown CM-700 is an extremely flexible small diaphragm cardioid condenser microphone capable of particularly close miking of high volume, powerful sound sources. The aggressive yet accurate and open sound of the mic makes it an ideal choice for use on percussion, rhythm guitar, bass, and even vocals.

- Smooth, round response
- Slim, compact design
- Humbucking transformer for lower noise
- Low cut and bass roll-off switch
- 151dB SPL
- 30Hz–20kHz frequency response

#CRCN700 ..... **284.95**

AUDIO-TECHNICA
PRO 37

With a low mass element for superb transient response and an extremely low-profile design for optimal mic placement, the Pro 37 excels in high-SPL applications. It is ideal for acoustic instruments and overhead applications, and its cardioid polar pattern reduces pickup of sounds from the sides and rear, improving isolation.

- Low-profile small diaphragm condenser
- Studio and sound reinforcement applications
- 141dB SPL handling capability
- 30Hz to 15kHz frequency response
- Includes windscreen and protective pouch
- 20Hz to 19kHz grequency response
- Includes protective pouch and storage box

AUPRO37 ..... **$154.50**

SENNHEISER
ME62

The ME62 is an omni-directional condenser microphone useful for capturing musical performances, or as an interview and discussion-group miking solution involving several speakers. It's also a good choice for use as an ambient mic for live or recording applications, with full-range frequency reproduction and nice detailing.

- Omni-directional condenser microphone capsule
- Minimal self-noise
- Anodized scratch-resistant finish • 130dB SPL
- 20Hz-20kHz frequency response

#SEME62 ..... **$159.00**
K6 AA battery/phantom powering module for ME62
#MEK6 ..... **$250.00**

SAMSON
G-TRACK

This large diaphragm studio condenser not only does a great jo of capturing your vocal performances, but also provides a built- in USB audio interface and mixer as well. Now you can record your voice along with guitar, bass, o keyboards while monitoring through the onboard headphone output. This gives singer/songwriters an easy-to-use, ultra-portable solution for getting their work done with a minimum of gear.

- Large diaphragm USB condenser microphone
- Mic and Instrument/Line gain control with clip LED
- Stereo input jacks for line/ instruments
- No latency headphone monitoring
- USB bus-powered and compliant

#SAGM1U **$124.95**

SENNHEISER
MKH 8000 SERIES

The all-new 8000 Series microphones from Sennheiser represent a collection of very compact and very versatile recording tools designed for use in a variety of situations. The mic elements and XLR modules are housed separately for the ultimate in placement options.

MKH-8020 Set omnidirectional / 10Hz to 60kHz freq. response / 138dB SPL #SEMKH8020 ..... **$1200.00**
MKH-8040 Set cardioid / 30Hz to 50kHz freq. response / 142dB SPL #SEMKH8040 ..... **$1200.00**
MKH-8050 Set super-cardioid/ 30Hz to 50kHz freq. response / 142dB SPL #SEMKH8050 ..... **$1200.00**
All models include windscreen, clip, and case

SENNHEISER
MKH-20

The MKH 20 is ideal for use as an overhead mic, for pickup of solo instruments, and among other applications, as a main microphone for orchestral recordings. Its exceptionally wide frequency response and lack of any proximity effect allow this microphone to be easily placed to deliver rich detail without an over-accentuated low end.

- High-performance omnidirectional recording mic
- Transformerless output for transparent sound
- 134dB SPL handling capability
- 12Hz to 20kHz frequency response
- Includes shock mount and windshield

#SEMKH20 ..... **$1195.95**

BLUE
SNOWFLAKE

The Snowflake is an ultra-compact yet high-quality plug-and-play USB condenser microphone. It's cleverly designed to fold into itself, USB cable and all, for storage and travel, and to unfold into a desktop stand – or to clip onto the monitor of laptop. Musicians, podcasters, and journalists will appreciate its ease of use and handsome design. No drivers are needed, you just plug in to any Mac or PC and record great sounding audio.

- USB cable included
- Folds into a case, folds out into a stand or clip
- Conforms to BLUE's high standards for sound quality
- Compact enough to keep in laptop bag, or in your pocket
- Compatible with Mac and PC, no software drivers needed
- 3 year limited warranty

#BLSF ..... **Call or Log-on**

NEUMAN
KM 184D

In our current world of digital workstation and hard disk recorders, the ability to digitally connect your microphone directly to your system would seem like a logical step. Now there is a line of small diaphragm cardioid digital microphones that combines the famed Neuman sound with the added benefit of S/PDIF or AES/EBU output to keep your signal chain in the digital domain from beginning to end.

KM 184 D* ..... **Call/Log-on**
KM 184 D 44SPD 24-bit / 44.1kHz with S/PDIF output

Includes storage box and winscreen

RODE
NT3

The RODE NT3 is an affordable hypercardioid condenser microphone ideal for location, studio, and live use. Its transformerless output and quality construction delivers open, pristine sound. The microphone has the ability to be powered by a single 9V battery, making it a great solution for field recording.

- 48V phantom powered with optional 9V battery operation
- Internal capsule shock mounting
- Battery status indicator
- 140dB SPL
- 20Hz–20kHz frequency response
- Zipper pouch, windscreen and stand mount (included)

#RONT3 ..... **$269.00**

SAMSON
GO MIC
USB MICROPHONE

Samson's Go Mic is a compact, plug-and-play solution that requires no drivers and is completely Mac and Windows compatible. It features a USB audio output and a 1/8" (3.5mm) headphone output. A folding clip allows for laptop screen mounting. Switchable polar patterns provide cardioid and omnidirectional pick up patterns for added flexibility and control. A wide frequency response and 44.1kHz / 16-bit resolution make the Go Mic ideal for Podcasts, voice recognition software, music recording, general speech, etc.

#SAGMS **$59.00**

SE-ELECTRONICS
USB1000A

he USB1000A is a great choice for mputer recording with its built-in USB rt for direct connection and a 1/2" aphragm for a full rich sound. There is dedicated PC/Apple switch on its face nd entering USB voltage is conditioned efore being applied to the mic for a clean gnal. Solid build quality and compact ze make for excellent durability and easy lacement.

- Cardioid condenser USB microphone
- Voltage conditioning maintains clean signal
- Perfect for Podcasting and voice-over work
- 20Hz to 20kHz frequency response
- Integrated mounting cradle and padded case

#SEUSB1000A **$199.00**

SAMSON
C01UCW

The C01U is a cardioid condenser microphone with a built-in USB port ideal for musicians, podcasters, journalists, students, and business people adding audio files to websites and multimedia presentations. It features a 19mm internal shock mounted diaphragm and a heavy-gauge mesh grille, and works seamlessly with both Mac & PC computers. This versatile mic supports sampling rates up to 16-bit/48 kHz.

- Cardioid condenser with built-in USB port
- 19mm internal shock-mounted diaphragm
- Heavy-gauge mesh grille
- Smooth, flat response
- USB cable included
- Compatible with Mac & PC
- Frequency response: 40Hz -18kHz

#SAC01UCW **$99.00**

MXL
USB.008

The MXL USB.008 makes a fantastic choice for podcasting, broadcasting, narration, and multimedia with its large 32mm condenser capsule and cardioid pick-up pattern. With USB connection to your computer there is no need for any specialized studio gear. All you have to do is set your preferences and enjoy instant professional-quality recordings in your favorite software. The mic even has real analog volume adjustment to ensure correct pre-digital levels going into your computer.

- USB-equipped large diaphragm mic
- Condenser element with 32mm capsule
- Allows for true portability and versatility
- 20Hz to 20kHz frequency response
- Mac and PC compatible

#MXMXLUSB008 ..... **$169.95**

RODE
PODCASTER

The Rode Podcaster is a result of years of experience in the business of building well-designed and great-sounding microphones. This broadcast-quality, end-address USB microphone features a tailored-for-voice frequency response that delivers rich, full results. A status LED lets you know that your mic is online, and there is an onboard headphone output jack with its own volume control for the ultimate in convenience.

- High-quality dynamic USB broadcast mic
- Internally shock-mounted 28mm neodymium capsule
- Tight cardioid pattern for superior off-axis rejection
- Ideal for pro-quality studio and field applications
- Power supplied form USB port

#ROPODCASTER **$229.00**

SE-ELECTRONICS
USB2200A

SE is offering a truly professional USB recording alternative with this cardioid condenser microphone. It features a full 1" hand-crafted, gold-plated diaphragm and offers zero-latency monitoring with its own built-in headphone output and "Mix vs. Mic" level control. Unlike most other USB microphones, the USB2200A features XLR output as well to provide single or dual output operation for true versatility. As an extra precaution, voltage has been conditioned to address the usual noise problems associated with using power via USB.

- Professional-grade cardioid condenser USB mic
- Simultaneous XLR and USB output
- 100Hz roll off and 10dB pad switches
- Large diaphragm with 20Hz to 20kHz frequency response
- Includes mounting cradle and padded case

#SEUSB2200A **$399.00**

MXL
USB.006

The USB.006 was designed to deliver the big rich sound of a studio condenser in a package that connects directly to your computer for maximum ease of use. As a plug-and-play device for both Windows and Macintosh, it requires no special drivers whatsoever, and so makes a perfect portable solution for podcasting and location recording. With selectable attenuation it is easy to adapt this microphone to capture virtually any sound source without the need of external preamps or multiple cables.

- Large diaphragm USB condenser microphone
- 0dB, -5dB and, -10dB attenuation switch
- Cardioid pick-up pattern and integrated pop filter
- 20Hz to 20kHz frequency response
- USB 1.1 and 2.0 compatible

#MXMXLUSB006 ..... **$139.95**

MXL
USB.007

The USB.007 large diaphragm condenser microphone is just as simple to use as MXL's other USB models but, allows you to record in stereo while still connecting to your computer with only a single USB cable. This opens up new possibilities for capturing live performances, podcasts, concerts, outdoor environments, and sound effects in stereo for film work. Now you can set up shop anywhere in the world and document your work in full stereo for remarkable results with minimum hardware.

- Dual gold diaphragm capsules in an XY pattern
- Stereo recording over a single USB cable
- Low noise electronics
- Enhanced digital conversion
- Add a new dimension to your podcasts

#MXMXLUSB007 ..... **$199.95**

SHURE
PG42-USB

Elegance and simplicity are the driving forces behind Blue's design philosophy, and Robbie is no exception.
This Class-A discrete tube microphone and instrument pre-amp features the same technical build quality and commitment to excellence for which Blue is known.

- Excellent detail with extremely low noise and ultra-high gain
- Warm, robust, tube gain stage with solid-state output
- Discrete, balanced components from input to output
- Hi-Z 1/4" instrument line input • 20dB pad
- 10Hz-100kHz frequency response

#SHPG42USB **$249.00**

BLUE
SNOWBALL USB
with accessory kit

The Snowball USB is a dual-capsule microphone designed to interface with laptop and desktop computers via USB. This bus-powered, plug-n'-play mic features a three-pattern switch (cardioid, cardioid with 10dB pad and omni) and is ideal for music production, DV-looping /dialog recording, podcasting, and video post-production applications.

- USB bus-powered condenser
- Seamless integration with audio software
- Unique dual-capsule design
- 3-pattern switch (cardioid, cardioid w/ 10dB pad & omni)
- 10 dB pad switch • Includes tripod stand & USB cable
- Frequency response: 40Hz -18kHz
- Windows XP and Mac OS X compatible

#BLSBAPB **$99.99**

UNIVERSAL AUDIO SOLO/610

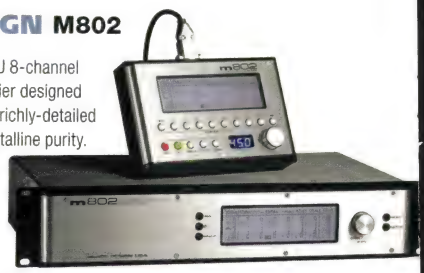

The SOLO/610 is a single-channel tube microphone preamp & DI box that delivers the classic Putnam 610 console sound in a portable, form factor case. This highly versatile unit offers 48V phantom power, low-cut filtering, phase reverse; and for even greater tonal variety, maintains the 610's flexible dual impedance selection for both Mic and DI inputs.

- (1) XLR input & output • Classic Putnam 610 console Mic Preamplifier and DI • Legendary all-tube sound at a project studio price
- Gain, Level, and impedance selection for maximum tonal variety
- DI features like Thru and Mic/Line level output
- Ground lift switch
- Rugged steel chassis
- Internal switching power supply
- Hand assembled in the USA

#UNS610 ..... **Call or Log-in**

GRACE DESIGN M802

The M802 is a remote-controlled 2RU 8-channel programmable microphone preamplifier designed for high-end DAW recording. It has a richly-detailed sound with a huge presence and crystalline purity. The M802 features a fully-balanced, transformerless design, fast trans-impedance amplifier architecture, with precise, illuminated LCD digital metering, a dedicated ribbon mic operating mode, and direct control from compatible DAW control surfaces and MIDI devices.

- Dual XLR and D-Sub high-current outputs
- 15Hz-300kHz frequency response
- -7dB to +63dB gain range
- Remote control up to 64 channels
- Programmable Phase, Gain, and Phantom Power
- Channel Group Mode for stereo pairs and subgroups

#GRM802 ..... **4685.0**

SUMMIT 2BA-221

The 2BA-221 Mic and Line Module is a continuously variable impedance microphone preamp with microphone level, line level, and Hi-Z instrument inputs. It utilizes separate and individually-controlled solid state input controls to mix the microphone input with the Hi-Z or line input into the variable vacuum tube output. This versatile unit offers exceptional sonic control of mic, line, or instrument level.

- XLR and 1/4" outputs and inputs, insert jack
- Three variable, independent gain stages
- Separate solid state and tube outputs
- Variable High-pass Filter

#SU2BA221 ..... **Call or Log-on**

GRACE DESIGN MODEL 201

The M201 is an elite 2-channel microphone preamp with a huge, richly-detailed sound, high-quality components, and a rugged 2RU chassis. It features a fully-balanced, transformerless design, a dedicated ribbon mic mode, built-in M/S decoding, and per-channel phantom power control and DI instrument inputs. There are dual parallel XLR outputs and a 2-color, bi-phase peak indicator for each channel.

- Dual parallel XLR outputs • 4.5Hz-350kHz frequency response
- Rotary switch for 48V, Ribbon Mic or DI selection
- Ultra-low -130dB Noise
- 60dB Gain
- M/S Decoding with width control
- Precision gold-contact gain controls

#GRM201 ..... **Call or Log-on**

TRUE SYSTEMS P-SOLO

The P-Solo is a precision single-channel microphone/instrument preamplifier that offers the same design and sound of the TRUE Systems Precision 8 and P2 Analog preamps in a compact desk-top case. It is equipped with XLR mic input, a front-panel high-impedance instrument input, an oversized volume control, a high-pass filter and four-level metering.

- Dual servo, high dynamic range, transformerless design
- (1) XLR mic input, (1) 1/4" Hi-Z instrument input
- XLR & 1/4"TRS output • 4-level metering
- High-pass filter and 48V phantom power
- Over-size volume control with selectable 10db input level attenuation
- Internal linear AC power supply
- Compact, portable, desk-top case

#TRPS **$535.00**

GRACE DESIGN MODEL 101

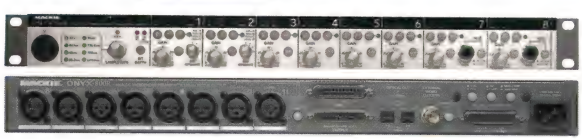

The Model 101 is an elegant single-channel microphone preamplifier with a no-nonsense design and a very pure signal path. The simple, intuitive front panel is equipped with sturdy, easy-access phantom power and HPF switches, a Hi-Z instrument input, gain, and output trim controls, a 2-color bi-phase peak indicator, and a power switch with its own light.

- Lightning-fast trans-impedance amplifier
- 4.5Hz-390kHz frequency response
- Fully-balanced transformerless design
- 3-position HPF switch
- 60dB Gain
- 10dB output level trim controls
- Switchable 48V phantom power
- Capacitor-free signal path

#GRM101 ..... **Call or Log-on**

MACKIE ONYX 800R

The Onyx 800R is an 8-channel 1RU microphone preamp designed with the unique ability to simultaneously output both analog and 24-bit/192kHz multi-format digital signals. Each channel offers dedicated Low Cut, Phase and Phantom power controls. The unit has an ultra-clean audiophile sound and delivers an astounding 123db of distortion-free dynamic range, ideal for direct DAW recording at today's extreme recording levels.

- XLR mic/line, dual 1/4" instrument DI
- 10Hz-170kHz mic-to-line out frequency response • I10Hz-90kHz mic-to-AES out frequency response • Variable mic impedance selector for Ch.1 and 2
- Variable 32Khz-192kHz sample rate selector

#MAO800R **$1099.99**

FOCUSRITE VOICEMASTER PRO

The Focusrite Voicemaster Pro is a comprehensive vocal/instrument recording channel with features tailored for vocals, but still capable of impressive results on instruments, especially guitar. Project studios will appreciate the extensive tone shaping tools and processing versatility rarely found in a preamp channel of this class.

- Class-A preamp • Quiet, flexible operation and tonal coloration
- Vintage Harmonics adds shimmer and light breathiness
- Voice optimized EQ and De-esser
- Quick responding yet musical Optical Compressor and Expander
- 1/4" instrument and XLR mic inputs/optional digital output with clock sync up to 96kHz

#FOVMP ..... **Call or Log-in**

TRUE SYSTEMS PRECISION 8

Featuring high headroom and very low-noise operation, the Precision 8 is an eight-channel solid state microphone pre-amp capable of producing realistic, transparent, live, and direct tracking performances. Designed with a straightforward front panel and flexible hard-disk and console connectivity, the accurate and detailed Precision 8 provides engineers a complete, effective single-space input system for both on-location and studio recordings.

- (8) highly-transparent and detailed solid state mic preamps • (2) selectable high-impedance instrument DI's • Built-in M-S (Mid-Side) decoding for creative spatial image control
- 5-segment level indicators with peak hold and selectable peak reference • DB25 and TRS outputs for flexibleinterconnection to MDM's, HDR's, DAW's or consoles • Smooth, continuous gain controls

#TRP8 ..... **Call/Log-on**

UNIVERSAL AUDIO 6176

6176 is a tube-channel strip comprised of the classic 610 Microphone Preamp and legendary 1176 Compressor. With its tremendously flexible tone, function, and ultra-quiet operation, the 6176 is the perfect analog front end for digital audio recording.

- Classic sound of the renowned 610 Modular Console • Mic, Balanced line, and Hi-Z Inputs
- Join/Split switch allows entirely independent operation of each unit
- HF and LF Shelving EQ
- Variable input gain and output levels
- Internal switching power supply

#UN6176 ..... **2399.00**

FOCUSRITE LIQUID CHANNEL

The Focusrite Liquid Channel is a high-end single-channel strip capable of producing remarkable replicas of up to 40 different analog preamps and/or compressors with a sampling rate up to 192k. This innovative technology combined with its impressive user interface and subtle tone-shaping EQ, provides professional studio engineers a valuable tool with the flexibility to create unique tonal variations that may have never previously existed.

- (40) Preamp and Compressor replicas
- Ultra-wide gain and dynamic range
- Front panel includes: (14) rotary encoders, (26) pushbuttons, and 235 LED's
- 3-band EQ with high/low sweepable shelves and variable-Q mid • Extremely low latency
- Download additional replicas using LiquidControl software for Mac/PC

#FOLC ..... **Call or Log-on**

AVALON VT-737SP

VT-737SP is a single-channel, vacuum tube Class-A processor that combines a tube Mic preamp, Instrument DI, Opto-Compressor, and a 4-band Parametric EQ.The high-performance VT-737SP adds incredible warmth, depth, and character to digital recordings, providing the perfect analog channel strip for Digital Workstation and Broadcast Studios

- Balanced XLR I/O and 1/4" front panel instrument input
- Large VU meter for monitoring output level and compressor gain reduction
- EQ section switchable between Pre/Post compressor • Two VT-737SP's can be linked for stereo tracking

#AVVT737SP ..... **Call or Log-on**

AVALON M5

M5 is a pure Class-A microphone preamp designed to optimize absolute signal integrity and musical detail. Ideal for Vocals and Acoustic instruments, the M5's 100% discrete circuit design provides demanding audio professionals with the highest standard in performance and sonic excellence.

- Balanced XLR I/O, and 1/4" Hi-Z input
- Active DI input for Bass, Guitar, and Keyboards • Large Illuminated VU meter
- Minimum Audio Signal path
- External AC Power supply, 100V-240V selectable • Rugged half-rack space chassis with optional rack mount kits

#AVM5 ..... **Call/Log-on**

UNIVERSAL AUDIO LA-610 MKII

The LA-610 Mk II brings vintage, "all tube" sound to the modern channel strip format. Combines a 610 Mic-Pre/EQ/DI section, based on the console modules developed by Bill Putnam in the 1960s, with a T4 Opto-compressor, and houses them in a 2U rack-mount enclosure. The 610-tube preamp, DI and EQ deliver a sound that is as timeless as it is legendary, and a hallmark of many classic recordings.
The LA-610 MkII is sonically very versatile and can function as an ideal front-end for tracking into a digital audio workstation. The preamp is augmented with two bands of shelving EQ, followed a T4 based optical compressor. Although not an exact LA-2A clone, the compressor circuitry nevertheless shares its signature sound by utilizing its unique combination of an electro-luminescent panel and photo-resistors. Three 12AX7A tubes, a single 6072A and 6AQ5 tube combine to provide "warmth" and overall even tonal balance.

#UNLA610MK2 ..... **$1599.00**

SOLID STATE LOGIC XLOGIC ALPHA CHANNEL

The Xlogic Alpha Channel is a single-channel microphone preamplifier equipped with a limiter, 3-band parametric EQ, and a 24-bit A/D converter featuring auto-sensing, self-adjusting sample rate conversion. Housed in a rugged 1RU metal chassis, with SSL's legendary sonic power and ultra-quiet operation, the Xlogic Alpha Channel represents a surprisingly affordable way to obtain upper-echelon sound quality for the project or commercial studio owner.

- Elite-quality mic preamp and signal processor
- XLR Combo jack, 1/4" TRS and RCA analog connectivity
- Coaxial SPDIF digital connectors
- Variable Harmonic Drive
- 24-bit A/D converter with self-adjusting SRC
- Powerful 3-band SSL EQ with MF Q-control, dual LF curves
- Intelligent program-dependent limiter

#SOAC **995.00**

SOLID STATE LOGIC X-DESK

Desk is a "SuperAnalogue" line mixer with eight dual-input mono channels, stereo and mono auxiliary sends and comprehensive monitoring control. With, 100mm faders, professionally featured artist and studio monitoring with Dim & Cut buttons, Stereo and Mono Aux sends, channel and Master Bus Inserts and accurate bar graph level metering, X-Desk fulfills all of the essentials of the audio mixing process. X-Desk is an ergonomically refined desktop mixer that comes with rack ears for standard 19-inch rack mounting (X-Desk is 7U). It is hand-built with an all-metal chassis and high quality controls and components. Several X-Desks or X-Desk & X-Racks can be cascaded via D-Sub connection to expand up to 150 inputs on mixdown.

#SOXDM **2899.00**

M-AUDIO DMP3

The DMP3 is an ideal two-channel microphone/instrument pre-amplifier for high resolution recordings. Its exceptional 20Hz to 80kHz dynamic range is complemented by an unbelievable 66dB of gain, VU meters and phantom power for condenser microphones. Every nuance of your sound source will be recorded with minimal noise or degradation improving overall recording quality.

- 2-channel mic/instrument pre-amp
- XLR mic and 1/4" instrument inputs • 1/4" balanced outputs
- High gain and low-cut switches with 66dB of total gain
- 48V phantom power • 20Hz-80kHz frequency response

#MADMP3 ..... **$159.00**

M-AUDIO AUDIO BUDDY

The Audio Buddy is a cost-effective two-channel preamp/direct box for microphones or high-impedance instrument lines. The compact unit's front panel features individual gain control and clip LED's with 1/4" inputs, while providing dual balanced XLR inputs with a phantom power switch on the rear. A clean and simple tool to use, the Audio Buddy is an ideal preamp/direct box for home studios.

- Compact 2-channel instrument/mic pre with up to 60dB gain
- Ideal for use as a direct box
- Individual gain control with clip LED's
- 1/4" and XLR inputs with balanced/un balanced 1/4" outputs
- Phantom power

#MAAB **$69.95**

ART
TUBE MP PROJECT SERIES

Improving virtually every aspect of the already popular Tube MP, the Tube MP Project Series is an ultra-low-noise discrete mic preamp that effectively handles a wide range of input signals with minimal coloration. Its 1/4" and XLR inputs pass through a high-quality 12AX7 tube, selectable filters, and a musical FET limiter, providing a dynamic 70dB of gain while preserving signal tonality and clarity.

- Low-noise, tube mic preamp
- Switch selectable input impedance
- Fast FET limiter helps limit overload • Variable I/O controls
- Phase invert and filter switches • 48V phantom power

#ARTMPPS **$65.00**

JOEMEEK ONEQ

The JOEMEEK OneQ is a single-channel microphone preamp and channel-strip processor combining a 4-band parametric EQ, an optical compressor, a de-esser and an Enhancer, housed in a solid 2RU chassis. The JOE MEEK sound, particularly the compressor, is often characterized as "fat," "aggressive," "punchy," and "tube-like:" if you'd like to add some old-school analog beef to your digital tracks, the OneQ delivers.

- Classic analog sound • 15Hz-70kHz frequency response
- Variable 10dB to 60dB Gain range
- Optical and Coaxial SPDIF digital connectors
- A/D interface with a Word Clock I/O, AES/EBU
- Fast aggressive optical compressor
- Musical EQ for tone control • Large backlit VU meter

#JOONEQ ..... **Call or Log-on**

FOCUSRITE TWIN TRAK PRO

The Twin Trak Pro is a 2-channel microphone preamplifier equipped with a dual-mono/stereo optical compressor and an EQ section consisting of a High-pass Filter and a Mid-scoop. The unit represents an affordable way to bring some Focusrite class to project studio tracking. Features such as front panel XLR and 1/4" connectors, attractive metering, and variable input impedance allow for quick setup and creative flow when the mood strikes.

- 10Hz–200kHz frequency response
- 60dB Gain Range • Latency-free monitoring
- 24-bit A/D converter, Word Clock I/O
- Selectable sample rates to 192kHz
- Out Switch removes unused compressor and EQ from signal
- "Air" function for greater HF openness

#FOTTP ..... **Call or Log-on**

DBX 376

The 376 from DBX is a channel strip featuring a single-channel tube microphone preamp, 3-band parametric EQ, a compressor and a de-esser, housed in a 1RU steel chassis. The 376 includes an A/D converter with selectable sampling and bit rates, supporting AES/EBU and SPDIF digital formats, and a Word Clock I/O. Flexible and warm-sounding, the 376 is a good value.

- Tube mic pre • XLR and 1/4" mic and Hi-Z inputs
- AES/EBU , RCA SPDIF digital outs
- 10Hz-75kHz frequency response • 60dB maximum Gain
- Selectable sampling and bit rates • BNC Word Clock I/O
- Selectable dither and noise-shaping algorithms

#DB376 ..... **Call or Log-on**

M-AUDIO OCTANE

The Octane is a highly flexible preamplifier interface ideal for anyone using ADAT inputs. It features eight channels of dynamic low-noise, high-gain pre-amplification on balanced XLR, TRS, or high-impedance instrument-level inputs. Each channel provides a separate microphone level, 20dB pad, and three segment LED meter, with output connections being made via balanced/unbalanced 1/4" line or ADAT lightpipe.

- Low-noise, high-gain 8-channel microphone/instrument preamp • (8) XLR, 1/4" balanced/unbalanced inputs
- (2) Hi-Z (guitar) instrument inputs on channels 1-2
- ADAT lightpipe, 1/4" direct outs
- Word clock I/O • 24-bit A/D

#MAOQ **$599.00**

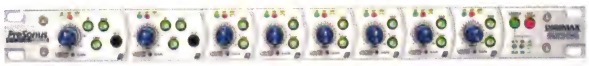

STUDIO PROJECTS VTB1

The VTB-1 is a single-channel tube microphone preamplifier and DI, designed as a low-cost alternative for project studio owners and voiceover artists desiring the tube sound. The unit features a Tube Drive control knob that attenuates or increases the amount of tube circuitry in the signal path according to taste, delivering both solid state transparency and tube thickness.

- Low-cost tube mic pre with readily available 12AX7 tube
- XLR and TRS phone inputs, outputs, &insert
- High-pass filter • 20Hz-20kHz frequency response
- 72dB Gain range
- Tube Drive controls tube presence in signal path
- Buffering for Hi-Z in avoids pickup loading for guitars, basses

#STVTB1 ..... **$139.99**

PRESONUS
DIGIMAX 96K

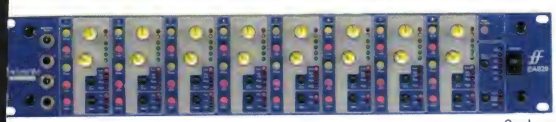

e Presonus Digimax is an uncompromisingly well-built channel mic preamp that represents a significant upgrade the front-end of any computer-based recording system. transformerless design, combined with eight mic eamps, A/D's, limiting, and subtle switchable enhancing, oduces an overall warmer tone with greater definition and namic range resulting in superior sound for almost any nnected source.

- Superior input sound quality and flexibilty
- Hi-Z instrument input on channels 1-2
- (8) EQ channels, preamps, limiters, and 24-bit/96k converters
- High-quality upgrade and sonic performance over stock input systems

#PRDM96.....**$1400.00**

gimax LT same as Digimax 96k with the following exceptions: all channel inputs on Neutrik XLR combo jacks, inserts for each input, ADAT digital connect nly, 48k A/D, no enhancing EQ #PRDMLT.....**$799.95**

FOCUSRITE
ISA-828

he ISA-828 is an 8-channel rackmount microphone reamplifier, loaded with Focusrite's original transformer-based SA preamp modules offering high-headroom transparency. The nit features a 4-setting variable-impedance input stage with 0dB of maximum gain, and capably handles both high-output ondensers and low-output ribbon mics.. Channels 1-4 include DI instrument inputs as well. The ISA-828 is a versatile studio front-end with an affordable high-end sound.

- 8-channel rackmount microphone preamp
- Microphone and line inputs on all channels
- Hi-Z instrument inputs for channels 1-4 • 80dB of gain for mic inputs • 75Hz HPF, 48V phantom and phase switches
- Variable microphone impedance with 4 settings
- (8) XLR mic, (8) 1/4" TRS phone line, (4) 1/4" TS phone inputs
- (1) 25-pin D-sub 8-channel output

#FOISA828.....**$2699.99**

FOCUSRITE
VOICEMASTER PRO

The Focusrite Voicemaster Pro is a comprehensive vocal/instrument recording channel with features tailored for vocals, but still capable of impressive results on instruments, especially guitar. Project studios will appreciate the extensive tone shaping tools and processing versatility rarely found in a preamp channel of this class.

- Class-A preamp • Quiet, flexible operation and tonal coloration
- Vintage Harmonics adds shimmer and light breathiness
- Voice optimized EQ and De-esser
- Quick responding yet musical Optical Compressor and Expander
- 1/4" instrument and XLR mic inputs/optional digital output with clock sync up to 96kHz

#FOVMP.....**Call/Log-on**

PRESONUS
EUREKA

Eureka is a high-quality channel strip that combines a discrete Class-A, high-headroom Microphone Preamp with a Compressor and a 3-band Equalizer.This well-built, high-performance channel strip gives users all the sonic performance and control needed for professional audio recording at an affordable price.

- Microphone, Line, and Instrument inputs on XLR and 1/4" TRS connectors • 3-band fully-parametric EQ
- Variable Saturate Control—simulates Tape Saturation and Tube Warmth • Balanced Send and Return
- Fully-variable Compressor with Hi-pass side chain
- Hard and soft knee compression • Illuminated VU meter

#PREUREKA.....**$499.95**

APHEX
230

The Aphex 230 is a versatile, 1RU tube-based microphone preamp and voice processor, appropriate for use in broadcast production, voice-over, and higher-end podcasting. The processor complement includes a compressor and gate, a variable frequency de-esser, a parametric EQ, and Aphex's popular Exciter and Big Bottom enhancers. The 230 is equipped with an A/D converter which offers multi-format simultaneous output, along with a Word Clock I/O.

- 18Hz-24kHz frequency response
- 20dB to 65dB Gain Range
- AES/EBU, Coax and Optical SPDIF outputs
- Low-jitter Word Clock I/O
- Reflected plate tube mic pre
- Inserts between dynamics and EQ processors
- Cough switch for on-the-fly muting

#AP230.....**Call/Log-on**

SYMETRIX
528E

The 528E is a 1RU single-channel microphone preamp and multi-function voice processor that performs the functions of six separate pieces of studio gear. It is equipped with a compressor/limiter, de-esser, downward expander, a 3-band parametric EQ, and a voice symmetry alignment function, which further corrects for the natural peaks and dips of human vocal delivery. All processing may be implemented simultaneously, if necessary.

- Replaces six pieces of studio gear
- XLR and 1/4" inputs and outputs
- 20Hz-20kHz frequency response
- Up to 60dB Gain • Very low -126dBV noise
- Works with all microphones including ribbon
- Simultaneous use of all six processors
- Separate metering for mic gain and dynamics processing

#SY528E.....**$499.00**

FOCUSRITE
TRAKMASTER PRO

The TrakMaster Pro is a single-channel microphone preamplifier and signal processor. The unit houses the mic pre, an optical compressor, and a mid-scoop EQ in a handsome 1RU metal chassis. The TrakMaster Pro is an excellent solution for mono vocal or instrument tracking in a professional or project studio, with professional connectivity, high headroom, and latency-free monitoring.

- 20Hz-250kHz frequency response • Up to 60dB Gain
- Single-channel mic preamp/signal processor and DI
- Fast optical compressor
- Mid-scoop EQ with dual cut depths, adjustable frequency
- High-pass filter
- XLR and TRS phone input and output connectors

#FOTMP.....**Call or Log-on**

DBX 286A

The 286A is a single-channel microphone preamplifier containing 5 independent and combinable signal processors, including a compressor (a dbx specialty), de-esser, Enhancer, and an expander/gate. The unit serves as a versatile, and inexpensive voice processor for studio vocal, broadcast, and voiceover applications, with professional connectivity and controls, and a clean sound.

- XLR and TS phone inputs • 20Hz-20kHz frequency response
- Up to 60dB Gain
- Overeasy compressor, frequency-tunable de-esser
- Enhancer for vocals and instruments
- Expander/Gate reduces headphone leakage, guitar amp noise
- TRS phone output, insert • XLR and TS phone inputs
- 20Hz-20kHz frequency response • Up to 60dB Gain
- Overeasy compressor, frequency-tunable de-esser
- Enhancer for vocals and instruments
- Expander/Gate reduces headphone leakage, guitar amp noise
- TRS phone output, insert

#DB286A.....**$209.95**

PRESONUS
BLUETUBE DP

The BlueTube DP is an affordable two channel microphone/instrument preamp with the flexibility to deliver a variety of tones. Each channel has the ability to bypass the tube circuit for a clean response, or saturate the tone by engaging the tube drive knob and adjusting it to your liking. Illuminated analog VU meters and professional features like phantom power and Neutrik connectors make it an excellent addition to home and project studios.

- Signal to noise ratio of 95dB
- 20dB pad, polarity reversal, and 80Hz low-cut filter buttons
- Excellent for microphones and as a DI for guitar and bass
- Acts as a solid state and tube driven preamplifier
- Neutrik combo inputs, XLR and 1/4" outputs

#PRBTDP ..... **Call/Log-on**

SYMETRIX
302

Featuring a straightforward design, the Symetrix 302 is an extremely low noise, highly transparent two-channel microphone preamp with solid stereo imaging and an excellent transient response delivering superior sonic improvements over stock mixer/console preamps. Capable of a total gain range of 75dB, the 302 also provides phantom power, 15dB pads, and reverse polarity switches per channel.

- Balanced XLR inputs • Balanced Euroblock output connectors with 24dBm max. output • Balanced/unbalanced TRS outputs
- Ideal for Broadcast, Sound Reinforcement and other studio applications • Superior stereo imaging
- 3dB below clip LED's

#SY302 ..... **$279.00**

JOEMEEK
THREEQ

The threeQ is a single-channel microphone/instrument preamp with an extremely musical EQ section and an optical compressor that delivers the signature "Meek" sound. This affordable, compact channel strip uses the same Burr-Brown IC's for the mic pre that you'll find on their more expensive studio channels. The threeQ also provides an insert point for patch processors into the signal chain.

- (1) XLR input with 48V phantom power
- (1) 1/4" line input • (2) 1/4" TRS outputs
- Insert point for external processors • 3-band EQ section with semi-parametric mids • Optical Compressor
- Front panel LED metering • Compact half-rack chassis

#JOTHREEQ ..... **Call or Log-on**

ION
TAPE 2 PC USB

Are you looking for a way to transfer your cassette tapes onto a computer and into an iPod or another MP3 player? Your search is over! The Tape 2 PC from Ion is a dual cassette player/recorder that has a digital USB output that connects directly to your computer. It comes with recording software for Mac and PC that takes the hassle out of capturing your tapes onto your computer's hard drive.

- Easiest way to archive cassettes to a computer
- Metal and CrO2 tape compatible
- Includes EZ Tape Converter 2 for PC
- Includes EZ Audio Converter for Mac
- Includes Audacity software for Mac and Pc to clean up the sound
- Red and white stereo RCA cable and USB cable included

#IOTAPE2PC ..... **Call or Log-on**

ART
TPS II

The TPS II is a two-channel tube preamp/direct box designed with optimized reference points for specific recording applications. Each channel of the TPS II provides variable impedance control, phantom power, overload limiting, and dual analog level monitoring. A "Swiss army knife" for project and professional studios alike, the versatile TPS II is also ideal for broadcast, remote, and commercial applications.

- Variable impedance provides multiple tone adjustments of varying microphone types • Variable Valve Voicing reference points
- Clean transformerless signal path with wide dynamic range
- Enhanced OPL Output Protection Limiter
- Dual analog level monitoring on LED's and VU
- Phase, gain, and phantom switches per channel
- Dual front panel Neutrik XLR combo jacks
- Balanced XLR I/O, balanced/unbalanced TRS I/O

#ARTPSII ..... **Call or Log-on**

RS80

The RS80 is a 1RU quartz PLL-synthesized digital AM/FM tuner housed in a rugged steel chassis intended for installation use. The units stores up to 40 station presets and is equipped with a large, clear LCD readout display. The unit is designed for international use, featuring a switchable 120/230V power supply and programmable 9-10kHz AM centers switching, which allows for channel access in both the U.S. and Europe or Asia.

- 1RU PLL-synthesized quartz digital AM/FM tuner
- 40 presets with automatic search-and-store function
- LED signal strength meter
- XLR, RCA and headphone outputs
- IR remote control included

#RORS80 ..... **$229.95**

ROLAND CD-2E

he CD-2e is a portable stereo CD and SD flash memory card gital recorder. This ultra-compact unit weighs less than lbs., and is equipped with a built-in microphone and speakers. D cards of up to 8GB capacities allow for over 12 hrs.of audio cording. The machine provides a backlit display and a handy asy Guide button for simplified, immediate operation.

- Ultra-portable 2-channel digital CD and SD card recorder
- Built-in speakers and microphone
- Key, pitch and tempo playback adjustment for music study, practice • Wireless remote control
- (2) RCA stereo line ins, (2) 1/4" stereo mic ins,
- 1/8" stereo line out, 1/8" stereo headphone out
- AC or "AA" battery-powered

#ROCD2E ..... **Call or Log-on**

TASCAM CD-200

Professional-quality rackmount CD player, the CD-200 is compatible with audio CDs, MP3 CDs, and WAV CDs, and has built-in support for CD TEXT and ID3 tags. A memory buffer helps prevent shocks and skips for smooth playback. Playback modes include Contínue, Random, and Program, as well as Repeat Single and All. The player offers a ±12% pitch control, available through the RCA line-level outputs. Also offers both coaxial and optical S/PDIF outputs, and front-panel 1/4" headphone jack with an independent level control. Includes a wireless remote control.

#TACD200 ..... **$329.99**

TASCAM CD-01U PRO

The CD-01U is a professional rack mount CD player ideal for broadcast and installation applications. It features a RS-232 control port for programming w/AMX and Crestron systems, balanced XLR analog outputs, AES/EBU digital outputs and a 20-second RAM buffer f/shock protection. The reliable TASCAM slot-loading CD transports provides years of trouble-free use.

- 1U slot-loading CD Player • (2) XLR & (2) RCA analog outputs
- AES/EBU & optical S/PDIF digital outputs
- Key Original mode • Serial control via RS-232C
- ±12.5% pitch control
- Repeat, Single-Play and Program playback modes
- MP3, CD-R/RW playback, Including 12cm & 8cm CD's

#TACD01UP ..... **Call or Log-on**

HHB CDR 882

The CDR 882 is a professional dual-drive CD recorder featuring an all-steel chassis, audiophile sound quality, and comprehensive analog and digital connectivity options including Word Clock input. The unit offers high-speed CD duplication, simultaneous recording of 2 separate discs, and 24-bit A/D and D/A conversion with noise-shaped dither to CD. The CDR 882 suits a variety of pro applications including broadcast, music production, and live sound, lecture or houses of worship recording.

- Dual-drive rackmount CD recorder
- AES/EBU and SPDIF digital I/O
- XLR and RCA analog connectors • Word Clock input
- Noise-shaping for minimized quantization error noise from 24- to 16-bits • High-speed disc duplication

#HHCDR882 ..... **999.00**

FOSTEX CR500

The CR500 from Fostex is a powerful master CD recorder and playback machine. It's capable of recording BWF (broadcast WAV files) with up to 96k 24-bit resolution directly to a UDF (Universal Disk Format – Windows only) CD. It features versatile functionalities as a CD player as well that are useful in theatrical sound design and other production settings, such as 100 built-in memory cue points per CD, instant play and more.

- Balanced XLR and unbalanced RCA inputs and outputs
- AES/EBU or S/PDIF digital inputs and outputs
- Up to 96k 24-bit resolution as well as standard 44.1 16-bit
- Power on play, fader start • USB port for standard keyboard titling • 10 memory point per disc, 100 cue points
- 10.6 lbs, 19 (W) x 3.68 (H) x 12.6 (D)

#FOCR500 ..... **Call or Log-on**

ALESIS ML9600

The ML9600 is a high-resolution two-track Hard Disc recorder and CD burner capable of 24-bit/96kHz audio capture and archiving. This "Mastering House in a Box" allows you to edit tracks, apply DSP, and burn the finished recording in either the industry-standard Redbook or the new high-resolution CD24 format.

#ALML9600 ..... **$799.00**

- Onboard Processing including: Parametric EQ, Compression, Limiting, and Normalizing • 40GB hard drive allows up to 30 hours of 2-track audio • Balanced I/O on XLRs, unbalanced I/O on RCAs
- Organize playlists with total control of fade-ins, fade-outs, track gain, start points, and track cropping • AES/EBU and Coaxial S/PDIF I/O
- Internal switching power supply

TASCAM CD-RW901SL

Tascam's CD-RW901SL is a professional slot-loading rackmount CD recorder. The unit is equipped with 24-bit converters and supports both CD-RW and MP3 CD playback. The deck offers advanced features such as sample rate conversion, parallel and RS-232C control ports for broadcast or installation remote control applications, pitch control, and selectable disc reading speed.

- Professional rackmount slot-loading CD recorder with MP3 playback support • 24-bit A/D and D/A converters
- Oversized display, front panel headphone output with volume control • CD-Text and MP3 ID3 tag display • XLR and RCA analog I/O's
- TOSlink optical, SPDIF coaxial and AES/EBU XLR digital I/O's
- Multiple playback and cue features

#TACDRW901SL ..... **Call or Log-on**

TASCAM CD-RW900SL

The CD-DW900SL is a professional slot-loading rackmount CD-R/RW recording deck for studio and installation applications, featuring 24-bit converters, selectable SRC, analog and digital I/O's, a large, bright display, and MP3 playback. The sleek, intuitive front panel offers an easy-access control layout and CD-Text read/write capability.

#TACDRW900SL ..... **Call or Log-on**

- Professional slot-loading CD recording deck
- Records CD-R's and CD-RW's, plays back MP3's
- Stereo RCA Phono analog I/O's • Coaxial SPDIF and TOSLink optical digital I/O's • PS/2 keyboard input
- 1/4" headphone output with volume control

NUMARK MP102

The MP102 is a professional rackmount CD player for DJ's and sound reinforcement applications. The unit is compatible with Red Book CD's, CDR's and MP3 audio CD formats, while featuring an interactive pitch wheel, a DJ-style pitch fader with a +/-8 or 16% range, and a large backlit LCD display.

- 2RU rackmount CD player for DJ's and FOH engineers
- Direct track access with sequence programming • Buffered anti-shock protection • 2 seamless and 3 hot-stutter starts
- Balanced XLR and unbalanced RCA analog outs, SPDIF digital output

#NUMP102.....**$164.95**
MP302 dual-deck version with remote #NUMP302....**$299.95**

DENON TU-1500RDP

Denon's TU-1500RDP is a 2RU rackmount AM/FM tuner with a sleek, professional appearance and a high-rigidity, vibration-resistant top cover. The unit's pro-level features including 40 programmable station presets, low-impedance output circuitry for optimal sound clarity, and a variety of Radio Data System functions supported by Radio Text implementation.

- Professional rackmount digital AM/FM tuner
- Microprocessor in tuning circuit eliminates reception drift
- Dot Matrix display with Radio Text support
- Radio Data System functions include song titles and station messages
- Rotary knob for speedy, precise control

#DETU1500RDP.....**$359.00**

NUMARK FIT-FOR-SOUND

The Fit-for-Sound is a rugged 2RU rackmount iPod music playback unit designed for use by gym, dance and aerobics instructors, or as a professional bar and restaurant installation component. The unit is equipped with an iPod docking station, oversized transport and selection wheel controls, and MixMeister Express mixing and editing software for easily-achieved custom mixes.

- 2RU iPod music player and docking station for fitness instructors and installations • XLR and RCA stereo outputs
- Oversized front panel controls and IR remote control
- MixMeister Express software included for custom edits and mixes • All-steel chassis

#NUFFS.....**$199.95**

DENON DN-780R

Denon's DN-780R is a professional rackmount dual-well cassette deck with independent inputs and outputs for each well. The unit features dual auto-reverse, pitch control, and a 1/4" headphone output with volume control and a deck monitoring selector switch.
The DN-780R is a versatile unit and an outstanding value for use in studio and installation applications.

#DEDN780R.....**$619.00**

- Full-featured professional 3-space rackmount dual cassette deck
- Independent inputs and outputs for each well
- Dual auto-reverse, +/-12% pitch control • HX Pro, Dolby B/C noise reduction • (2) RCA I/O's per well, 1/4" Mic input
- 1/4" Headphone out with volume control and deck selector

TASCAM MDCD-1

The MDCD-1 combines CD playback and MiniDisc recording in a single rack-mount unit which conserves space and installation budgets. Each unit can be used independently and features its own digital and analog I/O. Change pitch without changing tempo and change tempo without changing pitch, all while burning CD's to the MiniDisc at 4x speed. Ideal for DJ's, houses of worship, and institutional (music education) installs.

- CD deck supports MP3 file playback
- MD deck supports Stereo, Mono, LP2, and LP4 mode (REC/Play
- Unbalanced analog I/O (RCA), digital S/PDIF (optical) – both decks • Pitch control: CD deck ±16%, MD deck ±12.5%
- Full edit functions on MD deck
- Wireless remote, transport control via PS/2 keyboard

#TAMDCD1.....**Call or Log-o**

TASCAM MD-350

The Tascam MD-350 is a professional rack-mountable stereo MiniDisc recorder with balanced analog I/O, and optical S/PDIF I/O. The latest ATRAC encoding scheme (ver. 3) is implemented, offering new long play versions with up to 320 minutes of record time on a standard 80 minute MiniDisc. The affordable MD-350 is ideal for live venues, houses of worship, and broadcast applications.

- Balanced XLR and unbalanced RCA analog I/O
- Optical S/PDIF I/O w/front panel optical Input • Auto Ready and Auto Cue functions • Front Panel PS/2 keyboard port for naming track
- Complete TOC editing for changing track order
- Headphone output w/level control • Pitch control

#TAMD350.....**$489.95**

MARANTZ PMD570

The PMD570 is a professional solid state recorder ideal for installation applications like houses of worship, corporate boardrooms, and schools. Designed to replace traditional cassette recorders, the PMD570 records directly to inexpensive compact flash cards in MP3, MP2, .WAV, and BWF format. Easy one-touch recording, RS-232c control, and no moving parts make this reliable recorder a great solution for long-term audio installations.

- Balanced XLR line inputs with trim, unbalanced RCA I/O • Menu driven remote operation
- Coaxial S/PDIF I/O • 6–48kHz sample rate and 32–384-bit rate selectable • Security door for media • Computer I/O for rapid file transfer

#MAPMD570.....**Call or Log-on**

TASCAM DV-RA1000HD

The DV-RA1000HD is high-resolution stereo digital recorder capable of capturing audio at sampling rates up to 24-bit/192kHz. It also features an internal 60GB hard drive for up to 60 hours of recording time, making it perfect for live applications. The DV-RA1000HD records standard CD-DA, .WAV, and DSDIFF files to DVD+RW and CD-R/RW media, and provides professional I/O via XLR, AES-EBU, and SDIF-3 connections. Equally well-suited for today's recording and broadcast studios, the DV-RA1000HD is easy to use, and has advanced features like a USB2.0 port, RS-232 serial control, multiband compression, and EQ.

- Balanced XLR and unbalanced RCA inputs and outputs
- Large, backlit LCD display
- Word Clock Sync in, out, and thru
- USB 2.0 connection to PC for use as DVD data drive
- Can also operate as a professional CD recorder
- Supports Sony's DSD recording format
- Wired remote control (RC-RA1000) included

#TADVRA1000HD.....**Call or Log-on**

ASCAM
C-222SL MKII

CC-222SL MKII s a rack mountable CD and cassette
er/recorder designed for professional applications. The
sette deck features auto-reverse, ±10% pitch control, and
by B noise reduction. The slot-loading CD recorder accepts
n-speed recording media, and offers playback of MP3 CDs.
unit features both analog and digital I/O, with RCA
nectors for analog and both coaxial and optical connectors
digital transmission. There is also an RIAA phono input for
necting a record player.
u can choose to record to either the tape deck or the CD
order. You can dub from CD to cassette and vice-versa. You
n operate the system as 2 separate recorders, or record a
gle source to both mediums consecutively for terrific flexibility.

ACC222SLMK2 ..... **$649.95**

EXICON
MPX 1

ilizing dedicated LexiChip technology, the MPX 1 is a high-
uality, dual-engine, multi-effects processor with uncompromising
ereo reverbs and stunning effects. Its simple user interface and
ast array of intuitive controls provide users with all the necessary
ols for producing lush, creative soundscapes.

- 200 Presets and 50 User programs
- 24-bit A/D-D/A 44.1kHz conversion • 56 Effect algorithms
- Discrete Dual Mono or Stereo processing
- Balanced XLR and TS-1/4" I/O • Midi In/Out/Thru

TASCAM
CD-A550 • CD-A750

CD-A550

CD-A750

The CD-A550 and CD-A750 are a professional-quality rackmounted CD player and cassette recorder combo unit, ideal for use in retail spaces, houses of worship, and other installation applications. The CD player has a smooth tray-loading drive and is capable of playing back standard CDs, as well as data CDs encoded with MP3 or WAV files. CD-Text and ID3 tagging are supported for track identification. The cassette drive features auto-cue, auto-reverse, and Dolby B noise reduction for high-quality recording and playback. The player makes it easy to dub audio from a CD to a tape, or connect to external speakers or a recorder. The rear panel has analog RCA I/O connectors, as well as a digital coaxial output for the CD player. Other useful features include power-on play and record, mono mix, and pitch controls for CD and cassette. A wireless remote control is included to give you full control over player functions. Otherwise the same, the CD-A750 steps up with analog XLRs, and parallel and RS-232 ports to provide wired control.

- The CD player has a smooth tray-loading drive and is capable of playing back standard CDs, as well as data CDs encoded with MP3 or WAV files. CD-Text and ID3 tagging are supported for track identification.
- The cassette drive features auto-cue, auto-reverse, and Dolby B noise reduction for high-quality recording and playback.
- Power-on play and record, mono mix, and pitch controls for CD and cassette.

EVENTIDE
ECLIPSE

The Eventide ECLIPSE is a dual-engine professional 24-bit/96kHz Harmonizer and multi-effects processor designed for the high-end studios in need of extensive processing power. Its superb fidelity, combined with extensive routing and editing capabilities, make it ideal for easily interfacing a powerful multi-effects processor into a digital production studio. With the ECLIPSE, sound design, production, and recording engineers finally have all the tools they need without sacrificing precious DSP.

- 400 Presets and 100 User programs
- Eventide's signature Pitch change, Reverb and Harmonizing algorithms • Pristine audio path with 24-bit/96kHz resolution
- Balanced XLR/TRS I/O
- Digital formats and I/O includes AES/EBU, S/PDIF and ADAT (Optical) • 110dB dynamic range (output)

#EVECLIPSE3 ..... **$1995.00**

YAMAHA
SPX2000

Ideal for a wide variety of audio applications, the SPX2000 is Yamaha's next generation of high-performance effects processor. Its advanced Rev X reverb algorithm, 24-bit/96kHz audio path, and powerful DSP provide users with over 200 outstanding multi-effects.

- 122 Presets and 99 User programs
- SPX2000 Editor for Mac OSX and Windows
- 24-bit A/D conversion • BNC Word Clock connector
- Unique 5-Color LCD for easy recognition of effects types
- AES/EBU Digital I/O • Balanced XLR/TRS 1/4" I/O

#YASPX2000 ..... **$1149.00**

T.C. ELECTRONIC D-TWO

The D-Two is a great-sounding dedicated digital delay unit that actually lets you create your own rhythmic delay patterns to exactly match your effects to your music. With an inviting price and single rack space design, this unit boasts an impressive library of delay-based effects, from choruses and ping-pongs to spatial expanders, that add extra width to the sound of your material.

- (2) 1/4" balanced analog phone inputs and outputs • Actual rhythm patterns can be tapped-in directly or quantized
- S/PDIF digital I/O with MIDI in, out and thru
- Delay signal may be reduced or increased proportionate to input level
- Onboard filter for creating softer, more natural delay effects

#TCD2 ..... **Call or Log-on**

APHEX 320 A

The 320A delivers "intelligent" compressor action, leveling and peak limiting simultaneously. It can be used to solve audio level problems and improve audio signals in the broadcast or recording studio, tape duplication house, film-dubbing studio or in live sound applications. Control circuits include analog computers that continuously analyze the input signal, and vary the control characteristics to provide for virtually undetectable operation, regardless of the dynamics of the program.

- Two channels of automatic compression/leveling/limiting
- Dual mono or stereo operation
- Intelligent Automated Gain Control (AGC) for consistent program levels
- "Invisible" compression characteristics assure tighter dynamics and virtually transparent performance
- Instantaneous peak limiting for effective system protection (user defeatable)

#AP320A **1199.00**

T.C. HELICON VOICELIVE

The VoiceLive puts a rack's worth of studio quality vocal sweetening equipment right at your feet for use live on stage. Customize a signal path with EQ, Compression, Pitch Correction, Vocal Thickening, Natural 4-part Harmony, Delay, and Reverb. Save presets and scroll through them song by song, or even turn on and off harmonies and effects during a song.

- Integrated limiter protects signal from clipping
- Studio-quality preamp with phantom power
- Mic-thru output for FOH monitor mix
- Dedicated instrument input to mix vocals + instrument
- Travnsparent pitch correction/4 voice harmony
- Assignable switch for tap tempo/harmony hold

#TCVL **$499.00**

BEHRINGER ULTRACURVE PRO DEQ2496

The DEQ2496 is a 24-bit/96kHz EQ/RTA processor designed for live PA and studio mastering applications. As well as 61-bands of simultaneous Real-Time Analyzer functions, the unit provides multiple EQ's, a flexible Compressor/Expander with Peak Limiter and a Stereo Imager and Delay.

- High-resolution processor with EQ, RTA and dynamics capabilities
- Unique VPQ (Virtual Paragraphic EQ) allows parametric control of graphic EQ's
- 61-band RTA provides auto EQ function for room and loudspeakers
- Multi-function level meters
- Balanced XLR I/O, stereo aux outputs, AES/EBU and S/PDIF I/O XLR and optical

#BEDEQ2496 ..... **$259.99**

UNIVERSAL AUDIO 1176LN

The original Universal Audio 1176LN was a major breakthrough in limiter technology — the first true peak limiter with all transistor circuitry offering superior performance and a signature sound. While it certainly would have been much simpler to modernize and "improve" the 1176LN, every effort was made to remain faithful to its original design. This Universal Audio Classic version of the 1176LN captures all the nuance of the original through obsessive attention to detail, and delivers that trademark sound.

- Single channel classic limiting amplifier
- XLR and Jones Barrier connections
- Single channel classic limiting amplifier
- Ultra fast 20 to 800 microseconds attack ti

AVALON VT747SP

The VT747sp is a Class-A, vacuum tube-discrete twin signal path Opto-compressor with a musical six-band program equalizer, and output level and gain-reduction metering. This incredible-sounding 100% discrete processor is ideal for high-performance DAW input signal conditioning, stereo bus compression/EQ, and analog mastering applications.

- Balanced XLR I/O
- Twin Signal Path — allows choice of either tube tone or classic discrete transistor sound
- 6-band discrete passive program EQ
- Spectral side-chain monitor for pre-listen
- EQ Pre/Post selection for compressor
- Internal regulated power supply

#AVVT747SP ..... **Call or Log-o**

DBX QUANTUM II

The DBX Quantum II is a versatile 24-bit/96kHz Multi-Band Processing Device that utilizes patented DBX technology to produce dynamic, polished mixes with noticeable warmth and depth. Featuring a wide dynamic range and extended headroom, the Quantum II applies Compression, Limiting, Gating, and EQ while maintaining the pristine audio quality needed for today's digital world of music production and mastering.

- 4-band multiple dynamics control
- Patented Type IV A/D conversion with Tape Saturation Emulation (TSE)
- Versatile MIDI control and internal/external sync capabilities
- Balanced XLR/TRS analog I/O
- GUI control and system upgrades available via PC • AES/EBU and S/PDIF digital I/O
- 115 dB dynamic range • 24-bit/96kHz A/D-D/As, with true 48-bit signal path

#DBQ2 ..... **$2199.00**

PRESONUS COMP1

Based on the award-winning BlueMax compressor design, the COMP16 is the simplest professional quality compressor in the world. Sixteen presets have been carefully tailored for a wide range of applications including vocals, percussion, fretted instruments, keyboards, stereo program material, and compression effects. Simply select the preset and adjust the input and output to desired level of compression. This is truly a great-sounding compressor that anyone can use.

- Easy-to-use single channel compressor • (1) XLR & 1/4" input and (1) XLR & 1/4" output
- 16 presets cover a wide variety of applications

#PRC16 ..... **129.95**

MACKIE QUAD COMP/GATE

he Quad Comp/Gate is a state-of-the-art four-channel rack mount digital compressor/gate designed o even be used in the demanding environment of live sound where speed and dependability are a ust. Its compression/limiting and gating/expansion algorithms were written by the digital gurus at cuma Labs to provide a very wide range of high-quality, instantly usable settings.

- 4 channel digital compressor/gate
- (4) XLR & 1/4" TRS inputs and (4) XLR & 1/4" TRS outputs • Side Chain input for triggering from external signals
- Auto feature adjusts attack and release times eliminating "pumping"
- 99 user-definable snapshots for instant recall

#MAQCG **879.99**

ART PRO VLA II

The PRO VLA II comes in a 2U rack-mountable chassis housing two independent channels of analog leveling/compression designed to work seamlessly with any recording, sound-reinforcement, or electronic instrument setup. Using a transformerless design throughout, it maintains exceptional signal integrity and extremely low noise. Its VCA-less design utilizes optical electronics (Vactrol) coupled with a 12AX7 vacuum tube gain stage for superior musical performance.

- Two channel tube compressor/limiter
- (2) XLR & 1/4" inputs and (2) XLR & 1/4" outputs
- VCA-less design provides smooth musical performance • Large backlit VU meters
- Ten-segment gain reduction LED array

ARPROVLAII **$299.00**

JOEMEEK MC2

The Mc2 is a professional studio-quality stereo compressor in a compact half-rack format. Simple to use yet extremely powerful, the Mc2 will bring out the best in any line-level stereo material and give the gloss of a professional studio to all your performances. This unit can be used for recording, mastering, or live work, and its small footprint allows it to fit into tight workspaces or rack shelves. It will also function as a stereo width processor and line level stereo preamplifier.

- Half-rack unit sized stereo compressor
- (2) 1/4" TRS inputs and (2) 1/4" TRS outputs
- Insert jack for accessing the units control sidechain
- Stereo width control sweeps from mono to extra-wide
- Gain Reduction Hold keeps noise floor constant between tracks

#JOMC2 ..... **249.99**

BEHRINGER MULTICOM PRO-XL MDX4600

The Behringer Multicom Pro-XL MDX4600 is a flexible, 4-channel compressor/limiter/expander/noise gate. Its improved "interactive" signal processing, ease of use, and ultra-low noise circuitry make the MDX4600 well-suited for live sound reinforcement and PA applications.

- IKA (Interactive Knee Adaptation) Program-Adaptive Compression
- IRC (Interactive Ratio Control) Expander/Gate Circuitry
- IGC (Interactive Gain Control) Peak Limiting
- Stereo couple function for channels 1/2 & 3/4
- Switchable operating level (+4dBu/-10dBV)
- Servo-balanced 1/4" TRS/XLR I/O

#BEMDX4600 ..... **$116.99**

SABINE FBX-SOLO 820 SERIES

The FBX-SOLO 820 Series is a convenient, portable solution for eliminating feedback while leaving your sound unharmed. Available in both instrument and microphone versions, the FBX-SOLO provides more gain while placing a narrow 1/10 octave directly on feedback, increasing clarity and intelligibility.

- 8 independent digital notch filters from 40Hz-20kHz • Automatically detects and eliminates feedback
- XLR version is ideal for worry-free wireless operation
- Input/output level switches allow any combination of ins and outs
- Sets filter just deep enough to remove feedback without affecting audio

#SASM820 ..... **296.97**

SL-820 1/4" input version with selectable I/O levels #SASL820 ..... **296.97**

AVALON AD2077

The AD2077 is a dual mono, pure Class A mastering EQ that features a DC coupled minimalist signal path. The combination of active and passive filter technologies offer the professional mastering engineer alternate tone selections in both filter domains, while delivering the highest resolution and wide dynamic range with very low noise. Custom gold rotary switches give accuracy in 0.5dB, 1dB and 2dB steps. Avalon's true symmetry design offers high-voltage, large headroom, extended bandwidth, and very low noise for an utterly transparent full bandwidth tool to shape your project.

- High-end dual mono mastering equalizer
- (2) XLR inputs and (2) XLR outputs
- 104 switched frequencies per channel
- All signal routing with sealed silver relays
- Transparent active and passive filter design

AVAD2077 ..... **12000.00**

MACKIE QUAD EQ

The Quad EQ employs four 30-band graphic, Adaptive-Q Equalizers that provide equalization ±12dB using 30 individual EQ filters, without the ripple and gain-boosting artifacts found on traditional (Constant-Q) units. These Adaptive-Q filters and new, super-accurate LED display ladders paint a highly detailed picture of its effect on the output signal. The included reference microphone allows you to make use of the built-in SPL and RTA metering features to help tune your sound system to the venue.

- 4 channels of 30-band graphic equalization
- (4) XLR & 1/4" TRS phone inputs and (4) XLR & 1/4" TRS phone outputs
- Stereo linking of channels A/B and C/D
- 99 user snapshots to store and recall your EQ settings

#MAQEQ **979.99**

ALESIS 3630

The 3630 provides two independent full-featured compressor/ limiters in one rack space while offering excellent sonic quality for any application from studio recording to live sound or broadcast. You can also choose between RMS and Peak compression styles, plus Hard and Soft Knee dynamic curves for every application from subtle gain control to in-your-face punch. As an independent dual-channel compressor, the 3630 offers separate controls for two different source signals with gating to easily and efficiently stifle unwanted ambient noise.

- Ratio, Threshold, Attack, Decay, and output controls • Hard and Soft Knee Compression response curves
- Stereo/Dual Mono Mode Link Switch
- Two fully independent Noise Gates
- Dual-channel compressor/limiter
- (2) 1/4" TS phone inputs and (2) 1/4" TS phone outputs

#AL3630 ..... **$99.00**

KORG
D3200

The flagship D3200 is the first digital recorder in its class to provide up to 32 tracks of simultaneous playback and up to 12 tracks of simultaneous recording to support high channel-count projects such as recording a live band. The powerful mixer section includes 40 input channels plus a great set of high-quality effects that employ Korg's renowned "REMS" modeling technology. The new and interactive "Session Drums" allow you to easily create a realistic and natural drum track for your entire song and the built in CD-RW let you produce production-ready CD's.

- 32-track digital recording studio with 40GB hard drive
- High-resolution 320 x 240 pixel backlit LCD
- Powerful flexible 12 bus 44 channel mixer
- Four-band EQ on channels 1 through 24
- USB 2.0 for computer data exchange

#KOD3200 ..... **1299.00**

TASCAM
DP-004 Digital Pocketstudio

Ideal for the traveling musician, the DP-004 provides 4 tracks of CD-quality digital audio recording, as well as mixing and editing features. Smaller than a paperback book, the DP-004 provides real knobs for tactile, intuitive control. The unit uses SD flash memory cards to record up to 2 audio sources at once. You can use the on-board stereo microphone to record a performance, or connect instruments or microphones to the 2 1/4" mic/line inputs. A 3.5mm output is provided for connecting headphones or speakers.

A bounce feature lets you consolidate tracks once all 4 are filled in order to make room for more overdub layers. There is an autopunch feature to fix problems as well as undo function. Use the knobs to set levels and pan, and then record the mix to a dedicated stereo master track. Transfer your tracks and mixes to your computer via USB 2.0, or by removing the SD card and using a separate card reader

#TADP004 ..... **Call or Log-on**

ZOOM
HD8CD

The Zoom HD8CD is a compact 8-track desktop hard disk recorder and control surface with an 80GB internal hard drive and CD-RW deck. The unit allows for 2-channel simultaneous recording and 80 virtual tracks, offering 3 additional playback tracks from the internal drum and bass rhythm generator. A high-speed USB connector allows for use of the machine as a computer DAW control surface – a great value.

- 8-track desktop hard disk recorder with internal 80GB hard drive
- Full-function DAW remote control surface with USB connector
- 80 virtual tracks, 2-channel simultaneous recording
- 3 additional playback tracks from internal rhythm generator
- 130 built-in effects and 370 DSP patches
- Built-in CD-RW drive for mixdown, backup
- (2) XLR/1/4" combo inputs, MIDI I/O
- SPDIF digital I/O, Cubase LE software supplied

#ZOHD8CD ..... **Call or Log-on**

BOSS
BR900CD

The BR900CD is a reliable all-in-one digital recorder with professional effects, a drum-pattern generator, vocal-correction and Master Tool Kit, digital output, and internal CD burner. Use up to 64 virtual tracks to write, record, edit, and mix a complete, polished CD anytime. For the musician on the go, the BR900CD provides convenient Compact Flash storage and even provides battery power and digital connection/transfer capabilities for a truly portable recording system.

- 8 simultaneous playback/2 simultaneous recording tracks with 64 virtual tracks total • (2) XLR inputs with phantom power, 1/4" and RCA inputs, digital out (optical)
- High-quality effects for processing and mastering
- Programmable drum generator with 294 patterns
- Record direct to Compact Flash (up to 1GB) and direct to CD-R/RW • USB port for .WAV file transfer, importing/exporting, and data backup

#BOBR900CD ..... **Call or Log-on**

FOSTEX MR-8HD

The MR-8HD is a stand-alone digital multi-track recorder with an internal 40GB hard drive. It's capable of recording 4 tracks simultaneously, with (4) XLR inputs, and the ability to supply phantom power to each input. There is a USB output that enables you to transfer your files to a PC or a Mac for archiving or burning CD's, etc. It includes internal effects like reverb, delay, and guitar distortion.

- Simple and intuitive user interface and operation
- S/PDIF digital output • Dedicated guitar input with distortion effect • (2) headphone output jacks
- Microphone and guitar amplifier simulation
- 128 x 64 LCD display • Mastering effects

#FOMR8HD **$349.00**

BOSS
BR-1600CD

The BR-1600CD is a 16-track desktop hard disk workstation with a 40GB internal hard drive and a CD-R/RW, designed as a self-contained music production studio. The unit features 8 phantom-powered mic preamps with dedicated compressors, 16 individual track EQ's, built-in COSM modeling effects, and Auto Pitch correction. That 's a fraction of the machine's capabilities. The BR-1600CD offers high-quality sound for the budget-minded.

- 16-track desktop hard disk recorder with internal 40GB hard drive • Built-in CD-R/RW drive
- Up to 8 simultaneous recording tracks
- Mixer section with 13 faders, built-in drum sequencer with massive library • Built-in GT-6 guitar and bass effects processor, Mastering Toolkit
- Built-in Vocal Toolbox voice processor/pitch corrector
- (8) XLR mic pres with phantom power
- USB connectivity with WAV/AIFF file support

#BOBR1600CD ..... **Call or Log-on**

FOSTEX MR-16HD

The MR-16HD offers a simplified approach to a stand alone 16-track multi-track recorder. Featuring a 40GB hard drive, (4) XLR and 1/4" inputs, onboard effects, and aux sends. The workflow is intuitive and many tasks are a single button push away. USB output allows connection to a computer to transfer to files, or connect a CD burner and avoid computers altogether.

- 4-track simultaneous recording with phantom power
- (4) XLR inputs, (1) dedicated guitar input with distortion effect
- S/PDIF digital output • EQ library with 33 presets for all inputs
- Built-in Digital effects including reverbs and mic/amp simulations
- (2) headphone jacks

#FOMR16HD ..... **Call or Log-on**

BOSS MICRO BR

The MICRO BR just in fact be the world's smallest 4-track studio. Not even an inch thick, this unit features 4 simultaneous playback tracks and 2 record/input tracks. For even more power, each of the 4 main playback tracks has 8 companion virtual tracks (for a total of 32), giving you the ability to record take after take, then pick your best material for final mixdown. With the included 128MB Secure Digital card you have approximately 65 track minutes available for recording in its native MP3 format. This a unit that should be in every musician's gig bag for documenting quick ideas with its built in microphone or developing songs with your whole band.

- Ultra-portable 4-track digital studio
- Loads and plays MP3 files • Multi-effects onboard with dedicated guitar input • Time-Stretch and Center Cancel features • 293 rhythm patterns • USB port for data transfer

#BOMBR ..... **Call or Log-on**

FOSTEX MR-8 MKII

The MR-8 Mk II is an extremely easy-to-use digital multitrack and, if you can operate a tape recorder, you'll be up and running within minutes of opening the box. By putting all the major controls and functions right there on the top panel instead of buried in a confusing menu system, it speeds up the flow of capturing your musical ideas. In addition, there are great-sounding built-in digital effects, guitar amp and mic simulators, handy mix-down effects, plus the ability to hook up to a PC for data editing, and backing up your songs.

- 8-track compact flash digital recorder
- +48V phantom power on both XLR inputs
- Guitar input features dedicated distortion knob
- USB port for .WAV file transfer to and from your PC
- Accepts off-the-shelf USB external CD-R drives

#FOMR8MK2 ..... **249.00**

FOSTEX MR-8HD/CD

The MR-8HD/CD is an 8-track integrated desktop hard disk recorder and mixer, equipped with an internal 40GB hard drive and a CD-RW drive, and designed as an inexpensive, easily-operated audio and music production solution for songwriters, bands, and event videographers. The unit features 4 XLR microphone preamps with phantom power, built-in microphone and amplifier simulators, and on-board reverb and delay effects processing.

- 8-track digital desktop workstation recorder
- 40GB internal hard drive, built-in CD-RW
- Uncompressed .WAV file format recording
- (4) XLR mic pres with phantom power
- Intuitive work surface for simplified signal routing, mixing
- Built-in analog guitar distortion with dedicated control knob
- USB port for computer integration, SPDIF digital output

#FOMR8HDCD **$399.00**

BOSS BR600

The BR-600 is a portable 8-track digital recording studio with an incredibly slim profile, making it ideal for rehearsals or field recording. It is equipped with advanced effects, COSM amp modeling, a built in stereo mic and a full-fledged drum machine. This versatile flash recorder provides a total of 64 tracks and up to 65 minutes of Hi-fi recording time.

- Compact Ultra slim design • 8 simultaneous playback tracks, 64 V-Tracks
- Powerful guitar and effects processor • Built-in stereo Mic
- USB for computer connectivity • Powers via: (6) AA batteries or AC adapter • Includes: 128MB compact flash card, carrying case, and XLR, 1/4" adapter

#BOBR600 ..... **Call or Log-on**

EUPHONIX MC MIX

EIGHT-CHANNEL CONTROL SURFACE

MC Mix uses a 100 Mbs Ethernet EuCon connection to control audio/video applications running on Mac OS X based computers. EuCon is a high-speed communication protocol and enables control of virtually every application feature with EuCon aware software. The control surface also supports the HUI and Mackie Control protocols, but with a slightly diminished level of integration. Features eight 100mm motorized, touch-sensitive faders; record/automation keys; eight touch sensitive rotary controllers control plug-ins, EQs, panning, signal routing and more; transport controls; footswitch jack for punch in/out recording. Up to four MC Mix controllers and/or an MC Control can be linked for up to thirty-six faders.

#EUMCMIX **$999.99**

EUPHONIX MC CONTROL

MC Control is a media controller that offers hands-on control of Apple's Final Cut Pro and other media applications in a slim, portable design. MC Control offers you a host of powerful features to speed up and enhance video and audio editing, including a customizable high-resolution touch-screen interface, jog/shuttle wheel to quickly navigate through projects, and four motorized faders and eight knobs to quickly set audio levels and panning.

- Preprogrammed touch-screen Soft Keys for Final Cut and other media applications
- Soft Key editor to program custom Soft Keys for any function or macro command • Jog/shuttle/zoom wheel and transport controls • 4 touch-sensitive motorized faders
- 8 touch-sensitive rotary encoders
- Control multiple applications & workstations via Ethernet
- Expandable with MC Transport and/or MC Mix units

#EUMCCONTROL **$1499.00**

ZOOM R16

Multi-Track Recorder & Mixer, Computer Interface & Controller

The R16 combines many audio tools into a single powerful unit; it's a stand-alone multi-track recorder, and a USB 2.0 computer audio interface/control surface, as well as a battery powered field recorder & mixer. It features built-in stereo condenser microphones, as well as inputs for 8 external microphones. (8 microphone preamps, 2 with phantom power, Hi-Z guitar/bass input.) Supports up to 32GB SD Cards for over 100 hours of recording time. Operates on bus power from USB when used as a computer interface/control surface. Over 100 built-in effects, from guitar amp modeling to mastering effects. Effects can be used when recording in stand-alone mode, or when recording into a computer. USB port can be used to back-up projects on thumb drives.

#ZOR16 ..... **$399.00**

TASCAM DP-02CF

The Tascam DP-02CF is an 8-track desktop Compact Flash digital recorder with a sleek, high-tech design. The unit features 2 channels of simultaneous recording and a familiar hands-on analog-style mixer sporting dedicated faders, along with pan, EQ and effects send knob controls. The high-capacity CF media have no moving parts, and represent a plentiful and reliable storage solution for modern digital recording.

- 8-track Compact Flash recorder for desktop music production
- Jog Wheel and bright LCD display
- Analog-style work surface with dedicated knobs and faders per channel
- CD-quality resolution, simultaneous 2-channel recording
- (2) XLR Mic/Line inputs, (2) 1/4" Hi-Z instrument inputs
- (2) 1/4" TS Send/Return jacks for effects processors
- USB, MIDI and Optical digital outputs

#TADP02CF ..... **Call or Log-on**

APOGEE ONE

A pocket-sized, USB music interface featuring award winning sound quality, ONE is designed to work with Apple's GarageBand, Logic, Final Cut, or any Core Audio compliant application, ONE lets you create professional recordings anywhere.

With ONE, you can record a single channel of audio using the specially tuned enclosure microphone, an instrument input for guitar, bass, or keyboard, or a world-class microphone preamp input. Listening with ONE is an entirely new experience as well. Hear your recordings and your iTunes library with incredible dimension and clarity through ONE's studio-quality stereo output. All of ONE's features are selectable and adjustable with just a click and a turn. ONE's single encoder knob provides direct access to the tuned enclosure microphone, external microphone, instrument and output functions for input level and volume adjustment.

#APONE **$249.00**

APOGEE GiO

GiO is the complete guitar interface for Apple's Logic Studio 9, MainStage 2 and GarageBand '09. Combining effects control, recording functions and amazing sound quality, GiO delivers total access to incredible sounding guitar amps and effects in a single foot controller and interface.

Designed to work with the Logic Studio 9 and MainStage 2, GiO allows guitar players to control recording functions, preset changes and plug-ins like Amp Designer and Pedalboard, along with new Playback and Loopback features in MainStage. With GarageBand 09, GiO is truly plug-and-play and lets users quickly connect their guitar, select and control built-in Amps and stompboxes, and record.

#APGIO ..... **Call or Log-on**

BENCHMARK DAC-1

The DAC-1 is a two-channel 24-bit /192-kHz digital-to-analog audio converter. It provides AES/EBU (XLR & coaxial) and S/PDIF (XLR, coaxial & Toslink) digital inputs and both RCA & XLR stereo analog outputs. The DAC-1 features Benchmark's jitter-free UltraLock system, auto-processing of pre-emphasized digital audio and a high-quality headphone amplifier.

- Ideal for mastering studios and high quality recording studios
- Locks to AES, Super Clock, or Word Clock external clock
- AES/EBU (XLR & coaxial) and S/PDIF (XLR, coaxial, & Toslink) inputs • Stereo XLR and RCA outputs
- 116dB signal-to-noise ratio • 1 RU high, half-rack wide
- Internal switching power supply

TASCAM US122L

The US122L is a compact, portable USB audio/MIDI interface capable of simultaneously recording two tracks of 24-bit/96kHz audio with zero latency. It combines 2 XLR mic inputs, 2 1/4" inputs and MIDI ins and outs. Ideal for mobile recording, the US122L draws its power from the USB bus, has an independent headphone level control and features phantom power on both its two XLR mic inputs.

- 2-channel 24-bit/96kHz audio interface
- Zero-latency hardware monitoring
- (2) XLR mic inputs w/phantom power, (2) 1/4" inputs (1 hi/low-Z switchable) • MIDI I/O • USB 2.0 and 1.1 compatible • Windows XP and Mac OS X compatible

#TAUS122L **129.00**

APOGEE DUET

The Duet is a highly compact, ultra-lightweight portable FireWire interface for Mac OS X. The unit sports a pair of phantom-powered mic preamps with a hot 75dB of gain and LED metering, along with dual Hi-Z instrument inputs. The unit supports multiple sample rates up to 96kHz, and serves up the legendary Apogee sound at 24-bit resolution, with simplicity and elegance.

- Portable bus-powered 2-channel FireWire 400 audio interface
- 24-bit recording resolution with selectable SRC up to 96kHz
- Multi-function controller knob for volume, gain and assignable MIDI functions • Maestro control and low-latency mixing software • (2) XLR inputs with 48V phantom power, (2) ¼" TS instrument inputs
- (2) ¼" TS unbalanced line outputs, ¼" headphone output
- Mac OS X, Core Audio compatibility

#APD **495.00**

M-AUDIO MOBILE PRE

Mobile Pre is a bus powered 2x2 audio interface and preamp perfect for laptop recording. Its flexible Inputs and outputs include two onboard Mic preamps and high-impedance instrument inputs, ideal for connecting Guitars, Bass, and Keyboards.

- 16-bit/48kHz Analog I/O • Zero-latency direct monitoring
- Built-in headphone amp with level control
- USB-powered for total mobility
- Includes Maximum Audio Tools software bundle
- Compatible with Pro Tools M-Powered software
- Mac and Windows compatible

#MAMP **149.00**

NATIVE INSTRUMENTS AUDIO KONTROL 1

The Audio Kontrol 1 is a perfectly adaptable interface for musicians, producers and DJ's. This unique 24-bit/192kHz USB audio interface and controller combines 2 balanced inputs, 4 balanced outputs and freely-assignable top-panel buttons and knob, allowing advanced MIDI and key command functionality and control. Preset controller files are included along with full versions of Xpress Keyboards, Guitar Combos and Traktor 3 LE.

- 2-in/4-out, 24-bit/192kHz USB interface
- (3) assignable top-panel buttons and controller knob
- Low-latency ASIO/Core Audio drivers
- Headphone output with A/B source switching and level control
- Windows XP and Mac OS X compatible

#NAAK1 ..... **249.00**

SOUND DEVICES USBPRE

The USBPre is a bus-powered 24-bit USB audio interface with two high quality mic preamps (with phantom power), instrument/balanced-line/tape level inputs, and digital I/O. Its top-quality hardware components, compact design and extremely durable construction make this portable interface a no-compromise solution for digital recording in the field.

- Input type is selected per channel, allowing two different signal types simultaneously
- "Mix" control allows zero-delay monitoring or mix of both source and computer audio • High-power headphone monitor with volume control • Six-segment LED peak input meter
- (2) XLR/TRS inputs, (2) RCA outputs • High-strength extruded aluminum chassis • Mac and Windows compatible

#SOUSBPRE15 ..... **549.00**

DIGIDESIGN MBOX 2 MINI

The Mbox2 Mini is an ultra-portable USB audio interface and the most affordable option available for recording with the included Pro Tools LE software. The Mini is designed for simplicity and ease of use, and an instructional DVD is included to help beginners get up and running. It features an XLR input with phantom power for pristine microphone recording and 1/4" inputs for guitars and keyboards.

- (1) XLR Mic input with preamp and 48V phantom power & (2) 1/4" DI inputs • (2) 1/4" main monitor outputs and (1) 1/4" headphone output with (1) volume control
- 32 tracks of 24-bit/48kHz audio
- Zero latency monitoring knob with main output mute button
- Includes the Pro Tools Ignition Pack (Ableton Live Lite, Reason Adapted, and more) • 100% USB powered
- Windows and Mac compatible

#DIMB2M **229.00**

EDIROL UA-25

The UA-25 is a high-quality 24-bit/96kHz USB Audio/MIDI interface designed for computer recording in the field. It features two microphone preamps with Neutrix XLR/TRS combo connectors, MIDI I/O, and S/PDIF optical I/O. The high-grade aluminum chassis stands up to the rugged conditions associated with location recording and is an excellent shield against high-frequency interference.

- (2) high-quality, high-grade mic preamps with phantom power
- (2) Neutrix XLR/TRS Combo jack inputs,Hi-Z port for guitar
- USB bus-powered • Zero Latency, Direct Monitoring
- Built-in analog limiter • Front panel headphone output with volume control • Windows and Mac compatible

#EDUA25 ..... **239.00**

M-AUDIO FAST TRACK ULTRA

The Fast Track Ultra is an 8-channel high-speed, cross-platform USB audio interface featuring 4 Octane-technology mic pres with phantom power and internal DSP. The unit provides 8 simultaneous recording channels at 24-bit/96kHz resolution. The small footprint and light weight of the device (under 2 lbs.) allow for flexible desktop or location use.

- Portable bus- or AC-powered 8-channel USB 2.0 audio interface • 24-bit recording resolution with selectable SRC up to 96kHz • On-board MX Core DSP mixer with effects processing and channel routing
- (4) XLR mic pres with phantom power, 20dB pads and peak indicators • (6) 1/4" TRS balanced line inputs and outputs, MIDI I/O • Mac OS X and Windows XP compatible

#MAFTU ..... **Call or Log-on**

LEXICON OMEGA

The Omega is an AC-powered ultra-compact 8-in/4-out USB mixer and software package, designed to be a complete and inexpensive computer audio recording solution. The mixer features the programmable Pantheon reverb (a Lexicon specialty), an opto-isolated hum- and noise-free MIDI I/O, 4 simultaneous channel recording capability, and 24-bit resolution. Cubase LE software is included, offering 48 audio and 64 MIDI track capability.

- (2) XLR mic preamp inputs • (4) 1/4" TRS phone, (1) 1/4" TS phone inputs • (2) 1/4" TRS phone outputs • Coaxial SPDIF digital I/O, opto-isolated MIDI I/O • Cubase LE software with full editing, processing, and automation
- Selectable 44.1 and 48kHz sampling rates • Windows XP and Mac OSX compatible

#LEOMEGA ..... **Call or Log-on**

ALESIS IO-2

The IO-2 is an elegant little two-channel USB audio and MIDI recording device, bus-powered and 24-bit capable. The unit features a nice analog-style work surface, zero-latency monitoring and professional microphone and instrument connectivity. Cubase LE audio software is included, turning the IO-2 into a low-cost, cross-platform recording solution for desktop music production or songwriting.

- (2) XLR microphone inputs • (2) 1/4" TRS phone outputs
- Coaxial SPDIF digital I/O • MIDI In & Out • (2) 1/4" TRS phone inputs, (1) 1/4" TRS phone insert
- 1/4" Headphone out with volume control
- Windows XP and Mac OSX compatible
- Switchable 48V phantom power, 4-segment metering

#ALIO2 ..... **129.00**

EDIROL UA-4FX

The UA-4FX is a portable bus-powered 2-channel USB audio and MIDI interface. The unit features 24-bit/96kHz capability, built-in effects processing, low-latency performance, and a phantom-powered XLR microphone input. Cakewalk's SONAR LE audio software, and Edirol's Virtual Sound Canvas plug-in are packaged with the UA-4FX, creating an inexpensive, self-contained, cross-platform audio and MIDI recording alternative.

- (1) XLR mic in with phantom power
- (2) RCA phono, (1) 1/8" TS phone, (1) 1/4" TS phone inputs
- (2) RCA phono outputs, (1) 1/4" Headphone out
- MIDI In & Out • TOSLINK optical SPDIF digital I/O
- 14 on-board effects with tube mic preamp modeler
- WDM, ASIO 2.0, Core Audio Support • Windows XP and Mac OSX compatible

#EDUA4FX **149.00**

LEXICON ALPHA STUDIO

The Alpha Studio is a compact USB audio interface and desktop recording solution. The unit comes with Steinberg's Cubase LE audio/sequencing software, and the Pantheon VST reverb plug-in. The Alpha Studio box is a 4-in/2-out conduit with 2-channel recording and ample connectivity. Simple and clean-sounding, the Alpha Studio is an excellent low-cost desktop recording system.

- (1) XLR microphone input • (2) TRS phone line inputs
- USB digital I/O • (1) TS phone Hi-Z instrument inputs
- (2) 1/4" TRS phone, (2) RCA phono line outputs
- High-powered headphone amp
- Separate monitor mix and output level controls
- PC and MaC compatible

#LEALPHA ..... **Call or Log-on**

M-AUDIO TRANSIT

The Transit is a pocket-sized, bus-powered USB recording and playback device with 24-bit/96kHz capability, an ideal and low-cost laptop audio companion. The unit allows for crystalline audio transfer between a computer and DAT, CD and MiniDisc, while delivering on digital output AC-3 and DTS to compatible external decoders.

- (1) 1/8" stereo phone line/optical in
- (1) 1/8" stereo phone line out • TOSLINK SPDIF digital output
- 24-bit converters • Multiple sample rates to 96kHz supported
- Extended 104dB dynamic range on output
- Compact pocket size for mobility
- Windows XP and Mac OSX compatible

#MAT2496USB **79.00**

IK MULTIMEDIA STEALTHPLUG

The StealthPlug enables you to easily plug any electric guitar or bass, or even an acoustic with a pick-up directly into the USB port of a computer. A bundle of powerful software is included that transforms your PC or Mac into a virtual array of amplifiers and effects, as well as a powerful multi-track recording studio and mastering suite.

- Software included: AmpliTube 2 Live, Mackie Trackion 2.1, SampleTank 2 SE, T RackS EQ, Sonic Reality loops
- 9 foot cable • 1/8" stereo headphone/speaker output
- Volume up/down buttons • Input also accepts line level signals
- 16-bit, 44kHz/48kHz sampling frequency

#IKSP **84.99**

DIGIDESIGN MBOX2 MICRO

About the size of a typical USB flash drive, Mbox 2 Micro offers high-quality 24-bit / 48 kHz sound, a 1/8 inch stereo output for headphone or speaker monitoring (no audio inputs), and a convenient volume wheel, providing you with the freedom of true editing, sequencing, and mixing mobility. This compact solution comes with Pro Tools LE software and a full suite of plug-ins.

- Ultra-small USB Pro Tools LE solution • Size of a typical USB flash drive • 24-bit / 48 kHz audio
- 1/8" stereo output with volume control • Powers via USB
- Includes: Pro Tools LE, Bomb Factory & DigiRack plug-ins, and Xpand • Windows and Mac OS X 10.4 compatible

#DIMB2MQ **249.00**

PRESONUS FIREBOX

Featuring dual low-noise mic preamps, 2 balanced TRS 1/4" inputs, and S/PDIF digital I/O, the Firebox is a complete, palm-sized professional 24-bit/96kHz FireWire audio interface for computer-based studios. Combining Cubase LE production software and a bus-powered interface, this cross-platform system provides a convenient all-in-one recording solution for both mobile and studio production.

- Very low-latency monitoring • Cubase LE and DSP routing mixer software included • Record/playback (6) inputs (10) outputs at 24-bit/96kHz • Front-panel headphone monitoring and mic pre's with built-in 48V phantom power
- Plug-n-play FireWire (IEEE 1394) audio interface
- 24-bit/44.1, 48, 88.2, 96kHz sample rates supported

#PRFB ..... **Call or Log-on**

DIGIDESIGN MBOX 2 PRO

The Mbox 2 Pro is a mobile high-definition 24/94k FireWire audio production system featuring a wide variety of connections, industry-standard Pro Tools LE software, over 50 effects and instrument plug-ins, and the powerful multi-track recording and mixing capabilities you've come to expect from Pro Tools. Vocals, keyboards and guitars can be simultaneously recorded and monitored with dedicated outputs and low-latency monitoring.

- 24-bit/96kHz FireWire audio interface with Pro Tools LE software • 32 simultaneous audio tracks with 256 MIDI tracks
- Over 50 processing plug-ins and instruments included
- Unique Beat Detective LE automatic groove analysis and correction tool
- (2) XLR/1/4" combo jacks, (2) 1/4" TRS jacks (6) 1/4" outputs
- Windows XP and Mac OS X compatible

#DIMB2P ..... **Call or Log-on**

DIGIGRAM UAX220V2

The UAX220V2 is a portable USB 1.1 stereo audio interface, suitable for laptop or desktop use. Bus-powered and plug-and-play, the unit is basically a tiny hub with an attached breakout cable, offering professional XLR connectors, a headphone cable, and a USB connector. Ultra-quiet and lightweight, cross-platform and 24-bit capable, the UAX220V2 redefines mobility.

- (2) XLR line inputs • (2) XLR line outputs
- (1) TRS Headphone output • Extended 104dB dynamic range
- Mono or stereo input monitoring
- Ultra-lightweight • PC or Mac compatible, no drivers required
- 24-bit converters, selectable 32, 44.1, 48kHz sample rates

#DIUAX220V2 ..... **Call or Log-on**

EDIROL FA-66

The FA-66 is a professional six input/six output 24-bit/96kHz portable FireWire audio interface designed for mobile recording. Simultaneous I/O performance is determined by the sampling rate used; 96kHz allows for 6-In/6-Out, while 192kHz allows for 4-In/4-Out. This FireWire bus-powered interface provides a variety of input and output options, MIDI I/O, and a compact solid metal design, making it a great solution for high-resolution location recording.

- Simultaneous Performance: (6) in (6) out at 24-bit/96kHz, (4) in (4) out at 24-bit/192kHz • (2) XLR/TRS Combo Jacks with Premium Phantom Power Mic Preamps
- S/PDIF Optical Input and Output Ports with "SYNC" LED Indicator • Zero-Latency, Direct Monitoring
- Built-in Analog Limiter • Windows and Mac compatible

#EDFA66 ..... **279.00**

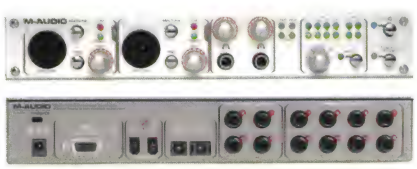

MOTU ULTRALITE MKIII

The UltraLite MKIII is a 10 input/14 output, 24-bit/96kHz FireWire audio interface ideal for mobile recording applications. This high-quality, bus-powered unit is equipped with 2 mic/instrument inputs with preamps (on XLR/TRS combo jacks), 6 line-level 1/4" TRS inputs, 10 1/4" TRS outputs, S/PDIF digital I/O, MIDI I/O and a dedicated stereo headphone output.

- Bus-powered, mobile FireWire interface
- (2) mic/instrument preamps with 48V phantom power
- Front-panel gain control & 3-way pad switch
- (6) 1/4" TRS inputs, (10) 1/4" TRS outputs • Dedicated stereo headphone output with level control • Coaxial S/PDIF digital I/O • CueMix DSP latency-free monitoring system
- Includes AudioDesk software (Mac OS X only) • MIDI input and output • Windows and Mac compatible

#MAULMK3 ..... **Call or Log-on**

M-AUDIO FIREWIRE 1814

The FireWire 1814 is a 24-bit 18 input/14 output FireWire audio interface with 2 high-quality microphone preamps, ADAT lightpipe, and MIDI I/O. This powerful interface has a flexible internal mixer for input and output routing, two individually assignable headphone outputs, and can be completely bus-powered, making it a great solution for both studio and mobile recording.

- 8x4 analog I/O (up to 192kHz on all outs)
- 8x8 ADAT Lightpipe I/O plus word clock • (2) analog inputs have mic/instrument preamps and 192kHz sample rate
- Coaxial/optical S/PDIF with PCM, AC-3 and DTS
- 1x1 MIDI I/O • Compatible with Pro Tools M-Powered software
- Windows and Mac compatible

#MAFW1814 ..... **499.00**

M-AUDIO FIREWIRE SOLO

The FireWire Solo is compact bus-powered 24-bit/96kHz portable audio interface equipped with microphone, guitar, and line inputs, coaxial S/PDIF I/O, and a stereo headphone amp. Ideal for songwriters and guitarist, the easy-to-use FireWire Solo is ASIO2, WDM, GSIF2, MME, and Core Audio compatible, and is small enough to go anywhere you want to take your music.

- XLR Microphone input with 48V phantom power, gain control, clip LED • 1/4"guitar input with gain control and clip LED
- (2) 1/4" line inputs and (2) 1/4" TRS line outputs
- Coaxial S/PDIF digital I/O with 2-channel PCM
- Rack mountable metal chassis
- Dual FireWire ports with bus-power
- Compatible with Pro Tools M-Powered software
- Windows and Mac compatible

#MAFWS ..... **Call or Log-on**

ECHO AUDIOFIRE 8

The AudioFire8 is a high-quality FireWire interface featuring comprehensive analog and digital I/O and an intuitive software console for monitoring, metering, and setting levels. Ideal for most any studio or mobile production, the AudioFire8 provides 10 simultaneous I/O channels of pristine audio over a wide dynamic range, all at 24-bit/96kHz.

- High-quality, low-latency FireWire audio interface
- 10-channel simultaneous I/O at 24-bit/96kHz
- On-board 32-bit DSP for digital mixing and monitoring
- Inputs: (6) balanced TRS 1/4", (2) Neutrik Universal, S/PDIF (RCA), WordClock • Outputs: (8) balanced TRS 1/4", S/PDIF (RCA), WordClock, Phones • XP and Mac OS X compatible, includes Tracktion V.1 production software

#ECAF8 ..... **Call or Log-on**
ECAF12 12-channel 196kHz version #ECAF12 ..... **Call/Log-on**

PRESONUS
FIRESTUDIO

The FireStudio is a pro-level, cross-platform FireWire audio interface with a total of 26 I/O's. The unit offers 24-bit recording resolution and selectable SRC up to 96kHz, and delivers the warm, transparent sound Presonus is known for. Of particular note is the internal zero-latency full-matrix mixer and JetPLL jitter-elimination technology for the Word Clock I/O.

- High-speed Firewire audio interface with 26 simultaneous I/O's • 24-bit recording resolution with selectable SRC up to 96kHz • Zero-latency Control Console software routing, mixing and monitoring • (8) XLR Class A mic pres with dedicated trims, selectable phantom power • (8) ¼" line inputs, MIDI I/O, 16 channels of ADAT I/O, SPDIF digital I/O
- Comprehensive Cubase LE and ProPak DVD audio software bundle • Mac OS X and Windows XP compatible

#PRFS ..... **Call or Log-on**

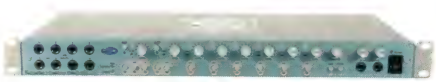

M-AUDIO ProFire 610

Compact and rugged, the ProFire 610 has two high quality preamps featuring Octane technology, a powerful DSP-based monitor mixer, two discrete headphone outputs and an assignable master volume control knob to facilitate many kinds of recording and mixing.
With six inputs and ten outputs (analog and digital), the interface features premium digital converters that deliver high-definition, 24-bit/192kHz audio throughout the signal path. MIDI I/O allows the user to connect keyboards and other outboard MIDI hardware and the unit also doubles as a standalone two-channel microphone preamp and A/D-D/A converter.

- Six-input, ten-output FireWire digital audio interface
- Onboard DSP provides five, near-zero latency 16x2 monitor mixers • User-assignable Master Volume control
- Functions as a standalone two-channel microphone preamp with analog-to-digital and digital-to analog conversion

#MAPF610 ..... **Call or Log-on**

FOCUSRITE SAFFIRE PRO 26 I/O

The Saffire PRO 26 i/o is a bus-powered; 1RU FireWire interface with 8 microphone preamps and 24-bit/192kHz resolution. The cross-platform unit features 16-channel ADAT interfacing, dual headphone outputs, and monitor control with muting and dim options. A nice set of VST and Audio unit plug-ins with EQ, compression, amp simulator, and reverb functionality is included. This interface offers pro connectivity, versatility and transparent sound.

- (8) XLR mic inputs • (8) 1/4" TRS line inputs • RCA SPDIF, BNC Word Clock, and MIDI I/O
- 2 variable impedance mic inputs • (8) TRS line outputs
- (2) ADAT Lightpipe ins and outs
- 24-bit converters, selectable SRC
- Desktop or mobile recording capability

#FOSP26IO **549.99**

MACKIE
ONYX 1200F

The Onyx 1200F is a cross-platform FireWire front-end computer audio mixer/interface with stand-alone capability. The hefty rackmount chassis houses twelve pristine mic preamps, a 30-in/34-out connection matrix, built-in control room functionality such as talkback and A/B speaker switching, and 24-bit/192kHz converters. The Onyx 1200F offers professional studio-grade headroom, sonic clarity, and versatility virtually unmatched at its price point.

- 12 Onyx XLR microphone preamps • (8) TRS phone line outputs
- (4) Headphone outputs • (2) MIDI I/O, Word Clock
- Stereo AES/EBU, SPDIF I/O
- 24-bit converters, selectable SRC to 192kHz
- Matrix Mixer DSP with instant routing, level, pan recall
- Includes Traktion 2 and Final Mix software

#MAO1200F **1699.99**

MOTU 8PRE

The 8Pre is a professional 16-in/12-out Firewire interface with 8 microphone/instrument preamps, 8 channels of ADAT optical I/O, a built-in SMPTE reader/generator, and full 24-bit/96kHz resolution. The unit includes AudioDesk, a sample-accurate software solution for the Mac with complete tracking, editing, mixing, and real-time effects-processing. The 8Pre is loaded with pro features for a very reasonable price.

- (8) XLR/1/4" TRS Combo mic/line ins • (2) ADAT Lightpipe digital ins and outs • Multiple monitoring mixes via CueMix DSP
- (2) 1/4" TRS phone main, (1) TRS headphone out
- 48V phantom, 20db pad and trim per preamp channel
- Cross-platform with ASIO, WDM, Core Audio drivers
- SMPTE I/O, 16-channel MIDI I/O • 24-bit converter with selectable SRC

#MA8PRE ..... **Call or Log-on**

T.C. ELECTRONIC
KONNEKT 24D

The Konnekt 24D is a compact, cross-platform FireWire bus-powered audio interface and desktop music production solution with built-in effects processing. The unit is equipped with dual phantom-powered microphone preamps, Hi-Z instrument inputs and Cubase LE audio and sequencing software. With stand-alone effects processor capability as well, the Konnekt 24D is a good value for both live performing and studio recording.

- (2) XLR/1/4" Combo mic/instrument inputs • (4) ¼" TRS phone line inputs • Dual headphone outs, direct monitoring
- DSP with total recall of mixer/effects settings, routing
- (4) ¼" TRS phone line outputs • MIDI I/O, SPDIF sync I/O
- (2) ADAT /Optical SPDIF, (2) RCA SPDIF I/O's
- Real-time Fabrik reverb and channel strip

#TCK24D ..... **Call or Log-on**

FOCUSRITE
SAFFIRE

The Saffire is a desktop FireWire audio interface featuring 24-bit/192kHz converters, dual phantom-powered mic preamps, and a bundled suite of effects plug-ins, powered by the unit. The 4-in /10-out box offers analog and digital connectivity, and the plug-ins, which include EQ, compression, amp-modeling and reverb, will run within the user's software platform of choice, allowing for five separate stereo mixes.

- (2) XLR mic inputs • (2) 1/4" TSR line inputs
- (8) 1/4" TRS line outputs, Headphone out
- Separate monitor and headphone mixes
- RCA coaxial SPDIF digital I/O • MIDI and SPDIF sync I/O
- 7.1 Surround monitoring • 24-bit converters, SRC to 192kHz

#FOS ..... **Call or Log-on**

MOTU 896 MK3

This FireWire digital audio interface can also function as a rackmount, standalone mixer without the need for a computer. It provides eight channels of 24-bit/192kHz analog recording and playback, combined with sixteen channels of optical digital I/O, stereo AES/EBU, S/PDIF and separate analog main outs.
When used with the digital I/O at lower sample rates, the unit can provide twenty-eight separate inputs and thirty-two separate outputs, including dedicated main outs on XLRs and two front panel headphone outs.
The on-board CueMix FX digital mixer allows for routing guitars, synthesizers, keyboards, drum machines and even effects processors. Hardware DSP-driven effects processing can be applied to inputs, outputs and busses independent of the host computer.

#MA896MK3 ..... **994.95**

MOTU 896HD

The 896HD is a high-resolution 24-bit/192kHz FireWire audio interface that provides eight Mic preamps, 8 channels of ADAT I/O, and stereo AES/EBU. The CueMix DSP on-board mixing feature (a flexible DSP-driven 18-input/8-bus mixing and monitoring matrix) eliminates the need for an external mixer or patchbay. The versatile 896HD can be used as a stand-alone mixer and is equally well suited for both studio and stage, with or without a computer.

- (8) XLR mic pre-amps/line inputs with switchable 48V phantom power and front-panel trim controls
- (10) balanced XLR outputs • ADAT Optical and AES/EBU digital I/O • CueMix DSP latency-free monitoring system
- Includes AudioDesk workstation software (Mac OS only)
- Windows and Mac compatible

#MA896HD **995.00**

MOTU TRAVELER MK3

Traveler MK3 is a professional mobile 24-bit/192kHz FireWire audio interface equipped with 4 mic/instrument pre-amps, AES/EBU, S/PDIF, and ADAT optical I/O. Small enough to fit in a computer bag or briefcase, the Traveler can be powered via the FireWire bus, industry-standard battery pack or a unique 4-pin XLR power socket feature, giving users a complete battery-operated 28- input/30-output remote studio.

- Built-in SMPTE synchronization and SMPTE Console software
- Stand-alone operation for mixing and monitoring without a computer • (8) balanced/unbalanced analog ins/outs
- Word Clock I/O, MIDI I/O, ADAT sync
- DC power jack accepts any 10-24V DC power supply
- Includes AudioDesk recording/editing/mixing software (Mac OS only) • Mac and Windows compatible

#MATMK3 ..... **849.00**

TASCAM FW-1884

The FW-1884 is a professional FireWire Control Surface and Audio/MIDI Interface. It provides 18 simultaneous channels of I/O featuring 8 balanced Mic/Line inputs (with high-quality microphone preamps), 8 balanced TRS outputs, ADAT lightpipe and S/PDIF in and out.

- (8) 100mm touch-sensitive motorized Channel faders and a Master fader • Dedicated controls for Pan, Solo, Mute, Select and 4-bands of EQ • Zero Latency Direct monitoring
- 24-bit/96kHz A/D and D/A converters
- MIDI and Word Clock Sync in and out
- Mac and Windows compatible
- 8-channel sidecar expansion available (FE-8)

#TAFW1884 ..... **Call or Log-on**

M-AUDIO DELTA 66

The Delta 66 is a six input/six output24-bit/96kHz full-duplex audio interface that connects via the Delta Series PCI host card. The breakout box is equipped with four 1/4" TRS analog inputs/outputs, and the PCI host card provides coaxial S/PDIF I/O. Dedicated control panel software enables software-driven routing for all analog and digital I/O and SCMS (Serial Copy Management System) output control.

- 4x4 1/4" TRS analog I/O • Coaxial S/PDIF I/O with SCMS control • Zero-latency monitoring
- AC-3 and DTS surround support via digital I/O
- Includes Ableton Live Lite 4 music production software
- Compatible with Pro Tools M-Powered software
- Windows 98SE/Me/2000 and Mac OS X compatible

#MAD66 ..... **189.00**
Delta 44 same as Delta 66, but without coaxial S/PDIF
#MAD44 ..... **148.95**

DIGIDESIGN 003 RACK FACTORY

The Digi003 Rack is a powerful 18 channel rack-mounted FireWire audio/MIDI interface. The (4) microphone preamps and A/D conversion have been rebuilt and upgraded. New features include BNC word clock I/O, an additional headphone jack and a second set of monitor outputs to accurately monitor your work. Industry-standard Pro Tools LE production software and 80 professional plug-ins and instruments are included.

- (4) XLR and (4) TRS inputs, (8) TRS outputs
- Optical ADAT I/O, S/PDIF I/O • (2) headphone outs
- Toggle between main and alternative monitors,and Aux In
- Includes Pro Tools LE software (PC and Mac) and 80 professional software plug-ins and instruments • Includes iLok USB Smart Key • Artist promotion services included

#DID003RF ..... **Call or Log-on**

DIGIDESIGN 003 FACTORY

The 003 is a hands-on software control surface and 18 channel FireWire audio/ MIDI interface. The control surface keeps your hands off the mouse and your head in the music. Featuring (4) improved microphone preamps and updated A/D conversion, BNC word clock I/O, and more monitoring options, plus industry-standard Pro Tools LE production software, the 003 makes a formidable production workstation.

- (4) XLR and (4) TRS inputs, (8) TRS outputs
- Optical ADAT I/O, S/PDIF I/O • (2) headphone outs
- Toggle between main and alternative monitors, and Aux In
- Includes Pro Tools LE software (PC and Mac) and 80 professional software plug-ins and instruments
- Includes iLok USB Smart Key
- Artist promotion services included

PRESONUS INSPIRE 1394

The INSPIRE 1394 is a versatile FireWire interface equipped with four analog inputs and two analog outputs. The I/O includes two microphone preamplifiers with phantom power & two instrument (Hi-Z) inputs on the front panel and stereo RCA inputs & outputs on the rear panel. It is bundled with Cubase LE software, Sony's ACID XMC, 25 effect plug-ins, and over 3GB of drum loops and samples.

- (2) XLR mic inputs, (2) 1/4" TS instrument inputs and (2) RCA line level phono inputs
- Stereo line level outputs via stereo RCA connector/ 1/8"TRS
- Stereo 1/8" TRS headphone output
- Full digital control and recall from the control panel
- Low Latency hardware mixer configured from the control panel • Sync indicator LED
- (2) IEEE1394 (FireWire) ports
- Windows XP and Mac compatible

#PRI1394 ..... **200.00**

M-AUDIO AUDIOPHILE 192

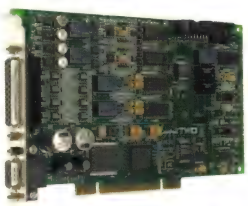

The Audiophile 192 is a high-definition 24-bit/192kHz PCI audio interface that provides rock-solid drivers and seamless integration with your favorite Mac and PC applications. It features two 1/4" TRS inputs & outputs, coaxial S/PDIF digital I/O (with 2-channel PCM) and 16-channel MIDI I/O, all supplied on a breakout cable. PCI 2.2 compliance & 64-bit audio drivers enable the Audiophile to take advantage of next-generation platforms and software.

- 1/4" TRS analog inputs & outputs • Coaxial S/PDIF digital & MIDI I/O • Direct hardware input monitoring
- SCMS copy protection control
- Software routing of inputs and outputs
- Includes Ableton Live Lite 4 music production software
- Windows 2000, XP and Mac OS X compatible

#MAA192 ..... **Call or Log-on**

LYNX STUDIO TECHNOLOGY LYNXTWO-B

The LynxTwo-B Model is a 24-bit/96 kHz digital audio PCI card designed for audio/video production, DVD-Audio and mastering. It provides two 24-bit balanced analog inputs and six 24-bit balanced analog outputs, SMPTE time code reader and generator with MTC conversion, composite video genlock, 24-bit AES3 or S/PDIF I/O.

- (2) XLR inputs and (6) XLR outputs on D-sub breakout cable
- D-sub breakout cable for digital input and output, sync in and out • SMPTE time code reader and generator/composite video genlock • Word, 256 Word, 13.5MHz or 27MHz clock sync
- Supports Dolby AC-3 and DTS on digital I/O
- PCI-X compatible • Windows and Mac compatible

#LYLTB ..... **Call or Log-on**

M-AUDIO DELTA 1010LT

The Delta 1010LT is a 10 input/10 PCI audio interface with two color-coded breakout cables. Connectivity includes: two mic/line preamps on XLR connectors, six RCA inputs, eight RCA outputs, MIDI I/O, Word Clock I/O and coaxial S/PDIF I/O. Up to four Deltas can be combined in your system for a maximum of 32 analog and four stereo S/PDIF inputs and outputs.

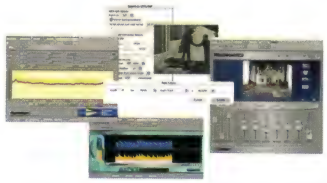

- (2) XLR mic preamps • (8) RCA inputs and (6) RCA outputs
- Compact, half-size PCI card • MIDI & Word Clock I/O
- S/PDIF digital I/O with PCM and AC-3/DTS surround
- Software controlled 36-bit internal DSP digital mixing/routing
- Includes Ableton Live Lite 4 music production software
- Windows and Mac OS X compatible

#MAD1010LT **199.00**

DIGIDESIGN
DV TOOLKIT 2

The DV Toolkit 2 is a software upgrade bundle that adds post-production functionality to Digidesign Pro Tools LE systems. With the addition of frame-accurate Time Code functions, AAF/OMF import and export, and specialized plug-ins, the DV Toolkit 2 enables users to easily edit and sweeten the audio content of film and video projects.

- Timebase Rulers: spot audio to Time Code or Feet + Frames
- Up to 48 Mono or stereo tracks at up to 96kHz

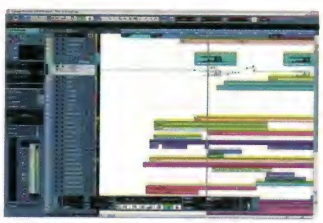

- Includes DigiTranslator 2.0 for full AAF/OMF import/export • DINR LE Intelligent noise reduction plug-in • Synchro Arts VocALign Project audio alignment plug-in
- Audio/Video rate Pull Up and Pull Down
- Requires iLok USB Smart Key (not supplied)

#DIDVTK2 ..... **1295.00**

STEINBERG
CUBASE STUDIO 5

Cubase Studio 5 is an affordable way to tap into the powerful audio and MIDI recording tools developed by Steinberg, such as its rich sounding 32-bit audio engine, unlimited audio and virtual instrument tracks, and 47 included plug-ins. A silence detector disengages a plug-in when no signal is present to conserve CPU. The customizable user interface has been carefully redesigned to intuitively enhance the workflow.

- Includes Roomworks reverb, Studio Chorus, and guitar amp/speaker simulators
- HALion One sampler come with Yamaha Motif series content

- Write, edit, and print musical notation and scores
- Mac and Windows compatible
- Includes Prologue analog modeling synthesizer
- Track presets and Inplace editing

#STCS5 ..... **Call or Log-on**

ABLETON
LIVE 8

Live 8 is the latest version of the revolutionary music production software that allows users to spontaneously compose, record, remix, improvise and edit musical ideas in a seamless audio/MIDI environment. It combines, in a single interface, loop and linear production methods with virtual instruments and effects. Added features include Movie Import, Deep Freeze editing, multi-processor support, and a comprehensive collection of instruments and project management tools.

#ABL8 ..... **499.99**

- Unlimited 32-bit/192kHz multitrack hard disk recording • Realtime pitch-shifting and time-stretching • Movie Import feature includes warping sound to picture • Comprehensive audio and MIDI recording • Audition clips, in sync, while main mix is playingE

STEINBERG
CUBASE 5

Combines full-featured audio and MIDI recording and editing, virtual instruments and powerful audio mixing, with the added flexibility of loop- and pattern-based arranging and mixing. This latest version provides added focus on five key elements of music production. LoopMash, a virtual instrument, and Beat Designer, a beat construction plug-in, offer innovative ways for creating and working with loops and beats. In the pitch correction arena, VariAudio offers completely integrated vocal editing and pitch alteration of individual notes in monophonic vocal recordings. Places all these elements within the mix, via REVerence, a VST3-based convolution reverb processor.

VST Expression is a new way of working with multiple instrument articulations, such as huge orchestra libraries, and introduces an editing concept that is not only user-customizable but is also fully integrated with the Key and Score Editors.

#STC5 ..... **499.95**

MOTU
DIGITAL PERFORMER 6

Digital Performer 6 is an integrated MIDI and audio sequencer, suitable for studio recording, film scoring, live performance and remixing. The software provides an easy to understand work flow, with all the features needed for full audio and MIDI production.
Features include unlimited tracks, unlimited undo, support for surround sound, 64-bit mastering tools, sample-accurate editing of audio and MIDI, automatic tempo calculation for film scoring, and much more. For beginners and experts alike, Digital Performer 6 delivers advanced features in an intuitive, streamlined design.

Version 6 enhancements include a new user interface with streamlined operation, track compilation, two new audio processing plug-ins, film scoring enhancements and expanded audio file support.

#MADP6 ..... **$499.95**

SIBELIUS
SIBELIUS 5 Professional

Created for musicians by musicians, Sibelius 5 does it all by allowing more attention to notes and less to details. Utilizing unique composition systems applicable for both professional and beginners alike, Sibelius Pro 5 has become recognized as a sophisticated, yet creative and simple-to-use notation tool. Styles and arrangements are freely adjusted while maintaining the expressive nuances and dynamic phrasing required for an intelligent, well-executed layout.

- Outstanding teaching and learning tool in the classroom or on the Internet

•"Flexi-time"– real-time MIDI input that follows your playing • Arrange – automatically arranges/orchestrates music
- Scanning – scans music into computer for playback and editing
- Easy-to-learn manual with extensive learning support • 37 plug-ins included • Exceptional print quality and graphics for publishing
- Imports and converts: Finale, SCORE, Allegro, PrintMusic, Sibelius, and MIDI files

#SIS5P **$449.95**

MACKIE TRACKTION 3
Project Bundle

Tracktion 3 was designed to be an easy-to-use audio/MIDI recording application. All operations in the program take place on a single screen, making everything from initial composing to final mastering as painless as possible. Its new Loop Browser helps you navigate hundreds of supplied sounds to help get ideas flowing. You can even integrate Tracktion 3 with other audio software with full ReWire 2.0 support.

- Supports Quicktime video playback for scoring • Includes virtual instruments, sound

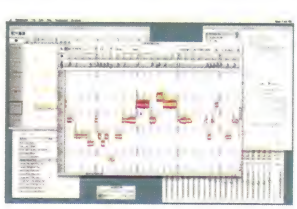

sets, and effects and dynamics plug-ins
- Time stretch and pitch shifting
- Unlimited track count • Powerful MIDI editor
- Export as MP3 • Mac and Windows

#MAT3P **$99.95**

CELEMONY
MELODYNE STUDIO 3

Melodyne is a unique application that allows you to edit the pitch, timing, phrasing, and formants of an audio file independently of one another. Manipulating audio in such a detailed fashion has always been difficult but Melodyne provides the service with a stand-alone application or integrated into your production environment via Rewire, VST, RTAS, AU or DirectxX support. This is an indispensable tool for creating and editing vocal harmonies or stretching into the experimental for film scoring and remixing.

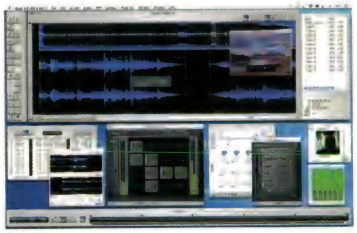

- Manipulate audio tracks with MIDI ease

- Outstanding time stretching and pitch shifting
- Copy and paste without "clicks" and "pops"
- Drag and shift interface simplifies conventional editing
- Selectable automatic scale adjustment
- Advanced Audio-to-MIDI function

SOUNDBOOTH CS4

Soundbooth CS4 is a stand-alone Windows and Mac-Intel software application for creating and editing audio for film, video, presentation, and Adobe Flash projects. Designed for video or film editors, sound designers, and motion graphics work, the program deploys on-clip controls for intuitive audio clean-up, voice-over enhancement, and effects drop-in. Soundbooth Scores, a collection of easily-customized music themes is included, and additional themes and effects may be downloaded from Soundbooth Resource Central.

- Clip-based cut, copy, and paste • Time-stretch and pitch-shift • Intuitive removal of clicks, hum, buzz, hiss • Spectral Frequency Display waveform analysis • High-quality audio effects • Mono or stereo recording with markers • SRC and bit-depth conversion

- Time-line with frame, minutes and seconds or sample display

#ADSBCS4M **$169.95**

NATIVE INSTRUMENTS
KORE 2

Utilizing software and hardware, KORE 2 effectively unites VST and Audio Units's instruments and effects into a single, clearly structured user interface that enables users to find sounds and presets based on their musical attributes, making producing with plug-ins far easier and musical. Its high-resolution hardware controller interacts perfectly with the software, with touch-sensitive, back-lit knobs, bi-directional communication, and a context-specific display.

- Hardware/software system integration of all VST and Audio Units plug-ins

- Ideally suited to be "default" plug-in in sequencer tracks and effect slots
- Versatile KoreSound format categorizes and manages presets into a single interface
- Bi-directional Audio/Midi interface for live/studio use on USB 2.0 connection

#NAKORE2 ..... **$349.00**

IMAGE-LINE FL STUDIO
Fruityloops Edition

FL Studio Fruityloops Edition is a low-cost and surprisingly full-featured software application for music composition and production, offering both Windows and Intel Mac compatibility. The program provides CPU-dependent track count, audio and MIDI recording, a large selection of virtual instruments, multi-effects and flexible editing, mastering, and audio processing tools.

- Up to 64 simultaneous recording tracks
- Time-stretch, pitch-shift, beat-slice, chop, and mangle
- Pattern- and track-based MIDI sequencing
- Step-sequencer, Piano-roll, automation-clip editing • Universal MIDI hardware controller

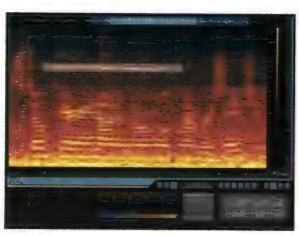

support
- Wide range of synthesis techniques supported • VST, DX plug-in support, large effects collection included

#IMFLSE **$99.00**

IZOTOPE
RX

Rx is a cross-platform stand-alone audio restoration tool designed to be used in a wide variety of production and archiving applications. The program features 5 different types of noise removal functions, an advanced spectrogram that visually represents the audio at a very high time and frequency resolution, and a streamlined user interface.

- Hum removal eliminates AC hum and line noise • Declipper rebuilds clipped, distorted audio from A/D and analog overloads
- Declicker eliminates pops, crackles, clicks, digital impulse noises

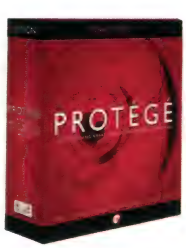

- Denoiser removes broadband noise, leaves ambience
- Spectral repair removes intermittent noises and fixes audio gaps, dropouts

#IZRX **$279.00**

NOTION MUSIC
PROTÉGÉ

Protégé is a budget-mined music performance and notation program designed for generating smaller lead sheet and ensemble scores. The cross-platform software features an intuitive score-based user interface, and a sound library culled from the London Symphony orchestra sample collection for playback purposes. The program includes an audio mixer, and the ability to save score performances as WAV files for export applications.

- Performance and notation program with built-in sound library
- N-tempo feature for real-time score conducting and tempo control

- Note audition and click-and-drag editing
- Up to 8 instruments in a score
- No external playback hardware necessary
- Global key change and tuning adjustment
- Windows and Mac compatible

#NOPZ **$69.95**

LINE 6
GUITAR PORT

ION
LPDOCK USB Turntable with iPod Dock

Archive vinyl records to your iPod. The belt-drive turntable features an iPod and USB port for archiving recordings to iTunes. An iPod may also be synced with iTunes while in the turntable's dock. Includes EZ Vinyl Converter 2 software for the PC and EZ Audio Converter software for the Mac. Software provides an easy means of digitizing recorded audio to iTunes software. Also enhances audio quality by removing pops and clicks.

#IOLPDOCK **229.95**

PIONEER
DJM-400 Two-Channel DJ Mixer

In-loop sampler features 24-bit/96kHz resolution and seamlessly loops any four beat sample while automatically staying in tempo with program material.

Loops can be processed with robot, delay, filter, flanger, echo and roll effects. Two dedicated line inputs and two line/turntable switchable inputs with 3-band EQ on each channel. Designed for easy installation and even easier transport.

#PIDJM400 ..... **549.95**

PIONEER
DJM-600 Four-Channel DJ Mixer

Provides inputs for three turntables and up to five CD/line sources. An on-board sampler provides up to six seconds of beat-matched looping. The DJM-600's effect processor provides delay, echo, auto-pan, filter, flanger and other quality effects for remixing program audio and loops in real-time. PFL headphone monitor buttons represented on each channel and large LCDs provide BPM information. A three band EQ is provided on every channel for frequency manipulation during sets.

#PIDJM600 ..... **774.95**

PIONEER
DJM-800 Four-Channel DJ Mixer

The DJM-800 features four input channels with five line inputs, four digital inputs and three turntable inputs. Each channel features a 3-band isolator EQ for realtime frequency manipulation. On-board 24-bit effects processors deliver Echo, Delay, Reverse Delay, Pan, Transform, Filter, Flanger, Phaser, Reverb, Robot, Chorus, Roll and Reverse Roll effects. Auto Harmonic Tuning effect detects the key of incoming audio and compensates when pitch changes are made.

#PIDJM800 ..... **1466.95**

DENON
DN-X120 Two-Channel DJ Mixer

The DN-X120 features two channels with two dedicated line level inputs. The remaining two inputs are switchable between line and phono signal, to accommodate turntables or line devices. A three-band EQ with full kill is featured on each channel. The 45mm crossfader features a contour control for smooth or abrupt cross-fades. Additional features include split headphone cue, Fader Start On/Off, balanced and unbalanced main outputs.

#DEDNX120 ..... **199.95**

DENON
DN-X050 Rackmount DJ Mixer

Built with the mobile DJ in mind, the DN-X050 is both lightweight and easy to use. The knobs and faders are logically arranged, and each of their functions are clearly labeled. There are two channels, both with identical controls that are laid out symmetrically. Switch between vinyl turntable input and line input, adjust the gain, put the channel in cue, tweak the EQ, and ride the fader. Master section is equally as easy to figure out.

#DEDNX050 ..... **149.95**

DENON
DN-X500 Four-Channel Professional DJ Mixer

Four channels with two phono (turntable) inputs and up to ten line-level inputs (eight are dedicated, two are phono / line switchable). Internal routing matrix enables any input signal to be routed to any channel. Every channel features a 3-band EQ with kill on High, Mid and Low frequencies. 60mm VCA channel level and fader ensures smooth, accurate transitions. External Send/Returns are assignable to any input channel. Balanced XLR outputs and fader start support for MP3/CD players.

#DEDNX500 ..... **Call or Log-on**

#NUDXM06 ..... **164.95**

NUMARK
X1USB Compact Digital Scratch Mixer

Features multiple USB ports and all of the essential tools needed to create a dynamic mix. No software drivers are needed to connect to a Mac or PC. The USB ports enable you to use your computer like a DJ deck. Just play music with the software of your choice, assign a USB port o a channel, and mix away! You can also use the USB ports as outputs, letting you record your set into a computer with recording software.

#NUX1USB **174.95**

NUMARK
TTUSB Belt-drive Battle and Club Turntable

Belt-drive turntable with a USB output which allows for easy vinyl archiving directly to software. The TTUSB is physically designed for battle and club style DJs. The efficient belt-drive system provides accurate play and control. Dual Start / Stop switches enable club or battle style coffin mounting. 33 and 45 RPM speeds are supported (78 RPM via software) and a pitch control provides ±10% variation.

#NUTTUSB **129.95**

NUMARK
TTXUSB Ultra High-Torque Turntable

Durable, vibration resistant construction, high torque direct-drive motor and USB output for seamless vinyl-to-digital transfer. Bundled software simplifies the transfer process and archives audio files into iTunes. Illuminated display and controls provide a comprehensive read over pitch, speed and BPM counter. Additional features include interchangeable S-shaped or straight tone arms, digital outputs for direct sampling, Key Lock and ±50% pitch control.

#NUTTXUSB **335.95**

NUMARK
PT-01USB Portable DJ Turntable

Use to complement any portable PA system, or for stand alone listening. AC or battery powered with accurate belt-drive motor. USB output for direct connection to computers for archiving vinyl. A built in speaker enables monitoring and line level RCA output connections. Line level output eliminates the need for an amp with a phono input and is useful for direct connection to CD recorders, sound cards etc. 1/4" and 1/8" headphone outputs.

#NUPT01USB **79.95**

TECHNICS
SL-1200MK2 Prof. DJ Turntable

Direct-drive motor and precision quartz movement system delivers accurate pitch control and the overall feel DJs can't live without. Heavy-duty, vibration-resistant construction is great for installation in professional nightclub DJ booths, as well as frequent touring and mobile applications. Additional features such as adjustable tone arm weights, anti-skate control, a pop-up target light, and a sliding pitch control, make the SL-1200MK2 a terrific choice for top DJs.

#TESL1200MK2 ..... **549.95**

- 4x, 10x, and 40x Lenses
- Powers Available - 40x, 50x, 100x, 125x, 400x, 500x
- All-metal body
- Electric illuminator
- Iris diaphragm
- Mechanical stage
- Five prepared slides
- Coarse and fine focusing knobs

#CEM500 ..... **$164.95**

CELESTRON Advanced 1000x
Biological Digital Microscope

- Powers Available - 40x, 100x, 400x, & 1000x
- Metal Body with Rotatable Head
- 10x and 12.5x Eyepieces
- 4x, 10x, 40x and 100x Lenses
- Mechanical Stage
- Five Prepared Slides
- Abbe Condenser
- Iris Diaphragm
- 4.5 Volt LED Illumination
- Coarse and Fine Focusing Knobs

#CEM1000 ..... **$339.95**

KONUS Advanced 1000x
Biological Microscope with 15x eyepiece

- Magnifications of 60x, 150x, & 600x
- Turret-mounted lenses (4x, 10x, and 40x)
- Wide 120x110mm stage with slide clips
- Micrometrical and macrometrical, light condenser lens iris diaphragm with filter holder
- Illumination provided by 46mm concave mirror
- Double focus adjustments

#KOC600XM **$99.95**

KONUS Opal Dissecting
Microscope with Incident Light Illuminator

- Straight binocular head
- 20x Stereoscopical
- Paired 10x wide-field eyepieces with Dioptric Adjustment
- 2x objective lens
- Precision rack-and-pinion focusing system
- Incident illumination from high-intensity halogen lamp

#KO20X0M **$119.95**

KONUS Microvue
CCD Camera Computer Video Set

- For biological and stereoscopical microscopes
- 1280 x 1008 Max. resolution
- 1.3 MegaPixel CCD color camera
- Fits in eyepiece holder of most microscopes
- Connect camera to PC via USB to see images
- Windows 2000/XP
- Includes software and adapters

#KOCCDC **$239.95**

Nikon Mini 20x
Field Microscope

- Tiny and extremely portable field microscope tubes fold for travel
- 20x magnification
- Erect unreversed image
- Dioptric correction
- Sliding lens covers
- Detachable plate
- Dim. 3.5 x 3.5 x 4.9"
- Weight 14 oz

#NIFMS20 ..... **$299.95**

Nikon EZ-Micro 20x
Stereoscopic Microscope

- Simultaneous observation and shooting
- Enables photography with digital camera (requires bracket)
- 20x magnification
- Erect unreversed image
- LED illuminator
- Detachable plate
- Dim. 8 x 5.7 x 4.2"
- Weight 21 oz

#NIEZM **$759.95**

CELESTRON 44430
Digital LCD & Camera Microscope Accessory

- Attaches to Nearly All Microscopes • 3.0MP (2048 x 1536) Resolution
- 3.5" LCD Digital Eyepiece with 10x Magnification
- Projection Mirror Tube
- 23.2mm Tube Adapter
- 30mm Tube Adapter
- 12.5mm CS-Mount Adapter
- 17.5mm C-Mount Adapter
- Uses 100-240V AC Power

#CEDB3.5LCD **$259.95**

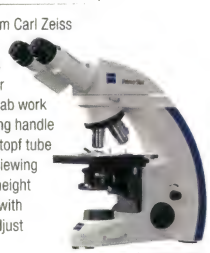

SWIFT Cordless
Microscope with LED Illum.

- LED illumination, produces cool, white light that last up to 100,000 hours
- 4x, 10x, and 40x Lenses
- Allows up to 50 hours of continuous use on a single, 8-hour charge
- 10x Eyepiece • Iris diaphragm
- Long battery life
- Coarse and fine focusing knobs

#SWM2251C **$223.00**

ZEISS Primo Star
Student Microscope

- Quality optics from Carl Zeiss
- 4x, 10x, 40x, and 100x Lenses
- 3 illuminations for educational and lab work
- Integrated carrying handle
- Swiveling Siedentopf tube
- Ability to adjust viewing height to user's height
- Rack and Pinion with Coarse & Fine Adjust

#ZEMPSS **$1,074.95**

ATN Goggles

Hand's free operation
All glass multicoated optics
Excellent comfort and easy to operate
Built-in infrared illuminator

- Viper is the smallest and lightest Night Vision goggle on the market.
- The NVG7 is configured with two oculars, one objective, and a single intensifier. The bi-ocular style viewing establishes a comfortable viewing experience, with minimal unit's profile and weight.
- The PVS7 is a robust and dependable night vision goggle from ATN. Its water and fog proof housing is complimented with all-glass optics and a high quality light intensification system.

DIGISCOPING

Photography with a Spotting Scope

Most spotting scopes can be attached to a digital camera and used as a telephoto lens. The best photographic results will be achieved using apochromatic spotting scopes which use HD/ED glass or fluorite. With SLR cameras, the eyepiece is removed from the scope and replaced with a special photo adapter. This photo adapter may contain lens elements specially designed for photography. Digiscoping usually refers to using a "point and shoot" digital camera and photographing through the eyepiece of the spotting scope. You can either hold the camera up to the eyepiece or purchase a special adapter.

PREMIER SELECT CELESTRON DEALER

CELESTRON

CELESTRON FirstScope

High quality Dobsonian style stand with a 76 mm reflector optical tube make FirstScope an ideal entry level astronomical telescope. Portable and lighweight table-top design. Very easy to observe with, the user simply navigates the night sky by moving the tube in the direction of their desired object.

Firstscope 76mm Telescope Kit #CEFS763004 ..... **$49.95**
Firstscope Accessory Kit #21024-ACC **$19.99**

CELESTRON SkyScout Handheld GPS-Based Planetarium Device

Point the SkyScout™ at any bright star and it will instantly identify the object.

- Locates over 6,000 stars, planets and constellations from built-in celestial database and provides scientific information for each object
- Constellation Lessons • SD card slot • USB Port

#CESSPP **$179.00**

CELESTRON SkyScout Scope

Designed exclusively for use with the Celestron SkyScout® Personal Planetarium® (sold separately), the new SkyScout® Scope 90 is easy to set-up, nearly maintenance free and features Celestron's precision optics. Simply attach the SkyScout® to the specially designed mount to locate and identify celestial objects. Once the SkyScout® has located or identified an object it's time to take your celestial experience to the next level and use the SkyScout® Scope to reveal the wonders of the universe.

- 90mm refractor optical design with all coated glass optics and 660mm (f/7) focal length for crisp, clear images
- Altazimuth mount
- Erect Image star diagonal -1.25"
- 10mm and 40mm eyepieces
- Erect image 6x30 finderscope

#CESSS90 ..... **$299.00**

Skyscout Connect #CESSC **$99.95**
Expansion Cards
Astronomy for Beginners #CEAFBEC ..**$19.95**
All About the Stars #CEABTSEC **$19.95**

CELESTRON PowerSeeker Series

- Easy to assemble German Equatorial Reflector/Refractor (Except 60 AZ)
- Slow-motion controls for smooth tracking
- Two 1.25" eyepieces
- 3x Barlow lens • 5x24 Finderscope
- Pre-assembled aluminum tripod & accessory tray

CORONADO Sun Telescopes & Hydrogen Alpha Sun Filters

Personal Solar Refractor Telescope

A compact cost saving design. Ready to use out of the box this complete Ha telescope will delight even the most experienced observer

- 40mm Apeture • 400mm f/10.0
- Bandwidth: <1.0Å
- Fits Standard Tripods
- Blocking: Full Blocking > 105 from EUV to far IR

with 12mm Kellner Eyepiece #COPST.....**$499.00**

SolarMax 40 Refractor Telescope

Designed to revolutionize Ha viewing. Lightweight and extremely portable at just under 3lb

- 40mm Apeture • 400mm f/10.0
- Bandwidth: <0.7Å
- Blocking: Full Blocking >105 from EUV to far IR
- Thermal Stability: 0.005Å/C

with BF-10 blocking filter, travel case and clamshell mounting ring #COM40BF10400.....**$1,599.00**

SolarMax 60 Refractor Telescope

The 60mm aperture allows for increased resolution and provides enhanced performance. Light-weight & extremely portable

- 60mm Apeture • 400mm f/6.6
- Bandwidth: <0.7Å
- Blocking: Full Blocking >105 from EUV to far IR
- Thermal Stability: 0.005Å/C

with BF-10 Blocking Filter, 25mm Cemax Eyepiece (1.25") & Case #COM60BF10400.....**$1,999.00**

SolarMax Blocking Filters

The BF-5, BF-10 and BF-15 are all 1.25" right angled (90º Diagonal) while the BF-30 is a 2" straight through they fit your existing eyepieces.

BF-5 Filter Focal Length <500mm #COBF5.....**$399.95**
BF-10 Filter Focal Length <1000mm #COBF10.....**$584.95**
BF-15 Filter Focal Length <1500mm #COBF15.....**$859.95**
BF-30 Filter Focal Length <3000mm #COBF30.....**$1,584.95**

Filter with Doppler Tuning Unit, Blocking Filter & Hard Case

A conventional telescope can be converted for Ha viewing with SolarMax series filter, Blocking Filter and adapter plate to fit your Specific telescope. (BF Blocking Filter & Adapter Plate Optional)

SolarMax 40mm used with front diameter or less than 60ø for 1500mm.....**$1,714.95**
SolarMax 60mm used with front diameter or less than 90ø
for 1000mm.....**$2,579.95**
for 1500mm.....**$2,854.95**
for 3000mm.....**$3,579.95**

for 1500mm.....**$5,309.95**
for 3000mm.....**$6,034.95**

TeleVue Visionary

TeleVue TV-60is Imaging System

- Apochromatic Refractor
- For astronomical and terrestrial imaging
- For both electronic capture and real-time viewing
- 60mm (2.4") Objective Diameter
- 360mm f/6 Focal Length
- 180x Max. Magnification • Weight 4.75 lb

Includes: OTA, TFM-2000 Focusmate Fine Focus Accessory, Dovetail Mounting Plate, Threaded Field Flattener with Incorporated T-Mount Adapter, Objective Lens Cap, and TV-60 Carry Bag

#TETV60IS.....**$1,695.00**

TeleVue TV-85 APO Kit

- Apochromatic Refractor
- 85mm (3.3") Objective Diameter
- 600mm f/7 Focal Length • Max. Visual Field: 4.4°
- 225x Max. Magnification • Weight 8 lb

Includes: 20mm Plossl Eyepiece (1.25"), 2" to 1.25" Eyepiece Adapter, Dew Shield, 90° Diagonal (2"), and Soft Case

Green #TETV85CG.....**$2,150.00**
Ivory #TETV85CI.....**$2,150.00**
Brass #TETV85CB.....**$2,550.00**

Televue eyepieces bring out the best from all telescopes and can be used with other Manufacturer telescopes!

TeleVue Nagler (82°) Eyepieces

- Threaded for Filters

Three Nagler Types cover low to high power:

Type 4 Naglers– have comparatively longer eye-relief for their focal lengths.

Type 5 Naglers– have the largest true field sizes.

Type 6 Naglers– range from medium to very high powers, all with similar size and 12mm of eye-relief.

Eyepiece	Barrel Size	Type	Eye Relief	Price
2.5mm	1.25"	6	12mm	**$290.00**
3.5mm	1.25"	6	12mm	**$290.00**

MEADE

ETX-LS with Lightswitch Technology

The revolutionary ETX-LS uses LightSwitch technology to take all the hassle out of using a telescope—and bring the fun back to astronomy. Simply flip the switch and ETX-LS automatically delivers telescope location, time, date, orientation and alignment with the sky. Plus, the Astronomer Inside then takes you on a guided multimedia tour of the best objects in your sky. The aluminum mount is lightweight and portable, yet has a rigid structure with precision worm-gear drives fo the ultimate in tracking and pointing accuracy.

- No stars to center. No bearings to take. No time or location to enter.
- Built-in ECLIPS CCD lets you capture images of celestial wonders and save them to an SD card • ACF (Advanced Coma-Free) optics deliver distortion-free clarity and sharp-as-a-tack resolution. • Easy-to-use Autostar III hand-held controller lets you select from over 100,000 celestial objects.

#MEETXL6SC..... **1299.00**

MEADE DSI Deep Sky Imager with AutoStar Suite Software

DSI II

- 16-Bit A/D conversion with small pixel size • Automatic & manual exposure controls • Real-time display of objects on your PC's screen • Works on any telescope with 1.25" eyepieces
- NASA Drizzle Technology

DSI II #MEDSI2C.....**$399.00**

DSI Pro II

- High-sensitivity Sony® monochrome CCD sensor
- 2x the sensitivity of DSI
- 4x the resolution of DSI
- DSI II models have highest resolution and lowest noise levels

DSI Pro II #04524.....**$399.00**

with RGB Color Filter Set

- RGB color filters add vibrant color to DSI PRO images. (DSI imagers are already color but PRO imagers are black & white)

DSI Pro II #MEDSIP2MR..**$499.00**

MEADE ETX 80AT TC Kit

- Built-in barlow lens
- Compass & bubble level

Includes: Super Plössl 9.7mm & 26mm 1.25" eyepieces, #494 Autostar Computerized Hand Controller, #882 Field Tripod, Autostar AE Software & Backpack

	80mm (3.1")
SKU #	#MEETX80ABP

JMI Jim's Mobile Inc. Telescope Carrying Cases

JMI Carrying Cases include crush-resistant, die-cut foam contoured to safely hold your telescope during transport. The larger cases are manufactured with 1/4" plastic for super-strong but lightweight support. Most cases include an extra handle with wheels on the opposite end for easily maneuvering the case without lifting the entire weight. These efficiently-designed cases are smaller than the original manufacturer's cases. They protect your investment and make it easier to move your scope on location.

Single Channel Character Generator

Condition 9 **$4,999.00**

Selling Used Equipment to B&H

Selling your equipment to B&H is simple and convenient.

Let us know what you have and what condition it's in, and we'll make you an offer. After accepting our quote and shipping your equipment to us, our technicians will check it out and give us the O.K. We will then send you a check or store credit (whichever you prefer). The price we pay has no bearing on whether or not you are buying anything else from us.

We buy one piece or your entire studio. We do not accept consignments, we purchase outright.

How to sell your Equipment:

Fill out and submit the seller's form with information about your gear. You will receive an e-mail response from one of our buyers with a price quote and a quote number. Or call to speak directly with one of our professional buyers regarding your transaction. You will be given a quote number. The price we quote is valid for up to 14 days after you receive your e-mail.

Access the seller's form by going to www.bhphotovideo.com/used and click on "get a price quote."

To speak with a buyer or sales associate, call us at 888-520-3010

You can bring your items to our SuperStore:

366 West 34th Street
New York , NY 10001, USA
Between 8th and 9th Avenue

Or Ship Your Equipment to B&H:

Send us your gear with your quote number on the box via UPS, U.S. Mail, or delivery services. Be sure to pack your items securely and insure them fully.

B&H Photo-Video Inc.
Attn: Used Department Quote #
366 West 34th Street

ORDERING, PAYING and SHIPPING INFORMATION

Orders by Mail: Please print name, address and phone number clearly. (Orders without phone numbers may be delayed). NY residents please add appropriate sales tax. All items are covered by USA, Int'l or B&H (For only those items imported directly by B&H).

Paying: Mastercard, Visa, Discover, American Express, Money-Order, Bank Check, Certified Check, (personal check up to $30,000.00 with name imprinted on check) accepted. When paying by credit card, state card number, expiration date, billing address & phone number. **Gift certificates available.**

Return Policy: 14-Day Photo Return Policy (7 days on all other items) (with prior approval only) minus freight charges if returned in mint condition, in original packaging, with unfilled warranty cards (subject to B&H Return terms and conditions, as stated on our Web site.

Shipping Methods: In the Continental U.S.A. will be via UPS (excluding P.O. boxes which will be shipped via airmail). Alaska, Hawaii via 2nd Day UPS. Over-sized items via truck. We ship to all A.P.O. and F.P.O. addresses (for shipping rates check our Web site) via US Mail.

White Glove Delivery Service: Avoid the hassle & inconvenience of struggling to set up your large plasma or LCD entertainment center. No more heavy lifting; let the experts handle it. Trained delivery professionals will bring your purchase into your home, unpack it, and place it on your shelf or stand. The White Glove folks will contact you to arrange a convenient appointment.

Anywhere in the Five New York Boroughs $80 up to 250 lb. Anywhere in the Tri-State Area $125 up to 250 lb. To all other states $185 up to 110 lb. Call for rates over specified weights.

Because B&H is working closely with all shipping companies to get you - the customer - the best and quickest service for the best price, shipping costs are subject to change without notice.
